The most famous event in the history of the fort was the raiding of the army stores in 1869. The government then had a great many stores there and the surplus that could not be cared for at the fort was piled up along the railroad track with two watchmen to guard it. One of them, John Hays, went across the street one night and entered a saloon to get a drink. As he went in he was met by two soldiers from the fort, who, without provocation, killed him. The soldiers were colored and were drunk. They went into a barber shop and broke mirrors and scared the proprietor to the roof of his shop. He went to the fort and when the men were ranged in dress parade by order of the Colonel he picked out the desperadoes. They were taken to Hays and shut up in a cellar that served as a jail. That night they were taken out by the citizens and strung up to the railroad bridge. In 1874 the Ninth Infantry (colored) tried to get even with the town, but in the battle that ensued six of their number were left dead in the street. There were many other fatalities in the conflicts between the town and fort, and the soldiers found that they had a town of fighters to deal with.

The old-timers, like the late Henry Inman and Gen. Forsythe, tried their mettle here and found honor. Now it will be devoted to peace, for the terms of the grant are that the agricultural college and State normal school shall have it for branches of those institutions. It is expected that at least 600 students will be in attendance.—Globe-Democrat.

Women Not Cowardly.

When cowardice is described as a leading feminine attribute somebody makes a huge mistake. Women do the most daring things on record—take chances which would appal a man. They may jump at the sight or mere mention of a harmless mouse, but they court death several times a year. It is one of the traits which makes feminine nature so puzzling. I have known women who were timid to a degree, under ordinary circumstances, come forth as heroines under the pressure of occasion. A woman who shudders at the sight of a small cut from which blood oozes will often exhibit a marvelous courage in a shocking accident. It is beautiful to think that dependence can be placed upon the sex in times of need.

DISCOVERY

The body is built up from the food we eat. But before food can be assimilated by the body it must be prepared for assimilation by the stomach and other organs of digestion and nutrition. *Food does not feed when the stomach is "out of order."* The result is, weak muscles and flabby flesh. "Golden Medical Discovery" heals diseases of the stomach and digestive and nutritive system. It works with Nature to make manly muscle and form firm flesh.

In a letter received from A. D. Weller, Esq., of Pensacola, Escambia Co., Fla. (Box 544), he states: "I have, since receiving your diagnosis of my case, as stomach trouble and liver complaint, taken eight bottles of the 'Golden Medical Discovery' and must say that I am transformed from a walking shadow (as my friends called me) to perfect health."

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures, size 20x24, on heavy, superfine calendered paper. A picture that will command itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer riflemen. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 60 in one day. Sample and terms 25 cts (one free); four for 60 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00. Write to-day for a dozen and make money. Love Won and Lost.

A NOVEL.

(Continued.)

says her head aches, and she is waiting for you."

A sudden impulse swept over Ulmont to go to her; but he checked it quickly.

"No," he muttered; "there must be no wavering in the path of duty. Say I cannot come, I am very busy, she need not wait for me," he commanded wearily; "do not disturb me again."

The man walked away, wondering what had come over the young master.

Toward morning the library bell rang furiously.

"Zack," he said, "I want you to pack my valise and your own immediately; order the carriage to be in readiness at the door within half an hour. You have been a tried and trusted servant; I command you to let no one know of this matter; not even my wi—not even Mrs. Ulvesford."

"What, sir?" cried Zack, aghast, scarcely believing he had heard aright; "not even Mrs. Ulvesford?"

Ulmont turned away his face with a bitter groan.

"Sir," said the old servant, gravely, "I've been here long years— ay, sir years before you were born, and I make bold this once to speak my mind I have known every sorrow that has come upon the people of Ulvesford, but I do not know yours. I can see by your face that it is no small one; but I say this, sir, if you leave your young wife in this way, without, one word, her heart will break. Master, do go to her; she was quite ill when I left her; her cheeks were flushed and her eyes burned like stars."

"Zack, Zack," cried Ulmont, distractedly; "you must not tempt me, too! I must act like a man of honor. I have never flinched from a terrible ordeal—I must not now. You and I are going away, Zack; I am driven from here by a terrible crime. I cannot tell you more. Pack the valises quickly, bring the carriage around *by the park gate*; let me know at once when all is in readiness."

The preparations were soon completed.

Ulmont Ulvesford leaned his head wearily against the mantel, gazing round the room for the last time.

"Better Loraine should learn to despise me," he sighed, "than sully for one instant her spotless honor."

He dared not think of Izetta.

"No, no— I must leave home at once and forever. I shall never look upon their faces more."

A great yearning came over him to see his child, but the thought he put quickly from him.

He heard the trampling feet on the thick carpets of Loraine's apartments overhead, yet he quite forgot to think it an unusual occurrence at the dead of night.

His overcoat lay on his arm and his valise at his feet; he was impatient at the unaccountable delay; he had intended to be far away from Boston when daylight overtook him.

The carriage stood in waiting at the park gate. Zack had scarcely stored his luggage under the seat when a heavy hand was laid on his shoulder, and a foreign voice asked:

"Is this Ulvesford Place?"

Too astounded to speak, Zack nodded his head.

"Is your master within?"

"Why, of course," answered Zack; "where else would he be at this time of night?"

There were two cloaked strangers. Zack saw a strange smile pass between them.

"There is some mystery here," said the stranger, indicating the carriage.

"Not that *I* know of," answered Zack, tartly.

"Perhaps it is the custom of the country, then, to have a carriage standing at a gentleman's gate, ready for use, after midnight, eh?"

"I reckon my master knows his own business," retorted Zack.

Again he noticed the same strange smile pass between the strangers.

"Mr. Ulvesford anticipates a trip abroad?" asked one of them, interrogatively.

"I say it's none of your affairs," said Zack, irascibly; "if anybody asks you, just you tell them you don't know."

"Not so fast, my good man," interposed the stranger; "supposing I do know?"

"Eh!" said Zack, surprisedly.

"My business here to-night is to tell your master he need not go."

Zack dropped the whip he held in his hand in utter amazement.

"You don't say so!" he ejaculated.

"Yes," responded the stranger; "you have noticed your master is greatly worried of late, have you not?"

"Oh, Lord bless you, yes, sir; he's clean broke up."

"Exactly," chuckled the man softly, rubbing the palms of his hands together; "I have come to lift that trouble from your master's mind, my good man. I want you to lead the way to where your master is waiting, if you please; my friend and I will follow."

"I will go and announce you first."

"Quite unnecessary; it will be all right, my good man, your master is expecting us; time is valuable."

Still Zack was not wholly satisfied; he had misgivings. No thought of the terrible consequences came to faithful old Zack as he answered, bowing low before them:

"If that is the case, gentlemen, I will conduct you to him at once."

He led the way down the long graveled walks and through the dim, wide corridors, their footfalls making no sound on the velvet carpet.

They reached the library door. Zack threw it open wide with a low bow.

Ulmont Ulvesford, his traveling duster and rug thrown over his arm, his valise at his feet, still leaned his head upon his arm, against the mantel; he did not even raise his head as the door opened.

"If you please, master," said Zack, "two gentlemen——"

"Never mind formalities, my good man," interrupted the spokesman of the two, stepping forward, "allow us to present ourselves."

Their cloaks slipped from their shoulders.

"Swiss officers who bear the extradition papers wherein Ulmont Ulvesford was wanted in Savoy for the murder of one Heath Hampton in the Alpine Mountains!"

CHAPTER XXXVIII.

Loraine.

"I am sorry we have interrupted your flight to climes more congenial," said the officer, stepping forward "we must do our duty— you are our prisoner, sir."

Then, and not until then, did the heroic bravery of the noble young heir clearly manifest itself.

"Gentlemen," he said calmly, "I am not guilty of the charge you bring against me; 'tis true, a duel was fought between Heath Hampton and myself, but I swear to you I left him with but a mere scratch on his right hand."

"That is not for us to judge," answered the officers doggedly.

At that moment the door was flung open, and Mrs. Lorrimer, her eyes red and swollen with weeping, swiftly entered the room.

She saw the officers in their strange foreign dress and Ulmont in his traveling garb standing between them.

"Ulmont," she whispered, pointing to the officers, "what do they wish here?"

Ulmont was frightened at the terrible calmness of her voice.

"What do they wish? answer me," she commanded.

Slowly the officer stepped forward.

"He is wanted in Switzerland, madam; we are come to escort him thither."

They all read the terrible question in her eyes, and they pitied the proud, white-haired lady before them as they continued in a low voice:

"For the murder of Heath Hampton in a duel."

"*My God!*" cried the mother, the tears rolling down her furrowed cheeks; "and in the room above his wife, my only child lies dying! Oh *Ulmont!*" she *wailed*, "*tell* me this new sorrow is not true; I cannot bear much more; my cup of grief is already full."

No word issued from Ulmont Ulvesford's white, set lips.

"Come, sir," said the officers hurriedly, "we must be off."

"Gentlemen," she whispered, stepping nearer them, "in yonder room his young wife lies ill—I say she is dying— he must come to her at once. She will not die if she but looks upon his face before it is too late."

"No," said the officers, sternly, "we are sorry to disoblige you, madam, but delays are dangerous; we must refuse you."

"If you are human," she cried, "listen to me; he must see her. She has called for long hours upon his name, yet he came not; she has worked herself up into a high fever— if she looks upon his face and rests her golden head upon his breast, she will drop into peaceful slumber like a little child; if he comes not the fire of her weary watching must soon consume her; for the sake of your wives, mothers, and daughters, grant my prayer."

Something very like a tear glistened in both officers' eyes.

"See, the morning is breaking swiftly— we must be far from here ere *the sun has risen*; *still* we cannot refuse the young gentleman a few moments—in our presence— with his wife. Lead the way, madam.

Silently the officers stationed themselves unobserved behind the hanging draperies, while Ulmont followed by the sorrowing mother, quickly approached the couch upon which Loraine reclined.

They heard a glad cry: "Ulmont, my darling," and two white arms were flung around Ulmont's neck.

"What have I done that has displeased you, dear?" whispered Loraine; "you could not have stayed away from me so cruelly if it were not so. Why did you not come hours ago, love?"

Ulmont's heart was full; he only shook his head, clasping the lovely form he was so soon to leave madly to his wildly beating heart; in that moment he quite forgot she was not his wife.

"I have had such horrid dreams, love," she sighed, "but they are all gone now that I have you with me again."

"You would not like to lose me, Loraine?" he asked, in a voice terribly calm.

The clasp of the white arms tightened about his neck.

"Do not say such frightful words, Ulmont. I cannot bear such thoughts, dear; you must not try my heart so cruelly."

Ulmont could scarcely repress a groan that rose to his lips.

"I want you to clasp your arms closely about me, *Ulmont*," she said, with a smile on her innocent face, "and tell me how truly you love me. I want you to whisper; 'I love you dearly, my wife.'"

Ulmont's heart was nearly broken, he was but human, and his suffering was growing beyond human endurance, as he whispered every tender word of his pent-up love, clasping her madly to his breast, knowing it was for the last time while they both lived.

"Thank you, dear," she said, "if you had come to me long hours ago it might have been different. I feel, Ulmont, as if I were slowly drifting away from you; ere the sun rises in the eastern sky you may have no Loraine."

A gradual whiteness had stolen over the beautiful flower-like face, whose life was like a sensitive plant; the first chilling blight that had come upon her, had struck like a keen blast to her heart.

"You see, Ulmont," she smiled, "I could not endure even a few brief hours out of your presence."

The fountain of the mother's tears was dry.

Ulmont Ulvesford, strong man though he was, flung himself on his knees beside the couch and wept like a child.

When *the doctor had been* called, he said:

"If there is one power above all others that can save her, it is her husband's presence; if that fails her she is lost to us."

"*Ulmont*," she whispered, "such long, dark shadows seem stealing around me; clasp my hands tightly or I may slip from your grasp."

Suddenly the blue eyes flashed brightly open, gazing around upon the little group.

"Where is Izetta," she asked, softly; "that she is not here?"

Mother and husband's eyes met in a horrified glance.

"Tell Izetta I want her here at once," she said, with sudden energy.

How could they answer?

A WONDERFUL

KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

I. A. HOPK

BRIGHT'S DISEASE, GRAVEL, DROPSY,

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful a[illegible] kidneys and bladder. Since its introduction into this country its fame [illegible] spread, because of its seemingly impossible cures. Prominent men and w[illegible] testified to its great curative powers, and hospital tests prove its infalli[illegible] advanced stages of Bright's Disease. Among the more recent recoveries is th[illegible] A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansa[illegible]

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis, [illegible] troubled with Kidney and Bladder Trouble for years. Two years ago I was sick [illegible] with Malarial Fever which left me in a bad condition. My limbs were swollen w[illegible] time so that I could hardly walk: I was troubled with Indigestion from taking M[illegible] Urinary troubles which had become very much worse. I had to get up every hour to urinate. I passed great quantities of blood on account [illegible] Bladder. I tried and had been trying everything in the shape of medicine for Ki[illegible] that I could think of or that the Doctors recommended, but nothing helped m[illegible] getting worse. I suffered great pain continually in my Kidneys. I made up my [illegible] I could get relief that I only had a short time to live. About this time my atten[illegible] to an advertisement of Alkavis. As a drowning man will grasp at a straw, I w[illegible] anything for relief. I sent to you for three bottles. I began to take it, and before it one week I began to feel the good effects of Alkavis. My Kidney Trouble and [illegible] were soon gone, my digestion became all right, I found myself in better health than [illegible] and I am in good health now. I know that Alkavis saved my life. What more can [illegible] for a medicine? Unlike most medicines it is good for indigestion. It gives the [illegible] it a good appetite. I have recommended Alkavis to a great many people an[illegible] benefited by its use. I am 53 years of age, and am very grateful for what Alkavis has [illegible]

Respectfully yours,

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic disease he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits [illegible] lime, uric acid, [illegible] gravel, torpid liver, rheumatism, [illegible] difficult and too frequent urina[illegible] cure is complete. Morning Times

PETERBOROUGH, NOVEMBER 20, 1900

TOWN AND COUNTY NEWS

The Perjury Case

The charge of perjury laid against Mrs. Wm. O'Brien came before Police Magistrate Dumble yesterday, and was remanded until Thursday.

Funeral Today

The funeral of the late Alfred W. Cowan, whose death was announced in yesterday's issue, will take place this morning at 10.30 o'clock to the G.T.R. station, the remains being taken to Orono for interment. Representatives of the local Masonic lodges will accompany the body to Orono.

Twenty-eight Years

Mr. Harry Winch has been a subscriber to and a reader of the Times for over 28 years. He was one of the first—if not the very first—to subscribe, his name having been entered on our books on the 3rd of February, 1872. We hope that Harry may live to read the Times for 28 years more, and even many years after that, as he is a young man yet.

New Tailoring Establishment

Mr. F. M. Cobb, late of Chicago, has opened up a ladies' and gentlemen's tailoring establishment, in the premises next to the Bank of Montreal. Mr. Cobb is an experienced cutter, and knows how to cut and make a well fitting suit of clothes, either for gentleman or lady. He is prepared to guarantee entire satisfaction.

Lang's Majority 174

Yesterday Mr. B. Morrow, returning officer for East Peterborough in the Dominion elections, opened the ballot boxes and proceeded to collate the returns made by the deputy-returning officers; the result showed that there was a majority of 174 votes cast for Mr. Lang and he was therefore declared duly elected. Mr. R. A. Peck present on behalf of Mr. Tilexsmith, making no objection.

Successful Hunters.

A party of hunters returned to town on Saturday from Burnt River, Haliburton district. They were Messrs. H. B. Spencer, Toronto; W. Bryant and O. Kingdon, town. They had been out about a month, but only spent a week after deer, securing six in that time. One buck weighed 220 pounds dressed, and was the largest shipped out of the Haliburton district in five years. The party also secured a large quantity of partridges.

Returned from the Hunt.

Messrs. Geo. Sawers and John Montgomery returned Saturday night from Parry Harbor district, where they spent a few days deer hunting. The party were only out two days and a half and captured six deer. On the way home they saw 186 deer piled up at one of the stations for shipment. They also saw a moose shot in the vicinity that weighed nearly 600 pounds. It had a fine pair of antlers.

Our Hockeyists.

Toronto Telegram: Lionel King, M.D., of Peterborough, is in town. Speaking of hockey, he says Peterborough will enter three strong teams in the O.H.A. this winter and that the sport will boom as it never did before. He says that the trouble in Peterborough has been with the rink not being large enough. This, however, will be remedied next year, when a new one will be built. All the old players will chase the puck so that the Electric town should show up well. Dr. King can't explain exactly why London defeated the Peterborough's footballers, but admits it was a horrible reversal of form.

PRACTICAL PATRIOTISM.

Ladies of Canada:

Inter-mutual trade is the true basis of the federation of the Empire. So far as possible, one colony should consume the produce of another.

Canadians and India and Ceylon tea planters fought side by side in Africa. About ten per cent. of the latter volunteered for the war.

The Teas of Ceylon and India are the best and purest the world produces. Already the Black Teas of those colonies have captured the Canadian market. The Green is now fast displacing Japan's colored article. Quality and sentiment unite to recommend it. Canadian ladies who drink Japan tea should help the British planter by drinking Ceylon green tea. Blue Ribbon, Monsoon and Salada packets are ready for you.

JOTTINGS ABOUT TOWN.

—The rain yesterday made the streets bad to walk on.

—The non-coms of the 57th Regiment intend giving a smoking concert to their friends on Thursday evening.

—The non jury sittings of the High Court of Justice for the County of Peterborough will be held on Nov. 27th.

—Mr. Walter English, Market Clerk, deposited the first ballot in the Times Municipal Campaign, yesterday morning at 8 o'clock.

—Mr. Roland H. Strickland, M.E., was moments at police court yesterday morn- turned to his home in Lakefield from a trip to the Yukon.

—A drunk and disorderly occupied Magistrate Dumble's attention for a few moments at Police Court yesterday morning. A fine of $1 was imposed.

The best that money can buy should be your aim in choosing a medicine, and this is Hood's Sarsaparilla. It cures when others fail.

—Municipal elections will occur next year on the latest possible date. The new year comes in on Tuesday, the first Monday will therefore be January 7.

—Whitby board of education has added a typewriter to the Collegiate equipment, and a large number of pupils are taking lessons.

—The public are reminded of the graduating exercises of the Nicholls Hospital, which will take place in the Y.M.C.A. on Thursday evening. A choice program will be rendered.

—The Times bindery department recently received an order for 100 blank books from the Manitoba District. The quality of the work turned out by us is becoming known.

—Major Guillet, the defeated Conservative candidate in West Northumberland, is busily engaged gathering material for the protest which it is intended to enter against the election of Mr. J. B. McColl.

Do not forget the lecture this evening in the Y.M.C.A. hall by William Wilfrid Campbell, the distinguished Canadian Poet, under the auspices of the Fortnightly Club. Mr. Campbell's subject is "Our National Inheritance," and he may be expected to handle it with rare eloquence and originality. An admission fee of 25c. will be charged, which will entitle the purchaser to a card of membership in the club and free admission to subsequent meetings.

"Regular Practitioner—No Result."—Mrs. Annie C. Chestnut, of Whitby, was for months a rheumatic victim, but South American Rheumatic Cure changed the song from "despair" to "joy." She says: "I suffered untold misery from rheumatism—doctors' medicine did me no good—two bottles of South American Rheumatic Cure cured me—relief two hours after the first dose."—go Sold by Ormond & Walsh.

SOCIAL AND PERSONAL.

—Miss Sousie Loucks of Marmora is visiting friends in Peterborough.

—Mr. David Walker, the genial and kindly proprietor of the Walker House, Toronto, who is well known to many readers of the Times, was the recipient of many congratulations on his seventieth birthday on Saturday. His numerous Peterborough friends join in wishing him many happy returns.

Provincial Appointments

The following Provincial appointments are gazetted.—Cornelius J. O'Neill, Chatham, barrister, to be Local Master for the County of Kent, in place of the late Robert O'Hara; Edgar Patten, St. George, Bailiff Third Division Court, County of Brant; Alexander Looking, Emo, Bailiff, pro tem. of Second Division Court, Rainy River district.

IMPORTANT LIQUOR CASE

The Proprietor of the Oriental Charged with Selling Liquor on Election Day

A very interesting liquor case came before Police Magistrate Dumble yesterday, when Mr. George Graham, proprietor of the Oriental hotel, was charged with selling liquor on election day.

Mr. E. B. Edwards, Q.C., Town Solicitor, conducted the prosecution and Mr. James Haverson, of Toronto, with Mr. A. P. Poussette, Q.C., represented the defence. The case took up the greater part of the day, arguments frequently arising between the lawyers as to the admissibility of the evidence. Twenty-three witnesses were examined. Magistrate Dumble reserved judgment for one week.

DID NOT LEAVE HIS JOB.

Could Hold Down Any Amount of Work When Properly Fed.

A young man clerk in a store in Kansas city had a curious experience with food, as related to his health. He says: "About ten months ago a dizziness came upon me each morning, kept growing worse, and a headache would invariably come on in the afternoon, and after meals I would have vomiting spells which would leave me very weak; also there was a burning sensation in the locality of my heart, and many nights I have not slept a wink.

"A physician whom I consulted told me to give up my position at once and go to some watering place for my health, for if I did not, it would only be a question of a short time until death would claim me. I did not feel able to give up my position, but my position kept getting worse, and finally my skin turned to a sort of greenish color, appetite left and I was thoroughly discouraged.

"About this time our grocer, by mistake, sent up a package of Grape-Nuts instead of some other goods ordered. I thought I would try it, having no idea that it would in any way benefit my health, but the first day after using the food I noticed a decided change in my condition. My severe headache did not appear as usual, and I began to have an appetite.

"I thought at first it was the effect of a medicine I was taking, but one of the family suggested that it might be Grape-Nuts, for Grape-Nuts had the reputation of being a great nerve builder. In order to be sure, I quit taking any medicine whatever, but continued the use of Grape-Nuts.

"On the eighth day the dizziness entirely disappeared and the headaches were very slight. I felt almost like a new man, and in three weeks after I began using the food was entirely well, and am now in better health than I have ever been. My own case proves the truth of the claim that Grape-Nuts food is a great vitalizer and brain food." Wm. J. Woods, 1717 Holmes St., Kansas City, Mo.

People are gradually learning that health depends on food, and the wiser the selection of food, the more perfect the condition of health. Grape-Nuts food is the most scientifically made food in existence, and is perfectly cooked and ready for instant use.

THE WELLAND CANAL.

Editor Morning Times.

Sir,—Will the Times kindly tell its readers when the Welland Canal was completed, and what it cost. Also the estimate of the total cost of the Trent Canal, and oblige, A READER.

Ans.—The Welland Canal was completed in 1843, at a cost for construction of $23,796,393; its length is 26 3-4 miles. The Trent Valley Canal is estimated to cost $6,000,000.

A FILTHY HABIT.

Editor Morning Times.

Sir,—I notice in many cities there are stringent laws against spitting on the sidewalks. Particularly is this so in the States. In St. Paul, for instance, it is a misdemeanor punishable by a fine of from $1.00 to $50, or imprisonment for one to sixty days to spit on the sidewalk. People are also prohibited from throwing cigar stubs or fruit peelings upon the walks.

Now, Mr. Editor, our sidewalks are simply disgraceful in this regard. Ladies skirts have to sweep through great oceans of tobacco juice on many of the street corners where loungers congregate. I hope now that the Times has taken up municipal election work, that men will be selected for the council who will at least have sufficient consideration for the ladies to pass a law against spitting on the sidewalks.

Thanking you, Mr. Editor, I am, etc.,

The Fount of Life

IS THE PURE RED BLOOD THAT COURSES THROUGH THE BODY.

If the Blood is Impure and Stagnant, Disease Holds Sway.

Paine's Celery Compound

PURIFIES, ENRICHES AND VITALIZES EVERY DROP OF BLOOD.

The majority of intelligent people know that rich, pure and highly vitalized blood alone can give health and build up the tissues that have been worn out. New and fresh blood carries all the materials for restoring wasted and worn out parts of the body, and gives to the brain other materials for making nerve matter.

Paine's Celery Compound cleanses and purifies the blood and furnishes appropriate food for every part of the system. It increases the appetite, perfectuc digestion, gives nervous energy and increased health.
It increases the appetite, perfects digest-

If your blood is impure, if the skin has spots and eruptions, if you have an unhealthy pallor or yellow appearance, and if the eyes are showing yellowish whites, you should use Paine's Celery Compound without delay to cleanse the blood and regulate the liver and kidneys of the strain that is brought upon them whenever impure blood pours through their substance.

Mr. M. D. Arthur, Chelmsford, Ont., writes as follows:

"I was laid up with scars all over my face and neck, the result of blood poisoning. While in that condition, I could not sleep at night, had no appetite, and could not attend to my work. The doctors in my district and their medicines did not benefit me. My aunt advised me to use Paine's Celery Compound. In two weeks I was so much better that I could go out, and in three weeks I was able to work again. I bless the day I commenced with Paine's Celery Compound.

GERMAN ACTION IN CHINA STRONGLY ATTACKED

Member of the Reichstag Says the Germans Have Been Guilty of Brutality—Converts Still Persecuted.

St. Petersburg, Nov. 20 — Readers of the Russian newspapers with the exception of the Liberal Novosti cannot avoid remarking the close parallelism between them and German Socialist newspapers on the Chinese question. The Rossiya anticipates that the United States will antagonize the Anglo-German program.

New York Nov. 20.—The Chinese negotiations, according to a despatch to The Times from Washington, have reached a most serious stage. The actions of the powers are making partition among inevitable. The United States faces the probability that it will either have to take a slice of China or go without any indemnity. In that case it is positively asserted by high authority that America will go without indemnity.

GERMAN METHODS INHUMAN.

Berlin, Nov. 20.—Yesterday's session of the Reichstag was attacked by a large crowd. The court and diplomatic boxes were full. Count Von Buelow's reception was decidedly cold. Only once was there hearty applause, when the Chancellor admitted that the Government had asked indemnity from China—then the applause was remarkable.

Herr Lieber, Centrist, and Herr Bebel, Socialist, both severely condemned the Government for violation of the constitution incurring the expenses in China without having first obtained the consent of the Reichstag, and for creating the China colonial army. Herr Lieber sharply critized the Emperor for his "no pardon" speech, declaring a campaign of revenge and for saying that no decision beyond the seas must be reached without the Emperor's consent. He denied incidentally that an American loan had served to pay the campaign expenses.

Herr Bebel created a sensation when he declared faulty the Empire's constitution, which did not provide specific punishment for a chancellor who violated it. The constitution, he said, alone prevented the Chancellors impeachment. Herr Bebel also branded as inhuman the German methods of warfare in China, and read a score of letters from soldiers there, proving the charges he made.

Gen Von Gossler, Minister of War, made a most unfortunate speech. He said Huns once devastated Europe and now was the time for historic retribution in China, and he called it a lucky circumstance that the army had a chance to wage the war.

The members of the left and centre often interrupted Gen. Von Gossler with jeers and laughter.

PIER TO COST $200.000.

Tien Tsin, Nov. 19.via Shanghai, Nov. 20.—Brigadier-General Charles F. Humphrey, of Gen. Chaffee's staff, who left about a week ago for Shan Hai Kwan, on the Gulf of Liao Tung, to inspect that place, with a special view to its availabilty as a winter port, returned to-day. He says the ta pier will be built at international expense, the cost to be $200,000, at Ching Wong Tao, eight miles from Shan Hai Kwan, owing to the greater ease with which that port can be kept open for winter communication.

CONVERTS PERSECUTED.

London, Nov. 20.—"The French Consul here reports," says the Shanghai correspondent of The Daily News, 'that severe prosecution of Catholic converts continues in the province of Kiang Si. United States Consul Goodnow hears that the Protestants in the province of Che Kiang are similarly prosecuted. The Govenors of both provinces are Manchu and violently anti-foreign.

GERMAN POLICY IN CHINA.

Berlin, Nov. 19.—In the Reichstag to-day on the occasion of the presentation of the supplementary credit for China. Count Von Buelow emphatically denied the assertion that the China embroglio was traceable to the German occupation of Kiachou. The allegation that the Government had not forseen the Chinese crisis was true. Most of the other nations likewise had failed to apticipate that the storm in the fa reast would burst so violently or so soon.

Reverting to the Kiachor allegation. Count Von Buelow recapitulated the previous territorial acquisitions and expeditions of the other powers in China, showing that the German Government had restrained itself the longest of all the powers. The German Government had always shown a friendly and benevolent disposition towards China, and demonstrated this specially in 1895, when China was at the mercy of the victorious Japanese.

FRANCE AND CHINA.

Paris, Nov. 19.—During the morning session of the Chamber of Deputies to-day the budget for the Ministry of Foreign Affairs was discussed, and M. Estournelles de Constant. Republican, expressed the fear that the exaction of an indemnity would result in the dismemberment of China, resulting in an universal war. Thus, he pointed out. China lays a trap for Europe to all into." M. Marcel Sembat, Radical Socialist, demanded to know by what right the Government had engaged in war without the consent of Parliament, and questioned the Government as to the truth of the announcements of atrocities committed by soldiers. He concluded with the statement the Field Marshal Count Von Waldersee was unfit to be Commander-in-Chief of the allied forces.

TUAN ONLY BANISHED.

London, Nov. 20.—The Morning Post's Pekin correspondent, wiring Saturday, says,—"The edict inflicting punishment is milder than the first reports suggested. Prince Tuan and Prince Chwang are only banished and not imprisoned. Duke Lan is merely disiased. The foreign envoys cannot accept the edict owing to the inadequacy of the punishments. Count Von Waldersee officially announces that he has stopped looting and restored pease in the Province of Chili."

EMPEROR TO KAISER.

Berlin, Nov. 19.—The Reichsanzeiger (official journal) publishes the text of a telegram of the Emperor of China, dated Nov. 14, in reply to Emperor William's telegram of September 30, in which the former promises to inflict severe punishment on the authorities who were accomplices of the murderers of Baron Von Ketteler, the German Minister, and expresses the hope that friendly relations will soon be re-established. He also declares that so soon as the peace commissioners artain the desired point he will fix a time for his return to Pekin. His Chinese Majesty adds that the protection of the Christian missions will be espicially and strictly enjoined on all the provincial authorities.

THE CANADIANS AT FABER'S PUTS

How Several Men of "E" Battery Were Killed in Their Blankets—Tried Hard to Open Fire.

London, Nov. 20—A correspondent of the Standard writes to that paper as follows,—

A correspondent with Sir Charles Warren in Griqualand west writes to us as follows,—"Having read some very erroneous reports of the fight which took place at Fabers Puts on May 30, I feel it is only just to the officers and men who took part in the engagement to write a full and accurate account of what actually occurred. The column under Sir Charles Warren, on the evening of the 26th May, arrived at Faber's Puts, where the men bivouacked. The force consisted of the following,—E battery Royal Canadian Artillery, under Major Ogilvie; 23rd and 24th Companies Imperial Yeomanry, with two Colt guns, under Col. Crawley; four companies and Maxim Gun Detachment of the Duke of Edinborough's Own Volunteer Rifles under Col. Spence; a detachment of the Cape Police and Warren's Scouts, under Col. Hughes; and a Water Supply Detachment of the Royal Engineers—a total of about 750. On the evening of May 29 the pickets and guards were posted as usual, and the whole of the column slept under arms. During the night the enemy planned a daring attack on our camp, taking up positions on our left, front and right. The enemy's force was estimated at between 600 and 700. About 100 of these, who were the picked shots of Griqualand West, under Commandant de Villiers, picketed their horses about half a mile out, and crept up silently into the garden immediately facing the Yeomanry position and Canadian guns, some having taken off their boots to avoid being heard by the Yeomanry pickets, whom they unfortunately took prisoners, thus enabling them to remain in that position untill he signal of attack was given. A few of these got inside a building alongside the garden, and barricaded and loopholed the windows under the very nose of the Yeomanry. The plan, so far, was successfully carried out without attracting the attention of our troops.

BOERS OPEN FIRE.

"About six a.m. on the 30th, the enemy opened fire on the British camp, their positions from the garden and adjoining building enabling them to concentrate a heavy fire on the Yeomanry and Canadians at short range, killing several in their blankets. The Yeomanry horses stampeded, thus harassing their movements. The Canadians bravely attempted to open fire with their guns; but as fast as they tried to serve No. 1 gun they were shot down, five out of six falling to the enemy's fire. The Yeomanry Gun Section also did their utmost to bring their Colt guns into action; several were killed and wounded in the attempt. Lieut. Brocklebank, commander of the guns, made a last and gallant attempt, but after firing a few shots his gun became jammed and therefore useless. At this critical moment the fire of the Duke of Edinburgh's Maxim gun, under Sergt.-Major Pearson, poured a hail of lead into the foremost of the enemy, causing they to vacate the garden. The gunners were then able to bring their guns into action on the now retreating enemy.

FOUGHT COURAGEOUSLY.

"During this part of the fight the four companies of the Duke of Edinburgh's Rifles had taken up their position in a cool and courageous manner, holding these in an admirable way. Fifty men of the Duke's, supported by another company under Col. Spence, advanced in skirmishing order, and attacked a strong position in the rear of the farmhouse, forcing the enemy to retire. At this stage Col. Spence fell mortally wounded. This most popular officer was killed at the moment when victory was certain. Several others of the Duke of Edinburgh's Volunteer Rifles fell with him, The command of the Infantry now fell upon Major Lewis, who is an officer experienced in colonial warfare. He gained the admiration of all his men by the calm manner in which he directed them. One of the chief features of the fight was the brave and fearless manner in which Sir Charles Warren (who was most popular with the men), personally conducted the operations, having on several occasions to cross the line of the enemy's fire. Fortunately, he came out of the affair without a scratch. His staff, however, were not so fortunate. Major Kelly and Lieut. Paton were wounded, the former receiving three serious wounds.

The fight, which lasted little more than an hour, ended in the complete defeat of the enemy, who had to retire with heavy loss. The excellent work done by B Company of the Capt Medical Staff Corps must not be overlooked. Sergt.-Major Newdigate being killed and several wounded.

MORE FIGHTING IN S. AFRICA

It is Rumored in London that Boer Forces Under DeWet are now Fighting the British

London, Nov. 20—There is a vague rumor in the service clubs this evening that a battle is in progress between the Boer forces under De Wet and the British troops in South Africa.

GHOST WORKS IN COTTON MILL

Weird Figure Also Puts Out Locomotive Headlight

Burlington, Vt., Nov. 21.—The night watchman of the Queen City Cotton Mill has reported the nightly appearance of a ghost. A year ago a young woman employe of the mill was killed by a train, and it is asserted that it is her "spook" that appears. The watchman claims to have found six looms running without motive power and the cloth being woven without visible guidance.

Later in the night hesaw a white figure walking back and forth in the working room, which disappeared as he attempted to approach it. He reported the matter to the mill authorities, and was ridiculed. Then he induced a few of his friends to stay with him at the mill the next night. They also saw the spectacle, and are now firm believers in the ghost.

Every night since then visitors to the mill have witnessed the same sight. Each night as the train nears the spot where the girl was killed a white figure is seen. When the train strikes the spot the headlight goes out and does not light again until the spot is passed.

HEAD-ON COLLISION.

Oil City, Pa., Nov. 21.—A head-on collision between a Pennsylvania extra freight train and the regular Lake Shore passenger train occurred two miles west of Polk last night. Both engines were demolished, all of the passenger coaches left the tracks, and forty oil and coal cars of the freight were derailed. The wreckage destroyed all telegraph communication. The killed are—Thomas Sutton, baggageman, of Ashtabula; John Kane, brakeman of the freight train, of Newcastle.

Two male passengers and the newsboy, names unknown, are supposed to be dead beneath the wreckage.

THE YELLOW PERIL NOT YET DEAD.

Foreigners in China Say that a Terrible Deludge of Blood is Yet in Store for the Foreigners.

Shanghai, Nov. 21.—From Pekin to Shanghai it is next to impossible to meet an European or American who has resided any length of time in China but who believes that the real trouble has not really commenced. They bitterly reproach the Powers for not being more severe in their measures, particularly for not absolutely destroying the Forbidden City at Pekin. Old residents of Tientsin, Chefu and Shanghai say it was a grave blunder that will in the near future cause the loss of thousands of lives and the destruction of much property.

Waiting for Powers to Quarrel

It is a well-authenticated fact that hardly a Chinaman outside the Province of Chi Li believes that the allies have had any success at all. Papers are sold in Shanghai giving as graphic details of the alleged capture of Admiral Seymour, General Chaffee and others as any of the wonderful stories of that emanuated from the Shanghai liar a few months ago, describing the butchery of the Ministers and their families, which were so freely published in all the European and American papers.

Don't Object to Foreign Troops

Not only are the details given at full length, but pictures are also published, showing the Admiral and several generals with carques around their necks, being tried before the native Judges.

Two Chinamen were beheaded recently in Shanghai for publishing "wilful slanders and malicious falsehoods" in stating that Pekin had fallen into the hands of the allies and that the Empress Dowager and the Emperor had fled. The most serious part of the whole affair is considered to be the fact that the Chinese Judges themselves believed the men were really lying.

Beheaded for Telling the Truth.

The presence of foreign troops in Shanghai is not objected to, because it means that an immense amount of money is being spent there, and the only thing that is worrying the Chinese store-keepers is that some day soon the "ever victorious army" of the "Son of Heaven" will come and drive the "foreign devils" out, a consummation that, from one point of view, they devoutly hope for, but, from financial consideration, they would rather have postponed for the present.

Chinamen Believe They are Victors.

The removal of the Empress Dowager and the Court recently from Shansi to Shensi is looked upon by foreign merchants, missionaries and even by most of the converts as a danger and a menace. A merchant who has been 30 years in China says that it is a place impossible for foreign troops to reach if they so desired, and the only feasible way is to go about 1500 miles up the Yangtsee River and then 600 miles by land. If this were attempted, however, they would have to fight the greater part of the way. He believes that the Empress Dowager has a hold on the situation and is only endeavoring to make terms in the name of the Emperor, just to gain time and trusts that in the meantime some of the Powers may get fighting among themselves.

ROBBERY IN BALTIMORE

Burglars Perform a Most Daring Feat in Center of the City--Assult May be Fatal.

Baltimore, Md., Nov. 20—Three men entered the jewellery store of John J. Hubbard, this city, this morning, assaulted the proprietor, left him for dead and literally gutted the place of its contents. The assault occurred within a block of police headquarters in one of the most frequented parts of the city, and within a stone's throw of the City Hall, shortly after ten o'clock in the morning. Mr. Hubbard says the men came in and asked to be shown some diamonds. As he turned to get them he received a blow on the head and fell senseless. An hour later he was discovered bound and gagged and lying in a coal bin at the rear of the shop. Every article of value had been removed from the show cased. It is thought that Mr. Hubbard will die. No estimate of the loss can be made on account of his condition.

WEDDING BELLS

O'FLYNN—DOHERTY.

The marriage took place at St. Peter's Cathedral yesterday morning of Mr. David O'Flynn, of Marmora, to Miss Lizzie, daughter of Mr. John Doherty, of Otonabee. The ceremony was performed by Ven. Archdeacon Casey.

The bride was attended by Miss Katie O'Flynn of Marmora, whilst Mr. Joseph Kelleher of Campbellford, acted in a like capacity fo rthe groom.

Mr. and Mrs. O'Flyan will take up their residence in Marmora.

LEACH—O'BRIAN.

A quiet wedding took place in the Episcopal church, Lakefield on Thursday the 8th inst., when Mr. Chas. J. Leach, third son of Mr. Alfred Leach, Millbrook, was united in marriage to Miss Verta, eldest daughter of Mr. Wm. O'Brian of the same place. The nuptial knot was tied by Rev. Mr. Warren of Lakefield.

The newly married couple left for Toronto and other points on their honeymoon and will on their return take up their residence in Milbrook.

DEER KILLING IN THE WATER

Efforts Being Made to Have it Prevented—Seventy Per Cent Taken that Way

Some of the sportmen who have just came back from the north are starting an agitation against the killing of deer in the water. The game warden's department have always been anxious to protect the deer, and when the clause prohibiting the killing of deer in the water was placed on the statute books there was a kick from hunters, with the result that it was a year ago taken out of the law.

Inspector Joseph Rogers, of Toronto, who has been in the north as one of the gamewarden's men, says that 70 per cent. of the deer killed are taken in the water, and that he believes it should be stopped. If this was done there would be more game and not so hard to get.

HOW IT FEELS

To be the Under Dog in a Battle of the Ballots

This great family journal received from an anonymous source the following lines on the result of the elections. They were evidently written for our little Tory boiler plate contemporary, but got into the hands of this g.f.j. by mistake. Here they are:

Floored!

Swatted on the gob!

Knocked out in the first round!

Laurier and the dinner pail got there!

Gosh! Didn't they paste it to us everlastingly!

Twasn't our fault, though; we did what we could.

Tupper said he was sure to win, and we backed his judgment with our spondulicks.

And it cost us the best hat in the whole town, by jocks!

As we go to press the news is that everything has gone to hades and Quebec!

Fun Premier in 1906, Sir John A. Macdonald. We've got to get back to the old landmarks, or we'll be wiped out.

We acknowledge a serenade by the Grit band. It was poor music, but we suppose it was the best they could do. Thanks.

We are in favor of reorganizing the Conservative party or abolishing the whole shooting match. We're tired of holding the sack for the Grit snipe hunters! It's going to be a blamed long, cold winter for us this year. Wood, potatoes and pumpkins wanted on subscriptions, and wanted right now!

It Will Beat the Suez Canal

Sault Ste. Marie, Mich., Nov. 21.—The Weitzel Canal, at this place, is to be enlarged from its present length of 600 feet to 1000 feet, and its width increased to 160 feet. This will be done by the recommendation of the River and Harbor Committee of the House of Representatives, which recently paid a visit here, and was astounded by the enormous dimensions of the traffic centering here. The Poe lock of 800 feet in length and 100 feet in width is the largest lock here and four moderate sized lake vessels are locked through by it at the same time. Four thousand vessels flying the American flag—some of them as large as ocean steamers—are accommodated by the Sault Ste. Marie Canal, and they carry forty million tons of freight each year. A tonnage passes through this canal in eight months—the navigation year—vastly in excess of that which passes through the Suez Canal or enters the port of London for the port of New York in the entire twelve months. The improvements call for the expenditure of $9,000,000. The aggregate value of the freight carried through the canal every season is $250,000,000.

WEATHER NOTES.

Probs.—Southerly winds; unsettled, with occasional rain. To-day — Showery.

The weather is mild and showery from the lake region eastward to the Maritime Provinces, and it is very cold over the Northwestern States and Territories. These conditions make a storm development very probable, although there is no indication of one at present. Thirty below zero was registered yesterday morning at Calgary, thirty-two below at Medicine Hat, 16 below at Qu Appelle, and zero at Winnipeg.

BOY DIES OF HYDROPHOBIA

Son of General Corry Was Bitten by a Dog

Cincinnati, O., Nov. 21.—Joseph Corry, the 16-year old son of General Corry, who was bitten by a dog on October 12, died of hydrophobia to-day.

The healing was rapid. The boy continued to improve for four weeks, when spasms came on, indicative of hydrophobia, and after 12 hours of intense suffering, during which the boy raved madly, he died.

BOERS FOR AMERICA.

Systematic Efforts Making to Have Them Settle in the U. S.

Chicago, Nov. 20.—The Record to-day says that the Indiana counties of Lake, Porter, Stark and La Porte within the next year or so will become the permanent trekking grounds of many Transvaalers and Free Staters seems probable.

The owners of the land in the Kankakee Valley are reported to have combined for the purpose of sending agents to South Africa and Holland to encourage settlement of their lands. Some of the railroads, it is said, are showing a marked interest in the scheme to colonize the Kankakee Valley.

BABY THRIVES IN INCUBATOR.

Weighs Less than Three Pounds, but Eats Every Hour.

Chicago, Nov. 20.—One of the smallest babies in Chicago is being nursed in an incubator at the Chicago Lying-in Hospital. The infant weighs only two pounds and twelve ounces, but is eating every hour and is expected to live. The hospital has established a record, having brought up six strong, healthy babies of premature birth out of nine received. Dr. J. B. De Lee is Secretary of the hospital. The success of the incubator at this hospital is said to be due to the care with which it is watched. The temperature is recorded and adjusted every five minutes, night and day, and the infant is fed every hour.

The Charity Ball

All arrangements are now completed for the Charity Ball in the Opera House this evening, in aid of St. Joseph's Hospital. A first-class orchestra has been engaged. Tickets admitting lady and gentleman $1, to be had at Lynch's drug store of members of committee, and at the Opera House on night of ball. The patronage of the public is very earnestly solicited for the most worthy object. None admitted without tickets.

LEVI GABY DROWNED IN A FOOT OF WATER

Found in Market Peer Hole—He Was Rendered Unconscious by the Fall and Perished Miserably.

Toronto, Nov. 20—This morning at a quarter to eight, John Reeves of 24 Camden street, one of the employees engaged in the erection of the new market building, looked into the second foundation hole from Front street to Jarvis and saw the body of a man lying there.

The figure rested on its left side, and the head was submerged in a foot of muddy water that had trickled into the hole during the evening previous. The face was blue and slightly distorted, and there was a bad gash on the back of the head.

The body was that of a man about middle age, with whiskers and hair streaked with grey. In the vest pocket was a silver watch, which was running. In the trousers pocket 30 cents was found, a number of bills and documents, and a check for $14.90 on the Standard Bank. The bills bore the name of Levi Gaby, and the body was taken to the morgue, where it was afterwards identified by a friend as Levi Gaby of Richmond Hill.

Gaby was a carter and came to Toronto yesterday as usual. The storm delayed him, and a telephone message was sent to his wife there that he would not be home till this morning. He put up at the Commercial Hotel in Jarvis street, and was last seen about 7.30. It is supposed that he walked into the hole, and was rendered unconscious by the fall and drowned before recovering.

Gaby drank, and the supposition is that he might have indulged yesterday. He has two brothers, Neil, a blacksmith, of Yorkhill, and Joseph, a blacksmith, of this city.

The holes were not covered.

Dominion Iron and Steel

Montreal, Nov. 21.—The new blast furnaces of the Dominion Iron and Steel Works at Sydney, Cape Breton, are being rapidly pushed forward, and will soon be finished. The manufacture of pig iron will begin at once. The manufacture of steel will begin on July 1 next year.

A Monster Gun for Buffalo

Buffalo, N. Y., Nov. 21.—One of Uncle Sam's great guns designed for coast defence, is being prepared at Sandy Hook for transportation to this city, for exhibition at the coming Pan-American Exposition. This monster engine of war weighs 10,000 pounds, and was fashioned in the shops of South Bethlehem.

MR. MULOCK NOT GOING

Too Busy at Home and Parliament will Meet Before He Could Return

Ottawa, Nov. 20—Hon. Wm. Mulock stated to-day that he had no intention of going to Australia as the representative of Canada at the opening of the Commonwealth parliament. It is understood that his name was put forward on account of the strong interest he took in imperial questions, and because of the penny postage stamp which he was instrumental in giving to Canada and between Canada and other parts of the British Empire.

Mr. Mulock is too busy a man at home to be spared away at the present time, more especially as Parliament will be in session before he could return.

CHRONIC RHEUMATISM

Powley's Liquified Ozone

CURES LEWIS GLEASON, ESQ. OF CASTLETON, ONT., OF THIS TERRIBLE DISEASE.

When the system become filled with Uric Acid, the delicate membranes of the body are irritated and inflamed. The natural oils of the joints are eaten by the acid and regular torture sets in. The only way to treat the disease is to remove the cause. Germs produce the poisonous acid and Powley's Liquified Ozone kills the germs. Read this testimonial. "For the last 20 years I have been troubled with that distressing disease called Chronic Rheumatism. For days and weeks I have been confined to my bed, my joints stiff and swollen my hands so bad I could not use them. I could not sleep at nights and had palpitation of the heart. I medicine from leading physicians and took all kinds of patent medicines, but got nothing that did me any good. I purchased two bottles of Powley's Liquified Ozone, believing from what I heard from others that this medicine might take hold of my disease. After I had taken the two bottles I began to find relief. I purchased six more bottles. After taking the eight bottles the swelling left my joints, my hands now are as limber as they were twenty years ago, and I feel like a new man. Rheumatism, stiffness of the joints are all gone, and I consider myself cured. It also cured me of the worst kind of kidney trouble. Anyone suffering from the above disease write or come and see what Ozone has done for me. In fact I cannot say too much towards the value of your medicine. Signed

LEWIS GLEASON, Castleton, Ont.

Powley's Liquified Ozone is $1.00 a large bottle, 50c. small size. All druggists or from the laboratories of the Ozone Co., of Toronto, Limited, [illegible] borne St., Toronto, or by [illegible]

THE RUMORS OF THE CZAR

Reports of the death of the Czar were circulated yesterday in New York and elsewhere with a view to disturbing the stock market. While such an event might cause a momentary flurry its actual influence upon the conditions that affect finance would be less than would result from the death of many a man comparatively obscure. While the Emperor of the Russians is nominally an autocrat, with no restrictions upon his arbitrary will, and while his personality is of very great importance, there is really no government in Europe whose permanent organization is more complete and in some sense more independent of personality.

Particularly is this the case with the foreign policy of Russia, which is absolutely impersonal and continuous, working out its foreseen results from one generation to another. No doubt the character of the present Czar, with his sincere desire for peace, has some conservative value. It has been his personal policy to smooth over, as far as convenient, the antagonism of England, and in this respect his successor might be less careful. But the eastward developement of Russia is no one man's idea, and the adroit diplomacy that has so persistently pursued its ends in Asia is no more dependant on the desires of the sovereign or even of his Prime Minister than the workings of the British Constitution.

The German Emperor, with a Constitution and a Parliament, is an arbitrary despot as far as concerns his foreign relations and a question of peace or war. The foreign policy of England or of France may vary with a temporary majority, with the exigencies of the party in power or the personal temper of the Ministry. The foreign policy of Russia goes on continuously, infinitely elastic and adaptable, infinitely patient and shrewd, but never losing sight of its ends.

The accession of the Czar's younger brother would in all probability make little immediate difference in Russia and none at all outside. The men who run the foreign office know precisely what they are aiming at and how, and the Czarevitch must be a more extraordinary man than there is any reason to suspect if he would interfere in any way with their plans.

EPISCOPALIANS AND CHRISTIAN SCIENCE

A good many Episcopalians in Canada will draw a long breath when they read that the opening session of the church congress at Providence, Rhode Islands, was devoted to discussion of Christian Science. This most conservative religious body is certainly moving when it meets in a Methodist auditorium, on the ground that it is more convenient than any Episcopal church in the city, and begins work with a serious and thorough consideration of a matter which most members of its communion regard as a fad or a humbug. The Providence discussion was no mere general denunciation and warning of churchmen against the illusions of the new sect. On the contrary, the first paper was by Theodore F. Seward, an advocate who declared that Christian Science was a return to the spiritual ideas of Jesus Christ and an adaptation of Christianity to modern conditions." Naturally, the other speakers did not agree to that proposition, but they listened to it. Dr. Huntington characterized Christian Science as "a bundle of thin abstractions" and Dean Polk declared that it was identical with mental suggestion and hypnotism, which will relieve nervous disease, but is useless where there is any organic difficulty. Then a lawyer talked about it from his point of view and characterized deaths under Christian Science treatment as manslaughter.

There is no doubt that if Christian Science is an issue the way to deal with it is by free and frank public discussion, like this, rather than by ignoring it or by merely dogmatic denunciation. Every observer knows that the sect is continually gaining recruits, not among the ignorant and superstitious alone, but from people of intelligence and refinement. The Episcopal church has a large proportion of people with sufficient leisure to be, like the Athenians of old, always desiring some new thing. Very likely Christian Science is making inroads among them. If that is the case the philosophic way is to meet the issue fully and frankly, as this church congress did. If there is nothing in the claims of the Scientists, discussion will not strengthen their hold. If there is something in them but not so much as the advocates imagine, discussion and investigation may reveal the line between fact and fancy, and if the claims should by any possibility be true, even in a considerable part, it behoves every denomination to acquaint itself with that fact. It will be interesting to see how far the Episcopal example is followed and what effect, if any, this discussion has upon the body which claims to be both a new Christian sect and a school of medicine combined.

EDITORIAL NOTES.

In proportion to the number of the enemy, England's recent war with the Boers is the most expensive war in the history of that nation. The cost per head for every Boer conquered is 2000 pounds sterling.

* * *

J. H. Patterson, writing to the Ottawa Journal, wants the Conservative party to shake the old platform, and adopt a new one. It should, he said, include such planks as these—Direct legislation, proportional representation, public ownership of public services, legal eight hour day, and public ownership of liquor traffic.

* * *

The Toronto Mail and Empire proposes that the city shall expend $200,000 in the erection of new exhibition buildings. The idea is to make the Toronto Exhibition sufficiently attractive to draw multitudes from the Buffalo Pan-American Exhibition. The present buildings, it is claimed, are too insignificant to uphold the dignity of the largest city in the province of Ontario next year.

* * *

Twenty years ago the city of Toronto, Ont., began the erection of a city hall, which was to cost $300,000 by the original estimate. Up to date the outlay on it has been $2,345,000 and it is not yet finished. As one of the results the architects' fees have exceeded $60,000, and an effort in the city council to dismiss him has failed. The Canadians of Toronto have followed a notable example set by the officials of this State and others.

A Correction.

An amusing double-barreled case of heterophemy occurred not long ago at a meeting of the licensing sessions in an English city. The chairman, discussing the law requiring the bona fide travelers to go a certain distance before being entitled to liquid refreshment, referred to it as being "three miles as the flow cries."

A superior person hastily rose to correct his worship, but could get no nearer than "Your worship means 'as the fly crows,' or rather," he added hastily, "'as the cry flows.'"

No one was rash enough to make a further attempt, and the magistrates went on in their efforts in behalf of sobriety.

Honest Advice.

The Rev. [illegible] Perkins being called upon sudenly to address a Sunday school, thought he would get a few original ideas from his young hearers. "Children," said he, "I want some of you to tell me what I shall talk to you about to-night. What shall I say?" At first there was no response. "That bright little fellow over there," said he, pointing to a youngster on a back seat. "What shall I say to you to-night?" In a little, piping voice came the answer:—"Say amen and sit down."—Philadelphia Saturday Evening Post.

A Resourceful Bride.

"Can we afford," he faltered, sadly, "to have a skeleton in our closet?"

As for the woman, she wept, for they were indeed wretchedly poor, but she was not, therefore, altogether unresourceful.

"We might keep it in the hall and use it for a hat rack!" exclaimed the bride, for her mind was giving way under the constant effort to practice economy.—Detroit Journal.

His Purpose.

"What are you assuming such a belligerent air for?" said the small potentate's adviser. "Don't you know that we don't want to fight?"

"Of course, I know it. And I realise that we've got to do something exceedingly plausible to keep the other people from finding it out."—Washington Star.

KRUGER DUE TO-DAY

Date for Boer President's Reception Officially named.

Paris, Nov. 20.—It is officially announced that President Kruger will arrive on Wednesday at Marseilles. Strict orders have been given to the Nationalist committee to keep in the background, the Boer committee thus hoping the government will give the reception to the Transvaal President more of an official character if the enemies of the Cabinet are not prominent. Men dressed as Boers swarm the streets of Marseilles selling Boer souvenirs.

President Kruger at Port Said today refused to receive any one on board. The story that he would not see the French-Boer delegation at Suez is declared to be false, as no such delegation was there.

DR. PIERCE'S FAVORITE PRESCRIPTION

"I had been a sufferer for many years from nervousness with all its symptoms and complications," writes Mrs. O. N. Fisher, 1861 Lexington Ave., New York, N. Y. "I was constantly going to see a physician or purchasing medicine. In the spring of 1897 my husband induced me to try Dr. Pierce's Favorite Prescription. After taking one bottle and following your advice I was so encouraged that I took five more bottles, and then stopped for several weeks as I felt so much better, but still I was not completely cured. I commenced taking it again and felt that I was improving faster than at first. I am not now cross and irritable, and I have a good color in my face; have also gained about ten pounds in weight and one thousand pounds of comfort, for I am a new woman once more and your advice and your 'Favorite Prescription' is the cause of it, coupled with the 'Pleasant Pellets' which are not to be dispensed with. I took eight bottles of the 'Prescription' the last time, making fourteen in all, and will not take any more unless you so advise, for I do not see as I need it."

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 20x26, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer riflemen. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 83 in one day. Sample and terms 25 cts (none free); four for 90 cts; $2.25 per dozen; 25 for $3.50; 50 for $6.00; 100 for $11.00 Write to-day for a dozen and make money. Dear Sirs,—In accordance with your wishes I have had both the red and white wines and the champagne tested by several connoisseurs, French and English. All of these expressed surprise that an article of such merit was produced in Canada, and even manufacturers admit that the brand "L'Empereur" is of excellent quality.

This opinion from critics who are by no means easy to please should be very satisfactory to you, and it gives me pleasure to congratulate you upon it. Yours faithfully,

I am improving every day. I notice if I cut or scratch myself the sore will heal up. I hope you will not stop treating me as long as there is a sign of that terrible disease. I am more afraid of it than death. I believe you have the right medicine for the disease. I feel so thankful to you for the good you have done me; I was a perfect wreck when I came to you, and was on the verge of suicide. To make a sure thing I would like to continue a while longer, so that it will not return. Very respectfully yours, Mrs. L. S.

Love Won - and - Lost.

A NOVEL.

(Continued.)

with her sweet, sad voice, like tolling bells. Bring her here; do not refuse me, mother."

Again that agonized gaze passed between Ulmont and Loraine's mother

"Do not refuse her," whispered the doctor, "if it be possible; her very life hangs on the fulfillment of her wishes."

Slowly the mother turned and quitted the room.

An hour afterward a light, swift step was heard in the corridor, and Isetta, quite alone, entered the room. A beautiful smile flitted around the sweet mouth of the golden-haired girl lying against Ulmont Ulvesford's shoulder.

"I knew you would come to me, Isetta," she said, holding out her white hands to her; "come nearer," she whispered, "I can hardly see your face."

Again with averted faces, the tortured young wife and husband met, bending over the fair golden-haired girl between them.

The officers, screened by the silken curtains, turned away their heads, they could not break in upon so solemn a scene.

The gray clouds broke in the sky the slanting rays of the morning sunshine bathed in a flood of crimson and gold the stony, agonized face of Ulmont Ulvesford and the unearthly beauty of the pallid face against his breast, and fell on the beautiful, dark, glossy head of Isetta kneeling by the couch, her face buried in the pillow, the white-haired mother watching the face of her only child in an agony too deep for words.

Slowly Loraine's lips moved.

"Ulmont," she said, "hold me closer."

The strong arms tightened about her.

"Isetta, are you here?"

The pressure of Isetta's hand reassured her.

"I am going to ask a favor of you, Ulmont, and of you, Isetta, a last request. I am dying, love, don't weep so. God has called me; if, after I am gone, Ulmont dear, you can love Isetta for my sake, promise me, she and mother shall hold the place I am leaving vacant in your heart."

A terrible groan escaped Ulmont's lips, wrung from the very depths of his tortured soul by the innocent words of hapless Loraine.

"Promise me, Ulmont," she whispered.

Isetta turned her quivering face away, and the mother hurriedly quit the room; she could not endure the cruel stab each word had cost her.

"I love you both," whispered Loraine; "promise me, Ulmont, if another is ever brought to this dear old home I have loved so well, 'twill be Isetta; I love her next to you and mother."

Slowly Loraine clasped their hands together, the hand of Ulmont and Isetta, holding them clasped tightly within her own.

"Promise," she whispered, faintly.

For one brief instant Ulmont raised his troubled head and gazed upon Isetta's face; deep sobs convulsed his frame.

"I promise, dear," he whispered, sorely grieved.

Loraine's hands still clasped theirs, even while the shadow of death crept over her.

"It is hard to die so young, Ulmont, dear," she sighed. "When they ask you how I lived and why I died so young, tell them my life was like the sunshine and the flowers— short but very sweet.

"No sorrow ever came to me; it is hard to die so young and leave you, Ulmont dear, but I whisper to my God, 'Thou knowest.'"

"You will love Isetta's little child," she whispered, "and remember, when you speak his name, it was your lost Loraine who gave it him; because it was my husband's name. I loved its melodious music."

Ulmont bowed his head and wept.

"Ulmont, love— mother," these were the last words Loraine Ulvesford ever uttered; the white hands that clasped those two so closely relaxed their hold.

In all the glow of her fair young beauty she was dead.

There had been no pain; she had died like the blossoms, scarcely without warning.

And the golden sunlight drifting in through the half-closed windows, fell upon Loraine's bright, waving hair, lighting a golden halo round it like a crown— such a crown as angels wear in heaven.

CHAPTER XXXIX.

Long Years— Perhaps Forever.

The officers stepped forth from their concealment; it was the hardest duty they had ever performed to unclasp Ulmont's arms from the beautiful, waxen form.

"I cannot go yet," he gasped.

They pointed to the white, smiling, peaceful face.

"See, it is all over," they said; "you must come."

They unclasped his arms and lay all that was mortal of sweet Loraine back on the pillow.

"I will give my heritage," he cried, "if I may stay until the last sad rites are over."

They shook their heads; stern duty called them.

"No, not another hour," they said.

"Isetta," said Ulmont. It was the first time he had voluntarily addressed her, as they stood with averted faces at Loraine's bedside; "I am forced from Loraine's grave by the stern decree of the law. Nearly a year ago in Switzerland I fought a duel. I never dreamed I had struck my adversary fatally. I saw but a slight wound on his right hand. They tell me he is dead, and I am accused of— his murder."

He held up his hand as she was about to speak.

"It was for the honor of my name," he said, "more I cannot tell you. I shall sign my entire estate over to you before I leave America. I shall pay for my folly with my life. In the after years, when you tell our boy of his unhappy father, tell him, God knows I never intended injuring his innocent mother; tell him that, Isetta, and say a web of fate wove me in its meshes, from which my death alone can extricate me; one thing more, Isetta; 'twould grieve me to know that the sad story of Loraine, in after time, would be given to the world. Our boy shall inherit all; but, Isetta, as you value poor Loraine's memory, I ask you to keep the terrible tragedy of her young, guiltless life, which she never knew herself, forever locked in your own breast. Forgive me, Isetta, for the past— I ask it for Loraine's sake and little Ulmont's."

Isetta held out her hands for answer, she could not speak; so great was her emotion.

"Come, sir," urged the officers, "you must come."

"One word more. Always remember, Isetta— I say it in the solemn presence of Loraine— my sword but barely touched Heath Hampton's hand nine months ago. I am not his murderer!"

"Did you say he is accused of the murder of Heath Hampton in Switzerland nine months ago?" cried Isetta, springing eagerly toward the officers. "Then it is false — all false, I say. I saw Heath Hampton, alive and well, but four months since; there was a deep scar on his hand, but otherwise he was uninjured," she cried, vehemently.

There was something in the commanding tone of this beautiful girl that awed them.

The officers gazed at her in dismay; it had been proven beyond a doubt that he lay crushed into an unrecognizable mass at the foot of the Alpine mountains. She was surely mad.

"It is as true as heaven," cried Izetta, solemnly.

At that moment they observed a throng of people gathering on the river bank which skirted Ulvesford Park. Both officers could not leave their prisoner, so one hurried forth to learn the cause of the disturbance; the other stood guard with Ulmont at the window.

The throng made way for the strange officer in the foreign dress.

"What is this?" he asked of them.

They pointed to two men who lay tightly clasped in each other's arms —a box of gold clutched between them, washed up by the tide. There was a sudden commotion among the crowd.

"Step back!" they cried; "make way for the mother of Heath Hampton," as, with slow, feeble steps she advanced to the spot.

"This is the end of all my hopes Oh, my sons!" she cried, "my sons!"

Those who had known those two in life looked upon her in wonder, but she did not heed them.

"Yes, they are both my sons," she cried. "I despised the one for his deformity, and loved the other for his beauty. I abandoned the one in his infancy that the other might inherit all. My sin has recoiled upon my own head."

She clasped both damp forms to her heart, putting back the clustering hair from their foreheads; then her head fell on her breast— she had followed her two sons through the dark, shadowy valley of death.

Some one stepped forward and gazed a moment at the handsome, cruel, mocking face of Heath Hampton.

"Ah, Amy," muttered Abel Moore, the flute-maker, as he hastily and mercifully threw a cloak about them, shutting them out from the curious gaze of the throng, "at last your wrongs are avenged."

No one ever enquired how they had met, or where. The box with the gold clutched between them told its own story.

The identity of Heath Hampton was proven then and there beyond a doubt. It was a strange story which the brother officer related to his companion.

"Well," replied the chief, "it seems then as if the party came to his death months later by drowning, not by the hand of Ulmont Ulvesford on Swiss soil."

He drew the papers from his breast pocket.

"These are useless now, sir," he said handing them to Ulmont, "we will sail immediately on the White Crescent without you.

Ulmont was so astounded at the complicating events transpiring around him that he hardly realized what they said.

"We honorably discharge you from custody; our mission is ended. We hope you will pardon the cruel duty of officers in thus intruding upon your sorrowful privacy."

They held out their hands to him. In another moment they were gone. Ulmont could scarcely realize that he was a free man. He was thankful Loraine had never known the slightest shadow of the deep woes that had hung over her.

He knelt at the couch of Loraine, his head upon her mother's shoulder refusing to be comforted.

That was a funeral never to be forgotten. It was a pitiful sight to see the same group of sorrowful maidens that had held white roses at her wedding, place snowy flowers on her tomb.

She was so beautiful even in death, so fair, so young to die.

Young girls looked upon her smiling, marble face, with tear-stained eyes, while mothers, with a shudder, clasped their own darlings closer to their breasts.

For many a long year after they told of the beautiful, golden-haired young wife, who was so young and fair to die.

They told, too, of the broken-hearted husband who followed the sad procession to the grave one bright May morning, and of the white-haired feeble mother who had lost her all whose bitterest sorrow had fallen upon her in her old age; and they told of a dark-eyed stranger who wiped away that mother's tears and comforted her, how she held her in her arms when the world grew dark around her, drew the weary, white head upon her strong, young breast and comforted her with hopeful, loving words that brought tears to every eye.

Even strangers cried:

"God bless her for the comfort she has brought this grief-stricken mother."

It was all over.

"Isetta," Ulmont said, sadly, "I am going away —going abroad for the present. Ulvesford Mansion haunts me. Will you stay here with our child until I return?"

He turned away abruptly.

"Send at once for Abel Moore and his good wife, that you may not live here alone, now that Loraine's mother has returned to Lorrimer Hall. Do not teach my child to think unkindly of me, Isetta," he added, holding out his hands; "always let him think of me at my best."

Silently Isetta placed her hands in his —the husband who had been separated from her by such strange webs of cruel fate.

Ulmont held them for a moment only, dropped them suddenly, and was gone.

The same day that fair, golden-haired Loraine was laid to rest under the drooping willows Ulmont Ulvesford left America, to be gone long years

A WONDERFUL
KIDNEY and Bladder CURE
The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.
BRIGHT'S DISEASE, GRAVEL, DROPSY,
And Rheumatism Mastered at Last.
One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:
GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right. I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 58 years of age, and am very grateful for what Alkavis has done for me.
Respectfully yours, I. A. HOPKINS.
Rev. W. B. Moore, D. D., Washington, D. C., Editor Religious World, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.
Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder disease, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.
If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 303 Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY
LOCATION OF OUR MINES
THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.
Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.
PRICES AND TERMS
PRESENT PRICES—We are now selling our fully paid and non-assessable TREASURY SHARES at 5 cents per share, in blocks of 100 shares and more; 100 shares, $5; 1,000 shares, $50; 5,000 shares, $250; or 10,000 shares or more at the same rate. Send your order right NOW, before the next advance, as you will soon pay a higher price. Investors are rapidly investing with us.
The company fully prepays all government revenue, postage, etc. Send also for our handsomely illustrated prospectus, which contains much valuable information. It is free for the asking.

Obituary

There died at Newtonville, on Nov. 19th, Mr. Wm. Rich, sr., aged 80 years. Mr. Rich had been a resident of Port Hope for 47 years, having settled there when he first came to this country. His children are Mrs. Geo. Walton, Smith, Mrs. A. W. Lockhart, McDonnel street, and Mr. Wm. Rich, jr., of Newtonville. The deceased was highly respected.

Banquetted in New York

On Thursday evening Dr. F. H. Brennan, who recently returned from South Africa, and who is spending a few days in New York, was entertained at a dinner by the Canadian Society of New York. The doctor spoke eloquently of South African affairs, and was followed by Mr. Erastus Wiman, the first President of the society.

An Outrage

Some heroic (?) individual threw a rock through the office window of this great family journal, and got away before we could get a bead on him. We might add, just here, that if we discover the perpetrator of the outrage, there will be a funeral, with very little of the corpse left for burial. This g.f.j. is mad all the way through.

Deserter Arrested

On Monday night Leslie Hawes, who enlisted for a term of three years at Toronto, in the Royal Canadian Dragoons, and who deserted, was arrested. He was sent back to Toronto last night. This is the second offence of this kind. Hawes, who is only 22 years of age, and whose relatives live in Peterborough, walked into the police station to make some enquiries, where he was nabbed.

Card of Thanks

London Life Insurance Co:—

Gentlemen—I wish to thank you for the very prompt manner in which you paid the insurance on the life of my deceased wife, Victoria Guy, I having received the cheque for the full amount of the insurance from your local agent, Mr. Alex. Campbell, inside of three days after the claim papers were signed. Yours very truly,

All the classes of the Young Women's Christian Association will begin this week, except the physical culture. That must wait the restoration to health of our popular instructor, Mr. McLeod. Sheriff Hall's class in literature which meets on Thursday evening will take their hour from seven to eight, instead of eight to nine as formerly announced.

A Coasting Mishap

On Monday little Cyril Morrow, youngest son of Mrs. W. J. Morrow, met with a serious mishap. The little fellow, who is only seven years of age, took his handsleigh and slipped away to the hill on Hunter street, east of the cathedral. In his descent he ran against a tree with such force as to make him unconscious. He was taken home, put to bed and is now, we are pleased to say, nearly well again.

JOTTINGS ABOUT TOWN.

—The roads are in bad condition.

—It looks like a green Christmas, after all.

—Rice Lake, it is said, is again free from ice.

—*Dr. Vrooman's majority in South Victoria is 153.*

—The higher a man climbs up the ladder of fame the harder his fall is when it comes.

—The heavy weight of ice on the trees broke down many branches through the town.

—Merchants are looking forward to a big Christmas trade this year. Put an ad in the Times and get your share of it.

You have read of the cures by Hood's Sarsaparilla, and you should have perfect confidence in its merit. It will do you good.

—Mr. A. W. Lockhart and Mr. and Mrs. Geo. Walton, left yesterday for Newtonville, on account of the death of their father, Mr. Wm. Rich, sr.

—The Ramblers' Social Club are to give their first ball early in December. The club has fine apartments over Stevenson's coal office.

—And now Mr. E. Cochrane's election in East Northumberland has been protested on the ground that his deposit was made by check. Next!

—Mr. Chas. E. Bartlett, of Napanee, a brother of Mr. F. Bartlett, C.E., town, died at his residence in that town on Monday morning. He was known to many in Peterborough.

—Miss Alice Roger, assisted by her pupils, will give an exhibition of the Burrows Musical Kindergarten System, in the schoolroom of St. Paul's on the evening of December 14th.

—The good road movement is making progress — 36 Ontario municipalities have decided to abolish statute labor, and in a number of other townships the question will be voted on at the January elections.

—Yesterday the C.P.R. Telegraph Company's construction gang began the erection of a new copper wire between London and Toronto, thus completing the copper circuit between London and the Pacific coast.

—An interesting emergent meeting of Corinthian Lodge, A. F. & A. M., will be held this evening. Past Masters of the Lodge will occupy the chairs. All the members of the craft are invited to attend.

"My Heart was Thumping my Life out," is the way Mrs. R. H. Wright, of Brockville, Ont., describes her sufferings from smothering, fluttering and palpitation. After trying many remedies without benefit, six bottles of Dr. Agnew's Cure for the Heart restored her to perfect health. The first dose gave almost instant relief, and in a day suffering ceased altogether.—51

SOCIAL AND PERSONAL.

—Miss Eyres has returned from a trip to the west.

—Miss Pearl Hamilton is visiting friends in Port Hope.

—Mr. G. L. Gowland left for Baltimore, Md., via Niagara Falls, on a business trip.

—Mr. W. Wilfrid Campbell, the eminent Canadian poet and writer, is a guest of Mrs. R. S. Davidson.

—The Misses Fairweather are spending a few days in Toronto, the guests of their brothers, in that city.

—Dr. Lionel King left Monday for Michigan, where he will take his uncle's practice for a few weeks, while the latter is in New York.

—We are pleased to see Dr. R. W. Bell, Assistant Supt. of the Provincial Asylum for the Insane at Toronto, is in town on a brief visit.

Another Action Threatened

The town is having its hands full these days defending itself against law suits and threatened law suits. The latest threatened action is from Messrs. Edmison and Dixon, on behalf of Thos. Patterson, who injured himself by falling on the sidewalk. True, the amount claimed is only $50, but all the same it is imperative that the town should be careful not to establish a precedent by paying what may be an unjust claim. This would only add fuel to the fire by encouraging others who may have met with a mishap or a fall on the slippery walks, to seek damages. That the town was successful in the Sherwood case will, we fear, have a tendency to cause the town to fight every case that may come up. We well know the weakness of the Town Solicitor in this regard, and it will be the duty of the Council to see that each case is treated on its merits.

FIRST SIXTEEN YEARS

Determine Structure and Physical Health.

If parents could realize what a crime they commit in permitting children to have heavy drugs during their early life, such drugs for instance, as coffee, which stunts their growth, prepares them for dyspepsia and nervous wrecks, they would do anything, go to any amount of trouble and care, to change the methods and give their children the advantages that nature demands to produce perfect specimens

A sixty year old woman writes—"My over-indulgent papa used to say, at the table, 'Why not let the child have what she likes; it won't hurt her any.' He referred particularly to my drinking coffee, which I was very fond of as a child. He honestly thought it didn't hurt me, for with his strong body, apparently without nerves, he was not consciously affected by coffee, but the effect on me—a bundle of nerves—was to develop restlessness and stunt my growth.

"The first effect after drinking coffee was that of delightful exhiliaration and I felt courage and strength to attack almost any amount of active work, but in a few hours the reaction came, with misery in my chest, palpitation of the heart, and most unbearable pains in my stomach.

"Finally my attention was called to Postum Cereal Food Coffee and we secured some of it. It was prepared according to directions, but breakfast being delayed, the Postum got an extra boiling, which developed all its virtues, and we all fell in love with it from the first moment. The change in our physical health, after drinking Postum, was something remarkable. We have as delicious coffee as any one could ask, but it is a perfectly healthy coffee, and the more we drink of it, in reason, the better we are. I am satisfied that the increasing amount of heart difficulty of late years, among young people, is directly attributable to the use of coffee, and it is a great blessing to have so safe and delicious a food coffee as Postum. Please omit my name from publication."——East Brookfield, Mass. Name given upon application to Postum Cereal Co., Ltd., Battle Creek, Mich.

MT. PLEASANT.

We are sorry to report the loss by fire of the store built by Mr. S. B. Best 52 years ago, one of the old landmarks being removed. The fire started early in the night of the 9th inst., so that Mr. C. H. Shields had a chance to save some of the goods in the store. The wind blew a perfect gale, so that many of the buildings in the village were endangered by the sparks flying from the burning building.

Our Creamery, under the able management of Mr. S. Carey, is making large quantities of the very best butter. Farmers, bring your milk and get splendid marketable butter made, and save your wives and daughters the trouble of churning.

The village of Ida was visited by a fire which removed two of its buildings. They were insured in the Lancashire Co. by their agent, Mr James McLean. The Co. immediately issued cheques for those who lost by the fires on the 3rd of Nov; the fire having only occurred on the 20th Oct. Prompt payment is their motto.

Threshing is the order of the day. Farmers are cheerful on account of the good yield of grain, and that, under Providence, our gracious sovereign the Queen, and our good government, they dwell safely.

Messrs. L. Best and A. P. McLean made a visit to the home of James McLean, Esq., lately.

Great numbers of wild geese have passed south lately, warning us to prepare for winter.

Dr. Thompson continues his visits to Mt. Pleasant.

James McLean, agent for the Barnardo Homes, has done good work in placing so many homeless children in the very best of homes, which will be the means of preparing them to help themselves, and to make them useful members of society.

Mrs Morrow's Concert

Arrangements are now fully completed for Mrs. Morrow's concert, which is to take place on the evening of Monday, December 3rd. Master Vincent, Mrs. Morrow's little son, who is ten years of age, has made many friends amongst the school children of the town, many of whom would like to hear him sing. In order to afford them an opportunity to do so at trifling cost, the admission price for all children under twelve years of age has been fixed at 15 cents. Of Mr. Owen A. Smily, the elocutionist who takes part in the entertainment, Sir Charles Tupper thus speaks: "Mr. Smily has won a great reputation wherever he has been." Tickets should be secured at once, so as to prevent a crush. For sale at the bookstores.

Voter's name ....

Cut this ballot out, fill in the names of citizens who would be, in your opinion, most suitable for the offices of Mayor and Aldermen, and send it to The Times office. Vote for anybody you may think fit and worthy. The names of voters are asked as a guarantee of good faith, and to secure value for the result of the voting as a true expression of public opinion, but the names will not be published and will be treated as strictly confidential. A report of the state of the poll will appear from time to time in these columns. Address all communications to "Municipal Campaign," Times Office, Peterborough.

"Pride Goeth Before a Fall."

Some proud people think they have strong constitutions, and ridicule the idea of disease. Such people neglect their health, let the blood run down, and their stomach, kidneys and liver become deranged.

Don't be foolish about your health. Use Hood's Sarsaparilla and you will prevent the fall and save your pride.

Running Sore—"My mother was troubled with rheumatism in her knee for a number of years, and it broke out into a running sore. She took three bottles of Hood's Sarsaparilla and is now well. Hood's Olive Ointment helped to heal the eruption." MRS. JOHN FARR, Cloverlawns, Ancaster, Ont.

Bowel Trouble—"My mother, Mrs. John Ried, suffered with bowel trouble for four years and tried different doctors, but obtained no relief until she began taking Hood's Sarsaparilla. Three bottles of this medicine entirely cured her." LIZZIE REID, Tracy Station, N. B.

Scrofula—"An abscess on my hip was lanced and never healed. Another broke out on the other hip and the next year three more appeared. I took Hood's Sarsaparilla and it helped me. Since taking six bottles of the medicine I have not been troubled, and previous to this treatment one of the eruptions had discharged for seven years." MRS. FRANKLIN H. TRED, Freeport, N. S.

U. S. MAY WITHDRAW FROM THE CONCERT

Washington Administration Now Confident that Powers Mean Partition--Prince Tuan Now Arrested.

Shanghai, Nov. 21—The action of the Germans yesterday in marching a large body of troops outside the foreign limits close to the arsenal alarmed the Chinese. The gates were barricaded, and the Taotai met the officers who were allowed to enter, the troops remaining outside.

New York, Nov. 21—According to the highest official authority, says a Herald special from Washington, events are hurrying the United States to a point where, in the interests of humanity and a satisfactory solution of the Chinese question, it must withdraw from the concert of nations. Such a course would undoubtedly be followed by Russia and France, but the action of Great Britain, Germany, and Japan is problematical, because of their agreement. The pessimistic view of the situation which exists in official circles followed the trend of information by the State Department as to the attitude of Germany and Great Britain in connection with the punishment of the Boxer leaders.

DISBELIEVE FOREIGN PROTESTS.

New York, Nov. 21—Government officials, says a Times despatch from Washington, no longer make any attempt to conceal their disbelief in the sincerity of the protestations made by the powers that they do not contemplate the partition of China.

PRINCE TUAN ARRESTED.

Berlin, Nov. 21—A special despatch from Pekin says that Prince Tuan has been arrested and stripped of power by order of the Emperor and Empress Dowager, but that fears are felt of General Tung Fuh Siang, who with 16,000 regulars is in Hu Jang Fu.

TROUBLE AT TIEN TSIN.

Tien Tsin, Nov. 20, via Shanghai, Nov. 21.—There has been considerable firing recently in the neighborhood of Tien Tsin, and owing to the report that the German quarter of the city would be attacked last night the German troops were held in readiness for action at an instant's notice.

Nothing happened, however, to shew cause for the alarm, although to-day all the Chinese servants of the Bengal Lancers officers and men left, saying that they had been informed that the Boxers were marching in a large body on Tien Tsin and Pekin.

Neither Gen. Hornes Campbell of the British troops, not Col. Moole of the Americans, believes there is any truth in the rumer, but the natives evidently believe it, and many of them are leaving the service of the foreigners.

THEY WANT REINFORCEMENTS.

London, Nov. 21—A special despatch from Pekin dated Nov. 19 says that the Kalgan expedition found Admiral, not General. Ho occupying a strong position at Hseung-Hwa, and the commanders of the allied forces decided they were not strong enough to attack him and sent to Pekin for reinforcements.

PUNISHMENT TOO LIGHT.

Pekin, Nov. 17, via Taku Nov. 17, and Shanghai, Nov. 19, 8.10 a.m. — The talk since Tuesday's meeting of the Foreign Ministers has been in regard to the imperial edicts issued on that day providing for the further puishment of "the Ministers of State for having participated in and protected the Boxers and bandits in the recent movement." The unanimous opinion is that the punishments proposed in the edicts should not be regarded as sufficient, and many persons hold that the decrees are really an insult to the intelligence of the allies.

KAISER CALLED DOWN.

Berlin, Nov. 20—The debate on the Government's policy in China was continued in the Reichstag to-day. Herr Richter declared the Radicals were of the opinion after the assassination of Baron Von Ketteler that a military demonstration in China was absolutely necessary, but that the despatch of an ironclad division was superfluous. He alluded to the public declarations of Emperor William saying that he thought Emperor William should first have had an understanding with the competent Ministers regarding the tenor and wording of those declarations, asserting that much that was objectionable and displeasing would thus have been obviated. Politics and religion he continued, ought not to have been mixed up as they had been in the Emperor's speeches, because the effect was to spoil both. "The greatest mistake of our China policy," continued Herr Richter, "was after the China-Japanese war, when we joined with Russia and France in opposing Japan." Herr Richter's advice to the Emperor to consult his Ministers elicited marks of approval.

BIG ELECTRIC DEAL

THE CANADIAN GENERAL BUYS OUT THE ROYAL COMPANY

The Probabilities are that the Royal Company's Works will be Moved to Peterboro with its 30o Employees.

The Canadian General Electric Company, it is said, has purchased the manufacturing business of the Royal Electric Company, Montreal.

Mr. Frederick Nicholls, the enterprising and efficient General manager of the Canadian General, was in Montreal this week, and is understood to have closed the deal, the consideration being a three-quarters of a million dollars.

The acquisition by the Canadian General Company of the large plant and good-will of the extensive patronage of the Royal Company's manufacturing business would practically give them a monopoly of the business in Canada. The Royal Company would then be left with a clear hand to pursue to the conclusion some of the ambitious schemes which are credited in the street to the master hand which guides its destinies. One of the first of these is alleged to be the acquisition of the Gas Company and the Lachine Rapids Company, thus practically controlling the lighting business in the city. After that it is proposed to amalgamate all the electric railway lines on the island under one great system.

The deal will mean a large increase in the Company's plant here, and an addition of about 600 employees.

Napoleon's Clock

Quebec, Nov. 21.—Among the valuable souvenirs brought home by Lieut.-Col. Pelletier from his trip to South Africa is a clock, formerly the property of Napoleon 1. during his captivity at Saint Helena. Upon leaving Cape Town with the first Canadian contingent Lieut-Col. Pelletier received instructions to stop at Saint Helena to hand over 200 Boer prisoners to the military authorities at that place. While on island Lieut.-Col. Pelletier visited the Roman Catholic chapel at Londwood, and upon leaving the sacred edifice met Father Danes, the chaplain. The latter upon learning that the brave Colonel was a Canadina, seemed to take great interest in him, and escorted him over the place, showing him, among other things the quarters formerly occupied at Longwood by Napoleon I., his bedroom and the bed which the French Emperor occupied while a prisoner on the island. As the Colonel was about taking his departure Father Danes presented him with the clock, which is accompanied by a parchment which perfectly establishes its authenticity.

T'MES' MUNICIPAL CAMPAIGN

The State of the Poll to be Published Often

There is quite an interest being awakened in the Times Municipal Campaign, a notice of which, with cupon for voting, appears elsewhere. The state of the poll will be published every few days, together with short, pithy letters from voters, on municipal affairs.

We would remind our readers that the ballot is absolutely secret. We require the bona fide signature of the voter only as a guarantee of good faith. Everybody can vote—every man, woman and child is a qualified elector in the campaign. All that is necessary is to cut the cupon out of the Times and send it to The Times office, properly filled in and signed.

Up to last night about 200 ballots had been deposited. The names of all candidates, with number of votes set opposite each, both for mayor and aldermen, will appear in Saturday's issue.

As the object is to awaken interest in municipal affairs, we invite our readers to send in ballots marked in fovor of citizens who would make good and worthy aldermen.

May Yohe Recognized

London, Nov. 21.—May Yohe, the American singer and actress, after six years of exclusion, has at last been received by the Newcastle family, with her husband, Lord Francis Hope. The two have juest returned from Clumber, the Newcastle family seat, where they were included in a large shooting party.

Since the marriage of Lord Francis and the actress the only member of the family who received Lady Francis was the Dowager Duchess, whose life has been devoted to works of charity and benevolence. Through her instrumentality the Duke and Duchess have now become friends with their possible successors to the title.

Lord and Lady Francis will sail on Thursday next for New York on the Minneapolis, and will be followed a little later by the Duke of Newcastle.

The three will pass a good deal of the winter in America together, and will make an extensive tour of California.

Lady Francis is naturally much elated at the family reconciliation, as it makes things so much smoother for her socially, as well as pleasanter for her husband.

Now that the Duke of Newcastle, a pillar of the high church party, has received her society will quickly open its door to her.

NOTICE

All persons indebted to Dr. R. W. Bell are required to remit the amount due to him to Asylum for Insane, Toronto, before 1st December next. His books on that date will be placed in a lawyer's hands to collect all unpaid accounts.

LORD ROBERTS INJURED

Thrown From His Horse in South Africa--News Received in London Late Yesterday Afternoon.

London, November 21.—The Evening Standard in a special edition this evening, says,—

"Just as we are going to press the news has reached London that Lord Roberts was thrown from his horse and received severe injuries."

PAUL KRUGER IS STILL ON THE SEA

The Ex-Boer President Disappoints Awaiting Natives.

CANADIANS AT CAPE VERDE

Outpost Surprised Near Balmoral—6 of the "Buffs" Killed and 5 Wounded by the Boers.

Marseilles, Nov. 21.— Ex-President Kruger not having arrived at 11.30 the crowds followed the lead of the reception committees and dispersed in the falling rain with the idea of re-assembling at two o'clock. The landing and the inner bay had been animated throughout the morning by the great number of spectators that occupied every coign of vantage and moved about in small boats.

GELDERLAND OFF TOULON.

Marseilles, Nov. 21.—, 2 p.m.— The Dutch cruiser Gelderland, having on board former President Kruger, of the South African Republic, is reported to be off Toulon. The reception of Mr. Kruger is likely to be postponed until to-morrow.

SIX O'CLOCK TO-NIGHT.

Marseilles, Nov, 21.—The Gelderland cannot reach Marseilles before 6 o'clock this evening.

PREPARATIONS AT MARSEILLES.

Marseilles, Nov. 21.—The arrival of Eloff, ex-President Kruger's son-in-law who left the Gelderland at Port Said and reached this spot this morning by the China mail steamer Laosanti, and who has brought important communications from Kruger to Dr. Leyds, Messrs Wessels, Fischer and other representatives here of the Transvaal and the Free State, has thrown much light upon the true nature of Kruger's mission.

Ottawa, Nov. 21.—General O'Grady-Haly received a cable to-day dated Nov. 20, St. Vincent, Cape Verde, from Col. Otter, stating "All well."

London, Nov. 21.—The reported death of General Schalkenbarger, Acting President of the Transvaal since Mr. Kruger's departure from that country, is discredited here. There is a mere rumor that he died at Johannesburg Nov. 9, but the report lacks confirmation.

A long despatch just received from Lord Roberts refers to a number of minor occurrences, but does not mention General Schalkenburger. The only incident of importance is the surprise of an outpost of the "Buffs" southwest of the Balmoral, November 19. Six of the "Buffs" were killed and five wounded. An officer and thirty men were made prisoners. The post has since been re-occupied.

ROBERTS' LATEST DESPATCH.

London, Nov. 21.— Despatches from South Africa report that a great battle is proceeding between the British forces and the Boers under Gen. De Wet.

Lord Roberts cables the War Office that the Boers attacked a British outpost at Thaba N'Chu, in the rich grain district east of Bloemfontein, in the Orabge River Colony, on Nov. 16, and killed a British officer and three men. They allowed a prisoner to return to the British garrison with a request for an ambulance.

Lord Roberts states that the Boers are very active in the southern part of the Ornage River Colony, and have repeatedly broken the railway and telegraph lines near Edenburg.

He says the occupation of Klerksdrop by Gen. Barton is important, as it greatly hampers the burghers in their operations.

The commander-in-chief also reports that the Boers have ambushed a waggon load of supplies and thirteen men at Utrecht, Natal. They afterwards released the men, four of whom were slightly wounded.

DELAGOA BAY AWARD.

London, Nov. 21.—The award of $3-662,800 with interest at 5 per cent. from June 25, 1889, made by the arbitrators in the matter of the seizure of the Delagoa Bay Railway by Portugal, will be paid to the claimants today or to-morrow, in addition to the principal of the award and the interest thereon, which makes a total of about $5,066,000. Portugal paid $140,000 on account of the seizure in 1840.

The Portuguese Government has deposited securities valued at $5,000,000 in a London bank in the name of Ambassador Choate. A large proportion of the award goes to the widow of Col. McMurdo, an American, who, with a number of English capitalists, built the road and operated it until the Portuguese Government arbitrarily violated the concession it had granted and seized the line.

London, Nov. 21—The officials of the War Office say they are not in a position to report anything in connection with the rumored accident of Lord Roberts. This utterance is interpreted here as giving indirect support to the Evening Standard's statement.

London, Nov. 22.—Lord Robert's accident occurred on Sunday last; while he was riding his horse fell with him and he was shaken and bruised but no limbs were broken; as he has since sent despatches to the War Office, it is believed that he is performing his usual duties especially as he has not mentioned the accident.

AWARD WAS PAID.

THE TOWN COUNCIL AND THE MAYORALTY.

A Few Plain Words which the Ratepayers are Invited to Carefully Read.

AND THEN AS CAREFULLY PONDER OVER.

The Action of the Council on Monday Night Will Not be Forgotten by the Taxpayers, and Will be Condemned.

Our esteemed City Fathers gathered together in solemn conclave on Monday evening and, with much deliberation, served out to the uninterested public another batch of privately hatched refreshment. After struggling for some time with the complicated problems presented to such minds in the process of paying small accounts, our valiant legislators girded their loins and prepared for a supreme effort. As the proverb saith, "the mountain labored and brought forth a mouse," or perhaps it was this time that the mouse brought forth the mountain. The fruit of it all was the passing of a resolution so absurd in its policy and so transparent in its motive that one wonders how innocent the members of the Council think the people of this town really are.

The Legislature's Action.

About four or five years ago a member of the Ontario Legislature presented a resolution condemning the participation of Government officials in elections, not merely for the Legislature and the Dominion Parliament, a rule altogether new in our constitution, though having much to be said in its favor, but also in municipal contests. The last clause has scarcely a spread of argument in its favor, but it passed the House because neither party had the courage to face the hypocritical purity cry then rampant. The Government has never pretended to strictly enforce such a rule, nor has the Opposition made the slightest objection to the cases in which it has been broken. Every sane man recognizes that among the men appointed to public offices, whichever party is in power, are some of the ablest and most upright men to be found in the country, and if this were not the case any Government would deserve the severest censure. It is doubtless wise to prevent officials taking an active part in contests which are to determine who their masters will be for the next four or five years, though even this much is an infringement of the right of every citizen to a voice in the affairs of his country—the proudest boast of every British subject, and so long as the parties in our Dominion and Provincial politics are so closely identified, the same reasoning applies in large measure to those elections also. But to apply the rule to municipal elections which are not, and it is to be hoped, never will be run on party lines, is simply ridiculous. There are good men holding official positions in Peterborough, both Liberal and Conservative, and by all means let them be brought out and do something to raise the intellectual level of the Council from the pit into which it has fallen this last year.

A Miserable Subterfuge.

The resolution in question recites the resolution above referred to and then proceeds to "desire" the Town Clerk to be good enough to indite a quiet, friendly letter to their beloved friend, the good Premier of this Province and desire him to be good enough to desire the officials of the Government to be good enough not to take any part in municipal elections, and especially and more than all else to be good enough to see that one terrible man is not allowed to again disturb the sweet calm which mediocrity and bungling so dearly love, and to make sure that the villain shall not escape, the Premier is besseched to hold in check, not merely the officers of the Government, but also civic servants and permanent employees, whoever else they may be. Is there a man or even a boy in the whole town who does not at once see through such a childish scheme? Why has not the Council the courage to say what they mean and act like men? It is a pretty state of affairs when our supposed leaders have to resort to such a miserable subterfuge. Every person knows that the sole object of the resolution is to prevent Mr. J. R. McWilliams from being a candidate for Mayor at the coming municipal elections. We do not wonder that the choice of such a Mayor disturbs the dreams of some of our civic rulers, for well they know how short would be the life of their castles in in the air in such an event. But their action at the last meeting, and the Star Chamber methods which have ruled during the whole year only serve to emphasize the necessity of a Mayor and Council strong enough and frank enough to do business in an open and straightforward manner.

A Marvellous Production.

But there are one or two things about the resolution which we cannot help noticing. The skill with which it is drawn is so great that one is almost obliged to ask if the Council took the advice of their solicitor in drawing it. It is only fair to Ald. Roger to say that he was not present and therefore cannot be held responsible for such a marvellous production. And then the last clause, "that a copy of this resolution be forwarded to the Hon. the Provincial Secretary." Is it that the Premier to whom the epistle is to be addressed cannot be depended on to carry out the instructions of so august a body as the Peterborough Council? Is it that the Premier might dare to differ from Ald. Clinkscale? Or is it that this innocent looking clause reveals a hand behind the scenes? Stranger things have happened before, and that within the political horizon of this riding. The ratepayers of Peterborough will watch the development of the next six weeks with keen eyes and there may be trouble beyond.

It is Absurd.

As we said above the policy of the resolution is simply absurd. Did any one ever hear of objection being taken to Ald. Corkery because he is a Dominion official? Or did the holding of a similar position by the late Mr. Cahill render him unfit to be a member of the Council? Or can any one name a single instance in which Mr. McWilliams' official position was a hindrane to the Town during his three years as Alderman, or that the duties of his office were in the slightest degree neglected. Or if we go away from home, has any one heard of a demand for the resignation of Mayor Parent of Quebec since he became Premier of the Province.

The voters of this town cannot be influenced by such clap-trap, and the manner in which this question has been brought up will only result in strengthening their conviction that we need the best men in the town in the Council, no matter what position they hold.

The Question of Mayor.

We do not know whether Mr. McWilliams will again be a candidate for Mayor or not, but we have no hesitation in saying that every effort should be made to bring him out. It may be true that he is sometimes too regardless of other people's opinions and too hard a fighter, but it is just such an outspoken, energetic man that the town wants in the Mayor's chair at the present time. In both ability and integrity Mr. McWilliams ranks among the very highest of our citizens, and in his hands the affairs of the town would be conducted in a manner that would not need the protection of closed doors. The petty little scheme of the giant intellects that creak round the Council board will only serve to arouse public interest and strengthen the demand for the man who is so greatly feared.

BACK TO THE WARD SYSTEM.

A Petition Presented to the Lindsay Town Council of Interest.

Lindsay, like Peterborough, tried the new system of electing councillors by a vote of the whole town, and abolishing ward representation. After two year's experience they want to go back to the old system, as will be seen by the following petition, which was signed by 190 of the leading ratepayers:

To the Mayor and Members of Council of the Town of Lindsay:

Gentlemen,—Your undersigned petitioners present that—

Whereas, By-law No. 806 for the reduction of the number of councillors was passed on the 18th day of September, 1898, and went into effect on the 1st day of January, 1899.

And whereas, since the said by-law became law, two annual municipal elections have been held under it, therefore satisfying Sec. 71, sub.-sec. 2 of the Municipal Act, which provide for the repeal thereof.

And whereas, after experiencing the working of the new system, which reduced the number of councillors and at the same time abolished the wards, your petitioners believe that the former system was much preferable in a town like Lindsay, than the present one.

Therefore, your petitioners pray that at as early a date as possible a by-law be submitted to the electorate of the town of Lindsay to repeal said By-law No. 806.

And your petitioners will ever pray.

The matter was left over to the next meeting of the Council for consideration.

To be Hanged.

Greensburg, Pa., Nov. 22.—John Sadler, the murderer will be hanged to-day by the Sheriff of Westmoreland County. He has manifested but little concern about his doom.

Morning Times

PETERBOROUGH, NOVEMBER 22, 1900

OUR BEST MEN FOR THE COUNCIL.

It is time the people of Peterborough began to turn their thoughts to the election of a council for 1901. A favorable symptom of serious interest is the discussion of municipal matters, particularly in connection with the management of our highways. That there is room for radical improvement, not only in regaard to our highways, but also in many other directions, few will deny.

What has now first claim upon our attention is not any proposed change in the mode of constituting the Council, but the selection of good men. Not even the advocates of municipal reform will deny that the existing order is capable of much better results than we have for some years been getting out of it. It is impossible to confuse faults of the system with faults of the personnel. With those who trace every failure of an administration to the scheme of government, even holding it responsible for the calibre of the men elected, we do not agree. Reformers may encumber a civic constitution with devices to check dishonesty and ensure good government, but they cannot thereby endow councillors with capacity ,or public spirit, or fidelity to the common interest, or guarantee the selection of men who are so endowed. No automatic arrangement that can be invented will itself greatly lessen the risk of bad government. What, under all systems, we have to come down to at last is the fitness of persons chosen to do the public business. In the intelligent concern of citizens in the town's welfare ,and in the civic spirit of our influential men, there lie possibilities of reform that cannot be derived from the most faultless machinery. Hence, the thing to be reformed is not the civic constitution, but public interest. For some years that has been too listless. To bring it up to the right tone education is necessary, and surely we have been sufficiently schooled by the negative experiences of the last two years to know now what qualities we ought to have in a Council. Especially after the adventure we experienced when we entered upon the present system of street work, we should be sadder and wiser citizens. Upon the men we choose we stake everything; and that is true, however long we make the term of office, however much a new Council overlaps an old, whether we pay our aldermen or take their service for nothing. We must aim at getting councillors of character and ability, men having every motive for seeing Peterboro' well governed. Now, while every man thus qualified is not known by all the voters, there are men so qualified who are conspicuous enough to be known, at least by reputation to everybody. From among such prominent, sound, solid citizens as these let us select the members of the next Council. Of course, not every man who is prominent answers to the tests ,which, briefly, should be these—The possession of a good name, success in business, and proofs of public spirit. A man whose character for honesty is high, who has approved himself an administrator of ability by his successful handling of his own affairs or the affairs of others, who has always been a good friend of the town, is likely to have the uprightness, judgment, decision, and civic loyalty required in a first-class alderman or Mayor.

From the ranks of the leading business men the Council should be more largely recruited. These are men trained to despatch in commercial affairs. In their hands no civic project would stand still. They would promptly close up each item of business after due deliberation. And all their resolutions would be conclusive. Any contract they agreed upon for work would be properly carried out. They would employ a proper person to supervise and control the street work, instead of the present extravagant and bungling methods. They would not sit quietly down while railroads are being constructed into the back country, via Bobcaygeon on one side, and from Norwood, cutting off all our back country trade. Accustomed to so managing their own affairs as to prevent waste, and being concerned as taxpayers to keep down public expenses, they would, almost as a matter of instinct, if not of interest, be civic economists. Men of this standard would keep up the credit of thet own, and their influence would be valuable in all our financial operations. They would not impair the public service by wire-pulling. We hope some of our ablest business men will volunteer as candidates for the new Council. If they do, unless we are mistaken, they will find the citizens prepared to give them a better reception than they would have met with in any civic election of the last half decade.

ANGLO-AMERICAN COMMISSION.

Rumors from Washington indicate that there is a movement for resuming the important work of the Anglo America commission which is made up of representatives of the United States, Great Britain and Canada. A hint is given that the Alaskan boundary question will be omitted from the questions to be considered, thus renewing the chief obstacle to progress. The agreement of the modus vivendi makes this commission more easy of accomplishment now than was possible when the questions were first under consideration.

With the Alaska and British Columbia boundary line removed as a vexed question, the question of commercial reciprocity between the two countries would become the leading question under consideration. On this question there has been a modification of views on both sides since the commission closed its session. It will take a new discussion of the subject, however, to determine where the Americans and Canadians stand ,and what will be the demands under a new consideration of the subject. The modification of the treaty arrangement under which only one war vessel can be maintained on the Great Lakes, with a view to allowing warships to be built on the lakes and then floated out to the ocean. This is a matter that greatly interests cities and towns bordering on the great inland lakes. But even the subject has lost much of its former interest by an apparent willingness on the part of Great Britain and Canada to meet in an amicable way the views of the United States ont his subject.

A MONOMANIACAL WITNESS

A Murderer Escapes the Hangman by a Lucky Reference to a Stack.

"That calls to mind a queer experience of my own," said a lawyer who had listened to the story. "Some years ago I defended a fellow for murder in a little Southern town, and the worst witness we had against us was an old German who was a stack builder by trade. A stack, by the way, is merely another name for a big chimney. The old fellow was perfectly honest and gave his story in such a clear, straightforward manner that I felt my client was doomed unless I could think of some way to break him down. While I was cudgeling my brains a friend whispered to me to ask him how high he could build a stack. 'What do you mean?' I asked, in surprise. 'Never mind,' said my friend. 'Just slip in that question and see.' So at the tail end of the cross examination I paused, as if struck by an afterthought, and said: 'You are a stack builder, I believe?' 'Yes, sir,' replied the witness. 'Well, sir,' I continued, 'about how high can you build—' I never got any further. A swift inscrutable change flashed over the German's face and he rose excitedly from his chair. 'As high as der sky!' he roared. 'So high dose angels come around it like birds!' In five seconds he was raving. You see, the man was a monomaniac— sane on every subject but one, and my friend happened to know his weak spot. It is hardly necessary to say that his evidence in regard to the homicide was promptly ruled out by the Judge, and as there was no other witness of importance my man was cleared. The rascal should have been hanged, and would have been but for the lucky reference to the stack."—New Orleans Times-Democrat.

Lincoln's Youth.

Abraham Lincoln was the son of a poor farmer, and of his boyhood days little is known. He was born in a small cabin on the Big South Fork of Nolin Creek, in La Rue county, Kentucky, which is about three miles from Hodgensville. One of the few little stories of his youth that the writers of his life have been able to find shows that even at the early age of ten he was guided by the same noble and generous impulses that made everybody love him when he grew to be a man. One day, after fishing for hours, he was returning home, tired and hungry, with only one fish, when he met a soldier. His mother and father had always taught him to be good to soldiers, and so, thinking this one might be hungry, he unhesitatingly gave him the fish he had worked so hard to catch.

Weight of Peas.

S. M. Andree, a Swedish scientist, has collected a tabular information showing the average weight of peas in their pods. The lightest peas were always found near the end of the pod. The average weight of a pea was greater the larger the number of peas in the pod, so that the largest pods contained the heaviest peas. The weight of the peas next to the point of the pod increased with the increased number of peas in the pod. With the exception of the first and last peas, there was but a very small difference in the weight of the peas in the same pod.

Cleaning House

Once or twice a year the good housewife has a thorough house cleaning. The house has been swept and dusted every day in the year, but the housewife knows that in spite of vigilance dust accumulates in cracks and corners, and is only to be removed by special effort.

It's the same way with the body. You look after it every day. You take all the ordinary precautions of cleanliness and health. Yet the body needs its special cleaning to rid it of the accumulations of waste and poisonous matter which invite disease. Doctor Pierce's Golden Medical Discovery, taken regularly once or twice a year, would save many a sickness. It purifies the blood, strengthens the stomach, and cleanses the body of poisonous accumulations.

"Last spring I had a severe attack of pneumonia, which left me with a bad cough, and also left my lungs in a very bad condition," writes John M. Russell, Esq., of Brent, Cherokee Nat., Ind. Ter. "I had no appetite and was so weak I could scarcely walk. My breast was all sore with running sores. I got two bottles Dr. Pierce's Golden Medical Discovery, which I believe saved my life. I cannot express my gratitude to you. I am able now to do very good work."

ATTACK of ROYAL CANAdians at Paardeberg
The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 22x28, on heavy, superfine calendered paper. A picture that will commend itself and speed straight to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg. There are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer riflemen. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of these gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are BIG HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 65 in one day. Sample and terms 25 cts (none free); four for 50 cts; $1.25 per dozen; $3 for $2.25; 50 for $6.00; 100 for $11.00. Write to day for a dozen and make money. CHAPTER XII.

"My Wife and My Child."

Two years later, one beautiful morning in midsummer, Izetta Rose—as she was still called,—stood at one of the lace-draped windows of Ulvesford Mansion, gazing out into the brilliant sunshine.

"Ulmont, my husband! Ah, Ulmont Ulvesford, where art thou now?" she murmured, half aloud.

"Did 'oo call, mamma?" chirped a little voice, sweet as a robin's, and a wee, dainty-dimpled little darling, in white lace and soft, pink ribbons, bounded into her arms.

"No, Ulmont, my darling," she answered, clasping him so closely in her arms that the roses she wore on her breast fell in a shower on the child's rosy cheek; "mamma did not call you, go and play with the butterflies and the flowers; mamma will watch you from the window."

"'Es, oo' did call me," persisted the child, tossing his little curly head and pouting his sweet, red mouth that was only made for kisses, and opening wide a pair of dark, velvety eyes "'oo said: 'Ulmont, Uly, where is 'oo now?'"

Izetta blushed rosy red.

"I meant your papa, sweet," she said.

"The papa in 'ee pic-cer in 'ee upper room?" lisped the child, "'at makes 'oo cry so when 'oo sees it?"

"Yes, dear," said Izetta, hesitatingly; "you must look at that picture every day, Ulmont, and you must learn to love him very much."

"Does 'oo love him, mamma?"

"Yes," she answered, "very much."

"Does 'oo wish he would 'turn home, mamma?"

"Oh, yes, very much, my pet," answered Izetta, caressing the beautiful face raised to her own.

A shadow fell between Izetta and the brilliant sunshine; she wondered why her heart was thrilling with such ecstatic delight.

"Izetta —my wife! Ulmont, — my baby!" cried a deep, thrilling voice with the happiest cry that ever was heard.

The beautiful, queenly girl turned her head, the child still clasped in her arms.

A tall manly form stood before her; she glanced into the eloquent, pleading face; she heard the low, tremulous voice cry:

"I have come to claim my wife and my child!"

The strong arms were outstretched in another instant, and Izetta and her child were folded to Ulmont Ulvesford's breast.

He drew his wife to a sofa, seating himself beside her, his arms still encircling her slender waist, while little Ulmont, chirping like a robin on his breast, was stealing half of mamma's kisses.

"Izetta," whispered Ulmont, raising the blushing face of his lovely girl-wife to his own, and gazing down into her dark eyes, "I must whisper a secret to you, darling, I am madly, passionately in love —for the first time —with my own lovely wife. Without your love, Izetta, the world would be a blank to me; forget the past; we will live only in the future, in which I shall have but one great aim, 'the hope of winning my wife's love.' See! I have little Ulmont's already. Will you try to love me, too, dear, for little Ulmont's sake."

Izetta glanced shyly up into the one noble face in all the wide world she had loved so truly and so well, as she whispered:

"You have not to try to win my love Ulmont, my husband; that you have already, not for little Ulmont's sake, but for your own!"

That night there was a quiet wedding at Ulvesford Mansion to appease the curiosity of the outside world, who never dreamed of the strange drama that had been enacted by those two lives so ruthlessly torn asunder by the hand of fate.

* * *

Some five years later the dancing summer sunshine fell across a pathway, powdered on either side with jessamine and sweet mignonette, up which a lady and gentleman walked. Two children gamboled on before, and dropped white roses, which they carried, on a mossy grave.

"Ulmont," called the mother, gently, "take the roses from little Loraine's hands and place them with your own."

"Let me put my own roses on the pretty lady's grave," cried golden-haired Loraine.

The children knelt beside a grassy mound, while the father and mother, with their arms about each other, reverentially bowed their heads.

Beneath a drooping willow, where the whispering summer winds love to linger, and the birds trill forth their sweetest notes, stands a tall, white marble shaft pointing heavenward, and as the golden sunshine falls lovingly athwart it they read the inscription which it bears:

SACRED
To the Memory of
LORAINE,
Beloved Wife of
ULMONT ULVESFORD,
Aged 18 Years.
"Thou Knowest."

No one but those two standing there, and God, save the feeble white haired mother, who spent many a lonely hour with her face pressed close against the cold, white marble, and her arms twined around it, not even she who slept beneath the daisies knew of the great tragedy that had spread its dark wings over her bright young life.

The careless, curious world never knew.

The secret of that "fatal wooing," was buried with her.

"Fair Loraine," murmurs Izetta, her gentle tears falling on the daisies, and the soft, green grass.

"Heaven knows I loved her who slumbers here with a love that might have been my doom," murmurs Ulmont; "but after all, Izetta, when God called her He knew best; now all the love of my manhood is centered in my second love, and purified by sufferings, a love that will last through eternity!"

Izetta's head droops upon Ulmont's breast; their little children, Ulmont and golden-haired Loraine, flit close to their mother's side.

The smiling heavens bend over them, the ripple of the brooklet and the song the birds sing to the flowers are of their wondrous love.

No sound breaks upon the harmony of those reunited lives, whispering of what might have happened through the youthful folly of that "fatal wooing."

The End.

AMERICAN NERVE

TWO AMERICANS BLUFF THEIR WAY INTO THE HOUSE OF LORDS.

Dr. Frederick L. Forker and Ralph D. Smith Witness the Workings of the Most Dignified and August Body in the World.

It is believed that the first Americans who ever succeeded in bluffing their way into the House of Lords are Dr. Frederick L. Forker and Ralph D. Smith of Binghamton, who has just returned from a European trip. The tourists visited the vacant chambers in Parliament Building when they first went to Europe two months ago, but at that time neither House was in session. When they returned to London week before last and learned that both Houses were in session they determined to try to witness the working of the most dignified and august body in the world, the House of Lords.

Inquiring at their hotel they learned that no tickets are issued for admittance to that House, in fact that there are no admittances, except to friends, who are taken in by members. They learned that the American Embassy has two tickets each day for admission to the House of Commons, and that it is also much easier to get admitted to that body through some member.

They visited the Embassy, but learned that all tickets were spoken for weeks in advance. The attaches of the Embassy could suggest no way in which they could secure admittance unless they knew some member. After a day's unsuccessful effort to place a Member of Parliament on their acquaintance list, they visited the Cunard agent who had shown them courtesies when they first landed. He could suggest nothing, until he remembered that he knew a member of the lower house. He promised to see what he could do for the tourists.

That night he came to their hotel bringing them two tickets from his Member acquaintance which would admit them to the House of Commons. When they suggested their desire to visit the House of Lords to several Englishmen, the Britishers simply gaped in wonder at the men whose nerve would prompt them to think of such a thing.

On July 19 the tourists were admitted to the gallery of the House of Commons, where they listened for some time to the weighty discussion on the advisability of permitting the Irish language to be taught in the schools of Ireland. This debate soon became too tame for the Americans, and they left the House in quest of larger game.

They started down the long hall leading to the assembly chamber of the upper house. Soon they were stopped by the uplifted hand of a guard. "S-s-t. You mustn't come here. The House of Lords is in session."

The Americans were not to be stopped by such trifles. They engaged the guard in conversation, and soon they had secured his graces. Then they explained the situation and asked him to help them get into the House.

"Don't you know some Lord?" inquired the good-natured fellow.

The Americans admitted that they had no lords on their calling list. The guard scratched his head in perplexity. Finally he suggested:

"Well, I'll tell you. Just bide a bit, han' per'aps some lord will come out."

The tourists "bided several bits," but none came. More scratching of his head brought another idea to the guard, who suggested:

"Now, don't tell no one that I told you, but go down to the door there and inquire for Lord Aberdeen, and see if you can make it."

The Americans believed that this was good advice, as it put them one guard nearer the goal. They presented themselves to the stiff officials, who stood at the outer door of the House, and Mr. Smith said:

"We would like to see Lord Aberdeen."

"The guards were inclined to argue the question, but the Americans stood their ground, emphasized their demands, and convinced the guards that they were important dignitaries. Their cards were carried in to the former Governor-General of Canada.

"Does His Lordship expect you?" inquired one of the guards.

"I don't know as he expects us today," replied Mr. Smith.

But the waiting time, my brothers, was the hardest time of all," explains Dr. Forker, in describing the incident. While we stood debating what we should do next, the guard loudly announced: 'Lord Aberdeen.' Turning, we saw behind us a pleasant looking, but very dignified, well-dressed man of middle age, and then we knew we had got to see the game to the end.

Putting on his best brand of bluff Mr. Smith stepped up to his Lordship and began:

"Mr. Aberdeen, we owe you an apology, but we wish to get into the House of Lords, and we were referred to you to take us in."

"Mr" Aberdeen was too much surprised to speak at first, so the young attorney explained:

"We have just come from the House of Commons."

"How did you get into the House of Commons?" inquired Lord Aberdeen.

"On tickets from a member."

"What member?"

"Why it was—ah—it was—what member was it, Doc?"

"I never thought to look at the ticket," said the physician,

"Well really, Mr. Aberdeen, we've forgottn the member's name," explained Mr. Smith.

A very wise adventure, gentlemen," suggested his Lordship with a trace of sarcasm. But his twinkling eyes showed that he appreciated the humor of the situation. "Come with me," and he led the way through the anterooms, opening into the assembly chamber.

A WONDERFUL
KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

I. A. HOPKINS.

BRIGHT'S DISEASE,
GRAVEL, DROPSY,
And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 53 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 508 Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Salida Extension, the Salida Extension No. 2, which property adjoins the great Salida mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

PRICES AND TERMS

PRESENT PRICES—We are now selling our fully paid and non-assessable TREASURY SHARES at 5 cents per share, in blocks of 100 shares and more; 100 shares, $5; 1,000 shares, $50; 5,000 shares, $250; or 10,000 shares or more at the same rate. Send your order right NOW, before the next advance, as you will soon pay a higher price. Investors are rapidly investing with us.

The company fully prepays all government revenue, postage, etc. Send also for our handsomely illustrated prospectus, which contains much valuable information. It is free for the asking.

All communications of every nature concerning this company should be plainly addressed to

TOWN AND COUNTY NEWS

Hocky Meeting

The annual meeting of the Peterborough Hockey Club will be held on Tuesday evening next. A full attendance is particularly requested.

Charity Ball

The charity ball in the opera house last night in aid of the funds of St. Joseph's Hospital, was well patronized. The spacious room was handsomely decorated, and everything passed off satisfactorily.

The Spence Memorial

The public meeting called by Mayor Kendrey to discuss the proposal to erect a suitable memorial to the late Dan Spence, will take place this evening in the Council Chamber. There should be a large attendance.

Anniversary Sermons

Anniversary exercises in connection with the 19th Anniversary of the Y.M.C.A. will be held in St. Paul's church on Thursday evening, Nov. 29, when Dr. H. C. Barrie will be the speaker. He was with the first contingent in South Africa, and his address will therefore be very interesting.

Principal Fessenden Appointed

The Ontario Government has made the following appointments to the Educational Council: Principal Loudon, Prof. Alfred Baker, Prof. Maurice Hutton, Prof. A. B. Macallum, Prof. N. Burwash, Prof. Teefy, nominated by the Senate of Toronto University; Prof. William Clark, Inspector P. Tytler, Guelph; Principal C. Fessenden, Peterborough; Principal G. H. Armstrong, Toronto.

Card of Thanks

London Life Insurance Co:—

Gentlemen—I wish to thank you for the very prompt manner in which you paid the insurance on the life of my deceased wife, Victoria Guy, I having received the cheque for the full amount of the insurance from your local agent, Mr. Alex. Campbell, inside of three days after the claim papers were signed. Yours very truly,

CHAS. F. GUY.

More of It.

An example of the disgraceful way some of our street work has been done is recalled by the bill for damages presented at the last meeting of the Council from the Stanley Piano Company, amounting to $299.40. The basement of the factory was flooded several times on account of the bad sewer connection. The town has spent a considerable sum of money in having the connection made right, so that the bungle will cost us a pretty penny. It is time for a change.

Do Not Misquote Figures

Some advertisers are using the Inland Revenue Department's recent official report upon baking powders to show the comparative strength and qualities of these articles as they are sold in the Dominion. It is not fair, however, either to the Analysts or to the public in making this use of the official figures that they should be misquoted, as it is alleged has been done in some instances.

The following figures are copied from the official report printed by the Canadian Government and show correctly, as per that document, the relative strength value of the baking powders named. The analyses in all cases were made by the Government Analysts:—

	Per cent. of available leavening gas.
"Royal," (average of three highest tests)	13.4
"Cleveland's," (average of two highest tests)	13.
"Dearborn's," (average of three highest tests)	11.7
"Imperial," (average of two highest tests)	9.9
"Magic," (contains alum), (average of three highest tests)	7.7

These tests should set the baking powder question at rest.—Montreal Pharmaceutical Journal.

JOTTINGS ABOUT TOWN.

—Municipal politics are now in order.

—What's become of the Board of Trade? We never hear from it.

—The recent heavy rains have made rural travel very bad.

—A heavy thunderstorm passed over the town yesterday.

—The Court of Revision met last night.

—Remember the non-coms. smoker this evening.

—Butter has dropped in price to twenty cents, owing to the closing of the cheese factories.

—The Canadian General Works are likely to be very largely increased next year.

Scrofula in the blood shows itself sooner or later in swellings, sores, eruptions. But Hood's Sarsaparilla completely cured it.

—In the West Durham election protest case, a writ was filed for Charles Jonas Thornton, M.P., in the High Court of Justice against Thomas Bingham, the returning officer.

—Mr. R. J. Munro took possession of the Morgan House yesterday. Mrs. Morgan was the recipient of many testimonials of personal regard and esteem from her boarders.

—The Supreme Grand Lodge of the S.O.E. has been pleased to appoint Bro. R. Wareham of Lansdowne Lodge No. 75, Peterborough, as District Deputy for the counties of Peterborough and Victoria.

—The many friends of Mr. Harry Le Brun will be pleased to learn that he has secured a satisfactory settlement with the insurance companies in connection with his loss through the Campbellford fire.

—This evening the graduating exercises of Nicholls Hospital will be held in the Y.M.C.A. The public is cordially invited to attend and besides the presentation of diplomas an interesting and varied programme will be rendered. The valedictory will be read by Miss Wilmot.

—Mr. Henry Johnston, of Hastings, still offers $1,500 towards the erection of a counties poor house at Cobourg, but says that it must be understood that the offer will not last forever. In other words if the counties want the money "they had better get a move on."

The Times did not appear at the usual hour yesterday morning on account of a break in the electric wires which conveys power to our presses. It was a dark and cloudy morning, but the non-appearance of The Times at the usual hour cast an additional dark spasm over the community.

The Stomach's "Weal or Woe!" —The stomach is the centre from which, from the standpoint of health, flows "weal or woe." A healthy stomach means perfect digestion—perfect digestion means strong and steady nerve centres—strong nerve centres mean good circulation, rich blood and good health. South American Nervine makes and keeps the stomach right.—52

SOCIAL AND PERSONAL.

—Mr. W. Brooks, of the Carleton House, Young's Point, was in town yesterday.

—Mrs. Thomas Bullen and family left yesterday for Manitoba, where they will reside in future.

—Mr. John McKee, of Toronto, formerly of Peterborough, was in town yesterday on a business trip, and gave the Times a friendly call.

—The many friends of Mr. E. Wasson will be pleased to learn that he has recovered sufficiently to be able to be moved from the hospital to the house of his sister, Mrs. W. A. Sanderson.

—We had a call yesterday from our old friend, Dr. R. W. Bell, Assistant Superintendent of the Asylum for the Insane, Toronto, who has been spending a few days in town on business. The doctor returned to the city yesterday.

Died in Harness

A horse belonging to Mr. W. G. Howden, butcher, dropped dead yesterday in front of the Central School. It was attached to a delivery wagon.

A Runaway

While Mr. Wm. Leahy, of Otonabee, was driving home yesterday, his horse became unmanageable and threw him out of his wagon when near the railway track in Ashburnham. When picked up he was found to be seriously injured and was taken to St. Joseph's Hospital.

An Otonabee Wedding

A very pretty wedding took place on Wednesday afternoon at the residence of Mr. A. A. Goodfellow, Otonabee, when his daughter, Miss Margaret was united in marriage to Mr. J. H. Sanderson, of Cavan. A pleasant party of the friends and relatives of the bride and groom attended the ceremony, which was performed by Rev. Mr. Andrews, pastor of the Keene Presbyterian church. The bride was assisted by her cousin, Miss Lang, of Fraserville, while the best man was Mr. Albert Taylor, of London, Ont. The bride was the recipient of a great many handsome wedding gifts. After returning from a trip to western points, Mr. and Mrs. Sanderson will take up residence in Cavan. The Times joins in wishing the happy couple a long and happy life.

"THE HAUNTED HOUSE"

Synopsis—Approach of midnight. Moaning of the wind, dying away into silence. Twelve o'clock. Rousing of the ghosts from their day sleep. They are heard in the distance. They draw near, and their groans and chains are heard. The trumpeter announces the arrival of the Ghost King. He enters. Tour of the house, making night hideous with their cries. The King calls out to cease just as the clock strikes one. They scramble from all parts of the house to the assembly room and begin their ghostly march away.

TOWN FINANCES.

Editor Morning Times.

Sir,—I have been informed by a member of the Town Council that the town will be a good many thousands of dollars in the hole this year. Kindly let the public know through the medium of your widely-read paper how we stand, and oblige,

A CITIZEN.

Ans.—We cannot tell. The statements which is to be submitted in December is not yet ready. When it is ready the facts will appear in these columns.

THE MAYORALTY.

Editor Morning Times.

Sir,—The resolution passed at the Council on Monday evening has for its object the disqualifying of Mr. J. B. McWilliams as a candidate for Mayor. That it won't succeed I am sure is the wish of a very large majority of the citizens of the town.

Mr. McWilliams is not, perhaps, perfect, but he is fearless in doing what he believes to be right. He is opposed to all kinds of crookedness, and I for one would be glad to see him in the Mayor's chair.

The object of the resolution above referred to is so palpable on the face of it, that it will turn hundreds in Mr. McWilliam's favor. All good citizens will regard it as a very mean piece of business.

A RATEPAYER.

PUBLIC MATTERS.

Editor Morning Times.

Sir,—I noticed with pleasure a letter in your issue to-day signed "Woman's Rights," on, as the writer expresses it, the filthy habit of expectorating or spitting on the streets. Mr. Editor, it is not only a filthy habit, but is as well a disgusting habit, and one most injurious to the public health. It is forbidden now in mostly all public places in the cities, not only in the United States but in Canada as well. In the city of London, Ontario, neatly painted notices with black letters on a white background, made of tin, are posted in the public streets, on the telephone and other poles, notifying the public against the habit of spitting on the side walks. A by-law should be passed by the Peterboro' aldermen at their next meeting, if for no other purpose than to show the ratepayers that they, the aldermen, have at last done one act in the interests of the public during the year.

I notice, too, that with respect to the destruction of the shade trees on our streets Alderman Weir alone seems to have concluded it was about time to take some steps for their protection. It may not be generally known that the owner of the property adjacent to the highway on which shade trees are growing, has ownership or property in the trees, and has the same right to protect them and maintain an action for their injury as if the trees were on the owner's land. A case has lately come to the writer's notice where three beautiful maples have been shamelessly mutilated by some persons or corporation with intent, and it is to be hoped that steps will be taken to make mutilators pay for the damage by legal process. Thanking you for space, I am, Yours, etc.

Nov. 20, 1900.

CITIZEN.

Editor Morning Times.

Sir,—In a recent issue of the Times you published a letter from the Mayor in which he asks for suggestions for a memorial for Dan Spence. In my opinion, chimes placed upon the church which he attended would be a very suitable memorial. Besides calling to our memory our gallant young friend each time they were rung, they would be a benefit to the town. The members of the church in which they were placed would no doubt contribute largely towards getting them, thereby helping on the subscription list. Thanking you, Mr. Editor, I remain.

A WELLWISHER.

The Irl R. Hicks 1901 Almanac

Whatever may be said of the scientific causes upon which the Rev. Irl R. Hicks bases his yearly forecasts of storm and weather, it is a remarkable fact that specific warnings of every great storm, flood, cold wave and drouth, have been plainly printed in his now famous Almanac for many years. The latest startling proof of this fact was the destruction of Galveston, Texas, on the very day named by Prof. Hicks in his 1900 Almanac, as one of disaster by storm along the gulf coasts. The 1901 Almanac, by far the finest, most complete and beautiful yet published, is now ready. This remarkable book of nearly two hundred pages, splendidly illustrated with charts and half-tone engravings, goes as a premium to every subscriber who pays one dollar a year for Prof. Hicks' journal, Word and Works. The Almanac alone is sent prepaid for only 25c. Order from Word and Works Publishing Company, 2201 Locust Street, St. Louis, Mo.

Surrender of Sipido

Brussels, Nov. 21.—In the Chamber of Deputies yesterday the Socialists made an attack on the Government in connection with the recent extradition from France of Sipido, the youth who attempted to assassinate the Prince of Wales in this city some months ago. M. Vandervelde, the Socialist leader in the House, declared that Sipido's extradition was illegal and that it had been secured by the intervention of King Leopold, who was prompted thereto by a desire to propitiate Great Britain.

M. Vanderheuvel, Minister of Justice, defending the Government's action in the case, declared that Sipido had been surrendered to the Belgian authorities by France in virtue of the Franco-Belgian Convention of 1898, which provided that each nation should surrender to the other refugee minors who had acted without discretion.

LANCERS CHARGE BOERS DOING DEADLY DAMAGE

British Force Inflicts a Severe Defeat upon the Enemy at Vaderspan.

LORD ROBERTS TELLS OF HIS ACCIDENTAL FALL

Says His Horse Fell With Him on Sunday Last and that He Hopes to be About in a Few Days—More Losses Reported Among the Strathconas.

Bloemfontein, Nov. 22.—The Boers under Brand were defeated Nov. 18 at Vaderspan, with heavy losses, the Lancers charging through the flying Boer line, and doing deadly damage, as a number of riderless horses demonstrated. Brand himself was wounded. The British casualties were non serious.

ROBERTS TELLS OF ACCIDENT.

London, Nov. 23.—The following despatch has been received at the War Office from Lord Roberts, dated Johannesburg,—

"My horse fell with me Sunday and bruised me somewhat. Am doing well. Hope to be about in a few days."

REMOVED TO JOHANNESBURG.

London, Nov. 22 — A despatch to the Standard says,—"Lord Roberts' bodyguard removed him to Government House, Johannesburg. He was badly shaken and bruised, but it is expected he will be able to take the field again in the course of a few days." The Daily Telegraph learns that Lord Roberts has telegraphed privately to the Secretary of State for War, Mr. Wm. St. John Brodrick, that he felt no ill effects whatever.

STRATHCONAS DEAD.

Ottawa, Nov. 22—The following cablegram, dated Cape Town, Nov. 20th, and signed by Sir Alfred Milner, was received yesterday by His Excellency the Governor-General,—

"135, Stewart, slightly wounded, Potchefstroom, Nov. 14th; 306, Valentine, died of enteric, Carmiston, Nov. 13th. Both of Strathcona Horse.

"Hare,, D Battery, slightly wounded, Lelufontein, Nov. 6th."

The above is not very clear. No. 135 on the Roll is A. W. Stewart, of A Squadron,, whose next of kin is A. Stewart, Sandy Point, Ont. There is no "Valentine" on the roll. No. 306 is E. V. Chancellor, whose next of kin is H. Chancellor, Atlin, B. C. It is possible that the name may be E. Valentine Chancellor,, and the may have been called generally by his middle name. There are two "Hares" in D Battery, W. A., whose next of kin is Mrs. T. Hare. The address of the next of kin in each case is given as "Elgin, County."

GENERAL BOTHA'S COMMAND.

Cape Town, Nov. 22—The Argus says it has reasons to believe that Commandant-General Botha's command can be kept well in hand in the northeastern portion of the Transvaal until it is obliged to yield for lack of supplies.

Gen. Pole-Carew will sail for England to-morrow.

GEN. BULLER SPEAKS WELL OF THE ARMY

He Does not Think the Boers Will Fight Very Much Longer.

London, Nov. 22—Speaking this evening at a banquet given in his honor Gen. Buller defended the British army against the charges of ravishing women and of barbarous treatment of Boers, declaring that all were false. He said that int hree cases of alleged assaults upon women that were brought to his attention two of the accused were Hottentots following the forces and the third was a local Kaffir. "No army ever behaved better," said Sir Redvers. There is no doubt that the war having come to its crisis induces severe treatment. But why is it so? Are the real patriots fighting for their country? The whole people whom we know as Boers either have already surrendered or are prisoners, or are doing their level best to surrender. The people left in the field are either mercenaries or bandits. Gen. Buller quoted an Orange River Colony Judge as saying that the moment when the men in the field ceased to be paid the war would end.

GRADUATING CEREMONY

A VERY SUCCESSFUL ENTERTAINMENT LAST NIGHT.

Four Nurses of Nicholls Hospital Graduate—Addresses and Songs—A Very Instructive and Entertaining event in Connection Therewith.

The lecture hall and class rooms of the Y.M.C.A. were filled to the doors last night to witness the graduating ceremony of the four nurses of the Nicholls' hospital. A very pleasing programme was rendered, consisting of songs and addresses, by the following ladies and gentlemen:—

Miss Jean Cameron, piano solo; Mr. J. Crane, song; Rev. W. L. Armitage, address and presentation of bandaging prize; Miss White, song; Mr. J. Dawson, song; Dr. J. H. Eastwood, address and presentation of diplomas and medals; Mrs. W. A. Sanderson, song; Miss Margaret Wilmot, valedictory.

Mr. Richard Hall kindly acted as chairman. In his opening remarks he urged on the public and directors to have a new wing added to the hospital. This, he said, was the seventh graduating class, the last being two years ago. The staff consisted of twelve nurses, seven servants, and 14 doctors on the medical department. Nurses from Nicholls' Hospital filled first-class positions in all the hospitals of the continent of America,, said the chairman. The big cities of the United States and Canada all have graduates of the Nicholls Hospital in their hospital and sick wards, and it afforded him the greatest pleasure to act as chairman at the graduation ceremony of four more of its nurses.

Rev. Mr. Armitage said it must be very gratifying to the directors of the Hospital to see the interest taken in the matter, as shown by the large audience present. It is often a question of discussion, he said, as to the different spheres of men and women, and women are more than ever showing their equality to men in poetry, matters of business and similar pursuits. Women, however, are especially adapted for the nursing of the sick, wounded and dying. Man, with his rough ways and hard hands, is entirely out of place beside the sick bed. Florence Nightingale first showed the world that women could comfort the torn and bleeding on the battlefield. In our present war, nurses are at the front, aiding and comforting the wounded, watching and praying for the patient's recovery. Nursing now ranks equally high with the doctor's treatment. Matters of importance the physicians overlook are noticed by the skilled nurse and remedied, often saving the sufferer's life. He also strongly seconded Mr. Hall's opinion as to enlarged quarters, especially for the diphtheria and typhoid fever patients. He urged the nurses to practice patience and fond kindness for their charges. Often they are alone with the dying, the only one who is able to pray for and comfort the patient on his death-bed. It is a great responsibility, and he impressed upon his hearers to be always ready for such occasions. Rev. Mr. Armitage then announced that Miss Ferguson had won in the bandaging contest, and presented the prize, a handsome thermometer.

Dr. Eastwood opened his address by some instructive and interesting advice on hospital work. Bandaging is very important in the saving of life and limb. Often the proper bandaging of a cut stops the flow of blood, which otherwise would result in speedy death. There are stories going around, he said, as to the board one gets at the hospital. The hospital is compared to a jail. He had heard former patients say they were almost starved. As a doctor, he knew some of these grumblers were sent to the hospital simply from the effects of over-eating. The nurses are often unjustly accused of neglecting to supply patients with food, while the fact of the matter is that it is done, according to the physician's directions. Thank God, the hospital is not a money-making institution. Even the private ward patient who pays $1.25 per day hardly pays expenses, while a Government grant a few cents a day per patient is granted to the free ward. He urged that a home be erected for the nurses, so that they might have more comfort, the worry and ceaseless watching being very hard to bear. "A nurse's home is mid heaven and earth," said the speaker.

The presentation of medals to the four graduates, Misses Margaret Ferguson, Rachel MacNeillie, Margaret Wilmot and Jessie Cameron then took place, and a beautiful boquet of flowers presented to each of the graduates. Dr. Eastwood then gave some very instructive adice to them, and congratulated them on earning their degrees.

Miss Wilmot, nurse in charge, speaking for the graduates, then read an address, in which she reiterated the former remarks made in connection with enlarged premises, and a typhoid fever and diphtheria ward and nurses' home. She and her fellow-graduates had special reason to be thankful to the Lady Superintendent, Miss Flora Bolster, for the aid and advice they had received. They would like to have the Nicholls' Hospital recognized as the best or at least one of the best in Canada.

The Lady Superintendent spent part of her holidays inspecting and learning the methods pursued in hospitals throughout Canada and the U. S.

The chairman then called on any one present who had been a patient in the hospital to give their experience, and Mr. Strickland and Mr. Roper gave short addresses, praising the management and nurses for the treatment they had received while there.

The meeting then closed with the singing of God Save the Queen.

It is to be hoped that this entertainment will become an annual event, as it is both instructive and entertaining to the public.

LIVELY LAKEFIELD.

Latest Budget of News from Our Northern Suburb.

Everybody here reads The Times.

We welcome Mr. R. H. Strickland, who is home from the Yukon on a visit to his father, Mr. R. C. Strickland.

Miss Edith Watson and Miss Alma Stenson were visiting friends in Buckhorn on Sunday.

Last night Laing Bros. moving pictures were exhibited here.

Mr. C. A. Bell, of Osgoode Hall, Toronto, spent a few days here last week, shooting ducks at Stony and Lovesick Lakes.

Mr. W. P. Gray returned home last week from Michipicoten, Ont., where he has been for the past year prospecting for the Lake Superior Power Co., and was successful in locating a number of fine prospects.

Mr. John Lang, M.P., and wife, of Otonabee, were in the village last week, and received congratulations from a large number of his friends.

We regret to announce that Mrs. H. F. Mellor, after a lingering illness, passed away very suddenly on Sunday morning from heart failure. She was interred in the Hillside cemetery on Tuesday.

A special meeting of the council was held in the council chamber on Monday evening. Reeve Hall occupied the chair, and there were present Councillors Fraser, Fitzgerald and Trude.

A communication was read from Mr. O. A. Langley, asking to be appointed as village solicitor, which on motion of Messrs. Fraser and Fitzgerald was received and laid over for future consideration.

The Finance Committee presented their, report, recommending the paysheets, and also $50 to settle the Bradburn claim against the property now occupied by the Lakefield Portland Cement Co. The report was adopted on motion of Messrs. Fraser and Fitzgerald.

Mr. Kilbourn addressed the council regarding putting a drain from the river to the Cement Works, he to furnish a pipe ,and the village to do the work of blasting out the drain and laying the pipes. The matter was left over untill evels were taken and an estimate of the cost prepared.

The council was asked for a grant for advertising Lakefield in a work being prepared by the Lake Ontario and Bay of Quinte Navigation Company, entitled Scenic and Sporting Tours, for distribution principally in the United States.

It was moved by Coun. Trude, seconded by Coun. Fitzgerald, that an appropriation of $25 be made to the Scenic and Sporting Tours Magazine.—Carried.

The council adjourned to meet at the call of the Reeve.

"MY SON-IN-LAW, THE DUKE"

Father-in-Law Zimmerman Bubbles Over With Pride

Cincinnati,, Nov. 23—"I have cabled to the Duke, my son-in-law, a hearty welcome to this country. I admire and like that young fellow, who went to work at newspaper reporting when a bit short of funds, and you may say for me that whatever is mine is his."

Eugene Zimmerman said it. And the last five words mean that the Duke of Manchester is many times a millionaire. Mr. Zimmerman has had only 48 hours' experience of being father-in-law to a duke, but the more he thinks about it, the more he likes it.

A fellow club member suggested to Mr. Zimmerman that he make a railroad man out of the duke. "Put him in charge of that new line," he remarked.

"Not by a long sight!" was the millionaire's reply, with a laugh that may have meant any of several things.

Mr. Zimmerman cabled last night his "congratulations," as he expressed it, and a hearty welcome to this country to his son-in-law. He told a correspondent this was the first time since the wedding that he had communicated directly with the duke. He has not yet received a single word from his daughter, his only child, since the marriage.

"I have received a hundred telegrams to-day from all sections of the country, congratulating me on the marriage of my daughter," he said. "There has also been manifest here in Cincinatti a disposition to extend to my daughter and son-in-law a welcome in the way of a function. I shall not agree to this if I have anything to say in the matter."

KRUGER GIVEN A VERY WARM WELCOME

The Populace of Marseilles Cheered Him Wildly and He Dealt Out His Old Threats of Eternal Resistance.

Marseilles, Nov. 23.— Ex-President Kruer of the Transvaal landed here at 10.45 this morning from the steamer Gelderland.

Marseilles, Nov. 22. —The weather was beautiful and the Boer leader received a magnificent demonstration. The whole route from the landing place to his hotel was crowded with people. He appeared to be in good health, and repeatedly took off his high hat in acknowledging the acclamations of the people.

Replying to the address of welcome of the Presidents of the Paris and the Marseilles committees, Mr. Kruger spoke in Dutch and in a low voice. But he accompanied his word with energetic movements of his hat, which he held in his right hand. After thanking the committees for the warmth of the reception accorded him and expressing gratitude for the sympathy he had received from the French Government, he spoke of the war as being terrible and barbarously conducted by the British. He said: "I have fought with savages, but the present war is even worse. We will never surrender. We are determined to fight to the last extremity, and if the republics of the Transvaal and Orange River State lose their independence, it will be because they have lost every man, woman and child."

The Gelderland was sighted several miles out at 7 o'clock in the morning, and Dr. Deyds and Messrs. Fisher and Wessels, an interpreter, and Dr. Van Hammel, immediately proceeded to the Dutch warship in a steam launch, and soon afterward boarded her. A conference between the Boer leaders ensued.

The Gelderland remained behind the Island of the Chateau D'If, made famous in Dumas' "Monte Cristo," until 10 o'clock, when she steamed into the outer harbor, firing a salute of 21 guns, to which a shore battery replied.

Mr. Kruger cannot but be elated at the warmth of his reception by the people of Marseilles to-day. From the moment the white, twelve-oared barge left the side of the Gelderland, which ex-President Kruger sitting in her stern surrounded by the Boer representatives, the storm of cheering never ceased until he entered his hotel. Even then a vast concourse of people remained in front of the building until Mr. Kruge rappeared on the balcony, where he had to remain for some time uncovered, acknowledging the acclamation of his thousands of admirers, who continued cheering until they were hoarse.

The fighting declaration which Mr. Kruger made at the landing stage dispelled at once any impression that he might intend to accept a compromise from the British Government. His announcements was greeted with a roar of cheers and cries of "Vive Kruger," "Vive les Boers," "Vive la Liberte." He repeated the statement from the hotel balcony, where, replying to the storm of acclamations from the solid block of thousands of people, Mr Kruger said the reception given him to-day would do much to soothe the wounds in his heart. The Boers, said he, would never sacrifice their freedom. They would rather be exterminated to the last man.

GOOD ADVICE FOR KRUGER.

London, Nov. 21—A despatch received here states that the Gelderland reported when passing Toulon that the machinery was out of order. This is stated to have been at six o'clock on Wednesday morning, and two correspondents, dating their messages 10.30 p.m., say that Dr. Leyds, who went out from Marseilles in a tug to meet the ex-President, returned without finding the Gelderland. Another correspondent says positively that the cruiser has arrived off Marseilles, and that Dr. Leyds boarder her and conferred with Mr. Kruger. He advised the ex-President not to make any declaration of an anti-British character, lest he compromise French hospitality. He advised him to reserve his appeal until he reached Holland.

THE KRUGER FIASCO.

London, Nov. 21—It is noticeable that none of the evening newspapers pay any attention to the expected arrival of President Kruger at Marseilles. They confine themselves to printing these news despatches from Marseilles, and to headlines in which they seek to ridicule the whole affair. The St. James' Gazette has a spread heading reading "The Kruger Fiasco."

Sir A. Sullivan Dies Suddenly

Great Composer Passes Away While Laughing and Talking, Case of Heart Failure, Had been Ailing for Some Time, but it was not Believed that His Heart Was Affected.

London, Nov. 22.—Sir Arthur Sullivan, the musical composer, is dead, the result of heart failure. Sir Arthur Sullivan's death was very unexpected. It occurred at 9 o'clock this morning, while he was laughing and talking in a house here. He fell down and died within a few minutes of heart failure. He has been ailing for some time, but it was not believed his heart was affected. Recently he had been in better health than for some weeks past.

Sir Authur Seymour Sullivan, English composer, was born in London on May 13, 1842. His father was principal professor at Keneller Hall, the training school for British military bands, and from his earliest days the son received an efficient musical education. As a chorister at the Chapel Royal, St. James', he obtained systematic instruction in music, and was still in the choir when, at the age of fourteen, he was successful in the first Mendelssohn Scholarship competition. After three years study under Sterndale Bennett and Goss he went to the Leipsic Conservatorium, and returned to England in 1861, bringing with him his "Tempest" music, which was heard for the first time at the Crystal Palace. Chambridge University conferred upon him the honorary degree of Doctor of Music in 1876, and he received a like honor from Oxford three years later. He was principal of the National Training School for Music for five years from its foundation in 1876, and conducted fourLeeds Festivals, and the Philharmonic Concerts in 1885 and 1883. In 1882 Sir Authur was President of the Birmingham and Midland Institution; he was a member of a large number of foreign learned and musical societies. Sir Authur was British Commissioner for Music at the Paris Exhibition in 1878, when he was made a Chevalier of the Legion of Honor. He was also a Knight of the Order of the House of Cobourg, and received from the Sultan of Turkey the Order of the Medjidieh.

Cost of South African War Enormous

Borrowing Powers of Parliament Overstepped by Over $200,000,000—Collapse in Trade of South Africa will be Caused by the Withdrawal of British Troops.

London, Nov 24.—The cost of the South African War has now so greatly exceeded the original estimates that practically no one in authority in England seems able to make a definite calculation of what it may ultimately amount to. The borrowing powers granted to the British Government by the late Parliament are nearly exhausted and heavy arrears, amounting to between $200,000,000 and $250,000,000 are pressing for payment. Against these liabilities the Government has about $75,000,000 immediately available the unexhausted borrowing power amounting to $30,000,000, and the balance of loans yet to be paid up, $45,000,000. Of the payments in arrears much consists of the pay due the army and debts to contractors.

The indirect cost has been estimated, and the result is highly interesting. In September last the shrinkage in value of the full list of securities quoted on the London Stock Exchange had as a direct consequence of the war, reached the enormous figure of nearly $2,500,000,000. The decline in the market value of consols alone has been serious, and the fall has been equally marked in municipal stocks and railways and other obligations. The increase to the national debt with the additional taxation to meet the interest payments has also to be taken into account. Then there is the expense of the permanent garrison, estimated at 50,000 men, which will have to be kept up for an undertermined period out of the pocket of the British taxpayer, for there is no present visible sourse of revenue in South Africa from which the cost can be paid.

MONEY FOR GUNS

But the matter does not end here. The increase and the reorganization of the army have to be provided for, and millions will have to be spent in bringing the stores of ammunition and other war material up to the requirements of the new policy. Already orders for $30,000,000 worth of new guns have been placed, to be followed by others, the amount of which has not yet decided on.

It is not however, in England only that the direct cost of the war is making itself felt by the taxpayers. The shortage of revenue in Cape Colony this year is estimated by the Minister of Finance at not less than $12,915,000, which he proposes to borrow though the reception which a proposal to rise a small loan in the London market a few months ago met with does not seem to encourage fresh applications in the same quarter. In the nature of things it will be some years before the waste and destruction worked by the war have been made good, and mean time the course of trade which in the past was favorable to Cape Colony will take other channels. Durban, in Natal, and Lorenzo Marques, are so much nearer to Bloemfontein and Pretoria, than Cape Town that supplies and traffic may be expected to take the shorter routes. This will affect the revenues of Cape Colony derivable from the railways.

AFTER THE WAR.

No boom is to be looked for after the war is over, the sacrifices made by the Cape farmers or imposed on them having been too great to permit their launching out into extravagances of any kind for a long time to come. The reduction of the Imperial expenditure consequent on the withdrawal from the country of the great portion of the British Army will cause a sudden reduction in the trade depending on it, and bring about a great curtailment of thep rofits of those engaged in it and on which they depend for their living.

STAR CHAMBER ALDERMEN.

Editor Morning Times.

Sir,—I read with considerable disgust of the efforts that are being made by a certain clique to prevent a well-known citizen from running for Mayor I hope the effort will not succeed.

In regard to the council, please let your readers know exactly whether or not the Council held committee meeting and transacted public business behind closed doors.

Thanking you in advance, I am, Mr. Editor, yours truly

VERITAS.

Ans.—Early in the year the present council passed a resolution, closing the the doors of all, or nearly all, committee meetings to the public and to representatives of the press.

CHRISTIAN SCIENCE.

Editor Morning Times.

Sir,—I will be glad if you will publish the following in The Times. It will show that Christian Science is doing good, and cannot therefore be a dangerous element in the community, as some people have imagined.

ACUTE CONSUMPTION.

Mr. and Mrs. McHugh, 208 Gladstone avenue, states that in the fall of 1898, before they heard of Christian Science, their son Gyle, then about 2 years old, was attended by their physician for scarlet fever, which about three months later was followed by what the doctor said was acute consumption, and that it could run only a few months and would terminate fatally. After being in the care of two doctors for eight or nine weeks, a consultation was held, and the third doctor was called in. All three agreed there was no hope for the patient—medicine could not save him —his lungs were a mass of germs, and that he could not live more than a few hours. His temperature was 103, and he was reduced to skin and bone. He was then taking maltine and another mixture.

At this time a friend told them of Christian Science ,and they were willing to try it, having no other hope. The doctor was informed of this decision and gave up the case. Mr. R. S. Perry, C.S., was sent for, medicine was discontinued ,and the lad has never taken a dose since. He received Christian Science treatment every day, was out of bed in a week, and could walk around in two weeks. He kept on gaining steadily, and in a few weeks had recovered perfectly. He is now healthy and robust.

A CASE OF ACCIDENT.

Mrs. Bessie Forsyth ,49 Jersey avenue, states that about a year ago her son ,11 years old, was unharnessing a frisky horse. It made a jump from the shafts and knocked the boy down and stepped on him, cutting his ankle very badly with sharp shoe and causing him to faint. The foot swelled to three times its usual size ,and the leg was black up to the hip. Christian Science help was procured ,and by that time the boy was delirious from pain and fright. The accident occurred in the evening. He went to sleep about midnight and rested well. He suffered very little pain afterwards, and in about two weeks was quite well. No material remedies were used. The case was left in the hands of the Great Physician, and Truth healed him.

TOBACCO AND LIQUOR HABITS.

Mr. William Arnott, 63 Jersey avenue, was, in one treatment by Christian Science, healed of the tobacco habit of about 14 years' standing. Previous to this he had tried many times to give up the habit, but failed.

Recently his brother was healed of the habit of intoxication. He received a week's Christian Science treatment, and has had no desire for liquor since.

ASTHMA, BRONCHITIS AND LA GRIPPE.

Mrs. M. E. Snyder, Westmoreland avenue, states that she accepted Christian Science ,not because of physical healing forh erself, but through having seen her nearest neighbor healed by Christian Science treatment in one week. He had been suffering terribly from asthma, bronchitis and other diseases. After enquiring about this wonderful healing power and being satisfied that it was of God, she purchased "Science and Health, with Key to the Scriptures," by Mary Baker G. Eddy, and before she had read it through, and while reading it she had healed thereby of a severe attack of la grippe. She says she has seen typhoid fever, diphtheria and many other diseases healed in a very short time through the understanding of Christian Science. Her experience is that Christian Science not only heals sickness and sin, but preserves health and lengthens our days.

Thanking you, Mr. Editor, for your valuable space, I am, etc.,

WESLEY SPAULDING.

Many People Think

That the town should take over the electric plant and water works.

That there is a big connection with the present management of our streets.

That the Times' Municipal Campaign is a good thing to arouse interest in municipal affairs.

That there should be a Mayor and council elected strong enough to handle the railway to the north question.

That everybody reads The Times.

That Mr. McWilliams will be a candidate for the mayor's chair, in spite of the underhand efforts that have been made to prevent it.

That the Canadian General should be induced to move all their works to Peterborough.

That there is likely to be a large deficit in the municipal accounts.

Obituary

The Omemee Mirror says: It is our sad duty this week to chronicle the death of Miss Maria Agnes McLean, beloved daughted of Mr. and Mrs. Jas. McLean, of Mt. Pleasant, which took place on Saturday last. Deceased was highly respected by a large circle of friends. She was a faithful member of the Mount Pleasant Presbyterian church, and a true Christian lady. Miss McLean was always an ardent worker for the welfare of the church , community and the people among whom she lived. Mr and Mrs. McLean and the remaining members of the family have the heartfelt sympathy of the people of the entire community in this their hour of trial. Deceased was a sister of Mr. A. P. McLean of the George Matthews Co., Peterborough.

THE QUEBEC ELECTIONS.

The Quebec Legislature, which has just been dissolved, was three and a half years old. The last provincial general elections were held on May 11, 1897, and resulted in the overwhelming defeat of the Flynn government and the corresponding triumph of the Liberal party, led by the late Hon. Mr. Marchand. About a week after Mr. Flynn and his colleagues resigned, and the late Sir J. A. Chapleau, then lieutenant-governor, in accordance with constitutional usage, called upon Mr. Marchand to form a government, and that gentleman accepted, undertaking the duties of prime minister and provincial treasurer. The rest of the cabinet was made up as follows—Public Works, Hon. H. T. Duffy, lands, forests and fisheries, Hon. S. N. Parent; colonisation and mines, Hon. Adelard Turgeon, attorney-general and speaker of the legislative council, Hon. Horace Archambault; agriculture, Hon. F. M. Dechene, provincial secretary, Hon. J. E. Robidoux; without portfolio, Hon. Geo. W. Stephens and Hon. Joseph Shehyn.

On the death of Mr. Marchand, a couple of months ago, Hon. S. N. Parent was called upon to form a cabinet. In accordance with the advice of his predecessor he chose Mr. Duffy as treasurer. Mr. Robidoux was appointed to the bench, and Mr. Turgeon took his place as provincial secretary. The Hon. Lomer Gouin became commissioner of public works. The other portfolios remained in the same hands, the department of colonization and mines being left temporarily without a head.

Mr. Parent's excuse for dissolving the house is probably because he has practically formed a new government, but it is hardly likely, had the Grits been snowed under in the recent Quebec elections instead of the Tories, that he would have felt impelled to go to the people at this time. He takes advantage of the Liberal sweep in Quebec, and will doubtless be returned by a large majority.

LOCAL NEWS-LETTERS.

HALL'S GLEN.

Mrs. Richard Thompson, of Peterborough, was visiting her many friends in the neighborhood during the past week.

Mr. A. Darling has been adding considerably to the appearance and comfort of his home this fall, by repairing and painting the exterior as well as the interior of his home, which he has almost completed.

Mr. C. E. Sisson returned home on Sunday last from his long pleasant and enjoyable cutter drive to Stony Lake Settlement, but we are very sorry to learn that his visit was somewhat shortened on account of the inclement weather.

The Zion Sabbath School Executive have arranged to hold an entertainment in behalf of their school very soon, at which they purpose awarding the scholars respectively for their attendance and conduct during the summer.

Mr. J. Jenkin, after having completed five weeks revival services at Zion which resulted with much success, is now conducting meetings in the Methodist church, Warsaw, which will continue for some time.

Miss Ida Carveth has been visiting friends in Warsaw vicinity during the week.

At a meeting of the Good Templars on Friday evening, 16th inst., the following officers were nominated and elected for the current quarter—Chief Templar, Bro. C. E. Sisson; V.T., Sister Ida Carveth; Secretary, Sister C. Payne; Treasurer, Bro. A. Carveth; Financial Secretary, Sister L. Payne; Chaplain, Sister Mrs. M. E. Crowe; Marshall, Bro. D. Hatton.

GORE'S LANDING.

Owing to the sudden freeze-up of the lake the "Eclipse" was unable to make her Saturday trip, and the Rainbow on her way home from Peterborough had to lay to in the river until Sunday afternoon when the lake was again open. On Saturday morning the ice was strong enough to carry.

Mr. John Hutchinson returned from his hunting excursion with a fine deer.

Mrs. John Minacom is seriously ill.

The Misses Maud and Winnifred Neill have gone to spend the winter with their sisters at Grand Valley, Ont.

A number of new books, among them the latest publications, have been received at the Public Library.

Mr. James Stubbs lectured on "The African War" at the Methodist church on Tuesday evening.

Miss Mina Wallace has been confined to the house for a week with a severe cold.

Rev. G. A. Field returned from Toronto on Saturday.

NORTH SMITH.

We had quite a thunder storm on Sunday morning—an unusual thing for this time of year, and another one on Wednesday.

The residence of Mr. and Mrs. Robt. Northey was the scene of an unusually happy event on Wednesday evening of this week, it being the marriage of their youngest daughter, Miss Ida A. to Mr. Bert. Graham, son of Mr. Richard Graham. The wedding march was played by Miss Charlotte Crow of Rice Lake. The ceremony was performed by Rev. W. A. Gunton of Gilmour Baptist church, in the presence of over 80 friends and relatives of the contracting parties. The bride was becomingly attired in a cream serge, most beautifully trimmed, and carried in her hand a magnificent bouquet of white flowers. The bride was assisted by her sister, Miss Jennie Northey, who also carried a beautiful bouquet of flowers. The groom was supported by his nephew, Mr. Wilfred Northey. After the ceremony the company sat down to a most sumptuous repast. The bride was the recipient of many valuable and appropriate gifts. The North Smith brass band—of which the groom is a leading member, was also present and rendered suitable selections during the evening.

BRITONS EYESIGHT

An Optician Says the Strong Sunlight Here Hurts the Eyes.

"There are more people with defective eyesight in the cities of this country than you will find in Great Britain or Ireland," said the naturalized New Yorker who served in the British army when he was a very young man and who is now an optician. "I do not judge by the number of people who wear glasses here, as in American cities glasses are worn if there is the slightest trace of nearsightedness, while few persons wear glasses for this cause in the old country unless they are so nearsighted that the wearing of glasses is a positive necessity. But, taking it on the whole, there are more people here whose eyesight begins to fail at a comparatively early age than in England, Ireland or Scotland, and fewer people who have exceptionally keen eyesight.

"In the British army you will find a dozen men with exceptionally good eyesight for one you will find in the American army, and I know a good many soldiers in this country. I once knew a private of the First Leicester regiment who has since been killed in the fighting near Ladysmith. This man had such keen sight that he could tell the time by a church clock at a distance of several miles, yet, strange to relate, he could not read very small print in a book. I also knew a man in one of the Lancer patrols who had wonderful eyesight. In the Transvaal long ago what appeared to his watchful chums one day as a mass of veldt heather, dim and blurred in the distance, was seen by him as an ambuscade cunningly concealed and bristling with Boer riflemen. His splendid sight on that occasion saved him and his comrades an unpleasant surprise.

"I have heard of American soldiers who are sharp sighted, but, as I said before, their number is much smaller in proportion than in the British army. One of these Americans is a man named Cullen, who can see objects clearly at a distance of twelve miles. During the Spanish-American war, Cullen, who is an artilleryman, aided his battery very materially in sighting the guns for long ranges and always by his unaided vision.

"I account for the standard of eyesight being better in the old country than here principally because of the gray skies there. There are so few sunny days in Great Britain and Ireland that the eyes are not subjected to the same strain as in this country where there is a far greater proportion of sunny days, and the sun's rays are more vertical than in more northerly countries. The glare has undoubtedly much to do with bringing about the decay of the eyesight at an early age. Another reason is the nervous temperament of Americans. The optic nerve is very delicate and responds quickly to any strain on the nervous system."—New York Sun.

The Country Editor.

The country editor of a quarter of a century ago, says Congressman Landis, was not a college-bred man, but he could "chop logic" with the best products of the universities, quote poetry aptly, and, at an hour's notice, deliver a political speech or address a Sunday school convention. From the standpoint of the useful citizen, he was an all-around finished product.

The country editor of to-day is a different person. He is a good business man. He can "set type," but is seldom found at the "case." He employs compositors, or has ornamented his office with a type-setting machine. The young woman you see bending over the ledger is also a stenographer and typewriter. The country editor now dictates his editorials and employs a bright young man to write local news. His newspaper is printed on an improved press, the power is furnished by a gas engine or electric motor, and the paper is folded by machinery. He owns his own home, keeps his own horse and carriage, and has credit at the bank. A pleasant trip of a month is likely to be offered at any time, and he takes it gladly; while the young woman who keeps the books and the bright young man who writes local news keep the paper in a straight line.—Success.

—The Supreme Grand Lodge of the S. O. E. has been pleased to appoint Bro. R. Wareham of Lansdowne Lodge No. 88, Peterborough, as District Deputy for the counties of Peterborough and Victoria.

Springtime

Is the sweetest season in human life, as it is in Nature generally. It is the time of promise. As the young girl draws near to that mysterious line "Where womanhood and girlhood meet," her whole destiny is in a measure being determined. How often the sweet young girl, under the influence of the change, withers and droops like some blighted bud. Nature generally needs some little help at this critical period, and this help in its best form is contained in Doctor Pierce's Favorite Prescription. It establishes regularity, and gives the vigor of perfect health to the womanly organs. It contains no alcohol, neither opium, cocaine, nor other narcotic.

Miss Emma Lee, of Williford, Sharp Co., Ark., writes: "I was suffering severely and tried several doctors' remedies, but received only very little relief; therefore, I feel it my duty to write and let other sufferers know what your 'Favorite Prescription' and 'Golden Medical Discovery' and 'Pleasant Pellets,' have done for me. I took eight bottles of 'Favorite Prescription' and 'Golden Medical Discovery,' six vials of the 'Pellets,' also one bottle of your 'Compound Extract of Smart-Weed.' As soon as I had taken the first bottle I could see that the medicine was helping me. I had disease of internal organs with bronchitis and catarrh. I also used the local treatment you suggested."

The sluggish liver can be cured by the use of Dr. Pierce's Pleasant Pellets.

Myself cured, I will gladly inform anyone addicted to COCAINE, MORPHINE, OPIUM OR LAUDANUM of a never-failing, harmless home cure. MRS. M. V. BALDWIN, P.O. Box 1212, Chicago, Ill.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 20x28, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer riflemen. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 60 in one day. Sample and terms 25 cts (none free); four for 50 cts; $1.25 per dozen; 25 for $2.25; 50 for $4.00; 100 for $8.00 Write to-day for a dozen and make money. THE GOLF WIDOW.

Up to Date No Silver Tongued Orator Has Pleaded Her Cause.

For several years now the golf widow's situation has been most pathetic, but she gets very little sympathy from any one save the other golf widows, and they are too busy sympathising with themselves to feel another's woes. The attitude of the general public toward the stricken one is: "Serves her right. Any one who is fool enough to play the game deserves any hard luck she gets." Your true zealot is proverbially hard-hearted.

A married woman to-day must play golf or give up her husband. Even when she plays she probably has only the melancholy satisfaction of occasionally seeing the fluttering of his golf coat across a far bunker; but that is something. It's a devoted and self-sacrificing man who plays golf with his own wife, save at rare intervals, when no man friend is in sight or when he feels inclined to show his proud superiority by a little valuable instruction. Flattery, judiciously administered, will also bring the family together on the links occasionally. If a wife can only seduce herself to a condition of awe-struck appreciation, and knows just enough about the game to wonder and adore in technical sporting terms, she may be allowed to trail around the links with her husband, but it takes tact to achieve this proud distinction. The most she can hope for under ordinary circumstances is to lunch or dine with her golf-smitten husband, and hear him fight his battles over again; but that is better than dining and lunching alone, and she may prevent complete and final estrangement.

The wife of a commuter has an especially hard time. He is so hurried and he really doesn't have time to go home at all save for purposes of sleep. Yet, after all, the city man does the same thing, and it is harder for his wife to follow him to the links than it is for the wife of the commuter to follow him, so perhaps honors are easy. The business man doesn't go home from the office to change his clothes. Not he. He keeps golf tog in his locker at the club. As early as he can possibly cut business he leaves the office, races for a train, goes straight to the links, plays until dark and dines at the club house, where he and the other men tell what would have happened if what did happen hadn't happened. Later he goes home so tired and sleepy that he doesn't stand upon the order of his going to bed, but goes at once, unless he stays awake long enough to tell his wife about his phenomenal drive from the sixth tee and the spectacular long put by which he halved the seventh hole. If she doesn't know the tee from lemonade so much the worse for her.

The golfer goes to the office early, so that he can get away early, and in the gray dawn he talk across the breakfast table about the virtues of his new brassey and the approach he has learned from Vardon. Then he goes off, wondering whether the weather will be too heavy for good work across the green, and calling back over his shoulder that he will not be at home for dinner unless it rains hard.

Countless golf widows are praying for rain as ardently as a Texas farmer in time of drought. A wet season is their only hope, and the wetness must be of the wettest variety. No ordinary drizzle will stop a golf game. No thunder shower will daunt a golf fiend.

"Over at home," says Willie, (every well regulated and warranted golf professional is a Willie, though there is some slight variety in our names), "no one wad think o' stopping for a Scotch mist, and any Scotch mist is a deal worse than this bit of drizzle."

And the American devotees of the ancient royal game turn up their coat collars, take a grip upon their clubs and their stoicism and paddle around the links, warmed by the thought that they are living up to Scotch tradition and that the quality of the clubhouse "Scotch" is beyond reproach.

So only a summer of continuous and pouring rain can restore the golfing husband to the arms of a non-golfing wife, and, if there is anything in prayer, it's a lucky thing for the general public that the golfers are praying for fair weather as earnestly as the golf widows are praying for foul, and that the former class outnumber the latter.

Saturday and Sunday used to be the days for domestic joys, with the tired business man. They are field days now, and the insidious thing about the game is that there's no age limit immunity from attacks of the disease. Anything from the infant to the octogenarian is fair prey for the golf germ, and only paralysis or blindness can make masculinity immune. Local attacks of morality have stopped Sunday playing in certain clubs and there has been a good deal of eloquent arguing for and against it. There's no denying that a day on the links is a tremendous physical invigorator for a man confined to an office during the week, and when one gets into the morals of the problem the issues are sadly complicated, but there's the golf widow. Some concession ought to be made to her; but, up to date, no silver-tongued orator has pleaded her cause.

On the whole, the best thing the deserted wives can do is to get into the game, whether they like it or not. They may hate violent exercise, and the sun may give them headaches and ruin their complexions, and they may find golfing so fatiguing and time-consuming that it leaves no time or energy for social duties or care of home and children; but, if they are going to leave all things and cleave to their husbands, they will have to do their cleaving on the golf links. If health or home cares absolutely prevent their playing the game, they will have to summon their feminine fortitude and resign themselves to the role of golf widow.

"Mrs. Strongmind is a warm advocate of woman's rights, is she not?" "Oh, yes. If she had her way, man would not be eligible for anything more important than the vice-presidency."—Brooklyn Life.

THE RICHEST NATION

IF DIVIDED EQUALLY WHAT EACH ONE'S SHARE WOULD BE.

An American Family Would Own 155 Acres of Land and 13 1-3 Feet of Railroad—It Would Pay But $6.68 a Year in Taxation—Only 60 Cents for Our Navy.

If the Government of the United States be considered merely as a business firm, its stockholders just now are pretty well to do. Their wealth is very large, considering the number there are of them. The expenses of carrying on trade under the Stars and Stripes seems small when devided, and their debts are trifling indeed.

Not many years ago it was said that Uncle Sam had land enough to give every one a farm. In theory this is true to-day. If all Territories in the United States, not even including Alaska and our so-called new possessions, were to be divided, there would be a farm of thirty one acres for each one. Every man, woman and child in the country would own this much real estate.

Now, since the average American family consists of five people, there would be 155 acres to the family. In making these calculations the population is estimated at 70,000,000. The area of the United States is 3,600,000 square miles.

Not all of this land is good enough to "farm it" on, but most of it can be made good enough by Yankee ingenuity.

The value of all the real estate in America is $39,544,233,000. These figures fail to give any definite idea. They are too big. Let us suppose, however, that pure socialism prevailed and that this enormous wealth was equally divided. The share of every individual would be $564.50. The share of every average family would be $2,824.50. And this does not include personal property, which would greatly increase the sum. These figures are by far the highest to be found in any country in the world. In Great Britain, for instance, each man is a land owner owning to the extent of about $190. British house property would give a share of but about $300 to every man.

Practically, in Great Britain there are few small land-owners, or none. A laboring man who owns his cottage is a rarity; one who owns the land on which it stands almost an impossibility.

The taxes which the individual pays seem trifling. All the taxes last year were $471,365,140. The share of each individual was but $6.72. Britain's taxes during the same period amounted to £2 16s. each, or nearly twice that of America. It must also be considered that our rate was unusually high owing to the expenses of the war. A good deal of complaint is heard of the extravagance of the Government, but the share of the individual is small. The total expenses of the Government last year if divided would have placed a burden of $6.68 on the individual. This is a share of the sum of $487,863,000.

The individual contributions to the various departments also sound curious in view of the great things which have been accomplished. We are all proud of our navy, which during the past year has been larger and more expensive than ever before. But each individual was only required to contribute just sixty cents to maintain this department and our great fleets of warships. The total expense, to be sure, was $48,099,000. The maintenance of the army last year was one of the most expensive items the Government has ever called upon to meet. It cost us just $20,000,000. The war with the Philippines and the maintenance of an army in Cuba and Porto Rico, besides the regular expense of the department, could be met, however, if each individual contributed $1.14. The expense of running the entire Government cost each of us exactly $1.92.

The United States, as every one knows, is the richest nation in the world. Our bonded debt is $1,032,000,000. Each of us is in debt on this score just $14.74. Looked at in this way our national debt, large as it seems, is a trifling thing. The real estate holdings of the individual, according to this distribution, are alone worth more than forty times his indebtedness. It is no wonder that the world considers loaning money to America a good risk.

Our country is the land of railroads. As every one knows we have more railroads by far than any other country in the world. The mileage of the United States is 180,000. The share of the individual is 13⅓ feet of rail. Still another way to state our great wealth is to calculate the amount of gold and silver which would come to us if all were equally divided. Each of us would have $70 in silver bullion as his share and $12.50 in solid gold.

A Story From Gibraltar.

During the war stories in plenty have been current of the strategems and treachery which have imposed upon British officers charged with very serious responsibilities. Changing the venue, we have the following story from Gibraltar. Some time ago a consumptive German gentleman arrived there with introductions from influential people in England. The governor and other officials received him hospitably and every consideration possible was shown him on account of his health, but, of course, he could not be granted permission, as he requested, to go to the top of the rock for the sake of the purer air, as there is a regulation that "foreigners" are on no account to be permitted to walk about the top of the rock." Further acquaintance, however, with the German gentleman, through the medium of dinners and other social functions, resulted in a relaxation of the strict rule, and he was granted a pass. The result of the visit is now to be seen at the German war office, which is in possession of the most perfect plans from photos of all the works and defenses of Gibraltar.—Saturday Review.

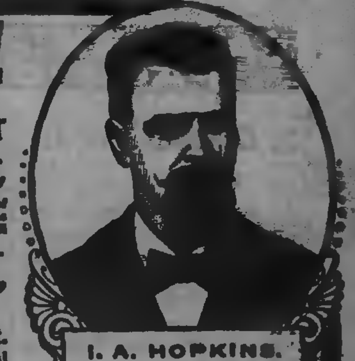
A WONDERFUL

KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.



I. A. HOPKINS.

BRIGHT'S DISEASE, GRAVEL, DROPSY,

And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidney and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me—I was getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 63 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Calliper, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a *Large Case* of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 398 Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrance the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

Committed for Trial

Elizabeth O'Brien appeared before Police Magistrate Dumble at the police court yesterday morning on a charge of perjury. She elected to be tried by jury and was committed for trial at the next Sessions on the Peace, which will be held on the first Tuesday in December. The charge arose out of a liquor case in which the accused gave evidence, which was directly contradicted by the evidence of several other witnesses. County Crown Attorney Wood conducted the prosecution, and accused was represented by Mr. E. B. Stone.

Wedded at Port Hope

Mr. William Mitchell, of Peterborough, was united in marriage at Port Hope, on Wednesday last, to Miss Maud Stein, daughter of Mr. John Stein, of that town. Rev. E. Daniel, Rector of St. John's church, officiated. The bridesmaid was Miss Jessie Stein, sister of the bride, and her brother, Mr. John Stein, was groomsman. Mr. and Mrs. Mitchell arrived in town yesterday morning, and will reside at 249 Simcoe-st. Mr. Mitchell is a former resident of Port Hope, and for some time past has conducted the T. George Holmes branch establishment on Simcoe-st. The Times extends its hearty congratulations.

CARD OF THANKS.

To the Electors of Peterborough.

Gentlemen,—Permit me briefly, though most cordially, to thank all my friends and supporters who in the election contest just closed, contributed by their good and earnest work to my return to represent East Peterborough for the third time in the House of Commons. The immense extent of the East Riding precluded the possibility of my covering it in a brief campaign, and I have therefore to thank the electors and workers whose voluntary support contributed to my success. My success, is all the more to be appreciated because a strengthened following, a Government, which has done so much for Canada and whose policy, worked out, will give the country five years more of effective and faithful government.

—The many friends of Mr. and Mrs. Wm. Hanbidge, Otonabee, will be pleased to know that their daughter, Miss May, who has been confined to the Nicholls hospital for some months, successfully underwent a critical operation yesterday and is reported to be doing well.

—Mr. H. D. Kennedy, the noted evangelist, son of our esteemed townsman, Mr. Dawson Kennedy, returned yesterday from a two weeks' engagement at Cobden. Mr. Kennedy leaves for Harriston to-day, where he, in conjunction with evangelist White, will conduct a series of evangelistic meetings. Messrs. Kennedy and White have been very successful, wherever they have worked.

An Ashburnham Wedding

A very pretty wedding was celebrated in Ashburnham on Wednesday evening the contracting parties being Miss Lila Agnew, daughter of Mr. John Agnew, Monroe avenue, Ashburnham, and Mr. Andrew Jordan, of Brampton, formerly of Peterborough. The ceremony was performed at the residence of the bride's father, by Rev. Mr. Thompson, in the presence of many relatives and friends of the contracting parties. A cousin of the bride, Miss Edith McClelland, played the wedding march. Miss Lillie Distin was bridesmaid, while Miss Gracie McClelland as maid of honor was much admired. Mr. Andrew Jordan, brother of the groom, acted as groomsman. A becoming gown of white figured muslin with trimmings of satin and chiffon, was worn by the bride, together with veil and orange blossoms, and she also carried a rich boquet of white roses. Miss Distin's gown was a pretty one of white organdie with mauve trimmings, and that of the maid of honor was a chic dress of white over pink. Their respective boquets were of red and pink roses. A sumptuous wedding dinner was served at the close of the ceremony, and the remainder of the evening was enjoyably spent. The bride's numerous wedding presents formed a very magnificent array, and are a great tribute to her popularity. Among them was a handsome bronze lamp, the gift of the Mark street Epworth League and Sabbath school, in both of which she had been an active worker. Mr. and Mrs. Jordan left yesterday morning by the 4.45 C.P.R. train for their home in Brampton, and are accompanied by the best wishes of a host of Peterborough friends.

TYPHOID-STRICKEN TOWN

A Hundred and Eighteen Out of 200 Families Afflicted in Cementon, Pa.

Mazleton, Pa., Nov. 21.—Typhoid fever has become epidemic in Cementon, a town on the Lehigh River not far from Allentown. Out of 200 families composing the population, there are one or more cases in 118 families. Of twenty-five families, all members from the father down to the youngest child are prostrated by the disease, which has now been raging two weeks. There have been several deaths during this time and to-day the condition of many is extremely critical.

In addition to distress caused by disease there is a lack of medical attendance. There has been only two physicians in the town. These men have worked unceasingly and for more than a week gave constant attention to the people. Their exertions night and day overtaxed their strength and both have collapsed. One other physician has been coming there from Slatington. He cannot possibly attend to all the victims and the town is too poor to employ speciallists. The people are not able to hire nurses, so that the situation appears most strongly to outside help.

The cause of the epidemic is belived to rest with the town's water supply, which has been taken from the Lehigh River. From the evidence already secured it would seem that the river is a stream of contagion distributing its poison over a wide area and seriously threatening other towns below Cementon, which also get their water supply therefrom. The populous towns of Catasauqua, Bethlehem, Allentown and Easton and all on the Lehigh.

To-day a representative of the State Board of Health arrived at Cementon and made a cursory examination of the river and also took a sample of the water to make chemical analysis. His opinion has not been expressed yet in a professional way, but from what he saw of it he seemed inclined to think that the water used by the town is responsible for the spread of the disease. The drought has been so prolonged that the system is extremely shallow and is practically nothing more than the drags flowing from cesspools and overflow drains from points north of Cementon.

PETERBOROUGH.

The markets are improving every day now since the broken weather set in. Several loads of wood have been offered and sold readily. Grain of all kinds has come in quite freely and generally prices have been steady. There is a growing demand for straw and farmers will find a steady sale for it. Hay is also wanted badly. There is a good local market for oats.

The following have been the prices current for the past week on the local market.

Wheat.—The market has shown an easier tendency owing to a large measure in the visible supply. The prices are 63 to 66 cents for all classes.

Oats.—There is good demand for oats. The buyers are realizing 24 to 25 cents while 26c can be realized on the outside.

Barley.—There have been a few loads of barley sold. The local prices are 38 to 40 cents.

Peas.—Peas are in good demand and find ready sale at firm prices. Small peas are worth 58 to 60c, while Canadian Beauties are worth 78 to 80c.

Hay.—There is a good demand for hay, good timothy being worth $8 to $8.50 while clover hay is wanted at $7 to $7.75.

Straw.—There is a lot of inquiries for straw and any offerings are sure of a ready sale at $2.50 to $3 per load.

LIVE STOCK.

The hog market after the downfall in prices a few weeks ago has recovered and the prices in the local market have gone up from $4.37 1-2 to $4.87 1-2 paid to-day. The Toronto quotations are $5.25.

Reports from the Toronto cattle market give small encouragement for better prices for cattle and sheep. Tuesday's market was the worst there in years. Lambs sold there at $3.35 per 100 lbs. for the best, while butchers' cattle sold as low as $1.75 per 100 lbs. These prices are less than what the drovers have been paying on the local market.

Mr. H. P. Kennedy is buying and shipping calves to the American market. None but good calves are wanted and good prices will be paid for such.

The hog market for local hogs shows quotations for Tuesday next at $4.87 1-2 for selects, $4.37 1-2 for light and heavy fats.

Eggs and Butter.—The butter market is a little easier. Good butter sells at 22 to 25c, while eggs sell at 19 to 20c per dozen.

Turkeys sold readily at 60 to 80c for fair sized birds, while chickens sold as low as 25c per pair, owing to poor quality, but good fat fowl sold readily at 40 to 50c per pair. Geese are worth 50 to 70c.

MR. KENNEDY'S NOTES.

Mr. H. P. Kennedy purchased this week from within the Peterborough district 15 decks of hogs for the Geo. Matthews Co. Mr. Kennedy is shipping out six cars of young stock this week to Ohio and a car of stock to Ohio. He is paying a fair price for calves of good quality and colour, but inferior calves are a drug on the market, as well as light weight stockers of all kinds. Hogs are this week 1-4c higher than last week.

Mr. W. H. Wrighton reports the local markets to be as follows:—

GENERAL DEWET'S COOL ASSURANCE

Told the Boers That Queen Victoria Had Fled to Capetown and that Half of England Was Captured.

Brussels, Nov. 24.—The Soir this evening says Mr. Kruger on his arrival at The Hague will ask for mediation and if unsuccessful he will make public all the documents of state in his possession, showing the secrets of the war. The paper adds that Mr. Kruger believes that when Europe knows the truth it will produce such an outburst of public opinion that Great Britain will be compelled to be less harsh. The Soir adds that failing this Mr. Kruger will return to the Transvaal.

Kroonspruit, Orange River Colony, Thursday, November 22—General Bruce Hamilton's column arrived here yesterday after scouring the Lindley, and Heilbron districts. The troops brought in a number of prisoners. The latter relate the remarkable assurances they received at Thabanchu from Gen. Dewet a fortnight ago. Dewet, they say, urged the Burghers to hold out till December 14, when "all the British were going home." He added that the British had the permission of Russia to fight for a year only; Queen Victoria was at Cape Town, whither she had fled to escape the Chinese, who had captured half of England; General Botha had driven the British out of the Transvaal and had taken Pietermaritzburg; Dewet himself was fighting in Cape Colony, burning farms, and Lord Roberts, wounded by three bullets, had been taken to Heilbron to die and had been buried there beneath the town hall.

BOERS LOST HEAVILY.

London, Nov. 23—A special despatch from Middleburg, Transvaal Colony, says that in the surprise of the outposts of the "Buffs" (Third Infantry) southwest of Balmoral November 19th the Boers lost sixty men killed and wounded. The burghers, the despatch adds, simultaneously attacked a garrison of Fusiliers on Wilge River, but were beaten off with a loss of 130 men killed and wounded.

KRUGER LEAVES FOR PARIS.

Marseilles, Nov. 23 — Hearty enthusiasm attended Mr. Kruger's departure from Marseilles to-day, and he had no reason to complain of any diminution of warmth on the part of the people of Marseilles.

Mr. Kruger was up at an early hour and was ready and waiting when his landau reached the hotel to convey him to the railroad depot. Amidst the cheering of a large assembly the former President of the Transvaal entered his carriage at 9 o'clock and was driven to the station. He was accompanied by Dr. Leyds and Messrs. Pearson, Wessels, Eloff, Fischer, Van Hammel, Hambaud and Heymans. Just before the departure of the train Mr. Kruger appeared on the steps of the railroad carriage in response to the shouts of the crowd and said,—

"Citizens of Marseilles,—I thank the population of Marseilles for its warm welcome. I trust I shall find the same enthusiastic sympathy in all the cities which I am going to travel through, and I hope it will be followed by actions which will continue to assist us and result in abetting our cause."

As the train left at 9.30 a.m. a great cheer arose.

Mr. Kruger will spend the night at Dijon, where he will arrive at 5.20 p.m.

Extensive police precautions were taken this morning, and there was no disagreeable incident.

WELCOME AT AVIGNON.

Avignon, Department of Vaucluse, Nov. 23—Avignon, the first stop of Mr. Kruger's train, was reached at 11 a.m. He was greeted by throngs of people with shouts of welcome and a band of music. He received a basket of flowers, to which were attached the French and Boer colors.

The assistant Mayor made a speech and Mr. Kruger responded briefly, showing signs of fatigue. He saluted with his hand while the crowd shouted frantically the same cries as uttered at Marseilles. Mr. Kruger's train stopped here ten minutes.

ACCLAIMED AT VALENCE.

Valence, Department of Drome, Nov. 23—The train having Mr. Kruger on board passed here at 1.45 p.m., and the Transvaller was acclaimed by a crowd of about 5,000 persons.

"HARMLESS ENTHUSIASM."

London, Nov. 23—The *morning papers* devote an unusual amount of space to Mr. Kruger's arrival at Marseilles and his doings but are inclined to treat the matter editorially with comparative indifference, in the conviction that nothing can alter the course of events in South Africa.

No resentment is displayed at what is regarded as "the harmless enthusiasm of Frenchmen.

A BYE-ELECTION

To Fill a Vacancy in the Ontario Legislature

Toronto, Nov. 23.—A meeting of the Ontario Cabinet Council was held yesterday afternoon. The question of filling a number of positions may be discussed.

The bye-election in Welland, caused by the return to the Dominion House of Mr. German, will be dealt with, and the date for the election fixed. The contest will be brought on as soon as possible, and voting will take place, it is believed, during the first week or two in December.

Yesterday afternoon Mr. J. P. Whitney, leade rof the Opposition in the Legislature, met a few of his colleagues at the Albany Club, the pressing question under discussion being, it is understood, the Welland bye-election. It is stated that Mr. McCleary, who unsuccessfully opposed Mr. German in the Federal elections, is wanted as the candidate by the party, and that Mr. McCleary is not averse to taking another chance in the game.

A Very Good Thing.

The wonderful sales made by the Ozone Co., of Toronto, manufacturers and proprietors of Powley's Liquified Ozone are creating considerable comment. The preparation is the new oxygen treatment and kills disease germs. Rev. Dr. Wm. Fawcett, *Rev. Dr.* Parker and *Rev.* Dr. Chown of the Methodist Church in Canada vouch for its efficacy from personal experience.

Baby Humors.—Dr. Agnew's Ointment soothes, quiets, and effects quick and effective cures in all skin eruptions common to baby during teething time. It is harmless to the hair in cases of Scald Head, and cures Eczema, Salt Rheum and all Skin Diseases of elder people. 35 cents.—35

OF INTEREST TO DRUGGISTS.

The Proposed Legislation Will Put Many Druggists Out of Business.

The By-laws and Legislation Committee and a special committee of the Board of the Ontario College of Pharmacy are in session in Toronto, President W. A. Karn, of Woodstock, in the chair.

The object of the meeting is the discussion of the bill introduced into the Ontario Legislature by Mr. German last session, to the effect that every druggist who makes up medicines should pay a fee or license of $1,000 per annum. The bill was not introduced until near the end of the session, and as the druggists made a big kick against the alleged injustice, it was withdrawn.

Now that Mr. German has been elected to the Dominion House, however, it is feared that he will bring up the bill there, with the result that every druggist in Canada may be affected.

According to President Karn, should this bill pass, "it will put about nine-tenths of the druggists in this country out of business." Only big patent medicine manufacturers, he says, could afford to pay the fee.

The druggists are determined to find out who are at the bottom of Mr. German's bill.

HUGGED A CANADIAN

A Remarkable Scene on the Departure of a Party of Invalids

A remarkable scene took place on the Prince's stage on the occasion of the departure of the Canadian invalided troops who returned to Canada on the Dominion liner Dominion. It has been said that Liverpool has not "lionzied" these heroes as it ought to have done, though the Lord Mayor recently took the sting out of the charge by sending a large supply of tobacco, etc., on board, with his best wishes and thanks. Yesterday the ladies of Liverpool further showed their interest in the Canadians. A considerable contingent was going on board in a very quiet way, some party in khaki and others in ordinary overcoats. All had been at *the* front, and for a considerable time in the hospital in this country. One bright young Canadian had lost a limb, though it was artificially supplied with *such deftness* that it would not be easily detected. But it was, and as soon as the ladies realized the position, that the young fellow was going home minus a leg in the Empire's cause, their sympathy and enthusiasm broke wildly loose.

The young hero was stormed and captured in a moment, and he had to undergo a quarter of an hour's pleasant "condolences," which were enough to satisfy the most avaricious. He was hugged and kissed, and clasped around the neck until he was in some danger of being smothered. The ladies were all select, *too*, each one having a permit for the stage, and they were all fashionably attired. Silks and satins were cast roung the Canadian's neck, while the diamond rings and gold bangles and bracelets of the struggling fair ones flashed fitfully in the sun. This assault was delivered by about thirty ladies, and the young men bore up heriocally through ordeal.—Liverpool Echo.

THERE NIGHT OF SUFFERING

Barge Captain With Wife and Two Little Children in a Terrible Plight

Kingston, Ont., Nov. 23.—Special—During Wednesday's storm the barge Rover, Captain Daniel Smith, of Washburn, from Kingston to Seeley's Bay, foundered in the Rideau near Washburn. The cabin house remained above water, and here from 6 p.m. till daybreak the captain, his wife and two infant children suffered. The waves beat over them and the cold winds pierced their clothing. The mother tried hard to protect her children. At daybreak the father went ashore on a raft and returned in a punt for his family. On the way back his youngest child, aged one and a half months, died of exhaustion. There was a large cargo *on* board, with no insurance.

True Economy

The difference of cost between a good and a poor baking powder would not amount for a family's supply to one dollar a year. The poor powder would cost many times this in doctors' bills.

Royal Baking Powder may cost a little more per can, but it insures perfect, wholesome food. In fact, it is more economical in the end, because it goes further in leavening and never spoils the food.

Royal Baking Powder used always in making the biscuit and cake saves both health and money.

You cannot, if you value good health, afford to use cheap, low-grade, alum baking powders. They are apt to spoil the food; they do endanger the health. All physicians will tell you that alum in food is poisonous.

ENTERTAINMENT COURSE.

All Saints' Church Choir Secures a Very Popular Attraction.

Mr. A. Adna Brown, Manager Eastern Department of the Great Eastern Lyceum Bureau was in town yesterday, completing arrangements for the Peoples' Popular Entertainment course, to be given in Peterborough in Bradburn's Opera House during the winter, under the local direction of Rev. W. L. Armitage, and All Saints' Choir. The course selected for this city consists of five first-class entertainments, each of which brings to this place a very celebrated attraction, *many* of them appearing this season in Massey Hall, Toronto.

The Patriotic Grand Concert Co. will be the first number in the course, their date being Monday December 10th. This is one of the finest musical attractions before the public, the personnel being as follows:—Signor Angelo Patricolo, the great Italian pianist; Miss Myrtle Moss Mericle, reader; Miss Eleanor Goodman, soprano, and Mr. Herbert Butler, the eminent violinist.

The second number of the course will be the Slayton Jubilee Singers, on January 23rd. This is a company of nine people, selected from the best colored vocalists of the Southern States.

The famous Poet Humorist, Edmund Vance Cook, will supply the third number of the course in February. Mr. Cook is author of "A Patch of Pansies," etc., and contributes to Munseys, Lippincotts, St. Nicholas, Puck, Truth, Epworth Herald and Youth's Companion, etc.

The Eugene Page *Concert* will furnish the fourth entertainment of the course, on March 12th. This is a very fine company, of which more will be said later.

For the fifth, and closing number of the course, J. William Macy, America's favorite entertainer and Buffo Basso has been engaged for Monday night, 8th April.

The Committee has arranged to sell a limited number of course tickets, good for each and every entertainment of the course, for one dollar.

A Reader writes: I enclose two ballots in favor of J. B. McWilliams for Mayor. I think the ratepayers should put Mr. McWilliams in the Mayor's chair for one year at least, and give him a good Council. There would be handsprings by the Star Chamber crowd in such an event.

Ratepayers says: I like your idea of bringing municipal matters to the fore. The action of the Council in asking the Government to prevent Mr. McWilliams from running is the most contemptible piece of business I ever heard of. I voted and worked against him at the last Mayoralty election, but will promise him my *hearty support on this occasion*, should he consent to run.

J. W. says: I send in a few ballots for my old friend, Mr. Harry Winch for Mayor. *Harry* would make an ideal Mayor, and I hope I may have the pleasure of voting for him in January.

E. Archer writes: How would Mr. John Carnegie do for Mayor? I beg to nominate him.

F. R. Edwards, Edison Works, says: We would all like to see honest Adam Dawson stand for Mayor. This is a workingman's town, and should have a working man for Mayor. Mr. Dawson is honest, capable and has had large municipal experience. I can assure him that he will have a large support from the south end.

A. H. says: My choice for Mayor is Harry Denne. He has earned the promotion *by reason of a long service* in the Council. For Councillors, my first choice is Ald. Sawers, who appears *to* be the only man not afraid to speak when the interest of the people are at stake. Ex-Ald. Best I would also like to see at the board. He is straightforward, honest and careful.

ALL CAN VOTE

Our readers are again reminded that they can vote as often as they like. All that is necessary is to cut out the coupon which is printed every day in the Times, fill it in with the names of the citizens you think should sit around the Council board, sign and send it to the Times office.

The ballot is a *perfectly* secret one. Everybody can vote—from the youngest to the *oldest, men, women* and children.

Removed to Peterborough.

Lakefield News: Lakefield loses one of *its most popular and estimable citizens*, in Mr. R. J. Munro, who with his family removed to Peterborough on Wednesday. Mr. Munroe has assumed the ownership of the Morgan House, in that place, and under his management we have no doubt it will soon become one of the most popular hotels in Peterborough. His many friends regret his leaving the village but he has their sincere wishes for his prosperity in his new home.

A Good Idea.

The Orillia Packet suggests that the advent of the new century be marked by a general paying up of debts. That would be a good method of bringing about a business millennium, were it practicable, and even were each to do his best toward such a result much good might be accomplished. Has it ever occurred to the reader that the payment of $100 by one debtor might lead to the wiping out of thousands of dollars of debt. Keep it moving and a few dollars can do a great deal. This great family journal is willing to help the good work along. Just let our delinquent subscribers, for instance whack up what they owe us, and we will guarantee to pass the cash along without delay.

What's the Matter With Peterboro?

Orillia News Letter.—"A foundry concern which makes a specialty of *steam* pumps and water-works machinery has written to the council asking what inducements the town can offer them to locate here. They guarantee to employ from 75 to 100 hands the year round and claim that they will not conflict with any industry now established here. This is another case of "waiting *till* the power scheme is finished before anything can be done." Here is a chance for Peterborough, with its unlimited water power.

A Growing Business

Mr. A. D. Towle, who has been conducting a pop corn business at No. 682 Aylmer street, has decided to devote his energies to wholesaling exclusively hereafter. Mr. Towle has, during his brief period in town, built up a large business. *His* corn is specially prepared by his own hands, and is guaranteed to be pure and free from coloring of any description. Anyone desiring to deal in popcorn can be supplied in large or small quantities at any time. The popcorn in a raw state is imported from the south by Mr. Towle, as it is not grown in sufficient quantities in Canada.

WASHINGTON ADOPTS A WAITING POLICY

A Gloomy View of the Chinese Situation Taken by the U. S.--A Solution of the Difficulty Suggested.

New York, Nov. 23.—American despatches say the Tribune's London correspondent, indicate that the Chinese situation is regarded more seriously in Washington than it is in London. The theory that the British Government will join Germany in impossible demands on China is not supported by the facts as understood in diplomatic circles in the British capital. The two powers are working together, but clearly the *British* Government will not persist in demanding an impossibility when the interests of the mercantile community in England require the restoration of the ground trade relations with China at the earliest possible date. Premature action by the United States Government in withdrawing from negotiations will retard that statement.

The Herald has a Washington despatch which says the administration has adopted a waiting policy in the matter of the Pekin negotiations. No action has been taken upon Germany's proposal to make the execution of the Boxer leaders a condition precedent to the continuance of negotiations. The President has decided, it is understood that this matter can well rest until furthur developments show what the German and other Governments propose to do. At the same time, Mr. Conger, in accordance with his instructions, will advocate that the powers adopt a demand which the Chinese Government can meet.

WHAT IS BADLY NEEDED.

London, Nov. 23.—A despatch to Reuters News Agency from Pekin, dated November 22, says,—

"Competent independent judges of the present critical stage of the negotiations opine that the consideration of all the peace preliminaries should be transferred to Washington or to a European capital and be placed in the hands of plenipotentiaries possessed of full powers to arrange the terms to be imposed on China. Once the terms are agreed on, they should be presented as a demand not requiring negotiations with the Chinese commissioners. It is felt that the present discussions of the Ministers, who do not possess the powers to decide on the multiplicity of propositions without reference to their Governments, are bound interminably to drag out the preliminaries and result in long delay, causing the greatest uneasiness in the foreign communities who anticipate vastly increased difficulty in reaching a settlement owing to the alleged waste of time."

ITALY AND CHINA.

Rome, Nov. 22.—The Chamber of Deputies to-day resumed its labors. The President of the House, Signor Villa, highly eulogised the conduct of the Italian soldiers in China, and the Minister of Marine, Vice-Admiral Morin, replied, thanking the president in behalf of the army and navy, and saying the Italian troops in China did their duty without participating in the excesses, which they justly deplored.

HSIANG MUST BE PUNISHED.

London Nov. 22.—"Mine Ministers," says the Pekin correspondent of The Morning Post, wiring Wednesday, 'have written long letters denouncing the Imperial edict, and declaring that Tung Fu Hsiang must be punished. Dr. Mumm Von Schwartzenstein told Li Hung Chang that the foreign powers must themselves punish the guilty officials. It is reported that Chinese troops have repulsed a German expedition, but no details have been received.

A Case in Point

Success in advertising depends on the character of the "ads." as well as on the merits of the article to be sold or service to be rendered. A merchant who has a *special offer to make* and who will take the pains to make it in definite terms in a newspaper which has a large circulation will speedily obtain proof that people do read "ads." to some purpose. A case in point is reported by the manager of a clothing house in St. Paul, Minn. His employer placed in the newspaper which is known to have the most readers in that city a large "ad." offering shirts for 80 cents each. This one advertisement," says the manager, "sold more than 5,000 shirts."

Mrs. Morrow's Concert

Mrs. W. J. Morrow, whose concert takes place on December 3, has completed all arrangements for the entertainment, which will be the *most* noted *musical* event of the season. The Charleston, S. C., News and Courier, thus refers to a recital given in that city by Mrs. Morrow:

"Mrs. W. J. Morrow's recital attracted a brilliant audience, representative of the fashion and musical culture of the southern city by the sea. Her performance was beyond all criticism. She has a wonderful command of her instrument, and her treatment of the difficult passages was faultless to a degree. Her work last night stamps her as an artist. She was encored on each appearance, delighting the audience with many numbers.

LAVISH WELCOME FOR CANADIANS

London Preparing to Give Otter's Men a Splendid Time.

London, Nov. 23. —The returning Canadian troops on board the Hawarden Castle, due here next week, will be lavishly entertained by a private committee, of which Lord Grey is chairman. Three hundred seats have been secured at the various London theaters for each night the Canadians are here. They will be quartered at Kensington Barracks, whence there will be excursions to Brighton, Woolwich, and other points of interests, including a probable visit to the Queen. Lord Grey said to a representative of the Associated Press: 'They will not exactly be the guests of the nation, as that is reserved for the five thousand colonial troops who are coming later. But we are trying to make the short stay here of these Canadians as enjoyable as possible as a slight token of our appreciation of the magnificent work they have done. It will be carried out with as little formality as possible."

GENUINE PATRIOTISM.

The publishers of the Family Herald and Weekly Star, of Montreal, may justly feel proud of the magnificent reception their new premium pictures, "CHRIST IN THE TEMPLE," and "HOME FROM THE WAR," have received.

They deserve it too, for the pictures are certainly most beautiful. Either one of them alone would be considered a splendid premium, but when one knows that each subscriber receives both pictures, he can easily understand the demand for that favorite paper this season.

Clergy of all denominations are publicly requesting their church members to secure a copy of the picture, "CHRIST IN THE TEMPLE."

Bright's Disease — insidious! deceptive! relentless! has foiled hundreds of trials by medical science to stem the tide of its ravages—and not until South American Kidney Cure proved beyond a doubt its power to turn back the tide, was there a gleam of anything but despair for the victim of this dread form of kidney disease.—34

WINTER CARE OF SIDE WALKS

A Very Interesting Judgment on the Care of Walks

It would be well for all citizens to know their rights and duties, under the by-laws, respecting the clearing of sidewalks, as a proper understanding of the rules laid down and the general law in such cases might prevent suits for damages for personal injuries and the consequent vexation. A judgment lately pronounced on an issue of this kind may be of interest in this connection. It was an appeal of Miss Hawkins in her suit for damages received for slipping upon frozen snow which had accumulated upon the sidewalk. "She claimed the accident was caused by the city authorities negligently permitting the side walk to remain in an unsafe condition, which condition had them existed for a considerable time. It appeared that a snow storm which began on the afternoon of Dec. 22 continued, with slight intermission, until the evening of the next day. The accident happened about 11 o'clock in the morning of the 25th. Justice Patterson giving the opinion of the Appellate Division, holds that the dismissal of the complaint on the trial was correct. After reviewing the decisions of the Court of Appeals in similar cases, Justice Patterson says: "Most of the so-called snow and ice cases reported in the books turn upon the fact that the slippery condition of the sidewalk was caused by changes of *temperature* resulting in alternate melting and freezing of fallen snow of the formation of ice upon the sidewalk from the dripping or drain ing of water from buildings abutting upon the sidewalk. The case at bar presents the simple feature of a condition of the sidewalk covered with snow which may have been trodden under foot in a populous part of the city, and which was not subjected to a change of temperature rising above the freezing point. Therefore the only question is, whether on the admitted facts it can be said that such a municipality as this with its miles of streets, it can be held that there is any indication of negligence on the part of the city in failing to remove from in front fo any one particular house a formation of frozen snow on the sidewalk, within less than forty-eight hours after a snow storm had ceased. We do not think this is a case in which it can be said that there were two separate and distinct snowfalls, but rather it is to be regarded from an intermittent storm. On the conceded facts, when we consider the nature of the duty and liability of the city, and that it is entitled to wait a reasonable time for abutting owners to remove the snow from the sidewalk in front of their houses, we concluded that a lapse of less than forty-eight hours is not sufficient a matter of law to establish constructive notice to the city authorities of a dangerous condition of a sidewalk resulting from a deposit of fallen and unremoved snow.'

THE LEOPARD

Cannot Change His Spots,

NOR CAN THE BLACK BE WASHED OUT THAT DIAMOND DYES PRODUCE.

Diamond Dye Blacks far surpass the blacks produced by other manufacturers of package dyes in richness, depth of color and fastness.

Soap or strong sunshine will never fade Diamond Dye Blacks.

There are three noted Diamond Dye Blacks—Fast Diamond Black for Wool, Fast Diamond Black for Cotton and Mixed goods, and *Fast Diamond Black for Silk* and Feathers.

Don't risk your goods with the imitations that some dealers try to sell simply because the poor dyes pay larger profits than the Diamond Dyes. Ask for the Fast Diamond Dye Blacks and take no others. Money and time saved when the best are used.

THE MOBILE BOER

The mobility of the Boer commandoes has been the theme of many a despatch, but the following story, reported from Cape Town by Albert Cartwright in a letter to the Chicago Record, is calculated to excite one's admiration for men who have so greatly perplexed the British forces:—

James Searle, a South African, prominent for his veldt lore and ability as an athlete, tells a striking story of Gen. De Wet's mobility. Searle is a lieutenant in one of the scouting corps, and twice during the last few months has fallen into De Wet's hands and twice escaped. He says that on one occasion De Wet and and all his men and cattle—some 600 or 700 men and between 2,000 and 3,000 oxen—were peacefully encamped on the veldt having breakfast, when a Boer scout dashed up and delivered a message to De Wet. The Boer leader did not report the message, but evidently its purport was that the British forces were much nearer to the republican laager than had been supposed. At all events the word was given to "inspan" and trek. Searle took his watch out, and he says that in exactly eight minutes from the time when the alarm was given De Wet and his men were on the march. And their endurance was not less wonderful than their quickness, for Searle says that for between twenty-two and twenty-three hours they kept up the trek, with only a few minutes rest every few hours, for the sake of the oxen. Searle adds that De Wet was ever up and down the line of wagons, particularly at the rear, urging, persuading, or sternly upbraiding the stragglers. Searle succeeded in escaping from the Boer laager by rolling under a fence at sunset, when the change from light to darkness in many parts of South Africa is almost instantaneous.

HEAR OF CHICAGO REFORM

London Gravely Discussing use of Drunkards to Sweep Streets.

London, Nov. 21.—A correspondent wiring to one of the morning papers here says that Chicago has an excellent system of making all drunkards falling into the hands of the police over night sweep the streets the next morning, and suggests that the plan be followed in London, where the streets are exceedingly muddy. The paper takes the matter seriously, and in commenting upon it says:

"Morally and materially the scheme of utilising drunken men to sweep the streets seems excellent, and thirdly, the waste product of manhood deteriorated by excessive liquor is applied to a useful purpose and the delinquent is sobered by a night in jail and is led to a better perception of his own helpless and useless condition. He derives from this useful labour a lesson in fulfilling the task of his responsibility to his kind. He probably makes a bad workman, but will be learning a lesson in citizenship while discharging his duty to his fellow men. The plan is a good one, and if it has practical difficulties in operation hard work will wipe them out."

KRUGER ON SHIPBOARD

How the Old Ex-President Spent the Time at Sea

London, Nov. 23.—From a companion of Secretary Elaff was learned the following details of Kruger's voyage. The President's cabin in the Gelderland was that of the superior officer's. His bed is under a porthole and has a view of the sea, a toilet table, a wardrobe, looking glass, and two chairs complete the furniture. On top of the wardrobe the President keeps his famous silk hat, and glasses of milk are always on the table, as milk is Kruger's favorite beverage. The writing desk is full of papers, where Bredell, the second secretary, attends to the correspondence and the classification of letters. The dining-room is at the other end of the boat. The President, he says, always appeared at meals, and during the day was constantly on deck in a steamer chair, dressed in a black frock coat and traveling cap. On his watch chain he wore the coat of arms of the two republics.

Each day Dr. Heymans cared for the President's eyes, which are fast failing. When the news of the success of the Boers was shown the President at different stations on the route, he always looked contented and got up and walked about with pleasure. He often threw silver coins to boy drivers.

AMERICA

Did Not Derive its Name From Amerigo Vespucci.

That America derives its name from Amerigo Vespucci has long been regarded as a certainty. Now, however a historian comes forward and assures us that this is not the case. This historian is Ricardo Palma, Director of the National Library of Lima, Peru. In a book which has just been published he insists that America was not named after Amerigo Vespucci, but that, on the contrary, Amerigo Vespucci was named after America.

Senor Palma, who has studied this subject for years, maintains that Vespucci's first name was Alberico. "The name 'America,'" he says, "is derived from a place in Nicaragua, being the name of a hill in the province of Chanvoles. Furthermore, the penultimate syllable 'ic' is very often found in the words used by the Indians of South America and by the natives of the Antilles. The syllable itself signifies something large and lofty, and is found in the names of non-volcanic mountains."

He further points out that Columbus did not use the word "America" in his letters when he referred to the events of his first voyage. "It is more than probable," he continues, "that he learned through one of his attendants of the discovery of gold by some native in a place called America. In this way it is likely that the name gradually became known throughout Europe. At that time the only geographical account of the western hemisphere was the one by Alberico Vespucci, which was published in Latin in 1505, and in German in 1508. Geographers presumably came to the conclusion that Alberico had given the name America not merely to a single hill or mountain, but to the entire country.

"When the first map of the continent bearing the title 'Provinre of America,' was published in Barcelona, in 1522, Columbus and his companions were long dead, and there was no one to protest against the misuse of the name. Furthermore, there was no one in all Europe who bore the name Amerigo, and as Vespucci's name was Alberico, geographers and historians would surely have given the new continent this name if they had desired to honor him in this fashion.

"Newly discovered countries were only named after soverigns, as we see in the case of Georgia, Louisiana Maryland and the Philippines, and when explorers did give names to countries they selected those of their own families, as we see in the cast of Vancouver and Magellan. The origin of such places as Columbia, Columbus and Colon can also be clearly traced."

A Machine to Water the Desert.

Several machines have been invented for making the heat of the sun produce steam or electric power, but a Washington man is the first to turn such a device to practical use.

William Calver is now about to set up one of his sun-power machines in Arizona, near Phoenix, and dig wells in the desert. His plan is to make the intense heat of that hottest part of the United States develop the power to pump up water enough to irrigate all the barren land.

Everybody knows what a transformation a little water makes on a desert, producing an oasis of tropical verdure, while all beyond this watered space is desolation and death. It is usually so expensive to drill wells and pump the water on a desert that it does not pay to reclaim the waste land. But, if the overabundance of sunshine on the desert can be utilized the problem is solved.

Mr. Calver's machine consists of a set of big mirrors and lenses, by which he focuses the sun's rays as a boy does with a burning glass. The heat which can be generated by Mr. Calver's machine is said to be equal to a furnace for a 500 horse power boiler.

With such a power as this available wherever one sees fit to set up his plant, it is easy to see how well drilling and water pumping can be done on a large scale. Geologists have found in recent years that our southwestern deserts have almost numberless subterranean streams flowing at depth varying from 25 to 250 feet below the dry, parched surface of the earth. So there need be no lack of water if the borings are intelligently directed.

The amount of arid lands which lie in Arizona, New Mexico, Oklahoma Texas and Colorado is estimated to be at least five hundred millions of acres this is rendered useless by the need of water, and the reclamation of this land would add billions of dollars to the wealth of the country.

In many sections of Colorado and other States in which irrigation is used, the best farming lands in the country are those which were formally worthless and are now artificially watered, and the very finest crops in the land are grown there.

Lizzie Borden Snubbed.

Lizzie A. Borden, of Fall River, whose father and mother were murdered in 1892, is the subject of much comment. By the death of her parents she became heir to the Andrew J. Borden building at the corner of Anawan and South Main streets. One of the rooms in the building was occupied by the local branch of the Young Woman's Christian Temperance Union, of which Miss Borden was, before the tragedy, an active member. While Miss Borden was in Taunton jail the society joined with the Woman's Christian Temperance Union in passing resolutions of sympathy. Since then her case has been rigidly excluded from society debate, and several of the members have snubbed her. She felt that she should not put up with insults from her tenants, and accordingly the Young Women's Christian Temperance Union has been compelled to seek quarters elsewhere.—Springfield Republican.

Springtime

Is the sweetest season in human life, as it is in Nature generally. It is the time of promise. As the young girl draws near to that mysterious line "Where womanhood and girlhood meet," her whole destiny is in a measure being determined. How often the sweet young girl, under the influence of the change, withers and droops like some blighted bud. Nature generally needs some little help at this critical period, and this help in its best form is contained in Doctor Pierce's Favorite Prescription. It establishes regularity, and gives the vigor of perfect health to the womanly organs. It contains no alcohol, neither opium, cocaine, nor other narcotic.

Miss Emma Lee, of Williford, Sharp Co., Ark., writes: "I was suffering severely and tried several doctors' remedies, but received only very little relief; therefore, I feel it my duty to write and let other sufferers know what your 'Favorite Prescription' and 'Golden Medical Discovery' and 'Pleasant Pellets,' have done for me. I took eight bottles of 'Favorite Prescription' and 'Golden Medical Discovery,' six vials of the 'Pellets,' also one bottle of your 'Compound Extract of Smart-Weed.' As soon as I had taken the first bottle I could see that the medicine was helping me. I had disease of internal organs with bronchitis and catarrh. I also used the local treatment you suggested."

The sluggish liver can be cured by the use of Dr. Pierce's Pleasant Pellets.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 68 in one day. Sample and terms 25 cts (none free); four for 60 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00 Write to day for a dozen and make money. CABBAGE AND POTATO CLASSES

German Boys and Girls Learning to Transplant and Sow.

Many German school boys and girls, besides learning reading, writing, and arithmetic, have regular classes in cabbages and potatoes. Sometimes on Wednesday afternoon and sometimes on Friday whole classes of neatly dressed yellow haired children may be seen marching through the streets with their teacher at the head of the procession on their way to the school garden. Many German cities, but especially Leipzig and Plauen, in Saxony, have set aside a plot of land not far from the schools, where all sorts of vegetables and plants are grown.

These afternoons spent in gardening are really the best kinds of vacations, and the boys and girls enjoy them hugely. Here they learn how to transplant trees, how to sow all kinds of different seeds, why the cabbage is first cousin to the cauliflower—for with the gardening they are taught botany—when turnips should be pulled and how to tell when a melon is ripe. Not only do they have useful vegetables in these gardens, but weeds are also planted, each variety being properly labelled, so that every boy will know its name. Then there are poison ivy and poisonous plants in a plot by themselves, and each pupil learns to recognize them so that he may avoid them in the woods.

At the school garden in Leipzig there is also a beautiful little pond full of water plants of many varieties, with a pavilion near at hand where the boys and girls may find shelter if a shower comes up. *It is a wonderfully interesting sight* on a bright afternoon to see these Leipzig gardens swarming with children, some picking strawberries, with the teacher explaining what strawberries really are botanically, how they *put out runners* and how they should be transplanted, cultivated and protected in winter. And sometimes, though these German boys are wonderfully well behaved, a strawberry slips into a small mouth. Others may be seen catching cabbage caterpillars, others hoeing and raking.

All this not only brings vigor and interest to the pupils, but it inspires them to start little gardens at home, where they take the greatest interest in putting their learning into practice. German children go to school longer during the year than Canadians, having only four weeks of vacation in summer, although they have two weeks at Christmas, two at Easter and a fall vacation of two weeks in October, so that these school gardens help to give them more outdoor life. Every two weeks the gardener has a circular printed and distributed telling what plants are in bloom, what fruits are ripe and so on, so that every child may see them, in this way learning botany by actual observation on the ground. This is the more necessary because German city children have very little opportunity of seeing how the wild plants grow, as most of the forests and fields which are uninhabited are posted with notices forbidding anyone to enter. The school gardens are open all day long and every day, but Sundays and holidays, and they are very carefully attended by skilled gardeners, so that they may be models of perfection for the children to follow. These gardens are found in many German, Swedish and French towns, and there are a few elsewhere in Europe, but the Canadians have not yet taken up the idea, and Canadian boys and girls lose one of the great joys of school life. The gardens of course cost much money, but the German believes that his children should be thoroughly trained in the schools, for as that greatest German, Bismark, has said, "The nation that has the schools has the future."

Tree That Yields Butter

A tree has recently been discovered in Africa which yields butter. Though by no means as good as that churned from cream, it can be made somewhat similar in taste by salting. By heating with a solution of potash or soda it is easily made into soap.

The Canary Islands have a weeping tree and it is wet even in a drouth, constantly distilling water in its leaves.

Sicily grows an ash in which the sap hardens into sugar, similar to the sap of the American sugar maple, and it is used for sweetening purposes by the natives without any refining.

This Is What They Say.

Those who take Hood's Sarsaparilla for scrofula, eczema, eruptions, catarrh, rheumatism or dyspepsia, say it cures promptly and permanently, even after all other preparations fail. You may take this medicine with the utmost confidence that it will do you good. What it has done for others you have every reason to believe it will do for you.

A Clergyman's Testimony.

Powley's Liquified Ozone Saves the Life of the Rev. William Fawcett, D.D.

REV. DR. FAWCETT SAYS: "I feel to-day that I owe my life to Ozone."

> I have used Ozone for stomach trouble and found it an excellent medicine for this weakness. I feel to-day that I owe my life to its being brought to my notice. I believe you have an excellent family remedy and wish you every success.
>
> Yours very respectfully,
> (Signed), WM. FAWCETT, D.D.,
> 103 Hazelton avenue,
> Toronto.

The Rev. Wm. Fawcett, D.D., is one of the most brilliant sons of whom Canada can boast. The son of the late Rev. Michael Fawcett, one of the pioneer clergymen of Canada, he early distinguished himself in his calling. To-day Dr. Fawcett is pastor of one of the largest churches in Chicago.

Some time ago the reverend gentleman was suffering so severely from stomach disorder that he had to resign his pastorate. After a vain attempt to find health in the leading cities of the United States, after spending money lavishly for the best advice of dietetic specialists, after travelling half the world over to take in the noted health resorts, he came back to his father's house, 103 Hazelton avenue, Toronto, to die. But it was not yet his time. He had heard about Powley's Liquified Ozone, and began taking it. In a few months he had recovered perfect health and resumed his duties in Chicago. Now he permits his testimonial to be published, that it may do good to those who may be suffering.

Powley's Liquified Ozone kills the germs of disease and supplies the blood with the oxygen which forms the red corpuscles of health. A great many people are unhealthy because their lungs do not extract the oxygen from the air they breathe. Now, Powley's Liquified Ozone, being liquid oxygen, supplies them with this principle, and makes them strong. Ozone is the new method of treating disease. The instant success it has attained stamps it at once as a preparation altogether different from any ever before placed at your disposal. Ozone is not a patent medicine. The prominent clergyman and citizens of Canada who have been cured by it of long-standing diseases do not lend their names to quack nostrums. You would do well to consult them and satisfy yourself as to its very great value.

Powley's Liquified Ozone is $1.00 large size bottle; 50c small size. At druggists', or from the laboratories of THE OZONE COMPANY OF TORONTO, Limited, 48 Colborne Street, Toronto.

A WONDERFUL
KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

I. A. HOPKINS.

BRIGHT'S DISEASE,
GRAVEL, DROPSY,
And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. *Since its introduction into this country its fame has quickly* spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, *my digestion became all right. I found myself* in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 56 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours,
I. A. HOPKINS.

Rev. W. B. Moore, *D. D., Washington, D. C.*, Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses". Address The Church Kidney Cure Co., No. 308 Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

PRICES AND TERMS

PRESENT PRICES—We are now selling our fully paid and non-assessable TREASURY SHARES at 5 cents per share, in blocks of 100 shares and more; 100 shares, $5; 1,000 shares, $50; 5,000 shares, $250; or 10,000 shares or more at the same rate. Send your order right NOW, before the next advance, as you will soon pay a higher price. Investors are rapidly investing with us.

The company fully prepays all government revenue, postage, etc. Send also for our handsomely illustrated prospectus, which contains much valuable information. It is free for the asking.

The Band Concert

The band concert in the market hall last night was largely attended, the spacious room being packed to the doors. The music was of the usual first class order. The silver collection at the door was larger than usual and will materially assist the band.

Shot a Moose

Last Saturday a preacher from Toronto, while out hunting near Huntsville, says the Gravenhurst Banner, came across a cow moose, which he shot. After having killed the animal he went to town and obtained a license for shooting moose and then brought the animal into town. Upon examination it was found that the moose was in calf. As it is against the law to kill a cow moose it is probable the preacher will be put to a lot of trouble over it. Game Warden Tinsdale is after him.

Deer Season too Early

Many of the deer hunters who have been shooting in the north this fall are of the opinion that the deer season opens too early and suggests that it should be from November 15 to 30 instead of from November 1 to 15. This would ensure colder weather and there would be less fear of venison spoiling from heat. This season dozens of carcases have been destroyed by the warm weather and had to be left in the bush. The Legislature will probably be asked to make the change.

Dan Spence Memorial

Through a mistake the report of the meeting to arrange a suitable memorial for the late Dan Spence was left out of our issue of yesterday. The meeting was largely attended and thoroughly representative in character. It was decided to procure a hospital ambulance, with a suitable inscription thereon, and also that a brass tablet to the memory of Dan Spence be placed in the Council Chamber.

A strong committee was appointed and [illegible] opened.

—The steamer Eclipse is expected to arrive to-day with the usual Saturday load from lower ports.

The best protection against fevers, pneumonia, diptheria, etc., is in building up the system with Hood's Sarsaparilla.

—The Court House park has been closed for the winter, and pedestrians are warned that all who trespass thereon will be prosecuted.

—All officers who have applied for a course in equitation will meet Major Miller at the drill shed on Tuesday evening at 8 o'clock.

Perfectly healthy people have pure, rich blood. Hood's Sarsaparilla purifies and enriches the blood and makes people healthy.

—An umbrella was found early yesterday morning on Park street. Owner can have same by applying to W. A. Smith, Times office.

Rich, warm, healthy blood is given by Hood's Sarsaparilla, and thus coughs, colds and pneumonia are prevented. Take it now.

—Inspector Walker warned the pupils of the Central school not to trespass on Victoria park, which has been closed for the winter.

—The ladies of the Board of the Y.W. C.A. are requested to meet on Monday next at 3.30 p.m., as an important matter is needing their immediate attention.

—The fourth of a series of Home Economic lectures will be delivered in St. Paul's school room on the evening of Nov. 27th, by Mrs. Nellie A. Kedzie. Subject, "Education for Girls."

—The death is announced of W. J. Rutherford, son of the late Geo. Rutherford, aged 37 years. The funeral will be held on Sunday afternoon from the family residence, lot 23, con. 1, Emily, to the Presbyterian church, Emily.

—The Roman Catholics of Warkworth and vicinity are making preparations to erect a new church next year. The cellar has been dug and other preparations are being pushed forward for an early completion of the building next summer.

—It is reported that an engineer will be sent soon by the firm that is talking of buying the Belleville street railway and electric light plant, to take a survey of the water power of Healey Falls, with a view to purchasing the powers for lighting and manufacturing purposes.

—The steamer Eclipse arrived in town Thursday with 300 hogs and 150 cattle on board. She returned yesterday and will run her usual Saturday trip. On Monday she will bring in a scow of wheat for McAllister's mill.

STOCKMAN'S FINGERS.

Same on Both Hands.

W. E. Beckham, a corking heavyweight of Burton, Kan., is in the live stock business. He did not need to pay much attention to the food he ate, until about two years ago an attack of the grippe left him partially paralyzed. His experience with food is well worth reading.

"The third and little finger on each hand became partially paralyzed, and my spine was affected just below the back of the neck. This came from a severe attack of the grippe two years ago. I almost entirely lost the use of my hands.

"This condition continued several months, in spite of all kinds of baths and treatments. In the meantime my stomach, bowels, and digestive organs became affected and deranged. My liver seemed to have no more action than if I had no liver at all. No food of any kind tasted right, and I run down from 210 pounds to 160.

"One day the groceryman asked me if I had ever tried Grape-Nuts food. He told me that it was recommended as a brain and nerve food and that it was predigested.

"So I commenced the use of Grape-Nuts, and carried some in my pocket. Now and then when I felt hungry I would take some of the food into my mouth and allow it to melt before swallowing. The food has a delicious taste and I began to improve right away. In three days' time I was very much better.

"I continued the use of Grape-Nuts, and continued to improve steadily. In a few weeks longer I was strong and had regained the use of my hands perfectly. In less than five months I was back to over 200 pounds, as you see me in the picture which I send. Am now 51 years old and never had better health in all my life. I passed a first-class medical examination about four months ago in a life insurance company.

"My recovery to good health is solely due to the use of Grape-Nuts food. As a brain and nerve food, there is nothing equal to it. You can use any part of this letter, and I hope it may lead some unfortunate invalid back to health."

—The position of clerk of the Court at Cobourg is vacant and will likely be until after the Provincial elections. J. H. Douglas, M.P.P., East Northumberland, and Samuel Clarke, M.P.P., West Northumberland, are applicants for the position, and Premier Ross is not anxious to open any constituencies at present.

—A non-advertising merchant contributes nothing to the growth of the town because he does nothing to bring business into it. It may be true that he gets his share of the business that comes to town, just as the drone gets his full share of the honey the bees bring in. But it is the advertiser that brings people from the country to trade.

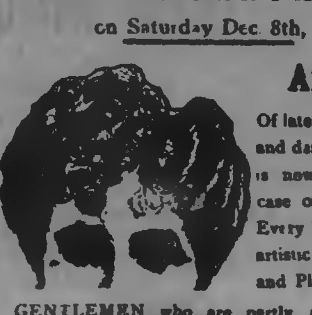
THE LOSS OF THE HAIR

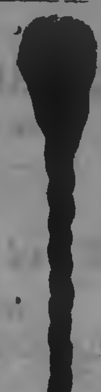
to a lady or gentleman is a great affliction

PROF. DORENWEND

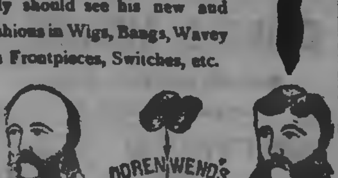
will be at the ORIENTAL HOTEL, Peterborough on Saturday Dec. 8th, with all kinds of

Art Hair Goods





Of late he has added many new styles and designs to his large collection and is now in a position to suit every case of bald-headedness or thin hair. Every lady should see his new and artistic fashions in Wigs, Bangs, Wavey and Plain Frontpieces, Switches, etc.



GENTLEMEN who are partly or wholly Bald should not miss the opportunity of seeing what he can do to improve their appearance, and add comfort and protect them against Colds, Catarrh, and other Head Troubles, due to lack of protecting hair. TOUPEES AND WIGS are made feather-weight—detection by the closest observer is impossible. Why delay? Secure the benefits now. You will be thankful later on. If it is not convenient to come to the Hotel, send name and address and he will call at residence. All transactions strictly confidential.

Cut Hair taken in exchange, or cash paid for it.

"Every Path Hath a Puddle."

The puddle in the pathway of most lives is a defective circulation due to a blood supply that instead of growing clear and strong like a mountain brook, is stagnant and impure. Puddles may be purified, however, and and become limpid streams. That is what Hood's Sarsaparilla does with human blood.

It clarifies, purifies and strengthens the blood, and when this is accomplished, the vital organs, liver, lungs, kidneys, bowels, are all braced and invigorated. *It never disappoints.*

Dyspepsia—"My wife suffered from rheumatism, dyspepsia and pains in her stomach. She had medical attendance but did not get relief. She read about Hood's Sarsaparilla and tried it. Three bottles entirely cured her. She is now a well and hearty woman." T. W. Covert, Cape Sable Island, N. S.

Sick Headache—"For a long time I was troubled with sick headaches. Different medicines failed to give me relief. I took Hood's Sarsaparilla, my husband having been cured of salt rheum by it, and soon it made me feel like a new woman." Mrs. Robert McAfee, Deerhurst, Ont.

Men Who Are Bald.

Did you ever think of replacing the lost hair by artificial means? Prof. Dorenwend can do it for you so that your most intimate friends would not know it. He will be at the Oriental Hotel, Peterborough, on Saturday, December 8th, where he invites you to call and witness a practical demonstration of the fact. See his wigs and toupees.

Up Goes the Prices

Peterborough people will be interested in the fact that the leading stove foundries in Ontario are to be amalgamated. A Hamilton despatch says,—It is expected that the deal for the amalgamation of a number of stove foundries in Ontario will be settled before long, and that it will be carried to a successful issue. It is said that John McClary, of London, will be president, and J. H. Tilden, of the city, manager, of the company. It is also said that the Hamilton foundries will all be continued in operation, and that so far as possible the iron foundry business of the province will be centred here. This means that the price of stoves will be increased.

EX-PRESIDENT KRUGER IS NOW IN PARIS

Oom Paul Received Great Ovations at Every Stopping Place.

QUEEN WILHELNINA SENT A MESSAGE TO HIM

The Boer Leader was Welcomed to Paris and Given a Magnificent Reception—French Mobs Yell "Down With the English."

London, Nov. 26.—"We understand says the Daily Express this morning," that Lord Roberts recently requested the Government to send 2000 regulars to South Africa to relieve the same number in the field, but that his request was declined on the score of expense.

Paris, Nov. 24.— Kruger arrived in Paris at 10.40 this morning, and was given a magnificent reception. The boulevards were crammed with vast crowds.

The Hague, Nov. 24.—Queen Wilhelmina has sent a message to Mr. Kruger saying that she is happy to learn that he has completed his voyage and is in good health.

Paris, Nov. 23.—The peaceful, but enthusiastic manner in which the people of Marseilles greeted the arrival of Mr. Kruger yesterday and the warm welcome extended to him in the cities he passed through to-day, all occurring without any anti-British demonstrations of any consequence, have made the authorities of Paris feel confident that his reception here to-morrow will not result in any unpleasant incident. M. Lepino, the Prefect of the police, said to-day. "We have full confidence in the people of Paris, and count upon them not to do anything likely to cause diplomatic complications. However, the police have the strictest orders to permit only cries which are complimentary to Mr. Kruger and the Boers. They will not tolerate any cries uncomplimentary to a neighboring friendly country. Any persons uttering such uncomplimentary cries will be arrested."

Mr. Kruger will arrive at the Lyons railroad station at 10.24 a.m., where he will be met by committees representing the Boers, Deputies, Senators, etc. After a short informal reception he will be escorted by way of the Grand Boulevards to his hotel, which is situated on a prominent boulevard. His time of passing through the thoroughfares will be coincident with the lunch hour, and many of the stores, etc., will be closed for the rest of the afternoon. There is certain to be an immense concourse of people along the route.

GREAT DEMONSTRATIONS.

Dijon, Nov. 23.—Mr. Kruger has become, for the moment at least, the popular idol of the French. His triumphant progress northward through the country from Marseilles to Dijon has placed this beyond doubt. He met with a tremendous reception in each town along the route where the train stopped, culminating in scenes of frenzied enthusiasm here this evening, calculated to turn the head of any man. The population of Marseilles gathered in thousands this morning to escort him to the railroad station, and gave him a rousing send-off, while at Tarascon, Avignon, Valence Lyons, Macon and Dijon the inhabitants, who crowded the railroad stations, made the rafters tremble with enthusiastic shouts of "Vive Kruger" and "Vive les Boers." The demonstration was all the more significant, because it shows that the prefervid acclamations at Marseilles were not merely an explosion of exuberance on the part of the warm-hearted and excitable populace of a sunny clime, but sentiments shared with even greater intensity by the usually less demonstrative and cold-blooded inhabitants of the northern provinces. The warmth of the reception increased instead of decreased, as might have been expected from the difference in character of the inhabitants of the provinces through which Mr. Kruger passed, but one of the most important phases of the demonstration was the turn it took in an anti-British direction.

"DOWN WITH THE ENGLISH."

The few Englishmen, whose ill-timed levity at the hotel Du Louvre in Marseilles exasperated the people in the streets there, never dreamed of the serious consequences of their act. They sowed the wind, and to-day the English people are reaping the whirlwind. The news of the supposed insult to Mr. Kruger seems to have spread across France, and at the stations, but especially Lyons and Dijon, shouts for the Boers were mingled with loud cries of "Down with the English." Indeed, at Lyons the denunciations of the English drowned the shouting for the Boers. This is a disturbing feature which is universally discussed. Fears are expressed that to-day's reception in Paris may assume a character calculated to arouse the feeling of Great Britain against France to such an extent as to result in unpleasant relations between the two countries.

KRUGER IS HIGHLY PLEASED.

The warmth of enthusiasm reached in Marseilles yesterday palpably raised the spirits of Mr. Kruger and his advisers to a high pitch. The faces of Dr. Leyds, Mr. Fischer and others, which, on the eve of the arrival of Mr. Kruger, revealed the anxiety they felt regarding his reception, were to-day lightened up with happiness and confidence. Evidently hope had revived in all that his misson to Eurpoe would be crowned with success. Mr. Fischer spoke to Mr. Kruger to-day regarding the visit of the Boer envoys to the United States, and told him of the welcome they had received there from the American people. He expressed himself grateful to know that so many Americans had displayed sympathy with the cause of the Transvaal, adding that he was not at all surprised to learn this, as he had expected all along that the citizens of the American Republic would stand by the Boers in the struggle to defend the liberty which they had previously won for themselves.

The Prefect of the Department of Bouches-du-Rhone visited Mr. Kruger to present President Loubet's compliments and thanks for the telegram which Kruger sent yesterday.

To be Hanged

Jeffersonville, Ga., Nov. 24.— Gus Fellows, a negro, found guilty of criminal assault on the 3rd inst., will be hanged to-day at Atlanta, where it was necessary to take him under protection of the military.

STORIES OF "UNDESIRABLES."

People Lord Roberts is Sending Out of South Africa.

London, Nov. 24.—The great green hull of the good ship Damascus, Captain McKillam, Sydney, to London, crept to berth in the Albert docks on Saturday afternoon.

On her fore-deck, peering minutely out at the teeming creeks, stood a picturesque band of stolid foreigners, deported from South Africa by order of Lord Roberts. They were undesirables. They were not prisoners of war captured on the stricken field, but simply people whose absence from South Africa makes for the better security of our new colonies.

Some of them had faces that might have looked straight out of a dim, mysterious Rembrandt. Men, women, and children they were, about forty of them all told.

Herr C. A. Grosser was one of the group. He was a German undesirable. A little while ago he was a creator of corners in food.

"I fouhgt on the side of the Boers," he said, "but I was a victim to my own side. I had a store in the Barberton district. I bought and bought and bought every bit of food I could find in that region, for I knew that very soon supplies would be scare there. Then I sat down and contemplated a quick and easy fortune. I should have made several thousand pounds in a few days. But Boer commandoes came, and they said there must be no food left there for the English to live on, and they burnt a lot of my great store. Then the next day the English came along—and destroyed the rest."

A tall, straight, broad-shouldered undesirable, in whiskers, spectacles, and big bowled pipe, strode up.

"The worst experience I ever had," he said, "was in the trenches at Paardeberg with Cronje. When you English had been firing at us for a time I found twenty-seven of my comrades dead beside me. No wonder Cronje gave up."

The undesirables then went down the ladder to a big shed, where several policemen made arrangements to conduct them to Liverpool street and Harwich for the Continental boat.

ASSAULT AND ROBBERY.

An Old Woman in Lindsay, Maltreated and Her Purse Taken.

What is certainly one of the most brutal and cowardly assaults and robberies that has occurred in Lindsay in a long time, was investigated in the police Friday morning, says the Post.

Mrs. Hannah McCabe, an old lady of upwards of eighty years of age, who lives back of Chamberlain's shoeshop, was aroused from her sleep on Tuesday evening last about eleven o'clock by the presence of a man in her room, who demanded her money. Apparently fearful that Mrs. McCabe would raise a disturbance, her assailant seized her by the throat and after choking her almost insensible, and tearing the clothes from off her, escaped with the old lady's pocketbook, containing about $16.

Thos. Martin, a young man employed as a laborer about town, was accused of the offence this morning. Through his counsel, Mr. Weldon, he pleaded not guilty, and elected to be tried by jury. The Police Magistrate sent him up for trial on Dec. 11th.

The accused hails from Campbellford, and has already served a six months' sentence, he having been convicted before Magistrate Steers last summer of the theft and sale of a pick.

Henry Ward Beecher's Successor.

Rev. Newell D. Hillis, of Plymouth Church, Brooklyn, New York, is preaching a series of sermons on "What is left of Christianity now that the Critical Epoch has Passed; a Study of a Return of the Tide of faith." These sermons are published in full in Monday's issue of the Brooklyn Daily Eagle—a paper which gives special attention to New York City pulpit reports.

Hymeneal

At the residence of Mr. Wm. O'Hara, Cavan Township, on the evening of the 21st inst., a pretty and appropriate wedding was held. The contracting parties were Miss Mina O'Hara, and Mr. Lewis John Morton. The bride was very prettily dressed in white silk, and was the recipient of a large number of handsome and useful presents. Miss Shield, of Emily, was bridesmaid, while Mr. Wm. O'Hara supported the bridegroom. Miss Elliot, of Mt. Pleasant, played the bridal march at the opening of the marriage service. The nuptial knot was tied by Rev. R. MacKnight, B.A., of Peterborough. After a sumptuous wedding repast, the large company of neighbors and relatives of the parties were entertained by social games, choruses, songs, and instrumentals.

BABY BOY SHOT BY HIS MOTHER

Pathetic Fatal Accident in the Home of Mrs. McCormick.

Philadelphia, Nov. 25.—In a small casket in the parlor at 1944 Diamond street lies little Harold McCormick. As a result Harold is dead and his mother is prostrated and her friends and physician fear she will lose her mind. Coroner Dugan has personally investigated the case and is satisfied that the shooting was entirely accidental. Little Harold was only 22 months old and was idolized by his parents.

The revolver from which the fatal shot was fired was an old fashioned, single-barreled, 22-calibre, and was rusty from disuse. One of Harold's brothers found it in an old trunk, and, taking it to his mother, asked her to fire off some paper caps. This she consented to do, and soon all the children were enjoying the sport, dancing and giving vent to gleeful exclamations. Harold, enjoying the sport with the rest, though somewhat in awe, had retreated to the further side of the room.

After nearly a dozen had been snapped, there was a louder report than the others, and with a cry of pain Harold sank to the floor, with the blood gushing from a hole in his right temple. For a few moments the mother was dazed and then with a scream, when she realized the truth, which brought her mother and father and the servants to the room, she rushed to her injured son. As soon as the family had sufficiently recovered themselves, Dr. A. R. Rainear, of 2024 Diamond street, was summoned.

Dr. Rainear soon saw that there was no hope, and at 3 o'clock the little fellow died. The mother is now confined to her bed and is alternately delirious and unconscious, and much hope is expressed for her recovery.

The pistol was purchased several years ago by Mr. McCormick and given to his wife. He is connected with a morning paper in this city, and as his work necessitates his absence from home during the night, he desired that his wife should be properly armed for an emergency.

JEALOUS WOMAN TRIED FOR LIFE

Most Remarkable Murder Case in the History of Kansas.

Eldorado, Kan., Nov. 26.—Miss Jessie Morrison, charged with killing Mrs. Olin Castle last June, by cutting her throat, was placed on trial here to-day. The case is one of the most remarkable in the history of Kansas crimes. Miss Morrison's alleged motive for the murder was jealousy. She was a former sweet-heart of Castle, who is a clerk in a store.

Miss Morrison, who is 26 years old, is the daughter of former Probate Judge M. M. Morrison, and the family has been prominent in Eldorado society for years. Mrs. Castle, who was a Miss Mary Wiley, was the same age as her alleged murderer. Her family also was well-to-do.

A short time before Castle's marriage to Miss Wiley, Miss Morrison, who had formerly clerked in the same store with him, is said to have threatened Castle. One afternoon a few weeks after the wedding neighbors attracted by Mrs. Castle's screams broke into her house.

They found her lying in a pool of blood from several ugly gashes in her throat and with Miss Morrison, razor in hand, bending over the prostrate woman. Miss Morrison too, was bleeding from several cuts. Mrs. Castle lived for eighteen days.

A Dying Accusation.

Before she died she made a statement declaring that Miss Morrison had attacked her without provocation, and sent word forgiving her. The prosecution will contend that the defendant deliberately planned the murder, going to the Castle home armed with a razor purchased on purpose, and, after accomplishing her mission, she turned the blade upon herself.

Miss Morrison will plead self-defense. Her side of the story is that Mrs. Castle had called her into the house, and, after starting a quarrel, attacked her with a razor, which she took from a bureau drawer in the room. In the struggle that followed Miss Morrison declared she wrenched the weapon from her adversary after receiving several cuts, and, defending herself, inflicted several slashes in the victim's throat.

Miss Morrison Reads Bible.

Much of Miss Morrison's time in jail has been spent in reading the Bible.

The trial will doubtless become a legal battle, as eminent lawyers have been engaged on both sides. The defence won a point recently when it secured a copy of Mrs. Castle's dying statement, which was refused them at the preliminary hearing.

Olin Castle, the man in the case, is younger than either of the women concerned.

SHE CANNOT LOVE HER COUSIN

So Consents to Wed a Bonaparte—A Russian Betrothal Announcement

St. Petersburg, Nov. 23—The betrothal of Prince Louis Napoleon Bonaparte to Grand Dutchess Helen, daughter of the Grand Duke Vladimir, is officially announced.

Prince Louis, who has been serving for the last fifteen years in the Russian army, is a general of cavalry at the head of the crack regiment of the Czarina's Lancers of the Guard.

He has all along been treated with the court as a member of the Russian Imperial family circle, and enjoys in a particular degree the friendship of the Czar.

The Dutchess has been credited with an infatuation for her cousin, Grand Duke Michael, younger brother and heir to the Czar, but inasmuch as the strictly orthodox Russian church strictly prohibits marriages between first cousins, the Dutchess has now apparently made up her mind that the next best thing is to become a possible Empress of the French.

THE OUTLOOK IS GLOOMY IN CHINA

The Pessimist of Washington is Now Being Reflected in London.

London, Nov. 24.—The pessimism reflected by the Washington specials dealing with China finds a keen echo in Great Britain's Cabinet. The gloomy foreboding that the United States will be compelled to withdraw from the concert of the powers is only one of the causes of this feeling, for the British Ministers are now inclined to believe the present lines of negotiation cannot result satisfactorily.

"The United States," said an official of the Foreign Office to a representative of the Associated Press, "cannot be any more anxious than England to get out of the China muddle. The Cabinet Ministers are reluctantly coming to believe that the endeavors to compel China to punish individual offenders are merely waste of time. Death by edict is a farce, and a fairy tale. The powers' forces now in China are utterly inaqepuate to overrun the country and force their demands. England has no intention of augmenting her troops to such an extent as would be necessary if the Europeans themselves undertake to inflict punishment. It looks very much as if we shall all have to climb down. The only question is how can it be done with the best dignity and under circumstances giving the most satisfactory results.

"The policy of indefinite decimation, which the American journals seem to attribute to Germany, is not in the slightest shared by Great Britain," This view is not that of a majority of the British Press, who generally condemn what they call the "weak-kneed policy" of America.

LASSOING BEARS

The Cowboy Way of Capturing the Big Brutes in Arizona

Phoenix, Ariz., Nov. 24—A large number of bears have been driven out of the San Francisco mountains to Northeastern Arizona by the cold, and have migrated south into the hills and canons around Blue River, affording sport for the cowboys of that section. The manoeuvres of a herd of 100 bears were watched from a peak overlooking Blue River a few days ago by a posse of well known cowboys composed of Neis Wilson, Rawley West, "Buck" Davis and several others. Shortly before coming upon the herd they had encountered a bunch of five bears and killed four, but the other escaped after a chase. Their ammunition was spent on the fourth bear, and the vaqueros started out to "rope" the fifth.

The roping of bear, mountain lion and even deer is a favorite pastime of the Arizona cowboy, and at the same time affords a test of his accuracy with the rope and the speed and activity of his horse. He seldom misses a "throw" when the animal is within range, but in the roping of bear not only must the cowboy be successful in placing the noose about the bear's neck, but he must draw it taut before the wily brute shakes it off.

On this occasion the boys followed their quarry through mesquite shrubbery, and several times when it appeared on an open they tossed the lasso about the animal's neck. The bear as frequently stopped, obtained a little slack, and neatly threw off the noose with his paw. The cowboys suffered the disgrace of losing their animal, three lariats and their temper, but they returned to Safford, a small community in the mountains, with four skins and a wonderful account of a herd of Arizona bears. Cowboys from the surrounding hills are contemplating a rodeo and are gathering for a big bear hunt. Little ammunition will be taken along, for the cowboy, as a rule, who stoops to shoot a bear is regarded as no better than the hunter who revels in "pot shots," and the vaquero who returns without having successfully roped several bears will be in disgrace.

PARLIAMENT LIKELY TO MEET EARLY

In Spite of the Elections the Government Will be Ready to Open the Session in January.

Ottawa, Nov. 24.— The Government have decided, after discussing the matter fully, to have an early session of Parliament. Generally Parliament has been summoned about the middle of February, or later. It has been the exception, and there were as a rule special reasons for it, if Parliament met earlier. Only on six occasions since confederation has the session been called for January. The last occasion when it met in January was by reason of the Remedial bill, when Sir Mackenzie Bowell and his Cabinet decided to coerce the Province of Manitoba.

The date of the approaching session will be fixed for the latter part of January or not later than the beginning of February. Last session Parliament met on February 1, and the year previous on February 3. Owing to the time taken up with the general elections it was not expected that the Government would have been ready to meet Parliament so soon, but they are anxious to meet with the popular desire for a winter session, so that the members may be able to get through with their work before the warm weather arrives.

TOO COLD FOR INDIANS

Travel by Boat to Pekin Stopped by Ice

Tien Tsin, Nov. 24. via Shanghai.—Transportation by boat to Pekin ceased yesterday, owing to ice in the river, and in future, until, the railroad shall have been completed, the only method of transportation will be by wagon train, which will occupy three days in making the journey. It is announced that the railroad will be ready for operation by Christmas.

A German expedition, consisting of one regiment of infantry, and two regiments of cavalry, left to-day to scour the surrounding country. The Japanese have beheaded two spies. The Boxers captured by the Germans have not yet been tried.

Cold weather is causing much sickness among the Indian troops.

A British citizen of Tongku, was recently ordered by the Russian authorities to vacate the premises owned by him within forty-eight hours. A company of Madras Pointers was sent to protect the citizen and to prevent his ejectment.

FOR BIG SIX-DAY BICYCLE RACE

The Annual New York Grind will Really and Truly be a "Grind"

Chicago, Nov. 24—Charles C. Miller, international six-day cycling champion, who hails from Chicago, is completing his training for the six-day team race which starts in Madison Square garden, New York, early in December. He has been doing hard work on the road out LaGrange way and looks to be in the best of shape. He will leave for the east next week. For a team mate Miller has selected Bobby Walthour of Atlanta, the sturdy lad who won the prize for individual mileage in the race last year, which was won by Miller, with "Dutch" Waller as mate. Walthour rode 1,406 miles, his mate, Jay Eaton, quitting early in the race.

"This will be the eighth race of this character in which I have participated," said Miller this morning. "I have won six of the grinds, being second to Fred. Schinner in the Chicago race. I have beaten the champions of all countries and I think my title of international champion cannot be disputed. In my time I have beaten every man who will ride in the race next month, and so with a good team mate like Walthour I anticipate another victory. Waller is not the kind of mate I like. While he is a good rider he is no sprinter, and cannot grind laps. With Walthour it is different and we expect to have little trouble in winning out.

"This race ought to be a corker, for all the good men of both continents are in it. But I must say that some of the good men have picked poor partners. Had they been wiser, I might fear the result. For instance, Muller, the Italian, the man who gave me my hardest race in Europe, has doubled up with an unknown. Had he arranged to ride with Fischer, the Swiss, they would have been formidable. Major Taylor and F. A. McFarland are another team. The colored boy will go through all right, but I fear that McFarland cannot stick. Harry Elkes, they say, is going to try six-days' racing again, but has not found a partner. Had he doubled up with Taylor, the pair would have been hard to beat, for both of them have ridden in six-day races before—in fact, that is where both of them got their stars. Eddie Lingenfelder and another Chicago man have entered, but they might just as well stay at home as venture in such swift company.

"The foreigners are not going to be hard to beat because of the ill-advised pairing. Gugoltz, the Frenchman, will not last two days, mark my words. Of course they are a good advertisement for the race, but they won't cut much ice in the final round-up. It will be a case of ride all the way and the team lucky enough to get a lap or so early in the week will have to fight all the time to hold it."

"I have just completed my new motor tandem," continued Miller. "It was in use the last of the outdoor season, but they wouldn't let me use it much—it was so fast. It would go fifty miles an hour then, but I am going to double the horse power so that it can travel at seventy-five miles an hour. When it gets that speed I am going to go for the hour record, and think that with wind shields I can beat Stinson's forty miles easily."

CZAR NOW SEEMS TO BE BETTER

A Bulletin Issued on Saturday Says Czar's Health was Encouraging

Livadia, European Russia, Nov. 24.—The bulletin issued to-day on the subject of the Czar's health was encouraging. It says: "The Czar passed a good day yesterday. He slept twice. His general condition is good. At 9 in the evening his temperature was 101.2, pulse 72. The Emperor slept well during the night. This morning his condition is perfectly satisfactory. At 9 a.m., his temperature was 100.6, pulse 76."

CLOSE CALL IN SELKIRK

McCreary's Majority is Only One—Second Time for the Constituency

Winnipeg, Man., Nov. 24. — It has been learned to-night that Hon. D. M. Walker, judge on the Selkirk recount, will give a decision returning W. F. McCreary member of Selkirk by a majority of one. This is the second time that Selkirk has returned a Liberal by this slender majority, the late member, Mr. MacDonnell holding his seat by the same slim vote.

GHOST STOPPED WAKE

Chatham Citizens are Terrified by the Sight of Phosphorescent Pork

Chatham, Ont., Nov. 24.—On Tuesday night a ten-year-old crippled son of James Matthews, of this city, died in the Sick Children's Hospital in Toronto. The body arrived here, and on Thursday evening a wake was held. One of the attendants went into the kitchen, where he was startled to perceive a luminous glow issuing from a quarter of pork. The light was emitted in such a way as to resemble the features of a human being. The wake was broken up, and the phenomenon became noised about the neighborhood. Over 200 people visited the house, including Dr. Hall, Medical Health Officer. The only explanations offered is that the pig during life had access to phosphorus in some form.

There is another peculiar incident connected with the death of the boy. It is said that his stepmother saw the boy lying in the house just a short time before the telegram arrived announcing his death.

Peerage for Buller

London, Nov. 24.—General Buller's home newspaper, the North Devon Herald, says it understands the General will be made a Peer when the new year honor list is issued, and that he will assume the title of Lord Buller of Ladysmith.

TALK OF A PLOT TO KILL KRUGER

A New York Saffron Sheet Springs it on the Public

New York, Nov. 24.—The Journal and Advertiser to-day publishes a Paris despatch, which says:—

Information has been given to the authorities of an alleged plot to assassinate Mr. Kruger at the celebration to be given in his honor here. Friends of the Boer chieftain have been notified and will exercise more than ordinary vigilance."

New York, Nov. 24.—There is a growing feeling in England, says the Tribune's London correspondent, that the illness of the Czar is more serious than official bulletins describe it. The action of the Holy Synod in ordering prayers throughout Russia is referred to as showing that great persons around the Imperial throne are not altogether satisfied with the course pursued by the disease from which the Emperor is suffering.

Was the Boy Murdered

Chicago, Ill., Nov. 24.— The dead body of Robert Croty, aged 16 years, son of Thomas Croty, was found swinging by a rope attached to a railing on the back porch of his father's home last night. The boy had evidently been dead several hours when found. It is not known whether it is a case of murder, suicide or accident. There are finger marks on the dead boy's throat, which look as if he had been strangled and then his body swung to a rope end to give an appearance of suicide.

Mrs. Neff, a member of the household, says she heard a voice out on the porch early in the evening saying: "Carry him easy. Don't let him fall."

TREATY NOW ARRANGED

Preliminary Treaty has been Arranged but Terms Have not Been Made Public

Pekin, Nov. 25—The diplomatic body held a meeting this morning and agreed on the terms of the preliminary treaty. Nothing now remains except to secure the approval of the respective governments before definite negotiations with the Chinese peace commissioners are begun. The precise terms of the settlements have not yet been made public here but it is believed outside the diplomatic corps that the main points are in substantial agreement with those contained in the French note to the powers, namely,—punishment of the guilty, indemnity to Germans and individual retention of strong legation guards, and the occupation of certain places between Pekin and Taku.

A party of American cavalry went to-day to disperse a band of bandits in a village 16 miles from Pekin. The village was found strongly fortified but the Americans attacked and captured it, killing seven Chinese.

A secret edict from Sian Fu to the provincial Viceroys' Government orders them to cease the manufacture of modern arms and to revert to the old type of weapons, because modern arms "have proved utterly useless against the foreigners."

THE WONDERLY GOLD MINING COMPANY, Limited

CAPITAL $1,000,000, Divided into Shares of $1 00 each.

Incorporated under Ontario Laws. Non-assessable.

This Company was formed for the purpose of purchasing and working seven gold claims on the Saskatchewan river, near Edmonton.

These claims have been worked some, and in the summer of 1900 D. F. Loveland, the former owner and president of the Company, had a dredge at work, and although only able to handle 200 yards of earth per day, there was from $30.00 to $50.00 of gold taken from that amount of earth daily, and this demonstrating beyond doubt the great value of these claims.

The Company proposes to purchase one of the Risdon dredges, with a capacity of 2 500 cubic yds. a day.

The expense of running such dredge will be about $175.00 per week, and even if the dredge handles only 1,000 cubic yards a day, in six days, there will be taken out $1,500.00 worth of gold, with a profit of $1,325.00 in one week.

Sufficient stock will be sold at 25 cents per share to raise money to purchase the necessary dredge, after which the books will be closed and no more stock will be offered for sale.

There is no gold proposition on the market to-day equal to this one.

Application for stock can be made to any of the Directors, or to the Secretary, or to W. T. McNeil, broker, St. Catharines.

OFFICERS:

PRESIDENT—D. F. Loveland, capitalist, Galena, Illinois.
VICE PRESIDENT—Arthur P. Forster, mechanical engineer, Welland.
TREASURER—Dr. T. G. Wonderly, Galena, Illinois.
SECRETARY—L. Clarke Raymond, barrister, Welland, Ont.
BANKERS—The Imperial Bank of Canada, Welland, Ont.

THE DIRECTORS are: The President, Vice-President, Treasurer, S. H. Glasgow, physician, Welland, and W. T. McNeil broker, St. Catharines, Ontario.

Subscriptions payable 25 per cent. on application, and 50 per cent. in two months.

Brokers desiring to handle stock in this company will please communicate with W. T. McNeil, official broker, St. Catharines, Ont.

EDITORIAL NOTES.

Is the Mayoralty seeking the men or are the men seeking the Mayoralty?

⁂

If Premier Ross doesn't know what to do about the prohibition question he might ask Hugh John Macdonald.

⁂

Lord Rosebery's dream of an alliance between the two great English-speaking nation on either shore of the Atlantic suggests that on this subject much may be said on both sides.

⁂

The cables click the glorious news that the allies have captured two passes. We have M.P.'s over here who'd be ashamed of themselves if they couldn't do better than that.

⁂

Kruger's declaration that "we will fight to the end" will not be pleasant reading for Boers who are skulking in the mountains while Oom Paul dwells in safety and luxury in French hotels.

⁂

What the Town Clerk should do is to write to the editor of the Scientific American to enquire if there is any known machine that would enable the aldermen to consume their own talk.

AGAIN THE PROHIBS.

The announcement that the Dominion Alliance intends to shortly wait upon the Hon. G. W. Ross and ask him what he's going to do about prohibition indicates the intention of the prohibition leaders to make cold water a campaign issue in the next provincial elections. The Times does not think the prohibitionists come before Mr. Ross at a particularly auspicious moment. The country has just passed through a Dominion election campaign but it does not appear that the prohibitionists covered themselves therein with political or any other kind of glory. As to the achievements of the prohibitionists in the campaign referred to we have the testimonial of Hugh John Macdonald, who gave Manitoba a prohibitory law and was subsequently smothered in Brandon where liquor men and prohibitionists proudly marched hand in hand to the polls to do it. Hugh John does not think the prohibitionists of Manitoba supported him to any serious extent.

Another testimonial bearing on the value of the prohibition vote was furnished after the recent election to the Montreal Herald by Lawrence Wilson, President of the Licensed Victuallers' Association

"Two hundred thousand liquor ballots were registered for the Laurier government to-day throughout Canada. For indisputable proof of our work, look at the result in St. Lawrence division of this city, where a strong Tory candidate was defeated, although a popular brewer, and in fact, one who was recently elected by the same people to represent them in the city council; and, then again, look at Manitoba, where Hugh John has been also defeated, owing to his prohibitory laws. Letters and telegrams received during the last three weeks from every section of the country assured me of the silent brotherly understanding on this question—silent, because we feared awakening the fanatical prohibitionists; brotherly, because we all felt we owed a debt of gratitude to a government that was fearless enough to treat the plebiscite vote as ephemeral.

"Most people ignore the importance of the power of the liquor trade and its dependencies; such as the landlords, the furniture dealer, the plumber, the grocer, the butcher, the cigarmaker, all of whom voted with us. I venture to say that whenever our ranks are cemented as they were during the campaign, we can return or defeat any government. The trade now looks forward to a readjustment and a more equitable legislation of the excise and customs laws pertaining to wines and spirits. The law, as it stands in the statutes, is inconsistent and unjust, and I have no doubt we will receive fair play at the hands of the present government; if not, we will be compelled to hand our cases over to the opposition for redress. Our politics are bread and butter first, last and all the time."

There is no doubt that what Mr. Wilson says is, in a measure, true. He may have been bragging, of course, but his concluding sentence: "Our politics are bread and butter first, last and all the time" accurately describes the liquor men's attitude. While the prohibitionists are making speeches the liquor men are sawing wood. While prohibitionists talk one way and vote both ways the politicians know the liquor vote is not to be trifled with. If the prohibition vote was united the liquor vote would not be able to prevail against it, but the prohibition vote, according to the politicians who have banked on it, is but a broken reed. It will be interesting to see what that exceedingly astute politician, Hon. G. W. Ross, will say to the Dominion Alliance brethren.

Rich, warm, healthy blood is given by Hood's Sarsaparilla and thus coughs, colds and pneumonia are prevented. Take it now.

TO BUILD OCEAN SHIPS.

Will be Built in two small sections and sent Down Canals.

Duluth, Minn., Nov. 24.—Arrangements are now being completed for the construction of steel ships on the lakes on a large scale for ocean service. These ships will not be limited in size to the length of new Canadian canals, but will be of any length wanted by buyers. Six or seven large and completely equipped yards on the lakes are in the scheme. The large shipbuilders have now drawn plans for ships of from 350 to 650 feet in length, but of no greater width than 42 feet, which they have submitted to ocean ship owners. They have also submitted their designs to the Bureau of Navigation, and it has approved them.

The plan is to build in sections ships of a greater length than the present locks will carry, join them temporarily in the ship yard, run them down the Great Lakes and to Montreal, and then put them together. The hulls will be built complete at lake yards with a bulkhead both sides of the center line. The space at the center between the bulkheads will be framed but the plates will be bolted temporarily. When completed, these center plates will be taken off and the ship launched as two boats. Then the rear part, containing the machinery, will hitch on to the foreward end, and one end will tow the other. It is the expectation of lake builders that they can compete not only with the rest of the United States, but with foreign builders.

WILD FOWL ATTACK A LIGHT

Keepers of Hog Island Light Kill Geese and Ducks by the Hundred.

One of the keepers of the Hog Island light on the Virginia coast relates a remarkable experience with wild fowls at that light on a recent night.

Between 7 and 8:30 P. M. the watch on duty was aroused by the "honking" of wild geese and brant, accompanied by the crash of breaking glass. He hastily summoned the other keepers, who responded with shotguns. They opened fire on the bewildered birds with every gun. The battle lasted for an hour and a half. The guns got so hot that it was dangerous to use them and the shoulders of the men became sore from the recoil.

The supply of ammunition gave out and the fight ended. In the morning there were sixty-eight dead brant, geese and ducks at the foot of the tower. On the following morning the tower was again attacked by the birds. There being no stock of cartridges on the island, the guns were useless, but the keepers fought with sticks and captured 150 fowls, when a flock, apparently containing thousands, rushed upon them. They were compelled to seek shelter within the tower. So powerful was the flight of the frightened geese that the wire screens were penetrated, the light in the watchroom extinguished and the panes in three windows destroyed. These fowl had taken wing because of the severe weather prevailing upon their feeding grounds and were blinded by the intense glare of the powerful light in the top of the tower.

Hog island light marks one of the most dangerous shoals on the Virginia coast. It is an iron tower and stands 180 feet above mean high water. It is a first-class light and can be seen from the bridge of a steamer a distance of about twenty-five miles.

The Irish-American German.

"I came across a colored man who spoke with a German accent the other day," said a prominent stock broker "I dropped into a restaurant not far from the city hall for lunch, and the waiter who took my order, although unmistakably a colored man, spoke as though he had just come from some Pennsylvania Dutch settlement up the State. The thing was so pronounced that I spoke to the proprietor about it, and found that my suspicions were correct. The man was a full-blooded negro, but he had been born and raised in a small town near Reading. and had always associated with the whites, who spoke Pennsylvania Dutch. Queer, isn't it?" "Oh, I don't know," said one of the party, whose business takes him through the West. "A short time ago I came across a German who spoke English with a decided Irish brogue. He was an educated young fellow, a graduate of a German university, and he was very anxious to learn English. He drifted out to Chicago, and from there to a lumber camp up in Wisconsin. Here, he thought, would be an excellent chance to learn the language. But all the men in the camp were Irishmen. Of course, the young German didn't know this, and he fell readily into their mode of speech. At the end of a year he returned to Chicago, very proud of having mastered our tongue, and was greatly surprised to discover that he had a brogue. That was several years ago, but he has never lost it. It clings to him as closely as though he had been born in County Antrim."—Philadelphia Record.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen Cronje's Army, here are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits Enormous success. One agent sold 63 in one day. THE SECRET OF EXPRESSION

Various Things That Help to Make a Woman's Face Attractive.

Many of the most fascinating women of history have been without a single beauty of feature. Therefore their attraction must have depended on expression, either inborn or acquired. Its subtleties depend as much on temperament as on education. A perfectly irregular face is sometimes magnetic by reason of its animation and earnestness.

Irregularity of that kind is preferable to a beautiful and immobile countenance that smiles perpetually like an everlasting blue sky. There is only a hair line between repose and stagnation and one is as pleasing as the other is dull.

It is the quality, rather than the quantity of the mind that affects expression. Excessive brain work is detrimental—it strains and contorts the features, tightens the lips, wrinkles the forehead and dulls the eyes, but on the other hand where beauty is absent a certain amount of brain work will add it to the face for the eyes gain depth and earnestness, the nose becomes determined, and the shapeless lips and jaws grow powerful. Expression to be really beautiful must correspond with and enhance the individuality already expressed.

Violet temper renders the eyes dry and staring, making them devoid of that clear serenity which is so charming. Concentrated thought and pessimism, jealousy or discontent, deprive the mouth of its mobility and compress the lips to a thin line in time. Cynicism has a lasting effect on the corners of the mouth.

No matter how ugly a face is, it may come to possess rugged grandeur and homely sweetness, but neither of these is to be obtained by those who frivol, vacillate or have no appreciation for the higher things of life and the larger emotions. A pretty expression, a poor mind and a shallow heart cannot add to the expression of a face.—Chicago News.

A True American.

He was one of the most peculiar characters of the many who lived in the woods of the Northwest, was John Bordine, and most of all he was a squaw man. His wife was an old Pottawatomie squaw, and it was very hard to believe that a man like Bordine, with a college education and the refinement of a good family, could live with such a person, but he did live with her until he died, and they seemed to be much more contented than many apparently more congenial married couples. John Bordine was a foreigner, but he had adopted America first as his home and then as his own country.

There were plenty of persons who said that he laid claim to being an American because he believed that as an American he could sell more skins and could more easily collect bounties paid for wolves, etc.

It was in the spring of 1880 that sentiment against John Bordine, the squaw man, changed. There was away north of the Menominee reservation a soldier buried. Above this grave John Bordine planted an American flag, a very curious emblem, but it was the nearest approach to the Stars and Stripes that Bordine's limited wardrobe and that of his squaw wife could furnish. Bordine had taken a part of his squaw's old, faded blue gingham skirt. This he made into his flag, as the field of stars, and the stripes were alternate stripes of white linen and red flannel.

A hunter found the flag floating over the grave, and it was Bordine's squaw who told him how it was placed there and how Bordine had fired his gun three times over the grave, and then the hunter knew that the squaw man had remembered what he had forgotten, Memorial Day. Bordine refused to take any credit for his act of patriotism, and to the day he died longed for a chance to fight for his new country. He is dead now, and on a plain headstone is written, "Here lies John Bordine, a patriotic American."

Bees Leave Town by Train.

A great swarm of bees made their appearance one morning on Canal street and for a time practically took possession of the "starter's stand" at the corner of Bourbon and Canal streets. Starter Hodge is unable to say from what direction they came, but volunteers the statement that they made themselves perfectly at home while his guests. For a time he was apprehensive lest he might be compelled to "shut up shop," but it soon developed that the mission of the little insects, whatever else it might be, lay not in the direction of harm; so that Mr. Hodge's attention to business was uninterrupted, and the bees, while attracting a great deal of attention, were not molested. Indeed, they commanded the perfect respect of everyone.

Later the honey-gatherers boarded the West End train in a body and went to the lake, where they probably colonized. For a time their presence on the cars made the passengers somewhat nervous; but when it was explained by the conductor that the bees were harmless unless attacked, conditions improved and confidence was restored.—New Orleans Times-Democrat.

Wire Nails and Old Nails.

Careful experiments made at Cornell University are said to show that: "First, cut nails are superior to wire nails in all positions; second, the main advantage of the wire nail is due to its possessing a sharp point; third, if cut nails were pointed they would be thirty per cent. more efficient in direct tension; fourth, wire nails without points have but one-half their ordinary holding power; fifth, the surface of the nail should be slightly rough, but not barbed—barbing decreases the efficiency of cut nails about thirty-two per cent." The pointed end enables the nail to enter wood without breaking its fibre excessively, thus preserving its grip. A serious defect of wire nails is their readiness to rust. They are made generally of a sort of soft steel, and steel rusts more readily than some other forms of iron. In some parts of the country, it is said, shingles put on with wire nails drop off after six or eight years.—Baltimore Sun.

SIDE VIEWS OF LIFE.

The man who makes a fool of himself usually turns out a good job.

The average wife knows the prick of conscience is productive of pin-money.

A woman who suffers untold agony is an exception to the rule.

As an aid to cutting one's eye-teeth a gold brick is more effective than a rubber ring.

A WONDERFUL
KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

I. A. HOPKINS.

BRIGHT'S DISEASE,
GRAVEL, DROPSY,
And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 53 years of age, and am very grateful for what Alkavis has done for me.
Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor Religious World, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excreted lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and request at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. [illegible] Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

PRICES AND TERMS

PRESENT PRICES—We are now selling our fully paid and non-assessable TREASURY SHARES at [illegible] cents per share, in blocks of 100 shares and more; 100 shares, [illegible]; 1,000 shares, [illegible]; 5,000 shares, [illegible]; or 10,000 shares or more at the same rate. Send your order right NOW, before the next advance, as you will soon pay a higher price. Investors are rapidly investing with us.

TOWN AND COUNTY NEWS

None Better on the Market.

We call the attention of our readers to the advertisement, which appears in another column, of The Wonderly Gold Mining Company. This is a proposition which is worthy of the attention of investors. The stock will go like hot cakes, so that no time should be lost in making application.

Saturday Market

There was a good market Saturday. Prices were,—Beef, $4.50 to $6.50 per cwt.; pork, by the qr., per lb., 7 to 8c.; dressed hogs, per cwt., $6.25 to $6.50; chickens, per pair, 35c to 50c; eggs, per doz., 17c to 20c; butter, fresh, per lb., 23 to 26c; ducks, per pair, 65 to 75c; geese, each, 60 to 70c; turkeys, 65c to $1.25 each.

A Re-Count

The name of Mr. Joseph Jones, of the Wm. Hamilton Manufacturing Co.'s shops, was accidently omitted from the list of candidates in the report of the Times' voting contest on Saturday. The citizen who sent in the ballots demanded a recount, with the result that Mr. Jones has 14 votes to his credit for aldermanic honors.

An Active Mayoralty Campaign

An active Mayoralty campaign is promised in Peterborough. The candidates already in the field are Messrs. J. B. McWilliams and T. H. G. Denne, with strong probability that Mr. Adam Dawson will also be a candidate. This is a good sign, for an active Mayoralty contest also means competition for the Council.

Keep on Pumping.

Some newspaper "ads" bring immediate results, while in other cases time is required to reap the full benefit of advertising. It all depends on the character of the advertised article and the needs of the readers. An experienced business man writes to the Mail Order Journal that "a good many advertisers let up just when the fruit of their labor is about to be realized," and that "it pays to keep on pumping." Everybody reads the Times.

Lively Lakefield

The Cement Works are making progress now, after being considerably hampered by the recent bad weather. The managers expect to have the main building roofed in very shortly.

The life-motion picture entertainment on Thursday evening, under the auspices of Court Lakefield C.O.F., was largely attended and much appreciated by the audience.

—Mrs. A. M. Tanner, owing to failing health, is closing out her grocery business.

—Mr. A. J. Kidd's new residence is rapidly approaching completion.

—The Curling Club will hold a meeting next Friday for organization.

—The Strickland Canoe Factory commences building canoes this week. Orders for a large number of canoes for the English trade have been received, and the indications are that the factory will be kept busy during the winter.

—Mr. T. Wigg, from Algoma, is visiting friends in the village.

—The annual return Rugby match between Port Hope school and the Grove was played on Saturday afternoon.

JOTTINGS ABOUT TOWN.

—The ladies of the Board of the Y.W.C.A. are requested to meet this afternoon at 3.30 as an important matter is needing their immediate consideration.

—The congregation of St. Andrews Presbyterian church, Campbellford, has subscribed $1,400 up to date towards the Century Fund, with quite a number yet to be seen.

—Rev. Mr. Bastow, of Murray street Baptist church, exchanged with Rev. Mr. Marshall, of Cobourg, yesterday, and this evening also delivers a lecture there, upon "The Advantage of the Church in the community."

—A local delivery wagon and a rig, in charge of Mr. Thomas Whibbs, of Douro, collided Saturday morning on Simcoe-st.. Mr. Whibbs received a severe shaking up, while some damage was also done his rig. The other party suffered no inconvenience.

MARRIED

MORTON—O'HARA—At the residence of Mr. Wm. O'Hara, Cavan, on the 21st inst., by Rev. R. Macknight, B.A., Mr. Lewis J. Morton to Miss Mina O'Hara.

A Soldier's Return

The Norwood Register says,—"Private George E. Fleming, one of the Norwood boys who went to South Africa with the mounted troops in January last, and who, since his return about three weeks ago, has been visiting his parents at Cobourg, came to town last Friday evening to spend a few days with friends. He was met at the station by a number of citizens and warmly received. As his coming was only known a few hours before and as the other boys are expected home shortly, it was thought best to defer any public reception till they arrive, when Pte. Fleming will also be present. During his stay in town he was the guest of Mr. D. A. Frazer."

SENSIBLE TEMPERANCE.

A Word to Temperance Ladies.

It is universally admitted that temperance women work for their cause with a desire to make life happier; that is, intemperance in drink causes an immense amount of misery in human life, and the temperance movement is an effort to replace this misery with happiness, peace, and comfort.

Many temperance women make the mistake of going at the subject hammer and tongs and proposing to force people to believe their way. It is far better to exercise a broad charity and take the position that one's own peace of mind and happiness, not only of the individual, but of the family and friends, depends upon sensible habits of life.

A very much greater foe to human happiness, than whiskey, exists, and it will startle many an honest temperance worker when the name of that foe is given. It is spelled c-o-f-f-e-e. "I don't believe it," some ardent temperance worker says, who is really a slave herself to the coffee cup.

Cast your thoughts among your sick friends, nervous, irritable, broken down women whose homes are anything but peaceful homes because of the irritation and friction brought about by their physical and mental condition. In ninety-five cases out of a hundred, the nervousness, irritability, dyspepsia, kidney trouble, female troubles, and various diseases which such people are subject to, come directly from a broken down nervous system, brought about by the daily use of coffee. Careful chemical analysis proves this statement to be absolutely true and personal experiment will prove the same to any one who cares to make it.

You may have a few friends who are made miserable by whiskey, but you have scores of friends whose lives are made miserable, as well as the lives of their families, by the use of coffee. Hard to believe, isn't it? Many of the most profound truths are not accepted by humanity when first brought to humanity's attention, but they are truths, nevertheless.

Try for yourself reader. Leave off coffee altogether and start in with Postum Food Coffee, which can be obtained at any first-class grocery store. You will find with ten days an improvement in the sum total of happiness for yourself and for your friends about you. Life will take on a new aspect; strength, vigor, and vitality will begin to come back for your use. You can do things that you have heretofore been unequal to. You can accomplish something in the world, and you can quietly and without ostentation become a most efficient worker in securing to humanity that peace, content, and happiness that we are all seeking.

HANDLING DYNAMITE.

Editor Morning Times.

Dear Sir:—

The development of the mining industry in Ontario and the consequent extension of mining operations have led to a largely increased use of dynamite and kindred explosives. Too often those dangerous substances have been handled carelessly or recklessly or by men unacquainted with the safest and most economic methods of using them. The result has been an undue number of severe and fatal accidents as well as waste of material and greater cost of working. In order to disseminate as widely as possible a better knowledge of explosives and their employment and thus reduce the risk to the working miners of the Province and promote efficiency of blasting operations, the Bureau of Mines has just issued a pamphlet of 126 pages dealing with this important subject. The author is Prof. Sourtenay DeKalb of the Kingston School of Mining, who is also Inspector of Mines for Eastern Ontario.

The Commissioner of Crown Lands is taking steps to place a copy of this work in the hands of every mine and quarry manager, captain and foreman in Ontario, free of charge, in the hope that a perusal of its contents may lead to a diminution in the number of accidents resulting from the case of explosives. Other persons on application to the undersigned.

Yours very truly,
Thos. W. Gibson,
Director.

SOCIAL AND PERSONAL.

—Mr. John Lang, M.P., was in town Saturday.

—Hon. J. R. Stratton was in town over Sunday.

—Miss Mary Rose, of 400 Downie street, is spending a few days in Troonto.

—Miss M. H. Pollard is visiting friends in Cobourg, prior to her departure for Chicago.

—The Times had a friendly call on Saturday from Mr. George B. Hilliard, of Lakefield.

—Miss Maud Staunton left on Thursday for New York, where she enters St. Luke's hospital to train as a nurse.

—Mr. George Nicol, of the Montreal branch of the Merchants' Bank, is in town on a few weeks' visit to his mother.

Toronto Saturday Night:—Miss Rogers, of Peterborough, comes down on Monday on a visit to Carlton Lodge.

—Mr. Ernie C. Merrifield, night operator of the Bell Telephone Co. here, has been promoted to Napanee. He left on Saturday evening for that place.

—We very much regret to learn that Mr. D. C. Macdonald, of London, who with Mrs. Macdonald and child are registered for the winter at the Craig House, Lakefield, is not improving. He is confined to his bed. His many friends will hope for his speedy restoration to health.

Low Water

On account of the low water in the river, the steamer Eclipse was obliged to land her passengers and freight at Ashburnham wharf on Saturday. There is work for the government dredge in the river at the town wharf.

A Novel Window

The window of Messrs. R. Brown & Co., grocers, has attracted considerable attention during the past few days. The decorations represent a church made with fruit, and is handsomely illuminated at night. It is very pretty, and reflects much credit on the artist.

The Engineering Club

The next meeting of the Engineering Club will be held in the Y. M. C. A. tomorrow at 8 o'clock p.m. Mr. C. E. Brown, of the C. G. E. Co., will read a paper on "Storage Batteries." All members are requested to be present to take part in the discussion.

Hockey Meeting

Hockeyists are reminded of the annual meeting of the Peterborough Hockey Club, which will be held in the rink parlors to-morrow evening at 8 o'clock. The club is a little late in organizing this year, but will no doubt make up for lost time once they get in shape. Let there be a full attendance.

Death of Mr Alex Patterson

We regret to chronicle the death of Mr. Alex. Patterson, an old and esteemed resident of Otonabee, which sad event occurred at the family residence, Otonabee, on Friday last, after a lingering illness. The deceased was sixty years of age, and leaves a wife and family, of 6 boys and 2 girls to mourn their loss.

How are your Nerves?

If they are weak and you feel nervous and easily "flustrated," can't sleep, and rise in the morning unrefreshed, your blood is poor. Strong nerves depend upon rich, nourishing blood. Hood's Sarsaparilla makes the nerves strong by enriching and vitalizing the blood. It gives sweet, refreshing sleep and completely cures nervous troubles. Begin taking it to-day.

Nausea, indigestion are cured by Hood's Pills.

"He That Stays Does the Business."

All the world admires "staying power." On this quality success depends. The blood is the best friend the heart has, and "faint heart" never won anything. Hood's Sarsaparilla is the best friend the blood ever had; it cleanses the blood of everything.

If you would be strong in the race of life and "do the business," you must "stay." Hood's Sarsaparilla makes the struggle easy. It gives clear, strong blood; hence perfect health ensues. *It never disappoints.*

Stomach Trouble—"I had pains in my sides and kidneys. Stomach and liver troubles caused my distress. I had doctored without avail and used many medicines unsuccessfully. My sister advised Hood's Sarsaparilla and in a short time it cured me. I am now stronger and sleep better. I shall never be without Hood's Sarsaparilla in the house." MRS. FRANCER, 289 Ossington Avenue, Toronto, Ont.

No Strength—"My whole system was run down. I was weak and could hardly get around to do my work. I began taking Hood's Sarsaparilla and after using five bottles I found that my strength had returned and appetite much improved." MRS. KELLEY, 318 Dufferin St., Toronto, Ont.

Hood's Sarsaparilla
Never Disappoints

Hood's Pills cure liver ills; the non-irritating and only cathartic to take with Hood's Sarsaparilla.

SHELLED A BOER LAAGER

General Clements Inflicts Eighty Casualties Upon the Burghers.

New York, Nov. 26.—Horses to the number of 50,000 are to be purchased in this country in the next six months by agents of the British Government for the use of Lord Kitchener's forces in policing the Transvaal and Orange Free State. This news has been announced by John S. Bratton, of St Louis, who has supplied directly and indirectly to the British army in the first two years many horses suitable for cavalry use.

SHELLED A BOER LAAGER.

Pretoria, Nov. 26.—Before the departure of Lumsden's Horse for India Lord Roberts sent a message to the commander regretting the fact that he was unable to review the men before they left, stating that he had sent a cablegram to Lord Curzon, the Viceroy, expressing his appreciation of their admirable work. About 120 of the troops sailed for India from Cape Town the other day. Thirty others have accepted positions on the Transvaal police force, and twenty-four have received commissions in the army.

News has been received from Reitfontein that the shelling by General Clements of a Boer laager near Heckpoort resulted in eighty casualties to the burghers. The Reitfontein garrison captured twenty-eight Boer "snipers," who have been occupying a bridle path in the Magaliesburg range.

Johanna Olenbrander, of Buluwayo, has arrived to raise a regiment of a thousand men. He will start on his return to Buluwayo to-morrow.

FRENCH SENDS OUT A COLUMN.

Johannesburg, Nov. 26.—Gen. French sent a column through Kilpriversburg yesterday. A party of about forty Boers fell back on the approach of the column. Only a few shells were fired.

The Boer patrol visited Brakpan on Saturday and carried off all the horses. Officers at headquarters say it will be impossible for refugees to return here for several months.

The sentance of death has been passed on an Italian named Dell, who took the oath of neutrality and then joined a commando and killed two members of the Compton's Horse.

Miss Roberts is progressing very favorably.

WHAT KITCHENER WILL DO.

London, Nov. 26.—British veterans in the comfortable corners of the military clubs in London sum up the situation in South Africa in their own way. They consider that the war has been over for some time, but that this truth has not been recognized by Lord Roberts, since he continues to issue long bulletins day after day, which are posted at the War Office and transferred to the newspapers. Some of the most astute officers in London regard this as a serious mistake. They assert that Lord Roberts should have proclaimed a state of peace and returned to England as soon as Komati Poort was occupied. They state that the police will be abandoned as soon as Lord Kitchener secceeds to the command, that there will be a proclamation stating that the Dutch territories are completely occupied and at peace, and that there will be a suspension of the daily bulletins from headquarters, recording petty skirmishes and insignificant acts of brigandage which cannot be classed as incidents of real warfare.

KITCHENER'S INTENTION.

These verterans, whose opinions I am quoting, predict that there will be an immediate shrinkage of news from South Africa when Lord Kitchener is in the saddle; that there will be an unbroken silence from headquarters, and the closing operations of the campaign will not be recored in the daily papers. Such police work as remains will pass without observation, and the Boers themselves will be convinced that the was is at an end when they precoive that there is no longer any notice taken of what goes on. These comments and forecasts come to me from trustworthy military sources, and represent the growing feeling of impatience among the veterans over the continuance of a campaign of which the whole country is weary unto death.

KITCHENER'S PROMOTION.

A proclamation has already been printed appointing Lord Kitchener to the Commandership-in-Chief of the British forces in South Africa in succession to Lord Roberts, but owing to the postponement of the departure of the Field Marshal for home it has not yet been made public. The proclamation will be issued immediately Lord Roberts can fix a definite date for his return. It is expected that he will relinquish the command about December 20th, and in the event of Lord Methuen not coming back until the operations are finished it is said that Lord Kitchener will receive the temporary rank of general, in addition to substantive one of lieutenant-general.

OPENS TODAY

The Peterborough Poultry Show in the Market Building

The annual show of the Peterborough Poultry Association will open to-day in the market building. It will continue until the night of the 29th. The show promises to be a great success. There are over three hundred entries, and twenty-five exhibitors, a number of whom come from such distances as Hamilton and London.

To-day the coops for the birds are being placed in position.

Following are the names of exhibitors:—

F. J. Lund, John Layes, H. MacKay, H. Rush, jr., H. Snowden, W. Mann. A. Head, W. ead, A. Bennett, H. T. Lush, A. Parker, T. H. Goldey, S. T. Milburn, J. Howland, E. White, of Peterborough, F. H. Brechenridge, of Warkworth; H. V. Cosh, Bobcaygeon; W. Stewart, of Menie; N. D. McPhil, Hamilton; W. Brethern & Son, Norwood; C. H. Curtis, London; Cullis & Lean, Pouhes Corners; Jas. Steele, Villiers; T. J. Sheridan, Oshawa.

FREIGHT TRAIN CRASHES INTO A BRIDGE GANG

Bridge Foreman Killed and Two Others Badly Injured.

Winnipeg, Nov. 26.—At Blairmore Station, on the Crow's Nest Pass line, a few days ago John McDiarmid, bridge foreman, was killed and two others badly injured. The bridge gang's train of four cars was standing on the main line when a freight train, without, it is said, the least warning, crashed into the rear end. The rear car was hurled right into and on top of the next car, in which was McDiarmid, he being inextricably entangled in the wreckage. Before he could be removed the material took fire and the onlookers were horrified to see the body burning, though there is little doubt that the man was dead before the flames reached him. Chee Foo had his spine badly injured and John Chietty was severely burned.

3000 CHINESE FLED

And a Battalion of Chinese Imperial Soldiers were Disarmed.

Berlin, Nov. 27.—A despatch received today by the Navy League says Col. Yorke's column reached Calgan about one hundred miles northwest of Pekin, November 18th. The Chinese troops, numbering 3,000 men fled. A battalion of Chinese soldiers was disarmed.

UNFRIENDLY TO THE TURKS

Why the Sultan Refused a Permit to a United States Consul

New York, Nov. 26.—The Constantinople correspondent of The Berliner Tageblatt, says a Herald despatch from Berlin, states that the reason why the Porte refused a passport to the newly appointed United States Consul at Harpoot is because when a missionary he showed himself unfriendly to the Turks and spread untrue stories about massacres. The consul, however, in spite of the decision of the Porte, will leave for Harpoot to take up his new duties.

As the American battleship Kentucky is on her way to Smyrna, it is extremely probable that the Porte will give way.

Sub-commissioner Jenner Murdered

London, Nov. 27—It was officially confirmed to-day that sub-commissioner Jenner was murdered during a night attack made on his camp by professedly friendly natives, about November 18.

HANGS BY A THREAD

The Pope's Days are Almost Numbered—Doctors in Constant Attendance

Rome, Nov. 26.—In spite of all denials, official and otherwise, it is certain that the life of Leo XIII. hangs literally by a single thread, and that his death may be expected at any moment. He has become so emaciated that he looks a mere spectre. He can no longer walk unassisted, but spends the greater part of the day lying on a couch, and is unable to take or retain any solid food.

His medical attendants have taken up their residence at the Vatican, and take it in turns to remain constantly with the aged Pontiff by night and by day, while his body servant, Centra, never leaves his side, even taking his meals in the private apartments of the Pope. Centra is a tall, powerful man, clean shaven like an ecclesiastical dignitary, and invariably arrayed in full evening dress with white tie. How constant is his attention upon his aged master may be gathered from the fact that even during the private audiences which the Holy Father still accords he remains in the room behind a screen.

POISONED WITH BEER

Manchester Citizens Dosed With Arsenic—Many Deaths Result

London. Nov. 26.—Ever since last summer the residents of Manchester have been suffering from a mysterious madlady, thought to be peripheral neuritis, and only recently has it been discovered that the disease affected only beer-drinkers. An analysis of the beer manufactured by local breweries revealed the fact that there was sufficient arsenic in the liquor to cause poisoning. It was further ascertained that the poison is contained in the sugar used in brewing the commoner beers.

There were over 1,000 cases of this poisioning reported and many deaths have occurred.

COAL DISCOVERED NEAR GOLD FIELDS

Thick Veins of Lignite and Bituminous Coal Found Near Alaskan Towns.

Minneapolis, Minn., Nov. 26—A special to the Times from Washington says,—

Coal outcroppings have been traced 17 miles along Chignik bay, 325 miles this side of Unimak Pass, Kalaska. Claims covering the best part of the vast deposits, have been filed by miners employed by Thomas Magom. The manager of the Apollo Gold Mines at Unga says the veins uncovered to date are four and a half, five and nine feet thick, comprising excellent lignite and bituminous coal. In the spring diamond drills will be employed to determine the depth and quantity of deposits and development will commence on a lareg scale. The veins are situated near Tidewater, and only five miles distant is a sheltered harbor, where steamers or sailing vessels can load in safety. The deposits are so large as to make certain a permanent supply for Alaskan towns. This alone will affect the Pacific coast coal supply.

India Unprepared for an Emergency

Calcutta, Nov. 27.—An experienced Indian officer describes the present military situation in India as one of general unpreparedness for any emergency which exists in the British Empire. The officer insists that at the present moment India would not be in a position to cope with any great struggle that may be sprung upon her without warning. He says her armaments are hopelessly inadequate and very largely utterly obsolete. He adds that the transport arrangements would break down absolutely in face of a European enemy.

Troops Healthier Under Canvas

Shanghai, Nov. 27.— Much feeling has been manifested here because the British troops at this point are at a disadvantage in being kept under canvas while the troops of the Allies are housed. General Creagh, however, thinks that the British troops are better off under canvas. Their general health has been above the average, while in the whole force there have been only 13 cases of fever, which is a much lower percentage than among the civil population of Shanghai. The General has full powers to engage quarters for the troops should he deem it advisable.

THE WONDERLY GOLD MINING COMPANY, Limited

CAPITAL $1,000,000, Divided into Shares of $1 00 each.

Incorporated under Ontario Laws. Non-assessable.

This Company was formed for the purpose of purchasing and working seven gold claims on the Saskatchewan river, near Edmonton.

These claims have been worked some, and in the summer of 1900 D. F. Loveland, the former owner and president of the Company, had a dredge at work, and although only able to handle 200 yards of earth per day, there was from $30.00 to $50.00 of gold taken from that amount of earth daily, and thus demonstrating beyond doubt the great value of these claims.

The Company proposes to purchase one of the Risdon dredges, with a capabity of 2 500 cubic yds. a day.

The expense of running such dredge will be about $175.00 per week, and even if the dredge handles only 1.000 cubic yards a day, in six days, there will be taken out $1,500 00 worth of gold, with a profit of $1,325.00 in one week.

Sufficient stock will be sold at 25 cents per share to raise money to purchase the necessary dredge, after which the books will be closed and no more stock will be offered for sale.

There is no gold proposition on the market to-day equal to this one.

Application for stock can be made to any of the Directors, or to the Secretary, or to W. T. McNeil, broker, St. Catharines.

OFFICERS:

PRESIDENT—D. F. Loveland, capitalist, Galena, Illinois.
VICE-PRESIDENT—Arthur P. Forster, mechanical engineer, Welland.
TREASURER—Dr. T. G. Wonderly, Galena, Illinois.
SECRETARY—L. Clarke Raymond, barrister, Welland, Ont.
BANKERS—The Imperial Bank of Canada, Welland, Ont.

THE DIRECTORS are: The President, Vice-President, Treasurer, S. H. Glasgow, physician, Welland, and W. T. McNeil broker, St. Catharines, Ontario.

Subscriptions payable 25 per cent, on application, and 50 per cent. in two months.

Brokers desiring to handle stock in this company will please communicate with W. T. McNeil, official broker, St. Catharines, Ont.

SOLICITORS—MESSRS. RAYMOND & COHOE, WELLAND, ONTARIO.

A SMALL SENSATION AT THE CAPITAL

A Former Member of Lord Stanley's Family in a Divorce Suit.

Ottawa, Nov. 27.—Goaded to desperation, she says, by the cruelty of her husband and his alleged relations when one of her servants, and finally by a threat, which she charges him with making against her life, Mrs. Jeann Louise Mouquin of New York, but formerly an Ottawa lady, has begun suit for a separation from her husband, Henri Frederic Mouquin.

Mrs. Mouquin placed her case in the hands of A. H. Hummel, who has brought an action in the Supreme Court for a separation in her behalf on the ground of cruelty and desertion on the part of her husband.

Mr. Mouquin is represented by E. T. Lovatt, who has instituted an action in the Supreme Court of Rockland county for a divorce from Mrs. Mouquin, alleging infidelity on her part with Leon L. Chevanney at their residence at Nanuet and other places. He also asks for the custody of their only child, Henry L. Mouquin.

Leon L. Chevanny, the correspondent named in Mr. Mouquin's suit, was formerly superintendent of his poultry farm at Nanuet. Mr. Mouquin had, he says, suspected his wife, but it was not until he was convinced of her misconduct that he left her.

In her petition to the Court she says she was married on June 7, 1893. Prior to that she was employed by Lord Stanley, the Governor General of Canada, as directress of the education of his daughter, Lady Isabel Stanley, at Rideau Hall, Ottawa. Her position was one of honor at the Vice Regal Court and gave her entree into the best society in Ottawa.

She had met the elder Mouquin in France, being introduced by her father, and while on a visit to this city, in March, 1892, called at his restaurant.

It was then that she met her future husband. She dined with the family a day or two later. The young man paid her considerable attention, and she told him she was married, although separated from her husband, Guillaume Charles Ami, and that she had two children, who were then with their uncle in Canada.

At Mouquin's suggestion, she says she went to Fargo, N. D., and obtained an absolute divorce from her husband, who she ascertained, has since remarried. She returned to this city, and was married to Mouquin.

Mrs. Mouquin, who now lives in New York, is an attractive woman, about thirty years old with Titian hair and bright blue eyes. She said yesterday that the charges made in her husband's suit are false.

A TRUTHFUL FISHERMAN

Carved Outline of a Fish on the Bark of a Tree and it Grew With the Tree.

"Nature will not tell a lie," said the Muskoka man, at the close of a long story which the visiting hunters had been telling him about their adventures with deer; "but she knows how to convey something which isn't true as well as—as well as anybody. I remember when nature was a great help to me at a time when I needed aid badly.

"I was raised right here on the shores of Muskoka Lake. Before I was ten I had brought many good messes of trout home and helped to eat them, too. The day I bought my first jacknife I caught an old whopper. It was the biggest square-tail I had ever seen. Wishing to use my new knife and to preserve the memory of the fish I took the trout to a large beech tree which grew near the clearing and pricked the outlines of the trout on the smooth bark. Then with my knife I cut deep grooves along the tracing, making a record that would last for years. The pictured fish was an exact counterpart of the one I held in my hand, the dorsal fins being on top, the ventral fins below, and the head, with two holes in the bark to represent eyes, to the left hand.

"'There,' I said, 'if anybody calls me a liar I have proof of my veracity that no reasonable person can dispute.'

"My people moved to Toronto soon after, so I had no chance to make proof of my skill as an angler, but as I grew up and my associates began to brag about the size of the fish they had taken, I was compelled to tell them of the trout I had wrested from Muskoka Lake. I am very certain that I told the truth for the first two or three years. My memory is bad, and I cannot be relied upon to tell the same story twice in succession unless it is a true one. Beyond this statement of fact I will make no defence.

"But as the years passed and the art of telling fish stories gained in popular favor, the fifteen inch trout I caught gained according to the demands made upon me by my hearers. For the first ten years it never exceeded twenty inches in length and did not reach those figures unless I was in company that had great talent as fishermen. But at the end of twenty years I never thought of making my boyhood fish less than two feet, sometimes extending it to twenty-six inches. Then to prove my assertion I would say,—

"'If any of you gentlemen doubt my word, I'll take you down to a beech tree on the east shore of the lake and show you the outline of that fish, which I carved in the bark at the time I caught it a score of years ago.'

"Of course they thought I was bluffing and I was sometimes afraid they would take me at my word, but they had heard too many yarns of a similar character to take the trouble of hunting them up. Things went well with me until after I had come back to the old home place to live. I had been here six months or so when one of my old chums dropped in on me. I was glad to see him. He hadn't been here two days when he wished me to show him the tree that held a portrait of the enormous fish I had captured.

"Let me see," said he in an aggravating tone; you told use the outline was twenty-six inches long, if my memory serves me right."

"The fact is I had never given the artistic labors of my boyhood a thought since my arrival. His prompt request for visual evidence came and found me wholly unprepared. But I was in for it, and I lead him out across the hills to the pasture, hoping and fondly believing that time and healing processes of nature had obliterated all signs of my labors. But I was doomed to be caught. We saw the scars showing up plainly twenty rods away. My friend had taken out his rule.

"Go ahead and measure for yourself," I cried. 'I have been termed a liar too long. You have asked for proof, and now you are going to get it, all you want of it.'

"My courage increased as we drew near. The wound had healed, but the green-gray bark held light-colored tracings of some kind of flesh. To my delight these outlines had spread out and widned with the growth of the beech making a rude portrait of a larger trout that was ever caught in Canada. The drawing, I remembered, reached half way around the tree when I put it on. That was when the tree was no more than eighteen inches in diameter. Now my drawing covered half the tree's circuit, but the tree was fully three feet through, and the fifteen inch trout of my childhood was two feet and a half long, fully four inches beyond my greatest tale.

"McFarlane,' said my friend, taking me warmly by the hand, 'if I had not measured it for myself, I couldn't have believed it. You are the first truthful fisherman I have ever met."

Uneasiness in Great Britain

England Very Anxious Over the Intolerable Situation on the Dark Continent.

New York, Nov. 27.—The Herald's London correspondent, cabling to-day says: —"I give no opinion of my own, I simply state a fact, when I say that the prorgess of events in South Africa causes much anxiety.

"The enormous cost of reducing the Republics to submission is not the chief ground for dissatisfaction. Most wars turn out a good deal more expensive than those who made them thought they would be. The Egyptian expedition of 1898 is, perhaps, the only modern instance to the contrary.

But people are asking themselves what is to come of it all. Burning farms and laying a fertile country waste is not soldiers' work. No soldiers detest it more than our own. The defence of these harsh measures is that they are necessary to procure the submission of the Boers. Will they ever submit to the loss of their independence? A nation that has been thoroughly defeated in war will agree to almost any terms, but there are terms to which no nation will submit. Perhaps extinction of the national existence is one of these.

But the Boers and Free Staters are not the only persons to be considered. With them fire and sword must do the work in time. There is the Dutch population of Cape Colony and Natal. They constitute a formidable minority in Natal and an absolute majority at the Cape. They cannot be got rid of. They and their intriguers will have to run side by side when the war is over, when the Boers are crushed and when public opinion in this country is turned elsewhere.

Very few of these Cape Dutch had any sympathy with Krugerism. They regarded it as narrow, rigid, exclusive, intolerant. They do not think there was any justification for the war; though most of them would, if they could, have dissuaded Steyn and Kruger from issuing their ultimatum.

But what is now going on in the Transvaal enters like iron into their souls. Women and children of their own race are being turned out of their homes because raids which they know nothing about have been committed in the districts where they live.

No one has expressed more forcibly than Mr. Chamberlain the necessity for consulting Dutch as well as British opinion in the government of South Africa. He now apparently hopes the Dutch may be put in a political minority by the wholesale disfranchisement of rebels. But this disfranchisement in most cases is to last only five years. The franchise is not everything. A rebel without a vote is not always less dangerous than a rebel with one when the five years are over.

What the public misses in this government of twenty—which might be a government of forty without perceptibly lowering the calibre—is a policy which has some regard for the distant future.

Any fool can annex, as a leading imperialist has said. It takes a wise man to understand that force is no permanent remedy either for lawlessness or for disaffection."

Welland. Ont., Nov. 26.—Early this monring the Welland Electric Light plant was destroyed by fire, covered by insurance of 5,000 in the Waterloo Mutual. There was a strong wind blowing and the efforts of the firemen were futile.

FITZSIMMONS WILL ENTER RING AGAIN

He Intends to Box After the Close of the Theatrical Season.

Toronto, Nov. 26.—Bob Fitzsimmons, the pugilist-actor, who is appearing at the Toronto Opera House this week in his own play, "The Honest Blacksmith," annouynced to-day that after the present theatrical season is ended he will re-enter the roped arena. Fitz has all along declared his intention of remaining out of the ring for good, and the announcement comes as a sort of surprise, though those who know the Cornishman intimately have prophesied that he would never continue in pugilistic seclusion. Fitz is satisfied with his present position, but he intends another try with the five ounce gloves before making his final retirement. He will take on anybody, he says, and bars none.

Fitzsimmons relates an interesting story concerning Champion Jeffries' latest challence to him. He declares that Manager Billy Brady approached him with the suggestion that the match be made for advertising purpose alone. It was to be dropped when the theatrical season closed. Fitz refused to have anything to do with the paper match.

CONDITION OF THE CZAR

Latest Bulletin Says that there is a Distinct Improvement

Livadia, European Russia, Nov. 26—11 a.m.—The following bulletin regarding the Czar's condition has been issued,—

"The Emperor passed a good day yesterday. He was able to sleep a little and had some perspiration. At three o'clock in the afternoon his temperature was 99.3, pulse 76. At nine o'clock in the evening his temperature was 99.5, pulse 72.

"His Majesty passed a good night. He perspired profusely.

"This morning, the August patient's condition was very satisfactory.

"At nine o'clock his temperature was 96.9, pulse 70.

"In the general course of his illness, a distinct improvemant is observed."

Ontario Man Under Arrest

Detroit, Mich, Nov. 26—Fred Murray, aged 19, who said that his home was Galt, Ont., was arrested yesterday on the charge of stealing $20 from Charles Hall, a young farmer from London, Ont., who came to Detroit with Murray last Tuesday. Hall had been paying Murray's board at the Merchants' Hotel. Saturday night he left his room for a few minutes and returned to find his friend had disappeare, with $20 in bills he had left in his pockets. Murray was arrested and the money found on his person.

Killed in a Fight

Minneapolis, Nov. 26.—Leonard Day, a young millionare society man of this city, was stabbed to death in the billiard room of the West hotel early yesterday morning, and Frank H. Hamilton, a Minneapolis newspaper man, was arrested and charged with murder. Hamilton, Day and several other prominent men had been drinking together, when the row occurred, and after the tragedy separated, but were summoned by the police to an inquest held yesterday afternoon None saw the fatal blow struck, but all agreed that Hamilton was the only man with whom Day had been fighting.

[illegible] Patriotism

Ladies of Canada:

While statesmen and politicians argue the Zollverein and differential trade within the Empire (which they will do while jaw displaces common sense), settle this matter for yourselves.

Your brother colonists of Ceylon and India are growers of pure teas, Black and Green. Canadian and United States importers supply you with 11,000,000 pounds annually of Japan teas, yet they know Japans are artificially colored and adulterated. Let the knowledge of these facts and the sentiment of patriotic sisterhood move you to help the British planter.

British-grown Black Teas hold the Canadian market. Drinkers of Japan tea should try the Greens now coming on the market, and your dainty palates will approve them. Yes, we hear your grocer's excuses; but insist. Ladies can always get what they want. Remember how you ran your husband to—well, do they still think it Paradise? They certainly will if you give them Ceylon and India green tea. Blue Ribbon, Monsoon and Salada packets are now obtainable.

PARIS FESTIVITIES TIRED OUT KRUGER

And He Refused to See a Deputation.

HE VISITED PRES. LOUBET

And was in Turn Visited by the French President—How He Spent Sunday.

Paris, Nov. 25—Ex-President Paul Kruger retired to his hotel late Saturday afternoon and declared his intention of receiving no more visitors or deputations until Monday morning. He declined to attend church services on Sunday. After Mr. Kruger had retired to his sleeping apartment in the Hotel Scribe a deputation from the Municipal Council of Paris called to see him and make arrangements for his reception at the Hotel de Ville. Mr. Kruger refused to see the officials, and they left the hotel very much disconcerted at their cold reception. Mr. Kruger appears to be tired completely out.

All day long deputations had been waiting upon the ex-President, including one from the Nationalist Deputies, headed by Mm. Millevoye and Lasies. He afterwards received the Prefect of Police., M. Lepine, and M. De Villebois-Mareuil, brother of the famous French colonel who was killed in South Africa while fighting for the Boers.

At 2.15 p.m., when M. Crozier, Chief of the Proctocole, called, Mr. Kruger was sleeping, but he rose to receive him. M. Crozier announced that President Loubet was prepared to receive Mr. Kruger at 4 o'clock, and the tired traveller prepared himself to visit the Elysee. Just before 4 o'clock a gala landau from the Elysee Palace was driven to the Hotel Scribe, and Mr. Kruger, his interpreter and M. Crozier proceeded to the Elysee, escorted by a strong party of Curassiers. The scenes of enthusiasm of the morning were repeated. Mr Kruger was received at the Elysee with semi-official ceremonies, such as were accorded to the Sovereigns who visited the Exhibition A battalion of infantry, with its standard and band, drawn up in the court-yard rendered the honors. President Loubet received Mr. Kruger in the hall of the ambassadors, where M. Delcasse, the Minister of Foreign Affairs, was also awaiting him. The interview lasted five minutes. The Boer statesman wore across the breast of his frock coat a green scarf with a red border, the insignia of his office as President of the South African Republic. He also wore the Cross of the Legion of Honor.

At 4.30 p.m. President Loubet returned Mr. Kruger's visit. He was loudly acclaimed throughout his drive to the Hotel Scribe, and during his stay there the crowd increased about the hotel and raised the cry of "Vive Kruger" and "Vive Loubet."

At 6.30 Mr. Kruger dined with the members of his family, after which he retired for the evening.

HOW KRUGER SPENT SUNDAY.

Paris, Nov. 26—The ex-President rose on Sunday feeling quite refreshed. He spent the day with his family and received no visitors. The boulevards were crowded to a late hour Saturday night, but the police cordoned the Hotel Scribe so that the visitors enjoyed perfect rest.

After an early breakfast Mr. Kruger conferred with Dr. Leyds. There being no church of his own denomination in Paris he held a private service in his apartments surrounded by his entourage. Mr. Kruger read a portion of Scripture, and a member of his suite read a sermon prepared in advance. The Boer statesman expressed a desire to have an organ to assist the singing, but this could not be obtained.

At an early hour free circulation was resumed in the streets about the hotel, whose only guardians — two policemen — stood on either side of the principal entrance. The number of passersby was not greater than the ordinary Sunday crowd. Towards three o'clock, however, pedestrians increased, and along the boulevard came one hundred shouting and singing boys. Their advent increased the enthusiasm, which was rapidly worked up, and the streets began to fill. Cheers for Mr. Kruger began, and the police immediately established a cordon about the hotel. Several companies of Republican Guards quickly arrived. In half an hour the scene resembled that of yesterday. Responding to cries and plaudits, Mr. Kruger came for a moment upon the balcony, accompanied by his grand-daughters. Again at 5 o'clock the tumult was such that he reappeared, but only for a moment. During the afternoon and earliest evening there was no falling off in the number of spectators. It was ten o'clock before the people had sufficiently disappeared to permit the circulation of carriages.

DIRECTLY TO HOLLAND.

Mr. Kruger will spend to-morrow morning in conversing with the Boer representatives. The afternoon will be devoted to receiving deputations and prominent people who have made appointments. No decision, it is understood, has been reached as to when Mr. Kruger will leave Paris. According to the best information obtainable this evening he will remain here until Wednesday evening or Thursday morning. It is said that he will go directly to Holland, not stopping in Belgium, where he may go later on.

Kruger's visit to Paris has made Krugerism universal as far as Paris is concerned. His portraits line the streets. Boer flags and Kruger buttons are sold by hawkers, and every passerby at the Hotel Scribe is made to raise his hat in honor of the ex-President. The newspapers are addressing flaring appeals to the populace. The Intransigeant contains a stirring appeal to the inhabitants of Paris to assemble one and all to acclaim President Kruger, who honors Paris by his presence. In a flaming editorial the Nestor of French political agitators compares Mr. Kruger to Benjamin Franklin seeking French sympathy for the thirteen colonies in the war of independence.

A GRAND OLD LION.

Ernest Judet in the Petit Journal calls upon all true Frenchmen, French women and French children to "do honor to the grand old African lion, isolated, wounded, bleeding, maimed, who nevertheless does not fear to denounce in Europe British barbarity." The Petit Journal terminates a stirring appeal in behalf of the Boers by the words: "France, by pouring out to-day her most passionate sympathy for the holy cause will revive the virile traditions of our race and the lessons of History."

Morning Times

PETERBOROUGH, NOVEMBER 27, 1900

KRUGER'S RECEPTION IN FRANCE

The unbounded enthusiasm with which President Kruger has been received by the people of Marseilles must be a source of pleasure to him, but the demonstration is one which he may easily misinterpret if he and the other Boer leaders should take this popular outpouring of French enthusiasm as a sign of possible intervention by the French Government they would be in error. The government has taken every precaution to prevent any official participation in these demonstrations. The welcome to Mr. Kruger in France, like that of the Boer envoys in the United States, can mean nothing more than an expression of popular sympathy with an unfortunate country.

Both the French people and the French government are probably thinking more of the British Isles across the channel than of the Transvaal or President Kruger. The people are particularly anxious to show enthusiasm over Kruger because by so doing they indirectly express their dislike for England. The French government, on the other hand, is anxious to take no official notice of Kruger because it wants to keep peace between the two nations, and it knows that an officia espousal of the Boers' cause would be regarded by the British as an unfriendly act. In this sense France is playing to the British galleries. The Marseilles citizens would not assemble in thousands and shout "Vive la liberte" at the sight of Mr. Kruger if it were Russia instead of Great Britain that was conquering the Transvaal. The French enthusiasm is anti-British as much as pro-Boer.

Mr. Kruger's assertion that the Boers would not give up their fight until every man, woman, and child in the two republics is dead must be taken with some allowance. The burghers have fought bravely, but they have too much human nature and good sense to do anything quixotic. When the Boers in the field and Mr. Kruger in Europe alike come to the point where they realize that foreign intervention is impossible, the surviving burghers will give up the hopeless figh and make the best of their ill fortune. The wild cheering that greets Mr. Kruger in France may soothe the wounds of his heart, as he says, but when he encounters the cold, official shoulder at Paris and in all the other European capitals he will see how little this enthusiasm means in a practical way. None of the governments of Europe wishes a war with Great Britain, and this is virtually what Mr. Kruger is asking them to undertake. The French government i acting wisely in holding severely aloof from the popular demonstration on behalf of the Boers.

Depends on Kitchener

New York, Nov. 24.—Referring to the announcement that General Kitchener has been recommended at the Cabinet Council for a lieutenant-generaship, in order to be able to take supreme command of the British forces in South Africa, the Tribune's London correspondent says Lord Salisbury is a firm believer in Kitchener's ability to put an end to the guarilla tactics of the Boers, without erring on the side of leniency.

Meanwhile, Lord Wolseley is again reported to be extremely dissatisfied with the position which he holds as commander-in-Chief without any real authority, and it is said that he will not wait for Lord Roberts' return, but will retire next week.

Respecting Lord Wolseley, a London despatch to the Journal and Advertiser says,—"Wolseley, by his retirement, is going to raise a tremendous storm in army circles by an exposure of who is responsible for the blunders of the African campaign. His friends say he will quit in order to clear himself, having felt that he was being made a scapegoat for the sins of the War Office."

POMPEII AND GALVESTON.

A Comparison of the Disasters that Befell the Two Cities.

Pompei is believed to have had rather more than 20,000 inhabitants. The city stood on an elevation overlooking the sea, the whole of the Bay of Naples being in view, while in the background loomed great Vesuvius, the destined destroyer, close by flowed the River Sarno, which was crossed by a bridge. The volcano was supposed to be extinct, and its sides were cultivated all the way up to the summit. Grapes were largely grown, and wine making was an important industry in the neighborhood, which likewise produced cabbages famous for their excellence.

It was the city of the clan of the Pompeys, founded by the Oscans, an ancient Italian tribe, in the sixth century B.C., or earlier, afterwards conquered by the Samnites, a rival tribe, and eventually absorbed by mighty Rome. The culture of the people was very Greek; they worshipped various Greek gods and used the Greek names for their weights and measures. Being so beautifully situated and having a delightful climate, Pompei was a favorite resort of wealthy Romans, many of whom had villas there. Cicero had a handsome "cottage," as it would now be called, and the imperial family maintained a palace close by. The villas were mostly on the high ground back of the town toward Vesuvius and facing the sea.

Small earthquakes were frequent, but not much was thought of them. On the 5th day of February, in the year 63 A. D., there came a tremendous shock, which was a warning of what was to follow. It threw down a large part of the city, including the beautiful temples of Juniper, Apollo and Isis, but most of the damage was repaired by the time of the great catastrophe.

The eruption which was destined to be so memorable began early in the morning of Feb. 24, 79 A.D. Spectators looking from a great distance saw a mighty cloud spread and overhang the city like a vast and ominous umbrella. There was still plenty of time to get away in safety, and doubtless a majority of the people did escape, before the impending volcanic storm began. Judging from the number of skeletons thus far discovered, it seems probable that not more than 2,000 people actually perished. However, a great number who attempted to leave in boats may have lost their lives.

Admiral Pliny, with a fleet, was not far away, and letters brought by mounted couriers reached him as early as 1 p.m. that day, begging him to come as quickly as possible with his ships and help to rescue the people. He set sail immediately, and, arriving within sight of Vesuvius at nightfall, ran into the rain of pumice that was then falling. It was impossible to make a landing at Pompei, and so he disembarked at Stabiae, where it was hailing cinders at such a rate that during the night he was obliged to leave the room in which he slept for fear lest the door might be blocked up. On the following morning he died, being suffocated by volcanic fumes.

Early in the afternoon of February 24 the hail of pumice began to fall upon doomed Pompeii, the pieces averaging about the size of a walnut, together with torrents of rain. It must then have been almost too late for anybody who remained in the city to get away. Repeated shocks of earthquake contributed to the horror of the scene, incidentally demolishing the bridge over the Sarno and so shutting off escape in that direction. Meanwhile, river of pumice mixed with water flowed down the slope of Vesuvius on the other side and overwhelmed the neighboring Herculaneum.

The pumice fell in Pompeii until the streets of the city were covered eight to ten feet deep with it. Its weight broke in the roofs of many of the houses and the destruction of lives must already have been frightful. Nevertheless, many of the people still survived, seeking refuge in cellars and other places of retreat. They must have imagined that there was still hope when early in the morning of the next day (Feb. 25) there came a great shock and ashes began falling in a continuous shower with the rain. Though day had arrived it grew darker than ever, if possible, a cloud of frightful blackness settling down over the land, while the lightning and thunder were appalling. Shock followed shock, and the survivors must at last have concluded that their last hour was at hand. Such was in truth the case. The storm of ashes lasted nearly all day long. They drifted in through the windows of the houses and suffocated all who remained alive. They covered the city with a sheet of death six to seven feet thick.

Thus was completed the destruction of Pompeii. If the estimate of fatalities above quoted be fairly correct, the loss of life was not more than one-third as great as during the recent hurricane at Galveston, whose terrors may be said to have fairly equalled those of this ancient catastrophe, though so different in kind. When it was all over the roofs of many of the houses still emerged above the volcanic debris which had overwhelmed the city. Herculaneum, however, had wholly disappeared under the streams of mud, sixty-five deep in spots, which had flowed over it. This mud being a sort of natural concrete, soon hardened into stone, which is to-day of such solidity as to make excavation work extremely difficult.

"Caliber 54" Story of a Little Hero

When General W. T. Sherman was alive, he was often greeted with the shout, "Caliber 54." Old soldiers would shout it sometimes without understanding its significance, says the Pittsburg News. Its origin is well deserving of a place in history, especially as it proves that even the little drummer boys who were in the field in the Civil war, like the late T. C. E. Ecclesine, often did as efficient service as the older boys.

"Caliber 54" had its origin at the battle of Shiloh. General Sherman was riding along over the field hurrying to get to his troops when he heard a delicate voice calling: "General Sherman! General Sherman!" The old war hero stopped, and the boy piped out:

"The —— Illinois regiment is over there on the hill holding the rebels back as much as they can and they're all out of ammunition and they want some." And then, with as much volume of voice as he could muster, he added, "Caliber 54." That was the most important part of the message, for the wagon trains might have gone with loads of ammunition and if it hadn't been caliber 54 it would not have been of the least use.

General Sherman got down from his horse to pat the urchin's head, and to call him a "noble little fellow," when he saw three or four tears on the boy's cheek and he said: "There, don't cry, my little fellow; get right along back, for we're going to whip them."

"I know that," said the boy, "but when I was coming here to give you the colonel's message, a rebel's bullet struck me here," pointing to the calf of his leg. "I was crawling along the ground the best I could, and I knew I could catch you."

Then the general assisted the lad to the hospital, and a few days later he went home to his mother in Vermont. But "Caliber 54" lives in history.

FAVORITE PRESCRIPTION
MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

Mrs. M. F. Long, of Le Loup, Franklin Co., Kans., writes: "Words cannot express how grateful I am for your kind advice and good medicines. I have been in poor health more or less all my life. In the past nine years grew worse, and two years ago I was so poorly could hardly drag around. I consulted a specialist, and he said I had ulceration and that an operation would have to be performed. This did not seem necessary to me, so time went by, and at last *I wrote to Dr. Pierce asking advice. I soon got a helpful answer* advising me to try his medicines, the 'Favorite Prescription,' 'Golden Medical Discovery,' and also his 'Pleasant Pellets.' I began taking 'Favorite Prescription' and the other medicines as advised. When commencing I weighed 119½ pounds, and after taking one bottle of each I felt like a new woman. In one month I gained 8 pounds. After taking two bottles of each of the medicines, I began to look like a woman and not like a skeleton, and that weary tired feeling all left me."

ATTACK of ROYAL CANADIANS at Paardeberg
The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits Enormous success. IT ISN'T THE THING YOU DO.

It isn't the thing you do, dear,
It's the thing you leave undone,
That gives you a bit of heartache
At the setting of the sun.
The tender word forgotten,
The letter you did not write,
The flower you did not send, dear,
Are your haunting ghosts at night.

The stone you might have lifted
Out of a brother's way;
The bit of heartsome counsel
You were hurried too much to say;
The loving touch of the hand, dear,
The gentle winning, tone,
Which you had no time nor thought for,
With troubles enough of your own.

For life is all too short, dear,
And sorrow is all too great,
To suffer our slow compassion,
That tarries until too late;
And it isn't the thing you do, dear,
It's the thing you leave undone,
Which gives you a bit of a heartache
At the setting of the sun.
—Margaret Elizabeth Sangster.

A LOCAL PARAGRAPH.

"The time has come for the American people to act. Shall fifty million patriots sit supinely by and let conscienceless rascals tear the stars of glory from the flag they love and trample its proud folds of crimson and white into the mire of national dishonor? Not while the deeds of '76 still shine through the mists of years in unexampled splendor. Not while the memories of '61 yet live in the hearts that thrilled with the stress of that heroic struggle. Not while"—Joel Snively, editor of the Meloogic Monitor, laid down his pen with a sigh.

Outside the dusty little window the green waters of the bay were sparkling in the sunshine. A keen north breeze was driving great huddling masses of white-shouldered clouds over a field of dazzling azure, and only a man who loved the sport with the whole-souled earnestness that filled his entire being could know how the bass must be biting on such a morning! Oh, to be out on that gleaming expanse armed with rod and line, with only the sun and clouds for company and a thousand pounds or so of gamy vertebrates playing about within reach of his cunning hook.

But also, it was Friday morning. On Saturday some two hundred impatient subscribers would expect the weekly dish of personal, political and intellectual pabulum which his facile pen had long served to them on that day, with more or less punctuality, according to the season. His duty clearly held him to his post at such a time, however, much his inclinations might have led him elsewhere.

So, with another lingering glance at the scene without, Mr. Snively took up his pen and resumed the stirring appeal which was to awaken fifty million patriots to action and incidentally convince the Republicans of Meloogic that it was their duty to vote for Joe Gridley for poundmaster.

So engrossed did the editor become in this pleasing task that he did not hear a step upon the creaking stair a little later. If he had he would have known at once that it was a woman and a lady who was approaching, for long and often painful experience had enabled Mr. Snively to determine with unerring accuracy what sort of person was climbing the somewhat perilous ascent to the editorial sanctum almost as soon as his foot touched the first step.

But for once the editor did not hear the soft footfall on the stair, so he was very much surprised and not a little disconcerted when a fresh, sweet voice, almost at his elbow, said "Good Morning, Mr. Snively," and looking up he beheld his neighbor, Mrs. Tracy, her plump figure buttoned into the trimmest of blue serge yachting suits, her smiling face shaded by a wide-brimmed hat and in her hand a fish pole, pointed, brass-tipped, elegant—the very perfection of dainty uselessness.

Without waiting for a response to her greeting she briefly made known her errand. She was anxious for a day's fishing and had been told of an Elysian spot, where the fish were so plentiful they were actually to be had for the asking. Unluckily, however, her own boat had not come, so she had ventured to ask if, in case he was not using it, Mr. Snively would be so kind as to lend her his yawl, it being impossible to hire one in the village.

Mr. Snively was delighted. Mrs. Tracy was a pretty widow of uncertain age but no uncertain charms, who had taken the cottage next to the editor's own some six months before. In the course of a rather desultory acquaintance the genial bachelor, whose ideas of the fair sex were those common to his kind, had discovered that his fair neighbor was a cheery little body of sound political views and excellent literary tastes (from the first she had been a prompt and paying subscriber to the Monitor), but beyond that his imagination had not soared. Now, however, behold the pretty widow invested with a wholly new interest. She was fond of fishing!

Eagerly Mr. Snively assured his visitor of his pleasure in putting his boat at her disposal and gave her exhaustive directions as to the means of obtaining it. A delightful half-hour of conversation followed. As though it were a magician's wand the dainty fish pole had placed the editor and his guest at once on terms of the most charming intimacy and the former didn't remember ever to have enjoyed a conversation so much in his life, albeit the talk was wholly of reels and rods and spoonhooks and other instruments of slaughter.

All things, however, are bound to come to an end, especially in an editorial office, so it wasn't long before Mrs. Tracy took her leave, escorted down the stairway by her delighted host.

At the door they were met by a spicy breeze straight from the pine woods across the bay. Mr. Snively sighed.

"Where is this wonderful place you are going to?" he asked.

"Ah, that's a secret," she replied gayly. "I promised I'd never, never tell."

"Oh, well, then I suppose it's a crime to even guess." And once more the editor sighed as he glanced out at the sparkling waters.

"But you've been so kind," exclaimed the widow, noting the sigh and immediately filled with compunction. "It seems ungracious of me to keep it from you who love so to fish." And then as she saw him give another wistful glance bayward she burst out impulsively: "Promise not to betray me and I'll tell you—It's Patchang Lake!"

"Patchang!" cried Mr. Snively in surprise. "Why, I never heard of a fish down there in my life."

"That's the charm of it," she rejoined gleefully, "and the man who told me about it (such a dear, dirty, old fisherman he was) was fearfully afraid some one else would find it out; so don't betray me." And she hurried away with a parting smile that made the dusty office seem duller than ever when he got back to it and reluctantly commenced setting up his editorials, for Mr. Snively constituted the whole working force of the Monitor.

And his task, too, seemed harder than ever, after the interruption. Thoughts of his pretty visitor kept intruding themselves into the midst of his most impassioned appeals to the voters of Meloogic.

How blue her eyes were and what bewitching little rings of hair the wind had blown up under the big hat.

And then the fishing.

The editor of the Monitor shook his head. Could it be possible any man living could have a soul so lost to honor as to play a joke on a woman who looked like that? It seemed impossible and yet Mr. Snively was as sure there wasn't a fish within a mile of Patchang as he was that there wasn't a free silver man in Meloogic.

Perhaps then Mrs. Track was sitting in that yawl vainly waiting for the bite he felt certain she wouldn't get if she sat there till the United States got an honest government. And he was actually staying at home and deliberately abandoning a friend to such a fate!

As this agonizing thought occurred to Mr. Snively he dropped his type and started for the door. But once there he paused and slowly returned to his form, only to find it more and more impossible to keep his mind on his work.

At last he gave up in despair.

Taking a hasty survey of what he'd already accomplished he found his columns tolerably full, with the exception of perhaps a single paragraph on the local page. By hard work the following morning he might hope to set up his pages and would trust to luck for the missing paragraph.

Like all fishermen, Mr. Snively was a firm believer in luck. He was also a man of action when he chose and within five minutes of this calculation he had locked up the editorial department and was on his way to Patchang Lake.

When he reached that shallow sheet of water a little lady in blue serge sat in a boat in the centre thereof, with an expression of virtuous indignation on her sunburnt features.

"What luck?" called the editor from the shore.

"Luck!" cried the fair sportswoman, dolefully. "There's not enough water in this lake to catch cold in, much less a fish. All I've got for my trouble is a mighty poor opinion of fishermen in general and one dirty one in particular."

"Come over here," said Snively. "I know a pond not a thousand miles away where the fish bite like mosquitoes. If you'll try it I think I can raise your opinion of fishermen before I'm a day older."

"I can't," confessed the widow, blushing with anger and mortification. "I'm stuck—in the mud."

One moment the man of letters hesitated on the bank and then, with an inward prayer that he might at least be spared to get out that week's paper, he waded boldly into the expanse of treacherous mud that rolled between him and beauty in distress.

The next morning the editor walked into the Monitor office clad in his Sunday clothes. With his accustomed methodical neatness he pulled off his coat, hung it behind the door, and carefully drew over his linen sleeves a pair of black alpaca ones. Then he lighted his pipe and took his place at the form.

There, just as he had left it, was the vacant space at the end of the local column still yawning for the missing paragraph.

Mr. Snively regarded it for a few minutes reflectively—then he took up his pen, as a smile gradually spread itself over his face until it reached his eyes. It still lingered there when a little later he finished and paused to glance over his work.

What he read was this:

"The editor of the Monitor, after many years of bachelorhood, has had the good fortune to incur the risk and responsibilities of matrimony. He was married this morning to Mrs. Gertrude Tracy of Elm cottage and asks the congratulations and good wishes of his subscribers in this the happiest hour of his life."—Edgar Temple Field in Chicago Times Herald.

Every Movement Hurts

When you have rheumatism. Muscles feel stiff and sore and joints are painful. It does not pay to suffer long from this disease when it may be cured so promptly and perfectly by Hood's Sarsaparilla. This medicine goes right to the spot, neutralizes the acidity of the blood, which causes rheumatism, and puts an end to the pain and stiffness.

Biliousness is cured by Hood's Pills. 25c.

WE CURE STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, small, twisting stream, sharp cutting pains at times, slight discharge, difficulty in commencing, weak organs, emissions, and all the symptoms of nervous debility—they have STRICTURE. Don't let doctors experiment on you, by cutting, stretching, or tearing you. This will not cure you, as it will return. Our NEW METHOD TREATMENT absorbs the stricture tissue; hence removes the stricture permanently. It can never return. No pain, no suffering, no detention from business by our method. The sexual organs are strengthened. The nerves are invigorated, and the bliss of manhood returns.

WE CURE GLEET

Thousands of young and middle-aged men are having their sexual vigor and vitality continually sapped by this disease. They are frequently unconscious of the cause of these symptoms. General Weakness, Unnatural Discharges, Failing Manhood, Nervousness, Poor Memory, Irritability, at times Smarting Sensation, Sunken Eyes, with dark circles, Weak Back, General Depression, Lack of Ambition, Varicocele, Shrunken Parts, etc. GLEET and STRICTURE may be the cause. Don't consult family doctors, as they have no experience in these special diseases—don't allow Quacks to experiment on you. Consult Specialists, who have made a life study of Diseases of Men and Women. Our NEW METHOD TREATMENT will positively cure you. One thousand dollars for a case we accept for treatment and cannot cure. Terms moderate for a cure.

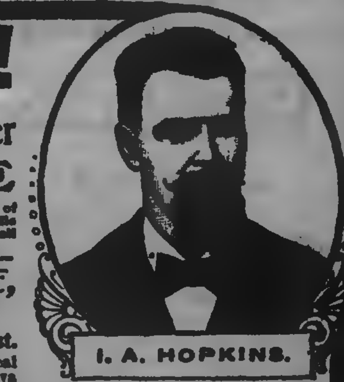
A WONDERFUL
KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.



I. A. HOPKINS.

BRIGHT'S DISEASE, GRAVEL, DROPSY,

And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 53 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic disease he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 508 Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

PETERBOROUGH, NOVEMBER 27, 190

TOWN AND COUNTY NEWS

A New Serial

The *Times* will begin the publication of a new serial story in a short time. This story will be by one of the best authors, and will be carefully selected.

It Applies Here Also

Fathers who neglected to register births are being reminded in Toronto about the law by requests from the police magistrate to pay $2 and costs each. Peterborough will please take notice that the same law applies all over the province.

Ten Tons of Fowl

The Times yesterday received a card from the Canadian Produce Company, of Toronto, stating that an order had been received from England for ten tons of Canadian chicken. This is the largest order ever received in Canada for fowl.

To be Investigated

Some time ago Mr. Ratcliffe, of Port Hope, and Mr. Beale, of Peterborough, students of the Brantford Institution for the Blind, made certain complaints as to the management of the school. As a result a commission has been appointed to conduct an inquiry, and these gentlemen will be asked to lend their assistance.

Major Snyder Coming

Two additional officers, Major A. E. Snyder, of Strathcona's Horse, and Lieut. J. Taylor, of D Squadron, Canadian Mounted Rifles, sailed from Cape Town, November 14, for England on the S.S. Assaye. Major Snyder is an old Peterborough boy. He is a son of Mr. Wm. Snyder and brother of Mr. J. C. Snyder.

Plan Open Today

The plan of the Opera House for Mrs. W. J. Morrow's concert on Monday evening next, will be open at ten o'clock this morning at Bradburn's office, where reserved seat tickets may be obtained. Tickets may also be had at Sailsbury's book-store and at Messrs. H. LeBrun & Co.'s store.

Chicken Without a Head

Here's a chicken story from the west end, and it is given to the *Times* as Gospel truth. John Webster, who lives near the west ward school, killed a large rooster by chopping off its head. He let go the chicken's legs and was surprised to see it walking down the path. He looked after it in astonishment, thinking he had not cut off its head, but there lay the head alongside the chopping block. Two women were standing in the shed door watching the manoeuvring of the chicken, when the fowl flew at them and dropped dead.

$50 AND COSTS

The Proprietor of the Oriental Hotel Heavily Fined

Police Magistrate Dumble yesterday morning gave judgment of the liquor case against George Graham, of the Oriental hotel, who was charged with selling liquor on election day, contrary to the provisions of the Ontario Liquor License Act.

After receiving the evidence and citing many references and precedents, the magistrate concludes:

I adjudge that the defendant do pay a fine of $50 and costs, amounting to $64.00, to be paid in ten days, and in default of payment, I adjudge that the defendant be imprisoned in the county jail for a period of one month.

I adjudge that this conviction shall be a first offence, because it is not pretended that the liquor was supplied corruptly to influence the election. It was after the election was over, and many prominent citizens were present, who are partly to blame for the infraction of the law. Chief Rossel was justified in laying the charge as a second offence, and in that case only did his duty. But under the circumstances I have asked that no evidence of a prior offence be offered.

JOTTINGS ABOUT TOWN.

—The Board of Works meets to-night.

—The Court of Revision met last night.

—The Grand Trunk proposes to build a new station at Port Hope.

—The early advertiser catches the doubtful customer. Everybody reads the Times.

—The Mud Lake and Pigeon Creek bridges were broken by the severe gale on Wednesday.

—The Ashburnham Reading Circle met at Miss Brown's, 162 Smith street, last evening.

—The Engineering Club meets this evening at the Y.M.C.A. "Storage Batteries" will be the topic.

—A drunk and disorderly was discharged at the police court yesterday. He was run in Saturday night.

—Thomas Irving, of Kingston, was probably fatally injured by a fall from a scaffold, at Havelock.

—Mr. Joseph Byers, of Manvers, lost 20 sheep by lightning during the electric storm of Wednesday last.

—The ladies of the Charlotte street Methodist church have agreed to replace the gas with electric light.

—The members of the Ladies' Golf Club are required to meet this afternoon at 4 o'clock in the Public Library.

—Peterborough might start the new century with a clean record by starting to clear out part of the Council in January.

The best protection against fevers, pneumonia, diptheria, etc., is in building up the system with Hood's Sarsaparilla.

—A Conundrum Social, under the auspices of the Y.P.S.C.E. of St. Paul's church, was held last night, and was a very enjoyable affair.

—James Wilford, charged with stealing a gold watch and chain from Mr. Carew, of the Carew House, on October 20th, appeared in police court yesterday and was committed for trial.

—The members of Mr. Crane's chorus are asked to meet him this evening at 8 o'clock at St. Paul's church as usual. The ladies of the chorus are particularly requested to be on hand at 8 o'clock sharp.

—Hon. A. G. Blair, Minister of Railways, passed through Peterborough yesterday on his way to Ottawa.

—Mr. R. B. Rogers, the efficient Superintending Engineer of the Trent Canal, was in Lindsay Saturday.

—Mr. Macleod, Physical Director of the Y.M.C.A., has recovered from his recent accident and has resumed his duties.

—Miss C. McCauley, of Trenton, who has been visiting her aunt, Mrs. E. Phelan, for the last couple of weeks, returned home yesterday.

KILLED IN STANHOPE TOWNSHIP

A Rathbun Co. Employee Caught by a Rolling Log

A sad accident occurred on Wednesday last at Hawk river, in Stanhope township, Haliburton county, which resulted in the death of Mr. Jacob Faulkner, a respected settler of the township, who was engaged in taking out logs for the Rathbun Co.

Faulkner had completed his contract, and was watching the firm's measurer's when a log started to roll off the skidway, and he was caught and thrown over the edge of the dump into the river, the log falling on him. He was rescued almost immediately, when it was found that he had been badly crushed, and he succumbed to his injuries about two hours later. He was of middle age, and leaves a wife and family.

FOOD IN NEW YORK.

An Experienced Physician's Work.

Dr. Hylands MacGrath in experimenting on the result of food on his own body, says: "After eating four heaping teaspoons of Grape-Nuts with a little cream, I had occasion to walk about fourteen miles and was surprised at my feeling of strength and buoyancy. On other occasions, when I have taken careful note of my feelings and sensations, I have discovered that intellectual tasks are comparatively easy when using Grape-Nuts at each meal.

"Of course I understand that the theory regarding Grape-Nuts is practically perfect. That is, the food contains elements that are well known, and furnished in a concentrated and quite delicious form. It is reasonable to expect results, but the physical demonstration of these results is more satisfactory, always, than the mere statement of theory.

"Grape-Nuts combined with fruit and seasonable vegetables, I prescribe to ailing women and delicate men, and have not had a case yet that has not furnished gratifying results. A nervous, irritable man of 72 became fat and amiable using Grape-Nuts as a regular (but not exclusive) diet.

"I have found slender, anaemic girls improved rapidly in health, spirits, weight, and looks, on Grape-Nuts food. It would be a blessing to thousands of such girls if this food was used more largely in boarding schools and seminaries, not to be administered as medicine, but as a pure, healthful, and highly nourishing food." Dr. MacGrath lives at 96 5th Ave., New York.

LOSES SIX DOLLARS.

Editor Morning Times.

Sir,—I am a poor woman, and lost an envelope containing $6 on Saturday. I think I lost it between the Times office and E. Brown & Co.'s store. If anyone finding it will return it to me, through the Times, they will be doing a kindness to a poor woman.

MRS. H.

SLIPPERY WALKS.

Editor Morning Times.

Sir,—The question is raised—"Is the town responsible for ice sidewalks?" It is not. Nobody in the world could prevent such accidents as slipping on ice, as most of the slipping is done on a very thin layer of ice, say a quarter or an eighth of an inch of ice. Nobody can remove that unless one would take a cold chisel and mallet and go at it like a stone cutter. There is no remedy so effective as salt. I wish the business men as well as the other taxpayers, would help to liberate the town from such a responsibility.

CITIZEN.

DAN SPENCE MEMORIAL.

Editor Morning Times.

Sir,—I heartily agree with a writer in an evening paper in regard to the Dan Spence memorial. I do not think you can do better than quote what the writer says: "While I am in perfect accord with the object in view, I am directly opposed to the restriction of subscription to one dollar, and the suggestion of memorial taking the form of an ambulance for the town, besides I take exception to any discrimination among the fallen heroes, for it cannot be said how many there will be until the safe return of all our boys from South Africa. As to the first point why should such large property owners and wealthy people as Messrs. Cox, Lundy, Waddell, Bradburn, Morrow and LaPlante be restricted to the paltry dollar. Is that the measure of their loyalty? Why it is a slur upon their patriotism. Let everyone participate according to their means, or the patriotic sentiment of their nature, and let all sums be acceptable even down to a cent, so that no one may be disabled by their circumstances from participating in the honor. The largest monument in the United States, which was dedicated to the memory of George Washington at Washington City was built by a fund raised by penny subscriptions of every man, woman and child in the country, so that it was truly a gift of the people. One would suppose that we were afraid of raising too much by the restriction mentioned. I would have the memorial include all fallen heroes in the Town and County and thereby increase the number of contributors and the amount and make the memorial more worthy of the object for which it is intended. I would also have the Councils contribute their quota so that it could not fail to be a representative contribution."

That is all right, and is in harmony with the ideas of a large majority of citizens. Let the matter be re-considered without delay, so that the wealthy may pay according to their means.

Thanking you, Mr. Editor, I am, etc.,

A PATRIOT.

The Stanley Piano Co. requests all purchasers of Pianos to communicate direct with or call at the Factory, where Mr. Stanley will take pleasure in showing the special merits of the Stanley Piano, which no doubt has contributed to the great success and rapidly increased sale experienced by the Company.

Appointed Organist

Miss Gertrude Ross, of Port Perry, has been appointed organist and choir leader at St. Andrew's Presbyterian church, Lindsay. Miss Ross was one of the most brilliant graduates in the organ department at the Ontario Ladies' College, Whitby, under Mr. J. W. F. Harrison. She officiated for some time as a substitute at St. Andrew's church, where her work gave such satisfaction that the appointment has been made permanent. She is well known in Peterborough, where she has many friends.

The Wonderful Medicine

IS A MARVELLOUS HEALTH BUILDER

Paine's Celery Compound

The Tried and Trusted Remedy in Thousands of Canadian Homes.

ITS CURES ARE SPEEDY AND PERMANENT.

Users of Paine's Celery Compound soon recognize the important fact that the great medicine quickly regulates the bowels, clears the complexion and brightens eyes that before had a dull and jaundiced look. Another proof of the stimulating and invigorating power of Paine's Celery Compound, is its immediate effect on the pulse, which becomes firm, regular and full instead of uncertain and feeble.

Paine's Celery Compound literally feeds the nerves, the tissues and brain with the proper elements of nutrition, and thus saves countless men and women from chronic neuralgia, rheumatism, dyspepsia, insomnia and failing mental power. No remedy in the world is so rich in flesh-forming and energy-producing virtues as Paine's Celery Compound. Mr. C. B. Holman, 162 King street, Hamilton, Ont., says:—

"Being troubled with a cough, debility, and general depression of spirits, I used a number of medicines but received no benefit from them. I was then advised to use Paine's Celery Compound. I procured the preparation and began to use it with wonderful benefit. I am convinced, after using several bottles of this unequalled medicine, that no other can compare with it in any respect. I am now a changed man; my health is renewed, depression of spirits gone, my appetite is good, and I can sleep well."

WOMAN BIGAMIST SENTENCED.

Married Three Men Without Having Procured Divorce from Any.

Dayton, Ohio, Nov. 27.—Mrs. Jennie Shoder was sentenced to one year in the penitentiary by Judge Kumler today. She pleaded guilty to bigamy. She married Geo. Shoder, William Kirby, and George Sampson, and did not have a divorce from either. The husbands compared notes and Sampson caused the woman's arrest.

POPE'S DEATH REPORTED

News Agency Sends Out a Despatch Which Is Not Credited.

London, Nov. 27.—(Special)—A despatch received here from Paris by a News Agency says that the Pope is dead. The report is not credited.

GERMANY'S POSITION IN CHINESE AFFAIRS

If She Finds that Grave Danger of Isolation Exists, She will Reply Favorably to the U. S.

Berlin, Nov. 27—Field Marshall Von Walderse reports that Col. Armsteda, with a small detachment of German troops, has left Tien Tsin on a punitive expedition to Wu Sing Hsin and Nau Tsai Tsun, northwest of Tien Tsin. Col. Dercke's column left Kalgar for Pekin Nov. 23.

Berlin, Nov. 27—The Lokal Anzeiger publishes a despatch from Shanghai which says unfavorable reports are in circulation concerning alleged American intrigues. The despatch adds, "The Germans have occupied the rich coal fields on the borders of the provinces of Chi Li and Shan Si."

Berlin, Nov. 27.— Germany before replying to Secretary Hay's note wishes to ascertain from her diplomatic representatives at the capitals of the powers how the other powers have received the United States' suggestion. Replies from the representatives are expected within forty-eight hours. If Germany should find that grave danger exists in Germany's isolation by not heeding the United States' suggestions and insisting on extreme punishments, then Germany will answer the United States favorably. If, however, Germany should find enough of the powers siding with her, then she will adhere to her original demands.

WOULD LOSE HIS FACE.

London, Nov. 27—The Morning Post publishes the following from its Pekin correspondent, dated Saturday,—"Wang Wen Chao, now a Cabinet Minister, writes to Sir Robert Hart from Sian Fu that Emperor Kwang Su would be glad to return Pekin, but that His Majesty would 'lose his face' if foreign troops were there."

The Tien Tsin correspondent of the Standard asserts that "the Russian volte face" dates from the Czar's illness.

Shanghai sends another batch of reports from Chinese sources. Among these is a rumor that the allies have reached Weihuifu, 300 miles east of Sianfu, and are proceeding westward. Another is that the Taota of Chuchaufu, in the province of Chekiang, has been dismissed, and sixteen ringleaders of missionary murders have been captured. A third says that a Chinese official has arrived at the capital of the Province of Hunan with orders to organize a militia force of 50,000 Boxers.

The Shanghai correspondent of the Daily Express wires that the Russians are assuring the Chinese that the Amur massacres were really repugnant to the Russian officers, but were carried out under orders of Count Von Waldersee.

CHINESE CANNOT MEET DEMANDS.

Washington, Nov. 26 — It is stated here that the agreement reached by the Ministers at Pekin stands a very poor chance of receiving the sanction of all the powers represented in the Pekin conference unless some material amendments shall be permitted. There is some reason to believe the indemnity proposition has taken such a form as to make it impossible for the Chinese Government to meet the demand, and this fact, taken in connection with the unreasonable demands of some of the powers respecting punishments, may require our Government to make active efforts to have the demands moderated. There are indications, too, that in these efforts our Government is to receive the support of one of the most powerful of the Governments represented at the Pekin conference, and one which generally has been supposed of late to have favored an extreme position.

BOERS TO STRIKE AT CAPE COLONY

Revolt Must be Stamped Out Vigorously.

CANADIANS LEAVE DEC. 1ST

A Thousand of Them Will Start For Home on That Day.

London, Nov. 27.—A despatch to The Standard from Pretoria, dated November 25th, says it is reported that the Boers propose to strike again at the boarders of Cape Colony, where, it is believed, numbers of disaffected Dutch, with supplies and hidden weapons, are waiting to join them. The Boers seem to be taking fresh heart. They have become extremely energetic in almost every part of the Transvaal and the Orange River Colony.

BOERS COMPLETELY DISPERSED.

London Nov. 27. — Lord Roberts, cabling from Johannesburg under date of November 26, reports a number of encounters with the Boers at widely separated points in which the British captured some cattle and a few prisoners and suffered slight casualties. The most serious affair was an engagement with the forces of General Delarey, numbering about one thousand men with three guns, who opposed Gen. Clement's march towards Rietfontein. The Boers, the despatch says, are completely dispersed.

NO TIME TO FALTER.

London. Nov. 27.—The Right Hon. Robert William Hanbury, president of the Board of Agriculture, addressing his constituents in Preston last evening, and referring to Mr. Kruger's complaint of "British barbarism," said:

"This is no time for paltering with the dying embers of the Boer rebellion, for rebellion is now is, and it must be stamped out vigorously."

TO EMBARK LORD ROBERTS.

Cape Town, Nov. 27.—The British steamer Canada sailed yesterday for Durban, presumably to embark Lord Roberts.

CANADIANS LEAVE DECEMBER 1.

Ottawa, Nov. 27.—A cable from the War Office announces that 1,000 men and 50 officers of the Canadian contingent leave Cape Town for Canada direct by steamer Roslin Castle about Dec. 1. This message probably refers to the Royal Canadian Dragoons, Canadian Mounted Rifles and the artillery.

Sir Alfred Milner cabled Nov. 24 from Cape Town: "157, Scott, Strathcona's Horse, accidentally killed, Potchefstroom. Nov. 21." 157 is L. B. Scott, Regina.

London, Nov. 27.—The Pretoria correspondent of The London Daily Mail says: "General Botha has thought better of Mrs. Joubert's appeal for submission, and has forwarded his terms of surrender to Lord Roberts at Johannesburg. Burghers in the town declare that the end is near. As a result of the recent conference between Lord Roberts and his generals the campaign against the recalcitrant Boers has entered on a new phase. Operations are proceeding with the greatest vigor everywhere in Orange Colony and the Transvaal, and are being crowned with success. The plan is now to drive the Boers into distinct commandos or parties, and when these are insolated they will be dealt with by specific forces, thus allowing the enemy no rest. General Kitchener's moonlight attack with sabres near Lydenburg last Wednesday had a widespread demoralizing effect, and a few more similar engagements with the Boers in the northeast will hasten the end of the war.

Paris, Nov. 26.—The enthusiasm has quietened down in Paris and Mr Kruger is receiving the attention of an ordinary distinguished visitor. He took a drive during the morning, accompanied by his grandson, and was escorted by police cyclists and mounted guards. He entered Exposition grounds and ascended the Eiffel Tower to the second story, where Director-General Picard showed him the principal buildings in the Exposition, and the monuments of Paris. M. Picard also made a short address to Mr. Kruger, during which he spoke of the brilliant participation of the Transvaal in the Exposition. Mr. Kruger then visited the Transvaal Pavilion, and stopped and gazed at his own bust, which was profusely decorated with flowers and other tributes. Behind the bust was a Bible, lying open, and Mr. Kruger read a verse from it. He examined the Boer farm, and then continued his drive. The remainder of the day was spent in receiving unimportant deputations at the Hotel Scribe.

Golf Club Skating Rink.

About fifty members of the Golf Club met in the rooms of the public library yesterday afternoon and organized a Skating Club in connection with the Golf Club. Mrs. R. M. Dennistoun was elected president, Mr. W. D. Parker vice-president, and Mr. A. S. Houston secretary. The Committee of Management was appointed consisting of Mrs. Aylmer, Miss Lundy, and Miss Jessie Dennistoun. A caretaker will be engaged to keep the ice on the canal in the rear of the club house in order. The following fees will be charged: members of the Golf Club, $1.50; outsiders, $2.00 The new club starts under the most favorable auspices and will have magnificent ice.

War's Woes.

Those who consider that great wrong is being done in burnig the farmhouses in South Africa, houses from which British soldiers have been fired upon—sometimes under cover of the white flag—will have to wait till peace is restored and all the facts are known before it can be decided whether it was a justifiable or necessary proceeding. That such things have occurred in other wars, we regret to say, is a matter of historic record. Indeed, such woes may be counted among the ever present evils of war.

A correspondent of the London Times commenting upon this fact, and replying to the South African Conciliation Committee, recalls the following extract from an official report made by Major-General Sheridan to the United States Secretary for War—

Woodstock, Va., 9 p.m., Oct. 7, 1864

"Lieut.-General U.S. Grant,—I have the honor to report my command at this point to-night. I commenced moving back from Port Republic, Mount Crawford, Bridgewater and Harrisonburg yesterday morning.

"The grain and forage in advance of these points had been previously destroyed. In moving back from this point the whole country from Blue Ridge to the North Mountain has been rendered untenable for a rebel army.

"I have destroyed over two thousand barns filled with wheat and hay and farming implements, over seventy mills filled with flour and wheat, have driven in front of this army four herd of stock, and have killed and issued to the troops not less than three thousand sheep.

"This destruction embraces the Luray Valley and Little Fort Valley, as well as the Main Valley.

"A large number of horses have been obtained.

"Lieutenant John R. Meigs, my engineer officer, was murdered beyond Harrisonburg, near Dayton. For this atrocious act all the houses within an area of five miles were burned.

"P. H. SHERIDAN,
"Major-General."

The course pursued by the United States army in their civil war, was considered to be justified, as a means of preventing the enemy from obtaining supplies; was a cruelty like that of the surgeon's knife, painful, that a greater evil might be more quickly cured. In concentrating the Cuban families within certain guarded areas near the coast of Cuba, the Spanish authorities were trying to starve out those who were in arms against the power of Spain. Sad as the consequences, the Spaniards were after all doing what we fear all nations do in time of a prolonged war; doing what the Northeners did under Sheridan's orders, and what the British may be compelled to do in South Africa.

A YOUNG WOMAN A STRANGE IMPOSTOR.

How a Pretty Young Lady Imposed on a Peterborough Family.

In July last a well-known citizen of Peterborough, whose name is withheld by request, received a letter from his niece in Philadelphia, stating that she was coming over to Canada and would visit him. She asked her uncle to meet her in Toronto, naming the hour she would arrive in the city.

When the train from Niagara Falls arrived at the Union station, both uncle and aunt were on hand to receive her and accompany her to Peterborough, where she was made heartily welcome. The uncle had not seen her in 17 years, but remembered her as a very neat child. They were delighted when waiting for the passengers to alight, to be greeted by a handsome and well dressed young woman, who kissed them affectionately and hoped she was welcome. They set at rest all doubt on that point by hurrying her into a parlour car for Peterborough, and when at home making much of her.

"There is only one thing I ask of you," said the girl, while explaining the cause of her visit, "and that is that you will not write to my father or any one else at home that I am here. The fact is that my step-mother treated me so cruelly, I was obliged to run away."

Her friends sympathized with the girl and promised to comply with her request. Then they set to work to make the niece forget the home from which she had been driven. Entertainments were given in her honor, she was supplied with new dresses, and all the pin money she needed. All went well until a few days ago, when her uncle went to visit a friend in Toronto. There he met a woman he had known in Philadelphia and who had just arrived from that city. She gave him a budget of news, concluding with the information that his niece, Minnie had sent her love to him.

"That can't be," said the startled man, "for Minnie is at my house, and has been there since August."

"That can't be either," said the woman, "For I left Minnie in Philadelphia only two weeks ago. If there is a Minnie at your house she is an imposter."

When the uncle reached home he told his guest what he had heard. She burst into tears and insisted that she was his niece. She succeeded in convincing him by relating numerous incidents of her home life that she was really his niece. The wife was not satisfied, however, and at the first opportunity she searched the girl's trunk. She found, among other papers, a receipt for a sewing machine bought in New York in 1897, with a name on the receipted bill. The girl's photo was taken to Toronto by the "uncle" and the woman who told him his niece was still in Philadelphia further informed him that the original of the photograph was a certain Philadelphia girl, who was a personal friend of his niece.

The woman was induced to come to Peterborough and denounce the girl as an imposter. The supposed niece in town denounced the woman as a slanderer, and it was not until arrest was threatened that she broke down and admitted that she was the person whose name was on the receipt for the sewing machine. She said that she had made the acquaintance of Minnie when a child, and had known her intimately ever since. It was from her she learned all about Minnie's Peterborough relations. The girl is well connected, has a brother a physician in Philadelphia, and has a comfortable and happy home. No one can account for her conduct. She left for her home yesterday.

FOR MRS. MAYBRICK'S RELEASE

Her Norfolk Friends to Offer Testimony on the Husband's Habits

Norfolk, Va., Nov. 28.—The Norfolk friends of Mrs. Florence Maybrick are again moving in the matter of securing the release of the unfortunate American woman from Woking Prison, England. President McKinley will be asked to intervene in her behalf.

There is no doubt in the minds of any of the Norfolk people who knew the Maybricks during their residence here, but that the husband, who was a confirmed arsenic eater, killed himself by an overdose of the drug.

The fact that Maybrick was an arsenic eater not having been definitely established at his wife's trial for his murder, the testimony of C. F. Greenwood and other reputable business and professional men of this city to the effect that he was addicted to the habit is valuable and may induce the new English Home Secretary to reopen the case.

TO BLOW UP "BOBS" WHILE IN CHURCH

Conspiracy Discovered, According to the Standard, to Kill Him.

London, Nov. 27.—The War Office publishes the following despatch from Lord Roberts, dated Johannesburg, November 20.—As reports of a plot against my life will probably reach you, I think you should know the facts. It is my belief that there was a plot in existence, and five Italians, four Greeks and a Frenchman were arrested November 16th, and are now awaiting trial. Their intentions were to explode a mine under St. Mary's church during the morning service held at 11 o'clock on November 18.

London, Nov. 27.—According to a special edition of the Evening Standard this evening, a plot to assassinate Lord Roberts, in which twenty foreigners are concerned, has been discovered.

It appears that the conspirations laid a mine, which was designed to be blown up Sunday while Lord Roberts was in church at Johannesburg, but the police and Lord Roberts' bodyguard frustrated the conspiracy. Ten men, mostly Italians, have been arrested.

These details the Evening Standard says it has been unable to verify before going to press.

NATIONAL HOLIDAYS.

Editor Morning Times.

Sir,—There is a dispute on as to the national holidays in the United States and Canada. I hold that we have more national holidays than the people of the United States. Am I right?

EDISON WORKS.

Ans.—There is no national holiday in the United States. Even the fourth of July is only by state authority. If any state should refuse to recognize the day there is no authority to compel its observance. In Canada we have two national holidays—the Queen's Birthday and Dominion Day.

MASON & DIXON LINE.

Editor Morning Times.

Sir,—We had an argument amongst the men during dinner hour in our shop, as to the Mason & Dixon line, between the northern and southern states, and decided to leave it to The Times—the great family journal, which everybody reads. If you can enlighten us on the subject, we will feel grateful.

A MOULDER.

Ans.—The Mason and Dixon line forms the southern boundary of Pennsylvania, separating that State from Delaware, Maryland and Virginia. It was located by two surveyors, Mason and Dixon, in 1765. During the anti-slavery agitation prior to the war the "Mason and Dixon line" was the dividing line between slave and free States, though it did not extend west of the Western boundary of Pennsylvania. It has frequently been confounded with the parallel of 36 degrees 30 minutes, fixed by the "Missouri Compromise" of 1820 as the Northern limit of slavery in the territories.

OUR NEXT MAYOR.

Editor Morning Times.

Sir,—Day after day items appear in The Times announcing that Mr. So-and-So is spoken of for the Mayorality but although it is now nearing election day not one of the numerous candidates has publicly announced his platform or given the public through the columns of The Times or by any public utterance, any idea of how he proposes to deal with the different issues that must come before the council of 1901.

The important question of the financial situation that is likely to confront the incoming administration, has been receiving a good deal of attention of late, but so far, the candidates have been dumb as oysters on the subject, and seem to be relying on a nod here, a wink or a smile here, or a whispered promise that may mean anything or nothing.

This is a question that cannot be shirked, that will require the most explicit programme, and I would earnestly advise that no ratepayer promise his vote to any candidate until he has put himself on record publicly as to the question he means to assume on the question.

Come, gentlemen, you are asking us for our suffrages; If you have any platform on this and other important subjects, quit the still hunt, come out into the open, and let us know your views.

Voter's name..

Cut this ballot out, fill in the names of citizens who would be, in your opinion, most suitable for the offices of Mayor and Aldermen, and send it to The Times office. Vote for anybody you may think fit and worthy. The names of voters are asked as a guarantee of good faith, and to secure the result of the voting as a true expression of public opinion, but the names will not be published and will be treated as strictly confidential. A report of the state of the poll will appear from time to time in these columns. Address all communications to "Municipal Campaign," Times Office, Peterborough.

KRUGER RECEIVES IRISHMEN

Miss Maud Gonne Presents Addresses From the Societies.

Lorenzo Marquez, Nov. 27—A detachment of eighty mounted Portuguese troops with two guns crossed the river this morning to Catembo. It is reported that Gen. Dewet is in Portuguese territory and in that district.

New York, Nov. 27 — Samuel Pearson, formerly Commissary General of the Transvaal army, one of the six Boer refugees who have just arrived here on the steamer Stratendam from Rotterdam, brings tidings that President Kruger will probably soon seek refuge and a permanent home in this country.

"President Kruger will leave Paris very soon, I believe," said General Pearson, "and come to Americam where, with his wife, he will make a home until such time as our arms have triumphed and he can return to the South African Republic to take up again his office as chief executive of the Boers."

KRUGER'S BUSY DAY.

Paris, Nov. 27—Mr. Kruger began a busy day this morning by making an official call. Before nine o'clock he departed from the Hotel Scribe, driving in a landau surrounded by Republican Guards and bicycle policemen, to visit Premier Waldeck-Rousseau. He was accompanied by Dr. Leyds Dr. Van Hammel and Delegate Fischer. The party was met at the entrance to the Premier's salon by M. Ulrich, Director of the Cabinet, who introduced the visitors to the Prime Minister. The interview took place in M. Waldeck-Rousseau's private study and lasted ten minutes. At half past nine o'clock the Premier, accompanied by M. Ulrich, returned the call.

KRUGER RECEIVES IRISHMEN.

Paris, Nov. 27 — Ex-President Kruger received an Irish deputation at his hotel at 4.30 o'clock this afternoon. Miss Maud Gonne presented to him addresses from Irish societies, and made a short speech. Mr. O'Leary, who took part in the Fenian movement in 1865, presented an illuminated address written in Irish, French and Dutch. He made a speech in French, in which he said that the enemies of the Transvaal were also enemies of Ireland. Major McBride then introduced Mr. Kruger, who thanked Miss Gonne, Mr. O'Leary and Major McBride for what they had done for the Transvaal. Messrs. Fischer and Wessels, the Boer delegates, stood beside Mr. Kruger. The ex-President spoke in Taal. His voice was firm and full of energy. His big vigorous frame showed no sign of fatigue. He looks ten years younger than his age.

It is stated to-day that ex-President Kruger will leave Paris for Amsterdam on Wednesday.

KRUGER HAS MADE MISTAKES.

New York, Nov. 26—The New York Times says regarding ex-President Kruger's visit to France:—

"His fierce attacks upon the honor and soldierly qualities of the British troops in his address at Marseilles had already been effectually answered by those who had served in the Boer armies. The bitter words of Mr. Kruger are at striking variance with the stories of British humanity told by those of their countrymen who have been fighting for Boer independence, and they can hardly fail to comprehend the contrast between Mr. Kruger's own definition of the word "independence, and its real application to the former state of the Boer Republics. They may not at once believe that under the British flag individual rights and liberties would be far better protected than under a Kruger regime, but they will not be so slow to appreciate the intended significance of Mr. Kruger's presence among them or the menace to their own tranquility which the Nationalists had intended it should involve. And once more let us say with renewed emphasis that it would have been more to Mr. Kruger's credit had he seen fit to go at once to the asylum which is awaiting him in Holland. Further tarrying is sure to invite a misconstruction of his motives, even as he proclaims them."

PLOT TO ASSASSINATE PRESIDENT McKINLEY

New York Evening World Alleges that a Plot is Under Investigation

New York, Nov. 27.—A plot to assassinate President McKinley has been made known to the police of Hoboken. N.J., says The Evening World.

They have communicated with the Secret Service Bureau at Washington, furnishing the name of the man who is accused.

The police received their information through a letter written by a Frenchman whose knowledge of the English language was exceedingly poor.

The name of the accused is withheld by the police for obvious reasons. They have located the writer and say that his story is at least worthy of investigation.

In reading the above it must be borne in mind that The Evening World is a yellow journal upon the statements of which little credence can be placed without confirmation.

WEATHER NOTES.

Probs: Fine weather. To-day. Moderate winds, fair, not much change in temperature.

NOTICE

All persons indebted to Dr. R. W. Bell are required to remit the amount due to him to Asylum for Insane, Toronto, before 1st December next. His books on that date will be placed in a lawyer's hands to collect all unpaid accounts.

Forester's concert on Thursday evening. Programme was provided by a travelling troupe.

The Methodists are preparing an entertainment to come off before Christmas.

The Presbyterians are arranging for a grand New Year's entertainment at considerable expense.

Kenny & Nicholl's mill has shut down, being through cutting and gangs are preparing for the camp.

Prof. Morris is quite busy here this season again with his music classes.

HAVELOCK.

The C.P.R. ball on Tuesday night was a huge success. It was well patronised, and a very enjoyable time was spent. The music was supplied from town, as was also the floor manager, Mr. Archie Moore.

A public meeting of the ratepayers of the village of Havelock and the township of Belmont, was held in the town hall, Havelock, on Friday evening last, when the proposed electric railway from Havelock to Brighton was discussed. Mr. Harrison, the engineer of the road and Mr. Barbour, his financier, were present and explained the details and proposed operation of the railway.

BOBCAYGEON.

The sudden change in the weather last Tuesday and Wednesday caused all the steamboats to make an attempt to wind up the season by getting a large tow, or cargo to their winter quarters, but some of them were disappointed, as they were caught in the ice, and are now frozen so they can't get them free.

Owing to the long-continued drought, many of the wells in this vicinity have become dry and many of the farmers have to drive their stock to some spring at a distance, or for water. Everybody is wishing for rain.

A number of the farmers in this vicinity are wishing for Indian Summer, as their turnips have not been taken in yet.

As navigation closed last Wednesday, the Fenelon stage made its first trip on that day, and will run regularly every week day till navigation opens next spring. Mr. Garlick has his stage fitted up in good style, and it is very comfortable for passengers.

Since the cold snap, skating has been all the order of the day here.

THE WONDERLY GOLD MINING COMPANY, Limited

CAPITAL $1,000,000, Divided into Shares of $1 00 each.

Incorporated under Ontario Laws. Non-assessable.

This Company was formed for the purpose of purchasing and working seven gold claims on the Saskatchewan river, near Edmonton.

These claims have been worked some, and in the summer of 1900 D. F. Loveland, the former owner and president of the Company, had a dredge at work, and although only able to handle 200 yards of earth per day, there was from $30.00 to $50.00 of gold taken from that amount of earth daily, and thus demonstrating beyond doubt the great value of these claims.

The Company proposes to purchase one of the Risdon dredges, with a capability of 2 500 cubic yds. a day.

The expense of running such dredge will be about $175.00 per week, and even if the dredge handles only 1,000 cubic yards a day, in six days, there will be taken out $1,500 00 worth of gold, with a profit of $1,325 00 in one week.

Sufficient stock will be sold at 25 cents per share to raise money to purchase the necessary dredge, after which the books will be closed and no more stock will be offered for sale.

There is no gold proposition on the market to-day equal to this one.

Applications for stock can be made to any of the Directors, or to the Secretary, or to W. T. McNeil, broker, St. Catharines.

OFFICERS:

PRESIDENT—D. F. Loveland, capitalist, Galena, Illinois.
VICE-PRESIDENT—Arthur P. Forster, mechanical engineer, Welland.
TREASURER—Dr. T. G. Wonderly, Galena, Illinois.
SECRETARY—L. Clarke Raymond, barrister, Welland, Ont.
BANKERS—The Imperial Bank of Canada, Welland, Ont.

THE DIRECTORS are: The President, Vice-President, Treasurer, S. H. Glasgow, physician, Welland, and W. T. McNeil broker, St. Catharines, Ontario.

Subscriptions payable 25 per cent. on application, and 50 per cent. in two months.

Brokers desiring to handle stock in this company will please communicate with W. T. McNeil, official broker, St. Catharines, Ont.

TORONTO UNIVERSITY.

The Hon. S. H. Blake struck a responsive chord in the breasts of the public when he criticized the increasing of the fees in the university course at the so-called People's University. It is a well-known and regrettable fact that this university is in a state of financial beggary, due to lack of financial interest on the part of the people and neglect on the part of the Ontario Government. To do as has been done of late, viz: to increase the fees is, in view of all the facts, little less than a crime against the young men and young women of this province, who, having to struggle to get money enough to put them through college, are now confronted with an increase in the rates. Why is this policy so diametrically opposed to the policy of the people of England and of the United States, forced upon the University authorities by the Ontario Government? Is it because the President of Toronto University has on more than one occasion denounced the system of High and Public School Education carried on by the Government as a rotten sham? On paper it is perfect, and was used at exhibitions, but in fact it is destructive of the morals, the manners and the minds of the victims. Is it in revenge for such truthful and outspoken statements, or the fault of President Loudon that the very key-stone of the arch itself is allowed to crumble and decay? The Government must remember that theoritically the people of France were treated with fairness and justice before the Revolution, but the theory could not hide the hideousness of the practice. The people moreover are tired of hearing that their national institution is in a state of beggary. The department of Education needs to look alive. The friends of the University—the undergraduates especially—testified tumultuously their approval of Mr. Blake's words. It is to be hoped the canker will not be allowed to eat too deep before something is done for our whole system of Education, from the University down to the Kindergarten.

WE SHOULD TAKE PART.

It would be a splendid advertisement for Canada if she sent a body of troops accompanied by some of our foremost representatives and orators to the inaugurational ceremonies in connection with the proclamation of the Commonwealth of Australia. The occasion will be august. The heir apparent to the British throne will be present, together with all that is notable in the Imperial life of Great Britain. It is said that the cost would be considerable, and that there is no authority to justify the action. There was no constitutional authority to justify the sending of the troops to South Africa, but public sentiment is stronger than statute—indeed moulds statutes at its pleasure, and public sentiment would overwhelmingly endorse the Government should it decide to send—say, one hundred picked men with the choicest of our public men and orators to give a notion to our cousins of what their sister nation in the north was like. Australia has largely copied from Canada in the framing of her constitution. It would be gracious in the elder daughter of the empire to show sympathy with her who is starting out upon the path which the Dominion has pursued now for over thirty years,—thirty opulent years, during which much history has been made—history which rebounds to the credit of a fine and wholesome people.

THE PROHIBITION VOTE.

The late election in Canada has about killed prohibition as a political force. Mr. Macdonald, Premier of Manitoba, had taken the most important step towards prohibition, and yet he was defeated, the prohibitionists voting against him. Mr. Macdonald made the following remarks—

"I am sorry to say that, judging from this election, what is commonly called the prohibition vote is a myth. I am afraid that the men who talk prohibition are first Liberals or Conservatives then after that prohibitionists. The result has proved that there is no such thing as a purely prohibition vote. I believe the result also means a set-back for prohibition, from which it will not recover within the next twenty years. In the future the prohibitionists may thank themselves if neither of the great political parties consent to take up their cause."

P. E. I. ELECTIONS

The elections in Prince Edward Island will soon be on. The island has a population about equal to the combined populations of, say, London, Hamilton and St. Thomas. It has a legislature of thirty members, of whom nine are in the ministry, but six without portfolio. The revenue of the island is $240,000, of which $182,000 is Dominion subsidy, the balance coming from direct taxation. There is no municipal system, and about one-half of the total expenditure, or $150,000 is for schools. The debt of the island is about half a million dollars.

If the human conscience is what it is cracked up to be, why do we not see more men appealing to Courts of Revision to have their assessment increased?

* * *

Before enthusiastic thousands in mad Marseilles, Mr. Kruger is reported as saying that the reception given him would do much to soothe the wounds in his heart. It is thus evident that soft-soap has a sort of soothing-syrup effect on Oom Paul.

* * *

It's dead easy for Oom Paul to talk as he did at Marseilles of fighting to the death, but it is noticed he does all his fighting with his mouth, a species of warfare that doesn't usually end fatally.

* * *

Oom Paul's course through sunny France seems to be a series of ovations. So was Oom Tupper's through Canada.

He Felt Funny.

One of the men on board the Olympia, at Manila, tells of the preparations to enter the bay and brave the dangers of the mines and shore batteries:

"About 7 o'clock I took a pillow," he writes, "and lay down on the soft side of a plank to take a nap. All the men slept at their guns. At 9:30 we were quietly called. No bugle sounded. Everything was done quietly. I jumped up and went on the bridge. I felt nervous for awhile; I did not know where we were, and it was as dark as hades. All one could hear was the orders given by the officers and the click of the breech blocks as they were closed. We could see the shape of a big island ahead of us, and we were told that it was the fort. It is about 600 feet above the level of the sea. We could not elevate our guns enough to bear on it, so they fired at us without receiving an answer in return. Our nerves were highly strung now from waiting in suspense. About 12 o'clock we were directly under the guns of the first fort, and when they started to signal and fired a rocket every man braced himself. On we went, not knowing what minute a torpedo or submarine mine would send us all to eternity."

"Speaking of the battle he says: "For a while I thought I was a gone goose. The shells were falling around us thick as hail. We could see the big ones pass over our heads, and the smoke and saltpeter were suffocating. One shell passed about two feet over my head, cutting the signal halyard I was holding. 'Jump up there and get that end,' said the officer. While I was up on the back stay I felt funny, I can tell you."

Hard on the Gentler Sex.

There is much of the slave and the tyrant hidden in the nature of woman. Thus woman is not yet capable of friendship, but only of love.

In the love of woman is injustice and blindness to all that she does not love.

There are two things a true man likes—danger and play. He likes woman because she is the most dangerous of playthings.

A man should be reared for the vocation of a warrior; a woman for the recreation of the warrior. All else is rubbish.

A woman's principle of honor is to love more than she is loved, so as not to be second.

In any game where love or hate is not at stake women play a mediocre part.

All women behind their personal vanity cherish an impersonal contempt for woman.

As a rule, a mother loves herself in her son more than the son loves himself.

The chief danger that besets artists of genius lies in woman. The worshiping woman is their ruin. Hardly one has character enough to resist his ruin when he finds himself treated like a god. Man is a coward in face of the ewig weibliche, and no one knows it better than the small woman.

Women indulge in literature as they commit a little sin, glancing round to see if any one is looking—i. e. to attract attention.—Henry Nietjsche, in Academy.

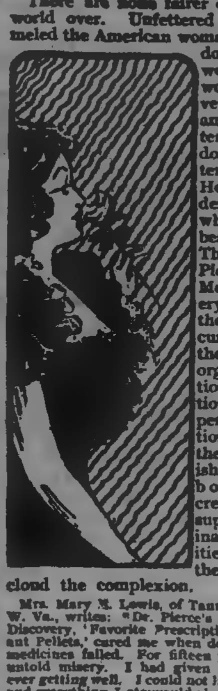
American Beauties.

There are none fairer or sweeter the world over. Unfettered and untrammeled the American woman queens it as does no other woman in the world. Yet her very energy and ambition are often times her undoing. She attempts too much. Her health is undermined. And when health goes beauty goes also. The use of Dr. Pierce's Golden Medical Discovery re-establishes the health. It cures diseases of the stomach and organs of digestion and nutrition and assures perfect assimilation of food and the proper nourishment of the body. It increases the blood supply and eliminates the impurities that clog the system and cloud the complexion.



Mrs. Mary S. Lewis, of Tanner, Gilmer Co., W. Va., writes: "Dr. Pierce's Golden Medical Discovery, 'Favorite Prescription' and 'Pleasant Pellets,' cured me when doctors and other medicines failed. For fifteen years I suffered untold misery. I had given up all hope of ever getting well. I could not lie down to sleep, and everything I ate would almost cramp me to death. Was very nervous and could hardly walk across the room. I only weighed ninety pounds when I commenced taking these medicines six years ago; I now weigh one hundred and forty pounds and am having better health than ever before. After being sick so long *I have changed to be robust and rosy cheeked.* I have taken fifteen bottles each of 'Prescription,' 'Discovery' and 'Pellets.'"

Dr. Pierce's Pleasant Pellets act gently but effectively. Women value them.

Myself cured, I will gladly inform anyone addicted to COCAINE, MORPHINE, OPIUM OR LAUDANUM of a never-failing, harmless home cure. MRS. M. V. BALDWIN, P.O. Box 1212, Chicago Ill.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 68 in one day. Sample and terms 25 cts (same free); four for 80 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00 Write to day for a dozen and make money. MESSRS. J. S. HAMILTON & Co., Brantford, Ont., Canada:

Dear Sirs,— In accordance with your wishes I have had both the red and white wines and the champagne tested by several connoisseurs, French and English. All of these expressed surprise that an article of such merit was produced in Canada, and even manufacturers admit that the brand "L'Empereur" is of excellent quality.

This opinion from critics who are by no means easy to please should be very satisfactory to you, and it gives me pleasure to congratulate you upon it. Yours faithfully,

RETIRED.

The strong tide breaks upon the narrow pier,
The ships go by; and one who knew them well
Sits at the close of day, and sits alone

Captain no more! But he remembers yet
The little town in dear old Maryland
Where first he learned by star and wind and tide
The track of the ocean, and the way of war,
Upon the wave that smote his native land.

Now all is done: a warship rides the bay,
With shining hull and blackened funnels high,
And his old heart leaps at its prisoned side,
For that his boy is there! He minds the time
When little arms were twined upon his neck,
And ears bent low to hear the thrilling tale
Of ships that fought in battles long ago.

He thinks of her who stood beside him then
With shining eyes—the light-house of his heart—
And outward passed, like to a little sail,
That, rocking in the mist, returns no more.

So comes the dusk; he hears the booming gun,
He sees the lowered flag, the night-lamps set;
And watching on the pier he falls asleep,
And dreams of golden anchors far away.

—John J. Meehan, in Leslie's Weekly

MY DOUBLE DILEMMA.

Thoroughly tired of the pier, the esplanade, and the tennis-court, one afternoon, during my stay at the seaside, I took a solitary ramble round the coast.

With the tall cliffs on one side of me and a vast expanse of ocean on the other, I made my way over sand and shingle, careless of everything save the appearance of my immaculate flannel trousers, until the town of Brinybay was hidden by a chalk promontory, and I found myself alone, or apparently alone, with Nature.

As, however, I approached an irregular mass of rock lying together at the foot of the cliff, a scarlet object appearing above them attracted my attention, and, on nearing the spot, I discovered it was a parasol shading one of the most bewitching girls I had ever beheld in my life—and I have seen a good many.

Comfortably seated on a mossy boulder and deep in the perusal of a yellow-backed volume, she was becomingly attired in a dress of pale pink, and as I passed her I fancied she peeped at me from beneath her shady straw hat; but young men always think that girls notice them, especially when like myself, they are Oxford undergraduates with their college arms emblazoned on the breast of their blue serge jackets.

I had not left this siren very far behind when my progress was suddenly brought to a stop by the sea, which had covered the beach and was lashing the base of the cliff. I at once realised the unpleasant fact that the tide was flowing, and that if I did not speedily retrace my steps, my return to Brinybay would be prevented in the same manner as my advance.

Hastening back, and passing the maiden in pink, who was reading as unconcernedly as ever, I again found my path barred by a sheet of water several yards in width. I was completely shut off from the mainland.

To scale the cliff was utterly impossible, and although I might have resumed my homeward course after wading through the water, I could not have deserted the fair girl near me, who was evidently unconscious of her critical situation. The waves were rapidly advancing towards the rocks among which she was seated, and the seaweed clinging to them told me that at high water they were totally submerged.

Approaching the parasol, I coughed.

"Excuse me," I said, "but the tide is coming in very fast, and, I am afraid, will soon be up here."

"Oh, dear!" she exclaimed, blushing, and hurriedly looking around her. "Oh, dear, how very stupid of me not to notice it; whatever shall I do?"

"The only possible way of getting back," I remarked, as she slowly closed her book and left her seat, "is across this piece of water, but it is rather deep."

In silence she followed me to the spot, and after gazing upon the fast-widening barrier, looked up at me and smiled.

"I think I know how we can overcome the difficulty," I said, "but I hope you won't be offended at my suggestion."

"Oh, no, no," she exclaimed, with a little laugh; "anything as long as I can get out of this horrid fix."

"Then, I believe I could manage to carry you across, if you wouldn't object," I said, after some hesitation.

Another smile illumined her fair countenance, and she replied in tones of the deepest sincerity—

"Oh, thank you, thank you; I should feel so grateful if you would, so very much obliged."

Throwing off my shoes and socks, and tucking up my immaculate ones, I put the yellow-covered book into one of my capacious pockets, deposited my stick with the scarlet parasol on the beach and gently lifting its fair owner in my arms, in another moment had forded the water and deposited her on [illegible]

She returned with me to Brinybay. Her thanks were overwhelming, and ere long we were chatting together like a couple of old friends.

A proposal I made for taking her mother for a sail in my yacht pleased her more than ever, and when I parted with her near the pier—though ignorant of her name and connection—I thought she was the most charming girl I had met with for a long time.

On arriving at my apartments I found that the yellow-covered volume which she had entrusted to my care was still in my pocket. I opened it and found on the title-page the following: "Bessie Cragg, Sea View Villa, Brinybay."

Not displeased at my discovery, I penned a polite little note to "Miss Cragg"—who was evidently the bewitching possessor of the scarlet parasol—in which, after briefly referring to her book, I had the boldness to fix a day for the proposed yatching expedition.

Neatly enclosing the epistle with the volume, I left the parcel that evening at Sea View Villa.

Next morning I was told that a gentleman desired to speak to me in private. I ordered my landlady to show the visiter in, and forthwith a black-looking man, of middle age, entered my parlor.

"Mr. Lyon, I presume?" he began, eyeing me unpleasantly.

"I am Mr. Lyon; what is it?" I said, annoyed at the stranger's manner.

"What is it?" he sneered; "what is it, indeed young man! What do you mean by sending my wife such stuff as this, and by asking her to accompany you in a yacht, etc., you impertinent fellow?" and he threw my little note to Bessie Cragg on to the table.

"Your wife?" I exclaimed in confusion, "your wife, sir? I think you are in error; I think that you have made a mistake, sir."

"Mistake!" cried the stranger fiercely; "mistake—fiddlesticks. I am Mr. Joseph Cragg, young man, and if ever I catch you insulting my wife with another such billet doux it's ten to one you won't have a chance of repeating the offense!"

With this terrible threat, my visitor left the house.

I threw myself into a chair and groaned aloud—a pretty ending, forsooth, to the romantic incident of the preceding day.

During the next week I had little bliss; it made me miserable to think that fair and frolicsome Bessie was bound for life to such a wolfish monster as Joseph Cragg.

On reflection, I wondered why she hadn't informed her husband of her adventure by the seaside (for I presumed he was unaware of it.) and why, when she was with me, she had appeared so eager to accept my invitation.

I met Mrs. Cragg several times alone in the town and on the pier, but always passed her without any token of recognition. On one occasion I fancied she smiled faintly at me, but taking no notice of her familiarity, I thought, for a married person, that her behaviour was extremely improper.

Just a week after my eventful ramble round the coast, while strolling listlessly on the esplande, I was surprised on being accosted by a pleasant-looking old lady who, grasping my hand, exclaimed—

"Are you the gentleman that saved my dear little Marie from being drowned when almost caught by the tide some days ago?"

I was absolutely bewildered, nor was it until I was seated in the gushing old lady's drawing-room conversing with her and her fair grand-daughter Marie—the identical possessor of the scarlet parasol—that an explanation of the whole affair took place.

Mrs. Elizabeth Cragg was a friend of Marie's and had lent her the yellow-backed volume which, on being returned to its original owner, had fallen into the hands of Mr. Cragg.

Without showing either the book or the note to his wife, this gentleman had opened the letter with the above recorded unpleasant result.

It may interest the reader to know that Marie and I took our yachting trip as proposed, and thoroughly enjoyed it, too; but beyond the information contained in the appending newspaper cutting, I cannot furnish further particulars of the consequences of my eventful ramble when, although I eluded the clutches of Neptune, I fell a victim to the snares of Cupid.

Lyon—Brading.—August 4, at St. Old's, Brinybay, by the Rector, the Rev. P. Prosy, M. A., Charles Lyon, eldest son of John Lyon, Esq., of Harrowfield, Hants, to Marie, daughter of Colonel John Brading, Royal Slashers.

How to Read the Tongue.

The perfect tongue is clean, moist, lies loosely in the mouth, is round at the edge and has no prominent papilae.

The tongue may be furred from local cause or from sympathy with the stomach, intestines or liver.

The dry tongue occurs most frequently in fever and indicates a nervous prostration or depression.

A white tongue is diagnostic simply of the feverish condition, with perhaps a sour stomach. When it is moist and yellowish brown it shows disordered digestion. Dry and brown indicates a low state of the system, possibly typhoid.

When the tongue is dry and red and smooth, look out for inflammation, gastic or intestinal.

When the papilae on the end of the tongue are raised and very red it is called a strawberry tongue, and that means scarlet fever.

Sharp pointed red tongue will hint of brain irritation or inflammation, and a yellow coating indicates liver derangement.

The world contains an oversupply of average man.

WE CURE STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, small, twisting stream, sharp cutting pains at times, slight discharge, difficulty in commencing, weak organs, emissions, and all the symptoms of nervous debility—they have STRICTURE. Don't let doctors experiment on you, by cutting, stretching, or tearing you. This will not cure you, as it will return. Our NEW METHOD TREATMENT absorbs the stricture tissue; hence removes the stricture permanently. It can never return. No pain, no suffering, no detention from business by our method. The sexual organs are strengthened. The nerves are invigorated, and the bliss of manhood returns.

WE CURE GLEET

Thousands of young and middle-aged men are having their sexual vigor and vitality continually sapped by this disease. They are frequently unconscious of the cause of these symptoms. General Weakness, Unnatural Discharges, Failing Manhood, Nervousness, Poor Memory, Irritability, at times Smarting Sensation, Sunken Eyes, with dark circles, Weak Back, General Depression, Lack of Ambition, Varicocele, Shrunken Parts, etc. GLEET and STRICTURE may be the cause. Don't consult family doctors, as they have no experience in these special diseases—don't allow Quacks to experiment on you. Consult Specialists, who have made a life study of Diseases of Men and Women. Our NEW METHOD TREATMENT will positively cure you. One thousand dollars for a case we accept for treatment and cannot cure. Terms moderate for a cure.

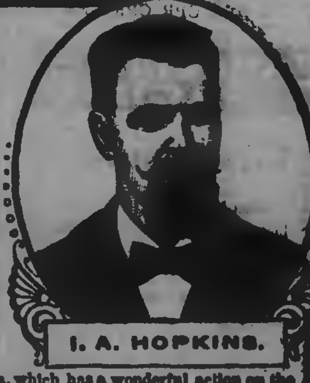
A WONDERFUL
KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.



I. A. HOPKINS.

BRIGHT'S DISEASE,
GRAVEL, DROPSY,
And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me and I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 53 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor Religious World, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 403 Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

PETERBOROUGH, NOVEMBER, 28, 1900

TOWN AND COUNTY NEWS

The Engineering Club

The Engineering Club met last night in the Y.M.C.A. Mr. C. E. Brown, of the Canadian General Electric Company, read a paper on "Storage Batteries," after which there was a general discussion.

Curlers' Smoker

The Thistle Curlers invite their brethren of the broom and stane to attend at the rink to-morrow evening, when a very interesting competition will take place for a Tam O-Shanter, and a broom for a booby prize. All curlers will be welcome

No Non-Jury Docket

Sir William Meredith, Chief Justice of Ontario, visited Peterborough yesterday for the purpose of opening the non-jury sittings of the High Court of Justice. There being no docket, however, the Court rose shortly after assembling, and the Union Jack was lowered from the staff.

An Open Skating Rink

Riverside Park has been leased for a skating rink. If ice could only be obtained there for curling as well, it would be an inducement for many to enter the "roarin'" game, for the outdoor exercise they would get. Mr. R. R. Wood, the lessee, should make an effort in this direction.

To Take a Band.

Mr. Samuel Charlton, of the Canadian General Electric Company, left yesterday for Hanover, Ont., where he takes charge of the band there. Mr. Charlton played leading clarionet in the 57th Band, being one of the best musicians in the organization.

Central Charity Board

The regular meeting of the Central Charity Board was held Monday evening. There were present Messrs. Innes (chairman), Best, Miller, Sawers, Batten, Aldridge, Kemp, and Ven. Archdeacon Casey. A number of accounts were ordered to be paid. There was [illegible] expended by the Board in charity since January last.

A Rush for Seats

There was a big rush for seats for Mrs. Morrow's concert, when the plan was opened yesterday. There are still many choice seats available, and these should be taken at once. Tickets may be obtained at Sallsbury's bookstore, and at Mr. Le Brun's store. Plan of hall at Bradburn's office.

A Popular Lecture

Dr. Barrie, the Y.M.C.A. representative in the first contingent, will deliver a lecture in St. Paul's church to-morrow evening, under the auspices of the Association here, it being the 15th anniversary. In addition to references to the local work for the past year, the great feature of the evening will be "The story of the war and the part taken in it by Canadians." Dr. Scott will preside. A silver collection will be taken at the door, which will be in aid of the Army Fund of the Provincial committee, under whose auspices Dr. Barrie was sent out.

A Musical Treat

We are pleased to see the music lovers of Peterborough are securing seats for the concert on Monday night, to be given by Mrs. W. J. Morrow, assisted by Master Vincent Morrow, the wonderful boy soprano, Mr. Owen Smily, and Mr. John Crane. The programme shows some excellent numbers, and should attract every lover of music in Peterborough. Of Mr. Smily the Halifax Herald says: "Mr. Smily is inimitable, and brought down the house. He was equally at home at the piano, or as a tenor, baritone or soprano up to high C and his personation of the voices and facial expression of Sir Henry Irving, Napoleon and other celebrities, like his ventriloquism and character recitations, was absolutely unique. The recital was under the immediate patronage of His Honor, the Lieut.-Governor of Nova Scotia, General Sir Montgomery Moore, Premier Fielding, the Admiral, and the culture and elite of Halifax society." [illegible]

JOTTINGS ABOUT TOWN.

—Everybody should visit the poultry show.

—The shortest days of the year are now at hand.

—One touch of winter makes the whole world cough.

—The plan of the opera house for Mrs. Morrow's concert is now open at Bradburn's office.

—The ballots in connection with our great municipal voting contest are coming in fast.

—The anniversary of Otonabee Lodge will be commemorated by an "At Home" on the evening of the 30th.

—Mr. Crane's Concert Chorus rehearsed in St. Paul's church last night. There was a good attendance of singers.

—Preparations are being made to build a temporary wooden sidewalk over the pavement on the corner of George and Brock streets.

Perfectly healthy people have pure rich blood. Hood's Sarsaparilla purifies and enriches the blood and makes people healthy.

—Detective Murray was in town yesterday, said to be after an American bank embezzler, who is reported to have made Peterborough his home.

—A man was seen to pick up a purse on Saturday on the market, that had been dropped by a lady. He has not yet returned it, and trouble is threatened.

—A young lad was arrested yesterday charged with stealing whips from rigs at St. Andrew's church. He will appear before Magistrate Dumble this morning

—Messrs. McDougall, Brandon & Austin, of Fenelon Falls, delivered a double-decker of hogs to the George Matthews Company yesterday, and expect to deliver another to-day.

—The Total Abstinence Society have postponed their concert until next Wednesday, when Dr. O'Brien will give a lecture, with views, upon "Beauties of Northern Italy."

—The Times wants the services of a young printer to learn typograph machine This is a rare chance for a lad who has had one or more years' experience at the trade.

Every lady's hair requires attention at times. Let Prof. Dorenwend point out what to do to preserve it and dress it by means of his very beautiful art special styles in bangs, wavey fronts, switches, etc. Fashion hinges on his advice at Oriental Hotel, Peterborough, Saturday, Dec. 8.

Like Tearing the Heart Strings.—"It is not within the conception of man to measure my great sufferings from heart disease. For years I endured almost constant cutting and tearing pains about my heart, and many a time would have welcomed death. Dr. Agnew's Cure for the Heart has worked a veritable miracle."—Thos. Hicks, Perth, Ont.—59

SOCIAL AND PERSONAL.

—Mr. Robert Neill was registered at the Place Vigar, *Montreal*, on Monday.

—Rev. Father Phelan, of Lindsay, was in town yesterday, on a visit to his parents.

—Mr. and Mrs. J. H. Brandon, Fenelon Falls, are the guests of Mrs. W. H. Robertson

—Mr. Alf. Jackson, the popular Dominion Brewery representative, Toronto, was in town yesterday.

—Dr. Bradd has returned from a several weeks' sojourn in New York City, where he was visiting a number of the most noted hospitals.

Deer Fed with his Cattle.

Mr. J. H. Carnegie, M.P.P, of Indian Point farm on Balsam Lake, spent Sunday in town with his father and other friends. Mr. Carnegie did not go hunting this fall, but had he taken the notion he need not have gone farther than his own barnyard. He said that since early fall four and sometimes half-a-dozen deer have been feeding with his cattle, and as the farm is isolated, and the dogs were kept housed, the deer grew so tame that it would have been easy to capture the graceful animals alive. They are still located on the stock farm, which affords them ample shelter.

JUSTIFIABLE DECEIT.

Little Arts Practiced by Wives.

The way a Cincinnati woman cured her husband of the coffee habit by a little by-play is worthy of imitation in bad cases. He tells the tale himself: "For years I had been using coffee and finally I got like a morphine or opium fiend. I knew perfectly well that coffee robbed me of sleep, and I would lie awake hour after hour in the night, throwing away my life practically, for I needed the sleep to carry on my work.

"Common sense and my knowledge of the medicinal effects of caffeine (the active principle of coffee) told me plainly enough that I was ruining my life with every cupful, but to give coffee up was another question. I simply could not.

"About three months ago my wife brought home a sample of Postum Food Coffee, but I would not hear to it. She said I was stubborn and hard headed. No doubt I was, but I wasn't myself.

"She apparently gave up the effort to induce me to change, and I went on (as I supposed) with my coffee right along, five cups a day. About a month after that I noticed I was sleeping very much better at night, my nerves were fully fifty per cent. stronger. I drank just as much coffee as ever and was delighted to think that it was not the coffee that was hurting me.

"Speaking to my wife about the change in my health, I told her that there must be something in my habits that had changed my health, for I was so much better, and I was glad to know that I could get better and still use coffee. She laughed heartily and said she might as well let the cat out of the bag. She said 'I have been giving you Postum Food Coffee for a whole month and you have never known it.'

"The proof was so plain and the Postum Coffee so good that I was simply delighted with the whole affair, and of course freely forgave my wife for the deception. I am getting well as fast as a man could and am telling my friends about it. However, many of them, like myself, will not hear to any change, but stick to their coffee, and complain of headaches, indigestion, etc. A few of them have been induced to make the change from coffee to Postum Food Coffee, and I have never known a case where it has not worked a great advantage." J. B. Huttenmiller, 118 Race St., Cincinnati, Ohio.

"Better the Feet Slip Than the Tongue."

Slips of any kind are to be deplored, but there is one slip Nature never forgives. It is the carelessness of ignoring the signal that the body is in danger of wreck. It may be that the kidneys or the stomach or the head gives the warning sign. But remember, the blood feeds every organ of the body.

Make no slip, but first tone up the system through the blood, and health will surely follow. Hood's Sarsaparilla is the best preparation man has devised to make pure, life-giving blood. *It never disappoints.*

Swellings—"I had a swelling on my chest. It caused me great pain and many sleepless nights. Physicians advised an operation but my daughter urged that I take Hood's Sarsaparilla instead. I did so and after using six bottles, the swelling went away and I have not had any more pains." MRS. J. W. CRONKWRIGHT, 432 Front St., Belleville, Ont.

Erysipelas—"I would strongly urge the use of Hood's Sarsaparilla for erysipelas or any scrofulous disease. I have received great benefit from Hood's Sarsaparilla for the former complaint. It is an excellent blood purifier." MRS. H. D. WEST, Church Street, Cornwallis, Nova Scotia.

Rev. Mr. Bastow's View

Rev. Mr. Bastow, the esteemed pastor of the Baptist Church, has a high opinion of The Times. He says the paper is a credit to the town, giving, as it does, all the latest important news. Mr. Bastow is right. This great family journal is chuck full of the cream of events transpiring in all parts of the globe, which it gets by telegraph. In fact it is the only paper between Toronto and Ottawa that has a regular telegraphic service. Most of our contemporaries get their "telegraph" matter in plate, shipped daily from a type-casting foundry in Toronto, where the type is set by Toronto printers, while this g. f. j. spends its good money amongst local printers. Our business men, we fear, sometimes forget this when distributing their advertising.

The Stanley Piano Co. requests all purchasers of Pianos to communicate direct with or call at the Factory, where Mr. Stanley will take pleasure in showing the special merits of the Stanley Piano, which no doubt has contributed to the great success and rapidly increased sale experienced by the Company.

NAPANEE BANK BILLS TURN UP IN DETROIT

Two Men Arrested There With Four Hundred of Them--Were Brought Before Magistrate.

Detroit, Nov. 27—James Simpson, a cigarmaker, of Montreal, and Louis Metheis, street car conductor, Rochester, were arrested here yesterday for passing bills which had been stolen from the Dominion Bank at Napanee two years ago. The arrest recalls the sensational Ponton trial, as the bills are, according to the alleged confessions of Pare and Holden, a portion of the proceeds of the robbery allotted to W. H. Ponton. This money was supposed to have been placed in a tin box and hidden in a hole about a mile along the railway tracks from Napanee. The bills lack the signature of the then local manager of the bank at Napanee.

Simpson is a cheap fakir. He has picked up about $500 by doing Ontario fairs and tending bar. When arrested he had $396, of which $310 was in Dominion Bank $10 bills; Metheis had $100, of which $90 was in $10 bills. Metheis is merely the tool of Simpson.

ROUND OF WINDSOR.

The men reached Windsor yesterday and made a round of the city, buying trivial articles in many stores, and whenever they made a purchase they changed a ten-dollar bill. Later in the day they crossed over to Detroit and continued the same when they were noticed by William H. Brainerd, who thought they must be passing counterfeit money.

He followed them up and succeeded in conveying word to precinct detectives Nellis and Gill, who were waiting for them at the City Hall as they came down on a Trumbull avenue car. They found the men on the platform and put them under arrest.

PLEADED NOT GUILTY.

The Ontario Provincial police were notified, and came over to interview the prisoners. They soon persuaded them to cross over to Windsor and to stand their trial there, and they were brought before Police Magistrate this afternoon and pleaded not guilty to a charge of passing forged money. Examination has been set for December 4.

Simpson and Metheis laughed at the officers last night and refused to talk, but this morning they told long stories to Capt. Spillane and Chief Detective McDonell. They are big fellows, fat, smooth-faced and about 30 years of age. Simpson is the "wise" one in the opinion of the officers, while Metheis is simply his tool. At first Simpson told the officers that he had saved the money while gambling and "grafting" at numerous fall fairs in Ontario and working as bartender. Chief McDonnell took him in hand, however, and soon elicited the information that he received the bunch of about 400 bills from one of the men who were directly connected with the Napanee robbery. Chief McDonnell refuses to say which of the burglars it was. Metheis is believed to know little of the matter. Simpson picked him up in the eastern part of Ontario somewhere and offered to take him to the West. Yesterday he gave Metheis ten of the bills and told him to blow himself. The pair travelled through Windsor, buying small articles and breaking their $10 bills as often as possible. The same course was followed in Detroit.

POLICE COURT

Several Cases Disposed of Yesterday Morning

At the police court yesterday a young man was fined $5 and costs for assaulting Albert Tambin. The Assault took place on Hunter street Tuesday afternoon.

David O'Brine and Frank Grady, two young boys were charged with stealing whips from the sheds of Charlotte street Methodist and St. Andrew's churches on Sunday last. They pleaded guilty and handed in the stolen articles into court. Magistrate Dumble reserved judgement until 5 o'clock this evening when Grany was discharged, his father having paid in the price of the whips. The other boy was remanded until nine o'clock, when he, too, was discharged.

The Hockey Club Will Prosper

Toronto Telegram—As soon as the frost begins to leave its marks on the glass Peterborough talks hockey, and never ceases until the first robin comes in the spring. The club organized last night, when it elected the best supporter of amateur sports that the town or district possesses to the presidency. That man is good old Harry Kenner, and the club will prosper with him at the head. Ab. Stratton is the first vice-president and F. D. Kerr, barrister, the second vice. The onerous duties pertaining to the secretary-treasurer's office will be in good hands, Lieut. A. W. McPherson, one of the masters of the Collegiate Institute, being chosen to fill the job. Messrs. Kerr and McPherson will represent Peterborough at the O. H. A. meeting on Saturday.

A Powerful Catholic Organization for Political Purposes

New York, Nov. 29.—There is a great gathering of Catholics at the Fifth Avenue to-day in response to the call of Bishop McFaul, of Trenton, N. J. for the holding of a mass meeting in favor of the formation of a Catholic Federation. Delegates from nearly every prominent Catholic club and society in the country are present. The meeting was called because the leaders in the movement believe they are discriminated against as Catholics, and so have called together the representatives of all Catholic Societies in the United States to secure their rights. It was resolved to form a federation for the purpose of influencing legislation and furthering the claims of persons who embrace the Catholic faith. Rev. F. H. Wall, pastor of Holy Rosary Church, New York, mentioned the Indian schools specially as one of the institutions in which Catholics are discriminated against. "The looting of the Catholic churches in the Philippines by the American troops is another instance of discrimination," said the Rev. Father. "The edict of Gen. Wood, of Cuba, refusing to recognise a marriage solemnized by a Catholic priest was iniquitous. No Catholic was appointed on the Philippine commission." Among the largest Catholic organizations in the United States which are to be embraced in the federation are the Knights of Columbus, Knights of St. John, the Catholic Benevolent Legion, the Ancient Order of Hibernians, the Irish Catholic Benevolent Union, the Irish-German Societies of America, the Catholic Total Abstinence Union of America and the Catholic Knights of America, with scores of others of less prominence.

HON. MR. STRATTON FOR PREMIER

Hon. G. W. Ross to Enter Dominion Cabinet and Relieve Mills.

The readers of The Times will be pleased to learn that our popular representative in the Ontario Legislature is spoken of as the man who is to succeed Hon. Mr. Ross, as premier. In this connection the Mail and Empire says:

There has been a rumor afloat in political circles that Hon. G. W. Ross would within a year or two leave the Ontario Government and enter Dominion politics once more. This, according to several prominent Liberals, is the explanation of the Premier's action in stumping both Ontario and Quebec for Laurier during the recent campaign. Neither Sir Oliver Mowat nor Mr. Hardy ever took the active part in Federal politics that Mr. Ross did during the past campaign.

The Mail and Empire learned yesterday on good authority that in a few months' time Mr. Ross will hand over the Premiership to one of his colleagues and enter the Dominion Cabinet.

The Cabinet Minister who will retire in his behalf will be Hon. David Mills, who will give up his portfolio and his seat in the Senate to go on the bench of the Supreme Court.

A shift will necessarily be made in the Cabinet owing to the fact that Mr. Ross is not professionally competent to fill Mr. Mills' post of Minister of Justice. He will, however, enter the Senate.

There are several reasons which would induce Mr. Ross to take the step above outlined.

In the first place his health is not good, and a seat in the Senate would relieve him of the strain of holding as an absentee a difficult constituency.

In the second place Mr. Ross is a comparatively poor man, and in the very probable event of the defeat at the polls of the provincial Liberal Administration he would have nothing to fall back upon. Therefore, a Dominion portfolio is an alluring bait for the Premier.

In the third place the Liberal party in this province is demanding a readjustment of the Dominion Cabinet representation from Ontario. At the recent election Sir Richard Cartwright was too ill to do effective work, Mr. Mulock cost the party many votes wherever he spoke, Mr. Paterson thundered in vain, Messrs. Mills and Sutherland delivered no speeches, and wherever the latter entered a constituency to organize it it was a signal of Conservative victory. The oratorical ability of Mr. Ross is unquestioned, and the Liberals feel that he would be of material strength to them on the stump. He left the House of Commons in 1883 to become Minister of Education in Ontario, and has always maintained a deeper interest in Dominion issues than any of his colleagues.

In the event of Mr. Ross resigning the Premiership, it is probable that Hon. Mr. Stratton will strive to be his successor. Mr Stratton is ambitious, and is not likely to be satisfied with any other position in the Cabinet. His chief rival would be Hon. J. M. Gibson, who of late years has become notoriously indifferent to personal honours, and is expected to drop out of politics altogether in a few years' time.

A Hot Contest in London.

London, England, Nov. 29.—A hot contest is on to-day. Fifty-five seats on the School Board will be filled at the polling to-day. It is a hotly fought contest. It is not a question of religion this time, but a fight between those who wish to advance the schools and those who wish to cut down expenses. The present board has put the elementary school system in fine condition, until it will compare favorably with the New York or Chicago public schools. Some of the present board wish to still further progress, but the Moderates wish to check the advance.

SHOT HIS BROTHER WHILE OUT HUNTING

Sad Affair at Stouffville—Man Named M'Mullen Killed.

Stouffville, Nov. 28—A fatal hunting accident occurred near here on Monday, in which a man named McMullen shot the top off his brother's head, instantly killing him. McMullin was shooting a rabbit over a mound beside which was his brother, who rose up and received the full charge of shot. The coroner, Dr. Sangster, decided that an inquest was unnecessary.

THE DEADLY BOY-HUNTER.

New York, Nov. 28—William Brooks, fifteen years old, of Jamestown, R.I., was killed by a boy companion, who shot at a duck, yesterday.

TRAIN PRECIPITATED INTO A DEEP RIVER

Serious Railway Accident in the State of Pennsylvania.

Beaver, Pa., Nov. 28—The Cleveland night express leaving Pittsburg at midnight on the Cleveland and Pittsburg road ran into a washout half a mile west of Beaver, Pa., at one o'clock this morning and the mail, baggage and express cars jumped from the tracks and plunged into the Ohio river. The three day coaches and Pullman sleeper stayed on land, although derailed, and the 41 passengers escaped with slight bruises. M.S. Casey, of Cleveland, the express messenger, was drowned in his car, which is below the surface of the river. Four trainmen were injured.

Albert Coughnour, of Cleveland, the engineer, who had one foot cut off, was the only one whose hurts were worth mentioning.

The passengers were taken back to Beaver and transferred to another train for Cleveland.

Wrecking trains were sent from the Allegheny depot as soon as word of the accident was received. The clearing of the tracks did not take many hours, but until the flood shall recede it will probably be impossible to recover the train. A large quantity of business mail was in the mail car and considerable valuable and perishable matter in the express car.

The total loss will amount to a large sum.

JUMPED THE TRACK.

Birmingham, Ala., Nov. 28—The engine of an extra west-bound freight train on the Kansas City, Memphis, and Birmingham Railroad jumped the track while running at full speed yesterday evening near Horse Creek, 23 miles west of here. The locomotive turned over down an embankment and was followed by three cars. William Jones, colored brakeman, was killed, and Jesse Wilder, engineer, caught under the engine and so badly scalded that he will die.

CAPE COLONY ON THE ROAD TO RUIN

Boer Sympathizers are Very Active in Stirring up More Strife.

LORD ROBERTS WANTS 8,000 PICKED TROOPS

Situation is Gloomy, Daily Fights at Points Wide Apart Show that the War is not Over yet—Decisive Measures are Required to Stamp out the Disaffection.

Cape Town, Nov. 28—The Times again draws attention to the danger to the peace of the colony that is being caused by the pro-Boers. It declares that unless prompt measures are taken to suppress this propaganda the loyalists will be confronted by the greatest problem they have ever had to face, and it adds that the colony is now being hurried along the road to destruction.

CAPE COLONY SCARED.

London, Nov. 28 — The Daily Mail publishes this morning the following alarmist despatch from Cape Town,—

"The anti-British feeling in Cape Colony is assuming dangerous proportions, owing to the false stories spread of British barbarity in Orange River Colony and the Transvaal. Loyalists fear that the Dutch Congress next week will be a signal for a rising, and they demand that martial law be proclaimed throughout the colony.

"The situation is declared to be graver than at any previous period during the war."

MORE COMMISSIONS.

Ottawa, Nov. 28 — Col. Otter reports that Pte. N. Crooks, H. Company, has been given a commission in the 4th Royal Warwicks. Corp. J. McGee in Royal Field Artillery, and Pte. R. D. Whigham, in 1st Lancashire Fusiliers. Pte. Hugh Proulx has been granted a pension of 18d a day for 12 months.

WAR OF WRATH.

London, Nov. 28—The news of the plot against Lord Roberts, when it becomes generally known, will cause a wave of indignation throught the length and breadth of the country, and may not unlikely breed a strong anti-foreign feeling. There is sure to be a demand for the summary execution of the men who may be found guilty, and for the adoption of more rigorous measures, with the object of putting an end to the barberous mode of warfare now resorted to by the Boers.

KRUGER AND THE POWERS.

London, Nov. 28 — The Vienna correspondent of the Daily Chronicle says he hears that President Kruger has petitioned the powers for arbitration under The Hague Convention, that two powers acceded to his request, but that all the others rejected the petition.

RELIEFS WANTED.

London, Nov. 28—While the reports of the condition of Cape Colony are regarded as somewhat unnecessarily alarming, there is little disposition to take a too roseate view of the general situation. The constant despatch to South Africa of reinforcing drafts, and the daily fights at points wide apart, show the war is not over, and while the statement that Lord Roberts has demanded 20,000 fresh troops is incorrect, it is a fact that he has asked for 8,000 to replace the battalions whose wastage incapacitates them from duty at the front. These reliefs will be despatched, but they will seriously attenuate the garrisons of the United Kingdom, inasmuch as Lord Roberts insists the troops shall be picked men and have seasoned officers.

KRUGER'S TROUBLES.

Paris, Nov. 28—The conversation which former President Kruger had yesterday with the French Minister of Foreign Affairs, M. Delcasse, lacked preciseness. M. Delcasse let it be understood that France had not changed its attitude since he explained the Government's position in the Chamber of Deputies last March. France will not take the initiative in intervention in South Africa, but will not discourage any other country from so doing. On the contrary, she will join in such initiative, if it is taken under such conditions as appear to her to merit an acquiescence.

Mr. Kruger did not formulate any opposition, and did not intimate what he intended to do, but it is believed he will take the first official diplomatic step at The Hague. It is not known whether he will ask Holland to propose mediation, or open other and less clearly defined negotiations.

Sir Alfred Milner's Warning

London, Nov. 29—The British High Commissioner in South Africa, Sir Alfred Milner, warns the Colonial Office that no one should go to South Africa at present with the view of seeking employment in the new colonies unless they have secured an appointment or have ample private means.

THE POWERS AGREED

To Demolish the Wall and Fill up the Ditch Around Tien Tsin

Berlin, Nov. 29—A despatch received here from Tien Tsin, dated Monday, Nov. 26, says,—"The provisional administration here, in which Germany, the United States, Russia, Great Britain, France and Japan, are represented, decided to-day unanimously to demolish the wall and fill up the ditch around Tien Tsin.

Berlin, Nov. 28—The semi-official Berliner Post in the course of an evidently inspired article, replying to the suggestions of more lenient punishments of the guilty officials in China made by the U. S. Government, says,—"Since doubts have been expressed here and there as to whether it is advisable to insist upon death for the ringleaders of the anti-foreign movement as an irrevocable decision, it should be pointed out that such doubt cannot be traced to consideration of humanity, as as if some power regarded such a punishment as too severe. The fact is rather that all the powers are convinced that the ringleaders deserve death, but the question has been raised on various sides as to whether such a measure should be insisted upon from the standpoint of political expedience is concerned. So far as Germany is concerned, she has never insisted upon the execution of specific persons, but has repeatedly declared that she laid chief emphasis upon the harmonious action of all the powers in punishing the guilty. This attitude corresponds with the principle of Germany's policy, which above all else is the harmony of the powers."

Berlin, Nov. 28—The War Office has received the following from Count Von Walderses, dated Pekin, Nov. 27—"Numerous expeditions carried out by the allied troops appear to be bringing about the desired pacification of the country. Remote villages frequently request military protection against Boxers."

SPORTING NOTES

CURLING.

Curlers are again reminded of the social evening at the rink to-night. All curlers are invited.

HOCKEY.

The annual meeting of the Hockey Club took place at the rink on Tuesday night, and was largely attended. The secretary's report was read and accepted. The total receipts were $1,247. There is a balance on hand of $24.71.

The election of officers resulted as follows:—

Patrons and Patronesses — Hon. J. R. Stratton and Mrs. Stratton, Mr. Jas. Kendrey, M.P., and Mrs. Kendrey, Mr. and Mrs. G. W. Hatton, Mr. and Mrs. Chas. McGill, Mr. and Mrs. C. B. McAllister, Mr. and Mrs. W. A. Sanderson.

Hon. President—Dr. Bradd.
Chaplain—Rev. W. L. Armitage.
President—H. R. H. Kenner.
1st Vice-president — A. H. Stratton.
2nd Vice-president — F. D. Kerr.
Sec.-treasurer—A. W. McPherson.

Executive Committee — Jas. McCabe, A. J. N. Terrill, T. F. Matthews, W. J. English, Dr. Andrew Scott, and the captains of the three teams.

Team Committee—H. R. H. Kenner, Jas. McCabe, and the captain of the team concerned.

Delegates to the annual meeting of the Ontario Hockey Association—F. D. Kerr and A. W. McPherson.

Mr. Hollingshead was nominated for captain of the senior team, but explained that his office duties were of such a nature as to preclude possibility of his acting in this capacity. On pressure, however, he consented to assume the duties until the first of the year.

The matter of the captaincies of the Intermediates and Colts teams was left over until later in the season.

It was decided that the fees be fixed at $4 for Seniors and Intermediates and $3 for the Colts. A recommendation will also be made to the rink company that lady ticket-holders be charged an admission fee of ten cents to all matches.

Votes of thanks were passed to the officers of last year, to Mr. James McCabe, to Mr. Dillon and to Mr. Angus McIntosh.

MUST BE STOPPED

Police Magistrate Dumble's Pointed Remarks Yesterday

In a charge against two lads who were up before the magistrate for stealing, the evidence prompted the magistrate to give utterance to his firm determination to let the boys of this town understand that they cannot do as they please. There is no doubt that Mr. Dumble's remarks are timely and it is none too soon that this restriction on the part of the authorities has been taken, if the epidemic of petty thievery and incipient crime is to be stopped.

Had the evil disposed heard the magistrate speak, they would perhaps more effectively realize that he means what he has said.

THE WONDERLY GOLD MINING COMPANY, Limited

CAPITAL $1,000,000, Divided into Shares of $1 00 each.

Incorporated under Ontario Laws. Non-assessable.

This Company was formed for the purpose of purchasing and working seven gold claims on the Saskatchewan river, near Edmonton.

These claims have been worked some, and in the summer of 1900 D. F. Loveland, the former owner and president of the Company, had a dredge at work, and although only able to handle 200 yards of earth per day, there was from $30.00 to $50.00 of gold taken from that amount of earth daily, and thus demonstrating beyond doubt the great value of these claims.

The Company proposes to purchase one of the Risdon dredges, with a capabity of 2 500 cubic yds. a day.

The expense of running such dredge will be about $175.00 per week, and even if the dredge handles only 1,000 cubic yards a day, in six days, there will be taken out $1,500.00 worth of gold, with a profit of $1,325.00 in one week.

Sufficient stock will be sold at 25 cents per share to raise money to purchase the necessary dredge, after which the books will be closed and no more stock will be offered for sale.

There is no gold proposition on the market to-day equal to this one.

Application for stock can be made to any of the Directors, or to the Secretary, or to W. T. McNeil, broker, St. Catharines.

OFFICERS:

PRESIDENT—D. F. Loveland, capitalist, Galena, Illinois.
VICE-PRESIDENT—Arthur P. Forster, mechanical engineer, Welland.
TREASURER—Dr. T. G. Wonderly, Galena, Illinois.
SECRETARY—L. Clarke Raymond, barrister, Welland, Ont.
BANKERS—The Imperial Bank of Canada, Welland, Ont.

THE DIRECTORS are: The President, Vice-President, Treasurer, S. H. Glasgow, physician, Welland, and W. T. McNeil broker, St. Catharines, Ontario.

Subscriptions payable 25 per cent, on application, and 50 per cent. in two months.

Brokers desiring to handle stock in this company will please communicate with W. T. McNeil, official broker, St. Catharines, Ont.

THE CARE OF THE INSANE

It is high time something was done about the matter of lunatics in the jails of Ontario. It seems that there are now 49 of these poor unfortunates in the Toronto jail, most of them with very meagre accommodation. The same thing, to a different degree, exists elsewhere in the province. The explanation is, of course, that the asylums have no room. There has been no extension of asylum accommodation for the laat en years, while the population of the country has materially increased. It is said that there is no ground for alarm as far as lunacy is concerned; that is, insanity is not increasing out of proportion to the growth of population. We are not by any means certain of this. If we mistake not, the ratio of insane to the total of inhabitants is gradually rising. What causes this is a much-sidcussed question. No doubt the excitement and anxiety of modern life and the fierce struggle for existence under the competitive system, are no unimportant factors. Then the families of those affected mentally are much more ready to avail themselves of the advantages which asylums offer than was formerly the case. A half-century or so ago asylums were looked upon with distrust and aversion. And rightly so. But all this is changed now, as a result of the increased care and sympathy happily so characteristic of our present system. At any rate, the jail is no place for an insane person; and the asylums must be enlarged to provide for the increased calls upon them. The Government, which is certainly deserving of credit for the general improvement in the Provincial asylums and other similar institutions, will no doubt attend to the matter without delay. It must not be said of the Premier Province that it neglects those unfortunates within its borders whose reason has suffered eclipse.

MR. FOSTER A NECESSITY.

The immediate leader of the Conservative party must be the Hon. Mr. Foster, for whom a seat will be found, if not in West Peterborough, then in some other constituency. It would be an incalculable loss to the party, to the country, should this man disappear from country life. As a fiancier as a debater, he is without a peer in parliament. As a critic he reaches the breadth and seriousness of the leaders of the Opposition in the Imperial Parliament, for while he pours ridicule upon his opponents, he also deals with the issue with the sense of dignity and responsibility. He is thoroughly informed, not merely upon political questions, but upon subjects which have a literary and philosophical interest, and while he can manipulate figures and make them eloquent, he is equally at home with the academic subject, treated at leisure, with polished periods, with classic diction. He has, moreover, made himself felt in a remarkable manner, both in office and in opposition. He was always the ablest exponent of the Conservative policy. He insisted upon the traditions, upon the dignity and national importance of the Conservatives. He had eloquence and invective, but chiefly he presented an orderly argument in so lively and attractive a manner that he was always listened to throughout his longest speeches with the utmost interest. In Opposition his power of sarcasm found free vent, and he made use of them to the full. A man like this cannot be spared. Other names have been suggested. A man like this must be given the supreme place. Other men may advise, may be trained for eminent service, but Mr. Foster is the man who will give the party value and prestige in the House and before the country.

TO SLAUGHTER A PEOPLE?

Some United States contemporaries take a rather pessimistic view of the situation in the Phillippines, where the war seem to be merely beginning. The Filipinos, who helped the United States to oust Spain, are evidently determined to fight to the death in the effort to avoid being made a merely subject people, deprived of any share in the government of their country. At this distance, and in view of the spirit shown by them, one is led to conclude that if the United States Government could secure a compromise which would utilise the men who have offered such vigorous resistance to conquest the result might be beneficial al lround. When one reads in influential papers like the Philadelphia Record opinions such as we quote below, one cannot but regret that a means of giving the Filipinos some interest in their own government should not be adopted. The Record says:

If it shall continue to be the policy of our Government to hold the Philippines as a *subject colony* it will be necessary for Congress to provide at an early day for the enlistment of an army large enough to annihilate the Filipinos. The announcement of Senator Hanna that he favors an army of 70,000 or more men is virtually a declaration that there will be no change of purpose as to the Philippines; and the report of General MacArthur fully warrants the belief that there will be no settlement of the trouble until the last Filipino shall lie dead in the trenches. Beginning in February next the Government will bring back to the United States all of the present army who may survive disease and the bullets of the native sharpshooters, as the terms of service of all the troops will have expired by July 1. General MacArthur says that teh number of deaths among our troops has steadily increased, and that a lowering of the death rate cannot be expected; that "the number of men shot from ambush by small guerilla bands exceeds those killed at any previous time;" that "as time progresses and the men become more and more debilitated by the tropical service the more marked will become the ratio of deaths," and that "at present and for many years to come the necessity of a large American military and naval force is too aparent to admit of discussion."

It is obvious that all efforts to induce the Filipinos to accept the conditions proposed by the Administration or to force them to submit have failed. General MacArthur affirms that there is complete unity of action among the entire native population" against the United States. The only inference to be drawn from the report of the General in command is that in order to affect the purpose of our Government the natives of the Philippine Islands must all be killed—annihilated to a man. From the same report it is clear that we must lose thousands of our soldiers by disease and bullets, and that in "the many years to come" the support of a large army in the distant islands will cost millions of dollars.

Unions Good for Sleeplessness.

One of he best and simplest cures for insomnia is said to be the odor of raw onions. They should be mashed to a pulp in order to free all the juice. Smell this substance for ten minutes after retiring. It is said to quiet the most nervous person and relax the most overwrought nerves.

Onions contain a form of opium. This gives them soporific qualities. The smell after a litle while ceases to be obnoxious. People who are exceedingly sensitive to ordor will feel no unpleasant effects. It will not induce headaches or nausea as migh be supposed. A gentle lethargy steals over the person heretic enough to try this means of wooing slumber. The senses become dull, the nerves weakened and restful sleep follows.

The medical properties of onions are well known. One eaten raw every night just before retiring for a month in the spring is recommended to produce a clear, fresh complexion.

An onion plaster will relieve hoarseness and inflamation. Raw onions mashed and applied as a poultice to the throat will relieve sore throat. The same poultice on the chest is effective in cases of bronchitis and where there is soreness in the lungs. At least onions enthusiasts claim that all these things are true.

Salutes.

Originally, a town or a warship fired off its guns on the approach of friendly strangers, to show that they had such faith in the visitors' peaceful intentions they didn't think it necessary to keep their guns loaded.

The Dawn.

The struggling politician, who looked like Hanna, burst in upon his wife, toward the close of an Autumn day.

"At last, my darling; at last!" he cried.

And his wife laid to one side the sock she was darning, and rose, that he might press her madly to his breast.

"What is it, dear?" she asked, with lightning eyes after he had done it.

He brushed her tumbled hair back from her brow—gently—with his open hand. The horn handle of a tooth brush protruded from the upper pocket of his waistcoat.

"At last, my own!" he said, looking down into her eyes, "the flame that I have sought so long is beginning to dawn."

She clasped her arms tightly about his neck. A vision of an Aldermanship with paving contracts and other good things flashed across her mind.

"John, oh, John!" she exclaimed, with deep emotion, "have you been nominated for something——"

And he answered, choking with emotion: "No, dearest; but little Earnest shall go to college yet—Dinkelheimer has named a new brand of cigars after me."

And for supper they had pickles with their sausage.

What Makes Home?

Home is made by the family. Without the love which comes with children there may be a house but never a home, in the best meaning of the word. Many a house which was only four walls and a roof has been made a home by the agency of Dr. Pierce's Favorite Prescription. Nature sets her face against childlessness and "Favorite Prescription" works with nature to remove the obstacles to maternity.

"I had been a sufferer from uterine trouble for about three years, having two miscarriages in that time and the doctors that I consulted said I would have to go through an operation before I could give birth to children," writes Mrs. Blanche E. Evans, of Parsons, Luzerne Co., Pa., Box 41. "When about to give up in despair, I bought a bottle of Dr. Pierce's Favorite Prescription and after taking it felt better than I had for years. Felt improved before I had taken one-half bottle. After taking four and a half bottles I gave birth to a bright baby girl who is now four months old and has not had a day of sickness. She is as bright as can be. I cannot say too much in praise of Dr. Pierce's Favorite Prescription."

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits Enormous success. One agent sold 60 in one day. Sample and terms 25 cts (none free); four for 80 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00 Write to day for a dozen and make money. Dear Sirs,—In accordance with your wishes I have had both the red and white wines and the champagne tested by several connoisseurs, French and English. All of these expressed surprise that an article of such merit was produced in Canada, and even manufacturers admit that the brand "L'Empereur" is of excellent quality.

This opinion from critics who are by no means easy to please should be very satisfactory to you, and it gives me pleasure to congratulate you upon it. Yours faithfully,

A tiny imp of curious mien,
Arrayed in crimson slashed with green
Came dancing o'er the hill at morn,
To where I wandered all forlorn.

And though I knew him—knew him
well,
I laughed to hear each tiny bell
That tinkled on his tasseled cap,
And fondled him upon my lap.

MAN OF ACTION.

John Desmond awoke at 3 in the morning and tossed about in his bed. Within him a fierce struggle between the brain and the heart was in progress. He employed every scheme that he was aware of to court or compel sleep without success.

Suddenly the truth dawned upon him, like a flood of soft warm light. He was in love. The love of his life, compared with which all his past loves were mere idle fancies. The battle was over. John Desmond, thirty, lawyer, athlete, man of the world, was conquered.

Being a man of action, Desmond no sooner acknowledged to himself that he really was in love with Kate Evanston than he resolved to marry her at the earliest possible day.

Kate Evanston was seated at the piano in the drawing room of Mrs. Saulsbury's beautiful home, where she was employed as companion to the lady of the house. The rich light of a middle May evening pervaded the place.

Her fingers wer softly bringing back memories of "Erminie" and other Casino delights as her thoughts traveled back over the past.

After a time she arose from the piano and picking up a number of photographs of John Desmond's friends that lay upon the table, seated herself upon a sofa with her back to the door and proceeded to contemplate each of them.

Desmond returning home early that evening let himself into his aunt's house very quietly with his latchkey, hoping to catch Kate at the piano in the middle of one of the sweet airs he had grown of late to love.

He approached the great drawing room doors and took a peep through the crevice which separated them. In an instant his heart seemed to cease beating with almost electrical suddenness, for the sight which . 's maddened brain encountered filled him with rage and jealousy.

With a heart of ice and lead he was about to turn to leave the house as noiselessly as he had entered when the sinking sun shot a ray of light through the room and revealed something which made the blood course faster through his body than it had ever coursed before. Then he turned away, and, closing the door very softly behind him, descended the front steps of the house and passed down the street.

Mrs. Salisbury and Miss Evanston were at their dessert that evening before John appeared. He had left word in the morning that he might be detained until a late hour, and so they had not waited dinner for him.

Mrs. Salisbury noticed that her nephew seemed to be laboring under considerable restraint and bluntly asked him the cause; but the good body's solicitude met only with evasion and she presently gave up all attempts to draw anything from him and retired early to her room, leaving John and Kate together.

No sooner had Mrs. Saulsbury quitted the dining room than Desmond turned to Kate and said:

"Miss Evanston, I'm going to ask you to do me a favor."

Kate looked at him inquisitively.

"I want you," he continued, "to accompany me on a bit of a shopping tour, I've got a peculiar mission to execute and I want your help. Will you do it?"

"To be sure. I shall be most happy, Mr. Desmond," Kate answered, "and if you'll excuse me I'll be prepared in a very few minutes."

The streets were dark by the time they left the house for the shopping quarter of the town, and Kate took Desmond's arm. They had walked for a few moments in silence when Desmond said:

"I want to explain this errand to you and no doubt you, too, will think it peculiar. As a matter of fact, I've been commissioned to arrange for the wedding of two very dear friends."

"Two couples," Kate asked,, quietly.

"Why, no! only one couple; a man and a woman," John answered, somewhat puzzled at the question.

"And was she a very dear friend?" the girl on his arm asked.

"Yes; the dearest friend I ever had among women; in fact, the only woman I ever really cared for."

In a moment John was half sorry, half glad he had said this, for he felt the little hand of his companion withdraw until only the tips of the fingers rested upon his arm. "That's a good sign," he mused.

For a moment nothing was said; then Miss Evanston broke the silence.

"And didn't she care for you?" she asked.

"Yes," he replied. "She loved me and she still loves me."

Presently Kate's curiosity got the better of her judgment and she asked: "And the man—you say he's a dear friend, too?"

"Yes," replied Desmond, "the only one I ever trusted absolutely."

"And does he know that you love her and that she loves you?"

"He knows absolutely that I love her and he is mighty certain that she loves me."

Kate was now thoroughly mystified.

"And which of them asked you to arrange for the wedding?" she asked.

"He did," replied John curtly.

Kate could only say: "Well, this mission, as you term it, certainly is inexplicable."

"Oh, no, it isn't," said John. "It will all seem quite simple when the explanation comes, if any is needed. In fact, I think it will explain itself. Just you keep those eyes of your open and you'll see it all very shortly."

Presently John touched his companion slightly on the arm and drew her into the shop of the village jeweler.

"Now, I want you to pick out the kind of a wedding ring you think the bride should get," he said.

When he had paid and pocketed the plain gold band they resumed their walk down the village street and stopped at the local office of a great metropolitan daily and Desmond, leaving Kate at one side, went up to the desk and wrote out a brief notice and was about leaving with her when the advertising clerk called after him and said that he had not told him when he wished the notice inserted.

"Why, to-morrow, of course," Desmond replied.

"Now, then," said John, as they turned into a side street, "we'll go and make arrangements for the parson to tie the knot and then we will have finished our mission."

They turned into the gravel walk leading to the Rev. John Barclay's house and had just reached the vineclad porch when Desmond stopped suddenly, as if he had but that moment thought of an important thing and, turning to Kate, who was standing close to him, almost whispered: "I want to ask another favor of you," bending his face close to hers, "I want you to let me kiss you before we go in there." And it was done in a moment.

Before Kate could recover from the perfect amazement into which John's action had thrown her he had dexterously drawn her arm through his and, leading her up the steps, had rung the door bell.

The Rev. Mr. Barclay answered the metallic summons in person and gave John a most cordial welcome, which surprised Kate, for she had supposed John an agnostic and didn't think that he numbered members of the clergy among his intimates.

"Mr. Barclay," began John, when they had entered the snug parlor, where the good gentleman's wife was seated doing some fancy work, "I've come over to-night to arrange for a wedding and I want you to perform the ceremony."

"When is it to come off?" asked the clergyman, consulting a small date book which he drew from his waistcoat pocket.

"Immediately," said Joan.

The Rev. Mr. Barclay cast a quiet glance at Kate.

"And who are the parties to be married?" he asked.

John took Kate's hand in his own and answered firmly: "This lady, Miss Kate Evanston, and myself."

Kate could not believe her ears. She stared at John in amazement. He hastened to reassure her.

"You're excited, my dear Kate. Calm yourself."

The whole truth had come to her. The explanation of the mysterious errand was solved. She looked into John's eyes and read love unspeakable and her own answered in kind. She went through the ceremony like one in a dream and feared it was a dream and hoped if it were she would never awaken.

The parson tied the knot and John slipped the ring which Kate had selected upon her finger and then the parson insisted upon his osculatory perquisite, and then they started for home, both supremely happy. All the way back Kate clung strongly to John's arm.

Before they had quitted the Barclay garden Kate said to Desmond: "Why did you want to kiss me before we went into the house?"

"I'll tell you," returned John, promptly. "You see, Barclay and I were classmates. I know his propensities, and I didn't want to suffer the reflection in after years that he had kissed my wife first."

When the happy couple reached their home Kate said:

"You are the most audacious man I ever met. You bought the ring and even inserted a notice of our marriage before you asked me to marry you. Tell me why you did not ask me first? How did you know I'd not refuse to marry you and make a scene in the minister's house?"

And Desmond answered: "When a man of action sees a girl kissing his picture he knows that the time for action, not words, has come, and he carries her off to the parson."

Kate blushed furiously, and pressing her face against his shoulder, whispered ever so low: "I love an audacious man."—Chicago Daily News.

Stomach to Fit.

During Sherman's "March to the Sea" rations were often scarce. One day an officer found a soldier eating a persimmon, and said to him, "Don't eat that, it's not good for you." "I'm not eatin' it because it's good," he said, "I'm trying to pucker up my stomach so as to fit the rations uncle Billy Sherman's a-given us."

250,000 Cured.

WE CURE STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, small, twisting stream, sharp cutting pains at times, slight discharge, difficulty in commencing, weak organs, emissions, and all the symptoms of nervous debility—they have STRICTURE. *Don't let doctors experiment on you*, by cutting, stretching, or tearing you. This will not cure you, as it will return. Our NEW METHOD TREATMENT absorbs the stricture tissue; hence removes the stricture permanently. It can never return. No pain, no suffering, no detention from business by our method. The sexual organs are strengthened. The nerves are invigorated, and the bliss of manhood returns.

WE CURE GLEET

Thousands of young and middle-aged men are having their sexual vigor and vitality continually sapped by this disease. They are frequently unconscious of the cause of these symptoms. General Weakness, Unnatural Discharges, Failing Manhood, Nervousness, Poor Memory, Irritability, at times Smarting Sensation, Sunken Eyes, with dark circles, Weak Back, General Depression, Lack of Ambition, Varicocele, Shrunken Parts, etc. GLEET and STRICTURE may be the cause. Don't consult family doctors, as they have no experience in these special diseases—don't allow Quacks to experiment on you. Consult Specialists, who have made a life study of Diseases of Men and Women. Our NEW METHOD TREATMENT will positively cure you. One thousand dollars for a case we accept for treatment and cannot cure. Terms moderate for a cure.

CURES GUARANTEED

We treat and cure: EMISSIONS, VARICOCELE, SYPHILIS, GLEET, STRICTURE, IMPOTENCY, SECRET DRAINS, UNNATURAL DISCHARGES, KIDNEY and BLADDER Diseases. CONSULTATION FREE. BOOKS FREE. If unable to call, write for QUESTION BLANK for HOME TREATMENT.

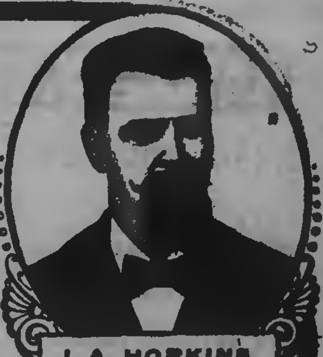
A WONDERFUL

KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.



I. A. HOPKINS.

BRIGHT'S DISEASE, GRAVEL, DROPSY,

And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, *Chairman Board of County Commissioners, Ellsworth, Kansas*, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; *I was troubled with Indigestion from taking Medicine for my* Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me and I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind that I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began *to feel the good effects of Alkavis. My Kidney Trouble and* Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 58 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. E. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all *forms of* kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invig*orated*. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 508 Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

PRICES AND TERMS

PRESENT PRICES—We are now selling our fully paid and non-assessable TREASURY SHARES at 5 cents per share, in blocks of 100 shares and more; 100 shares, $5; 1,000 shares, $50; 5,000 shares, $250; or 10,000 shares or more at the same rate. Send your order right NOW, before the next advance, as you will soon pay a higher price. Investors are rapidly investing with us.

The company fully prepays all government revenue, postage, etc. Send also for our handsomely illustrated prospectus, which contains much valuable information. It is free for the asking.

All communications of every nature concerning this company should be plainly addressed to

Turkey Shooting Match.

A royal day's shoot is promised on Thursday next, Dec. 6th, at Chemong Park, when a turkey shooting match will take place. 100 choice birds have been purchased, and will be competed for. Sports with rifles, pop guns, pea shooters, or any old son of a gun, will be made welcome. Sport begins at 10 a.m., sharp.

Canadian Patents.

For the benefit of our readers, Messrs. Marion & Marion, Patent Attorneys, Montreal and Washington, furnish us with a list of patents recently granted to inventors by the Canadian and United States governments, through their agency: Alphonse Vezina, Hedleyville, Que., car coupler, Joseph Skerry, New Rose, N. S., weather strips, Joseph A. Mineau, Louiseville, Que., feed cookers; Samuel Hampton, Rapid City, Man., rotary plow.

All Saints' Concert Course.

Mr. D. Adna Brown is in town in connection with the course of entertainments to be given during the season under the auspices of the choir of All Saints' Church. The first of the series will take place on the evening of first Monday in December, and will be given by the Patricolo Grand Concert Company. This first-class organization consists of four celebrated musicians, of world-wide fame. They carry their own grand piano. Their daily expenses average $100, and their weekly salaries amount to $550. Subscriptions have been opened for tickets for the course, and as might be expected, a hearty response is being given.

The Tramp Nuisance

The action of the Attorney-General's department last year did much to rid us of roving tramps. The same course is being taken this year, and men of leisure without means will soon be found shelter and work for the winter—the latter very much to their distaste. When men tramp because they cannot get a fair chance to earn a living they desire sympathy and well-directed help; but when they tramp from love of such vagrant life and prey upon society in preference to earning food and lodging the law does well to lock them up and make them realize the force of the scriptural fiat that "if any would not work neither shall he eat."

Lending the Paper.

The Palmerston Spectator man is down on the subscriber who lends his paper to his neighbor, and his remarks are of general application: A subscriber to The Spectator called at the office yesterday, paid the amount due on subscription and discontinued the paper, at the same time expressing regret at having to do without it for a time, and stating that the only reason for discontinuing was the intolerable annoyance caused every week by neighbors borrowing the paper almost as soon as it came, sometimes not returning it, and sometimes even sending it away to friends. It is a small matter, perhaps, but it is worth while reminding people who thoughtlessly make a habit of borrowing their neighbor's paper, that it is both an annoyance and an imposition. In the average family a weekly newspaper will lie around and be read at intervals during the week often there is something in that they wish to keep; often they have not time to read at once, and put it aside for a while. In any case, they are likely to be annoyed at having to lend it.

JOTTINGS ABOUT TOWN.

—Four weeks to Christmas.

—Curlers' social to-night, at the rink.

—A few inches of snow would be welcome.

—WANTED—A bell boy. Apply at the Crown Hotel.

—There was a special meeting of the Ramblers' social club last night.

—The work on the City of Peterborough is progressing satisfactorily.

—The contractors propose to work every available day during the winter on the lift lock.

—Lieut.-Col. E. B. Edwards reviewed the High School Cadet Corps at the drill shed yesterday afternoon at 4.30.

Dr. Brown is having an X ray apparatus put in his office. This is the only one between Toronto, Kingston and Ottawa.

Salt rheum, with its burning, stinging sensation, is due to poor blood and is cured by Hood's Sarsaparilla, the great blood purifier.

—Mr. LeBrun secured a very satisfactory settlement from the insurance companies in connection with the fire that destroyed his store at Campbellford.

—It is reported that a certain popular club has become so desperately exclusive that it is liable to become a formidable rival of the Lime Juice Club.

—Trooper L. B. Scott, of the Strathcona Horse, who lost his life through an accident recently, in South Africa, is a cousin to Mr. J. G. Scott, of this town.

Toronto Telegram—A. A. Hollingshead, of Peterborough, has decided to give up the captaincy of their hockey team, as his position in the bank takes up all his time. 'Holly' has made a most capable captain and will be greatly missed.

—Mr. G. H. Williamson, secretary of the local Y.M.C.A., left yesterday morning for Belleville, where he will meet the convention committee, of which he is chairman, to draft out a programme for the annual Y.M.C.A. convention.

—Lindsay Post—Steam power is about to be dispensed with at the Flavelle Milling Co.'s elevator. An electric motor of powerful capacity is being installed by a Toronto expert and the machinery will be operated by power transmitted from Fenelon Falls.

—Four boys have been sent to the industrial school at Mimico from Lindsay by Police Magistrate Steers. The county will have to foot the bill to the extent of $416 per year, and the county council has censured the magistrate.

—The day for receiving nominations of candidates for the office of County Councillors throughout the province, will, this year, be Monday, the 24th day of December, one week previous to the nominations for reeve and councillors in all local municipalities.

Where Doctors do agree!—Physicians no longer consider it catering to "quackery" in recommending in practice so meritorious a remedy for Indigestion, Dyspepsia and Nervousness as South American Nervine. They realize that it is a step in advance in medical science and a sure and permanent cure for diseases of the stomach. It will cure you.—40

SOCIAL AND PERSONAL.

—Mr. W. A. Stratton, Q.C., was in Lindsay on Tuesday on business.

—Mrs. W. A. Sanderson is visiting friends in Toronto.

—We are pleased to see that Mr. F. H. Dixon is able to be out again.

—G. S. Joyce, of Norwood, was in town yesterday, and gave the Times a call.

—Mr. George Carruthers, Supervisor of the International Correspondence School, is registered at the Oriental.

—Mr. T. Blezard, M.P.P., was in town yesterday, and gave the Times a friendly call.

—Mr. A. J. Matthews, who recently returned from South Africa, has left for Ottawa to resume his old position with the George Matthews Co.

—Mr. D. Adna Brown, of Belleville, is in town in connection with All Saints' Concert Course, the first entertainment of which will take place on the evening of Monday, December 10. Mr. Brown is a lieutenant in the 49th regiment, and takes great interest in military as well as musical affairs.

LOCAL NEWS-LETTERS.

OMEMEE.

The village was brisk with teams on Monday delivering turkeys for Dundas & Flavelle, of Lindsay. There were about one hundred loads, some bringing from $40 to $50 each for live turkeys, to be shipped to England.

Farmers were rejoicing to-day at the good markets here for hogs and turkeys, and are not very badly displeased (even the worst Tories) at the Laurier government proving such a good friend.

A number of people drove to Peterborough last Saturday and sold their potatoes, butter, etc., at good prices.

Kennedy & Nicholl's mill is shut down; their men are going in the woods south of here.

Holiday entertainments are being perpared, for the Methodists will have a S. S. anniversary in the near future, and the Episcopalians a bazaar.

The Presbyterians will hold their annual concert 1st of January, when Owen Smiley is engaged.

The Stanley Piano Co. requests all purchasers of Pianos to communicate direct with or call at the Factory, where Mr. Stanley will take pleasure in showing the special merits of the Stanley Piano, which no doubt has contributed to the great success and rapidly increased sale experienced by the Company.

COUNTY COUNCIL ELECTIONS.

The Campaign is Warming up in Some Localities.

There is quite a stiff campaign for the County Council now going on. In the Norwood district, in addition to the old councillors—Messrs. J. P. B. Pearce and Wm. Buck—Mr. John Brown, of Belmont, is out, and Mr. G. S. Joyce, of Norwood, an old and experienced county legislator, is also likely to be a candidate. Mr. Joyce sat in the County Council for three years, and is therefore well qualified for the position.

In the Lakefield-Douro Division, Mr. W. H. Casement, of Lakefield, is likely to stand. He is sure of election, for no better councillor ever sat around the board.

There is an exciting contest in the Smith Division, when Messrs. Geo. W. Fitzgerald, T. M. Hunter, —— Armstrong, (Reeve of Smith) and P. Costello, Reeve of Ennismore, are in the field. Mr. Fitzgerald has been a member of the Council for four years, and is sure of re-election. He will, in all probability, be the next Warden, as he is held in high esteem by his colleagues. Both Mr Armstrong and Mr. Hunter are most capable men. They will have a big battle for second place.

We have not heard of any opposition in the Otonabee or in the Burleigh divisions. These districts are represented by men who are popular and efficient, and there will not likely be any opposition to their re-election.

THE LUMBER OUTPUT.

Season's Cut in Ottawa and Vicinity is worth Twelve Millions.

Ottawa, Nov. 29.—As far as cutting operations in the Ottawa Valley are concerned, the season is now almost over. Every mill is running hard to wind up operations before the frost sets in. The cut this year is somewhat in advance of 1899, which can easily be accounted for by the big fire in April last. The conflagration was the immediate cause of a large demand, and a considerable shortage at the same time, and, of course, this made the big mills run night and day to meet the requirements.

The cut in Ottawa and immediate vicinity will probably exceed 400,000,000 feet up as follows: J. R. Booth, 80,000,000, Gilmour & Co. 35,000,000; Hurdman & Co., 20,000,000; W. C. Edwards & Co. (Ottawa mills), 35,000,000; W. C. Edwards & Co. (Rockland), 65,000,000; McLaren & Co. (Buckingham), 40,000,000; McLachlin Bros. Arnprior; Gillies Bros., Braeside, and Pembroke Lumber Company, and other small mills, 200,000,000 feet. not counting many small mills up the Gatineau and around Ottawa, within a radius of fifty miles. which would likely bring the sum total to nearly eight or nine hundred millions. Taking this figure and the selling price at an average of $15 per thousand feet, make the output worth about $12,000,000.

THE LIGHT OF THE WORLD
or
OUR SAVIOUR IN ART.

Cost nearly $100,000 to produce. Contains nearly 100 full-page engravings of our Saviour and His Mother by the world's greatest painters. True copies of the greatest Masterpieces in the art galleries of Europe. Every picture is as beautiful as a sunrise over the hilltops. Contains description of the paintings, biography of the painters, the names and locations of the galleries in Europe where the original may be seen. Also contains a Child's Department, including a Child's Story of Christ and His Mother, beautifully written, to fit each picture. This wonderful book, matchless in its purity and beauty, appeals to every mother's heart, and in every Christian home where there are children the book sells itself. Christian men and women are making money rapidly taking orders. A christian man or woman can in this community soon make $1,000 taking orders for Christmas presents. Mrs. Waite, our agent in Massachusetts, has sold over $3,000 worth of the books in a very short time. Mrs. Sackett, our agent in New York, has sold over $1,000 worth of the books in a very short time. The book is printed on velvet-finished paper, beautifully bound in Cardinal Red and gold, and adorned with Golden Roses and Lilies. It is, without doubt, the most beautiful book of this century. CANADIANS NOW IN ENGLAND

Detachment of 260 Men now in London.

WELCOMED BY STEWAR

The General Says Englishmen Rejoice at Their Brave Deeds.

London, Nov. 30—Lord Roberts cables from Johannesburg under date of Wednesday, Nov. 29—"The Dewetsdorp garrison of two guns of the 68th Field Battery with detachment of Gloucestershire regiment, the Highland Light Infantry and Irish Rifles, four hundred in all, surrendered at 3.30 p.m., November 23. Our losses were fifteen men killed and 42 wounded, including Major H. J. Anson and Capt. Digby. The enemy is said to be 2,500 strong. Fourteen hundred men were despatched from Edenburg to relieve Dewetsdorp, but they did not succeed in reaching there in time. Knox joined this force and found Dewetsdorp evacuated. 75 sick and wounded had been left there. Knox pursued and is reported to have successfully engaged Steyn and Dewet near Vaal Bank November 27. They retreated west and southwest. Knox's messenger failed to get through, so I have no details.

London, Nov. 29.—A detachment of 260 men belonging to the Royal Canadian Regiment, Colonel Otter commanding, which have just reached England from South Africa by the Hawarden Castle, arrived in London to-day and proceeded to Kensington Barracks. Since their arrival at Southampton, where they were welcome by Maj.-Gen. Robert MacGregor Stewart, the Canadians have been greeted everywhere with tumultuous applause.

Gen. Stewart made a brief speech to the Canadians, during which he said Englishmen rejoiced at their bravery and deeds just as much as they rejoiced over the honors achieved by the home troops and their kinsmen from all the colonies broubht together by the war.

Col. Otter expressed his thanks for the sympathetic utterances and the Canadians took the train for London.

The contingent consists of Companies A, B, and 1. The composite regiment of the Household cavalry also returned on the Hawarden Castle. The troopers' arrival in London was marked by the scenes of enthusiasm which have so often been rehearsed in the metropolis during the past year. Great crowds awaited the cavalrymen, and the cheering was lusty and long throughout their march to their quarters. Paddington, where they detained, was ablaze with color, as were the streets along the route. Several regimental bands added to the general gaiety, and the throngs sang "God Save the Queen" in chorus.

The Canadians will proceed to Windsor to-morrow morning and will be there reviewed by the Queen.

CANADIANS IN LIVERPOOL.

Liverpool, Nov. 29.—The Lord Mayor entertained another contingent of homeward bound Canadian troops to-day at the Town Hall. A dramatic feature of the entertainment was a speech made by Private Molloy, who had been rendered sightless by a bullet which traversed both his temples. Molloy, supported by a comrade on each side, related how he left his university to serve the Empire. He said he had no regret for doing so, as the "truly brave should be ready to accept the vicissitudes of fortune with fortitude."

SYMPATHY WITH KRUGER.

Paris, Nov. 29.—The Chamber of Deputies to-day unanimously adopted a vote of sympathy with Mr. Kruger.

KRUGER'S PROGRAMME.

Paris, Nov. 20.—Mr. Kruger will leave here Saturday for Cologne. He will remain at Cologne over Sunday and rest. On Monday he will go to Madgebourg and thence to Berlin, where he expects to arrive Tuesday morning.

GREAT FEAT OF CANADIANS.

Pretoria, Nov. 29.—Gen. Smith-Dorrien's column has returned to Belfast after a five days' march from Bullstraad. They had only one casualty.

On the return journey the Canadians, while scouting, rode close to an ambush prepared by the Boers.

Realizing their position they sprang from their horses, turned them loose, and sent them galloping back to the column. They then sought cover on a slight ridge and poured a hot and accurate fire into the Boers, killing several of them.

They held their position until the column arrived, and did not sustain a single casualty.

FIGHTING NEAR PRETORIA.

Pretoria, Nov. 22.A force of Boers attacked Balmoral yesterday. Colonel Backhouse, with four companies of the Buffs and one Howitzer, defended the place. The Boer plan was to have four commandoes make a simultaneous attack on all sides. Fortunately for the British, only three commandoes arrived in time to take part in the attack. The fighting was severe. The howitzer did splendid work. The British lost six men killed and nine wounded. Thirty of the Buffs were captured, but they were subsequently released. The Boers lost heavily. They sent out two burial parties after the fighting. The British toook a number of prisoners and brought in many wounded, several of whom subsequently died.

Edenburg, Orange River Colony, Nov. 29.—The Boers are most active between the railroad and Basutoland, south of Ladybrand, Thaba N'Chu, and Bloemfontein. Gen DeWet and former President Steyn are near Dewetsdorp. It is believed they are preparing for a descent on Cape Colony for recruits and supplies. As a counter-move two battalions of the Guards, Grenadiers, and 1st Coldstreams hold all the fords of the Orange River from Aliwal North to the Orange River station. But small parties of mounted Boers are able to cross the river almost anywhere. The British have great need of more mounted troops, the capture of DeWet being hopeless without them.

RACE HATRED.

London, Nov. 29.—A despatch from Cape Town says that race hatred in Cape Colony has reached a most critical stage, and that large garrisons will be needed in districts which heretofore have not been occupied by the military.

All the Dutch who formerly occupied a neutral position are now actively assisting the burghers.

This change has been caused by the reports of the burning of farms and the suffering of the Boer women.

FRUITS OF GENEROSITY.

Pretoria, Nov. 29. —Colonels Hickman and Plumer have arrived here. During Gen. French's operations at Klipriverburg their columns captured three wagons loaded with provisions that were identified as being part of the supplies that were distributed by the British for the relief of the Boer inhabitants of Johannesburg.

OUR BOYS WERE WINNERS.

London, Nov. 29.—The Times makes a most eulogistic survey of Canadian achievements during the war, and concludes thus: "Throughout the campaign the Canadians, whether as gunners, troopers, or infantry, proved themselves brave and trustworthy soldiers in the face of the enemy. They have never lacked any of those qualities which marked the contingents from the other colonies, but one misses in them the impatient recklessness of the Australians and the uncertain temper of the African-bred colonial. Canada may well be proud of their behavior, alike in field and camp."

RIVALLED THE BEST.

London, Nov. 29.—All the London journals are printing detailed records of the splendid services of the Canadian contingents which have taken part in the campaign, and paying a high tribute to the fine qualities displayed by them at Paardeberg and throughout the war. The detachment arriving at London will be only about 300 strong, but it will be welcomed with special honors as a representative body of the Queen's Canadian soldiers, who have rivalled the best battalions of the British army in brilliant service and unflinching endurance.

COOMASI CAMPAIGN ENDED.

London, Nov. 29—The following despatch has been received from Col. Willcocks, commander of the British troops at Coomassi, Ashanti, dated November 24,—The campaign is ended. The troops in excess of the garrison will leave here in a few days.

Assistant Bookkeeper Arrested

Cincinnati, O., Nov. 29—Robert Winstett, assistant bookkeeper of the wrecked German National Bank of Newport, Ky., was arrested in this city at a late hour last night, charged with being an accomplice of Frank Brown, who was alleged to be short $196,000 in his accounts. Winstett was taken to Newport and locked up, bail being refused. Brown has not yet been apprehended.

GENERAL KNOX SEIZES DEWETSDORP AND PURSUES BOERS

He Places Himself in Front of the Boer Leader by a Forced March--Col. Pitcher at Close Quarters--Latest Despatch from Roberts Reports British Successes.

Cape Town, Nov. 29—General Knox, by a rapid march of 36 miles, succeeded in getting in front of Gen. De Wet, placing himself between the Boers and the Orange river. Dewet is now believed to be going westward to join Hertzog at Boomplaatz.

Col. Pitcher had a smart skirmish Tuesday, Nov. 27, with part of Gen. Dewet's command, which was convoying loot captured at Dewetsdorp. The Boers retreated, abandoning a portion of the loot and a large number of horses. Former President Steyn and Gen. Dewet were in close proximity to the scene of the fighting, but they eluded the British.

The Boers were so tenacious that Col. Pitcher's men actually reached a position within thirty yards of them, where revolver shots were exchanged.

The Boers shelled the British with 15-pounders captured at Dewetsdorp.

Ex-President Steyn and Gen. Dewet, who were breakfasting at a farm near by, rode off to the westward, leaving the British front clear.

The British casualties were one man killed and six men wounded. Several Boers who had been wounded were found by the British. Steyn and Dewet have since been reported to be encamped to the westward between Helvetia and the railroad, but the command appears to have broken up into three bodies.

District Commissioner Boyle, of Dewetsdorp, remains in the custody of the burghers.

Many farmers in the district have joined General Dewet.

London, Nov. 30—In connection with the movements of Gen. Knox, reported in the despatch from Cape Town, Lord Roberts, in a message from Johannesburg, dated Wednesday, November 28, says that General Knox reoccupied Dewetsdorp November 26. The Boers, he adds, had attacked the place November 21, and the town had surrendered November 24. General Knox, at last accounts, was pursuing the Federal commando.

Lord Roberts reports that various columns found the Boers holding strong positions in the vicinity of Harrismith and Philippolis, both in the Orange River Colony, and other widely separated points. The fighting, however, was of little importance.

NORTH SIDNEY THE FAST SERVICE PORT

With its Deep Water Harbor and Offering the Shortest Sea Route to Great Britain

Montreal, Nov. 29.—The Hon. A. G. Blair, Minister of Railways, was in the city yesterday, on his way to St. Stephen, N.B., to attend a political banquet which is to be given in his honor by his constituents in the New Brunswick port.

It is understood that in the near future the possibilities of the new maritime port of North Sydney will be brought even more prominently than now before the attention of the Minister and the Intercolonial Railway authorities. The prominence given on the map attached to the new I. C. R. folder is held to indicate pretty clearly where the future activity of the Government railway will find its fullest manifestation.

North Sydney possesses an excellent deep-water harbor, capable of accommodating 100 ships, or more if required, and there is already talk of a new fast line of steamers. North Sydney holds the key to by far the shortest route from this continent to Liverpool. It offers the advantage to many people of being 1,000 miles nearer to Europe than New York. A thousand miles less of sea voyage would cut down the ocean trip of the fastest steamships to four days, even if the speed of the ocean greyhounds remains as at present.

RUSSELL SAGE OUTWITTED

Plumber Says that He Has Beaten Him out of $25

Greenwich, Conn., Nov. 29.—Because, as he says, he has outwitted Russell Sage, one of the nearest men living, a plumber in the village of Lawrence, on Long Island, named Holler, thinks he is smarter than any man in Wall street Holler says he made $25 by the transaction and is correspondingly jubilant.

He was, earlier in the fall, engaged to do some repairs in several houses in Lawrence which are owned by Mr. Sage. Holler presented a bill for $22, but the millionaire financier thought it was too much. "I'll give you $18," he said.

Holler took the money and said nothing, though he thought hard. His opportunity came last week, when Mr. Sage sent for him again.

"I'll do that job for $54," said Holler.

"Go ahead," said Mr. Sage.

When the plumber presented his bill a few days ago his face bore a smile. He accepted the criticisms of his employer with suspicious fortitude, and finally receipted the bill for $54.

After putting the money in his pocket he had his revenge. "Mr. Sage," he is quoted as saying, 'I could have done that job for $25 and then made $5, but knowing that you would beat me down I made the price $54. I'm now $25 ahead of you," and then the plumber vanished.

TURKEY IN OBSTINATE MOOD.

U. S. Consul Griscom Makes Little Progress in Negotiation

Constantinople, Nov. 30.—The relations between the United States government and the Porte are becoming acute. Mr. Griscom, the American Charge d'Affaires, went to the Yildiz palace on Sunday and had an interview with Tewfik Pasha, Minister of Foreign affairs, and Tahsin Bey, First Secretary at the palace. The interview, however, was barren of result. While the Porte outwardly persists in the attitude it has assumed regarding the question of granting an exequatur to the United States Consul at Harpoot, there is reason to believe that the despatch of the battleship Kentucky to Smyrna has made a marked impression in official circles.

SPORTING NOTES

HOCKEY.

Mr. W. L. Allen, formerly of town, has been elected president of the Cobourg Victorias' hockey club.

The annual meeting of the Trent Valley Hockey League has been postponed from Saturday next, until Saturday, Dec. 8th.

CRONJE AT ST. HELENA.

Interesting Letter to the Times From St. Helena.

Dr. H. G. Patterson, an American has an Interview with the Boer General, and Writes the Times About It.

The Times yesterday received a letter from Dr. H. G. Patterson, of Buffalo, who for the past two years has been in the service of the British Government. The Doctor is well known in Peterborough, having spent several summers on our back lakes. He is a veterinary surgeon and has made many trips from New Orleans to Cape Town in charge of shipments of horses and mules that had been purchased by agents of the British Government in the United States. The last stop that one made by the ship bearing Dr. Patterson was at St. Helena, where 2,500 Boer prisoners are confined.

"I had a long conversation with Gen. Cronje," writes Dr. Patterson to the Times. "The General and his wife, in fact all of the Boers there, are in excellent health, and the General has no word of complaint to offer on the attentions paid himself and family by the British officers. Cronje had little comment to make on the war. He listened to my reports of the guerrilla warfare maintained by the Boers with great interest. Gen. Cronje greatly admires Americans, but can't understand why some means were not afforded for interference on the part of that Government, when it was known to the Boers that a considerable part of the population of the United States sympathized with them. Cronje appeared to be of the opinion that the war in South Africa would not end as soon as the British expected it would. He says the Boers will be able to carry on the war indefinitely by following the guerrilla practices.

"Lieut.-Col. Schiel, formerly of the German army, who has lent such valuable aid to the Boers, is one of the notable prisoners of St. Helena. Like Cronje, he has little comment to make on the war, but takes in all that is said with evident interest. There is absolutely no chance for the prisoners to escape, although some of the men appear to think there is. The most of them have become reconciled to their captivity, and inasmuch as they are far better fed than when they were in arms fighting for their country, and recognizing it as a useless struggle, they accept conditions and make as much out of life as possible.

"The Boers have the undivided sympathy of the French Consul and the French residents of St. Helena. Cronje and the French Consul are often seen in conference. The French Consul was very courteous to me when I introduced myself as an American. He was profuse in his declarations of the friendship of the French people for the Yankees. In glowing details he recalled the many acts of friendship displayed by his Government for the republic across the seas. The national hatred for the English was patent in almost every sentence uttered during our conversation.

"I found the people of the island very cordial, and I must say that I could not agree with the sentiments of the French residents. It can be depended upon that the English will keep all of the Boer prisoners they have on the island until every band of the Boers has been driven to surrender, and then I do not expect to see the leaders released for some time thereafter. I have seen much of the practical effects of the war, and I confess that when the war began I was inclined to favor the Boers, but the more I saw of them and studied the questions involved, the more thoroughly I became convinced that the British should triumph in the interest of civilization, if for nothing else."

Dr. Patterson goes on to say that the British Government is so well satisfied with the purchase of Canadian and American horses and mules that shipments of large numbers will continue for months to come. The American mule will not only be shipped to South Africa, but he will find service in all the British possessions where beasts of burden are required. Out of 768 horses under the care of Dr. Patterson, shipped from New Orleans to South Africa, he says but fifteen perished on the trip. The sea was unusually rought during most of the voyage. In another trip made by the doctor he had charge of a cargo of mules, 1,000 in number, and of these only seventeen perished. Dr. Patterson says the British Government is very anxious to encourage the raising of mules in the foreign possessions, but that the experiments so far made have not been highly satisfactory. The Missouri quality of the American mule grows to greater size and can stand greater hardships than the foreign-born beast.

Dr. Patterson closed by wishing to be remembered to Jack Holmes, of Burleigh Falls, Tom Eastwood and others.

THE NEW ROAD

The Proposed Electric Railway Between Havelock and Brighton

The Brighton Ensign says:—A meeting of the citizens to consider the subject of the Brighton, Warkworth and Havelock electric Railway, was held in the Town Hall on the evening of Monday, the 19th inst. The chair was occupied by the reeve, J. Gunyo, Esq., who presided with his usual ability. On the platform with him were Messrs. Harden and Barber, the promoters of the enterprise.

These gentlemen unfolded the plan of action, which is to build a line from Brighton Harbor via Hilton, Orland, Codrington, Norham, Warkworth, Meyersburg, Campbellford and Healey Falls, connecting the C.P.R. at Havelock with the G. T. R. at Brighton and navigation at Brighton Harbor. It will run on a right of way of its own and not on the highway as at first proposed, as most electric lines in this country do. It will be substantially built with heavy rails to carry powerful electric locomotives carry powerful electric locomotives drawing a full complement of cars and running quite as rapidly as steam locomotives. It is intended to make the full distance to Havelock, including stops, in 1 1-4 hours.

The promoters ask bonuses of the municipalities along the route aggregating $50,000, of which Brighton township and village are expected to contribute between them $15,000.

A number of large ratepayers, including Sheriff Proctor, T. Webb, Sam Nesbitt and W. J. Lear expressed themselves as favorable to the enterprise, and after considerable discussion it was moved by Sheriff Proctor, seconded by J. W. Gordon that Messrs. J. Gunyo, T. Webb, Sam Nesbitt, W. J. Lear, G. S. Miller, R. J. Wade and the mover and seconder be appointed a committee to confer with the promoters of the railway and with the township authorities and report to the village Council a sketch or outline of a bylaw for submission to the vote of the ratepayers.

Dividends to be Paid

The dairymen of quite a number of cheese factories will hold their annual meeting within the next few days, for the payment of dividends and the transaction of the regular routine of business. This season's record will equal if not surpass that of any year in the history of the cheese industry. Prices began at the top notch, and varied only to take a greater rise. Very little disappointment was caused throughout the season by falling prices.

Turkey to Buy a Cruiser

Constantinople, Nov. 29.—The arrival of the United States battleship Kentucky at Smyrna has so shaken up the Porte that indications are accumulating of a desire to hasten a settlement to the satisfaction of the United States, and issue an irade calling for the purchase of a cruiser at Philadelphia, the price for which to include the $90,000 Armenian indemnity. This is regarded as a subterfuge designed for local consumption, in order to save the self-respect of the Porte. Nevertheless it is now believed that Turkey will find the money, and order a cruiser in the hope of propitiating the United States. Despite the dispute, the relations between the United States legation and the Porte continue cordial.

Y. M. C. A. ANNIVERSARY

A Lecture on South Africa by Dr. Barrie.

A Very Large Audience and a Very Interesting Address in St. Paul's Church Last Night.

The 15th anniversary meeting of the Y.M.C.A. in St. Paul's church last night, was perhaps the most interesting in the history of the society. The feature was the address of Dr. Barrie, who was selected by the Provincial Board to conduct the Y.M.C.A. work in connection with the Canadian Contingent in South Africa. The meeting began with the singing of "Onward Christian Soldiers," and after Scripture reading and prayer, Rev. Dr. Torrance delivered a short address on the past year's work of the Y.M.C.A. In introducing Dr. Barrie he remarked that a sufficient evidence of the success of his mission was the fact that he was presented with a purse of £100 on the returning transport Idaho. After a short explanation of the justice of the war, the turbulent character of the Transvaal Boers, their cruelty to the native races, who they claimed had no souls, and to whom they denied property rights, Dr. Barrie launched into an account of Christian work on the field of battle. They were much aided by the friendly attitude of the great soldiers, foremost and most friendly being Lord Roberts himself. Sir George White had said that he "could depend best on praying men." Methuen, Warren and Wauchope were of like opinion. The Y.M.C.A. workers had the privileges of the officers' mess. The lecture abounded with anecdotes, some humorous, some of touching pathos, among the latter that of a Boer lady who had two sons prisoners at St. Helena and who volunteered to nurse a British Christian worker who was stricken with fever. When on the march or in camp the Y.M.C.A., besides having religious meetings, was able to supply free stationery and their tent was the headquarters for correspondence. The writing to friends of particulars concerning the ends of those who lost their lives was a grateful part of their work. When facing the enemy they occupied themselves usually in carrying stretchers. The lecturer described with becoming modesty his sensations when under fire, and vividly portrayed the daunting features of modern warfare—the enemy invisible, not even smoke to be seen, while bullets sing in the air and throw puffs of dust from the ground, and the direction whence they come cannot be determined. He explained, what is perhaps not generally understood, that in advancing the men do not all go together. While one wing will rise, run twenty-five paces, and then drop, the other wing pours fire upon the enemy, or in the direction where the enemy are supposed to be. Then the other wing makes a rush of twenty-five paces while the lying-down wing fires, and so on. He described the signal service, showing that the heliograph is almost as expeditious as the telegraph. A message can be flashed from Cape Town to Pretoria in a few hours. Touching the hospital service he said that in general it was altogether praiseworthy. The volunteer nurses in the field were invaluable. But the volunteer nurse was a little too much in evidence in Cape Town. One invalid there hung a sign before his tent, "My face has been washed fourteen times to-day." The Y.M.C.A. had been able to spend $5,000 in contributing to the material comfort of the men—conspicuous among the things supplied being soap and towels, for which there was no regular provision. The lecturer described the entry into Pretoria, when the footsore and tired men marched as if on parade, but made no demonstration of triumph. Lord Roberts, with characteristic kindness, having ordered that the feelings of the women and the remaining burghers should be spared.

Nearly every seat in the spacious church was occupied, and the doctor was heard with the closest attention, broken only by an outburst of applause at the close.

PERILOUS VOYAGE OF LAKE MEGANTIC

Sledge Hammer Blows of the Waves Broke Rudder.

HAD TO SCUD BEFORE GALE

Was Blown out of Her Course Two Hundred and Fifty Miles.

Halifax, Nov. 28 — A victim of the many gales which have been sweeping over the North Atlantic during the past two weeks, the mail steamer Lake Megantic, Capt. Taylor, came slowly into port with her coal bunkers empty yesterday afternoon, after one of the most eventful passages she has ever made. The steamer sailed from Liverpool on Nov. 13 and from Queenston on the 14th, with Canadian mails and 253 passengers. At the time of leaving the last mentioned port the weather looked threatening, and before she was twelve hours at sea the storm broke. Soon a heavy sea was raging and the steamer was pitching into it in a way which made it most uncomfortable for all on board. The seas kept pounding at the ship like sledge hammers, and when about 34 hours out the clutch of the rudder suddenly broke, rendering the steamer helpless. The Megantic immediately commenced to fall off, and was soon pitching in the trough of the sea in a most alarming manner. As quickly as possible preparations were made for securing the broken rudder, and notwithstanding the tremendous sea running, two men were put over the side in slings, and by this means chains were placed around the rudder, and the ship was finally brought head to the sea again. After much labor Mr. McNichol, the chief engineer, and his assistants, managed to key on the crosshead, this work occupying the best part of two days, during which time steering was done by hand.

On the third day out the repaired rudder again broke. The steamer was at this time only 180 miles from Cape Race. A heavy gale was blowing from the west, and in order to again make repairs the ship had to be turned about, and for 24 hours she ran before the storm in order to give her engineers a chance to patch up the break, going back on her track about 250 miles. Then she was again turned to the west. Slow progress was made, however, some days only forty miles were covered and other days 130. At times it was almost impossible to steer by the headgear at all, notwithstanding that from six to seven men were at the wheel. During this time the ship would zigzag her way along, and, as one of the officers said, "Lord help the vessel that might have been in her course," as it would have been impossible to steer the Megantic clear of anything. About midnight, while the fog was thickest, the ship suddenly became ablaze from stem to stern, and from deck to masthead, with large balls of fire—"St. Elmo lights" they are called—and she presented a weird and beautiful sight.

Strong Plea for Canal.

MR. J. H. M'CLELLAN, WRITES A VIGOROUS LETTER.

He Shows how the Completion of the Waterway will Affect the Price of Coal and Other Articles.

Editor Morning Times.

Sir,—I noticed an article in a late issue of The Times in regard to the price of coal.

Now the price of coal depends on the freight rates. Now the rate from Suspension Bridge, via C.P.R. and G.T.R. is $1.25 per ton. The rate by water from Oswego or Fairhaven to Prescott is 40c. per ton and Kingston 25c. So you can readily see that the Prescott dealer has 85c. less freight to pay than the Peterborough dealer—Brockville 90c. and Kingston $1.00 which is an important advantage. Add this to price you pay coal is sold in these places: Prescott it brings the price $6.35, Brockville $6.40 and Kingston $7.00 per ton.

The question is how are we to get over this freight rate; the only way is to get the canal opened to Trenton. This will enable the dealers to bring their coal in by water from Oswego, and save at least 30c. per ton. This would mean on the coal used in Peterborough for domestic use at least $5,000 per year, and on the steam coal used annually in Peterborough from $7,000 to $10,000 per annum. And I may say this same applies to Lindsay, Orillia and Barrie It would also reduce the freight rate on iron and all other goods coming into our town, so I think it behooves us to make a big push to get the canal opened to the lake front. Every year's delay means a loss of at least $20,000 to our town on imports, saying nothing about our exports.

As you are aware there is always some howling going on about our taxes over some small extravagance of the Council, etc., while we are neglecting this important matter which is of vital interest to our town. Now let us unite—go to the Government and press our claim, and we will get it now that the elections are over. Let the town of Peterborough settle down and instead of abusing the Government for spending too much money, go and ask them to keep on spending for useful and permanent improvements, and agree in future not to try and make political capital out of their doing so. This canal opened to Lake Ontario is worth more to the town of Peterborough than sending any ten men to Parliament.

Yours truly,

J. H. McCLELLAN.

Practical Patriotism

Ladies of Canada :—

Inter-mutual trade is the true basis of the federation of the Empire. So far as possible, one colony should consume the produce of another.

Canadians and India and Ceylon tea planters fought side by side in Africa. About ten per cent. of the latter volunteered for the war.

The Teas of Ceylon and India are the best and purest the world produces. Already the Black Teas of these colonies have captured the Canadian market. The Green is now fast displacing Japan's colored article. Quality and sentiment unite to recommend it. Canadian ladies who drink Japan tea should help the British planter by drinking Ceylon green tea. Blue Ribbon, Monsoon and Salada packets are ready for you. [illegible]

THE WONDERLY GOLD MINING COMPANY, limited

CAPITAL $1,000,000, Divided into Shares of $1 00 each.

Incorporated under Ontario Laws. Non-assessable.

This Company was formed for the purpose of purchasing and working seven gold claims on the Saskatchewan river, near Edmonton.

These claims have been worked some, and in the summer of 1900 D. F. Loveland, the former owner and president of the Company, had a dredge at work, and although only able to handle 200 yards of earth per day, there was from $30.00 to $50.00 of gold taken from that amount of earth daily, and thus demonstrating beyond doubt the great value of these claims.

The Company proposes to purchase one of the Risdon dredges, with a capabity of 2 500 cubic yds. a day.

The expense of running such dredge will be about $175.00 per week, and even if the dredge handles only 1,000 cubic yards a day, in six days, there will be taken out $1,500 00 worth of gold, with a profit of $1,325.00 in one week.

Sufficient stock will be sold at 25 cents per share to raise money to purchase the necessary dredge, after which the books will be closed and no more stock will be offered for sale.

There is no gold proposition on the market to-day equal to this one.

Application for stock can be made to any of the Directors, or to the Secretary, or to W. T. McNeil, broker, St. Catharines.

OFFICERS:

PRESIDENT—D. F. Loveland, capitalist, Galena, Illinois.
VICE-PRESIDENT—Arthur P. Forster, mechanical engineer, Welland.
TREASURER—Dr. T. G. Wonderly, Galena, Illinois.
SECRETARY—L. Clarke Raymond, barrister, Welland, Ont.
BANKERS—The Imperial Bank of Canada, Welland, Ont.

THE DIRECTORS are: The President, Vice-President, Treasurer, S. H. Glasgow, physician, Welland, and W. T. McNeil broker, St. Catharines, Ontario.

Subscriptions payable 25 per cent, on application, and 50 per cent. in two months.

Brokers desiring to handle stock in this company will please communicate with W. T. McNeil, official broker, St. Catharines, Ont.

PETERBOROUGH, NOVEMBER 30, 1900

OUR GREAT RAILWAY MAN.

It is interesting to consider that most of our great railway men are self-made men. This is almost invariably the case in the United States, where you find a great president begins life as a brakeman. There are men earning forty thousand dollars a year as the heads of great railway corporations, who commenced by sweeping out the station yard. Sir William Van Horne was a self-made man. Mr. Shaughnessy owes nothing to the accident of fortune. Mr. Hays grew, not indeed, from the brakeman, but from the humble clerk, to his present position—so enviable in the railway world—as president of the Southern Pacific. The men under these leaders have been all self-made men. The Grand Trunk used to be officered by what was called "gentlemen's sons" from England,—a hopeless business which never paid dividends; but the C.P.R., from the beginning has been served by capable men who have risen from the ranks. Mr. McNicholl, the general manager is a conspicuous example of the man who has risen. The case of Mr. W. C. Spencer is almost as notable. Mr. Spencer, the general superintendent, commenced his career as a telegraph operator. There is not a department of the great system to-day which he does not thoroughly understand. He can drive an engine. He could take the place of fireman. The duties of conductor are familiar to him. He can tell you what a freight or passenger train costs per mile to a cent. He can lay down a track, build a bridge, plan out fresh rolling stock, which shall realize the maximum of endurance and profit. He can operate a great division which comprises two thousand miles of line, finance the affairs off his own bat, telling you just how much he will spend and how much clear profit he will be able to show at the end of the year. Mr. Spencer is a comparatively young man, perhaps the most popular of all the fine fellows who have given their lives to railroading in the Dominion. He is known from one end of the country to the other. He can call his army of men by their Christian names. He is beloved—the expression is not too strong—by all the men under him. He is firm, but he has sympathy and encouragement for men who do their duty. He expects zealous service, but he appreciates it. He has always been able to maintain the most cordial relations with all under him. In the C.P.R. service the superintendent of a division is a manager, whose authority is supreme and who is responsible for outlay and profit. The position is one which gives great experience. Mr. Spencer is one of the growing men of the C.P.R.

Wills and the Press.

The Huron Expositor complains of the publication in newspapers of wills filed for probate. Wills, it argues, are of a purely private nature, and it must be offensive to families to have their private affairs blazoned before the public. We doubt the soundness of this view. When the state, for the purpose of taxation, takes cognizance of a deceased person's estate, it imparts an official nature to the details of what would ordinarily be a private affair. Like the assessment of property, it becomes a matter of public record and interest. Take for instance this g.f.j. Were this great moulder of public opinion to shake off this mortal coil, the public would naturally want to know what became of bank stocks and other securities. They have a right to know, for the public who read and pay for the paper, naturally have a friendly interest in its affairs.

Indians Starving.

Tacoma, Wash., Nov. 30.—The food supply of the Indians at Cook Inlet, Alaska, is about exhausted, and nearly half of the savages are literally starving. They comprise five tribes. The influx of white prospectors has resulted in the killing of much game, with the result that the Indians are deprived of flesh for food and furs for clothing. The supply of dried salmon which they accumulated last summer is not sufficient to last through the season, and now 400 to 500 of them have not enough food to last through next month. Appeals are made for help. Most of the Indians belong to the Russian Church, but it is powerless to help them.

TIGER AT LARGE IN WALES

For Ten Days He has Held a District in Terror

London, Nov. 27.—A Knighton correspondent telegraphs that there is immense excitement amongst the inhabitants of Upper Radnorshire in consequence of the escape of a large tiger from a travelling managerie at Abeedw. The animal bolted about ten days ago, and has since been prowling about the country between Builth and Landrindor Wells. On Thursday it was seen within a mile of the latter town, and a number of armed men started in pursuit, but returned without meeting their quarry. On Thursday night the tiger got amongst a flock of 130 sheep, and tore many of them to pieces. The animal has also killed several sheep dogs, and it was now believed to be lurking in the thick woods which lie above the Wye Valley. Some schools in the neighborhood have been closed, and the greatest terror prevails amongst the country people. Up to last evening the tiger has not been killed or captured.

Cost of the Boer War.

London, Nov. 30.—Parliament, which assembles on Dec. 3rd, must vote £30,000,000 to continue the South African war until Jan. 1st, and then £20,000,000 more to end the war. This makes the cost of conquering each Boer £2,000. In proportion to the number of the enemy the Boer war has been the most expensive in history.

THE LIGHT OF THE WORLD
or
OUR SAVIOUR IN ART.

Cost nearly $100,000 to produce. Contains nearly 100 full-page engravings of our Saviour and His Mother by the world's greatest painters. True copies of the greatest Masterpieces in the art galleries of Europe. Every picture is as beautiful as a sunrise over the hilltops. Contains description of the paintings, biography of the painters, the names and locations of the galleries in Europe where the original may be seen. Also contains a Child's Department, including a Child's Story of Christ and His Mother, beautifully written, to fit each picture. This wonderful book, matchless in its purity and beauty, appeals to every mother's heart, and in every Christian home where there are children the book sells itself. Christian men and women are making money rapidly taking orders. A christian man or woman can in this community soon make $1,000 taking orders for Christmas presents. Mrs. Waite, our agent in Massachusetts, has sold over $3,000 worth of the books in a very short time. Mrs. Sackett, our agent in New York, has sold over $1,500 worth of the books in a very short time. The book is printed on velvet-finished paper, beautifully bound in Cardinal Red and gold, and adorned with Golden Roses and Lilies. It is, without doubt, the most beautiful book of this century. Write for terms quickly and get the management of that territory. You can work on salary or commission, and when you prove your success we will promote you to the position of Manager and correspondent, at a permanent salary, to devote your time to attending to agents and the correspondence. Wanted also a State Manager to have charge of office in Leading City of the State and manage all the business of the State. Send for terms. Address—

Drink Plenty of Water an . Be Healthy.

There is no doubt that we do not drink enough. Our bodies consist largely of water, and the average man needs to drink from four to six pints of water daily in order to maintain health. This is the amount of water eliminated from the body by means of the kidneys, the skin and lungs. It is evident that a fresh supply is constantly needed to replenish this lost aid in the process of digestion and carry away matter.

If the amount of water imbibed is not sufficient for all this the health must suffer. Air, water and food are the essentials of life in the order given.

As a usual thing, women are the ones who suffer the most from an insufficiency of water. Mothers should see to it that their children have plenty of water to drink.

There is no doubt that hot water quenches thirst in most instances better than cold. Taken regularly at the rate of one glassful half an hour before meals it promotes digestion, and in catarrhal conditions of the stomach is recommended by physicians. It has also been tried as a remedy for insomnia.

Many nervous troubles would be greatly benefited by increasing the amount of water consumed, and constipation is largely the result of an inadequate supply of water.

One of the reasons people thrive at mineral springs is that outside of any medicinal properties the springs possess they drink much more water than at home.

Generally speaking, the theory advocated by the best phsicians now-a-days is to drink often and much. It cleans the system, increases circulation and helps to make a clear complexion. Therefore, ye men and women, especially the latter, drink. Take clear, pure, sterilized water, and be thankful so simple a remedy of nature is near at hand.—Katherine Louise Smith, in Table Talk.

The Famous Monitor.

Two diamantled hulks, the remnant of two of the old monitors which did such effective service during the civil war, lie on the shore of the Delaware river at Pennsgrove, on the New Jersey side. They are all that is left of the Passaic and the Ajax, both of which had proud records during the days of '61.

The Ajax cost $750,000 to build in 1862, the Passaic $600,000. Both were sold for $50,000 to Henry A. Hitner's Sons, contractors, who bought them for the old iron in them. It is proposed to sell this old iron for the purpose of making steel, and the metal may be a part, in the future, of some new terror of the sea.

Both the vessels were at one time convoys of the Monitor, and it was a curious coincidence that the Passaic, which was bought at the Pensacola navy yard in Florida, came within an ace of sinking when off Cape Hatteras where the old Monitor was lost in a gale.

So far only the crowbar and the sledge hammer have been used in dismantling the famous old-timers, but now the contractors expect to be compelled to use dynamite on the vessels.

During the war the Passaic took part in many engagements and was put out of commission at Philadelphia June 16, 1865. Her most noted contest was in Charleston Harbor, off Fort Sumter, in 1862, when she was struck thirty-six times, had her turret turned and had to go out of action.

HEART FAILURE

Every day adds to the list of deaths attributed to heart failure. If the truth were told the bulk of these deaths might be written down as due to *stomach failure*. For it is in the failure of the stomach and other organs of digestion and nutrition, that "weak" heart, "weak" lungs, "weak" nerves and other forms of physicial deterioration having their beginning. The man whose stomach is sound, who can digest and assimilate the food he eats, and so keep each organ of the body well nourished, is the man who is least liable to collapse under the sudden weakness of some vital organ.

The preservation of health which follows the use of Dr. Pierce's Golden Medical Discovery, is chiefly due to the fact that it perfectly and permanently cures diseases of the stomach and organs of digestion and nutrition, purifies the blood and increases the blood supply of the body. Weak people will find in this medicine a sure means of strength.

"I was under doctors' care for quite a time," writes Mr. J. F. Kidd, of Parmleysville, Wayne Co., Ky. "They had almost given me up, and my suffering was very great. My pulse was weak, breath short and I had severe pains in back, head and legs. Had palpitation of heart, and for eleven months I was not able to do a day's work. I purchased five bottles of Dr. R. V. Pierce's Golden Medical Discovery and by the time the fifth bottle was gone I was a well man."

ATTACK of ROYAL CANADIANS at Paardeberg
The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture; the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them God-speed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, in every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are BAD BOY SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 60 in one day. Sample and terms 25 cts (none free); four for 50 cts; $1.25 per dozen; 25 for $2.25; 50 for $4.00; 100 for $31.00 Write to-day for a dozen and make money. MESSRS. J. S. HAMILTON & Co, Brantford, Ont., Canada:
Dear Sirs,- In accordance with your wishes I have had both the red and white wines and the champagne tested by several connoisseurs, French and English. All of these expressed surprise that an article of such merit was produced in Canada, and even manufacturers admit that the brand "L'Empereur" is of excellent quality.
This opinion from critics who are by no means easy to please should be very satisfactory to you, and it gives me pleasure to congratulate you upon it. Yours faithfully,

A SINGULAR START IN LIFE

How did I get my first start in life? Well, in a very singular manner—a very singular manner indeed. I will proceed to tell you.

Let me see. I am now rather advanced in years—seventy-seven last January— what some people call getting old; though, somehow, my heart feels as young as ever. Seventy-seven years, with nineteen off, leaves fifty-eight. Fifty-eight years ago in June; that would carry it back to the year 1841. Yes, that is right—that is the year I went out to Port-au-Prince, Hayti, as captain's clerk.

The captain and I not agreeing very well, I left him there, and while looking for another berth I fell in with a countryman of mine who wanted to take a trip into the interior, merely to gratify his curiosity.

"I have heard," he said, "that the scenery among the hills is the most beautiful in the world, and I am anxious to see it, but would rather not venture alone, and hitherto have found no one to be my companion. Now if you can spare a few days and will go with me I will not only bear all expense, but pay you a reasonable price for your time."

"I am your man," was my reply.

We immediately set to work and procured a good outfit—rifles, pistols, knives, tinderbox, wallets, knapsacks, canteens, and dry provisions, which we expected to eke out with fresh game, and the second day saw us on our travels into an uninhabited region.

I pass over the first few days of romantic exploration, during which we penetrated deep forests and dense jungles, where vegetation ran riot, forded numerous streams, climbed steep hills, scaled precipices, descended into dark valleys, and saw nature in all her wildness, grandeur and beauty, with enough of peril from wild beasts and poisonous reptiles to keep us keenly on the alert.

On the fifth or sixth day we discovered the finest scene at all—a succession of precipices, like so many terraces, one above another, down which poured and roared a series of cascades, with mountains towering far heavenward on three sides of the whole, and a tranquil river and a flowery valley on the fourth—altogether a combination of grandeur, beauty and sublimity that was really enchanting. We spent the remainder of the day here, built our campfire on one of the highest ledges, and slept listening to the music of the night-birds and falling waters.

On the following day we discovered the entrance to a beautiful grotto, which we immediately determined to explore.

Collecting some resinous sticks, and binding them together to serve for torches, we lighted our bunch, and entered where perhaps the foot of man had never before penetrated.

The entrance was narrow, a little higher than our heads, and my companion went cautiously forward with the light, and I as cautiously followed.

After getting in some fifty feet, in a zig-zag course, we suddenly came to a large apartment, hung with the most beautiful stalactites, which flashed and sparkled in the light with an effect which defies description, and we could easily fancy we were in a palace of diamonds.

"This is worth the labor of a lifetime to behold!" exclaimed my companion, enthusiastically.

"Gorgeous beyond my wildest dreams!" I replied.

This hall was very large, not less than three hundred feet in length, by two hundred in breadth, and in some places perhaps fifty feet to the roof, with an even, level floor.

While feasting our eyes on the surrounding beauties we gradually moved on, and came to where three dark passages led deeper into the bowels of the earth, the central one going straight forward, and the others turning off respectively to the right and left. We took the middle one, which was about ten feet wide, and as many high, and arched at the beginning with nearly as much regularity as if cut out by the hand of art.

After advancing a few paces we found it gradually narrowed, and began to descend somewhat abruptly, the air becoming more damp and heavy. Presently it expanded into a long, low hall of solid rock, which, unlike the first apartment, was dark and gloomy, affording the wildest contrast.

On exploring this apartment we found no less than six more passages, leading off in as many different directions.

We selected the largest and still went forward, though I confess I began to feel a little uneasy, for fear we might venture too far, lose our way, and not be able to get back.

"Don't let us risk too much for the first time," I said to my companion by way of courtesy; "for I have no desire to be buried alive."

"There is not the least danger," he replied. "I watch every turn, and could find my way out in the dark."

Soon after this we came to where the passage was so contracted that, at first, we were compelled to stoop, and then to crawl forward on our hands and knees.

Again I remonstrated, but my companion did not heed me.

We kept on in this manner for some distance, and then the passage enlarged, and led up a steep ascent. After toiling up about fifty feet we came to another brilliant chamber of stalactites, and found a dozen more inviting passages leading we knew not whither.

Our first torch was by this time pretty well burned out, and as we lighted one of the two others which I carried I remarked:

"It would be tempting fate to go any further now. I propose turning back."

"Hark!" he said. "I do believe I hear running water, and I must see what it is. This way; follow me. There is no danger. I will guide you back in safety."

He again went forward as he spoke, and as he still carried the light I was obliged to accompany him, or remain in darkness.

We thus went on and on, through a rather open passage, and, as we advanced, the sound of falling water became more and more audible, till at length we came in sight of a bright running stream, that flowed over a clear bed, and fell down, with a sudden plunge and gloomy roar, into some dark abyss that was frightful to behold.

As we stopped and contemplated this wonder of nature, with the lurid torch lighting up the awful scene, I suddenly perceived what appeared to be several bright sparks of fire in the bed of the stream.

As the depth of the water was only a few inches, I fixed my eye on one, descended into the current, stooped down, picked it up, and held it to the light.

"What have you found, Benson?" asked my companion.

"What is it?" I said, handing it to him.

Never shall I forget his wild, eager look, as he fairly shouted:

"Gold! Gold! Gold! As I live, gold! Hurrah! Our fortune is made!"

This moment I was as much excited as he; and, forgetting everything else, we both began a hurried search along the bed of the stream for gold. We found it in particles—here, there, and everywhere—sparkling like fire beneath the light of our torch; and while we gathered it, looking eagerly among the rocks on every side for some enriching vein, we indulged in the wildest dreams of wealth and ambition.

Time passed unheeded, our torch burned low, and yet we thought of nothing but *gold*.

At last coming back down the stream toward the edge of the dark abyss, my companion saw something that drew him forward in haste. I perceived his danger, and shouted:

"Have a care!"

The words had not done echoing through the subterranean gloom, when there was a sudden slip, the dashing forward of a human body, an agonizing scream, the ghastly gleam of a swiftly descending torch, and then I was alone in the bowels of the earth, in the most appalling darkness.

For a time I was bewildered and stupefied, and I sat down there in the rayless darkness, moaning and wringing my hands. Then I shouted the name of my companion many times, and begged him to answer me, though I knew it was all in vain. Echo alone responded—an awful echo—that finally died out far away in the terrific gloom.

At last I aroused myself to thoughts of my own preservation. Fortunately I had brought with me the means of striking a light, and one bundle of sticks was still in my possession.

I lighted the last torch, cast around me one terrified glance, and hurried away from the roaring water, that was singing the funeral dirge of my late companion.

My presence here now is a proof that I reached the outer world alive; but more than once I was in despair, believing I had lost my way. After that I had a long, weary journey back to Port-au-Prince, and it was not till near the close of the fourth day that I came in sight of the town. It rained a great deal, and being completely drenched, I was often chilled during those four days, and after exposed to a scorching sun.

The effect of all this was a fever, which kept me on my bed for six weeks, during which time my life was more than once despaired of; and it was nearly four months from my first attack before I was again fit for business.

My purse having now become pretty low, I bethought me of my golden cave, and at once endeavored to turn it to some account.

I mentioned my discovery to several different parties, telling them, at the same time, the sad tale of the loss of my companion.

Most of them listened with indifference, saying they did not think gold enough could be found there to defray the expense of searching for it; and I was about to give up the idea of making any money out of it, when I fortunately met a speculating Frenchman, who asked me what sum I would require to guide him to the cavern and relinquish all claim to whatever might be found within.

I named a sum equivalent to twenty-five thousand dollars, and after considerable arguing, he offered me twenty thousand, which I finally accepted.

I guided him to the grotto, conducted him to the subterranean stream—at which I shuddered as I again beheld it—showed him the little sparkles of gold, and received my promised reward. I never saw him afterward, but heard that he made a fortune by his purchase.

That twenty thousand dollars, so strangely acquired, I may say was my first real start in life. With that I began to trade in different articles, buying and selling, and two years afterward returned to England in a vessel freighted by myself.

I was prosperous in all my undertakings, and twenty years ago, retired from business, having what I considered enough of this world's goods.

WE CURE STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, small, twisting stream, sharp cutting pains at times, slight discharge, difficulty in commencing, weak organs, emissions, and all the symptoms of nervous debility—they have STRICTURE. Don't let doctors experiment on you, by cutting, stretching, or tearing you. This will not cure you, as it will return. Our NEW METHOD TREATMENT absorbs the stricture tissue; hence removes the stricture permanently. It can never return. No pain, no suffering, no detention from business by our method. The sexual organs are strengthened. The nerves are invigorated, and the bliss of manhood returns.

WE CURE GLEET

Thousands of young and middle-aged men are having their sexual vigor and vitality continually sapped by this disease. They are frequently unconscious of the cause of these symptoms. General Weakness, Unnatural Discharges, Failing Manhood, Nervousness, Poor Memory, Irritability, at times Smarting Sensation, Sunken Eyes, with dark circles, Weak Back, General Depression, Lack of Ambition, Varicocele, Shrunken Parts, etc. GLEET and STRICTURE may be the cause. Don't consult family doctors, as they have no experience in these special diseases—don't allow Quacks to experiment on you. Consult Specialists, who have made a life study of Diseases of Men and Women. Our NEW METHOD TREATMENT will positively cure you. One thousand dollars for a case we accept for treatment and cannot cure. Terms moderate for a cure.

A WONDERFUL
KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

BRIGHT'S DISEASE, GRAVEL, DROPSY,

And Rheumatism Mastered at Last.

I. A. HOPKINS.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for the Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for Indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 53 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 100 Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

TOWN AND COUNTY NEWS

Our Municipal Campaign.

A report of the state of the polls in connection with The Times' municipal campaign will appear to-morrow. Look out for it.

The Rumor Denied.

The Mail and Empire's report that Hon. G. W. Ross is likely to accept a seat in the Dominion Cabinet, and that the Provincial Secretary would be promoted, is authoritatively denied.

Ladies of Canada:

[illegible]

Death of Wm. West.

Yesterday morning an old resident of North Monaghan passed away, in the person of Mr. Wm. West, who resided on one of the park lots in the suburbs of the town. Deceased was [illegible] years of age and had been a resident [illegible] years. Funeral to-day at [illegible]

The Church in Politics.

Mrs. Thornley's suggestion to the Ministerial Association of Toronto, that the churches unite in nominating municipal candidates may very easily be carried out. It's been done before. But that's as far as it usually goes. The other crowd does the electing. In Peterborough some of the churches take a hand in, in a quiet way.

Municipal Elections

The day for receiving nominations of candidates for the office of county councillors throughout the province, will, this year, be Monday, the 24th day of December, one week previous to the nominations for reeve and councillors in all municipal localities. The municipal nominations take place this year on Dec. 31, and the polling, if any, on Jan. 7th, the latest possible dates.

The Talk of the Town.

The talk of the day in Montreal is the opening of the magnificent new building erected on the best site of the principal street by the Family Herald and Weekly Star. The Family Herald's contemporaries are paying it the highest compliments. The new building is said to be the finest newspaper building in the world. This is saying a good deal for Canada. The Family Herald and Weekly Star has made gigantic strides.

Due to Lateness of Frosts.

Speaking of the high death rate from typhoid fever in the province during the month of October as illustrated by such towns as Oshawa, where there are fifty cases at present, Dr. Bryce, the provincial health officer, says there can be no doubt but that the unusual length of time during which warm weather continued this autumn, there not being any frosts practically up to the end of October, has played an important part in extending the period during which typhoid fever from polluted wells tends to spread. Both Peterborough hospitals have been crowded with fever patients.

A Handsome Drop Curtain.

Messrs. J. J. Turner & Sons have just completed an exceedingly handsome drop curtain for the new town hall, Havelock. The curtain presents a very pretty and true-to-life rural scene, in the foreground of which is seen a winding river, spanned by a picturesque stone bridge. The whole is relieved by a brilliantly colored curtain, draped in pleasing and effective folds. The work is from the brush of Mr. Reg. Turner, whose skill in this direction is rapidly developing into a high standard of merit, and gives great promise in the near future. This piece of artistic toil [illegible] the firm and the building which it is intended to embellish. The curtain will be hung in place by the firm on Monday next, and [illegible] all the appointments.

JOTTINGS ABOUT TOWN.

—"They say the baby has my hair,"
Quoth Henpeck: "ah! no doubt.
His ma's been saving up for him,
The bunches she's pulled out."

—This is St. Andrew's day.

—Finance Committee of the Council met last night and passed a number of accounts.

—The committee re Spence memorial will meet this evening, in the Council Chamber.

—The Bell Telephone Company have been served with a notice regarding the cutting of shade trees on the town streets.

—The lady teachers of the Norwood school asked for an increase of salary, but were refused.

—A gang of men was sent to Hastings, last week, to make improvements in the Grand Trunk yards.

—The municipal smile is budding, and it will soon burst forth into a full blown laugh.

—Only 27 cents per bag is being paid for potatoes delivered at the Grand Trunk station in Colborne for shipment.

—It has been suggested in Toronto that the churches take a hand in bringing out municipal candidates.

—The Poultry Show closed last night.

—The George Matthews Company had the most successful summer in their history.

—Dr. Fred. Robinson's fine St. Bernard, "Lion," had one of its legs run over by a train at the G.T.R. yesterday morning, and had to be killed.

—The golf club house will be open on Saturday from 2 until 4.30 o'clock to allow any ladies who desire it to get their clubs.

—From Hastings station, last week, there were shipped two cars of cheese, two of grain, three of flour, one of hogs and tw of mixed stock.

In cases of catarrh Hood's Sarsaparilla heals the tissues, builds up the system, expels impurities from the blood and cures.

—Mr. McHarrie, the genial local manager of the Bank of Commerce, yesterday received a handsome pen sketch of himself, the work of a local artist.

—The business man who never advertises in the local paper is often the first to whine and kick about people sending to some city for goods that have been extensively advertised.

—Lumbering is being pushed in the north country on a hitherto unprecedented scale; the Rathbun Co. and other firms will make a very large cut and more jobbers are at work than has been the case for many years.

—The Town of Woodstock is the latest convert to municipal ownership. Yesterday the people voted to expend $38,000 for the purchase and improvement of the electric light plant. Municipal ownership is a popular theme just now.

—Mr. Harry Best is likely to be a candidate at the approaching municipal elections. He ought to have no difficulty being elected. It would be hard to name a citizen who has for many years taken a keener or more generous interest in civic affairs than Mr. Best.

—It has been announced that Messrs. Dean and Shibley have entered into an agreement with the Council of Belleville by which they secure control of the gas, electric light and street railway franchises of that city. These are the gentlemen who are talking of leasing the water power at Crow Bay so as to supply Belleville and other towns.

Fossil Pills.—The demand is proof of their worth. Dr. Agnew's Liver Pills are beating out many fossil formulas at a quarter a box. They're better medicine, easier doses, and 10 cents a vial. A thousand ailments may arise from a disordered liver. Keep the liver right and you'll not have Sick Headache, Biliousness, Nausea, Constipation and Sallow Skin.—64

SOCIAL AND PERSONAL.

—Mr. J. F. Lillicrap, Lakefield, was in town yesterday.

—Mr. Lou Turnbull has returned from a visit to Toronto.

—Mrs. Hatton and Miss Hatton will leave on Saturday for the West Indies, for the winter.

—Mr. R. B. Wareham left yesterday for his home at Calumet, Michigan, after a two weeks' visit with relatives in Peterborough.

—Mr. and Mrs. J. H. Brandon, who have been visiting Mrs. W. H. Robertson, left for their home at Fenelon Falls yesterday.

A Musical Treat

Any reference to the very excellent programme to be presented at the concert given by Mrs. W. F. Morrow, on Monday evening, [illegible] would be incomplete without mention of the very special attraction in the person of Master Vincent Morrow, "the boy soprano." He will sing, and of his very remarkable ability the Charleston Critic (a Southern paper) says:—"You could but wonder where the clear enunciation and clear tones came from, and the class of the songs sung by him, the work of years of older heads. Owing to his youth he was not allowed to respond to encores."

THE PLACE FOR "ADS"

A business man of long experience said to the representative of an advertising periodical: "The proper place for advertising is the newspaper. The daily paper goes into the homes of the people, and is read every day in the desire for information—for a record of events including births, deaths, marriages and the like, and also for news of shopping places, etc. Reaching all buyers and being read when the mind is in a receptive state, the newspaper is the natural medium of publicity of all sellers." Everybody reads the Times.

AGENTS WANTED—"Albums," "Atlases," "Baby Books," "Bibles," "Dictionaries," "Encyclopedias," "Holiday Books," "War Books" and our other books are selling by thousands, but "GEE-WHIZ," our latest "COMPLETE HISTORY OF CHINA," is the "BOSS" of "BOOKS" just now. It is a "New Book," "Big Book," "Cheap Book," illustrations alone worth the price. Other publishers have good books, but, are simply "LILLIPUTIANS" to this. It's like selling "FIRE WOOD" in "FEBRUARY" during a coal famine, offering this book for sale. No "INVESTMENT," no "RISK," therefore, no "REPENTANCE." Elaborate costly outfit "FREE." Enormous sale warrants us [illegible] a small fortune starting a few agents. Hundred dollars any use to you by Christmas? Write us forthwith. People's Publishers, Wesley Building, Toronto.

THE POULTRY SHOW

Conclusion of a Very Successful Exhibition

Yesterday was the concluding day of the Poultry show. The exhibition was a very great success, and too much praise cannot be accorded Secretary Collins for his indefatigable labors. Mr. Collins and President Leary deserve unstinted praise.

The attendance was not as large as it should have been, but the number and quality of the exhibits was favorably commented on. The following is the balance of the prize list:—

An Insane Lad

A lad from [illegible], about 19 years of age, was brought to town yesterday morning, being insane. Some time ago he set fire to a neighbor's house, which was burned to the ground. Later, he ignited a barn and soon afterwards proceeded to smash in a neighbor's door with an axe. It will probably be recommended that he be confined to an asylum. He will appear at the police court this morning.

Poultry Caterers

The Hastings Star says that Mr. G. W. Potts, representing G. A. Booth of Trenton, shipped a carload of poultry, about 1,100 birds, consisting of turkeys, geese, and ducks, from the G.T.R. station here on Friday. This firm will ship from this station on next and following Friday, 23rd and 30th inst. They are paying the highest prices and seem to give general satisfaction to the farmers from whom they are buying. Mr. Howson of Campbellford, also shipped a carload from here on Friday.

A Pleasant Evening

The at home given by the Degree Team of Peterborough Lodge No. 111 I.O.O.F., last night, proved to be a very pleasant affair in every way. There were a large number of guests present. The following programme was a very pleasing part of the evening's entertainment:—Instrumental Misses Hurley, solo Miss Ethel White, recitation Mr. Joseph Halpenny, solo Miss G. Bellingham, Trombone solo Mr. Harry Clark, recitation Mrs. Bradley, Y.M.C.A. Male Quartette, instrumental Miss Dobbin and Mr. Best, solo Miss G. Bellingham, recitation Mr. Halpenny, [illegible] made of the recitations given by Mr. Hal- J. G. Scott. Special mention might be made of the recitations made by Mr. Halpenny and the solos by Miss Bellingham, also the comic song by Mr. Scott. At the close of the programme refreshments were served and the rest of the evening was spent in dancing and playing cards.

GENERAL DEWET'S FORLORN HOPE

Object is to Give the Impression that War is Still Being Waged Briskly to Obtain Intervention.

London, Nov 29—Striving heroically to snatch from the abyss a cause which is already past salvation, General Dewet is heaping laurel upon laurel and proving himself the greatest guerilla leader the world has probably known. Future historians should undoubtedly dub him the Napoleon of the Boers, for nothing comes nearer the quickness of perception and action displayed by the First Consul of France than the qualities now being exhibited by the last of the Boer generals. His raid upon Dewetsdorp and the capture of 400 British soldiers with two guns, only adds another to a series of exploits which relieves the Boers from the imputation of conducting an inadequate campaign. Whether or not these 400 men and their cannon have been recaptured is unknown, but there is no doubt from the terms of Lord Roberts' despatch that they were carried off from Dewetsdorp when the Boers fled precipitately before the swiftly moving columns of General Knox. Lord Roberts states distinctly,—"Knox found Dewetsdorp evacuated, and that 75 sick and wounded had been left there." Had the garrison been found there the field marshal would certainly have mentioned so important a fact. Probabilities are that the captured garrison was sent away under escort prior to the arrival of Knox, and that they are now in some Boer strongholds among the mountainous country near the Natal and Basuto border, where the Boers are still in force.

AN INTERESTING SITUATION.

The situation which existed on Tuesday last, the latest date covered by Lord Roberts' despatch, was an interesting one. Dewet with the deposed President Steyn in his custody, and a force of over 2,000 men was retreating south and west, evidently making for the Orange River, with the intention of crossing into Cape Colony, while General Knox, with a force of about the same size, was hanging upon his rear and had fought a successful engagement with him at Vaalbank, twenty miles south and slightly west of Dewetsdorp. The greatest interest, however, centres around the movements of Colonel Pilcher, who is stationed at Smithfield, south of Vaalbank, from which four roads radiate, two to the south, with the object of intercepting Dewet, should he attempt to reach the Bethulie or the Aliwal North bridge. The question is whether Dewet has been headed off towards the west, or is moving towards the border. Should the latter be the case, he will come in contact with Pilcher, and with this gallant leader in front and Knox in the rear, should be brought to bay, though his elusive qualities are so great that it cannot be predicted with certainty that he will be captured.

REVIVAL OF THE WAR.

There is not the least doubt that the sudden revival of the war in the Orange River Colony and the desperate effort being made by the Boers to stir up another revolt in Cape Colony is intimately connected with the presence of ex-President Kruger in Europe. The object is, of course, to convey the impression in Europe that the war is raging as briskly as ever, in hope that intervention may be successfully sought by the ex-President of the Transvaal, who is trying to move heaven and earth, and squandering gold like water to bring about this result. Despite alarmist reports of yellow journals affairs are not in the gloomy condition represented. The days of Stormberg and Colesberg can scarcely be repeated. The bridges and drifts of the Orange River are strongly guarded by the British, and all strategic positions along the Cape Colony side of the stream are garrisoned. General Dewet may succeed in getting his men across the river in isolated detachments, and it is quite possible that he may meet his Paardeberg in Cape Colony, and be finally cut off. He is leading a forlorn hope at the best, for it is improbable that after the lessons they already received of the horrors of war the inhabitants will care to revive them by joining him.

Vryburg, Cape Colony, November 30—The garrison of Schweizer Reneke has been relieved by a column of troops sent from here. The beleaguering Boers resisted, but were driven off.

The siege, or rather, the loose investment of Schweizer Reneke by the Boers was one of the oddest incidents of the war. The village, which is in the Transvaal, thirty-six miles from Vryburg, first attracted the notice of the enemy at the beginning of September. On September 22 it was announced that the garrison had been relieved by Colonel Settle. With the departure of the relieving force the investment was resumed, only to be interrupted a month ago by a second visit from Colonel Settle. He appears to have made only a short stay, and his retirement was the signal for the Boers to return to the attack. Latest news shows that the town has been again relieved.

BOERS USED BRITISH GUN.

London, November 30—Unofficial reports give some detail of General Knox's and Colonel Pilcher's operations after the reoccupation of Dewetsdorp. According to these, General Knox succeeded in intercepting General Dewet south of Dewetsdorp and compelled him to go west. Coloney Pilcher and Colonel Barker came to close quarters with the Boers and captured two wagon loads of stores, and 300 horses. The Boers shelled the British with one of their captured guns.

SITUATION DISQUIETING.

London, Nov. 29 — The Daily Mail's war expert this morning says,—

"The situation in South Africa is distinctly disquieting. Though the Orange river is watched by a considerable force of British infantry, parties of mounted Boers are passing backwards and forwards, seemingly with little difficulty. General Dewet probably has about 3,000 men, but he can count upon hundreds of recruits from the disloyal Cape Colony Dutch.

"The British seem everywhere upon the defensive. At Border Siding a small party of Boers has been raiding, and it threatens to loot all British farms in this quarter."

The Express adds this comment on the growing opposition of Lord Kitchener's tactics,—"The rumor is again current that the supreme command in South Africa is not to be entrusted to Lord Kitchener after Lord Roberts' departure, based upon the prevailing notion that the Government is loathe to give color to the idea that sharper and more severe remedies are to be applied to end the guerilla warfare. Lord Kitchener's iron nature is well known, and it might be feared if he had a free hand that he would deal a little too summarily with the irreconcilables."

DELAREY SURROUNDED.

London, Nov. 30 — A news despatch from Johannesburg, undated, of the 26th, says that General Delarey, with a command of 800 men, attacked General Clements on Friday, northwest of Krugersdorp. The Boers brought a gun into position on the hills during the night, and began shelling the British camp at 3 o'clock in the morning. After an hour's firing the British guns silenced the single one used by the Boers.

Severe fighting followed, in which the Boers suffered heavily. The British buried 25 burghers and took 20 prisoners. Delarey found himself in a difficult position, and asked for an armistice for 24 hours. This General Clements agreed to, but at 3 o'clock on Saturday afternoon the Boers resumed firing. It is reported Delarey is surrounded, and that it is impossible for him to escape.

ROBERTS' DESPATCH.

London, Nov. 30 — Lord Roberts cables the War Office from Johannesburg, November 26th, that Col. Plumer drove 500 Boers from Lewagon Drift, killing three, on November 23rd.

Colonel Campbell carried the Boers' main position at Tigerskloof. The British had a lieutenant killed and a major severely wounded, and one man killed and two wounded.

OSCAR WILDE DEAD

Dublin, Nov. 30.—A despatch to the Evening Mail from Paris says Oscar Wilde is dead. The despatch adds that he expired in an obscure house in the Latin quarter from meningitis, and was received into the Catholic church on his death bed.

GENERAL KITCHENER NOW IN COMMAND

Lord Roberts has Handed Over the Command of the British Forces to Lord Kitchener.

London, Nov. 30—The War Office announced this evening that Lord Roberts handed over the command of the British troops in South Africa yesterday to Lord Kitchener. It is further announced that the Queen approves Lord Kitchener's promotion to Lieut.-General, with the rank of General while in South Africa.

Durban, Natal, Nov. 30—Lord Roberts is due to arrive at Pietermaritzburg December 4 and should arrive here December 6.

London, Nov. 30—During the crush to see the Canadians at Windsor station today several persons were injured. Col. Otter, Lieut.-Col. Buchanan and Major Macdonald remained at the castle by command of the Queen to dine with Her Majesty and the royal family this evening.

Questions for Children

Baltimore, Dec. 1.—The Children's Playground Association will hear replies to-day from the children of Maryland to a number of questions they have propounded. Many prizes will be distributed, with souvenirs to the children answering the "Nature" questions, which treat of trees, flowers, plants, harvests, animals. Among the questions given out is the question whether a rabbit wobbles its nose, and, if so, why? The children are also asked to decide whether the grunt of a pig is an expression of pain or pleasure.

RUSSIA HAS AGAIN BEFRIENDED CHINA

M. DeGiers Now Wishes to Modify Death Penalty Clause.

London, Nov. 30.—Dr. Morrison, wiring to The Times from Pekin yesterday, says.

"M. De Giers (Russian Minister), who had previously assented to all the terms of the conjoint note, including the death penalty clause, has now intimated to the Chinese envoys that Russia, ever actuated by a sincere friendship for China, will insist either upon the revision of the death penalty clause, substituting a provision that the guilty shall be punished by the Chinese in a manner acceptable to the powers, or that the terms of the note shall not be irrevocable, but may be modified by negotiations with the Chinese envoys.

"Russia has thus again proclaimed how farcical is the so-called concert. The Chinese envoys are kept well informed regarding the discussions and disputes of the Ministers at their meetings. So intimate, indeed, are the relations of Li Hung Chang with the Russians that there is no reason why he should not be invited to attend the conferences of the Ministers.

"Japan requires that the note be amended by stipulating that China shall erect a monument to the murdered Sugiyama, her Chancellor of Legation."

TO BE PUBLICLY BEHEADED.

Tien Tsin, Nov. 30.—Tung Wen Huan, Provincial Treasurer of Chi Li, who was sentenced to death by the international military tribunal, at Pao Ting Fu, is being brought here to be publicly beheaded by the city Government executioner. This is at the request of Pao Ting Fu military authorities.

COLONEL YORCK'S DEATH.

Berlin, Nov. 30.—A special despatch from Pekin to The Tageblatt, announces that Colonel Yorck, commander of a German column, who was reported to be at the point of death in consequence of inhaling fumes from a stove in his bedroom, died November 27 at Hivaivai. His body will arrive in Pekin to-day.

A Voter writes: In connection with your Municipal Campaign, I would like to suggest the names for Mayor and Aldermen for the year 1901.

During the course of time, men of perhaps every trade but the machinists, have represented the people of Peterborough in our Town Council. I think it would be to the interest of the Town and only fair to allow them to show what they can do.

As one of the leading manufacturers, the Wm. Hamilton Mfg. Co.'s employees might be given first trial. After the careless way in which the business of the Town has been carried on, it would be a relief to the ratepayers to know that for at least one year things would run "mechanic"ally.

It would also perhaps be an act of kindness to the men, as they seem at a loss for something to occupy their attention since the Dominion election is over. Many of them gave evidence of their ability during that campaign, and the fact that nearly all of them were back from dinner by half-past twelve, is an example of their zeal in any cause in which they are interested. How many of our City Fathers would sacrifice a good dinner and risk of an attack of indigestion for the Town's interests?

I take great pleasure in nominating Mr.

ments, Thos. G. Anderson, Leslie Scott, James Doris and Thos. Richardson.

Another says: Hurrah for McWilliams for Mayor! After the contemptible action of the Council the other night the people want him, and the children cry for him! He is the one man of all the names mentioned who would make a live Mayor. I voted for Kendry last time, but will give Mac. my hearty support at the approaching election.

A Reader says: What's the matter with honest Adam Dawson for Mayor? I take pleasure in sending a bunch of ballots in favor of Mr. Dawson.

Doubfile writes: I want to see the Mayor's chair filled by some capable financier. What this Town needs just now is a man at the helm who knows a thing or two about finance. I would like to see Mr. McHarrie elected. Wouldn't he make an ideal Mayor? The ladies would all vote for him to begin with, and their husbands would have to follow suit, as a matter of course.

Besides, with Mr. McHarrie in the Chief Magistrate's chair, there would be no monkeying with the Town's finances. He would have the Town's money kept safely and correctly. Let's all make a big push and land Mr. McHarrie in the Civic seat.

ALL CAN VOTE

Our readers are again reminded that they can vote as often as they like. All that is necessary is to cut out the coupon which is printed every day in the Times, fill it in with the names of the citizens you think should sit around the Council board, sign and send it to the Times office.

The ballot is a perfectly secret one. Everybody can vote—from the youngest to the oldest, men, women and children.

WIDE WORLD OF SPORT

A Little of Everything From James Jenkins.

What Peterboro Will do in Hockey During the Season—The Trent Valley Hockey League—Mr. W. A. Buchanan for the O. H. A. Executive.

The expenses of the O. H. A. last year were the heaviest in the history of the Association.

** * **

All over Ontario Peterborough is credited with having the best all round hockey players in the O. H. A. This is a reputation to be proud of let the good work be kept up.

** * **

Messrs. Kerr and MacPherson left last night for Toronto where they will represent Peterborough at the annual meeting of the O. H. A. in the Temple building to-day.

** * **

Some of the new clubs to enter the O. H.A. are as follows:—Claremont, Markham, Wellingtons (Guelph), Stouffville, Port Hope, Excelsiors (Toronto), Owen Sound.

** * **

"Pro" Boys, the well-known hockey expert and general good sport, will contest the mayoralty chair of Barrie. If he is as successful for that position as he was when he ran for alderman, the race is his.

** * **

It was a good move that the Hockey Club made when it induced Hollingshead to take over the organization of the Senior Team. "Holli" is a good organizer, and is very capable of judging the merits and demerits of a player and never has the slightest regard for his personal feelings for an individual.

** * **

Next Saturday the Trent Valley Hockey League will meet in Peterboro. for the purpose of organizing for the season. Last year the League organized with only five clubs namely Campbellford, Norwood, Keene, Lakefield and the "Lakeviews" of Peterborough This season it is anticipated that there will be at least 8 clubs in the series. Mr. A. H. Stratton of Peterborough has donated a cup for competition.

** * **

The Peterborough Hockey Club have again organized for the season, and with their usual wisdom have selected a majority of business men as officers, which will no doubt result in the Club having another successful year so far as the financial management is concerned. There is nothing like having a club run on a business basis, as it has a better appearance to the public than an organization that can never pay its debts.

** * **

The Toronto Telegram says:—Another organization that thought of placing a team in the O. H. A. is the St. Mary's Athletic and Literary Association. However, the idea was started a little too late and the matter was allowed to drop till next winter. The St. Mary's could have placed a strong team in the association, for they have manya the fast skater among them. One beauty about the St Mary's Association is that they have money to burn in the treasury. And do not need to stint themselves in anything whatsoever. Many clubs would enter teams in the O. H. A. but they cannot afford to, as the rink costs so much money. It's mighty hard for a new club to go down for $75, for that's the first guess out of the box. St. Mary's however, are not troubled that way, and next winter, when a team is entered in the O. H. A., the club will be in a position to purchase fur-lined coats to be used at half time and during waits. When spring opens the Saints will start to build their new Parish Hall on MacDonell avenue. It will be fitted up with a splendid "gym," off which will be a plunge bath and smoking and reading rooms. Tis said they intend starting lacrosse next season.

** * **

The prospects are not bright for a hockey team in Harriston (and a lot of other towns in Ontario) this season. This is not due to a lack of lusty talent, but affairs of this kind are handled or handicapped by a boodle brigade who term themselves the O. K. A. or O. H. A. or something else and presume to collect fees and impose fines at their sweet will. Why cannot the youths of this free Ontario compete in a friendly and gentlemanly rivalry on the lacrosse or football field or on the ice in winter without the interference of a lot of nobodys who are in the game for what is in it. Talk about professionalism, a professional stringer is a dead beat pure and simple. He is out for "the stuff" and he gets it without any hard knocks. There is no reason why a series of local games of hockey cannot be arranged without the assistance of a gang of slick alecks. Hockey will never be popular so long as it is controlled by this one-eyed fake concern.—Harriston Review.

No w the cluckle headed idiot who wrote the above paragraph does not know what he is talking about. The following is an istance of how fair the O. H. A. has been with Harriston. Last winter this club entered a protest and accompanied it with the regular fee of $5. Upon looking into the case Secretary Beaton saw that the grounds for protest were absurd. He promptly wrote Harriston advising them to withdraw the said protest and thereby save their money as they had no possible chance to win it. If that is not the act of a fair-minded man, then, in pity's sake, what is.

** * **

Brockville has written a very cordial note to the O.H.A. secretary, expressing regret at not being able to enter a team this winter. The trouble down there, as in other towns, has been with the rink people. Brockville is a very sporty town, and it is a great shame they will not figure in the championship race.

HER MAJESTY THANKS THE CANADIANS

Col. Otter and His Men Reviewed by the Queen at Windsor---Officers Were Presented.

London, Nov. 30.—The members of the Royal Canadian Regiment who have just returned from South Africa were enthusiastically received by the people of Windsor this morning. The soldiers then proceeded to the Castle, and were reviewed by the Queen in the Quadrangle. Her Majesty, addressing the Canadians, thanked them for the immense services they had rendered to the Empire. The officers were then presented individually, after which the Queen summoned Private Armstrong, of New Brunswick, who had lost a leg during the campaign, but who joined in the march on crutches.

After the soldiers had been shown over the State apartments they were entertained at luncheon in the Royal Riding School.

The Canadians marched past to the tune of "Vive la Canadienne." The regiment was afterwards photographed at the special request of the Queen.

SYMPATHY WITH KRUGER.

Paris, Nov. 30—The Senate to-day unanimously adopted a resolution of sympathy with Mr. Kruger, in the same terms as the resolution yesterday of the Chamber of Deputies.

Mr. Kruger remained indoors, engaged in consultation with his advisors and receiving callers, until shortly after 1 o'clock this afternoon, when, accompanied by Dr. Leyds and the usual military escort, he called on M. Mallies, President of the Senate. The interview lasted ten minutes. Mr. Kruger will leave Paris to-morrow by a special train for Cologne.

DISGUSTED WITH KRUGER

New York, Nov. 30.—The Boer sympathizers at The Hague are generally disappointed and dissatisfied that Mr. Kruger has changed his plans, says a Herald despatch from Antwerp. Some persons think that the Dutch Government itself has been instrumental in keeping him away from Holland until the enthusiasm shall calm. The Boer headquarters in The Hague announce that the immediate plans of Mr. Kruger are unknown.

MORE SYMPATHY WITH KRUGER.

The Hague, Nov. 30.—During the course of the debate on the budget in the second Chamber to-day, Herr Kerdyk, Radical, reiterated his opinion that the Netherlands ought to have declined the honor of convening the Peace Conference unless the Transvaal was admitted. He highly approved of the offer of the Dutch Government to intervene between the Transvaal and Great Britain before the war, and especially commended the offer to place the Dutch cruiser Gelderland at Mr. Kruger's disposal to convey him from South Africa to Europe. This act, he said, had been applauded by the whole world. The remarks of Herr Kerdyk were greeted with loud cheers.

HOW TO END THE WAR.

Cape Town, Nov. 30.—In the course of his address to the Refugees Committee on Tuesday, Sir Alfred Milner admitted that there had been a general miscalculation as to the time when peace would be restored. Guerilla operations intended to inflict the maxim of injuries upon the victors were causing delay, and he finally pointed out that those fit and willing to render military service could hasten their own return and that of the other refugees by joining the volunteers in the field.

THE WONDERLY GOLD MINING COMPANY, Limited

CAPITAL $1,000,000, Divided into Shares of $1.00 each.

Incorporated under Ontario Laws. Non-assessable.

This Company was formed for the purpose of purchasing and working seven gold claims on the Saskatchewan river, near Edmonton.

These claims have been worked some, and in the summer of 1900 D. F. Loveland, the former owner and president of the Company, had a dredge at work, and although only able to handle 200 yards of earth per day, there was from $30.00 to $50.00 of gold taken from that amount of earth daily, and thus demonstrating beyond doubt the great value of these claims.

The Company proposes to purchase one of the Risdon dredges, with a capabity of 2 500 cubic yds. a day.

The expense of running such dredge will be about $175.00 per week, and even if the dredge handles only 1,000 cubic yards a day, in six days, there will be taken out $1,500.00 worth of gold, with a profit of $1,325.00 in one week.

Sufficient stock will be sold at 25 cents per share to raise money to purchase the necessary dredge, after which the books will be closed and no more stock will be offered for sale.

There is no gold proposition on the market to-day equal to this one.

Application for stock can be made to any of the Directors, or to the Secretary, or to W. T. McNeil, broker, St. Catharines.

OFFICERS:

PRESIDENT—D. F. Loveland, capitalist, Galena, Illinois.
VICE-PRESIDENT—Arthur P. Forster, mechanical engineer, Welland.
TREASURER—Dr. T. G. Wonderly, Galena, Illinois.
SECRETARY—L. Clarke Raymond, barrister, Welland, Ont.
BANKERS—The Imperial Bank of Canada, Welland, Ont.

THE DIRECTORS are: The President, Vice-President, Treasurer, S. H. Glasgow, physician, Welland, and W. T. McNeil broker, St. Catharines, Ontario.

Subscriptions payable 25 per cent, on application, and 50 per cent. in two months.

Brokers desiring to handle stock in this company will please communicate with W. T. McNeil, official broker, St. Catharines, Ont.

SOLICITORS—MESSRS. RAYMOND & COHOE, WELLAND, ONTARIO.

Prospectus free on application.

ROYAL

Baking Powder

Absolutely Pure

Makes hot breakfast-breads wholesome—no yeast germs, no alum. Makes cake, biscuit and pastry of superior fineness, flavor and delicacy. Makes food that will keep moist and sweet. Is most economical, because it is the purest and greatest in leavening strength. In the easy, expeditious preparation of the finer cakes and pastries Royal is indispensable.

Care must be taken to avoid baking powders made from alum. Such powders are sold cheap, because they cost but a few cents per pound. Not only will they spoil the cake, but alum is a corrosive acid, which taken in food means injury to health.

PETERBOROUGH, DECEMBER 1, 1900

MR. KRUGER AT MARSEILLES

There is no scene in the Mikado, or other comic drama, more laughable than were the proceedings at Marseilles in connection with the reception of the notorious Mr. Kruger. The inscription on one banner reveals not only the motive of the reception but the marvellous ignorance of the citizens in regard to their hero. The banner bore a sentence which, being interpreted, reads, "Honor to the brave conqueror of England!". As the ex-president never once was at the front, never for a moment was in the slightest danger, his bravery was not much in evidence. As he fled from his capital to a foreign, neutral port when British troops reached within a day's march of that city, and at last "left his country for his country's goods," because his forces were shattered and the State he had so shamefully misgoverned was in the possession of the British, it is also not clear how he was the "conqueror of England." Even that poor creature, of unsavoury memory, George II, was a braver man than Kruger, for he was in command of the English army at Dettingen in 1743, in celebration of which Handel wrote the noble Te Deum named after that battle. But why should the people of Marseilles receive Mr. Kruger with the honors equal to one of its victorious generals returning from a brilliant campaign? As this tinsel hero is not credited, even by his paid puffers, with any act of bravery; as he fled his country, leaving his wife in the hands of the British; as his unutterable stupidity has brought the state he governed into the enemy's power, it is as great a burlesque on hero-worship as is conceivable for such a man to be given a triumphal procession. Fancy Mr. Kruger shouting out in a Dutch dialect the most malignant slanders against England as a country of barbarians, to Frenchmen, not a man of whom understood a single word of senile viciousness! Isn't that fit for a comic opera scene? Fancy this man to whom all forms of art, music, painting, the drama, literature, are detestable vanities, being lionised by a French city! Fancy, too, Frenchmen with their passionate love of freedom, of human rights, of "Liberty, Equality and Fraternity," honouring a ruler who denied civil rights to all British residents, and who presided over a slave state! The whole spectacle at Marseilles was too farcical to excite among the British anything but contemptuous merriment, tinged with pity for those who honored Mr. Kruger solely to show ill-will towards England.

LEGAL STATUS OF LUNATICS

You may be laboring under the delusion that they haven't any, but wait a minute.

To begin with it is pretty generally known that when a patient has been admitted to an insane asylum, no matter whether he be suffering only from a mild melancholia, or is a raving maniac, he becomes in the eye of the law dead to the world until such time as he is released from the asylum with a properly signed certificate, as to his recovered sanity. That is, during his confinement within the walls of the insane asylum, he cannot sign a check, he cannot transfer property, he cannot even make a will. He cannot, in fact, legally discharge any of the duties of citizenship.

If, however, a patient of the asylum, commits a murder or other criminal offence, he at once becomes amenable to the criminal law of the criminal court and must stand his trial for such offence before a judge and jury. It is generally the rule in such cases to remand the prisoner to the asylum after the trial, but this does not mitigate the injustice, or do away with inconsistency of the practice. Why should a man who is dead in a civic sense, be alive in a criminal sense? Surely our judiciaries and legislators could profitably devote some time and consideration to this paradoxical vagary of our present law codes. It is understood that Dr. Bucke has been trying to have the matter remedied for the last three years, but as yet nothing definite resulted.

EDITORIAL NOTES.

The Canada Cycle Company has absorbed the National Cycle Company. There you have it—wheels within wheels.

Queer thing that every time those Boer plotters undertake to dynamite Bobs they propose to do it while he's in church. The idea doubtless is to translate him instanter from the church on earth to the church above.

Foes of Cigarettes Convene.

Washington, Dec. 1.—Eight hundred boys, from all parts of the country, met here to-day and before they finish will have formed the National Anti-Cigarette League. They met at the Lafayette Square Opera House, and represent 8,000 boys sworn not to smoke cigarettes. One evening of the W.C.T.U. gathering will be devoted to these boys. It is stated that business colleges at La Crosse, Wausau, Eau Claire and Monroe, Wis., and Winona and Fairmount, Minn., have placed cigarettes under a ban.

Fifty one Years Emperor.

Vienna, Dec. 1.—Emperor Francis Joseph will to-morrow celebrate the 51st anniversary of his accession to the throne. He will issue a general order to the army, thanking the soldiers for their loyalty and fearless valor throughout his reign, and declaring that he should ever look upon the army as the shield and protection of the throne and the Fatherland. The day will be ushered in with the booming of cannon and a grand reveille sounded by the bugles of all the regiments of the garrison. The city is already decorating.

THE LIGHT OF THE WORLD
or
OUR SAVIOUR IN ART.

Cost nearly $100,000 to produce. Contains nearly 100 full-page engravings of our Saviour and His Mother by the world's greatest painters. True copies of the greatest Masterpieces in the art galleries of Europe. Every picture is as beautiful as a sunrise over the hilltops. Contains description of the paintings, biography of the painters, the names and locations of the galleries in Europe where the original may be seen. Also contains a Child's Department, including a Child's Story of Christ and His Mother, beautifully written, to fit each picture. This wonderful book, matchless in its purity and beauty, appeals to every mother's heart, and in every Christian home where there are children the book sells itself. Christian men and women are making money rapidly taking orders. A christian man or woman can in this community soon make $1,000 taking orders for Christmas presents. Mrs. Waite, our agent in Massachusetts, has sold over $3,000 worth of the books in a very short time. Mrs. Sackett, our agent in New York, has sold over $1,500 worth of the books in a very short time. The book is printed on velvet-finished paper, beautifully bound in Cardinal Red and gold, and adorned with Golden Roses and Lilies. It is, without doubt, the most beautiful book of this century. Write for terms quickly and get the management of that territory. You can work on salary or commission, and when you prove your success we will promote you to the position of Manager and correspondent, at a permanent salary, to devote your time to attending to agents and the correspondence. Facing the Future.

There comes a time to most women when they must face the future of wifehood and motherhood. What that future has in store for them depends largely upon themselves. To a healthy woman the obligations and consequences of marriage are a lasting happiness. To a woman suffering from irregularity or other ailments of the sex, marriage may prove a mockery and motherhood a misery. Where such irregularity exists Dr. Pierce's Favorite Prescription can be used with the assurance that health will speedily be restored. It is the most reliable medicine known to medical science for the cure of diseases which affect the delicate womanly organs. "Favorite Prescription" is a non-alcoholic medicine and is also free from opium cocaine and other narcotics.

"At an early stage of married life," writes Mrs. Flora Arn, of Dallas, Jackson Co., Mo., "I was greatly bothered with painful periods, also a troublesome drain which rendered me very weak and unfit for work of any kind. I became so thin there was nothing left of me but skin and bone. My husband became alarmed and got me a bottle of 'Favorite Prescription.' After he saw the wonderful effects of that one he got me two more, and after I used those up there was no more pain, and I began to gain in flesh very rapidly. I owe all praise to Dr. Pierce and his wonderful curative medicines."

ATTACK of ROYAL CANADIANS at Paardeberg
The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them God-speed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money, big profits. Enormous success. One agent sold 60 in one day. Sample and terms 25 cts (none free); four for 60 cts; $1.35 per dozen; 25 for $2.25; 50 for $4.00; 100 for $11.00. Write to-day for a dozen and make money. MESSRS. J. S. HAMILTON & Co., Brantford, Ont., Canada:
Dear Sirs,—In accordance with your wishes I have had both the red and white wines and the champagne tested by several connoisseurs, French and English. All of these expressed surprise that an article of such merit was produced in Canada, and even manufacturers admit that the brand "L'Empereur" is of excellent quality.
This opinion from critics who are by no means easy to please should be very satisfactory to you, and it gives me pleasure to congratulate you upon it. Yours faithfully,

WIVES OF PRESIDENTS.

Personal Appearance of the Women Who Have Ruled the White House.

Of mistresses of the White House one of the most popular was Mrs. James K. Polk. Like Mrs. Cleveland, she was a brunette, and of fine presence; it was often remarked that not a crowned head in Europe could queen it more royally than the wife of the republican President. Poets penned verses in her honor, and on the last Sunday of her stay in Washington a clergyman addressed her from the pulpit. She was treated with great distinction, and after leaving the White House was visited every New Year's by the Legislature in a body.

Mrs. George Washington also had dark hazel eyes and brown hair. She was not a beauty, but she had a good form, rather below middle weight, and her manners were frank and engaging. She dressed plainly and at a ball given in her honor she wore a simple russet gown and white handkerchief about her neck. One of her dresses which she herself manufactured was of cotton striped with silk, which she obtained from ravelings of brown silk stockings and old crimson chair covers.

Mrs. Monroe was considered a beauty. She was tall and gracefully formed, polished and attractive in society. Mrs. John Adams was never beautiful, but she was of imposing appearance and very intellectual.

Mrs. John Quincy Adams was famed for her charming manners, and Mrs. Andrew Jackson for her amiable temper and kind heart. Mrs. Martin Van Buren, who died before her husband became President, was a pretty woman with modest, unassuming manners and gentle disposition.

The first Mrs. Tyler was one of the belles of eastern Virginia, and was most attractive in her striking loveliness of person and character. The second Mrs. Tyler was the first woman to marry a President. Before her marriage she was, for the one season she spent there, the belle of Washington.

A sparkling brunette was Mrs. William Henry Harrison. She was very handsome, with a face full of animation, and her health, which was robust, added a glow to her features, which increased her charms. "Upon her countenance," it is recorded, "nature had been profusely liberal."

Mrs. Thomas Jefferson was remarkable for her beauty. Her complexion was brilliant; her large, expressive eyes of "the richest tinge of auburn." A little above medium weight, she was slightly and delicately formed. She danced, sang, played the spinnet and harpsichord and rode with great skill.

Mrs. James Madison was a pretty, buxom woman, with a smile and a pleasant word for every one. She had regular features and sparkling eyes.

Mrs. Zachary Taylor was a quiet woman, but had great strength of character and the true spirit of the American heroine, enduring patiently privation incident to life on the frontier, where her husband, as Major Taylor, was stationed. She had no ambition beyond making her home happy.

A blonde of rare beauty was Mrs. Millard Fillmore, with a skin of dazzling whiteness and auburn hair. She was quite tall with a fine figure and of commanding presence. She is ranked with the wives of the two Adamses as a learned woman, and it was through her that her husband asked for and obtained an appropriation of Congress to buy books for the White House. Up to that time there had been a Bible there, and little more.

Another woman of rare beauty was Mrs. Franklin Pierce. She also had many accomplishments. She was very refined and quiet, shunning society.

Mrs. Abraham Lincoln as a girl was very attractive, and she had many suitors. When she became the mistress of the White House she was "fair and forty." That she was the successor of the popular and accomplished Miss Lane was not a point in her favor. At the first levee she appeared in pink silk, decollete, short-sleeved dress and a floral headdress, which ran down to her waist, and destroyed what comeliness simplicity might have given her.

Mrs. Andrew Jackson possessed the beauty of face and form which rendered her mother one of the most beautiful of women. Mrs. Grant was a blonde, of delicate figure, rather below middle stature. Mrs. Hayes was of very attractive appearance. Mrs. Garfield was noted for her tact, and her husband one said that he never had to explain away any words of his wife.

Mrs. Arthur, who died before her husband became President, was known as "the beautiful Miss Herndon with the marvellous voice" before her marriage.

Mrs. Harrison was fair as a girl and possessed a blonde style of beauty, which also belongs to Mrs. McKinley.

How Congress Spring Was Named.

When John Taylor Gilman, a member of Congress, visited the log houses which chiefly constituted Saratoga in its early history, he was accompanied one day on a hunting ramble by a young son of the woodsman with whom he boarded. When they returned to the cabin the boy enthusiastically shouted, "Oh, ma, we've found a new spring!" "Who found it?" he was asked. Turning to the distinguished lawmaker the little fellow admiringly exclaimed: "Why, the Congress!" And to this day the name has clung to one of the most celebrated of the springs which made the place a sanitary resort long before it became the seat of summer fashion.—Ladies' Home Journal.

Early Promise.

"I'm going to be proud of that small boy of mine one of these days," he exclaimed, earnestly.

"Is he talented?"

"No. He's going to be a business man. I told him last week if he'd

250,000 Cured.

WE CURE STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, small, twisting stream, sharp cutting pains at times, slight discharge, difficulty in commencing, weak organs, emissions, and all the symptoms of nervous debility—they have STRICTURE. Don't let doctors experiment on you, by cutting, stretching, or tearing you. This will not cure you, as it will return. Our NEW METHOD TREATMENT absorbs the stricture tissue; hence removes the stricture permanently. It can never return. No pain, no suffering, no detention from business by our method. The sexual organs are strengthened. The nerves are invigorated, and the bliss of manhood returns.

WE CURE GLEET

Thousands of young and middle-aged men are having their sexual vigor and vitality continually sapped by this disease. They are frequently unconscious of the cause of these symptoms. General Weakness, Unnatural Discharges, Failing Manhood, Nervousness, Poor Memory, Irritability, at times Smarting Sensation, Sunken Eyes, with dark circles, Weak Back, General Depression, Lack of Ambition, Varicocele, Shrunken Parts, etc. GLEET and STRICTURE may be the cause. Don't consult family doctors, as they have no experience in these special diseases—don't allow quacks to experiment on you. Consult specialists who have made a life study of Diseases of Men and Women. Our NEW METHOD TREATMENT will positively cure you. One thousand dollars for a case we accept for treatment and cannot cure. Terms moderate for a cure.

CURES GUARANTEED

We treat and cure: EMISSIONS, VARICOCELE, SYPHILIS, GLEET, STRICTURE, IMPOTENCY, SECRET DRAINS, UNNATURAL DISCHARGES, KIDNEY and BLADDER Diseases. CONSULTATION FREE. BOOKS FREE. If unable to call, write for QUESTION BLANK for HOME TREATMENT.

A WONDERFUL
KIDNEY and Bladder CURE

I. A. HOPKINS.

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

BRIGHT'S DISEASE, GRAVEL, DROPSY,
And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind which I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for thirty years and I am in good health now. I know that Alkavis saved my life. What more can I say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 58 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours,
I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder disease, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 408 Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Salida Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

TOWN AND COUNTY NEWS

Have You Secured Your Course Ticket for the "People's Popular Course"?

A Small Fire

A fire broke out yesterday in the second flat of the vacant store adjoining the Bank of Toronto. It is said that a defective chimney caused the blaze. It had got quite a start before it was discovered. On the arrival of the fire brigade the flames were speedily suppressed.

A Turkey Shoot

There was a big turkey shoot at Chemong Park on Thursday, at which a number of our riflemen took part. Several of our prominent citizens, who have not hitherto been regarded as good shots, succeeding in bringing down their birds.

Over the River

There is very little talk over the approaching municipal elections in Ashburnham. It is said that Councillor Smith aspires to the Reeveship, but it is doubtful if he could be elected over the present Chief Magistrate. The old Councillors are all again likely to run.

Work on the steamer City of Peterborough is progressing satisfactorily. The machinery has all been taken out, prior to putting in the new machinery.

The steamer Eclipse is to be pulled out for an overhauling.

Nearly A Century

Mr. John Coughlin, of Belleville, passed away Wednesday night at the residence of his son, Mr. John Coughlin, Peterborough, at the age of 90 years. The deceased was born in the County of Cork, Ireland, 90 years ago. He came to this country when a young man and settled in Belleville, where he had lived over half a century. He leaves besides his widow, four sons, Timothy and Dennis of Belleville, and John and Michael, who reside in Peterborough. The remains were taken to Belleville for interment.

Obituary

Yesterday morning the death occurred of an old and highly esteemed resident of Peterborough, in the person of Mrs. Henry Collins, at the residence of her son, Mr. Wm. Collins, Romaine st. The deceased was born 86 years ago in Lincolnshire, England. She was married in England to the late Henry Collins, and with him came to Canada in 1844. For seven years they resided in Cobourg, and then came to Peterborough. For thirty-six years she resided in North Monaghan, living after the death of her husband with her son, Mr. Wm. Collins, with whom she came to town to reside some six years ago. Deceased was one of the first women to come to the Peterborough market, and she was widely known both in town and country, and was universally esteemed. In religion she was a consistent member of the Methodist church. She had only the one son. The funeral takes place from the residence of her son, 128 Romaine-st., tomorrow afternoon at three o'clock.

JOTTINGS ABOUT TOWN.

—The Finance Committee of the Council met last night.

—Found—A kodak. Owner can have same by calling at the police station.

—The population of Oshawa is now 4,564, an increase of 363 during the past year.

—Oshawa is negotiating with another large iron foundry with a view to bringing it to the town.

—Oshawa will establish a water works system and make extensive improvements to the harbor next year.

Five Splendid Entertainment—People's Popular Course.

—Burglars can be sentenced to be lashed in Canada, after January 1st, according to the new law.

—The Council of the Village of Lakefield has voted the sum of $25 to advertise the place in a tourists magazine.

—Mr. John Kincaid showed a turkey yesterday in front of his premises on George street, that weighed 26 lbs.

—The Reid street bridge over the creek, at the Wm. Hamilton Manufacturing Co.'s establishment, is now completed.

—About two weeks ago a muff was left at the doorstep of Mr. F. McWhinnie's shoe store. The owner may have same by applying at the police station.

Rheumatism in all its forms is promptly and permanently cured by Hood's Sarsaparilla which neutralizes acidity of the blood.

—The village of Campbellford is endeavoring to establish a market. Suitable accomodation has been provided and the market was opened on Saturday last.

—Farmers are warned against having anything to do with a $4 cream separator agent. He tries to make a local agent of every farmer and five dozen separators are shipped to him.

—In the county police court yesterday Samuel Carr, a young man about 20 yrs. of age from Belmont was sentenced to confinement in the county jail at the pleasure of the Lt. Governor, as a lunatic.

—Miss Alice Rogers, assisted by her pupils, will give an exhibition of Burrowes' Musical Kindergarten System in St. Paul's School Room, next Tuesday evening Dec. 4th, in aid of the Young Women's Christian Association. Admission 10 cents. See programme.

Norwood Register: The suggestion of Captain Birdsall that something be done to perpetuate the memory of Trooper Hampton should meet with hearty approval. We would suggest that the Reeve call a meeting of the citizens to consider the matter.

—Wednesday afternoon the huge smoke stack over the power station of the electric light company's plant, Millbrook, was blown down. The smoke stack was a very high one and when down reached for considerable distance across the creek that runs through the village. The town was without electric light for some time.

—"You have been to the races, those terrible horse races! And you have been drinking, too," said a Peterborough lady to her spouse, who had arrived rather late one night. "Couldn't help it. Shook for the drinks and got three horses on me. I then had a couple of brandy ponies," was the reply.

—An exchange says that if farmers follow these instructions they need never go to any expense to dehorn their cattle when commencing to grow up. Buy a five cent stick of potash, and when the little horns make the first appearance of starting on the calves, wet them with a little water and rub with the caustic stick and that calf will never know that nature intended that it should have horns.

—Men Who Are Bald. Did you ever think of replacing the lost hair by artificial means? Prof. Dorenwend can do it for you so that your most intimate friends would not know it. He will be at the Oriental Hotel, Peterborough, on Saturday, December 8, where he invites you to call and witness a practical demonstration of the fact. See his wigs and toupees.

A Casket of Pearls.—Dr. Von Stan's Pineapple Tablets would prove a great solace to the disheartened dyspeptic if he would but test their potency. They're veritable gems in preventing the seating of stomach disorders, by aiding and stimulating digestion—60 of these health "pearls" in a box, and they cost 35 cents. Recommended by most eminent physicians.—64

A Voting Machine

Oshawa is a progressive town. The Town Council has decided to substitute the Imperial Automatic Voting Machine for the regular ballot at the approaching municipal elections. Voting by machine instead of by ballot has proved a success in many of the towns and cities of New York but Oshawa is believed to be the first municipality in Canada to adopt this method of voting.

Two at One Shot

In the Oak Lake settlement, 37 miles north of Campbellford, one day lately, says the Herald, a boy of about 15 years of age, named Maxwell Post, made a very successful shot. When he was out hunting he came across a fawn, and raising his rifle he fired and broke its leg. Starting off at a run to get another shot, to his great surprise he stumbled over the body of another deer—the mother of the fawn—that had evidently been standing along side of it, both having been struck at the same instant by one ball. Naturally enough Max felt proud of his prize.

THE ELECTRIC ROAD

That is to Run From Brighton to Havelock Being Actively Agitated

Says the Montreal Star:—Two experts in the electrical business have been in the city for the past two days taking an inventory of the manufacturing plant of the Royal Electric Company on behalf of the Canadian General Electric Company, which, it is understood, is about to buy out the Royal's plant. It was doubtless the presence of these two gentlemen which gave rise to the report in the street to-day that the deal between the two companies had been concluded, and that the price to be paid by the Canadian General to the Royal Company was $840,000.

Mr. Rodolphe Forget, president of the Royal Company, when questioned on the subject, stated that the deal had not been concluded.

FORESTER PRESENTATED

High Court Officials Visit Court Chemong and Make a Presentation

Two distinguished brethren were present at the meeting of Court Chemong I. O. F., on Thursday night, in the persons of High Chief Ranger Fraser, of Ottawa, and High Counsellor Pratt, also of Ottawa. These two High Court officials were present to make a fraternal visit and also to present to Bro. John Hetherington, of Court Chemong, D. D. H. C. R., a gold watch, which he had been awarded as a recognition of the successful work he had done for the Order during the past year. Bro. Hetherington brought in more members in June and July last than did any other individual member of the Order in Ontario East. The High Chief Ranger made the presentation, and in doing so made reference to Bro. Hetherington's services and his enthusiasm as an Independent Forester.

Bro. Hetherington replied to the kind words spoken of him and acknowledged the handsome gift he had received.

PLEA FOR A DRY DOCK

Mr H Calcutt Writes a Strong Letter on the Subject

Dear Sir,—I see in your issue of this morning a letter from Mr. McClellan, showing the advantage the Trent Canal will be to the town in the way of giving cheap freights, which means cheap coal, etc. There is another thing I would like to call your attention to that will also be a great benefit to the town; that is a dry dock for the repair of canal boats and steamers passing up and down the canal. It would give employment to a good many people, besides the supplies that would be required for repairs. There is a very suitable piece of land close to the canal near the outlet that could be used to advantage for that purpose.

There is a petition being prepared to lay before the Minister of Public Works, praying the Government to carry out the work, and it is to be hoped everyone interested will do all in their power to help it. Our townspeople to not seem to realize the amount of trade the few boats we have here at present bring to the town. This fall the steamer Eclipse brought up several thousand bushels of grain and a lot of wood, in addition to what the other boats carried. Parties selling their grain, etc., in this market, generally buy their supplies in town. We are making great improvements in our boats for the next season, and also making arrangements to buy all kinds of farm produce on Rice Lake and the river which will greatly increase the trade here. Yours truly,

H. CALCUTT,
Pres. Pet. Nav. Co.

Christmas Number of the Ledger Monthly

The beautiful cover of the Christmas number of the Ledger Monthly is a reproduction of a painting of a Christmas dinner scene, a rich and noble picture of contemporary life by the well-known artist, Victor Perard. This is supplemented by illustrated Christmas articles and stories. "Christmas Holiday Entertainments" and "Santa Claus Among the oPor Children" are full of suggestions for those who provide for the happiness of the little ones. Hall Caine's story, "Jan, The Ice-lander," which was commenced in the November number, is continued. A synopsis of the preceding chapters enables the leaders to take up the thread of the story in this number. Henry Collins Walsh contributes a most interesting illustrated account of Lieutenant Peary's little daughter. "Marie Ahnighito Peary and Her Eskimo Friends." Lieut'enant Peary's daughter was born within the Arctic Circle at Anniversary Lodge in 1893. Among the miscellaneous articles is a charming illustrated sketch of "Joseph Jefferson's Southern Home," showing the veteran actor and his family under the shade of the great Southern live oaks. There are 135 illustrations in this number of the Ledger Monthly, and the variety and interest of the maganzine have never been surpassed. It is full of pure, interesting and instructive reading matter. Price of the Ledger Monthly is one dollar a year and ten cents per copy. Robert Bonner's Sons, Publishers, Ledger Building, New York.

'A Cheerful Look Makes a Dish a Feast."

"Cheerful looks" depend just as much upon physical well-being as upon natural disposition and temperament. If the blood is disordered, the brain is starved, and no "dish is a feast," for the reason that the vitalising elements do not reach the proper spot.

A step in the right direction is to purify the body by the use of a natural remedy. Hood's Sarsaparilla is Nature's remedy. It acts upon the blood, and whether the seat of the disorder is brain, stomach, liver or kidneys, the purifying process of this medicine is equally sure and successful. *It never disappoints.*

Back Ache—"My mother had severe pains in her side and back. She was obliged to give up work. A friend persuaded her to take Hood's Sarsaparilla and soon she was able to do her work, free from pain and had a good appetite." MAGGIE MORGAN, Nasonworth, N. B.

Nerve Food—"My wife was stricken with nervous prostration. She suffered from headaches. She became weak, low-spirited and her appetite was poor. I am glad to state that Hood's Sarsaparilla has completely cured her of all her ailments." G. BELLAMY, 321 Hannah St., Hamilton, Ont.

A BATTLE BETWEEN KNOX AND GEN. DE WET

Departure of Lord Roberts from South Africa Means a New Phase of the War.

CANADIAN CONTINGENT VISITS THE LORD MAYOR

His Lordship Utters Words of Eulogy and Lieut.-Col. Buchan Replies —Heavy Fighting Expected in Africa.

Bloemfontein, Dec. 2 —Further details have been received regarding the fight near Reifontein between the British under Gen. Paget and the Boers, under commandants Viljoen and Erasums. Gen Paget toward evening of the second day closed in upon the Boers position with the intention of attacking at dawn. The Boers however, with reinforcements including three guns made a desperate attack and severe fighting ensued. The Boers who were repulsed with heavy loss withdrew in a northeasterly direction. Gen. Paget having occupied their position sent mounted infantry in pursuit. The New Zealanders displayed great gallantry, losing five out of the six wounded officers.

London, Dec. 1.—The Evening Standard reports that a great fight is in progress between Gen. Knox and Gen. De Wet near Rouxville, in the southeastern extremity of the Orange River Colony, and that the capture of Gen. De Wet is considered imminent.

ROBERTS' DEPARTURE.

London, Dec. 1.—With Roberts' departure from Africa the campaign against the guerrilla warriors under De Wet takes an entirely new phase. The stern and relentless Kitchener, the man who hunted down the Khalifa, is now to undertake a similar task in the Orange River Colony, but against a far keener witted opponent and in a country far more difficult for rapid movement than the Soudan. It goes without saying that the preliminary step towards stamping out the war of raids instituted by the Boers will be a complete reorganization of the British force in the field—the creation of a vast army of mounted men. The process in a fact now well under way, and hordes of irregulars are being enlisted at all the principal towns in South Africa. Kitchener is going to pit the colonial against the Boer on a larger scale than has so far been attempted, and to the colonial will be given the honor or performing the brunt of the work now to be undertaken. The irregular, undrilled, but highly sensible and high-spirited citizen soldier has become the man of the hour, and, directed by the consummate organizing ability and contempt for precedent that characterizes Kitchener, will undoubtedly do great work. The day of the infantry-man is over in South Africa. His work will now consist almost entirely in holding what the mounted men have gained, in garrisoning the towns of the two extinct Republics in British possession. The remarks of Colonel Morris at Durban anent increasing the mobility of the British are already being acted upon. The only difficulty is in the scarcity of horses, for Kitchener must have horses, and plenty of them, in order to perform his task effectually. It would appear that the tardy policy of the War Office is still hampering leaders in the field, and that a sufficiency of animals is not forthcoming. Until this defect is made good it is, of course, useless to expect great results; but there is every reason to expect that the weight of Lord Kitchener's representations in this respect will make itself felt and produce an improvement. That the burghers of the Orange River Colony, who were dragged into the war purely by sentimental considerations, should still be bearing the hardest part of the struggle after their compatriots in the Transvaal have almost been subdued, and that ex-President Steyn still fights courageously on, while Kruger has saved his carcess by fleeing to Europe, are the most memorable features of the war. Ill-advised persons and papers who advocate lenient measures towards the Boers entirely overlook the fact that these measures were tried by Lord Roberts to as great an extent as possible, and that only when it became apparent that the Boers did not appreciate generous treatment by their victors were rigorous steps inaugurated. But even these have not proved sufficient, and it becomes more and more apparent that to act upon General Sherman's motto, that an enemy should be left nothing but eyes to weep with, is the only course left. All the blame lies upon the heads of the Boers. It is simply a question of either throwing away British lives or those of the Boers, and sickly sentimentality alone would urge that the conquerors should lie down at the feet of the conquered. Hence, a campaign of desolate homesteads, of the rope, the bullet and the torch has become an absolute necessity if Britain is to reap the harvest due from many fields of blood.

RECEIVED BY LORD MAYOR.

London, Dec. 1.—During a course of sightseeing in the metropolis to-day the members of the royal Canadian contingent troops were received at the Mansion House by the Lord Mayor and corporation. His Lordship expressed the high honor he felt at entertaining a regiment "whose services to the Empire were so great that they had been acknowledged by the Queen's own lips, the highest honor which could be bestowed on returning troops." Lieut Col. Buchan gracefully acknowledged the heartiness of the reception of the Canadians everywhere in England."

CANADIANS SAIL DECEMBER 11.

Ottawa, Dec. 1.—Gen. O'Grady-Haly has received the following cable from Col. Otter. "All well; most enthusiastic reception. Sail Lake Champlain, December 11th.

ROBERTS STARTS FOR HOME.

London, Nov. 30.—Despatches from South Africa say Lord Roberts has left Johannesburg for Durban. The War Office confirms the statement that Gen. Roberts yesterday handed over the chief command of the British forces in South Africa to General Kitchener, who has been promoted by the Queen to be a lieutenant-general, witht he local rank of full general while commanding in South Africa.

Durban, Nov. 30.—General Roberts has arrived at Durban, and has made an inspection of the Talana battlefield.

KITCHENER'S APPOINTMENT.

London, Dec. 1.—The appointment of Lord Kitchener to the command in South Africa is generally welcomed this morning. It is admitted that an arduous task lies before him, but he is spoken of as the right man in the right place.

PLENTY OF FIGHTING AT HAND.

Pretoria, Dec. 1.—Lord Kitchener paid a flying visit to Harrismith and conferred with General Rundle. Recruting officers hint that there will be plenty of fighting during the next few weeks, when it is hoped that the embers of the Boers resistance will be finally stamped out. The movement is likely to be carried out with all the determination which marks Lord Kitchener's action. Dundee at present presents the striking spectacle of a vast camp. Irregulars are sent thither as they are recruited, and drafts from England are also joining this base.

In consequence of a proclamation of General De Wet, ordering all burghers to take up arms under pain of death, many Boers are flocking to the British garrison at Lindley for protection. De Wet informs the men that Lord Roberts is being prevented from burning farms, and that the powers will interfere shortly.

The wife of Gen. De Wet is reported by The Cape Times to have stated that her husband has enough ammunition to last three years, and that the war will last that time.

All the inhabitants of Lichtenburg, in the Transvaal, with Government assistance, have trekked to Mafeking. They number 500 and include a dozen Boers.

It is reported that the Boer commander, General Delarey, who is surrounded by three British brigades near Belfast, and who asked for an armistice of 24 hours, and then resumed hostillities after ten hours had elapsed, is still fighting.

General French has surrounded Commandant Viljoen near Krugersdorp.

It is reported that Commander-in-Chief Botha is endeavoring to join General De Wet and ex-President Steyn at Carolina.

The Ermlo and Bethel commandos, which are concentrated between Carolina and the railway, are very active.

The garrisons on all the drifts along the Orange River has been strengthened.

BOERS WERE DEFEATED.

Orange River, Dec. 1.—The Horzog commando, 500 strong, holding a splendid position on a rang of precipitous kopjes, near the village of Luchoff, completely barring the British advance was attacked by Col. Henry Hamilton Settle's column on Tuesday morning. After five hours' hard fighting the Boers were expelled from the position, losing heavily. The British losses were small, owing to the fact that the British adopted the Boer methods of taking cover. Col. Settle occupied Lunchoff yesterday (Wednesday). The Boer commander openly boasted in the village of having shot 200 natives for sympathizing with the British.

KRUGER LEAVES PARIS.

Paris, Dec. 1.—Mr. Kruger left the Hotel Scribe at 1.10 p.m., to-day in a closed carriage surrounded by a squadron of mounted municipal guards. The Boer statesman was cheered as he drove away, swinging his hat from the landau window in reply.

The Boer delegates who accomanied Mr. Kruger to the station will go as far as the French boarder.

The special train with Mr. Kruger on board started for Cologne at 1.40 p.m.

MAY NOT SEE KRUGER.

Berlin, Dec. 1.—An official of the Foreign Office informed the correspondent of the Associated Press to-day that he had been notified late last evening that Mr. Kruger would arrive here Tuesday. The Official admitted that Emperor William's travelling plans may prevent him from seeing Mr. Kruger.

MAY NOT VISIT BERLIN.

London, Saturday, Dec. 1.—The correspondent at Paris and Berlin report that Mr. Kruger's proposed visit to Berlin is doubtful, if it has not been wholly abandoned.

The Times' Berlin correspondent ascribes to an absolutely authoritative source the following defination of Germany's attitude on the South African question.

"We cannot entertain Kruger's idea of arbitration unless we are informed that England agrees to it."

REMINDER FOR KRUGER.

Paris, Dec. 1.—Le Journal Official this morning promulgates the conventions of the Hague Peace Conference, signed July 29, 1899.

Several papers note the significance of the publication at this moment. Le Journal says:

"It appears to us as of great importance that these conventions are published on the morning of Mr. Kruger's departure. After declaring that he is ready to accept arbitration and has, indeed, come to Europe to seek mediation, is not this indication a sort of reminder to him that he should not lose the hopes which were raised by the final acts of the conference?"

Le Matin comments in a similar strain.

HOW TO END THE WAR.

Durban, Dec. 1. —Colonel Morris, Commandant of Durban, said that he highly favored the use of mules for transport purposes in place of oxen, and advocated the establishment of a very large depot of transport mules. If they had mules for transport and good colonial horses for cavalry, with an additional horse for each man's equipment, they would never again have such a long campaign. He thought the present weight carried by cavalry horses was far too great and impeded their mobility, and he strongly emphasized the necessity of additional horses for each man's kit. If that were done, he defied any body of men to continue in the field defying us in small numbers as the Boers were now doing. The campaign was continued, not because they were unable to beat the Boers, but because they were unable to catch them.

WIDE WORLD OF SPORT

A Little About Everything by James Jenkins.

The Annual Meeting of the Ontario Hockey Association—Mr W A Buchanan Elected to the Executive as Peterboro Representative—The Membership fee Increased

The annual meeting of the Ontario Hockey Association was held in the Temple Building Toronto, on Saturday and for the first time in the fifteen years' existance of this association the session was an all-day one.

The meeting was called for 10.30 a.m., but before that time delegates from nearly all over Ontario gathered to present their credentials to the secretary and his committee. The meeting was not as largely attended as a year ago, but the enthusiasm was none the less, while the business was despatched with a promptness that is worthy of the greatest praise.

The Delegates.

All the reports were in printed forms, and this saved delay, while the old and revised constitutions were printed side by side on a pamphlet form, as a convenience to those present. The meeting was called to order by the president, Mr. John Ross Robertson, with over 50 delegates in attendance. Messrs. J. D. Karr and A. W. McPherson, representing Peterborough.

After a very able address from the President Mr. John Ross Robertson, the reports of the officers were received.

At the conclusion of this business, an adjournment was made for luncheon in the Temple Cafe, given by the president. The luncheon was held in the large assembly room, which had been prettily decorated for the occasion with the association's official colors, red, gold and green, while each of the delegates were given a badge of the same. There were no speeches and only one toast, nemely, that of Her Most Gracious Majesty, the Queen.

Consideration of Amendments.

On business being resumed after luncheon, the amendments were taken up, and there was a host of them, as nearly the whole constitution was gone over and revised. Some of the changes were only of a minor character, the wording being merely changed, in order to make them more definite. The most important amendment, probably, was that the annual entrance and subcription fees should be raised to $5, the former from $2 and the latter from $3. Hereafter, a club will only be allowed one delegate, and the said delegate will have votes corresponding to the number of teams his club enters in the association. A clause was inserted, allowing the president to call the annual meeting at any hour he deems fit, on the first Saturday in December.

The Officers.

From now on, the officers of the association will consist of president, two vice-presidents, a secretary, a treasurer and a committee of six, four to be elected by the delegates, and the other to be appointed by the president.

To give outside clubs a fairer chance, all nominations for offices must be in the secretary's hands seven days before the annual meeting, when clubs will be notified of the nominees. The fixed traveling expences of a club were increased from four cents a mile to five, for eight men, one way of the journey.

The amendment to allow home teams to take the net home gate, when two clubs in the same city play home-and-home matches, were thought to be a good one, and carried, as some of the others were without discussion.

In case of two clubs failing to agree on a referee, notice must be given to the secretary 36 hours previous to all matches, when he shall appoint one.

The Trophies.

So as to insure safe-keeping of the different cups, the following clause was added to the constitution: "Any club winning the John Ross Robertson Cup shall, before receiving it, give for its safe-keeping, to the secretary of the association, satisfactory and substantial bonds to the amount of $500; for the Richard Garland Cup, a bond of $300; and for A. M. Crosby Cup a bond of $100."

Playing Rule Changes.

The only alteration to the playing rules was one giving players the right to stop the puck with the hand, but not to knock or carry it forward.

All clubs must supply goal nets.

Association Officers.

This, with the election of the following officers, finished the business,—

President—John Ross Robertson. (acc.).

First Vice-president — A. A. Macdonald, U. C. C.

Second Vice-president — A. B. Petrie, Guelph.

Secretary—A. H. Beaton, Kingston. (acc.)

Treasurer—J.D. McMurrich, Osgoode. (acc.).

Executive—W. A. Buchanan, Pererboro; F. Hobbs, London; Dr. W. P. Thompson. Midland; F. Nelson, Brockville. Two more are to be nominated by the President.

∗ ∗ ∗

It will be seen from the above report that Peterborough has again been fovored, in the election of "BILLY" Buchanan as first choice for the executive Mr. Buchanan has always looked after the best interest of Peterborough in everything Hockey, and will be in a position to attend every meeting of the Committee as he is one of the Editors of the Telegram, which has always been a sincere advocate of ameteur sport. The chances are that "Billy" will be one of the Sub-Committee to draw up the Schedule.

MOTHER, PRAY FOR ME

Murderer Pearsons Pathetic Appeal for Parental Intercession

Hamilton, Dec. 1.—There is now no possibility of the Executive Council at Ottawa interfering with the death sentence of Arthur Pearson. His counsel, Mr. Geo. L. Staunton, knows of no petition or appeal for clemency to be presented in the prisoner's behalf, and the general opinion is that it would be of little use.

The condemned man when visited by his mother gave her some of the books that had been given him to read. Among these was one by E. P. Roe, "A Face Illuminated." This work he has evidently been interested in. Several of the pages were marked and on the margin of one of the centre leaves were these words written with pencil, "Mother pray for me—don't for get me. When I am dead don't worry. I'll ask God to forgive me."

KRUGER SAILS FOR HOLLAND

The Ex-President Will not Visit Germany as was Arranged

Berlin, December 2 — Mr. Kruger has abandoned his proposed visit to Berlin owing to the receipt of an official intimation that Emperor William regrets that in consequence of previous arrangements he will be unable to receive him. The Boer statesman will therefore proceed direct from Cologne for Holland. He telegraphed to this effect this afternoon. The Cologne Gazette in an inspired article says Mr. Kruger's visit is not agreeable to Germany, his aim being to obtain intervention in South Africa. It would be a grave political mistake, it would be even a great crime to allow him to entertain even a spark of hope that Germany will render him any practical support. This declaration is accompanied with reproaches, Mr Kruger being charged with "having encouraged useless guerrilla warfare and having disregarded Germany's advice when he might still have followed it." The press generally strikes the same note.

Boy Bitten by His Mother

Because 12-year old James Crisari upset a plate of food into his lap at the dinner table at 229 East 108th street, in New York, his mother, Mrs. Raffaenella Crisari, flew at him in a rage and bit him on the left cheek, arm and neck. The boy's father interfered and saved the boy from further injury. The boy ran out of the house with his mother following him. She acted like a mad person and policeman Bechtel locked her up. The boy's wounds were dressed by an ambulance surgeon and he was sent to the Gerry Society rooms.

ROBBERS HOLD UP A TROLLEY CAR

Crew and Passengers Put up a Big Fight—Secure Nearly $300.

Chicago, Dec. 1—A daring attempt was made last night by five men to hold up an Ogden avenue electric car at Randolph and Canal streets. The robbers were beaten off, after a furious battle with the crew of the car and several passengers, but not until Edward J. Wright, president of a commission house, had been robbed of a satchel containing more than $300 in currency and certificates.

There were twenty passengers on the car. When the police patrol wagon arrived on the scene, in response to a riot call turned in by a citizen, they found the conductor, John Steindeck, lying insensible in the street, bleeding from half a dozen wounds. The interior of the car was wrecked. The windows were broken, and the floor and seats spattered with blood.

During the fight in the car several women fainted, while others leaped panic stricken from the car. Several passengers received cuts and bruises.

GREAT FAITH IN KITCHENER AND HIS MOUNTED POLICE

Canadian Officers in London Support the Views of British Officials and are not Surprised at DeWet's Coup---Roberts too Much of a Humanitarian to Subjugate Boers.

London, December 1—South Africa once more monopolizes attention. The public is aghast at Gen. Dewet's recent success at Dewetsdorp, where he captured the British garrison of 400 men and two guns.

"Is this guerrilla warfare?" the Liberal papers ironically enquire.

"Why," is asked on all sides, "are these troops coming home?" The ovations to the victors strike even those participating in them as hollow compared with the events transpiring at the seat of war. Parliament not being in session, the public is not favored with any insight into the War Office's opinions and plans.

A representative of the Associated Press interviewed one of the responsible heads of departments, and elicited the following views,—

"Undoubtedly the situation in South Africa is serious. We cannot expect to crush out opposition for some time to come. We are not withdrawing troops indiscriminately, nor are we indifferent to the gravity of the problem. The Household Cavalry has come home because heavy cavalry is practically useless. The infantry, too, is of comparatively small service. We rely upon two things to bring about peace. First, the transformation, so far as possible, of all the British troops in the disturbed districts into mobile cavalry and mounted infantry; second, the establishment of a police force. Until the latter gets in working order, even the cavalry will not be able to accomplish much. The police force should be similar to the Irish constabulary, only all the men will be mounted. When that body is organized I believe a change will quickly come over the situation."

The Canadian officers who returned here from South Africa this week expressed no surprise at the renewal of Boer successes. They only wondered that they had not been greater. The Canadians, however, are unanimous in expressing the belief that Lord Kitchener is the right man to deal with this form of opposition now faced by the British in South Africa.

Hardly any of the returning officers expressed criticism of Lord Roberts even in the face of the recent reverses. The general feeling towards the Field Marshal is well put by the Sun of this city. It says,—"Lord Roberts is a brilliant, dashing soldier, and has displayed consummate ability. But, after all, we fear he is too much of a humanitarian for the work now to be done. Once Kitchener gets to work on the Boers, nothing will stop him."

TUNNEL TO BE PUT UNDER GIBRALTAR KEY

Engineer Has Confidence in Scheme--Tells Spanish and Morocco Governments it can be Completed by 1907.

Washington, Dec. 1—The State Department has received a report conveying further information as to the proposed tunnel from Europe to Africa under the Strait of Gibraltar from Mr. Geo. H. Murphy, consular clerk at Magdeburg, Germany. Mr. Berlier, the French engineer, who has submitted the proposal of this project to the Governments of Spain and Morocco, is said to have perfect confidence in the feasibility of the plan, holding that it presents no greater obstacles than were encountered in the building of the tunnels of Mt. Cenis, St. Gotthard, and Arlberg. On the other hand, Mr. Murphy states that the ventilation of a submarine tunnel and removal of the constantly accumulating water are very formidable and expensive obstacles to be dealt with.

Nevertheless, Mr. Berlier believes that by a secret process of his own he can grapple with the difficulties and keep the cost of the work at a figure not exceeding that required in the enterprises at St. Gotthard and Arlberg or Simplon. By working simultaneously from both ends of the tunnel he believes the date of completion could be safely placed at 1907.

The proposed length of the tunnel is twenty-five miles, twenty miles of this being under the sea. Railway connection in Europe is planned by means of a line following the Spanish coast and passing through Tarifa and Algeciras into France. In Morocco a line would be constructed from Tangier connecting with the railway system at Tlemcen.

The entire cost of the tunnel alone is approximated at over $22,000,000, and of the entire connecting line at about $46,500,000.

The French press is said to criticize the project unfavorably, on the ground that Mr. Berlier has over-estimated the earning power of the road, and that it seems hardly credible that the passenger and freight traffic between France and Algeria could be diverted to this indirect and expensive route.

SUICIDE MYSTERY AT HOTEL IN BUFFALO

Unknown Woman Took a Room and Within an Hour was Found Dying From Poison.

Buffalo, November 30—At 11.40 o'clock this morning an elderly woman, well clad in a dress of black crape, walked into the Iroquois and registered in an unsteady hand, "Mrs. H. H. Albright, Buffalo." The writing was such that the name could also have been read "Albeight."

She was assigned to a room, and half an hour later a maid going through the hallway saw the door of her room open, and hearing the sound of groans, entered.

The woman was found helpless and unconscious on the bed. The Fitch ambulance was hurriedly summoned, and the woman was taken to the hospital.

She died before she reached the institution. A bottle labeled strychnine, which was nearly emptied of the powder, was found in the room, and the Fitch doctors took it along. They say she undoubtedly died of a large dose of the drug.

There was nothing on the person of the dead woman by which she could be positively identified.

She had some baggage, but Mr. George Woolley said it was at once turned over to the police. He said that neither he nor Mr. Gerrans knew the woman, nor did they know anything about her. Mr. Woolley said she was a stranger, so far as he knew.

Mrs. Albright was apparently 65 or 70 years old. She was rather stout, of medium height, had dark eyes, hair that was nearly white, an aquiline nose and a firm, square chin. The countenance was of a Semitic cast. Mrs. Albright paid for her room in advance, after inquiring particularly as to the hotel rates.

None of the employees of the hotel remembers having seen the woman before. There is no Mrs. H. H. Albright or Albeight in the city directory.

The Coroner's office was notified, and Coroner Wilson at once began an investigation of the case.

The managers of the hotel turned a little hand bag and a military cape which were found in the woman's room over to Patrolmen Reardon and Reed of the Franklin street station. They took the articles to the station house, and searched the bag in the hope of finding something that would lead to the positive identity of the woman. All the officers discovered in the bag were half a dozen soiled pocket handkerchiefs. There were no cards or anything else that would shed light on the woman's identity. Whether her correct name is Albright or not is a question the police are unable to answer. There was no mark on the cape.

The articles were turned over to Coroner Wilson.

When the Coroner searched the clothing of the dead woman at the hospital, before removing the body to the morgue, it was discovered that the woman wore cheap new underclothing that was without mark, except one garment, which bore a laundry number, "740."

The poison the woman took was in an ounce phial with a white label printed in red letters, and aside from the usual skull and crossbones, and warning, showed that it had been originally obtained from Powers & Weightman of Philadelphia.

The Coroner took from the hotel a small, brown leather hand satchel which the woman carried. In it was a long steel buttonhook with a wooden handle, two pairs of spectacles and cases, a spool of thread and several handkerchiefs. On one of the spectacle cases was the firm name of "F. W. Nolte & Co., opticians," 37 Fort street, Victoria, B. C. There were no initials on the handkerchiefs or any scraps of paper in the satchel with writing on them.

The Coroner also took a plaid cape which the woman wore, a sealskin cap, a pair of rubbers, a red knit woollen jacket and a pocketbook. In the pocketbook was $16.83 in money and two rings. One ring was a large plain band gold ring. The other was similar and smaller. Both rings were well worn and had no initials inside of them.

The Coroner thinks from the clothing worn by the woman and the name on the spectacles she came from somewhere in Canada.

One of the physicians at the hospital told the Coroner the woman had evidently been a great sufferer from some form of disease and took her life in a fit of despondency. The Coroner said, however, he would not have any autopsy performed unless it should prove necessary later.

Further inquiry at the Iroquois Hotel, showed that the name "Albright" or "Albeight" was probably assumed or written in an assumed hand and that she evidently did not come from Buffalo, as it was spelled "Buffalloe."

When word was brought to the hotel office that the woman was in need of attention at once, Dr. J. H. Pryor, who was at the hotel desk at the time, volunteered his attendance, and later Dr. Nelson W. Wilson was summoned. He arrived just as the Fitch ambulance did, when the patient was beyond all aid.

It was also learned that just before Mrs. Albright took the poison she had sent word to the hotel office that if a gentleman called to see her to send him up to her room.

GAME IN WALL STREET.

The Fascination of it—Men Who Cannot Quit Speculation.

"What is it that attracts a man who has an independent fortune to Wall street? Why, when a man is worth millions, will he risk any part of it in speculation?" were questions asked of Francis D. Carley, who recently failed for more than a million, and has no assets.

Mr. Carley began life as a minister of the gospel, but soon gave up the pulpit to enter business. He has been one of the most daring speculators in the country. He has had millions of his own at a time and yet never was content to quit business, and live on the princely income with his fortunes, if invested, would bring him. Twice he had been bankrupt, and now, although more than three score years old, his friends are confident that he will win another fortune, and die a millionaire.

"Speculation on Wall street is something like a card game," said Mr. Carley, in reply to the questions asked. "Take a man in a small poker game. He says to himself when he goes in, 'I will lose so much, and then I will quit.' Does he ever quit when he has lost the sum fixed in his mind? Never. He keeps right on playing in order to win back what he has lost, and then to win some of the other men's money to pay him for his trouble.

"Or the man goes into the poker game and wins a few dollars. He says to himself that he is one of the lucky kind, or that he is skilful, and he begins to think he cannot lose. And he will not quit. The loser cannot bear to quit and the winner cannot see any reason why he should quit.

"Well, that is the way things go in Wall Street. No matter how much a man has, he rarely will overlook a chance to make more. A rich man goes into the street perhaps because some friend has given him a tip. He invests a little money and pulls out a few thousand more than he put in. Then the fever seizes him. The money comes so easy. He never heard of making money so fast and with such little risk. Then he makes another investment, and comes out on the right side again. He is delighted. It gives him some occupation, and he profits by it. Like the poker player, he thinks he's lucky, or has extraordinary ability for speculation.

"Then he goes into Wall street in earnest, and perhaps loses. But in any case he cannot quit the 'game.' Perhaps he loses his fortune; many of them do. When one fortune is gone [illegible] make another."

THE WONDERLY GOLD MINING COMPANY, Limited

CAPITAL $1,000,000, Divided into Shares of $1.00 each.

Incorporated under Ontario Laws. Non-assessable.

This Company was formed for the purpose of purchasing and working seven gold claims on the Saskatchewan river, near Edmonton.

These claims have been worked some, and in the summer of 1900 D. F. Loveland, the former owner and president of the Company, had a dredge at work, and although only able to handle 200 yards of earth per day, there was from $30.00 to $50.00 of gold taken from that amount of earth daily, and thus demonstrating beyond doubt the great value of these claims.

The Company proposes to purchase one of the Risdon dredges, with a capabity of 2 500 cubic yds. a day.

The expense of running such dredge will be about $175.00 per week, and even if the dredge handles only 1,000 cubic yards a day, in six days, there will be taken out $1,500.00 worth of gold, with a profit of $1,325.00 in one week.

Sufficient stock will be sold at 25 cents per share to raise money to purchase the necessary dredge, after which the books will be closed and no more stock will be offered for sale.

There is no gold proposition on the market to-day equal to this one.

Application for stock can be made to any of the Directors, or to the Secretary, or to W. T. McNeil, broker, St. Catharines.

OFFICERS:

PRESIDENT—D. F. Loveland, capitalist, Galena, Illinois.
VICE-PRESIDENT—Arthur P. Forster, mechanical engineer, Welland.
TREASURER—Dr. T. G. Wonderly, Galena, Illinois.
SECRETARY—L. Clarke Raymond, barrister, Welland, Ont.
BANKERS—The Imperial Bank of Canada, Welland, Ont.

THE DIRECTORS are: The President, Vice-President, Treasurer, S. H. Glasgow, physician, Welland, and W. T. McNeil broker, St. Catharines, Ontario.

Subscriptions payable 25 per cent, on application, and 50 per cent. in two months.

Brokers desiring to handle stock in this company will please communicate with W. T. McNeil, official broker, St. Catharines, Ont.

A NEW ANGLO-FRENCH ISSUE

A memorial from English merchants operating in the French Congo district has just been received in Downing street, which, it is believed, will result in certain serious representations being made to the French Government by the British ambassador in Paris. It seems that recently the French Colonial Office divided the Congo district among forty French companies, upon which were conferred, within the districts respectively alloted to them, territorial rights and commercial monopolies, subject to the concessionaire's carrying out certain stipulations embodied in the terms of agreement.

The district in question, had, however, for many years previously, been opened and controlled by certain British companies, which have grown in wealth and power. They also had obtained concessions from the French Government, but under the new order of things they are no longer permitted to buy directly from the natives themselves, on the plea that the area over which their trade extends has now become the property of this or that French company, which in many cases, by investigations conducted on the spot and in Paris, has been revealed to be no company at all, but simply a corporation formed for the distribution of worthless stock.

The English companies having received no warning or notification of any kind from the French Colonial Office, which continued to collect revenue on their imports and exports, and exact licenses from their traders, finally decided to stop their business, when seizure of their goods took place. Petitions made to the local authorities brought forth no reply, and when matters were taken into court decisions were invariably rendered in favor of the French companies. In their memorial to their Government, the English merchants do not deny the option of the French Government to create chartered companies outside that part of the French Congo which by the act of Berlin was declared free to the trade of all nations, but having done so, it is declared they were in duty bound to protect the right of merchants existing prior to the creation of the French companies. In other words, the French Government should see that adequate compensation is given to the English merchants for the loss suffered by them through the forced abandonment of their established trade.

The Government in Paris is believed to be ready to give proper satisfaction, for on more than one occasion the Waldeck-Rousseau Ministry has shown its desire to wind up all African disputes. Recently the French Colonial Office cordially responded to a request from Downing street and stopped the import of gunpowder into the Ivory Coast as soon as the Ashanti rebellion assumed formidable proportions. It is also intimated that the Government is anxious to make use of the British charges to discover the real status of the French companies, and to see how many of them are actually doing business according to the stipulations laid down in their charters.

Beer Poisoning Spreads

London, Nov. 29.—The beer-poisoning disease has spread to Leeds and Birmingham, and an analysis of the beer in the public houses has been ordered. A feeling of panic prevails among the people, and many have gone to the hospitals, where it was found that they were merely frightened. The Government has ordered an analysis of all food products in Manchester containing sugar.

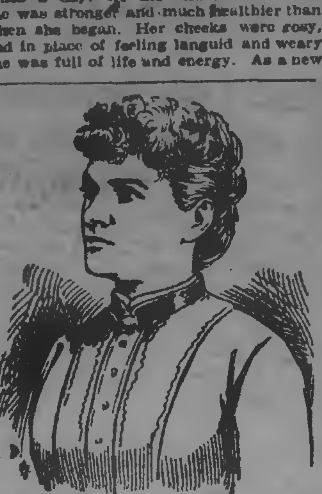
ON ONE CENT A DAY

A New York Society Woman, Who Has Made a Sensation.

New York, Dec. 1.—Mrs. Rebecca Friedlander, who recently startled New York society by advocating the use of uncooked food and by the statement that it was quite possible to live and keep strong and healthy on a total expenditure of one cent a day for food, is a club woman and philanthropist. There is no reason why she should not dine sumptuously every day if she desired. She eats only raw food and only twice a day. For three continuous months she has lived on two tablespoonfuls of raw wheat taken three times a day. At the end of that time she was stronger and much healthier than when she began. Her cheeks were rosy, and in place of feeling languid and weary she was full of life and energy. As a new apostle of the raw food fad Mrs. Friedlander points first to the Bible, where it is written of the Prophet Daniel that he refused to eat the King's meat and drink the King's wine, preferring to eat pulse and drink water instead in order that he might keep his body and mind undefiled. She goes on to call attention to the fact that when wheat or any other seed is cooked it will not germinate. Its life-giving qualities are killed by the heat, and she argues that it loses at the same time much of its efficacy as food. Dr. Julian Thomas, Mrs. Friedlander's physician, goes even further than his patient in estimating the amount of money necessary to purchase a sufficient supply of nutritious food. In his opinion a full-grown man may live and grow stronger on an expenditure of half a cent a day.



Mrs. Rebecca Friedlander.

THE LIGHT OF THE WORLD

or

OUR SAVIOUR IN ART.

Cost nearly $100,000 to produce. Contains nearly 100 full-page engravings of our Saviour and His Mother by the world's greatest painters. True copies of the greatest Masterpieces in the art galleries of Europe. Every picture is as beautiful as a sunrise over the hilltops. Contains description of the paintings, biography of the painters, the names and locations of the galleries in Europe where the original may be seen. Also contains a Child's Department, including a Child's Story of Christ and His Mother, beautifully written, to fit each picture. This wonderful book, matchless in its purity and beauty, appeals to every mother's heart, and in every Christian home where there are children the book sells itself. Christian men and women are making money rapidly taking orders. A christian man or woman can in this community soon make $1,000 taking orders for Christmas presents. Mrs. Waite, our agent in Massachusetts, has sold over $3,000 worth of the books in a very short time. Mrs. Sackett, our agent in New York, has sold over $1,500 worth of the books in a very short time. The book is printed on velvet-finished paper, beautifully bound in Cardinal Red and gold, and adorned with Golden Roses and Lilies. It is, without doubt, the most beautiful book of this century. Write for terms quickly and get the management of that territory. You can work on salary or commission, and when you prove your success we will promote you to the position of Manager and correspondent, at a permanent salary, to devote your time to attending to agents and the correspondence. "I'm Ashamed

To go anywhere with my face in this condition," is the expression of a very natural feeling. To a beautiful woman an eruption on the face is the greatest of calamities, her very beauty seeming to increase the disfigurement. Ninety-eight times in every hundred, eruptions are cured by Dr. Pierce's Golden Medical Discovery, and the skin recovers its maiden bloom and softness. "Golden Medical Discovery" is a medicine which acts directly on the blood, purifying it, increasing its quantity and its richness. Eruptions, blotches, pimples, etc., are but surface signs of the corrupt blood current underneath. "Discovery" cleanses the blood, and so cleanses the skin.

"For about one year and a half my face was very badly broken out," writes Miss Carrie Adams, of 116 West Main St., Battlecreek, Mich. "I spent a great deal of money with doctors and for different kinds of medicine, but received no benefit. At last I read one of your advertisements, and obtained a bottle of Dr. Pierce's Golden Medical Discovery. Before I had taken one bottle of this medicine I noticed a change, and after taking three bottles I was entirely cured."

Dr. Pierce's Pleasant Pellets keep the bowels in healthy condition.

ATTACK of ROYAL CANADIANS at Paardeberg
The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer riflemen. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are BAD NOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 60 in one day. Sample and terms 25 cts (none free); four for 60 cts; $1.75 per dozen: 75 for $9.25; 50 for $6.00; 100 for $11.00 Write to day for a dozen and make money. MESSRS. J. S. HAMILTON & Co., Brantford, Ont., Canada:

Dear Sirs,—In accordance with your wishes I have had both the red and white wines and the champagne tested by several connoisseurs, French and English. All of these expressed surprise that an article of such merit was produced in Canada, and even manufacturers admit that the brand "L'Empereur" is of excellent quality.

This opinion from critics who are by no means easy to please should be very satisfactory to you, and it gives me pleasure to congratulate you upon it. Yours faithfully,

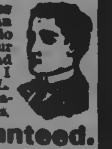
Varicocele and Stricture.

VARICOCELE:—If you are tired of being experimented upon, you will find our Latest Method Treatment is a guaranteed cure for varicocele without use of knife or loss of time, it absorbs the wormy condition, restores the parts, thereby bringing back lost power; if you take our treatment, you pay when cured.
STRICTURE:—Thousands of you have stricture and do not know it: if you have been indiscreet, or improperly treated, or notice a smarting sensation, unnatural discharge, weak organs, or back, nervous debility, or if you are not the man you should be, it may be the cause of stricture. If you are in doubt, call and see us, as we will examine you free of charge; our Latest Method Treatment absorbs the stricture, thereby making cutting or stretching unnecessary, and you pay when cured.

Kidneys and Bladder.

Don't neglect these important organs, as you will regret it: Have you a dull feeling or pain in the back, frequent desire to urinate, deposits in urine? Our Latest Method Treatment is a guaranteed cure for such conditions.

The original sworn affidavits or testimonials can be seen at our offices, $500.00 reward for any we cannot show: at request of patients we publish only the initials.



Your Latest Method Treatment acted the way you said it would; my strictures are cured, and the varicocele entirely disappeared, and I feel stronger than ever; my bladder and kidneys do not trouble me any, I can stoop all day, do a hard day's work without my kidneys troubling me as before I took your Latest Method Treatment: it has cured me after others have failed; if I had consulted you sooner, I would have saved a great deal of money which I wasted on other *doctors*; I am your *grateful patient*, F. One of the unique institutions of Kansas City is State Line street. Kansas City is located in the border line between Missouri and Kansas, occupying a liberal stretch of territory on each side of the boundary. The Missouri State laws prohibit gambling within its borders, while Kansas is famed for its prohibition laws. A choice array of gambling resorts lines the north side of State Line street, which is located on Kansas soil; while the opposite side of this thoroughfare in the State of Missouri is made up chiefly of saloons.

Took off His Arm Without Touching It.

A brief telegram the other day recited that one James McMullen had lost an arm in a wringing machine in a laundry at Hutchinson. Here is the remarkable story related about the accident by the Hutchinson News:

"McMullen stopped at the wringer and held his hands over it to dry them. He got one hand too low so that the air suction caught it, and his arm from the elbow down was taken off as by a miracle. The wringer is a large circular iron affair, with a smaller bowl inside it in which the clothes are placed. The smaller apartment is perforated with holes upon the sides, and the whole thing revolves at the rate of several thousand revolutions a minute. The effect is that the air currents within the wringer are as terrific in their power as the centre section of a Kansas cyclone. When a cyclone strikes a brick building and hurls it to atoms the force seems appalling and incomprehensible. The accident to Mr. McMullen was equally mystifying. The instant his arm came into contact with the current of air it was parted at the elbow. One part lay on the clothes that were in the machine and the other dangled from his shoulder. There was nothing about the machine to give him even a scratch.

"The nerve exhibited by McMullen was wonderful. 'It never touched me,' was the first thing he said. The girls in the room were screaming and McMullen calmly informed them that it was not his head that was taken off and told them to be still. He was taken to a hospital and his arm was amputated close to the shoulder."

We Must Think Young.

The secret of keeping young is to think young, to keep one's mentality fresh and energetic and interested in those things that interest the youthful folks, and to keep pace with the great changes that are going on around us. Take a woman and put her in a farm-house, where even the echo of the great tide of human affairs never penetrates, whose life is spent in continual effort to keep the home in order and to clothe the growing family. At thirty she will have developed all the marks of middle life. Probably this same woman, working quite as hard, if placed in a large city would have managed to keep herself in appearance ten years younger. Why? She would have lived more outside herself. There would have been books and newspapers, art galleries and theatres, talks on politics and of the great men and women of the world to distract her thoughts from the drudgery of housework. The cobwebs would not have gathered in her brain and her physical loveliness would have been preserved.

Where Can We Find—

A woman to mop the brow of the mountain?

The whetstone that will sharpen a dull appetite?

The ring that will fit the finger of fate?

The correct measurement of the footprints of time?

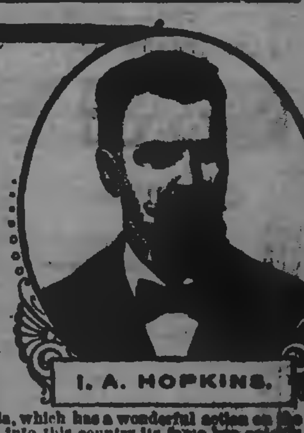
A WONDERFUL

KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.



I. A. HOPKINS.

BRIGHT'S DISEASE, GRAVEL, DROPSY,

And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced *stages of Bright's Disease. Among the more recent recoveries is that of* Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for the years and I am in good health now. I know that Alkavis saved my life. What more can any one say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 53 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 408 Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrance the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

PRICES AND TERMS

PRESENT PRICES—We are now selling our fully paid and non-assessable TREASURY SHARES at 5 cents per share, in blocks of 100 shares and more; 100 shares, $5; 1,000 shares, $50; 5,000 shares, $250; or 10,000 shares or more at the same rate. Send your order right NOW, before the next advance, as you will soon pay a higher price. Investors are rapidly investing with us.

The company fully prepays all government revenue, postage, etc. Send also for our handsomely illustrated prospectus, which contains much valuable information. It is free for the asking.

All communications of every nature concerning this company should be plainly addressed to

The Colorado Copper Mining Company,
Mining Exchange Building, Denver, Colorado.

A Few Legitimate Mining Investments

Wherever I find claims that embody LEAST COST AND LEAST HAZARD, united with vast ore bodies and greatest possibilities of reward, THERE I OPERATE only after personal inspection. I take my patrons with me on the ground floor.

The Peoples Popular Course

This consists of five first-class entertainments for the price of four to holders of "Course Tickets," which are only one dollar each. This opportunity is open until the first entertainment, Monday, December 10th. Full course guaranteed. Subscription lists at Sailsbury's, Ormond and Walsh's and Stratton's.

The Mothers Meeting

The mothers' meeting under the auspices of the W.C.T.U., which was adjourned on account of unfavorable weather, will be held in the Y. M. C. A. hall this afternoon, commencing at 3.30 o'clock. Practical talks will be given by Dr. Jessie Birnie and Mr. John Wallis; readings, recitations and good music. All are invited to be present, particularly mothers.

Mrs Morrow's Concert

We again remind our readers of Mrs. Morrow's concert in Bradburn's Opera House this evening. A few choice seats remain to be disposed of. Mrs. Morrow will be assisted by Mr. Owen Smily, of Toronto, the clever elocutionist, Master Vincent Morrow, the wonderful boy soprano, Mr. John Crane, accompanist, and Mr. Glidden's Orchestra. Tickets may be obtained at Bradburn's office, when reserved seats can be secured.

Another Accident

A very serious and probably fatal accident occurred at the Belmont gold mines on Thursday afternoon last. A carpenter by the name of Irvine, from Kingston, was working on a scaffold, when it fell, precipitating the unfortunate man to the ground. He alighted on his feet in a pile of lumber, which slipped under him and his head struck the ground, splitting the skull open. He was taken home after his injuries were attended to, but the doctors hold out no hope of his recovery.—Standard.

Big Shipment of Fowl

Messrs. Flavelle Brothers, Lindsay, are shipping this week 60,000 pounds of turkeys, geese and chickens to England. This is probably the largest shipment of this kind ever made from Canada. For some time about 100 men, women and children have been employed by the enterprising Lindsay firm in killing, "plucking" and preparing fowl for shipment abroad. Mr. Flavelle told the Times on Saturday that he had paid as much as $70 to one farmer for fowl. The industry is the means of putting a large sum of money into circulation. Lindsay's progressiveness is due to a few such men as the Messrs. Flavelle.

Killed on the Track

The section men on the C.P.R. made a ghastly discovery Saturday morning about a mile west of Norwood, when they found the mangled remains of a man lying on and along the track. The unfortunate man had been struck by one of the trains during the night and had been horribly mangled, and, of course, instantly killed. The accident was undiscovered until the section men went along the track to work. The remains were taken to Norwood, where they were identified as those of Richard Darling, of Warsaw. The deceased was a young man, but how he came to be on the track, or how the accident happened is unknown. It is supposed that he must have been killed by a freight that went through at 9.45, and the remains had been on the track undiscovered all night.

JOTTINGS ABOUT TOWN.

Full details of the death of Dan Spence will be found in to-morrow's issue.

—To-morrow there will be a big tea, under the auspices of the North Smith Presbyterian Church, from 5 to 8 p.m.

—The Strickland Canoe Company, Lakefield, are manufacturing a large number of boats for the English market.

—Farmers from Ennismore on Saturday, complained to the Times of the unsafe condition of the Mud Lake bridge.

—Lameness in the muscles and joints indicates rheumatism. Don't daily with it a minute. Take Hood's Sarsaparilla and cure it.

—Messrs. J. J. Turner & Son are extending their lines. Their traveller is now up at the Sault taking orders for tents, etc., and reports splendid business.

—Mr. P. Collins, of Collins & Donoghue, grocers, Hunter street, has sold out his interest in the firm to Mr. Donoghue, and the latter will now conduct the business alone.

—The announcement is made with pleasure that Mr. W. H. Bradburn has made arrangements for the appearance in the opera house of the Boston Ladies' Orchestra, which was so favorably received in Peterborough last year.

Dr. Agnew's Catarrhal Powder.—Rev. W. H. Main, pastor of the Baptist Emanuel Church, Buffalo, gives strong testimony for and is a firm believer in Dr. Agnew's Catarrhal Powder. He has tried many kinds of remedies without avail. "After using Dr. Agnew's Catarrhal Powder I was benefited at once," are his words. It is a wonderful remedy. 50 cents.—65

SOCIAL AND PERSONAL.

—Senator Cox was in town Saturday.

—Mr. W. H. Robertson and Miss Mattie Robertson were in Toronto Saturday.

—Judge Barron passed through town Saturday on his way to Port Hope.

—Mr. C. McGill, general manager of the Ontario Bank, spent Sunday in town.

—Rev. H. H. McPherson, of Halifax, N. S., occupied the pulpit of St. Paul's church yesterday morning.

—Mr. Peter Hamilton and his daughter, Miss Mamie, left Saturday for Clifton Springs, where they will remain for several weeks.

—Mrs. John Nugent entertained about forty of her lady friends on Saturday afternoon from four to seven. The affair was perfect in every detail.

—Mr. W. T. P. Eyres, son of Mr. Wm. Eyres, returned from the Klondike, where he spent two years. He is amongst the fortunate gold seekers, having brought with him a fair share of the golden dust.

An Old Citizen Gone

An old and highly respected citizen of Ashburnham passed away on Friday in the person of Mr. Hillier Archambault, at the ripe old age of 73 years. He had been a sufferer from heart trouble, which finally carried him off. He leaves a widow with three sons and three daughters to mourn the death of a loving parent. The children are Eugene and Hildas of town; Oliver of Boston, Mass.; Mrs. William Gerghrau, of Rochester; Mrs. P. V. Delaire and Dina of town. The deceased was born in Montreal but had been a resident of Peterborough for 33 years prior to his death. He was regarded most highly by everybody. The funeral took place yesterday afternoon, the remains being followed to their last resting place by a very large number of sympathizing friends and sorrowing relatives.

Unmitigated Gall

A woman walked into the parlor of the National Hotel on Saturday and stole a cover off one of the tables. She is known and it will be to her interest to return it at the earliest moment.

CAPT. CALCUTT WINS

In the Suit Against Him Before Admiralty Court, Toronto.

Our readers will remember several weeks ago that the steamer Eclipse was seized by order of the Admiralty Court, Toronto, on a claim of a man named Lundy, who alleged that Capt. Calcutt had not paid him the full amount of wages due.

The steamer was subsequently released, Capt. Calcutt having to pay into court $175.

The trial took place on Saturday, on Toronto, before Judge McDougall, with the result that Lunday completely failed to establish a case. On the contrary, Capt. Calcutt proved that Lunday had been overpaid. The witnesses for Mr. Calcutt were Mr. Manning, of the Toronto News, Toronto, and Mr. W. H. Robertson, of the Times, Peterborough.

Unfortunately Mr. Calcutt, although a winner, is a heavy loser, as Lunday is worth nothing, and consequently unable to pay Mr. Calcutt's costs.

The act of tying up the steamer, even for a day, in the busy season, under the circumstances, was nothing less than an outrage.

THE DOCTOR LAUGHED.

But the Woman was Frightened.

A physician of Columbus, Ga., rather poked fun at a lady patient who insisted she had heart disease.

The trouble really was caused by injuries from the effects of coffee drinking, and the nerves were so affected that it gave her every indication of heart disease. This is true of thousands of people who are badly hurt by the caffeine of coffee, and it is understood that if continued long enough, real organic heart disease will set in.

The lady referred to above is Mrs. C. V. Irvin, 1010 B street, East Highland, Columbus, Ga. She says: "I had been running down in health for a number of years and suspected that coffee was hurting me but could not get my consent to quit me. My heart troubled me so that I was very short of breath, and could do little or nothing that required exertion. I had fearful nervous headaches nearly every day, and was exceedingly nervous with indigestion and badly constipated. The doctor laughed at my idea of heart trouble, but knew that I was in a serious condition generally. Finally I was induced to quit coffee and take up Postum Food Coffee. This was about four months ago and the change has been wonderful. I feel like another person. My heart does not trouble me at all, and the stomach and nerves are decidedly improved. My head does not give me the old trouble it did, while the bowels are regular without any purgatives or medicine of any kind.

"I can hardly express my gratification for the relief from suffering brought on by the use of regular coffee, and I cannot thank Postum enough."

The Pie Habit.

In the spring men sigh
For cherry pie
To soothe their taste capricious.
'Tis with delight
They slowly bite
And say that it's delicious.

But later on,
Ere spring is gone,
They want a change from cherries,
And then they try
The fragrant pie
That's stuffed with lucious berries.

In summer days
The same old craze
For pie a new trick teaches.
With strong desire
Men then enquire
For pastry filled with peaches.

In chilly fall
For pie they call
But this time it is noted
They want the kind
In which they find
Sweet pumpkin thickly coated.

In winter drear
They perservere
For pie they still are scheming;
But when it's brought
They want it hot,
And packed with mincemeat steaming.

Thus all year round
Can pie be found
And men are quick to grab it;
Advice they spurn
For pie they yearn,
And won't give up the habit.

T. V. C. CANAL.

Editor Morning Times.

Dear Sir,—I read the letters of Mr. J. H. McClellan and Mr. H. Calcutt with a great deal of pleasure, and I am sure that all people will agree with both gentlemen. In the first place, everyone knows that you can get coal and all other kinds of goods very much cheaper by barges, schooners and steamers than you can by rail, and the sooner our Trent Valley Canal is completed the quicker will Peterborough and the people along the route reap the benefit. I quite agree with Mr. Calcutt, we want a dry dock at Peterborough, and the Government should build one here as good as the one they built in Kingston; it would be a great boon to vesselmen and also a great help to our town. I also agree with Mr. McClellan that the Trent Valley Canal should be pushed through to completion as fast as possible, so that we could get our coal through from Oswego, Sodus or Charlotte in barges, which would reduce the price of that commodity materially. The freight by this route would be very much cheaper than under the present system, and the completion of the Canal would mean an opening up of many manufacturing concerns in the districts traversed by this waterway. Let everyone do their best to help this matter along.

Thanking you courteously for your space, Mr. Editor, I remain yours truly,

J. J. TURNER.

The Triumph of Good Government.

(From the London Express.)

Broadly, President McKinley represents the forces in America which are friendly to good government and to the best interests of business and industry, friendly to Great Britain and to the spread of the Anglo-Saxon ideal of liberty and progress all over the world. Mr. Bryan, on the other hand, is associated with the fanatics of a false system of finance, with the disturbance of business and discouragement of enterprise, with the bitterest enemies of England, and with the narrowest of the narrow parish politicians who would confine the interests of a great and growing nation within its own borders . . . Apart from this nationally personal aspect, we can rejoice at the Republican success for many reasons. It has saved a panic in the markets of the world, a tumbling down of securities, an upset of trade—consequences only too certain to have followed on the return of Mr. Bryan. It has ensured a continuance of the sound policy of the United States Government in China, and a pursuance of principle of qualified imperialism which has already placed America high among the Great Powers of the world. Best of all, perhaps, it has finally disposed of Mr. Bryan.

"To Do Ill Costs More Than To Do Well."

This might properly read, "It costs more to BE ill than to BE well." The source of all health is rich, strong blood. It is to the body what the mighty streams are to the earth. If the blood is pure, the body thrives; if the blood is weak or impoverished, then every pulse-beat carries weakness instead of strength.

Why make the cost of living more than it need be? Purify your blood and give your constitution a chance to do its level best. The only perfect blood purifier and vigor-maker in existence is the world-famed Hood's Sarsaparilla. It brings good, perfect health. *It never disappoints.*

Wily Turk and Yankee

Constantinople, Nov. 30 — The relations between the Porte and the United States Legation are said to be excellent. The visit of the United States battleship Kentucky to Smyrna does not influence the nature of these relations.

The United States Legation will continue to press its demand for an exequatur, but a prompt solution of this question is not likely.

The order of the Cramps, of Philadelphia, for a cruiser will be small, the price being less than 500,000 Turkish pounds.

London, Dec. 1—"It is probable," says the Constantinople correspondent of the Standard, "that the contract for a cruiser to be built in the United States will be cancelled as soon as the Kentucky shall depart, for it is difficult to see how the money is to be found."

VOL. 26 NO 284 PETERBOROUGH ONTARIO TUESDAY DECEMBER 4 1900 PRICE TWO CENTS

A BIG INDUSTRY IS COMING TO PETERBORO

The American Cereal Co. Purpose Taking Over the Dickson Co.'s Property.

THEY WILL EMPLOY FROM 600 TO 800 HANDS

Senator Geo. A. Cox and District Manager White, of the Grand Trunk Addressed the Council—Citizens Must Keep Their Premises Clear of Snow.

The Town Council met in regular session last night, when there were present, Ald. Sawers, Weir, G. M. Roger, Dawson, Clinkscale, Robertson, Denne and Corkery.

In the absence of Mayor Kendrey Ald. Denne was voted into the chair.

The minutes of the preceding meeting were read and confirmed.

A NEW INDUSTRY

The American Cereal Co. Purpose Locating in Peterboro

At this juncture, Council decided to vary the ordinary routine of business to accommodate Senator Geo. A. Cox, who had an appointment with Ashburnham Council, and who was present in the interests of the American Cereal Company, manufacturers of the world-known Quaker oats.

This concern purpose purchasing the Dickson Company's property, on which to erect suitable buildings for the preparation of their famous commodities. Senator Cox explained to Council that for several months he had urged upon this large concern the advisability of locating in Peterborough, where exceptional facilities would be found for the conduction of their business, the securing of coarse grains and the transportation of their preparations to British and European markets. The company, which manufacture oatmeal flour, the famous Quaker oats, and other cereals, has extensive mills at Akron, Ohio, where they employ 1,000 hands, mills at Cedar Rapids, Iowa, giving employment to 850 hands, and also works at Chicago. They ship large quantities of their cereals to Britain and Europe, and have their own offices in London, England.

For the past five years this company have had in view an extension of their business in Canada, and he has always been energetic in suggesting Peterboro as a favorable spot in which to locate. He (Mr. Cox) went to Chicago and interviewed the treasurer, Mr. Stuart, and other officials of the company, who explained that they must secure a centre where large quantities of coarse grain—oats, peas, etc.,—are obtainable. In reply to this he had explained that the quantity of these products now delivered in Peterborough was no criterion of the capabilities of the surrounding country, which would be largely developed when so large and ready a market for such grain was furnished by the location of the American Cereal Company. In furtherance of this scheme Senator Cox also interviewed Mr. White and Mr. Bell, of the Grand Trunk Railway and secured their co-operation in the matter; they agreed to providing for course grains being put down in Peterboro at rates which would encourage the company to locate here, and also in giving the same rates from this district to the seaboard as from main line points. The speaker next urged that both Toronto and Ottawa had offered exceptional inducements in order to secure in their midst the location of this large concern, so that Peterborough had stiff competition to contend with. Although the company are pleased with the Dickson Company's site, they were afraid sufficient help would not be available in Peterborough for their purpose, but after a visit with him to the Canadian General Electric Co.'s works, where so many hands are employed, all doubts on this score were set at rest. The company calculate to employ from six to eight hundred hands, one third of which will be young men and young women employed in packing their goods. They would thus furnish a large amount of steady employment, together with supplying a big and ready market for coarse grains. The town is surely in urgent need of such a condition of affairs, which would mean increased prosperity in every way. A cash option for 60 days on the property in question has been secured on both sides of the river, not taking in any residential property, and the company only ask that its present assessment—$55,700—shall not be increased for a period of forty-two years, while they in return will expend in the next twelve months or two years $250,000 in improvements. While fully aware that the sanction of the Legislature must be secured in this matter, the company are willing, should a by-to the foregoing effect be passed by the Council, to go ahead and commence building at once. In conclusion the Senator pointed out that while the town has for many years past been attempting to secure new industries by bonuses, exemption from taxes, etc., they have now an opportunity of getting the location of a mammoth business concern on very easy terms. Senator Cox resumed his seat amid prolongued applause.

Mr. White, District Traffic Manager of the G.T.R., next addressed Council, and concurred with Senator Cox's remarks. He explained that his company had agreed to give the American Cereal Company exceptional rate advantages covering an area in the Midland District of 100 miles from all directions. He believed Peterborough to be the best central point for this concern, and the G.T.R. would look after the switching of C.P.R. cars, where necessary. The G.T.R. was ever alive to business, and always open to furthering the interest of the country in such matters as now under discussion.

A VOTE OF THANKS.

On motion of Ald. Dawson, seconded by Ald. Roger, a standing vote of thanks was tendered Senator Cox and Mr. White, of the Grand Trunk Railway, for the able manner in which they had laid before Council the above matter.

THE BY-LAW PASSES.

A by-law to fix the assessment of the Dickson Co.'s property in accordance with the wishes of the American Cereal Co. as above referred to, passed its several readings.

A PETITION

A petition to the Lieut.-Governor concerning special legislative by-law re American Cereal Co. was here authorized to be forwarded.

GENERAL BUSINESS

The Canadian General Electric Co.'s Assessment—Many Bylaws—Citizens Must Keep Their Premises Clear of Snow and Ice.

Mr. E. H. D. Hall, in behalf of the Canadian General Electric Co. here addressed Council re his appeal against the assessment of $125,000 on the above company's property for school rates, and asked that the Town Solicitor be instructed not to oppose the assessment of $100,000 as hitherto agreed by by-law.

Mr. D. W. Dumble was also heard on this question and said that the clause in the town's by-law inserted by Legislature was an ambiguous one, which could be construed in two ways, viz.: the town could either follow out their original intention and assess for $100,000, or they must assess for the full amount of the company's property in the usual way. He strongly urged that the first course be followed.

Ald. Roger remarked that a citizen like Mr. Dumble was in a very different position to members of the Court of Revision, who were under oath, and must act accordingly. The Canadian General had enjoyed exemption for ten years, and were now being assessed for the first time. Council had agreed to give the company a further extension of ten years' exemption, but on transmitting by-law to the Legislature for sanction, that executive body had decided that the company must be assessed for school rates in the usual way. The Court of Revision had therefore fixed the assessment for this rate on $175,000. There seems to have been some doubt, however, as to the interpretation of the clause inserted by Legislature in the Town's by-law in this matter, and in response to an appeal by the Edison Co., a medium course had been adopted, and the company were assessed at a nominal increase to $125,000. Now, if Legislature would sanction an assessment on $100,000 only he and his colleagues were perfectly willing to abide by it. They were simply actuated in their action by the oath they had taken in the town's interest.

Ald. Denne remarked that last spring it had been decided to assess the Edison Co. for $100,000, and Council should abide by that agreement.

Ald. Sawers contrasted the action of the Canadian General with that of the Matthews Co., who were perfectly satisfied to be assessed $20,000 more than last year. For such a firm as the latter he would like to throw off a little.

Ald. Weir here casually remarked that the town does not assess every industry up to its full value. In this case the by-law as submitted to the Legislature had not been sanctioned, and an ambiguous clause inserted, capable of being construed in two ways. The Court of Revision had acted in the matter as fairly as circumstances would permit.

The matter was here dropped, no further action being taken.

COMMUNICATIONS.

From Thomas Lytle, asking remission of dogtax on the plea that he does not own a dog—Court of Revision.

From Thomas McKee, asking extra pay for additional work incurred in assessing the Canadian General Electric Co.—Finance Committee.

From Engineer Hay, reminding Council of the application of the Hamilton Bridge Works Co. for release from penalty for over time, (8 days at $2.25—$20.00) in construction of steel highway beam span of Reid St. Bridge; the engineer also pointed out that the work was satisfactory in every way. Referred to Board of Works to report at next meeting of Council.

From Mrs. E. S. Mitchell asking for remission of taxes—Cort of Revision.

From the Provincial Secretary, acknowledging receipt of Ald Clinkscale's resolution of November 29th re government office holders taking an active part in municipal or legislative elections—Revision.

BOARD OF WORKS.

Ald. Roger presented the following:

Gentlemen,—Your Board of Works beg leave to report as follows:

1 That for the purpose of obtaining the definite advice of the Town Solicitor on the matter, the Dickson Co. was asked to furnish a statement in writing to the Council of their contention in regard to the ownership of the street along the raceway and the ends of Murray and London streets.

2 Your Board recommend that the work requested by George Coulman on Aylmer street be done in accordance with the report of the Town Engineer.

3 Your Board recommend that the Town Engineer be authorized to have areas prepared and grates set at A. Lane's store upon Mr. Lane depositing with the Town Treasurer a sum sufficient to cover the cost as estimated by the Engineer.

4 Your Board also recommend that the sidewalk on lot 2, east of Water and north of Antrim streets, leading from Water to Harvey streets, be taken up and removed in accordance with John McGrath's request.

5 Your Board recommend that the Chairman and the Solicitor ascertain whether Mr. Morrow would be content to have the sidewalk at the corner of George and Brock streets remain as it is until spring, the granolithic sidewalk then to be raised, and if so that the matter stand until spring, and that if he is not the Engineer proceed to lay the board walk.

6 We recommend that the Chairman of this Board and the Chairman of the Property Committee purchase two snow plows.

7 We recommend that tenders be asked for stone, the tenders to be received up to January 16th, 1901

8 We recommend that the Town Solicitor prepare a circular, to send to other towns and cities in regard to actions for falling of ice and snow on sidewalks, in accordance with the suggestions in his letter to the Chairman of this Board, and that the Clerk send the circulars.

9 We recommend that the Chairman of this Board communicate with the County in regard to the condition of the Otonabee bridge.

10 Your Board also advertised for tenders for snowplowing in three districts and recommended that the tender of Mr. S. Breckenridge for the Southern District at $48.50 be accepted, the other districts being still left open to be dealt with.

All of which is respectfully submitted.

The report was adopted as read.

2 That Miss Catherine Corkery be paid $100 in full settlement of her claim for damages sustained by an accident on the sidewalk.

3 That clause 7 of by-law No. 888 be repealed, and that the Town Solicitor prepare a by-law for this purpose, and that when the by-law is passed the Town Solicitor have an agreement drawn in accordance with the amended by-law for the Auburn Power Co to sign.

4 That the rate of interest on the debentures to be issued for sewer contract No. 8 and for granolithic contracts Nos. 8 and 9 be 3 1-2 per cent. and that $40 be added for the expense of selling the debentures.

An account from R. E. Wood for Dominion and Provincial election supplies—$10 each—was also imbodied in this report. The payment for the Provincial election supplies was adopted, and that for the Dominion was left in abeyance, while Council ascertained whether they were entitled to pay same or not.

All of which is respectfully submitted.

Ald Roger took exception to the grant of $100 to Miss Corkey and moved, seconded by Ald Dawson,—That it be amended as follows. As soon as Miss Corkey furnished evidence that her expenses accruing from the accident in question has reached $50; she be granted that amount.—Carried.

Ald Dawson remarked, that Mrs. Sherwood, Dawson, Lee and Patterson should all be paid their medical expenses resulting from like accidents.

BOWLING ALLEY LICENSE.

Ald Dawson moved, seconded by Ald Rogers,—That a Bowling Alley license for the remainder of the year 1901 be granted to Mr. Daniel McCabe on payment of 50c.—Carried.

REMOVE YOUR SNOW.

A by-law to compel the removal of snow and ice from side walks and roofs of buildings passed its several readings.

This by-law provides that citizens within the fire limits of the town shall remove all snow and ice from the roofs of their buildings and from side walks in front of same.

Snow and ice accumulating during the night to be removed before ten o'clock next morning; and the police are authorized to inforce this by-law under a penalty of $50.

The Town Clerk was authorized to have bills printed and posted notifying and instructing the public as to the above by-law.

ELECTION BY-LAW.

A by-law to provide polling places, and appointing deputy returning officers for the coming elections passed its serveral reasons. The following are the polling subdmissions and deputies appointed:

No. 1—Halpin's house; Angus McWilliam, D.R.O.

No. 2—L. Spry's shop, Stewart street; Joseph Lundy, D.R.O.

No. 3—Council Chamber; C. Cameron, D. R. O.

No. 4—Green's butcher shop; Mendel Green, D.R.O.

Mrs. Morrow's Concert

A Large Audience and an Excellent Entertainment.

An unusually good entertainment was expected by the large audience that assembled in the Opera House last night to hear Mrs. Morrow's recital, and it is safe to say that no one was disappointed. The applause was unstinted, and although the programme was long, almost every number was encored, the last as heartily as the first.

The programme included two vocal and two piano solos by Mrs. Morrow; soprano solos by Master Vincent Morrow, and recitations, character sketches, etc., by the inimitable Owen Smily. Mrs. Morrow's selections were of classic character, and it is needless to say were faultlessly rendered. The instrumental as well as the vocal numbers were enthusiastically encored. In response to recalls she sang a charming humorous ditty and gave a beautiful rendering of the "Suwanee River." Master Vincent Morrow was prettily costumed for each of his solos—"The Choir Boy," "The Jewel of Asia," from "The Geisha," and "I'll be a Soldier." The young gentleman has no little histrionic as well as musical talent. His clear boyish voice and his grace and naturalness made a very favorable impression. In the last number he appeared in khaki with miniture rifle and flag, and was heartily recalled.

Mr. Smily is an original and versatile humorist. He is a great mimic and has considerable musical talent. His "Humors of Music," the last number on the programme, delighted the audience so that he was twice recalled, although the evening was well advanced. The popular orchestra came in for a goodly share of the applause and was especially complimented by Mr. Smily.

Mrs. Morrow is much to be congratulated upon the success of her efforts.

There is little or no chance of "Hookey" Dixon being reinstated by the Ontario Hockey Association. Mr. Dixon is to put in further evidence when his case again comes up before the association. If Dixon is reinstated he will leave for Pittsburg, where he has secured a good position, and he will also be of great value to their hockey team. Toronto Telegram. Quite right the O. H. Archie McEachren, the well known Toronto Cycliest says:—

"I notice in last week's Toronto papers the amount won by some of the professional riders this season, in which the amount won by me is given as $4,199. My winnings this season are as follows: Baltimore, Md., $3,000. Philadelphia, Pa., $975; Newark, N.J. $425; New Haven, Conn., $1,000; Waltham Mass., $855; Boston, Mass, $1.525; Medford, $300; total $8,180.

FAITH IN ADVERTISING.

Without newspaper announcements no man who has commodities to sell or services to render can achieve as high a degree of success in business as he could with judicious advertising; and the success which newspaper publicity brings is worth many times its cost. A leading merchant of Syracuse (New York) says: "Most of the owners of large mercantile establishments who use newspaper space had their start under the same conditions that nine-tenths of the small merchants work under. They have had faith in advertising and the courage to buy space." Everybody reads the Times.

GENERAL DEWET CORNERED BY KNOX

The Boer Leader is in a Very Difficult Position.

A REWARD FOR ROBERTS

General Paget Repulses Boer Attack With Heavy Loss.

London, Dec. 3.—It is evident from Lord Kitchener's despatch regarding the pursuit of General De Wet that a critical point in the history of that leader has arrived, and that all his topographical knowledge and keen preception will be needed to extract him from the cul de sac into which hewas at last reports being driven. In his retreat southward General Knox appears to have swerved considerably to the west in order to avoid Col. Pilcher, who had been stationed at Smithfield, commanding the road of the Aliwal North bridge into Cape Colony, in order to intercept him. Having gone round Colonel Pilcher's position by this move he made for the Bethulie bridge, which lies forty miles southwest of Smithfield, but was over-taken by Knox and his flying column at Dafelberg, twelve miles from the river and the bridge. This was on Tuesday last, nearly a week ago, and an engagement of two hours ensued, resulting in the further retreat of the Boers, in what direction is not stated by Lord Kitchener. A despatch to The Evening Standard, a reliable journal, fills in one blank by stating that on Saturday last a battle was being waged near Rouxville between General Knox and General De Wet, and that the capture of the latter was imminent. It is apparent, therefore that the Boer general, after the skirmish, at Dafelberg, turned sharply to the eastward and followed the Orange River to Rouxville, about twenty miles from the Aliwal North bridge, at which place he was again overtaken by Knox and brought to battle, with a result so far unknown. The position of De Wet at Rouxville is a precarious one, for the town is in the extreme corner of the Orange River Colony, with the border of Basutoland to the east, the Orange River to the south, and the British to the north and west. His only method of escape lies in his forcing the passage of the river— strongly guarded—or in his turning upon his trial and making his way back to the northward through an investing cordon of troops, a task with which the Boer guerilla is quite familar. The result of the operations is expected with interest and anxiety, for they will decide in a great degree the duration of the war, which must peter out when De Wet and Steyn are removed from the field.

REWARD FOR ROBERTS.

London, Dec. 3.—The Manchester Guardian says it understands Queen Victoria has decided to confer a Dukedom on Lord Roberts and that Parliament will be asked to vote him £100,000 ($500,000.

DEWET NEAR THE BOARDER.

London, Dec. 1.—Lord Kitchener cables to the War Office from Bloemfontein, under date of Nov. 30., as follows:

"Knox engaged De Wet's rear guard on Nov. 27 for two hours. The enemy retreated. We had one killed and six wounded. According to the latest reports. Knox is in touch with De Wet at Dafelberg, twelve miles north of Bethulie, near the Cape Colony boarder.

"Settle has defeated Hersog and occupied Luckhoff. Paget engaged Viljoen and Erasmus on Nov. 28 and Nov. 29 and drove the enemy back to Rietfontein. Lieut.-Col. Loyd was dangerously wounded. Five other officers were wounded. We also had five men killed and fifty wounded. Lyttelton is co-operating with Paget."

The War Office announces that the Boers took 451 prisoners at Dewetsdorp.

FIGHT NEAR BLOEMFONTEIN.

Bloemfontein, Dec. 1.—A patrol of fourteen South African Constabulary during the night of Nov. 28 engaged a contingent from Hassbeek's commando southwest of this town, with the result that 36 Boers are reported to have been killed or wounded.

DAN SPENCE'S DEATH

The Sad Story as Told by an Eyewitness.

How the Boers Treacherously Shot Down the Brave Canadians—Dan Only Fired One Shot When He Fell With a Bullet Through His Head.

Corporal Darrel Ince Warren, formerly lieutenant of the Governor-General's Body Guards, and now with the Royal Canadian Dragoons in South Africa, and a man who witnessed Dan Spence's death, writes to his father from Belfast, under date of October 9, as follows:—

You see we are no longer at Wonderfontein, which place we left on Sunday two weeks ago. Two days before leaving there we had a sad time of it. I received orders to take three men and a Cape cart and go off to the hills, about four miles away, and bring in a load of oat straw for the troop horses. Some of us while scouting had seen this straw a few days before in a shed at a Boer far, house. We started off, with Troopers Thornton and Spence, mounted, and acting as advance guard, and as my horse was pretty well played out, I decided to give him a rest and ride in the cart with the driver, whose name was Ratcliffe, from St. Catherines, and a former member of your regiment, the 2nd Dragoons. Spence was from Peterborough, and Thornton from Toronto. We arrived at the house safely. It was situated in a large valley four miles from camp, and after getting our cart loaded, we went on about a quarter of a mile up the valley to some Kaffir kraals to purchase chickens and eggs which Mr. King had given Spence orders to get. Then we started for camp.

HOW SPENCE DIED.

When we had gone about half a mile we came to a creek, the bottom of which, being very rocky, Ratcliffe and I got out to cross. Just at that moment we noticed three men, mounted, and standing in behind some rocks on the top of the hill. As soon as they saw that we had seen them they beckoned to us and called us to come over. I at once recognized them to be Boers, but Thornton and Spence, who were ahead, thinking them to be our own men, rode towards them, and then the Boers fired. Thornton and Spence immediately returned the fire, and then galloped up the valley about 200 yards and *dismounted* to fire again. Spence, poor fellow, only fired one shot, and then a bullet went crashing through his brain. Ratcliffe and I ran up, leaving the horses and cart in the creek. Just as we got near Spence and Thornton, Ratcliffe was shot through the body. Thornton and I opened fire on the Boers, but could not get a good shot at them, as they were under cover of the rocks. After firing a few rounds Thornton attempted to pull his horse in towards him to get him out of the range of the Boers, and just then a bullet struck him, entering the front of the left shoulder and going out below the right shoulder blade.

THREE OF THEM HIT.

Well, I thought it was all up with me when I saw these poor fellows all stretched out, and one of them dead. The Boers stopped firing a few minutes after Thornton was hit, and I then crawled over to him, and bandaged up his wounds. Fortunately, they did not bleed much, externally at all events. I then crawled to the creek, got him a drink, and fixed him up as best I could, telling him I would try and get over to the nearest outpost and get help. Poor Ratcliffe had died in the meantime.

I then managed to creep out, and caught one of the horses, but the poor thing had also been badly wounded, and I had hard work in dragging him along. I crawled about 200 yards, pulling him after me, and then mounted and went as hard as I could make him go, for the outpost. I arrived there safely, and one of the fellows, named Robinson, of Toronto, offered to go back with me, and another went went to a farm house and got some Kaffirs to take a wagon, with a mattress on it, down for Thornton. Robinson and I got back just as it was getting dark, and found Thornton no worse than when I left him. We waited about an hour, and then the wagon and mattress turned up, but we found the wounds were still bleeding, we thought it would be dangerous to move him, and we decided to remain there all night. We sent the wagon back, but kept the mattress for Thornton to lie on.

BOERS HOVERED AROUND.

We put in a terrible night with him, and early in the morning we could see the Boers hovering around like a lot of vultures. They kept drawing closer and closer, but, fortunately for us, just as they were getting within range, our ambulance came up, and consequently put a stop to their sport. Thornton and the two dead bodies were put in the ambulance together and started towards Belfast, while Robinson and I found our way back into camp as best we could. Thornton is now in the hospital at Pretoria, and will recover, I think. We are getting pretty anxious to see home again.

IMPERIAL HOUSE IN SESSION AGAIN

Irish Members Absent—Real Work of the House to Begin on Thursday.

London, December 3—The opening of the initial session of the fifteenth Parliament of Queen Victoria occurred at 3 o'clock this afternoon. It was a formal affair, and of little public interest. A small crowd assembled to see the beef eaters, who carried out the usual search for possible conspirators in the vaults beneath the House of Parliament, with the cummary ceremonial and with the customary result. There was likewise the usual competition of zealous members of Parliament to be first on the scene, and Mr. J. C. MacDona, Conservative member for the Rotherhithe division of Southwark, easily secured the choice of seats, arriving in the House at midnight.

Although the only business before the House was the election of a Speaker, the attendance was good, in spite of the absence of the Irish members. The leaders were cordially welcomed by their supporters. There was no opposition to the re-election of Mr. William Court Gully for a third term as Speaker, and congratulatory speeches followed.

Tuesday and Wednesday will be mainly devoted to swearing in members. The real work of the session will begin Thursday, with the reading of the Queen's speech, and the debates on the reply to the address from the throne in both Houses.

A WHITE ELEPHANT

Cobourg and Bowmanville as Regard the Stone Crusher

The following from the Cobourg Post will be read with interest by many Peterborough people. We in Peterborough also have a stone crusher. The Times would not abject to the possession of a machine to break stone, but it should have been a portable article. There is too much hauling stone backwards and forwards to make the thing of much use. It would have been much better had our Council exercised ordinary horse sense when they were about it, and procured a machine such as is used in Smith and other places, that could be hauled around to where he stone was required and put to work. Our opinion is that it would pay to take the machine and dump it into the middle of Little Lake, and buy a portable article. Here is how our contemporary regard's Cobourg's stone crusher.

"Cobourg is not the only town along the line where economy is totally disregarded in municipal matters. Bowmanville, according to the Statesman, is now heavily burdened by high taxation. A white element in the shape of a stone crusher is lying rusting in the agricultural grounds along with the road machine. Thousands of dollars have been spent in an attempt to beautify the town, and something like $16,000 expended in cement pavements. Stone crushers, cement pavements. Stone crushers, the people of Bowmanville will learn, as will also the ratepayers of Cobourg, are all right provided the machine is necessary and the parties using the product of the machine understand the art of road making, otherwise they will prove an expensive toy. It will be some consolation to the gentlemen who loaded Cobourg with a $3,000 ornament to know that there is another pile of scrap iron in the United Counties.

THE WONDERLY GOLD MINING COMPANY, Limited

CAPITAL $1,000,000, Divided into Shares of $1 00 each.

Incorporated under Ontario Laws. Non-assessable.

This Company was formed for the purpose of purchasing and working seven gold claims on the Saskatchewan river, near Edmonton.

These claims have been worked some, and in the summer of 1900 D. F. Loveland, the former owner and president of the Company, had a dredge at work, and although only able to handle 200 yards of earth per day, there was from $30.00 to $50 00 of gold taken from that amount of earth daily, and thus demonstrating beyond doubt the great value of these claims.

The Company proposes to purchase one of the Risdon dredges, with a capabity of 2 500 cubic yds. a day.

The expense of running such dredge will be about $175.00 per week, and even if the dredge handles only 1,000 cubic yards a day, in six days, there will be taken out $1,500 00 worth of gold, with a profit of $1,325 00 in one week.

Sufficient stock will be sold at 25 cents per share to raise money to purchase the necessary dredge, after which the books will be closed and no more stock will be offered for sale.

There is no gold proposition on the market to-day equal to this one.

Application for stock can be made to any of the Directors, or to the Secretary, or to W. T. McNeil, broker, St. Catharines.

OFFICERS:

PRESIDENT—D. F. Loveland, capitalist, Galena, Illinois.

PETERBOROUGH, DECEMBER 4, 1900

SOME NATIONAL CHARACTERISTICS.

How They Are Shewn by Englishmen, Irishmen and Scotchmen.

The following was given the Times by Mr. John Whyte, of Campbellford, for publication in the Times. It was taken from the Sterling, (Scotland) Sentinel, and is well worth reading:

The present writer was entertained the other day while listening to some stories told by an American who had just returned from a tour in England, Scotland and Ireland. It would seem from his narrative that there are times when, under the same kind of provocation, the Englishman growls, the Irishman strikes, and the Scotsman laughs. It is possible that some Professor of the Indemonstrable in the University of Edinburg may be able to find here a theme for a lecture on the philosophy of national characteristics or the dedifferenziation of racial phenomenology.

"It so happened," said the American, "that I had some curious views last month during my stay in London, Dublin, and Edinburg. I noticed that while in London that if the foreigner says anything deregatory to England, the Englishman growls at him; and I noticed while in Dublin that if a foreigner disparages Ireland, the Irishman stands ready to larrup him; and I noticed when in Edinburg that if a foreigner decries Scotland, the Scot laughs at him."

"That's queer; how do you explain it?"

"I can't explain it; but I'll illustrate it At the hotel where I put up in London there arrived one day a bearded German from Germany, who seemed to have some dealings with a whiskered Englishman who, as I afterwards learned, was a manufacturer. I was in the waiting room when the two parties came together there, accosted each other, and took chairs about ten feet from where I sat. They talked awhile in a business-like way, in an undertone, both of them stiff as a poker. The first thing that I knew of any tangle between them was when the Englishman began to growl. I looked over at him, and saw that his face was red as a beet. He growled in a muffled way at the beginning, but soon his growl grew fierce as he glared at the German, who, as I I and other quickly found out, had made some kind of an offensive remark about England. He sprang from his chair, growling and shaking with anger, seized his umbrella, and, as he stalked out of the room, loudly warned the German that he would permit no low-bred foreigner to insult England or sneer at English Royalty. The discomfited German appealed to me, supposing probably that I was some kind of an outlander, and perhaps fearing that he might be arrested for 'lese majeste,' as men are in Germany. He declared that he had not meant to cast any slight upon the English, and that the Englishman had made a fuss about nothing. So I braced him up in his fright, telling him that I did not believe there was any danger of his arrest. But you needn't tell me hereafter about the growling of the British lion, the tail of which I had so often twisted in California. Here it was, the real thing, in John Bull's own island."

"Now for Ireland."

"But I happened to see a different sight in Dublin when I was there. Two Canadians, both of whom had evidently tried the power of Irish potheen, were strutting through Phoenix Park, talking louder than was necessary, and several men heard them use the name of Ireland. Seeing that they attracted notice, they began to sneer at Ould Ireland, one of them saying it was full of snakes. A laborer, with a pipe in his mouth, suddenly stepped in front of them. 'What's that ye say about Oireland?' and he knocked off the hats of both of them. There was a scrimmage, and three or four men, all of the 'riapictible' class, ran up. 'They're talking against Oireland!' cried the laborer; whereupon the other men joined him, and the two Canadians were left sprawling. And thus it was that I discovered that it isn't safe for any foreigner to fall foul of the ould sod when he is in Ireland."

"Now for Scotland."

"But I myself," said the American, "was the victim there. I had a number of business acquaintances in Edinburg, one of whom asked me to join a particular set at an hotel in Princess street one night. We were to have haggis, toddy, bagpipes, Scots songs, tobacco smoke, and other things. It turned out to be a very merry affair. After the stingo, which was stronger than anything in Texas had taken hold of me, I was in a mischievous mood, and, when called on for a speech, thought I would try the temper of Scotland, so as to see whether it growled like that of England, or struck out like Ireland. At first I spoke cautiously, saying that some travellers didn't think much of poor old Scotland or the beauty of Scotsmen. The whole company laughed. I grew bolder. I said it was too rough that Scotland had been subjugated by the tyrannical English—(loud laughter)—and trampled upon —(renewed laughter.) Stirred by the spirit of mischief, I whacked away, hammer and tongs. I kept on lampooning the Scots for four or five minutes, amid peals of laughter. Then, fearing I had gone too far, I declared that while I esteemed my Edinburg friends, they knew for themselves that Scotland was a place not fit to live in. (Uproarious laughter.) Now the bagpipes began to skirl, as the Scots say, and I was toasted as an unqualified American humorist, after which the company sang, 'For he's a jolly good fellow.' I asked the man who sat next to me if this was the way the Scots defended Scotland. 'Oh,' he replied, 'they ken ye're only an American, a mere Yankee, and an ignoramus.' At this I was taken down, you bet.

Such were the three stories, supposed to be stories of race traits, which an American traveller told when he reached his native shores. A member of the party that had been entertained by the stories took occasion to remark, "But now tell us something. Suppose that any foreigner coming to America was to abuse the United States publicly, what, in your opinion, would an American do? Would he growl like the Englishman, strike out like the Irishman, or laugh like the Scotsman?"

"Oh, I can give a guess on that; but in the meantime I have an idea. I believe that the Irishman in Dublin fell foul of the Canadians because Ireland has suffered so much abuse in the past that she can't stand any more of it. I think that the Englishman in London growled at the German offender because growling is a chronic habit of the English. I suppose the Scotsmen in Edinburg laughed at me because the Scots are so fully convinced of the superiority of their own country to any other on earth that they look upon a man who takes a fling at it as a wag, or what the Latins called a 'non sequitur.' And I guess that a genuine American would give 'Hail, Columbia' to any foreign slanderer of the United States of North America because the fellow deserved it. Only Scotland is great!"

Finds Himself Famous

Philadelphia, Pa., Dec. 1—Arndt K. Housekeeper, of Narberth Pa., was discharged as a voluntary bankrupt in the United States District Court yesterday with liabilities of $2,891,003.83, and assets of $25. It was stated that thirteen years ago when Housekeeper was 22 years of age some friends induced him to go on their bond in a gigantic real estate operation. This involved the erection of 800 houses in Philadelphia and nearby cities. He signed the necessary papers without thoroughly understanding what he was doing. Later the burden of the mortgages, nearly $3,000,000, fell on his shoulders."

The holders of the mortgages began proceedings against him. Judgments against him are held by trust companies, and estates in various parts of the United States.

King to Visit England

London, Dec. 1.—Dom Carlos I. King of Portugal, will visit England some time during the present month. He rules one of the smallest kingdoms of the earth, but has more titles than any other living monarch. Dom Carlos acceded to the throne in 1889. One attempt has been made to assassinate him.

Illinois Trial Trip

Newport News, Dec. 1—The battleship Illinois will start to-day on her trial trip. She is the first warship of the United States to have her funnels built athwartships and she is expected to develop great speed.

Prince of Wales Birthday

London, Dec. 1.—The birthday of the Prince of Wales will be celebrated today at Sandringham with great eclat. Many costly presents are being received from all parts of the world. The Prince of Wales is 56 years old to-day, having been born on Dec. 1, 1844.

Commences a New Term

City of Mexico, Dec. 1.—General Porfirio Diaz began to-day a new term as President of the Republic of Mexico, to which he was elected this Fall. The term extends till Nov. 30, 1904. The occasion has been made one of general rejoicing, as great satisfaction is felt with President Diaz's adminstration.

THE L'GHT OF THE WORLD
or
OUR SAVIOUR IN ART.

Cost nearly $100,000 to produce. Contains nearly 100 full-page engravings of our Saviour and His Mother by the world's greatest painters. True copies of the greatest Masterpieces in the art galleries of Europe. Every picture is as beautiful as a sunrise over the hilltops. Contains description of the paintings, biography of the painters, the names and locations of the galleries in Europe where the original may be seen. Also contains a Child's Department, including a Child's Story of Christ and His Mother, beautifully written, to fit each picture. This wonderful book, matchless in its purity and beauty, appeals to every mother's heart, and in every Christian home where there are children the book sells itself. Christian men and women are making money rapidly taking orders. A christian man or woman can in this community soon make $1,000 taking orders for Christmas presents. Mrs. Waite, our agent in Massachusetts, has sold over $3,000 worth of the books in a very short time. Mrs. Sackett, our agent in New York, has sold over $1,500 worth of the books in a very short time. The book is printed on velvet-finished paper, beautifully bound in Cardinal Red and gold, and adorned with Golden Roses and Lilies. It is, without doubt, the most beautiful book of this century. Write for terms quickly and get the management of that territory. You can work on salary or commission, and when you prove your success we will promote you to the position of Manager and correspondent, at a permanent salary, to devote your time to attending to agents and the correspondence. Wanted also a State Manager to have charge of office in Leading City of the State and manage all the business of the State. Send for terms. Address—

The Druggist Knows It Is the Best.

"After having a mishap, I suffered with pain in my left side and a lingering cough which grew worse and worse," writes Mrs. Cora Brooks, of Martin, Franklin County, Georgia. "Last spring I got past doing anything and my husband went to the drug store and called for Wine of C——, and the merchant recommended Dr. Pierce's Favorite Prescription, so he bought one bottle. I began to take it as directed in the pamphlet wrapped around the bottle. The book said if the disease was complicated with cough to take Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription' alternately, and Dr. Pierce's Pleasant Pellets, on rising every morning. Mr. Brooks went back to the drug store and got the 'Golden Medical Discovery,' and I took it as directed. The cough left me at once and I began to get better so rapidly my husband was astonished at my improvement. I am now able to work on the farm and also do the washing for two familes."

ATTACK of ROYAL CANADIANS at Paardeberg
The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer riflemen. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits Enormous success. One agent sold 68 in one day. Sample and terms 25 cts (none free); four for 80 cts; $1.75 per dozen: 25 for $3.50; 50 for $6.00; 100 for $11.00 Write to day for a dozen and make money. MESSRS. J. S. HAMILTON & CO., Brantford, Ont., Canada:
Dear Sirs,—In accordance with your wishes I have had both the red and white wines and the champagne tested by several connoisseurs, French and English. All of these expressed surprise that an article of such merit was produced in Canada, and even manufacturers admit that the brand "L'Empereur" is of excellent quality.
This opinion from critics who are by no means easy to please should be very satisfactory to you, and it gives me pleasure to congratulate you upon it. Yours faithfully,

If you have this awful disease you are in danger until completely cured; the various symptoms you notice should be a warning to take immediate treatment. Don't put it off until too late, as it continually gets worse. If you have sore throat, patches on tongue or mouth, swollen glands, hair falling out, blotches on body, itching skin, or other signs of this awful disease, call on us. We give you a written guarantee to cure you by our LATEST METHOD TREATMENT without Mercury or Potassium, and You Pay When Cured. Each time you call you see Dr. Goldberg personally, who has 18 Diplomas, certificates and licenses received from the various colleges, hospitals and States, which testify to his standing and abilities.

The original testimonials can be seen at our office; $500.00 reward for any we cannot show; at request of patients we publish only the initials.

I am improving every day. I notice if I cut or scratch myself the sore will heal up. I hope you will not stop treating me as long as there is a sign of that terrible disease. I am more afraid of it than death. I believe you have the right medicine for the disease. I feel so thankful to you for the good you have done me; I was a perfect wreck when I came to you, and was on the verge of suicide. To make a sure thing I would like to continue a while longer, so that it will not return. Very respectfully yours, Mrs. L. S.

"Electricity is a funny force," said the observant motorman. "Last night nearly all the current was suddenly off from the wires in the barn, and after a minute, came on again. Soon an order like that of an over cooked dinner filled the power house. On examination, two chickens were found roasting to death on the main wire. For hours the feathered pair had rested in safety on separate wires. The minute Chanticleer reached across to give a good night kiss to his dear Biddy, on an opposite wire, a deadly current was forced through their bodies."—Philadelphia Record.

The recent death of a member of a Sedalia, Mo., firm disclosed the fact that for thirty years the firm had kept no account books. It did a strictly cash business, and divided the day's receipts each night, share and share alike. When a bill of goods was purchased, each member of the firm paid one-half of the money, carried in his pocket.

In Newton, Mass., the other day, a man's $5 bill was blown out of his hand, and he could find it nowhere. A friend cut a piece of paper just the size of the bill and liberated it in the place where the man had lost his money. The paper blew down the street and around into an alley, and there the man found the $5 bill.

A collapsable fly proof dish cover has been designed, which has a central vertical hoop, with pivoted hoops on either side, which swing into a horizontal position to pull the netting which covers the frames down into place around the dish, folding against the central hoop when not in use.

A WONDERFUL
KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

I. A. HOPKINS.

BRIGHT'S DISEASE,
GRAVEL, DROPSY,
And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 53 years of age, and am very grateful for what Alkavis has done for me.
Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, such as lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and quickly at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. [illegible] Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

TOWN AND COUNTY NEWS

An Important Decision

A recent judgment of a County Judge, up west, was to hold the builder of a barbed wire fence, responsible for all damages sustained to animals by coming in contact with it. He regarded barbed wire fences as a public nuisance, and assessed the damage at $10 and cost.

The Richardson House

There are thousands of people from the Midland District who visit Torono at least once or twice each year, and to such the Times would direct to the Richardson House, where they will obtain the best of accommodation at moderate races. This well known hotel is situated on he corner of King street and Spadina Avenue, and is therefore centrally located.

A Wise Move

The Ontario Legislature should at the ensuing session, legislate in the direction of limiting the cost of litigation. The business to be done at the courts should be known some time before the session, so that, when unnecessary, the large number of jury men should not be summoned. In other ways, also, the cost of litigation should be curtailed.

Here is Conflicting Evidence

Deer hunters seem to differ like other people. Strong representations were made to the local government against the killing of deer in the water, and a clause was inserted in the statute book on these lines. Another big kick caused it to be taken out of the law. This year, Inspector Joseph Rogers, says that 70 per cent. of the deer killed were taken in the water, and that he believes it should be stopped. Here is a pretty dilemma, and no mistake.

New Ladies College

Cobourg Post:—Mr. Sager, from Pennsylvania, was in town on Thursday. The gentleman claims to represent a number of wealthy lumbermen of that state who are anxious to establish a college for young ladies, and Cobourg had been recommended as a suitable place. There was no mistake about recommending Cobourg, for our town possesses the true moral air, most suitable for such an institution, and we trust the scheme will be encouraged.

A Big Scheme

The city of Toronto is desirous of establishing a central Ontario electric railway, and a notice has appeared in the Toronto papers inviting all interested in the scheme of organising a company to perfect and put the road in operation to apply to Ald. Lamb, Toronto. It is proposed to run five lines from St. Lawrence market, each one hundred miles long, or 500 miles in all. The line will take in Peterborough, so that all here who are interested in the enterprise may have an opportunity to invest their cash.

A Glee Club

A glee club has been organized by the employees of the Canadian General Electric Company, with the following officers:

President and leader—Mr. G. W. Mulligan. Secretary-treasurer—Mr. Will Cochrane. Committee of Management—Messrs. J. Legg, J. Begley, J. Fulford, R. E. Harding, A. M. Irwin, A. Allan, J. O'Brien and J. Rose. The club intend securing a suitable room for the holding of practices and the members feel that under the efficient leadership of Mr. Mulligan excellent results can be obtained.

Blaze at the Carew House

A little blaze occurred at the Carew House yesterday morning, about ten o'clock. It appears that Mr. Carew's little three old child crawled under a bed and lit a match, setting fire to the bedding. A threatening blaze soon began to play havoc with everything burnable, and the frightened child summoned Mrs. Carew to the scene. Other help was soon on hand. The burning clothes were thrown out on the street, and sundry applications of water put all danger at an end. No great damage was done by the fire beyond the burning of clothing. The fire brigade were on the scene, but their services were not needed.

—The Orillia Times says that fewer deer were taken out of Muskoka during the season just closed, than for many years past. Only 134 were landed at Muskoka wharf from the steamers this season, against 230 last year. One reason for the small number taken out of Muskoka, is that the hunters are going further north.

—Midland citizens held a public meeting the other evening and talked waterworks and sewerage. A resolution was adopted asking the Council to submit a By-law to raise $75,000 for a system of waterworks, to have 74 hydrants, and $5,000 for a sewer on the main street. A proposal to purchase the town electric light plant will be considered at another meeting.

—At a meeting of the congregation of Centenial Methodist church, Torono, last Wednesday evening, Senator Geo. A. Cox said that he would take he responsibility of dclaring that Mr. J. W. Flavelle and himself would double any amount subscribed by the congregation up to he last day of December for the reduction of the church debt.

Members of the Royal Templars in Peterborough and elsewhere will be interested to know that a fight is begun between the Economist, an insurance paper published in Toronto, and the Royal Templars. Some time ago the Economist published an article, reflecting severely on the insurance methods of the Templars, which it declared, could only end in disaster to the insured. The Templars entered suit for $5,000 damages for libel and the Economist filed a plea of justification, and intends to argue out the matter in court, backed by the figures available.

Genuine Patriotism

Ladies of Canada:

While statesmen and politicians argue the Zollverein and differential trade with in the Empire (which they will do while jaw displaces common sense), settle this matter for yourselves.

Your brother colonists of Ceylon and India are growers of pure teas, Black and Green. Canadian and United States importers supply you with 11,000,000 pounds annually of Japan teas, yet they know Japans are artificially colored and adulterated. Let the knowledge of these facts and the sentiment of patriotic sisterhood move you to help the British planter.

British-grown Black Teas hold the Canadian market. Drinkers of Japan Tea should try the Greens now coming on the market, and your dainty palates will approve them. Yes, we hear your grocer's excuses; but insist. Ladies can always get what they want. Remember how you ran your husband to—well, do they still think it Paradise? They certainly will if you give them Ceylon and India green tea. Blue Ribbon, Monsoon and Salada packets are now obtainable.

Colonist.

"IT'S NOT BIRTH,

Nor Wealth, Nor State but 'Git Up and Git.' That Makes Man Great."

This is the motto on the letter head of a well-known grocery firm in Watertown, N. Y., Fred B. Bush & Co., and is indicative of the character of the men. Mr. Bush himself had quite an experience with food in relation to health, as he was refused insurance three years ago because the examining physician found he had Bright's disease and could only live a short time at the best.

"My own physician suggested that I make a radical change in diet. About that time my attention was called to Grape-Nuts food, and I began with doctor's permission to use this food. Of course I had been forbidden the use of sugar or starchy food, but my doctor knew that Grape-Nuts was compused of the starch of wheat and barley transformed into grape sugar and in this condition is easily digested.

"To make a long story short, Grape-Nuts has been a constant dish at my table for three years. I have taken no medicine during this time and I am now strong and healthy and capable of doing a hard day's work every day."

So much for pure food, properly selected and perfectly cooked by experts at the factory. There is not a single disease in the category of human ills but what can be helped by the use of pure food of this character, and most of the ordinary diseases can be cured.

EXTRE PROVINCIAL COMPANIES.

Editor Morning Times.

Dear Sir,—I have received a communication from the Secretary of the Board of Trade of the City of Brantford, a copy of which I beg to inclose, and which I consider will be well worth the trouble of our business men and others interested in incorporated concerns, to make themselves thoroughly acquainted with the contens of the same. Yours faithfully,

T. Q. QUARTERMAINE,
3rd Dec. 1900. Sec. Board of Trade.

BRANTFORD BOARD OF TRADE.

Brantford, Nov. 29, 1900.

T. Q. Quartermaine, Esq.,
Sec. Peterboro' Board of Trade.

Dear Sir,—At a meeting of the Council of the Board of Trade of the City of Brantford held on Nov. 27th, 1900, the following report made by a member of the Council was read and considered:

1. Corporations created by an Act of the Dominion of Canada, and some others are disqualified from exercising in this Province the rights conferred by their Charters.

2. To remove such disqualification they are required to obtain a license from the Lieutenant-Governor in Council, which license when obtained permits the Corporation to do business, and exercise its rights, or such parts of its rights as the license may sanction.

3. Should any such Corporation do business without a license it incurs the penalty of $50 each day and any contracts or business arrangements made during the time when without license are invalid.

4. The fee payable for a Corporation making application for a license is $25.00 when the Capital Stock of the Company does not exceed $100,000 and $50.00 when the Capital Stock of the Company exceeds $100,000.

A subsequent Annual fee of $5.00 and $10.00 respectively is also required from Corporations receiving licenses payable when making their annual statements as required under the Ontario Companies Act.

5. The Act took effect July 1, 1900, but the Corporations were given till Nov 1st to obtain their licenses.

6. Notice of the passing of the Act was required to be published in the Ontario and Canada Gazettes. The effect of the Act is to practically make worthless, so far as this Province is concerned, the Charters of Corporations, which have been issued by the Dominion Government, even though the Corporations have been exercising their rights under them for many years. The inference is that the Ontario Legislature denies the right of the Dominion to grant Acts of incorporation to Commerical Companies.

I beg to remark that it would appear to be more in keeping with justice and fairness if the Act had not been made to apply, at least in the meantime, to Corporations created by the Dominion prior to the passing of the Act. If there is conflict between the Province and the Dominion as to their respective powers, there should be a better method of instituting an understanding than by suddenly cutting off the rights to do business of a very large number of Corporations till they qualify for further money payments, and obtain the sanction of a new authorizing power.

Corporations should be protected in their rights by the different branches of the Government, and not made to suffer through a mistaken view of the Constitution by either Government.

Your attention is also called to the fact that no direct notice was given to Corporations affected by the Act. Should they fail to learn through the perusal of the official Gazettes of the passing of the Act they might incur the very serious penalties, and disabilities prescribed.

It might be stated that a number of Companies of Brantford who were affected had no knowledge of the Act till the 31st day of October. The notice is therefore open to the objection of being insufficient.

I beg to submit that the general bearing of the Act is of an annoying nature to Companies who hold Dominion Charters. That these Companies having paid their fees as required by the Dominion Legislature and obtained their Charters, and exercised their rights under them should not be disturbed.

In view of the above it is suggested that a respectful protest against the Act be sent in the name of the Council of the Board to the Ontario Government, and also that the matter be brought to the attention of thea Dominion, with the request that the Government take such action as may guarantee to Companies doing business under Dominion Charters the privileges and rights conveyed therein.

It is also suggested that the attention of other leading Boards of Trade of the Province be called to the action taken by the Brantford Board, and that they be asked to communicate their views to the Brantford Council, and to follow up the action taken as far it may be approved."

The following resolution was then adopted: "That this Council heartily endorses the report just read and is of the opinion that such legislation as "The Act respecting the licensing of Extra Provincial Corporations" tends to overthrow the confidence of investors in Commercial Corporations as it throws doubt upon the stability of the laws which confer their rights and leads to the fear that at some future time the rights and privileges conferred by their Charters may be curtailed by some of the various Provincial Governments. This meeting particularly objects to the retroactive feature of the Act and is of the opinion that the Act constitutes a dangerous precedent. And that copies of this report and resolution be sent to The Hon. The Minister of Justice, and of Trade and Commerce of the Dominion, and to the Hon. The Attorney General, and the Provincial Secretary of Ontario, and to the various Boards of Trade of the Province.

Yours truly,
GEO. HATELY,
Secretary.

To Locate in Havelock.

Havelock Standard: Mr. S. S. Joyce is in communication with a Mr. E. Hood, of Toronto, who is anxious to locate a knitting factory in Havelock, and who is seeking information as to what terms the council will give him in regard to taxation and free site here. Mr. Hood proposes to employ 30 or 35 ahnds and there is every prospect of his coming, owing to the favvorable report he has had of the progressiveness of our town. Our city fathers should do everything in reason to secure this industry, which though not an enormous one will at least tend towards increasing our population and form a nucleus in the manufacturing industries which are bound to come our way if the Electric Railway goes through.

A Christmas Number.

From the number of illustrations, The Canadian Magazine surpasses itself in its Christmas Number. This is an age of pictures, and the quality of those presented in this issue are sufficient to engender enthusiasm in the most sluggish of patriots. The reproductions of characteristic bits of "Canada's Scenic Splendours" are done in colors most effectively. The list of contents is just as commendable. There are special poems by Ethelwyn Wetherald, Eve Brodlique, William Wilfred Campbell, Franklin Gadsby and Elizabeth Roberts Macdonald, all well-known singers. There are short stories by Virna Sheard, Arthur Stringer and Jane Fayrer Taylor, all bright and characteristic. J. Macdonald Oxley writes a most interesting article on the Bank of Montreal, giving considerable attention to the circumstances of its foundation and its early history. Alfred Edmonds writes of "The Young Idea in Japan," while John A. Ewan takes us to the other end of the world to see "Mrs. Kruger at Home." The coloured cover represents "Johnny Canuck's Christmas." As a souvenir to send abroad nothing could surpass the special issue of Canada's national publication.

GO TO The Best.

Read the following letter received by the Principal of the

CANADA BUSINESS COLLEGE
Chatham, Ont.

and learn how highly the graduates of this school are thought of by the business public.

"Oct. 16, 1900.

Gentlemen,—We have openings now for two or three good male stenographers who had had experience, and it occurred to us that a large number of stenographers and other office men, who have graduated from your school from time to time and are now holding positions, might desire to better themselves. If you can put us in communication with some of your old graduates, who have had two or three years' experience, we should be under obligation to you."

We might mention that the concern represented in the above letter has a Capital Stock of Five Million Dollars.

When you read such evidence as the above, need you be surprised that during the period of thirteen and a half months ending in October, 348 positions were filled by our pupils.

It pays to attend CANADA'S GREATEST SCHOOL OF BUSINESS OR SHORTHAND, if you wish to thoroughly qualify yourself for office work and be assisted to a position when graduated.

ANOTHER SETBACK FOR MR. KRUGER

Emperor of Austria Refuses to Receive Oom Paul.

HE MAY MEET HE CZAR.

DeWet is Said to Have Turned a Maxim Upon Boer.

London, Dec. 4—In response to a confidential inquiry as to whether Mr. Kruger would be welcomed here, says the Vienna correspondent of the Daily Mail, a polite reply was returned to the effect that Emperor Francis Joseph had made other disposition for the next few weeks.

KRUGER AND THE CZAR.

Paris, Nov. 4 — "It is probable," says a special despatch from Cologne, "that Mr. Kruger will meet Emperor Nicholas at Nice or Mentone, where the Czar's physicians have advised him to go for his convalescence."

A HARD-HEARTED MONARCH.

Paris, Dec. 4 — The French newspapers comment bitterly on the rebuff of Emperor William to ex-President Kruger, in refusing to receive him.

The Matin asks: "Can this be the same Emperor who sent the message to Kruger after the Jameson raid?"

The radical says speeches in regard to national independence naturally do not interest Emperor William, because, should Germany surrender all she holds simply by conquest against the will of the nation, nothing would be left.

The Figaro says the Kaiser is no modern parsifal, but a monarch who is inaccessable to human feelings. The paper declares that perhaps Emperor William is the principal, although indirect, author of all President Kruger's misfortunes.

The Temps says: "The Emperor's wording that he could not receive Mr. Kruger on account of dispositions already taken is very clear. Everyone understands that the Emperor, if not actually fulfilling one of the clauses of the recent Anglo-German accord, is inspired by the spirit thereof in declining to receive Mr. Kruger. Neither the declarations of Count Von Buelow or others have concealed from the eyes of the world that the Emperor has veered his policy in favor of England since he sent his famous despatch on the Jameson raid. The Emperor has failed to find in Europe the alliance needed to brave England, and his people have refused the credits to build a fleet. The consequence was the Emperor threw in his lot with England. This is clear but not incomprehensible. Mr. Kruger's advisers neither saw nor foresaw anything, and exposed Mr. Kruger to the total check he has just experienced. This, perhaps, is not the first bad advice they gave him, and which explains many things in the past."

MOUNTED MEN MAY REMAIN.

Ottawa, December 4.— Up to alate hour tonight the authorities of the Militia Department had received no advices of the departure of the Canadian Artillery and Mounted Rifles from South Africa, although it was announced last week that they would leave Cape Town about the 1st. The impression prevails that Lord Kitchener will ask them to remain in South Africa a little while longer.

HOW DEWET COWS HIS MEN.

Durban, Dec. 4—One of Commandant Dewet's late lieutenants, who was captured, and is now in parole here, states that the great train-wrecker invariably entered the field with two loaded revolvers in his hands in order to overawe reluctant burghers. At Thaba N'Chu there was a regular stampede of men who had grown sick of the useless fighting, and it was not checked until Dewet turned a Maxim gun on the runaways. Dewet constantly swears that he will never surrender. He has, he says, lost his two sons killed in battle, his farm has been destroyed, and he has nothing to live for but fighting.

ROBERTS VISITS THE TUGELA.

Pietermaritzburg, Natal, Dec. 4—Lord Roberts will arrive here on Wednesday on his way home. People who have seen him say he appears to be in perfect health. His arm is still in a sling, however, as a result of his fall from his horse in Johannesburg. At present he is visiting the battlefield at Colenso, on the Tuguela, where Gen. Buller had such hard fighting.

Lord Roberts will arrive at Cape Town from Durban on the transport Canada next Saturday or Sunday.

TO DEPORT SUSPECTS.

Cape Town, Dec. 4—Eleven suspects arrested at Johannesburg in connection with the plot against the life of Lord Roberts will be deported. The evidence against them not being sufficient to warrant a formal trial.

TO IMPROVE THE ARMY.

London, Dec. 4—A Durban despatch states that in a farewell order Lord Roberts praises the valor, patriotism, and humanity of the troops. He concludes: "I have learned a great deal during the war which will help me in the task now before me of making the army as perfect as it is possible for an army to be."

FLED FROM SOUTH AFRICA.

Five Refugees from the Transvaal Army Reach New York.

New York, Dec. 5.—Among the passengers who arrived to-day on board the steamer Statendam from Rotterdam were five refugees from the South African republics. They are S. Pearson, commissary general of the Transvaal army; Commandant W. Snyman of the Orange Free Staters; H. Snyman, jr., A. Lieuenberg, and Hercules D. Viljoen of Snyman's commando. Pearson says that his party was chased over the border into Portuguese territory. They made their way to the coast and thence by steamer to Europe. Pearson says he has never been out of South Africa before, and does not know a single person in the world outside of South Africa.

WIDE WORLD OF SPORT

Just a Few Sayings by James Jenkins.

The Trent Valley Hockey League will meet in Peterborough on Saturday next when the officers for the season will be elected. The T. U. C. L. is an ardent admirer of the O. H. A. and will follow the rules of the O. H. A. in every detail. It is simply a feeder for the O. H. A. being made up of clubs that aspire some day to O. H. A. honors but who at present are not quite fast enough for the game or has been played in the father organization.

* * *

—Our creed is to encourage the amateur and discourage the professional sport. The former has the first place in our list of friends. He has not only our good-will, but our endorsement in all the forms within our power to give. He is as welcome to us as the weather on a zero morning. The latter is our enemy. He prates and preaches, but he never practices. An open foe one may watch, but the pretended friend, the spurious amateur, the man who skates under false colors, the professional who treks in a disguise of hair dye and false whiskers, is the curse of all true sport in this Dominion.—President Robertson.

FLOODED SCHOOL GROUNDS.

Trustee Edgcumbe complained that the grounds of George street school were constantly flooded during wet weather by reason of the wretched condition of the road at this point, and asked that some steps be taken to remedy the nuisance He thought the town should make some effort to put the road north of Dublin street in a thorough state of repair, and provide an outlet by which the water which gathers there can escape. He had noticed that the corporation men when cleaning out the gutters on George street had stopped at the corner of Dublin street, instead of continuing their work further north. The Town Engineer's attention had, he understood, been drawn to this matter, but to no purpose.

In this connection Trustee McBain moved, seconded by Trustee Edgcumbe —That this matter be left in the hands of the Chairman of the Property Committee and the Secretary—Carried.

A QUESTION OF PRIZES.

In connection with the Nicholls Scholarship Prizes, Principal Fessenden explained that this year, owing to scholars in Part I Junior Leaving and Part I (Matriculation Examinations having written on the same papers, there was consequently but one prize provided, whereas two successful competitors have to be taken into consideration as formerly. He would suggest that the prize be divided between the two.

Trustee Hill moved, seconded by Trustee Eastwood,—That the question of drafting a resolution to this effect be left in the hands of Principal Fessenden; resolution to be ready for next meeting of the Board.—Carried.

The Board then adjourned. The next regular meeting will be held on the second Tuesday in January.

COWBOYS HOME AGAIN FROM THE TRANSVAAL

Those Who Went in Charge of Mules to Durban Return on the Belgenland.

New York, Dec. 3.—Sixty Texas cowboys who went to the Transvaal in charge of cargoes of mules for the English Government were passengers on the American Line steamship Belgenland, Captain Thompson, that arrived in port yesterday. The vessel had a tempestuous voyage from Liverpool, whence she sailed on November 14. She had on board 38 cabin and 268 steerage passengers.

The cowboys have been provided with transportation home by the English officials in South Africa. They are all glad to be on American soil again, though it was a cause for regret among them that they could not eat their Thanksgiving dinners at home. The majority live in the neighborhood of Dallas. They talked freely of the adventures. One of them, James Austin, said.

"We sailed from New Orleans in July last and, after landing at Durban, went inland with the mules. From what I saw of the country I cannot say much for it. It is nothing but rocks, with a few little fertile dales between the hills. Then their rivers are merely creeks.

"Several of our fellows went out of their way to have a look at the Orange river, expecting to see something of a stream, such as we have at home. But what did they find? Just a creek about twenty yards wide and scarcely a foot deep. 'Do you call this a river?' I asked one of the natives. 'Oh, yes,' he replied, 'when there is a freshet from above that's a big river.' I told him that in our view it could not be more than a creek.

"The Boers fired on us several times while we were marching with our mules, and we returned their fire. As every man in our party is a good marksman our fire was not without effect. The Boers always shoot at us from behind shelter, but I know we picked off several of them in returning their fire. We were well treated by the English.

Exceeded Expectations

"You said you had a scheme to prevent burglary when you had to leave your house alone," suggested the friend. "Did it work?"

"You bet it did."

"What was it?"

"Why, I thought if I left one or two gas burners turned on it would asphyxiate the would-be burglar."

"Did the plan come up to your expectations?"

"It exceeded them. The man went in with a lighted match, and we haven't been able to find either him or the house since, but I have reason to believe he was effectually discouraged."

SENATE NEAR TO A CHANGE

Three Vacancies to be Filled, While the Absence of Several Conservative Senators Due to Infirmity will Ensure a Change.

Ottawa, Dec. 4.— The Government will have control of the Senate very much earlier than is generally supposed. If the Liberals who were appointed by the present Government would attend regularly, they would be able to outvote the Conservatives before the approaching session is over, as some of the latter will be unable to attend. When the Liberals came into power, they had nine supporters in the Senate, and now they have 28, with three vacancies. One of these was caused by the death of Senator McInnes, and may be filled any day. The other two will have to be declared vacant by the Senate, as Senators Reesor and Sir Frank Smith have not been present for two sessions. Senator Reesor is a Liberal, so that the strength of the Government in the Senate will only be increased by two votes out of three appointments. This will make thirty Liberals. It is calculated that about thirty-four will be sufficient to have control, as there are a number of Senators who are too infirm to attend the sittings. As there are 81 Senators, 41 votes are actually required for a majority over all.

Wants England To Annex Crete

PRINCE GEORGE OF GREECE WOULD EMBROIL THE POWERS FOR SAKE OF A BRIDE.

London, Dec. 5.—There is an important diplomatic hitch in the formal announcement of the betrothal of Prince George of Greece and the Princess Victoria of Wales. The Prince is the High Commissioner of Crete, under appointment of the powers. The Island of Crete, however, is a dependency of Turkey, and if the Princess married the Prince under the present political status of the island she becomes a subject of the Sultan, a condition which would start a mighty howl throughout Great Britain.

Prince George hoped to evade the difficulty by inducing England to annex Crete, a change also much desired by all the Cretans. It was in the hope of inducing Lord Salisbury to take this step that the Prince recently had a long interview with the Premier.

Lord Salisbury fully appreciated the strength and meaning of the Prince's argument in favor of annexation, but does not regard the plan as feastible at the present time. The powers would undoubtedly oppose it, and Lord Salisbury is not anxious to take on further international complications until the Transvaal and Chinese questions are at least near a settlement.

Hence the Prince was told that he must

RIOT AT COLOGNE

Trouble Occurred in Front of the British Consulate—Leaders were Arrested

Cologne, Dec. 4—An Anglo-phobe demonstration took place to-day in front of the British consulate here. Mounted police dispersed the riot and arrested the leaders. Screnades and ovations to Mr. Kruger planned by various societies have been forbidden in the interest of public safety.

Marriages Increase.

According to figures in a report being prepared in the Provincial Health Office, there has been a regular increase in the number of marriages in the province in the last few years, the returns showing 1,139 more marriages in 1899 than in 1895. The year 1896 was the one in which the registration was made under the improved act. Notwithstanding the increase of marriages the birth rate has dropped, as stated some time ago, the figures being 46,599 in 1898, and 44,705 in 1899. The marriages in '95 were 13,387; in '96, 14,904; in '97, 15,298; in '98, 15 376; and last year, 16,514.

TOO LONG FOR LIVE READING

British Papers Attach Little Importance to McKinley's Message--One Paper Makes Causic Comment.

London, Dec.4.—"Mercifully," says the Pall Mall Gazette, "not even the conscientious Reuter has cabled the full 15 columns of President McKinley's message. This was wise, since no English paper could possibly have printed it, to the necessary exclusion from its pages of other things that really do stir the great heart of the people."

The Globe airs the ulta-jingoistic opinions of which it has almost a monopoly. Taking for its text the reference to the Isthmain Canal, it declares that Washington is "not entitled to override our treaty-secured rights in any part of Central America, except with the consent of our Government. The Hay-Pauncefote compromise goes farthest in extreme conciliation, and represents this country's very last word, and the United States must either accept the proposal as it stands or abide by the ruling of the Clayton-Bulwer treaty, however embarrassing its provisions may be to American imperialism."

The Westminster Gazette says it hopes Great Britain will not drift apart from the United States' sensible China policy, owing to the supposed necessity for supporting Germany's forward policy.

THE RATEPAYERS MEET

And Discuss Municipal Matters Last Night.

About 250 Ratepayers Meet in Foresters Hall and Nominate Candidates for the Council.

A meeting was held in the Foresters Hall, Simcoe street, last night, for the purpose of discussing municipal matters. There was about 250 ratepayers present, amongst whom we noticed Messrs. Joseph Jones, Mr. Quinlan, T. Kelly, Harry Phelan, A. P. Poussette, Q.C., Dr. Bradd, R. W. Errett, W A Kindred, Joseph Cobb, R. J. Kidd, J. B. McWilliams, Alex. Reid, Ald Sawers, R. F. McWilliams, and John Kincaid.

Mr. Joseph Batten was, on motion, elected chairman, and after a few preliminary remarks, called on Mr. J. B. McWilliams to address the meeting.

Mr. McWilliams stated that he was pleased to see so many present, and thought that it was a good thing to get together and talk over municipal matters. The Council last year were lamentably weak as a whole. They seemed to regard their duty at an end when they passed accounts and voted away money. He had no sympathy or use for men who did the public business behind closed doors; men who denied both the press and the people the right to hear and see what was going on. He did not condemn the entire council, for there were men at the board who tried to do what was right. He instanced the resistance of Ald Sawers to the statement proposed in the Sherwood case, and said that if it had not been for the strong stand taken by Mr. Sawers, the town would have been stuck for a large amount.

Mr. McWilliams also referred to the resolution recently passed by the Council, which was intended to prevent his being a candidate at the approaching elections. He could say, however, that both Mr. Whitney and Hon. Mr. Hardy, the late premier, had consented to his entering the council on a former occasion. After referring to the loss of the Cement works, which might have been secured for Peterborough instead of for Lakefield, and also the misfortunate state of the streets, he took his seat, amid applause.

Mr. W. A. Kindred was the next speaker, and hoped that the town would secure the best men in the place to sit at the council board next year. He was in favor of a good strong man for mayor, and thought Mr McWilliams the right man. (Applause.)

Mr. A. P. Poussette, Q.C., made a very happy speech, referring to the necessity that existed for a good council next year. He thought the present council was on the whole weak, and instanced the narrow way they had treated the Canadian General in the matter of their assessments. We wanted good business men to manage the affairs of the town—men who were broad-minded and progressive.

Mr. Alex. Reid said the he would like to see Mr. McWilliams in the mayor's chair. He had helped in the early years of the town, to build up the place, and was always progressive.

Mr. T. Kelly referred to the efforts to get the Electric works here, which were happily successful, and the apathy that existed at present in regard to getting industries.

Mr. John McClelland would like to make a selection for the council regardless of politics. He thought if Mr. McWilliams would stand for mayor, there would be little difficulty in getting good men to run for the Council.

Ald Sawers referred to his position in regard to the assessment of the Canadian General, and claimed Court of Revision could do nothing else than what was done. He was in favor of Mr. McWilliams for mayor.

Mr. Wm. Vanevery also endorsed Mr. McWilliams for mayor, as also did Mr. Joseph Jones and Mr. Thos. Moore, in short speeches.

Mr. R. F. McWilliams, being loudly called for, responded in a felicitous speech in which he spoke of a great future for Peterborough if the people only improved their opportunities.

Mr. M. Quinlan thought that the meeting was composed of about an equal number on both sides of politics, who evidently had decided to unite in promoting the interests of the town.

Mr. R. P. Kidd referred to the system of assessing as bad. He was in favor of municipal ownership of the light and water works plants.

Mr. John Kincaid thought the assessment was done as fairly as it could be done.

After some further dicussion, it was moved by Mr. John McClelland, and seconded by Mr. Alex Reid—That this meeting is in favor of Mr. J. B. McWilliams for Mayor—Carried unanimously.

Mr. McWilliams, in reply stated that he was not in a position to accept at present, and would require one week to consider the matter.

It was understood that should he accept, those present will give him every possible support.

The following names were put before the meeting, as suitable condidates for the council.

Messrs. N. LePlante, R. S. Davidson, A. J. Gough, Ald. Sawers, J. Edgcumbe, Thos. Moore, W. A. Kindred, Wm. White, James Burnet, W. H. Hill, M. Quinlan, and Joseph Batten.

The meeting then dispersed.

DYING MAN'S WILD RIDE

Raced in Buggy to Transact Business with Lawyers Before End Came

Northport, L. I., Dec. 3.—Justice of the Peace William A. Burton of Kings Park died last night of apoplexy. Yesterday he complained of feeling ill, and calling his wife, requested her to have a horse quickly harnessed. He said he was going to die, and wanted to drive to Northport to see his lawyers, as he had some important business to transact before the end came.

The trip of six miles to the village was made at full speed, but, when he reached the office of his lawyers he could scarcely speak. He was able to transact only a portion of the business when his strength gave out. He was helped into his wagon, and leaning heavily against his wife, started for a doctor's house. Not finding the physician, he resumed his journey home, but before reaching there he became unconscious, and his wife had to hold him to keep him from falling out of the buggy. Arriving home he was carried into the house and never regained consciousness.

Mr. Burton was about fifty years of age, and was married to his second wife, Miss Dora Nichols, less than a year ago.

THE GERMANS LOST HEAVILY

Attack by Boxers Near Pao Ting Fu With Loss.

SLAUGHTER OF INNOCENTS

200 Orphants Massacred by the Hand of Governor of Shan Si.

Pekin, Dec. 4—As was expected, the meeting of the foreign envoys to-day did not result in any definite conclusion owing to the fact that not all of the Governments have notified their representatives as to the form of the preliminary note to the Chinese plenipotentiaries. Mr. Conger, the U. S. Minister, said after the meeting, "apparently it is the desire of all to arrive at a satisfactory conclusion. I believe the next meeting will be the last, but not be called until every Minister has received definite instructions, covering all contingencies. Personally I am satisfied with the result of proceedings to-day.

London, Dec. 4.—"Placards are again being posted," says the Tien Tsin correspondent of The Standard, wiring Sunday, "announcing a renewal of the antiforeign outbreaks as imminent."

CHINESE IN STRONG POSITION.

Berlin, Dec. 4.—A despatch from Field Marshal Count Von Waldersee, dated Pekin, Monday, Dec. 3, says a considerable force of Chinese regulars has taken up a position at Bang Chou, 95 kilometres southward of Tien Tsin, and that two detachment a of troops from Tien Tsin commanded by Colonel Lohraheidt and Major Falkenhann are proceeding against these Chinese.

EXPEDITION WAS FRUITLESS.

London, Dec. 4.—A special despatch from Nan Kow Pass dated November 30 says the Kilgan expedition was ineffective, the Chinese evading all attempts to engage them. The towns enroute were occupied unopposed and some tolls of skins and silver were levied. The cavalry captured the baggage of the retreating Chinese force at Swen Hwa Fu, killed thirty of its guards, and secured 20,000 taels.

Three Mandarin instigators of the massacre of converts at Tai Ming and twenty-three Boxers were executed, but the Germans generally ignored evidences of antiforeign activity.

There are continuous disturbances in the interior, where a bad impression has been made by the executive withdrawal of foreign troops and the complacency of the allies.

A SENSIBLE POLICY.

London, Dec. 4.— The Westminster Gazette says it hopes Great Britain will not drift apart from the United States' sensible China policy, owing to the supposed necessity of supporting Germany's forward policy.

GERMANS LOSE HEAVILY.

Shanghai, Dec. 4.—It is reported in Tien Tsin that the Germans lost 20 killed, and many wounded west of Pao Ting Fu, where they were attacked by twenty-five hundred Boxers.

A quantity of loose powder exploded in the last arsenal occupied by the Russians. It is supposed the explosion was caused by two Chinese, who were smoking. Both Chinamen were killed. The shock was felt at Tien Tsin, four miles distant.

PROTECTION WITHOUT POWER.

Pekin, Dec. 4.—Li Hung Chang and Prince Ching, the Chinese Plenipotentiaries, are considering a suggestion which has been made to them that they ascertain what the Empress Dowager thinks of a proposition that the court return from Singanfu to Pekin under a guarantee of protection to be given by all the powers. This guarantee, however, would be made conditional upon the Empress taking no part in the Government in the future. Furthermore, she would have to agree to live at the summer palace or some other place away from the Emperor, the choice of such residence being left to her, but the powers would quarantee that she would receive an assured income for the blance of her life. Under this plan the Emperor would resume the throne, and exercise all the powers that were usurped by the Empress Dowager, and the latter would agree not to interfere with his Majesty.

It is stated that this suggestion was not made by any individual Minister, but there is no doubt that all the foreign representatives would like to have the court return here, as its presence would simplify the other difficulties in the way of the peace negotiations.

SLAUGHTER OF INNOCENTS.

Berlin, Dec. 4.—A special despatch from China to the Cologne Volks Zeitung reports a fearful mission slaughter in the Province of Shanghai. The first victims, the despatch says, were a Catholic bishop and his coadjutors, and four European priests, Franciscans Italians and French. The Governor invited them to his house, pretending to give them better protection, but when they arrived their hands were tied. Then the Governor himself poniarded them all. Next the Govenor went to the bishop's residence with a number of soldiers and seized six Marseilles Sisters. He promised them money and distinguished husbands if they renounced Christianity, which they unanimously rejected. Thereupon the Governor poniarded them and also a number of Chinese priests, thirty Chinese sisters, and two hundred orphans from three to six years of age. Fifteen seminarists, who had hidden themselves in a cistern, were tied to stakes and forced to drink the blood of the first victims. They were then killed. A Chinese priest and two Christians who attempted to escape were caught and put in a small hut, where they were burned.

THE BARBARITY BUSINESS

That dear old gentleman, Paulus Johannes Kruger has sojourned in France, and, to the delight of the Frenchmen he is accusing the British of all sorts of barbarities. He says that he has fought with barbarians, but this war is worse than any he has seen. Doubtless he is right for once. The war has been much worse than any he has seen—worse, that is to say, for the Boers. The pious Boer had a truly noble way of killing barbarians. One one occasion, Mr. Kruger, then a commandant, was in command of a Boer expedition, he surrounded some 900 natives, who took to caves. The Boers camped and starved them out. Any person, man, woman, or child, who attempted to get out for food or water, was shot down. The others died like rats in a hole. The entire tribe was exterminated. The Boers had two killed. That was the kind of war your uncle Paul liked.

SCHOOL TAXES

It is a curious condition of affairs which has resulted in the suit at present going on between the London (Ont.) School Board and the City Council. The main point at issue seems to be whether the City Council have the right to cut down the estimates of the School Board. It was admitted by the counsel for the School Board that the taxpayers objected to the school rate, though counsel stated the rate was absolutely necessary to carry on the business of the School Board.

If the people elect a School Board, the members of which ask for a larger sum than the taxpayers think they can afford to pay, then it is the fault of the electors. They have the matter in their own hands, and can put in trustees that will cut down the estimates.

The same difficulty arises nearly every year between School Boards and City Councils all through the Province. The School Boards get out their estimated expenditure and make their demand upon the City Council, who often think the sum demanded is excessive. It is to be hoped the question as to the power of the City Council to cut down the amount asked, will be decided in the London case.

NEW YORK'S SOCIAL MOVEMENT

We are informed on very high authority that the old custom of receiving informally on Sunday afternoons is once more coming into vogue in the best circles. The revival of the practice has already set in, and it is now quite proper to call on one's friends on the way back from church and spend the afternoon, or a portion of it, in quiet talk.

Is there good reason why the custom should not be revived? In the old days here it was the practice of people returning from church to tie their horses to the fence and stroll into the houses of congenial neighbors for social calls. On these occasions the cider barrel was got on the back porch, a liberal share of its contents passed around in dippers, the men smoked the pipe of peace, and the women reviewed the gossip of the hour. The *first families* used to enjoy themselves at least once a week in this way, and it was not until they began to build elegant houses and substitute porticos for porches that the practice fell into desuetude.

One advantage of the custom was that everybody in the household had on his best at these receptions, and it was an "at home" for the entire family who is visited. Neighbors can talk over the sermon and discuss the best way to live. Let the old custom return, by all means.

China may have the pig tail, but the powers are something on the hog themselves.

France may welcome Kruger with open hands, but offerings its arms is another proposition.

EDITORIAL NOTES.

•• • ••

We doubt if there is a word of truth in half of the lies about plots to murder noted persons. The editor of this g.f.j. don't feel the least bit uneasy.

•• • ••

The construction of the new granolithic walks at levels altogether too low, was a false step by an inexperienced engineer, but this is no reason why the Council put its foot in it.

•• • ••

Now that the foot-ball season will give way to that of the dancer, it puts the ball on a different footing.

•• • ••

Meanwhile the powers are ranged on opposing sides as to the proper way to treat the Chinese. To this extent it is not a joint affair.

A Quiet Wedding

The Deseronto Tribune says: — A quiet wedding was soleminzed at the residence of Capt. and Mrs. Samuel Anderson, Dundas street, on Sunday afternoon, when their youngest daughter, Maud A., was united in the bonds of matrimony to George G. Aldred by the Rev. E. Costigan. Owing to the serious illness of the bride's father, relatives of the family were the only ones present. Mr. and Mrs. Aldred have the best wishes of a host of friends for a long life and a happy one, and The Tribune joines heartily in the wish. The Times also extends its hearty congratulations.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them God-speed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 68 in one day. Sample and terms 25 cts (none free); four for 50 cts; $1.25 per dozen: 25 for $2.25; 50 for $6.00; 100 for $11.00 Write to day for a dozen and make money. The Latest Method Treatment

No medical discovery for years has proved as successful as Dr. Goldberg's Latest Method Treatment. It is the outcome of years of experience; it vitalizes the system, equalizes circulation, removes all obstructions, consequently is the only method recognized as a speedy and permanent cure for Varicocele and Stricture, without use of knife or loss of time; it absorbs the wormy condition, also the stricture, stops the smarting sensation, unnatural discharge, thereby strengthening the parts as well as the back, and restores lost powers.

Blood Poison readily yields to its influence; it thoroughly eradicates the poison from the system; if you have sore throat, patches on tongue or mouth, swollen glands, hair falling out, blotches on body, itching skin, or other signs of this awful disease, you will find the Latest Method Treatment will cure you without Mercury or Potassium.

DR. GOLDBERG.

KEEP THE OLD FRIEND.

Make new friends, but keep the old:
Those are silver, these are gold:
New made friendships, like new wine,
Age will mellow and refine.

Friendships that have stood the test,—
Time and change,—are surely best;
Brows may wrinkle, hair grow gray,
Friendship never knows decay.

For, 'mid old friends, tried and true,
Once more we our youth renew.
But old friends, alas! may die,
Now friends must their place supply.

Cherish friendship in your breast,
New is good, but old is best;
Make new friends, but keep the old,
Those are silver, these are gold.

COPLEY'S EYEGLASSES.

We had been talking over a lively incident in the life of one of our friends—his name was Thwaites—which had led to a peculiarly strong development of that individual's nose. Three of us knew Thwaites quite well, and one of the three had told the story to the others. The fourth man did not know Thwaites personally, but he did know a story of another man of which he said, this story about Thwaites reminded him.

"You know that eyeglasses make a great difference in the looks of a man, don't they? Well, this is how Copley came to wear eyeglasses:

"His eyes? They may have suffered from the artificial help they have been getting from those glasses all these years, though I believe he has had the good sense all along to wear simple lenses that make not the least difference to his vision. But he certainly never took up with those eyeglasses for the good of his eyes. It began in a matter of policy with Copley.

"When I knew him first we were both students in a big London hospital, trying to become doctors.

"Copley was very much in earnest, you see. He may have been naturally disposed to have his larks in one way or another, but he always had a certain shrewdness which kept him from playing tricks calculated to bring the professor down on him. In particular he knew how good a thing it was to stand well with the dean of the faculty.

"I ought to explain, in case you do not know, that there the dean of the faculty is the professor who has held office longest, and at that particular hospital the statutes made him very much of an autocrat. For instance, there were three big 'exams' to pass in the five years, and no student could present himself at any one of these without a certificate from the hospital he belonged to that he had attended lectures and demonstrations duly and faithfully' for a certain number of terms. Those certificates were signed at our hospital by the dean of the faculty alone. He took the reports of the other professors, but in the last resort his signing or not signing might be very much a matter of his own personal estimate of the individual student. See? The dean could practically stop a man from getting his degree, even if that man knew as much about medicine as Galen.

"Fortunately our dean was a good old fellow, and he used his power not only with justice, but with mercy. Perhaps his botanical studies made him mild. I have noticed that people who have much to do with plants and flowers are mostly of a gentle disposition. He was professor of 'materia medica.'

"One day he seemed fidgety and distraced when he took his place to begin the lecture. He seemed to be looking over the class in search of some one. Presently his eye fell on Copley. The old man puckered up his brow and stared at Copley through his spectacles.

"Then he began in a nervous, irritable way: 'Yes, sir, you. I don't know your name, sir. You, sir. What is your name, if you please?'

"Copley made no pretense of not seeing that he was the person in question. He frankly answered, 'My name is Copley, sir.'

"'Copley? Ah, very well, Mr. Copley,' says the old man. 'Mr. Copley, I have to tell you in the presence of this class unless your character undergoes a change you will never be fit to practice the healing art. You have no humanity, sir. You are cruel, sir—cruel.'

"Copley had no idea what the dean was talking about, and none of his friends could enlighten him. Some of the class could guess, but they did not happen to know Copley well enough to volunteer a hint. The truth was that some student had been making an ass of himself that morning with the schoolboy trick of fastening walnut shells on the feet of a cat, and then turning the beast loose in the lecture room corridor. The janitor had at last been obliged to kill the cat with a shotgun. The dean thought he had found the perpetrator of this outrage, but he was wrong. Poor Copley had not even been in the college and he knew nothing about it.

"As Copley had no idea what the dean was driving at, he could only submit to a harangue, after lecture, go and ask the dean what it all meant. But the dean only stared at Copley as a particularly imprudent specimen of a normally impudent genus—the London medical student.

"'Go away, sir. Go away, Mr. Copley, and remember that I have my eye on you.'

"But after that the dean seemed to have it in for Copley. Twice again in that same term Copley was reprimanded for outrageous behavior of which he had no sort of knowledge. The second time he was threatened with expulsion for having willfully and deliberately intoxicated a little street arab and then put him to sleep in the dissecting room, where he afterward came to himself in a terrible fright and very nearly had a fit.

"Whoever was the perpetrator of this villainy, the dean had, as he thought, the evidence of his own senses as to the perpetrator's identity.

"'I saw you, sir, when you brought that unfortunate child into the inner courtyard,' said the dean. 'I saw you and wondered what you were doing with him.'

"Copley kept his head this time. It was a very serious affair, and he saw the necessity of using all his wits.

"The faculty never did find out who was guilty. It was a most unsatisfactory investigation. Copley's innocence was clearly established, but a disagreeable suspicion of several first-year and second-year men also grew up. Copley, I ought to say, was in his fourth year.

"The story of the street arab who had been frightened nearly to death got into the newspapers and made a sensation. There was no doubt that it would injure the reputation of the hospital. The board of directors debated over the affair at a special meeting and all the 700 students debated over it on all occasions.

"It was a nurse—of all possible people—who gave us the first hint of a way to put a stop to the persecution of poor Copley. She was chatting with him, myself and a senior student, all of us on night duty in her ward.

"'The thing is quite plain to me,' she said. 'In fact, I believe I could put my hand on the guilty party to-morrow morning, if I wanted to. But the scandal has nearly blown over now and the young man has been badly frightened. So we might as well let well enough alone.'

"'And how about me?' says Copley.

"'Well, then,' she said, 'Mr. Copley has a double—yes, a double. Mr. Copley's double is a young limb of Satan in his first year. I have noticed the likeness over and over again, but, as you gentlemen never see anything of the first-year students—'

"Of course, now that she had mentioned it, we all saw just how it was. The nurse did not tell us the name of this young man, but we three quietly kept on the lookout for Copley's double among the first-year men, and in less than twenty-four hours we found the double of Copley in a youth by the name of Wixem. We all three pitched upon the same man. There was no room for the least doubt. The only difference between Copley and Wixem at ten yards' range was that Wixem was already serious and even grave in his demeanor, and Copley had a gay, devil-may-care way, in spite of his troubles. Any one would have taken Wixem for a sober, earnest, ambitious student, which is just what he was not, and Copley was.

"Copley was so exasperated that he attacked Wixem on the sidewalk, just outside the principal gate of the hospital and gave him a terrible black eye. Copley was arrested by a passing policeman, but Wixem was too cunning to appear in court. He knew that people were still talking about the dissecting-room scandal.

"'Well, anyhow,' I said to Copley, 'that black eye will help the dean to distinguish between you and Wixem for some time to come.'

"But for several weeks Wixem did nothing that could get Copley into trouble. The dean looked at Copley very hard, with a puzzled expression, from time to time, and Copley bravely returned the stare.

"Then came Copley's eyeglasses.

"You see, we all, including the friendly nurse, agreed that Copley could not go on blackening Wixem's eyes periodically to keep from being mistaken for that young miscreant. So the nurse suggested that Copley would look very well, and immensely professional, in gold-rimmed eyeglasses. And after that there was no possibility of mistake."

"And so," one of the three asked, "your friend Copley stuck to the identifying glasses for life?"

"Yes, but wait a minute. The funny thing was that the first day Copley appeared in the hospital with his new glasses—I was with him at the time—he also wore a dark frock coat and a high hat, and it happened that he had never before appeared there in such a sober get-up. Just as we entered the inner courtyard, which happened to be deserted, Mr. Wixem, looking very solemn, which meant that he had been up to some devilish pranks, met us as he was coming from the museum wing. Copley glared at him, as if he would like to black his eye just once more.

"Wixem stopped short and said: 'Why, sir, I had no idea you were in town!'

"'Hadn't you, sir?' says Copley. 'Then, sir, let me recommend you to bear in mind that I am in town.'

"Wixem only stared for a moment, said 'Oh!' in a manner that indicated both astonishment and relief, and passed on.

"'Copley,' I said, 'that young man took you for his father.'

"'I'll father him if he doesn't mind what he's about,' says Copley.

"The general effect of the eyeglasses was wonderfully effective for good in Copley's career. In the first place, the dean discovered that he had made a good man a victim of his own mistakes. He wanted to reopen the inquiry about the dissecting-room, only the board wouldn't let him. But he became a fast friend to Copley, and that fact helped him on considerably long after he had begun practice.

"No, it isn't merely as a souvenir that Copley continues to wear his glasses. The fact is that the friendly nurse wouldn't hear of his taking them off. She is Mrs. Copley now."

Friendly Assistance.

"Can I help you to anything?" asked Boarder No. 6.

"Yes," replied the newcomer at the foot of the table. "You might give me a clew to this hash."—Philadelphia North American.

A WONDERFUL
KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

BRIGHT'S DISEASE,
GRAVEL, DROPSY,
And Rheumatism Mastered at Last.

I. A. HOPKINS.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me [illegible] getting worse. I suffered great pain continually in my Kidneys. I made up my mind that unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 88 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithates, [illegible] gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address, The Church Kidney Cure Co., No. [illegible] Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of [illegible] years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

THE WONDERLY GOLD MINING COMPANY, Limited

CAPITAL $1,000,000, Divided into Shares of $1.00 each.

Incorporated under Ontario Laws. Non-assessable.

This Company was formed for the purpose of purchasing and working seven gold claims on the Saskatchewan river, near Edmonton.

These claims have been worked some, and in the summer of 1900 D. F. Loveland, the former owner and president of the Company, had a dredge at work, and although only able to handle 200 yards of earth per day, there was from $30.00 to $50.00 of gold taken from that amount of earth daily, and thus demonstrating beyond doubt the great value of these claims.

The Company proposes to purchase one of the Risdon dredges, with a capacity of 2,500 cubic yds. a day.

The expense of running such dredge will be about $175.00 per week, and even if the dredge handles only 1,000 cubic yards a day, in six days, there will be taken out $1,500.00 worth of gold, with a profit of $1,325.00 in one week.

Sufficient stock will be sold at 25 cents per share to raise money to purchase the necessary dredge, after which the books will be closed and no more stock will be offered for sale.

There is no gold proposition on the market to-day equal to this one.

Application for stock can be made to any of the Directors, or to the Secretary, or to W. T. McNeil, broker, St. Catharines.

OFFICERS:

PRESIDENT—D. F. Loveland, capitalist, Galena, Illinois.
VICE-PRESIDENT—Arthur P. Forster, mechanical engineer, Welland.
TREASURER—Dr. T. G. Wonderly, Galena, Illinois.
SECRETARY—L. Clarke Raymond, barrister, Welland, Ont.
BANKERS—The Imperial Bank of Canada, Welland, Ont.

THE DIRECTORS are: The President, Vice-President, Treasurer, S. H. Glasgow, physician, Welland, and W. T. McNeil broker, St. Catharines, Ontario.

Subscriptions payable 25 per cent, on application, 25 per cent. on allotment and 50 per cent. in two months.

Brokers desiring to handle stock in this company will please communicate with W. T. McNeil, official broker, St. Catharines, Ont.

SOLICITORS—MESSRS. RAYMOND & COHOE, WELLAND, ONTARIO.

Prospectus free on application.

HEAD OFFICE, - WELLAND, ONTARIO.

A GOOD THING. PUSH IT ALONG.
IS WHAT WE SAY OF THE DEVELOPMENT OF THE PROPERTIES OF THE

IRON MOUNTAIN GOLD MINING CO.

They have three full claims in Republic, Wash., with $2500 worth of work done.

General Office, 327 Rookery Building, Spokane Washington.

THE PRESIDENT is Gen. A. P. Curry, formerly Municipal Judge of the City of Spokane and Brig.-Gen. of the Nat. Guard of Washington.

VICE PRESIDENT—Mr. Geo. A. Barnes, a pioneer of this city, and engaged in mines and mining

TREASURER—Mr. W. D. Vincent cashier of the Old Nat. Bank, and who has held this position for the last ten years.

SEC'TY & ATTR'Y—Mr. Willis H. Merriam, a prominent attorney of Spokane, and nephew of General Merriam of the U. S. Army.

All of whom bear the highest reputation as being honest and conservative business men.

Mr. McLaughlin, of the "WINNIPEG," congratulates us on the fine showing in our shaft. He says:—"You have four feet of the finest quartz I have seen in the camp."

A British syndicate are working five men on an extention of our property to the east called the "Sylvanite," and have agreed to sink 100 feet

Our stock is non-assessable, and we are offering a limited amount at 2½ per share. No certificate issued for less than 100 shares. $5.00 will buy that amount.

For prospectus, maps and other information address the Secretary,

TOWN AND COUNTY NEWS

The Peoples Popular Course

Season tickets for five first-class entertainments may be had before the first concert—next Monday, Dec. 10—for $1.00. Tickets now being delivered.

Turkey Shooting Match

A big turkey shooting match is to take place at Chemong Park to-morrow, commencing at 10 o'clock sharp. A large number of very fine birds have been procured, and will be competed for. A splendid day's sport is assured.

A Sample Job

Ratepayers are invited to inspect the work that is being done by the town at the old post office corner. With a high priced engineer in the service of the corporation, it is little wonder that ratepayers are doing a lot of kicking.

A Splendid Proposition

One of the best propositions we have seen for some time is to be found in the announcement of the Wonderley Gold announcement of the Wonderly Gold is there in abundance, and the property is a most valuable one. Only a limited number of shares are offered for sale. First come, first served.

Reds vs Blues

The membership contest, which has been in progress in the Y.M.C.A. during the past month, closed on Dec. 1st., the victorious side being the reds. The score was:—Reds, 148; blues, 130. 85 members were added to the Association, divided as follows:—Seniors, 30; intermediates, 33; boys, 22. It is now in order for the blue men to get ready for supper.

The Art of Advertising

A recognized authority on the subject of advertising says that "if advertisement writers, especially amateur ones would imagine themselves behind the counter with a customer in front, and then think what would be the strongest inducement they could hold out, something far more convincing would result than is frequently the case." Advertising always pays; but it pays best when the "ad" inspires confidence on the part of the reader. The "ad" writer must reason with the public as he would reason with the individual. Everybody reads The Times.

DEPUTATION OF CITIZENS

Left Yesterday to Gather Information in Other Towns

A deputation of ten of Peterborough's property owners left yesterday to visit Galt, Berlin and Brantford for the purpose of inspecting these towns, enquiring into their municipal systems and gathering information that may be useful to the town of Peterborough and its citizens.

The deputation will be composed of Messrs. D. W. Dumble, T. E. Bradburn, W. H. Moore, G. W. Morrow, J. J Lundy, R. S. Davidson, E. H. D. Hall, Ald F. H. G. Denne, R. Fair, H. C Winch and W. Henderson.

They will return home on Thursday night.

WITH THE X RAYS.

One of These Wonderful Appliances Purchased by Dr. Brown

Dr. Brown gave an hour's demonstration of the new x rays machine which he has just installed in his office, to a few invited guests yesterday afternoon. The machine was made in Philadelphia, and is one of the most modern. It will be of great service in cases of surgery, as in locating any foreign substance under the skin. The machine was operated by Mr. H. O. Fisher. The first experiment was made on Mr. Wm. Pearce, who has carried a revolver ball embedded in his hand. It was easily located, as was also a piece of steel which Mr. Joseph Batten has been carrying around in his hand for a couple of years or more. The steel was distinctly seen.

Mr. R. M. Roy was present, and took several photographs, or "radiograms" of the cases experimented on.

Dr. Brown, by his enterprise, has done much in introducing this valuable instrument.

JOTTINGS ABOUT TOWN.

—A social evening for men will be held at All Saints' to-morrow evening.

—The regular meeting of Dan Spence Lodge, R.T. of T., was held last night in their hall on Simcoe street.

You have read of the cures by Hood's Sarsaparilla, and you should have perfect confidence in its merit. It will do you good.

—The Rathbun Co. have three camps in their Haliburton County limits, numbering about 110 men, and will have a dozen jobbers employing half as many more.

—The Tonsorial Artist.—"Did I ever shave you before, sir?" The victim—"Yes, once." The T.A.—"I don't remember your face." The victim—"No, I suppose not. It's all healed up now."

—The first of the West Peterboro Farmers' Institute meetings was held at the Court House yesterday afternoon. Last night a meeting was held in North Monaghan and to-day at Lakefield.

Miss Alexandrina Ramsay, the great elocutionist, will appear at the Halpany Testimonial Concert at Bradburn's Opera House, Friday, December 14th.

—The 57th Regimental Band have made a contract with Mr. A. Comstock to seat the market hall for the winter concerts. Over one thousand chairs will be placed in the hall so that seats will be available. This has been considerable expense to the band, but they desire to make the audience as comfortable as possible at these popular concerts.

—Minacola, a fruit merchant, was in the police court yesterday charged with violation of the Lord's Day Act, having kept open his store until one o'clock on a recent Sabbath morning. It appeared that the merchant did so, waiting for a citizen, who told him he "would be back in a few minutes," creating no impression that ere his return it would be the hour when graveyards yawn and the streets are only in possession of the night police. The merchant was discharged with a warning.

Miss Richardson, Canada's greatest Cellist, will appear at the Halpany Testimonial Concert at Bradburn's Opera House, Friday, December 14th.

Help the Overworked Heart.—Is the great engine which pumps life through your system hard pressed, overtaxed, groaning under its load because disease has clogged it? Dr. Agnew's Cure for the Heart is nature's lubricator and cleanser, and daily demonstrates to heart sufferers that it is the safest, surest, and most speedy remedy that medical science knows—67

When She Found Coffee Was Slowly Killing Her.

Even a very temperate mode of living in regard to food beverages will not avail if the use of coffee is continued.

A Virginia lady, Mrs. R. F. Miller, of Bedford City, says that she was very temperate in every way. "I did not suspect that coffee was the poison that was undermining my whole nervous system, causing a condition of vertigo and headaches, until the attacks became so frequent and violent that I was compelled to give up all kinds of work and forced to lie down most of the time.

"My attention was drawn to Postum Food Coffee by the experience of some others in regard to common coffee, and the thought occurred to me that perhaps coffee was the cause of my trouble, so I began to use Postum, being careful to have it made according to the directions on the package.

"I did not have to cultivate a taste for it, for I found on the start that it was a most delicious beverage.

"Day after day I continued to improve but did not dream that it would be such a help, and never since the day I left off coffee and commenced the use of Postum Food Coffee (about nine months ago) have I had any return of the trouble. I have used no medicine or tonic of any kind during this time, and my present condition of magnificent health is due entirely to the use of Postum Food Coffee.

"I have heard several persons say they did not like Postum but in each case I discovered upon inquiry that it was because they tried to make it like common coffee, that is boil it four or five minutes. This will not do, for one cannot get the delicious flavor and the food value in so short boiling. The directions are plain enough, and it only requires a little patience to bring out the beautiful flavor.

"The doctors find Postum one of their most valuable aids in their treatment of cases like mine."

GOOD MEN WANTED.

Editor Morning Times

Sir,—There never was a period in the town's history when good men were more necessary in the Council than at present The town's taxes are climbing up, and something must be done to stem the tide of extravagance and lack of thrift.

I would like to see more of our men of stake in the town coming forward, as loyal and patriotic citizens, and taking a turn at the municipal crank. Surely they feel the necessity that exists for a steady hand at the helm.

Our very best men are none too good at this hour of emergency.

PROPERTY OWNER.

THE TOWN STREETS.

Editor Morning Times

Sir,—I am amazed at the apathy of the Council in regard to the botch that is being made of our streets. Let us make a change, and dispense with an engineer. What we require is a good, practical man, who understands not only road making, but also knows how to handle working men. With such a man, there would be little for an engineer to do.

I regard the present methods as nothing short of an outrage.

The ratepayers should pledge their candidates to a change in this regard.

LOCAL NEWS LETTERS.

GORE'S LANDING.

Mr. Hickey of Peterborough, was engaged last week in hauling the Beaver out of the water for the winter.

Mr. Alfred Harris left on Thursday last on a business trip to California.

Several of the residents took advantage of the last trip to Peterborough of the Eclipse on Saturday.

During the heavy gale of Monday morning, the North Star, which is moored in the bay, dragged her anchor and drifted ashore. Fortunately a few hours work was sufficient to get her back to her former position.

EAST EMILY.

A large meeting of the patrons of East Emily cheese factory was called on the 28th of November for the purpose of winding up the business of the past season.

Mr. T. M. Caldwell was appointed chairman.

The following is the secretary's report of the season's make in East Emily cheese factory for 1900:

Total pounds of milk delivered 803,020.

Total pounds of cheese manufactured, 74, 391.

Average pounds of milk to pound of cheese, 10.79.

Average price per pound cheese 10.31 cents.

Average net value to the patrons per cwt., milk, 80 cents.

Total value of season's make, $7,063-05.

After being approved by the unanimous vote of the patrons, it was moved by Mr. J. T. Switzer, seconded by Mr. W. Lowes, that the secretary's report be received.—Carried.

Mr. J. R. Boate, who has acted as secretary-treasurer for the building committee, presented a financial statement which was very satisfactory to the shareholders.

During the season of 1900. Mr. Ward the inspector of cheese factories, paid two visits to East Emily factory. It reflects much credit on the patrons that he was able to give a clear report.

On motion of Mr. Michael Perdue, seconded by Mr. Wm. Deyell, votes of thanks were given to Messrs. G. L. Ward, the cheesemaker, W. C. Switzer, salesman and treasurer, and J. F. Collins, secretary, for the satisfactory manner in which they transacted the business of the factory for the past season.

OTONABEE.

The Otonabee Council met on Nov. 19th and the members were pleased that Councillor Brown was again able to be present.

The following communications were received:

From the House of Providence, announcing Mrs. Barry's death and requesting the council to pay the funeral expenses.

From N. F. Davidson on behalf of the late Donald Campbell estate, notifying the council that it would be prosecuted if they allowed Mr. Calcutt to errect a mill on the allowance near Campbelltown wharf.

Mr. Deyell and the clerk were appointed to see Mr. Calcutt, to inform him that he cannot use the road allowance for a mill site unless he gives a bond to the council indemnifying them from any action.

Messrs. John Knox, John Mills, and D. D. Henderson were present with regard to a larger culvert being put in at the same place as the one at present on the road between lots 24 and 25, concessions 7 and 8, and regarding a bank that was made on the side of the road at the same place damming the water into the road.

A motion was passed to level the said bank and put in a new culvert 1 1-2 ft. by 3 1-2 ft.

D. D Henderson opposed putting in a larger culvert as it would let water through faster than his covered drain could carry it away.

On motion James Douglas was allowed for charity through Mr. Fife $3 per month from October 1st till further notice.

The following accounts were passed for gravel: E. J. Hair $9.94; D. McCarthy, 84c; C. Edwards, $1.68; J. Harrison, $2.31; M. O'Leary, $2.59; Joseph Elmhirst, damages, $3; D. Hunter, $4.05; R. Ord, 90c; Dickson Co., $20.09; Jas. Nelson, $6.25; J. H. Brown, $1.25; Joseph Greer, picking stones off road, $4.50; Jas. Miller, lumber for sidewalks 85c; Geo. Read, stones, 50c; Peter Hamilton, scraper, $8.50; John Dinsdale, Sanitary Inspector, $6.25; R. McIntyre, care of hall, $2.60; House of Providence, late Mrs. Barry's funeral expenses, $16; D. Hastie, water trough and sharpening pick, $5.60; Examiner Ptg. Co. $72.81; M. Breckenridge, wire for railing 12 cents; J. Duff, nails, 53c; G. T. R. freight on water pipe, 35c; C. Edwards, care of water trough $2.65; Curtis Bros., tile, $5.

The next meeting of the council will be held on Dec. 18.

The council then adjourned and went into session as Board of Health, when the following business was done. Whereas complaint has been made from time to time during the last number of years of the unsanitary condition of some of the cheese factories caused by allowing waste whey to run into the ground and roads and feeding hogs near the factories, causing a great stench to the annoyance and endangering the health of neighbors and the travelling public, therefore the Secretary of the Board of Health is instructed to notify all owners, manufacturers, or managrees of factories or creameries, that their surroundings must be kept in a clean and sanitary condition and must comply with sub section 10, section 122, chapter 248 of the Public Health Act, commanding all owners of factories to obtain permission in writing from the Board to keep such factory or creamery.

"Welcome, Evil, If Thou Comest Alone."

One evil that cannot come alone is impure blood. If this is allowed, it is attended by kindred ailments galore. This condition means that every vein and artery of the body, instead of carrying to the organs a health-giving flow of life, is laden with a slow and impure fluid that is harming instead of healing.

It is unfortunate when there is "bad blood" inside of you. Hood's Sarsaparilla will not make enemies friends, but it will make "bad blood" good blood, and blood should be of the best quality. *Hood's never disappoints.*

Erysipelas—"Had a severe attack of erysipelas, suffering from dizziness and nervousness so that I could not rest at night. Tried Hood's Sarsaparilla with good results, and now recommend it to others." M. CHALMERS, Toronto, Ont.

Strength Builder—"Myself, wife and children have taken Hood's Sarsaparilla and it strengthened us. It relieved me of a lame back." DAVID MCGOWAN, caretaker, Colt Institute, Galt, Ont.

Rheumatism—"I was badly afflicted with sciatic rheumatism. Consulted doctors without relief. Was persuaded to try Hood's Sarsaparilla, and five bottles gave me relief and enabled me to go to work." WILLIAM R. ROACH, Margaretville, N. S.

and learn how highly the graduates of this school are thought of by the business public.

"Oct. 16, 1900.

Gentlemen,—We have openings now for two or three good male stenographers who had had experience, and it occurred to us that a large number of stenographers and other office men, who have graduated from your school from time to time and are now holding positions, might desire to better themselves. If you can put us in communication with some of your old graduates, who have had two or three years' experience, we should be under obligation to you."

We might mention that the concern represented in the above letter has a Capital Stock of Five Million Dollars.

When you read such evidence as the above, need you be surprised that during the period of thirteen and a half months ending in October, 348 positions were filled by our pupils.

It pays to attend CANADA'S GREATEST SCHOOL OF BUSINESS OR SHORTHAND, if you wish to thoroughly qualify yourself for office work and be assisted to a position when graduated.

BRITAIN TO ARM AFRICA AFTER WAR

She Will Arm all Her African Colonials.

DENIED BAD REATMENT

Commander of the Contingent Says His Only Complaint is that too Much Kindness is Shown to Them.

London, Dec. 5—The visiting members of the Royal Canadian Regiment, piloted by the Duke of Argyle, Mr. Joseph Chamberlain, Lord Lonsdale, the Duke of Aberdeen, Lord Lansdowne and others, visited the Houses of Parliament this morning. Mr. Chamberlain, in an address, acknowledged the indebtedness of Great Britain to the Colonial troops.

The Canadian Contingent was most cordially welcomed in the House of Lords by Lord Lansdowne and the Duke of Aberdeen in brief speeches. Colonel Otter, in thanking the speakers, denied the allegations of bad treatment oft he Canadians. He said the only complaint he and his men had to make was that they were being killed by kindness.

NOT TO PROPOSE ARBITRATION.

The Hague, Dec. 5—During the debate in the budget on the second chamber here to-day the Premier, Dr. Pierson, declared he could not at present foresee the phychological moment when the Netherlands would be able to propose arbitration between Great Britain and the Transvaal.

RETURN OF MOUNTED MEN.

Ottawa, Dec. 4 — In militia circles the opinion prevails that the Canadian Artillery and Mounted Rifles will not now be home from South Africa until February or March. The period of service does not expire until March, and it is believed that Lord Kitchener will desire to utilize their service to the fullest extent.

Enquiries were made at the Militia Department to-day as to the whereabouts in South Africa of the Canadian nurses. According to a cable message from Lord Strathcona the nurses were last reported to be at Pretoria. It was not known when they would leave for home.

A NATION IN ARMS.

Johannesburg, Dec. 4—Governor McKenzie, speaking here, declared that the decision had been taken that all British subjects of suitable age should in the future bear arms. He expected that the citizens of Johannesburg, on returning to the district, would make a force of 20,000 men, which would be named the Rand Rifles. This force would be able to defend the district against any possible hostile force in South Africa. This was in the interests of the people, who would thus be enabled to recommence industry without fear of interruption.

A probable result of the war would be that the principle of a nation in arms as against a great standing army would be accepted throughout the Empire. He believed that the beneficial training, physical development, and independence of the race would not interfere with its commercial and industrial progress. Germany, with conscription, was making a great industrial advance. The plan he mentioned was not conscription, but voluntary training. Governor McKenzie thanked the society for the references made to the administration, and said he was doing his best to continue the Government until the civic authorities were replaced.

BOERS SMUGGLE AMMUNITION

Lorenzo Marquez, Dec. 4 — It was reported recently that Colonel Blake, of the Irish-American Brigade, and a brother of Christian De Wet, with a small escort and four spare horses, were five miles inland at Catambi, on the other side of Delagoa Bay. It has leaked out that Boer agents here, notable one Munnik, have been sailing over to the other side of the bay lately, ostensibly on shooting trips, but are really carrying ammunition. Munnic, with two other men, went over Monday with a large supply, which accounts for Blake's led horses. Munnik and two Boers have been arrested.

* * *

Paris, Dec. 4 — The Echo prints an interview with Dr. Leyds, the European agent of the Transvaal, in which he says that ex-President Kruger's courage will not falter because of his rebuff by Emperor William and the Czar's illness, and that he will still try to secure European intervention. He will remain in Europe for weeks if necessary. The Echo says Kruger will go to Livadia before the Czar leaves there.

* * *

The Hague, Dec. 4 — Mr. Kruger is expected here next Thursday. Rooms have been engaged for himself and party at the Hotel des Indes. The Dutch sympathizers for the Boer cause have now given up hope of European intervention, considering that the non-success of Kruger in Paris and the refusal of the Kaiser even to receive the Boer ex-President, meant disaster to his hopes.

CANADIANS AT PORTSMOUTH.

London, Dec. 4 — The Canadians had a delightful time at Portsmouth to-day They were officially welcomed by the Mayor and corporation.

Col. Otter replied, acknowledging the compliment. The Canadians were escorted over the dockyard and other points of interest, and were greatly interested in the warships in the harbor and under construction.

The Duke of Argyle gives a luncheon to the contingent at Kensington palace to-morrow.

Lord and Lady Strathcona hold a reception Saturday.

BRITISH LOSSES.

London. Dec. 4 — Lord Kitchener cables the War Office a supplementary report to that of last Saturday in regard to the fight of General Paget with the commandoes of Viljoen and Erasmus. In Saturday's report Lord Kitchener said that Lieut.- Lloyd had been dangerously wounded. He says now that Lieut.-Col. Lloyd was killed, and ten other officers were wounded. Thirteen men were killed and fifty-nine wounded. General Paget's mounted men are pursuing the Boers.

PLUNDER — NOT PEACE.

Southampton, Dec. 4—In an interview to-day U.S. Consul-General Stowe, who has just returned from the Transvaal, declared that the remaining fighters were mainly what are called road agents in Western America. A large proportion of them are mercenaries, and their operations indicate that they are seeking plunder rather than peace.

Fifty Men Entombed

Scranton, Pa., Dec. 5—A serious cave-in occurred this morning at the Nay Aug mine, near Dunmore. It is reported that 51 men are entombed. Great excitement prevails and particulars are hard to get.

A Hard Luck Player

Attleboro, Mass., Dec. 5 — Vernon White, of the Attleboro High school football eleven, has in the five years that he has been playing the game, sustained more serious injuries than any other player in this country. White is always on hand at the opening of the season, but seldom lasts through. In the five years White has sustained 14 serious injuries, as follows:

1895—Left leg broken above the knee joint; left collar bone broken and right ankle sprained.

1896—Nose broken twice and back severely wrenched.

1897—Three fingers on left hand broken, and ankle broken.

1898—Rib broken and wrist sprained.

1899—Left leg fractured and splintered.

1900—Head severely injured; two ribs broken, leg temporarily paralyzed from a kick and the ribs previously fractured were rebroken.

White has not recovered from his last mishap, although he is out of danger and in good spirits.

International Chess Match

Cambridge, Mass., Dec. 5.— Negotiations are now on the way between the University of Cambridge and Oxford in England and four American colleges, with regard to the international chess match this year. The trophy that was given by I. N. Rice, of New York, has been won twice by Cambridge and Oxford, and unless the American colleges win the match this year the trophy will remain the permanent property of the English universities.

Another Step in Surgery

Ottawa, Dec. 7. — The performing of operations without pain to the patient, who is perfectly conscious, by paralyzing the nervous system through the injection of cocaine into the spinal column, has been introduced into St Luke's Hospital here This method was discovered by Dr. Bier, of Kiel, Prussia, a little over a year ago. It was first used in Canada in St. Luke's Hospital on Tuesday last, November 27th, when Dr. Prevost performed a very difficult operation in a case of hernia. Though the patient could hear, see and talk, he felt no pain.

English in German Schools

Berlin, Dec. 5.—Emperor William's decree regarding the reform of the higher schools provides that, in consequence of the importance attaching to the English language, special attention shall be given hereafter to this branch in the gymnasia, where it is made equal with Greek in the underclasses and shall displace French as an obligatory study in the upper three classes, French being made optional in the latter.

Special emphasis is laid in the decree upon the importance of speaking the modern languages taught, and the reform plan contemplates also more attention to Latin in the oberrealschule.

Berlin's Dec. 5.—Emperor William's decree regarding reformes in the higher schools has elicited varied comments. The Liberal papers generally commend the addition of instruction in the English language to the classical curriculum, but they point out that it will be almost impossible to carry the plan into execution under the existing arrangements. On the othe rhand, the Agrarian and Conservative journals argue against the introduction of England.

Mercier's Plan to Invade England

Paris, Dec. 5—Gen. Mercier caused a deep sensation in the Senate yesterday during the debate in the Naval Bill, by pointing out the ease by which England could be invaded. He demanded that they introduce into the plans for the mobilization of the army, the navy methods for the rapid embarkation and debarkation of an expeditionary corps. The President declared that such proposals were out of order, and the Senate adjourned. In the course of an extraordinary speech, Gen. Mercier said,—"In view of the possibility of war with Great Britain the use of the army is not sufficiently taken into account. The Transvaal war has shown that the British army, although brave, is not equal to the task which England expected it to perform. The British navy is powerful, but it has many coasts to defend. France, therefore, is numerically England's equal at certain points, and is even her superior in the instruments of destruction. A landing in England is therefore not beyond realization. I venture to think that the work I prepared while commanding an army corps could serve as a basis for such a project, which would not be expensive."

MOROCCO YIELDS TO GERMANY

Berlin, Dec. 5—A despatch received here from Tangier says the demands of Baron Von Mentzien, the German Minister to Morocco for the payment of the three principal claims of injured Germans and the punishment of the offenders have been yielded to by the Sultan.

FIVE MEN WERE KILLED

G. T. R. Engine Ran Down a Handcar With Fatal Results--Men all From Cheltenham and all Married.

Inglewood Junction, Ont., Dec. 5 — A terrible accident occurred between here and Cheltenham this morning on the Grand Trunk Railway, at 7.10 o'clock. Engine No. 311, an extra, in charge of Van, driver, and W. Curtis, was running north, and when about one and one-quarter miles north of Cheltenham it struck the section handcar, on which were

John Allen, foreman.
Neil McArthur, sectionman,
Oliver Ellis, sectionman,
Arthur Frame, farm laborer,
John Tetzel, farm laborer.

The last two were going to a threshing.

All were killed instantly. Dr. Emerson empanelled a jury, which, after viewing the remains, adjourned to meet on Thursday evening, Dec. 13, at Inglewood.

All the deceased were married men and residents of Cheltenham.

FIREBUGS HAVE GREAT FIELD DAY

Five Blazes Within a Few Hours Alarm at Bowmanville

Bowmanville, Dec. 5.—Five different fires broke out in various parts of the town yesterday, all of which are said to be the work of incendiaries, and a young fellow, George Payne, has been arrested on suspicion.

About one o'clock in the morning, a one-story frame block used as carriage rooms, storehouse, and pump factory, and owned by Mr. William Muir, 283 Queen street east, Toronto, was noticed to be on fire, but the flames were extinguished in a few minutes—not however, until the buildings were badly wrecked.

During the forenoon the upper story and roof of an old frame dwelling, in the rear of the Muir block, were damaged by another outbreak.

The most serious blaze was at six o'clock, when the moulding machine and blacksmith shops of the Porter foundry, owned by Mr. George Porter, 682 Spadina avenue, Toronto, were destroyed.

Immediately after a two-story frame building, used as a fruit evaporator was burned; a brick residence owned by Mr. George E. Manning, St. Mary street, Toronto, was threatened, and John C. Manning's barrel and stave factory damaged.

A blaze in the old organ factory, started later, was quickly extinguished.

If Rosebery Came Back

London, Dec. 5.—The Standard says that it learns that Lord Rosberry would resume the leadership of the Liberal party but that Sir. William Vernon Harcourt and Mr. John Monley decline to pledge themselves to support his policy.

A Government Gain

Halifax, Dec. 5. —The recount in East Queen's Prince Edward Island, has resulted in the return of Mr. D. A. McKinnon, Liberal, late Attorney-General of the Province, by 7 of a majority, instead of Mr. Martin, at first declared elected. The rejection in one division of 45 Martin ballots and 33 McKinnon ballots, which were numbered on the back, did the deed.

BIG STORM SWEEPS, BRITISH COASTS

Ships in the Channel Report Having Had Rough Experiences--One Vessel Went Down Nine of Crew Missing.

London, Dec. 5—Storms have been sweeping over the British coasts, and the ships in the Channel have had rough experiences. Several minor wrecks have been reported.

The steamer Rossgull of Plymouth foundered off the island of Jersey. Her passengers were saved, but a boat containing nine of her crew is missing.

The Rossgull was engaged in the service between England and the Channel Islands and St. Brieuc, France. She foundered in a gale at 11 o'clock last night. According to the report which has reached St. Brieuc, only 11 persons out of the 60 people on board were saved.

WONDERFUL ENGINEERING FEAT.

In the Construction of the Great Steel Bridge Spanning the St. Lawrence

The Grand Trunk has for generations been spoken of throughout the world as having some of the most wonderful engineering achievements that have ever been accomplished. The Victoria Bridge, spanning the St Lawrence River at Montreal, inauguarated in 1861 by the Prince of Wales has been placed in the catergory of marvelous things, as the Eighth Wonder of the World. Through increase in traffic and with the onward march of time and improvement, this bridge has become inefficient to meet the demands of the Company, and a beautiful new open-work steel bridge, with double tracks, carriageways, foot walks, is now built o nthe same piers as the old bridge, at a cost of an enormous sum and without any interruption to traffic. Another remarkable achievement of engineering work is the new single arch, double track steel arch bridge spanning the Niagara George just below and in full view of the greatcataract itself. This new structure is the largest single arch bridge in the world, and its height is 252 feet above the water. The view obtained from the windows of the train while passing over the bridge is something beyond description, and probably has no equal.

Pearson to be Hanged

Hamilton, Ontario, Dec. 7. —George Arthur Pearson, the young man who murdered his sweetheart, Annie Griffeth, in August last, will be hanged here to-day. He fired two shots into her head while they were driving in a buggy a few miles from their home in Hamilton.

Largest Family Hotel

Brooklyn N. Y., Dec. 7.—This city will soon rejoice in the possession of the largest family hotel in the world. It will be 23 stories high, and have over, 1,600 rooms, in suites, so that 250 families will be housed under one roof. The location —Clark and Willow streets—is so high that it will overlook New York. James Breslin will manage the concern, which has been capitalised at $2,500,000. It will be completed in October, 1901.

Died at Nicholls' Hospital

Lindsay Post:—Last evening Mr. W. Genevecknow, Victoria-ave., received a message from Nichols' Hospital, Peterboro, stating that his daughter, Annie, had died at five o'clock of acute anaemia. About two weeks ago the deceased left for Peterborough to receive treatment, but as the disease had become firmly rooted all medical aid afforded was without avail. The deceased had been in the employ of Mr. A. Cathro, tailor, for a number of years. The funeral takes place tomorrow to Riverside cemetery Undertaker Nugent will bring the remains home this evening. The many friends of the deceased extend to the family their sincere sympathy.

BRITAIN TO FORTIFY SYDNEY

Government Negotiating for Water Lots and Land at That Front--Capable of Very Easy Defence.

Halifax, N. S., Dec. 4 — Nothing announced in military circles for some years has caused such a sensation as the news that the British Government is negotiating for large water lots and considerable land in Sydney Harbor. The fact of England purchasing property at Sydney is more significant.

The fortifying of Sydney would give England one of the best naval stations in the empire. With one of the finest harbors in the world Sydney could be approached at almost any time of the year, and the great coal deposits would enable her to cater to John Bull's most extravagant demands for fuel. It could be stored in large quantities at small expense and held in case of emergency. This year a shortage has been experienced at the dock yards and the British authorities have had to buy American coal in order to keep steam up on her American fleet. With Sydney a source of supply this would all be adjusted and the coal question would be effectively solved.

Another advantage resulting from the fortifying of Sydney would be that of bringing the British forces within easy striking distance of the French Newfoundland squadron and the Island of Miquelon.

Competent officers have examined the harbors surrounding, and they have been found to be capable of easy defence. The work of fortifying the harbors will, from present indications, not be long delayed, and Great Britain will have added another link to her chain of strongholds which encircle the globe.

NOVEMBER BRIDES.

A Number of Marriages in Different Local Sites.

SCOTT-WISEMAN.

The home of Mr. W. J. Wiseman, Havelock, was the scene of a very bright and happy event, on Wednesday, last, the occasion being the marriage of their only daughter, Lillian May, to Mr. H. G. Scott. At 8.15 o'clock, the bride, leaning on her father's arm, and attended by Miss Mary Scott, entered the room; while the glad strains of the wedding march were evoked by Miss L. Smith. The groom was assisted by Mr. Fred Elmhirst, of Ottawa. Both the bride and bridesmaid carried bouquets of beautiful chrysantheums.

The ceremony was performed by the Rev. J. C. Bell, assisted by the Rev. H. McQuade, of Manilla.

The dining room was very tastefully decorated with festoons of red, white and blue bunting, the effect being intensified by the mellow light of numerous Chinese lanterns. The guests, numbering about fifty, thoroughly enjoyed themselves until the midnight hour, when the company broke up, the young couple taking the east-bound train for an extended trip. The wedding presents were numerous and costly and suitable. The Times extends its congratulations on this happy event.

CASSAN—BOSWELL.

A very pretty wedding was celebrated in St. John's Church, Havelock, on Wednesday evening at six o'clock, the contracting parties being Miss Rhoda Boswell, eldest daughter of Mr. and Mrs. W. Boswell, Trent Bridge, and Mr. Frank Cassan, formerly of Campbellford. The ceremony was performed by the Rev. R. J. Carson in the presence of many relatives and friends of the young couple. Miss Lizzie Benshall, organist, played the wedding march, when the bridal procession entered the church.

Miss Fannie, sister of the bride, was bridesmaid, while Mr. Ernest Cassan, a cousin of the groom supported his relative. A becoming gown of white organdie with trimmings of lace and ribbon, was worn by the bride, together with a veil and orange blossoms. Miss Fannie's dress was a pretty one of heliotrope muslin with velvet ribbon trimmings, and she wore a handsome black picture hat. Both carried a beautiful shower bouquet of chrysantheums. The church was nicely decorated the occasion, many of the decorations being taken for souvenirs. After a wedding tour, the happy couple will reside at Trent Bridge for the winter. The Times and the many friends of this popular bride extend their cordial wishes of success and prosperity for the future.

HIGGINS—PAUL.

On Wednesday evening a very pleasant event took place at the residence of Mr. and Mrs. Joseph Paul, Lakefield, when their eldest daughter, Alice, was united in marriage to Mr. Alfred Ernest Higgins, of Smith. Promptly at 5 o'clock, to the strains of the wedding march, played by Miss Maggie Mann, of Peterborough, the bride entered the parlor, leaning on the arm of her father, the ceremony being performed by the Rev. E. A. Dove, in the presence of about sixty of the relatives and friends of the contracting parties. The bride, who wore a charming costume of silver gray, trimmed with velvet, applique and white satin, and wore the customary veil and orange blossoms, was assisted by her sister, Miss Lillie Paul, who was dressed in militia grey, trimmed with blue, and Miss Jennie Graham, in a green cloth costume, trimmed with Nile green, white satin and applique. Little Miss Ferne Edwards made a charming maid of honor, and was attired in a robin egg green dress, trimmed with satin and white ribbon, and carried a bouquet of white asters. The groom was assisted by Mr. John Boterill and Mr. Wm. Riddell, of Concord, Ont. After the happy couple had received the congratulations of those assembled, a sumptuous wedding dinner was served, the evening being then spent in games and other amusements. Among the large number of presents received was a handsome silver sugar bowl, the gift of the members of Stanley Lodge, L.T.B., of which society the groom is a member. The happy couple left for a week's visit with friends in Cobourg and other places, and on their return will take up their residence in Smith. They start out in life with the best wishes of a large number of friends for their future welfare and prosperity.

JOHNSTON—McFARLANE.

A very pretty wedding was celebrated at Young's Point on Tuesday last, when Miss Elizabeth Martha McFarlane, eldest daughter of Mr. and Mrs. W. McFarlane, and Mr. James Archibald Johnston, were united in the holy bonds of matrimony by the pastor, Rev. M. F. Fitzpatrick.

The bride was assisted by Miss Verna M. McFarlane, sister of the bride, and Miss Ida Kearney. Mr. Frank F. Young and Mr. W. Pope of Peterborough, assisted the groom.

The bride was charmingly attired in a dress of blue broadcloth with boleros, opening over a blouse of white satin, overlaid with lace, and trimmed with chiffon and a velvet hat to match. The bridesmaids also looked very pretty in dresses of blue broadcloth, of a darker shade than the bride's, with boleros trimmed with gold braid, opening over taffeta blouses of contrasting colors, one being pale blue and the other pale pink. Both the bridesmaids wore blue velvet hats trimmed with white plumes.

The church was tastefully decorated for the occasion, and was filled to the utmost capacity with friends and relatives of the young couple.

After the ceremony and during the ceremony of mass which followed, the choir sang appropriate hymns, as a tribute to the bride, who was a member of the choir, and who will be greatly missed.

At the conclusion of the services the happy couple drove to the residence of the bride's father, where a sumptuous repast was partaken of by nearly 100 guests. At the conclusion of the repast, the esteemed pastor, Rev. Father Fitzpatrick, addressed a few words to the bride and groom, and concluded by tendering them his hearty congratulations.

At the conclusion of the breakfast, the young couple repaired to the parlor, when a splendid programme of vocal and instrumental music was rendered.

At 3 o'clock the happy couple took their departure for Toronto and other western points, via Peterborough, amid showers of rice and blessings.

Some of the wedding presents were exceedingly beautiful and costly, ranging from $75 down. There was a very large number, which attested to the popularity and esteem in which the young couple are held.

The young bridesmaids are now the happy possessors of diamond rings, the groom's presents to his two young friends. The groom's present to the bride awa a beautiful grey lamb coat.

The Times joins in extending its hearty congratulations.

WEATHER NOTES.

Probs—Strong north-westerly to westerly winds; local snow flurries, but for the most part fair and a little cooler. To-day—North-west and west winds; fair and cool.

MESSAGES SENT OVER THE CHANNEL

Wireless Telegraphy Between England and Belgium.

WORKED FOR 90 MILES

And Even the Ciffs did not Baulk the Success of the Experiments.

Brussels, Dec. 5.— A station has been established at Lapanne, Belgium, for the charge of wireless telegraphic messages between Belgium and England.

A Dover-Ostend mail boat was fitted up with temporary apparatus for use in experimental trials, and it is confidently expected to maintain communication between ship and shore for at least thirty miles, which is about half way across. With stations at Lapanne and Dover those on board the vessel will be able to keep in touch with the land during the entire trip across. Recent experiments showed that replies arrived with the same regularity and celerity as ordinary telegrams. When about forty miles from Ostend the captain was able to telegraph the station master at Ostend the probable hour of his arrival. Various telegrams were sent from the vessel to Ostend, Brussels, Dover and London, and the reception of each message was acknowledged promptly. Subsequently a message was sent from the vessel to the station at Dover Court, Essex, a distance of nearly ninety miles, including many miles of cliffs and sea.

ACTUAL WORK BEGUN ON AMERICAN YACHT

Carpenters Putting Big Timber Frames in Shape.

Bristol, Dec. 5.—Late yesterday afternoon workmen at the Herreshoffs' south construction shop started the first actual work in connection with the construction of the new cup challenger when one of the carpenters began to shape up the big timber frames which will support the keel mould, while others were set to work upon the inner lining of the big mould timbers.

The carpenters are taking plenty of time at their labors, since it is not desired to have the mould ready before Cornelius Vanderbilt's crack seventy-footer Rainbow is ready for launching —a matter of several weeks yet, as the repairs being made to her hull are delicate and require much care and circumspection.

H. P. Whitman has been exceedingly busy during the past week laying down the new century flyer in the old sail loft at the top of the south shop. His labors at present are confined to the scribling board on which he laid down Vigilant, Defender, Navahoe, Colonia and Columbia.

He has but one assistant in this work, one of the oldest and most reliable men in the Herreshoff's employ, aiding him, as it is not intended that any more of the firm's plans shall leak out than is absolutely unperventable. It is learned, however, that if the present rate of progress is maintained by Whitman the yacht will be completely laid down this week and, providing any of the steel frames arrive from the Pennsylvania Steel Company's works, Steelton, Pa., some of the frames can be bent in the machine shop, for which preparations have already been made.

STEEL WORKERS START LABORS.

Within the past ten days a dozen steel workers who were employed on the Columbia arrived in small detachments from widely distributed centres of industry, and these have been quietly set at work in the machine shop on Burnside street. Others are expected within a short time, and the indications are that when once started the frames of the new yacht will go up at an unprecedented rate. In fact there is not the slightest doubt that the Columbia's successor will take shape faster then any cup defender ever before turned out from an American plant.

The Herreshoffs were not caught napping by the Lipton challenge, Captain Nat having his model practically completed in his mind long before Sir Thomas made known his intention of coming over again to "lift that cup."

LEAD FOR KEEL SHIPPED.

A New York firm, which is furnishing the lead to be used when the keel of the new defender is cast, shipped about thirty tons by steamer last Wednesday, and this was brought to Providence and so quietly transhipped that its presence was not known by anyone outside of the Herreshoff works until to-day. A fall River freight steamer brought it here and it was taken into the south shop from the south wharf, out of reach of the newspaper men.

CHINESE DEFEND PASSES.

Berlin, Dec. 5—A despatch from Field Marshall Von Waldersee, dated Pekin, Tuesday, December 4 says strong detachments of Chinese regulars under General Ma are reported from Shansi to be holding the mountain passes on the frontier of Chili.

An explosion at Paotingfu during the cleaning out of a powder magazine killed one man and wounded Lieut Wolfgramm and four others.

REAL ESTATE.

PRO BOER SYMPATHY.

It is very unfortunate that even yet so large a proportion of the newspapers of the United States are pro-Boer. For example, the Chicago Inter-Ocean, a journal having a very large circulation and influence, said in a recent issue, under the heading of "Kruger's Popular Triumph," "the people of France are welcoming Paul Kruger as they never before welcomed a foreigner to their country. The spontaneity and enthusiasm of the greeting are as marked in Paris as in Marseilles, Lyons, and Dijon. There have been no plans looking to this outburst of national sentiment. The demonstration is from the hearts of a people racially antagonistic to Paul Kruger and his ancestors * * * * *

"There is nothing in his homely person or in his simple faith to commend him to the French people, and yet, as the leader of the Boers in a heroic struggle, as the former President of the South African Republic, as a representative of the stubborn, sturdy patriotism that yields not in the face of disaster or superior numbers, Paul Kruger received from all classes and parties the most magnificent greeting ever extended to sovereign or commoner by the French nation.

"The same qualities that appeal to the people of France would appeal to the people of Germany, and Austria and Italy and Russia, and, above all, to the people of the United States. If Paul Kruger should come to the United States he would receive such a welcome as has been given in this country to no other man for a generation except Admiral Dewey. The American people would go beyond the demonstrativeness of Paris or Lyons or Marseilles and would pay honor to the man from the Transvaal as they would to no government executive in Europe or Asia.

"Stripped of all political authority and power, bereft of country and kindred, Paul Kruger stands to-day before the people of civilized nations as the most admired figure on the stage of world politics. He is popular because of the people's sense of wrong as well as their sense of justice.

"He speaks the protest of the common people of all nations against the overthrow of two republics simply to serve the ambition of the empire. He stands for patriotism, courage, devotion to principle, and for that sort of faith that gave to one age its Christian martyrs, and to another the republic of the United States."

There is no doubt at all that these are the sentiments of a large proportion of the people of the United States. Not that they would advise intervention in favor of Mr. Kruger; that would be a serious matter; but they believe that he is in the right and Britain in the wrong. The same feelings animate undoubtedly the vast majority of the people of Continental Europe, as shown not only in France, but in Belgium and Germany, not to speak of Holland, the land of the ancestors of the Boers and Burghers. How much of this sentiment arises from hostility toward Britain it is impossible to determine. This hostility is unconsciously no small factor in the result. Unfortunately the majority of the outside world has had only one side of the question presented to it, the anti-British side. This is especially the case in the United States. At any rate the situation must be faced; the British Empire has not the sympathy of the world in the struggle in South Africa. It is well for her that she is strong enough to do without that sympathy.

SUPPER AND ENTERTAINMENT

A Very Successful Event in Ashburnham Tuesday Night.

The entertainment and supper last night, under the auspices of the Women's Auxiliary and Girls' Guild of St. Luke's Church, Ashburnham, was a huge success in every way. Despite the inclement weather the town hall was completely filled and a large number partook of the excellent fowl supper provided by the Ladies' Aid. The entertainment which followed was the efforts of the members of the Girls' Guild, and reflected great credit on the society. The hall was appropriately decorated by Messrs. J. J. Turner & Sons, the well known decorators of Peterborough.

Rev. Mr. Symonds, in opening the entertainment expressed his surprise and pleasure at the large gathering, he at first being of opinion that on account of the bad weather it would not prove a success. He asked the audience not to encore the several numbers, as there would not be time to finish the large programme if this were done.

The first was a pleasing selection by Wilson's orchestra, followed by a recital by little Miss Carrie White. The applause was so prolonged that the rev. gentleman had to promise that the little lady would appear later on. After a pleasing vocal selection by Messrs. Edwards and Turner and Misses Burnham and Philips, Rev. Mr. Thompson, pastor of Mark Street Methodist Church gave a very amusing address, in which he referred to the new American syndicate which was about to locate here, and remarked that he could see "Brooklyn" increasing in size and population that it would stretch far into Douro and Otonabee snatching up and incorporating towns and cities for miles around. (Laughter.) He convulsed his audience by humorous references to the mortification of Peterborough at seeing itself left behind.

Next followed a pathetic reading entitled "The Funeral" by Mr. J. J. Turner, jr., an instrumental solo by Miss Florence Butcher, a vocal solo by Miss Bertha Parnell, an instrumental duet by Prof. Davis and Wm. Staples, a vocal quartette by Messrs. Turner and Edwards and the Misses Burnham and Philips and an instrumental duet by Russel Robinson and Percy Jameson, all of which were enthusiastically received. At this juncture Miss Carrie White was again announced for another selection and her appearance was the occasion of prolonged applause. As a return number she recited "When Johnny Canuck Comes Home," and the people were not appeased until she appeared a third time in "Happy Sam," after which Mr. Symonds, to create a diversion, announced that Mr. Turner would put up at auction a few turkeys which had been left over. After a pleasing selection by Butcher's orchestra, the turkeys were put under the hammer and speedily sold, thus concluding a very successful and pleasing entertainment.

THE LIGHT OF THE WORLD
or
OUR SAVIOUR IN ART.

Cost nearly $100,000 to produce. Contains nearly 100 full-page engravings of our Saviour and His Mother by the world's greatest painters. True copies of the greatest Masterpieces in the art galleries of Europe. Every picture is as beautiful as a sunrise over the hilltops. Contains description of the paintings, biography of the painters, the names and locations of the galleries in Europe where the original may be seen. Also contains a Child's Department, including a Child's Story of Christ and His Mother, beautifully written, to fit each picture. This wonderful book, matchless in its purity and beauty, appeals to every mother's heart, and in every Christian home where there are children the book sells itself. Christian men and women are making money rapidly taking orders. A christian man or woman can in this community soon make $1,000 taking orders for Christmas presents. Mrs. Waite, our agent in Massachusetts, has sold over $3,000 worth of the books in a very short time. Mrs. Sackett, our agent in New York, has sold over $1,500 worth of the books in a very short time. The book is printed on velvet-finished paper, beautifully bound in Cardinal Red and gold, and adorned with Golden Roses and Lilies. It is, without doubt, the most beautiful book of this century. Write for terms quickly and get the management of that territory. You can work on salary or commission, and when you prove your success we will promote you to the position of Manager and correspondent, at a permanent salary, to devote your time to attending to agents and the correspondence. It Worries a Woman

To find her beauty fading, and feel her strength slowly slipping away. Worry only makes matters worse. In such a crisis the wise woman acts. She looks around for help, and finds it in Dr. Pierce's Favorite Prescription. No other medicine has done so much for weak and feeble women as "Favorite Prescription." It cures female weakness and diseases of the delicate organs which undermine woman's strength and mar her beauty. It makes weak women strong, sick women well.

Mrs. W. J. Kidder, of Hill Dale Farm (Enosburg Center), Enosburg, Vt., writes: "Your kindly advice and medicines have brought me great relief. During the past year I found myself pregnant and in rapidly failing health. I suffered dreadfully from bloating and urinary difficulty. I was growing weaker each day and suffered much sharp pain at times. I felt that something must be done. *I sought your advice and received a prompt reply.* I took twelve bottles of Dr. Pierce's Favorite Prescription, and also followed your instructions. I began to improve immediately, my health became excellent, and I could do all my own work (we live on a good sized farm). I walked and rode all I could, and enjoyed it. I had a short, easy confinement, and have a healthy baby boy."

Dr. Pierce's Pleasant Pellets cure foul breath, by curing its cause.

Dear Sirs,—In accordance with your wishes I have had both the red and white wines and the champagne tested by several connoisseurs, French and English. A YELLOW SEA POPPY.

Only a yellow sea poppy,
That grew in the shingle and sand,
Kissed by the spray of the ocean,
Afar from the dews of the land.
Hard is thy bed, little beauty,
And few are the comforts that bless;
No butterfly wing passes by thee,
Thy life is one lonely distress.

Yet thou art golden in beauty,
And delicate, too, in thy form.
There! as I lifted thy glory,
'Tis shattered before the rude storm
Flower, thou art parched in this desert,
Too dry for one tear of complaint;
Around thee hard stones, and above
Fierce rays—thou wilt wither and faint.

"Oh, no," said the poppy, "not so;
God made me to blossom out here;
My red-coated brothers, I know,
Were formed for a different sphere.
But God wanted one little flower
To grow where no other bloom grew,
And He has provided my dower,
Where you think the comforts are few.

"And if He has called you to be
Where all things seem barren and bare,
Then learn this blest lesson from me—
God's flowers in a desert are fair.
The yellow sea poppy God made
To grow amid shingle and sand;
And here I have always His aid,
To me 'tis a good, fruitful land."
—William Luff, in N. Y. Tribune.

A Chat With a Detective.

There was a tremendous crowd outside the Marylebone Police Court last Tuesday morning when I presented my card to the policeman at the door.

Some time after I had entered the court, I was introduced to a very well known detective, who has gained many laurels in the past, and who will gain so many in the immediate future.

He is a very gentlemanly man, well-dressed, smart-looking; and when you have talked to him for a few minutes you realise in the quickness of his eye, and the sound sense of his conversation, the ability that has brought him into his present position.

I wanted his reminiscences; but an inherent dislike of publicity forbids him from helping his would-be scribes; nor would he help me more than others.

"Never mind," I said, "I shall have them for all that, you see if I don't." I am able, however, to tell you some amusing things about this great detective, things learned in a chat with an old detective officer, almost as famous, and an ardent admirer of my subject.

He is now forty years of age; he has been in the service for twenty years, but has only been a detective for ten years. During that time he has seen as much of London life—in its better and more vicious forms—as any living man; and were he to write a book, it would be one of the most entertaining volumes that we could possess.

One of the most amusing cases that he was ever engaged on was when, in 1882, he arrested three famous "magsmen," that is, confidence-trick men, in a public-house near Euston Station.

He had followed these men for days, until one morning he saw two of them in the public-house and the third loafing about outside. They were waiting for a victim; "and so," said the "tec," "I will be their victim, and they shall try to play the confidence trick on me."

With that he strolled into the bar, and instantly one man nudged the other, and gave him the signal that the game was to begin, little thinking what a comedy they were playing or how particularly lively a bird was their audience of one.

The first process was for them to quarrel. They called each other a lot of bad names, and then one turned to the "victim" and said:

"Look here, sir," this man is my son, and I allow him a lot of money every month, which he dissipates and wastes. He has just spent five hundred dollars of mine, and he wants me to give him more; but I've no confidence in him—none at all."

Here the son called his father bad names; and then turned to the detective and asked him to have a drink. He had a drink, smoked with the men for over an hour, and pretended to be fresh from the country.

The fellows were delighted, and were about to confide in him, when in came the confederate from outside, and, suspecting something, said, "You fools; don't you see he's a 'D.'"

The game was nearly up, but the detective, quick as lightning, saved it. He pulled out some money from his pocket, and said:

"Look here, let's toss for drinks."

The pseudo-father cried to the suspicious man, "It's all right, you idiot, shut up," and then he fell to tossing with the detective, and finally opened the whole scheme, saying that, if the detective would trust his son with his one hundred dollars to go round the corner with, he would give him more money, and the son hinted that he (the victim) and himself might divide it.

"Exactly," said the detective, and with that he whipped out the handcuffs and buckled the pair.

Of course the swindlers were fairly taken. "That big sum of money did me," said one of them, "I never thought that the police went about with so much money."

These three sharpers were in a jesting mood when tried. They kept the judge and jury in fits of laughter, for they did not seem, even then, to have recovered their astonishment at learning that the supposed greenhorn was one of the sharpest men in London.

"Didn't you drink with me?" asked one; "didn't I stand you cigars?" inquired another, and to all this the detective merely smiled and replied: "Oh, yes; I enjoyed myself very much."

This is the amusing side of detective life. Let us take another side. In the same year, my friend was instrumental in capturing eight desperate burglars of whom the captain was a man named William Lovett.

This man, a regular desperado, was traced by the detective to a loft over a stable, and, although knowing that two or three desperate scoundrels were at the top of the narrow stairs, our detective went up, taking but one officer with him.

The moment he entered the room, he saw that the affair was full of danger. Lovett drew a knife from his pocket and sprang upon him, but he struck the man under the ear and knocked him down. Then, lest he should recover, he took him in his arms, and thinking that the other men were about to spring on him, he contemplated throwing Lovett down the stairs.

However, in the end he carried him down, and called his officer, who said, "We're carrying a corpse," a statement which frightened the "tec" very much. They laid the man down in the police-station and applied cold water to his head. But Lovett did not like cold water.

With a howl and a bound he sprang up, and made another grab at the detective who had caught him; rather a foolish proceeding, seeing that he was surrounded by police officers, and had no chance of escaping.

This Lovett, afterwards sentenced to a long term of imprisonment, was a daring fellow, for he made his escape from Millbank, and then walked about London for two days with a loaded revolver, his sole purpose being to shoot the celebrated detective, whom he regarded with a perhaps easily comprehensible feeling of animosity.

Fortunately for himself, that gentleman was at that moment lying in his own house, suffering from a sharp attack of typhoid fever, and when he recovered he learnt the great risk he had escaped.

All great criminals seem possessed of a great desire to shoot detectives, and this is not unnatural seeing that such officers are, in the opinion of thieves, impertinently inquisitive and offensive in their curiosity.

The subject of this article once had a narrow escape with an American burglar named John Owen, a man who had committed many crimes in the north of London. The detective followed him for days, knowing well that the man always had a revolver in his pocket; and that, were he tackled, he would certainly shoot his captors.

Here was a desperate job then; and one of the detective's assistants thought it so desperate that he begged not to be left alone with Owen even for a few minutes.

The hour for this burglar's capture came at last. Walking close by him in the street, the pursuer suddenly pinned his arms and threw him backwards. The fellow was thrown down and when he learnt that his captor was a detective he said, "Well, I should have made a hole in you, I guess, if I'd known who you were."

These are but a few of the many great cases that the great enemy of evil-doers has been engaged in. For instance, he captured the perpetrators of the Regent's Park murder, when a young man was stabbed and no clue of any sort was left to identify his assailants.

Again, he brought Hatton to justice when a woman was discovered in a field near Elstree with her head crushed, and dozens of other cases have been characterized by the skill that he has brought to bear upon them. With these I do not propose to deal; but I may just cite one instance to show how ready is the insight of such a man and how true his quickly-formed conclusions.

One day a woman came up to the police-station, and said that her servant had been nearly murdered by burglars, who had wounded her, pulled her hair out, and made off with a valuable silk dress.

The detective went up to the house, and cross-examined this domestic, listening to her whole explanations, and then saying:

"What do you take us for, detectives or fools? Come now, where is that silk dress?"

Of course, he was abused. "How dare he suspect our servant! how dare he make such insinuations?" He listened to them, and laughed. He knew in a moment that the servant was lying, and that no robbery had been committed.

The girl had stolen the dress herself, and before he left the house it was produced; and the astonished householders confessed that his instinct was nothing less than marvelous.

Nor should it be forgotten that our subject wears a fine gold chronometer given him for saving life from fire. One night a house in Cardigan Square was ablaze. He heard cries and screams; he rushed in and brought out a woman, who, however, died in his arms.

He entered the house again, brought out a child; entered yet a third time, but was overpowered by the smoke, and fell back into the flames only to be rescued by the fire brigade.

QUEER ISN'T IT

That women think nothing of going shopping without a penny in their purse?

That women walk boldly up to a dog and show such abject fear on the appearance of a mouse?

That women are much more thoughtful of the feelings of their mother than are men?

That women can be so easily imposed upon by men who deal in kitchen supplies?

That women find so little trouble in shedding tears at a wedding or at a funeral?

That women think every one believes them when they tell their age according to their own ideas?

A WONDERFUL
KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

BRIGHT'S DISEASE,
GRAVEL, DROPSY,
And Rheumatism Mastered at Last.

I. A. HOPKINS.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

Gentlemen:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right. I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 53 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours,
I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic disease he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 400 Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

THE WONDERLY GOLD MINING COMPANY, Limited

CAPITAL $1,000,000, Divided into Shares of $1.00 each.

Incorporated under Ontario Laws. Non-assessable.

This Company was formed for the purpose of purchasing and working seven gold claims on the Saskatchewan river, near Edmonton.

These claims have been worked some, and in the summer of 1900 D. F. Loveland, the former owner and president of the Company, had a dredge at work, and although only able to handle 200 yards of earth per day, there was from $30.00 to $50.00 of gold taken from that amount of earth daily, and thus demonstrating beyond doubt the great value of these claims.

The Company proposes to purchase one of the Risdon dredges, with a capacity of 2,500 cubic yds. a day.

The expense of running such dredge will be about $175.00 per week, and even if the dredge handles only 1,000 cubic yards a day, in six days, there will be taken out $1,500.00 worth of gold, with a profit of $1,325.00 in one week.

Sufficient stock will be sold at 25 cents per share to raise money to purchase the necessary dredge, after which the books will be closed and no more stock will be offered for sale.

There is no gold proposition on the market to-day equal to this one.

Application for stock can be made to any of the Directors, or to the Secretary, or to W. T. McNeil, broker, St. Catharines.

OFFICERS:

PRESIDENT—D. F. Loveland, capitalist, Galena, Illinois.

Two Names Omitted

In our report of the meeting in Foresters' Hall on Tuesday night, two names which were put to the meeting as suitable men for the office of Alderman, were omitted. These were ex-Ald. H. Best and Mr. J. J. McBain, both of whom would be ornaments to the Council.

Have to Stay as They Are

Lindsay abolished the ward system, electing the Council by a vote of the whole town. Recently a petition, containing several hundred names, was presented to the Council, praying that the old system be restored. At the last meeting of the Council the Town Solicitor wrote to say that the Council had no power to repeal the by-law reducing the number of Councillors.

A Splendid Proposition

One of the best propositions we have seen for some time is to be found in the announcement of the Wonderly Gold Mining Company, in this issue. The gold is there in abundance, and the property is a most valuable one. Only a limited number of shares are offered for sale. First come, first served.

Treed by Wolves

A despatch was received last night from Sudbury that Mr. Matthew Jamieson, of Munro Sons' Camp, No. 2, formerly proprietor of the Little Windsor Hotel, Peterborough, had lost his way in the woods and spent a night up a tree, with a large pack of wolves howling around him. He was rescued at ten o'clock yesterday morning by a party of one hundred men from Mr. George Ritchie's camp. "Matt" was chilled through, but managed to keep up his long vigil without losing courage, until relief came.

Improvements at Hastings

Hastings Star:—Messrs. Robt. Sunters and Geo. Hope and Mr. Geo. Ranney, of Peterborough, government inspectors, were here on Thursday inspecting the work done during the past three months under the supervision of foreman, Mr. O. Gordon. By the appearance of the work we have no hesitation in saying that their report will be satisfactory. The work here has been suspended for the time being, one month sooner than was intended, owing to a part of the dredge breaking on Tuesday of last week. There is a vast difference in the appearance of the river now than a few years ago. Then it was a dam, now it is one continual row of sluice-ways. The work has all been done in a first class manner, Mr. Gordon doing the job so it will last for years. That the government has the fullest confidence in the gentleman is shown by the fact that he always gets the job to oversee the principal works done along this section of the canal. As present Mr. Gordon is at Young's Point looking after the work in connection with a dam there which will supply power for the large cement works now being erected at Lakefield. The new gates which were made here last spring will be put in place in a short time.

DON'T NEED REST

Starved Nerves Need Food.

A food that will naturally stimulate and nourish a man so weak that he cannot feed himself, must have intrinsic merit and be worthy the attention of any person with a weak stomach. S. D. Horine of Grinnell, Iowa, writes: "By pure food seems to me the true way to get well. After a long time at one of the best equipped sanitariums, without benefit, I was put under a famous doctor who said that I did not need rest so much as I needed pure rich blood, made from pure food, and I was put on Grape-Nuts.

"At that time I had to be lifted from my bed like a baby. This was only a few weeks ago. Now I can walk, read, write, and perform many little tasks. I have not fully recovered my strength, by any means, but I have made a most wonderful progress on Grape-Nuts food. It leads me to the knowledge that nervous prostration is simply nerve starvation. The nerves are prostrated because they are starved. A starved man does not need rest, but he needs food.

"To be sure the famished nerves are forced to rest, but rest cannot restore them. They can build up on food alone. With my first meal of Grape-Nuts food I was too weak to feed myself, but after partaking of the food, a hopeful spirit, almost amounting to buoyancy, possessed me.

"I can account for the speedy effect of the food on no other ground than that it is so easily digested that only a little time and force is required to prepare it for the blood, whereas ordinary food requires so much force to digest it that it exhausts what strength a weak man has and leaves the food undigested, ready for decomposition, and changes what should be good food, into a veritable poison. Easy digestion and rapid assimilation make Grape-Nuts the ideal food for any one."

BOOTS CHANGED HIS CAREER

A Southerner Whose Success in Life Hinged on His Substantial Footgear.

"Talk about your two good suits of clothes," said the son of a well-known Confederate army officer. "In my young days shoes, one pair, was the badge of the plutocrat. I came of a large family, eight sons, and when things were going particularly well one of us had a pair of shoes. I was the youngest, so that it never was I. Now, you would be surprised to know the effect, mental, moral and physical, that shoes have on a man. I consider that my career, aye, and my character, hinge upon the possession of a pair. When I went to school in Virginia thirty years ago, of course I was barefooted. I was a quiet youth, strong for my age, but phlegmatic and would put up with a lot rather than get into a fight.

"My particular enemy in the school was an impudent and conceited boy, somewhat older than myself. He was the son of our family doctor, an only son, and the proud possessor of a pair of shoes, shoes of the old country type, with thick soles adorned with plenty of steel. You see we were not utterly poverty stricken. We had a family doctor. You couldn't expect a Southern gentleman to be able to stand for a family doctor and shoes for his family at one and the same time. My enemy was forever tormenting me, but I endured it silently for a long time. At last one day my patience would endure it no longer. I fell upon him and a sanguinary conflict ensued. We fought for an hour or more. We fought like windmills in a hurricane. It is true we did not often hit one another. We were usually too close or too far off, but we smote everything in sight, trees, walls and particularly the air. Tweedledum and Tweedledee were not a marker to us. We managed to blacken each other's eyes and bleed each other's noses, chiefly through the contact of our heads.

"Finally, however, my enemy bethought him of his superior armament. He drew back and delivered upon my unfortunate bare shanks a kick of cruel force and precision. I can feel to-day the impact of that mass of leather and steel. It was agony. I surrendered unconditionally. Now began a period of the most heartrending humiliation and misery. Wherever I went that wretched shod youth followed. I was his slave. I ran his errands. He thwarted me in all my undertakings. He stood on his steel and leather between me and the smallest taste of enjoyment.

"There was a girl, a sweet little blue-eyed thing of twelve summers, my first love who was to me as all the world, including the village candy store. With her I would commune under the trees near the village school. With her I would wax gallant and eloquent. Yankees I would slay by the score, rather than that a hair of her head should be disturbed. I wished her to believe me a Paul Jones and a Stonewall Jackson in embryo, only with a epics of wickedness.

"I believe I should have succeeded but for that horrid boy with his shoes. One day when I was holding forth to my lady love in an especially lofty strain, the wretch came sauntering past. As he took in the situation, his eyes lighted up with malicious joy. He made straight for me.

"'Get out,' he said in tones of peremptory conteptm. 'I want to talk to Delia.'

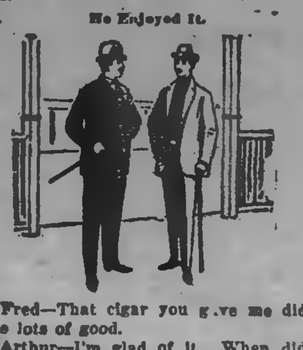
"For a moment, as the spirit of Jackson and Jones burnt bright in my breast, I was for giving battle. But he merely raised his foot and I saw the flash of steel beneath the leather. The fire of my valor was quenched. I turned one last despairing glance on Delia, who was laughing and slunk away. The horror of those shoes was upon me and my knees knocked together.

"But I swore vengeance, and all things come to the man who knows how to wait. That winter my father carried through successfully a piece of business. Result, the whole family was shod. My own footgear was especially magnificent. No shoes, mind you, but boots, with stout leather reaching even unto the knee. Homer was all right when he made the well-grieved Achaeans the victors. Mine enemy and I met. He was vanquished from the start. I think he turned pale when his eye fell upon my leather-clad shanks. He would have declined combat. But burning with the wrongs I had suffered I fell upon him without giving him time to retreat. The battle was short and fierce. I scorned to use my feet, but I was now proof against his mulish onslaught. I took his kicks without feeling them and smote him with my fists. Finally I got him down and choked him until I was weary. But as he arose, humble, bruised and trembling, I deliberately landed my armed feet on each of his shins, and with a howl of agony he turned to flee. I delivered one more kick, the most satisfactory of all, on Nature's appointed kicking place.

"My fame reached Delia's ears, and she was all smiles when she received me. She had understood, she said, all along and her heart had bled for me. I had my doubts, but the heart of youth is as wax in a maiden's hands. Shortly after my enemy approached I called to him sweetly and he came tremblingly.

"'Why don't you tell me to get out?' I asked pleasantly, swinging my foot the while, and the titter *of Delia* sent the hot blood of pride and joy coursing through my veins. What became of Delia I don't remember. But upon those boots turned my career. My shyness and phlegm left me. I became energetic and confident. I succeeded in study and sport; I afterward became captain of my college football team. My subsequent career has been one of effort crowned with success."

He Enjoyed It.



Fred—That cigar you gave me did me lots of good.

Arthur—I'm glad of it. When did you smoke it?

"Oh, I didn't smoke it. I gave it to Howard; I hate him, you know."—Harlem Life.

Read the following letter received by the Principal of the

CANADA BUSINESS COLLEGE

and learn how highly the graduates of this school are thought of by the business public.

"Oct. 16, 1900.

Gentlemen,—We have openings now for two or three good male stenographers who had had experience, and it occurred to us that a large number of stenographers and other office men, who have graduated from your school from time to time and are now holding positions, might desire to better themselves. If you can put us in communication with some of your old graduates, who have had two or three years' experience, we should be under obligation to you."

We might mention that the concern represented in the above letter has a Capital Stock of Five Million Dollars.

When you read such evidence as the above, need you be surprised that during the period of thirteen and a half months ending in October, 348 positions were filled by our pupils.

It pays to attend CANADA'S GREATEST SCHOOL OF BUSINESS OR SHORTHAND, if you wish to thoroughly qualify yourself for office work and be assisted to a position when graduated.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on *the battlefield* has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 26x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called **Attack of Royal Canadians at Paardeberg**, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the **gallant Major Arnold** met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the **cheering thousands** bade them **Godspeed** as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every **Canadian heart,** to every **Canadian home,** the deeds of their brave soldier boys **speak** with an irresistible **thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army.** These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are **RED HOT SELLERS!** Agents coin money. Big profits. Enormous success. One agent sold 68 in one day. Sample and terms 25 cts (none free); four for 80 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.60; 100 for $11.60. By-Law No.

A BY-Law to provide for borrowing the sum of Three thousand dollars for Bridges over the Creek upon Reid and Donegal Streets in the Town of Peterborough

Passed the day of

Whereas it has become necessary to build new Bridges over the Creek on Reid street and Donegal street respectively in the Town of Peterborough, and for that purpose to borrow the sum of Three thousand dollars by the issue of debentures of the said Corporation as hereinafter provided.

And Whereas by By-law Number 822 Debentures were authorized to be issued to raise the sum of Seven thousand dollars for the construction of Bridges over the said Creek, but the Debentures to the amount of Three thousand dollars being part of the said sum of Seven thousand dollars were not issued within one year from the passing of the said By-law, and doubt exists as to the power of the Council to issue such debentures after such lapse of time under such By-law Number 822, and this By-law is passed to remove such doubt and to authorize the issue of such debentures.

And Whereas it will be necessary to raise annually by special rate for paying the said debt and interest the sum of Two hundred and eleven and 08-100 dollars.

And Whereas the amount of the whole rateable property of the Municipality according to the last revised Assessment Roll is the sum of Four Millions three hundred and seven thousand six hundred and fifty-five dollars.

And Whereas the amount of the existing Debenture debt of the said Municipality (exclusive of Debentures payable by local assessment, only) is the sum of Two hundred and fifty-five thousand three hundred and forty-one and 67-100 dollars, and there is no part of the principal or interest in arrear.

The Corporation of the Town of Peterborough by the Council thereof therefore enacts as follows:—

1. This By-law shall take effect on the day of the final passing thereof.

2. It shall and may be lawful for the Mayor and Treasurer and they are hereby authorized to borrow the sum of Three thousand dollars and to issue Debentures therefor under the Corporate Seal of the Town of Peterborough to be signed by the Mayor and Treasurer of the said Town and by the Secretary of the Commissioners of the Peterborough Town Trust to the amount of the said sum of Three thousand dollars.

3. The said Debentures shall be issued within one year from the final passing of this By-law and shall be made payable within twenty years from the issue thereof, and shall bear interest at the rate of three and a half per cent. per annum, payable half yearly, on the thirtieth day of June and the thirty-first day of December in each year and shall have coupons annexed thereto for the payment of such interest. Such principal and interest to be payable at the Office of the Secretary of the Commissioners of the Peterborough Town Trust at Peterborough.

4. There shall be raised annually for the payment of interest during the currency of the Debentures the sum of One hundred and five dollars, and for the payment of the debt the sum of One hundred and six and 08-100 dollars by special rate on all the rateable property of the Town of Peterborough liable thereto.

5. The moneys realized from the sale of such Debentures shall be applied to the purpose aforesaid and to no other purpose, and the Debentures hereby authorized to be issued shall be deemed to be part of the Debentures authorized by said By-law Number 822.

6. The votes of the Electors of the Town of Peterborough shall be taken upon this By-law on the

7th day of January Next,

commencing at the hour of 9 o'clock in the forenoon and closing at the hour of five o'clock in the afternoon of the same day, at the following polling places and before the following Deputy Returning Officers, that is to say:—

Polling Division No. 1—At M. H. Halpin's house, George street, Angus Williams to be Deputy Returning Officer.

Polling Division No. 2—At Lewis Spry's shop, Stewart street, Joseph Lundy to be Deputy Returning Officer.

Polling Division No. 3—At the Town Council Chamber, Charles Cameron to be Deputy Returning Officer.

Polling Division No. 4—At Greene Bros.' shop, Charlotte street, Mendel Greene to be Deputy Returning Officer.

Polling Division No. 5—At J. & W. Metheral's shop, Aylmer street, Joseph Metheral to be Deputy Returning Officer.

Polling Division No. 6—At Wm. McCall's shop, McDonnel street, John Irwin to be Deputy Returning Officer.

Polling Division No. 7—At J. T. Braund's shop, George street, George W. Powell to be Deputy Returning Officer.

7. The 8th day of January, 1901, at the hour of 12 o'clock noon, and the office of the Town Clerk are hereby fixed as the time when and the place where the Clerk will sum up the number of votes given for and against the By-law.

8. The 5th day of January, 1901, at the hour of 12 o'clock noon, and the office of the Town Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places and at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in, and promoting or opposing the passing of the By-law respectively.

NOTICE.

TAKE NOTICE that the foregoing is a true copy of a proposed By-law which has been taken into consideration and which will be finally passed by the Council of the Town of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in the Morning Times newspaper, the date of which first publication is the sixty day of December, 1900, and that at the hour, day and places therein fixed for taking the votes of the electors the polls will be held.

KRUGER GREETED WITH A PSALM

Citizens of the Hague Warmly Welcome the Ex-Boer President

The Hague, Dec. 6 — Mr. Kruger arrived here to-day and was greeted at the station by the Burgomaster and councillors. A choir of six hundred men and girls chanted Psalm 72, verses 6, 7, and 11.

The former President and his suite were warmly welcomed by the Burgomaster. Then followed Mr. Spink, the president of the local South African Association, assuring Mr. Kruger of the deep sympathy of the entire Dutch nation, "who had," he said, "so greatly though vainly hoped that the great powers who had so recently assembled at the Peace Conference, would not have permitted that in South Africa the right of nations, the right of war, and civil law should be trampled under foot on a little nation in sacrificed in an unequal contest in defence of its existence."

The address, after a long eulogy of the heroism of the Boers, likened Mr. Kruger to William the Silent, who had sacrificed everything for the welfare of the people, and concluded:

"May your reliance on the Almighty similar to that of the Prince of Orange support you, Mr. President, in the arduous fight for life and liberty, and may the liberty of your nation crown your courage. Then will Great Britain have learned anew the lesson of how dangerous it is to attempt to throttle the independence of a free nation."

Mr. Kruger, his suite, and the reception committee proceeded in open carriages to the Hotel Des Indes, which was resplendent with flags and bunting. There a bevy of ladies, headed by the baroness Van Harin, greeted the Boer Statesman, and a choir sang a hymn.

Mr. Kruger then mounted the staircase, preceded by three girls strewing blossoms. On his arrival in the reception room, the Baroness presented Mr. Kruger with a bouquet.

WELCOME FROM HOLLAND.

The Hague, Dec. 6—At the opening of the second Chamber to-day, President J. G. Gleichman said,—

"President Kruger arrives here to-day. He will take up his residence here. I take the occasion to propose that the Chamber authorize me to welcome in its name the President to our country, and offer him an expression of our cordial sympathy."

The proposal was adopted amid cheers and bravos.

The Hague, Dec. 6—The first Chamber also authorizes the President to welcome Mr. Kruger, in behalf of the house as proof of its sympathy.

KRUGER STARTS FOR THE HAGUE.

Cologne, Dec. 6 — Ex-President Kruger started for The Hague on a special train at ten o'clock this morning. The police authorities adopted the most extensive precautions to prevent anti-English demonstration and to handle the crowds that gathered to bid the old Boer leader farwell. The entire route to the railway station was strongly guarded by the police, and the adjacent streets were blocked. Traffic along the route was temporarily suspended. Mr. Kruger told several deputations that called to bid him farewell yesterday that he placed all his hopes in the Czar. He will go to St. Petersburg from the Hague.

BRITISH CONVOY BURNED

500 Boers Under Delarey burn Convoy and Kill 15 Men

London, Dec. 6—The War Office has received a despatch from Lord Kitchener, dated Bloemfontein, Dec. 4, announcing that Gen. Delarey, with 500 Boers attacked a convoy proceeding from Pretoria to Rustenburg at Buffalo Poort Dec. 4, burned half the convoy and killed 15 men, including Lieut. Baker. The Boers suffered considerable loss, some of them being killed with case shot at 50 yards. Guns and assistance were sent from Rustenburg and Commando Nek, and the Boers were driven off. The advices also say that Gen. Dewet crossed the Caledon December 5 at Kareuport Drift, making for Odendal. Gen. Knox was following him, the drift being held by a detachment of the Guards and the river flooded.

FOR THE GIRL HE LOVED

Life Insurance on W T Manion, Killed in Africa, Given to a Kingston Girl

Kingston, Ont., Dec. 6 — To-day T. D. Minnes paid over to Miss Cousins the sum of $1,000, an insurance policy taken out on the life of the late W. T. Manion, of Toronto, killed at Paardeberg, South Africa. She was the fiancee of the deceased Canadian. Manion was formerly a resident here, but joined the Toronto contingent. The policy was one issued by the Ocean Accident and Guarantee Corporation. Other insurances of Mr. Manion went to his relatives.

County Council Election

The Municipal World gives the following information:—"The day for receiving nominations of candidates for the office of County Councillors throughout the Province will, this year, be Monday, December 24, (the Monday in the week preceding the week before polling day). The Act provides that notice of such nomination meeting, and of the election shall be given by the nominating officer in each county council division by advertising in two weekly papers in the county, to be published for at least two successive weeks prior to nomination day, or by giving sufficient public notice thereof by printed posters. When posters are used, the Act is not clear as to the time for which they should be posted up prior to nomination day. To do away with all possible doubt, we would suggest that the posting up be completed at least two weeks before the day fixed by the statute for receiving nominations."

The Citizens Band

The musical organization known as the Sons of England band, has severed its connection with the S.O.E. Society, and will henceforth be known as the Citizens' band. A meeting for organization purposes, election of officers, etc., has been called for this evening. The cause of the severance is said to be continued dissatisfaction on the part of a number of leading men of the lodge because of the fact that all the members of the band did not belong to the Order, and a disinclination on the part of those musicians to become such. It is said, moreover, that the band owes nothing to the lodge for its support, and will, in fact, begin life anew under similar conditions to those which it has known in former days, with the exception of having to rent rooms and pay for fuel. It is thought that the band will experience greater prosperity as a separate organization.

ENGLAND LEARNS LESSONS FROM WAR

Great and Important Army Reforms Sure to be Inaugurated--An Army of Trained Scouts.

London, Dec. 6.—When the British Parliament was in danger of losing all authority two and a half centuries ago, under the passions of Roundheads and Royalists, its Speaker thought the best prayer to offer up for those times was that those who had zeal might have wisdom, and those who had wisdom might have zeal. It is for the reformers of the British army that this prayer needs to be repeated now. Assuredly their zeal is out of all relation to their wisdom.

Every wild proposal, including the conscription of "Hooligans," is solemnly canvassed as a means of mending the military machine. The regulation critics mostly agree that with a few more millions spent on the artillery and a few more hours drill a week the thing is done. They snap out "amateur" and "mere civilian" to the skeptics who reject their nostrums.

The least hopeful thing about all the present discussion is that neither the army members of Parliament nor Mr. Brodrick, the new Minister, show any signs of appreciating the abundant demonstrations of the south African war that there is all the difference in the world between soldiering and fighting.

Expert Scout Tells of Needs.

Major Burnham, the scout who guided General French's cavalry division to Pretoria, a man of wide experience in warfare in various parts of the world whose opinion is entitled to as much respect as that of anybody who has been through the war, is now in England recuperating. He has an autograph letter from Lord Roberts, stating that no other man could have performed the service he has rendered—service requiring trainng, skill, courage, and endurance.

Major Burnham says, in an interview published to-day.

"I am convinced that the modern gun brings us back to the first principles in warfare, and puts a premium on individuality. Men who are under accurate fire at long range from a concealed enemy have to advance the best way they can, each man for himself, and spread over so much ground that no officer can keep an eye on the whole of them.

"The day when men are moved in battle like machines seems to have gone by, and instead of producing machines any more we have got to train the individual soldier. One thousand men trained to think for themselves, and to shoot straight can whip 10,000 drilled in the old-fashioned way. Many good scouts are being produced by the war with the Boers, and some excellent scouting is being done by the American army in the Philippines.

Ideal Training for Soldiers.

"It seems to me that the ideal training for the soldier in the future will be that which makes every man more or less a scout, taught to use common sense and all five of his other senses, and, above all, to become a good rifle shot, for, with all due respect to the artillery, it is the man with the rifle who counts in battle. It is surely a mistake to give a man three years' drill and only three months at the rifle butts, and then call him a soldier, when he could meet modern conditions far better with three years of the rifle and three months' drill.

"The moral effect of the bayonet is all right, no doubt, among men who would be rattled by a bayonet charge, but men who have had long experience with the rifle, and who are absolutely sure of themselves, would ask for nothing better than a bayonet charge from the enemy."

USED LOCOMOTIVE TO CHASE THIEVES

Exciting Pursuit of Criminals in the Western Part of State.

Sharon, Pa., Dec. 6.—A locomotive played an important part in the capture of two thieves to-day near Doughton.

While A. H. Wier was absent from his house, Walter Campbell and Henry Blair entered the place and stole two suits of clothes and other stuff, escaping in the direction of Doughton. Engineer Cook, of the L. S. and M. S. Railway, heard of the robbery and offered his locomotive to the officers to pursue the thieves. When on board, the engineer pulled open the throttle and they were soon spinning across the country at top notch speed. In a few minutes the thieves were observed crossing a field and, after a brief chase, were overtaken and returned to jail.

THE ELECTRIC RAILWAY.

Proposal to Run the Line to Cobourg from Havelock and Campbellford.

The Cobourg Post of last week says that Messrs. Barter and Harden, the gentlemen interested in building an electric railway from Brighton to Havelock, paid a visit to Cobourg, and met Mayor Huycke and Mr. W. J. Crossen, and to these gentlemen Mr. Barber stated that he was desirous of purchasing the charter of the C.N.&P. Ry., secure legislation to have the terminus changed from Springbrook to Havelock, and run over that line as far as possible to Cobourg. Of course nothing definite was settled upon, but Mr. Barber's scheme as unfolded to Mr. Crossen and the Mayor looked reasonable, and if constructed on the line laid down should prove a good thing for Cobourg and the country through which it would pass. Mr. Barber was anxious to see Mr. Guillet and Mr. McColl, M.P., but both of these gentlemen could not be found, and he was obliged to leave for his home without having an interview; but it is his intention to return to Cobourg in a few weeks, when the matter will be gone more fully into.

WOULD HAVE BOER COLONY.

Kenosha, Wis., Dec. 7.—Walter M. Cowell, President of a local colonization and improvement company of this city, has sent a letter to the American Transvaal association of New York, offering to provide for the use of the conquered Boers a large amount of land if they desire to settle in this country. He further offers to make a liberal contribution to any fund that may be raised to defray the expenses of the Boers from the Transvaal to this country if the offer is accepted.

The land consists of two tracts, containing an aggregate of 650,000 acres. Four hundred and eighty thousand acres of the land is situated in the southwestern part of West Virginia, in Raleigh, McDowell, Mercer, and Wyoming Counties. The other tract consists of 175,000 acres in central Arkansas, within 120 miles of Little Rock.

Mr. Cowell stated that if the offer was accepted the land would be divided into farms of forty acres, and every Boer settler would be given a deed to forty acres, without a cent to pay in any manner.

The Waubun company was organized some years ago in West Virginia, and removed its central offices to this city some years ago, when the company secured large tracts of lumber lands in this state. Many well known real estate men are identified with the association, and it is known that the company has large holdings in nearly every State in the union. The capital stock of the company is $5,000,000.

THOUSANDS OF TURKEYS

Extensive Shipments of Fowl to the English Markets.

Mr. J. W. Howson, of Campbellford, has done a large business in the shipment of fowl, which he purchased from the farmers of several townships in the district—principally Seymour, Percy, Rawdon, Cramahe and Otonabee.

Altogether he filled seven cars with six thousand birds, principally turkeys, whose weight averaged ten pounds, an aggregate of sixty thousand pounds, which at an average price of 6 1-2cents a pound, means the deposit in the hands of the farmers of $39000 in cash.

Mr. Howson's shipments were made during the seven days between the 22nd and 28th of November, as follows; three carloads from Campbellford, three from Hastings, and one from Stirling. The buyers were Messrs. Dundas & Flavelle Bros., of Lindsay, who ship direct to the old country—to Liverpool, Dublin, Glasgow and other important shipping points.

The poultry industry in this country is in its early stage and must develop in the near future to enormous proportions. Therefore, Mr. Howson advises the farmer to take a greater interest in this important branch of their farm life. He says he finds considerable difficulty and suffers loss from fowl being too small and improperly fed. Farmers should feed their fowl and raise the bronze turkey which will always find a ready market at good prices.

MANY SHOOTING AFFAIRS

W J Gentleman, a Wealthy Stockman, Shoots Four Men.

Platt Centre, Neb., Dec. 6—Only the prompt arrival of Sheriff Byrnes and four deputies summoned from Columbus, prevented lynching as the culmination of a series of shooting affrays here yesterday. The town is greatly excited. W. J. Gentleman, a wealthy stock man, who caused the trouble, held the entire village at bay and shot four men, one of whom may die. Gentleman, inspired by a grudge over a cattle suit several months ago, attacked Martin Burns, a farmer, on the street. Infuriated after the fight, Gentleman secured a shotgun and went in search of his enemies. He entered the blacksmith shop of S. Olsen and shot the owner. Marshal Hays tried to arrest him and he shot him in the back. Finally overpowered, the man was taken to jail and there drew a revolver and shot into the crowd that had gathered, and Henry Tanger and Robert Wilson were badly wounded. The sheriff and four deputies arrived from Columbus in response to urgent summons, and the prisoner was spirited away in a carriage.

GERMANY AND THE U. S. WORKING HARMONIOUSLY

The Associated Press Prints an Interview With Ambassador White.

Berlin, Dec. 6.—The morning papers here print an interview with the United States ambassador. Mr. Andrew White, regarding the relations between the United States and Germany in the China negotiations. Mr. White gave the associated press correspondent a formal repudiation of the interview, saying Germany and the United States had been working harmoniously together, and also that nothing more divides them since it has been found that the conditions formulated by the Pekin diplomats are subject to amendment to meet any decided change in Chinese affairs.

RETURNED LAST NIGHT

The Peterborough Deputation on Municipal Affairs

The deputation of Peterborough citizens, who were on a tour of inspection of other towns with a view to gathering information regarding municipal matters returned last night. These citizens are paying their own expenses, although the object is to gain knowledge that may be useful to the town as a whole.

The Galt Reformer of Wednesday says:—"Galt evidently has been selected by the Peterborough deputation as its base of supplies and operations during its tour of enquiry in this district. There are ten in the party. They arrived here on the 9.40 C.P.R. train last night, were met by Mayor Vair and Ald Ferrah, put up at the Imperial and took the morning train to-day for Berlin. They return this evening, will be dined at one of the hotels, to-morrow morning will be driven around town to see the public works, factories and foundries and in the afternoon will take possession of the Galt, Preston & Hespeler Street Railway for the nonce. The Galt council met at one o'clock this afternoon and agreed upon the foregoing programme. The Peterborough delegation is studying municipal economy and looks upon Galt as a highly desirable example. The gentlemen who compose the committee are leading citizens, and only one alderman among them: Robert Fair, John J. Lundy, W. H. Moore, W. Henderson, D. W. Dumble, H. C. Winch, T. H G Deene, W. G Morrow, T. E. Bradburn, E. H. D. Hall.

Warren to Succeed Seymour

London, Dec. 6—It is again stated in military circles that Gen. Sir Charles Warren, of Spion Kop fame, succeeds Lord Seymour in command at Halifax.

Men Why are Bald

Did you ever think of replacing the lost hair by artificial means? Prof. Dorenwend can do it for you so that your most intimate friends would not know it. He will be at the Oriental Hotel, Peterborough, on Saturday, December 8, where he invites you to call and witness a practical demonstration of the fact. See his Wigs and Toupees.

Operated on the Pope

Rome. Dec. 6.—The Messagero asserts that the health of the Pope has not been altogether satisfactory for some time past, and that he has occasionally suffered in the part whereupon he was operated in 1898. This caused his physicians to perform a slight operation yesterday, which removed the pain.

The Pope has merely been recommended to rest for a few days, according to the paper mentioned.

On the other hand, a semi-official statement says the Pope's health is perfect, and that he continues his numerous receptions without fatigue.

Scotch Bashfulness

Those modest gentlemen who talk at St. Andrew's dinners are led by extreme diffidence, to overlook one tangible claim, viz., that Adam was a Scotchman. Eve found it impossible to make fig leave trousers, for her liege lord, without having them bag at the knees, so she hit on the waist arrangement—the daddy of the kilt. In like manner Eve let some haggis fall one day and it solidified into such a hard surface that McAdamized streets have since been regarded as the real thing in roads. Scotch bashfulness prevents reference to these things, but this great family journal is not troubled in that way and it feels that it must speak out.

The Electric Companies

The Montreal correspondent of the Toronto World says: Mr. Rodolph Forget, president of the Royal Electric Co., made the following statement tonight: "We have been in negotiation with the Canadian General Electric Company of Toronto, and those negotiations are far advanced for the sale to that company of the manufacturing interests of the Royal Electric, including all the real estate, machinery, etc., and I believe it will soon be closed."

The Canadian General Electric Co have been represented by Mr. F. Nicholls, vice-President and manager, and Mr. J. Kerr, solicitor.

It is said that the works of the Royal will be removed to Peterborough, which will mean the addition to the works here of about 500 employees.

A Progressive Firm

A store that is brimful of interest to clothing buyers, as well as brimful of elegant new clothing, is H. LeBrun & Co., of Montreal, the makers of the attraction is in the astonishing low prices and the abundance of reliable wearing apparel. The firm recently placed an order with *Messrs.* H. Shorey & Co., of Montreal, the markers of the highest grade of clothing in Canada, which *amounted* to about $4,000. Messrs. Ald. Shorey and Ross, the representatives of Shorey & Co., were *making their semi-annual visit* to H. LeBrun & Co., for the purpose of clearing out their winter stock before starting to manufacture for the spring. Shorey's clothing has always appealed to men and young men of good taste, and when it is known that Messrs. LeBrun & Co's purchase was made at prices actually less than the cost of manufacture, the public can expect honest bargains, bordering on the remarkable. This great clothing surprise for Peterborough consists of the finest of overcoats, ulsters, reefers and suits for men, young men and boys, and are as good as money can buy. The prices will actually amaze you and the clothing delight you. You can depend on every garment, and you can't match the prices. With Christmas on the wing, chances like this will compel you to look up H. LeBrun & Co., sure. Cash discounts in trading stamps, etc., as well.

QUEEN'S SPEECH

Brief and to the Point—Only the Two Wars to be Dealt With by Parliament

London, Dec. 6—The Queen's speech at the opening of Parliament to-day was as follows.

"My Lords, and Gentlemen—It has become necessary to make further provision for the expenses incurred by the operations of my armies in South Africa and China. I have summoned you to hold a special session in order that you may give your sanction to the enactments required for this purpose. You will not enter into other public matters requiring your attention until the ordinary meeting of Parliament in the spring."

CABINET MINISTERS URGE CECIL RHODES

They Want Peace in Africa, and He is Only Man Equal to Crisis.

Durban, Dec. 6.—Lord Roberts, on board the Canada, has started for Cape Town. He was given an enthusiastic send off. All of the ships in the harbor were decorated with flags.

Prior to his departure Lord Roberts made a speech during the course of which he adjured his hearers to hold out the hand of fellowship to those who had been their enemies.

"When blessed peace is restored,' said the Field Marshal, "you will tell them that we are all one in one country that we have one interest and that we honor them. They have been *fighting* for a wrong cause, having been induced to do so by their misguided leaders. Nevertheless, we honor them for fighting for the liberty we ourselves so thoroughly believe in. And now, in the spirit of liberty, truth, justice and freedom, we are prepared to extend these privileges which every Englishmen values to those who have been fighting against us."

ROBERTS AT DURBAN.

Durban, Dec. 5.—Lord Roberts, who has arrived here, was accorded a tumultuous reception. Members of the Irish Association dragged his carriage to the Town hall. The streets were profusely decorated and crowded to suffocation. Numerous addresses were presented to the field marshal.

ROBERTS AT PIETERMARITZBURG.

Cape Town, Dec. 5.—Gen Lord Roberts arrived at Pietermaritzburg, the capital of Natal, to-day, and was given a most enthusiastic reception by the residents and the troops there. He was presented with an address of welcome by the authorities, and in the course of his reply he highly praised the part Natal had played in the war, and declared that the colony would not loose its reward.

AFRIKANDERS INCENSED.

Worcester, Cape Colony, Dec. 6.—The attendance at the Afrikander Congress to-day is very large. The hotels are filled to their capacity. The Afrikanders ridicule the idea of trouble. They say they can air their grievances without resorting to violence. They are greatly incensed at the posting of guns in positions commanding the meeting place. The slopes surrounding the town are crowded with artillery and troops with cannon have been posted on Gallows Hill and Prospect Hill.

MINISTERS URGE RHODES.

London, Dec. 6.—Strong pressure is being brought to bear on Cecil Rhodes to induce him to hasten his plan for the pacification and federation of South Africa. Foremost among those who are applying this pressure are some of her Majesty's Ministers.

CONSUL ASSISTED BOERS.

Lisbon, Dec. 6.—The Government has withdrawn the exequatur of Mr. Potts as Dutch Consul at Lorenzo Marques, as it recently did his Transvaal exequatur, on the ground that he used his Dutch official position to assist the Boers, thus exposing Portugal to a rupture with Great Britain.

KELLY-KENNY'S RETURN.

Cape Town, Dec. 6.— Gens. Kelly-Kenny and Ian Hamilton will accompany Lord Roberts to England. The loyalists are making elaborate preparations to welcome Lord Roberts when he arrives here.

MILLIONAIRE ASKS FOR HIGHER TAXES

Robert M. Bruce, of Greenwich, Says He has not Been Paying Enough Would start a Reform.

Greenwick, Conn., Dec. 6.—Roberts M. Bruce, one of the millionaires of Greenwick, a former cotton broker and a friend of E. C. Benedict, has caused a sensation by appearing before the Board of Assessors of the town and asking them to have his assessments raised fifty per cent. He said that he had never paid attention to the making out of his list of taxable property, leaving it with the assessors and letting them add the ten per cent, *provided* by law.

He had looked the matter up recently and concluded that he was not *paying* all that he should into the town treasury and so asked for the raise. The assessors *promised to comply*, and it is understood that they will raise the taxes of all the other millionaires *here in the same proportion*. Mr. Bruce's example is the subject of much comment and it is expected will be followed.

Economists have looked up the matter, and found that there appears to be one law for the poor men and another for the rich one. The law states that each property owner must put in a true list of the real value of all property, real and personal, but the general rule among the middle class has been to pay sixty per cent. of the value. The millionaires, in some instances, have not paid ten per cent. A change is to be made at once.

HE KILLED HIS DAUGHTER

Mob Pursued the Father and Took Him From a Train.

Chicago, Dec. 6—A special to the Chronicle from Catlettsburg, Ky., says,—

Wm. Gobson, the man who has been long sought for torturing and killing his daughter, was captured yesterday at Irin Hill. Carter County, and was brought after dark to the house of Sheriff Davis. County Judge Everett made an order removing the prisoner for safe-keeping to Maysville. Deputy Sheriff Glager and Jailor Hurd left the city for Russell, Ky., to take the train to Maysville.

Further along the line the train was boarded and the coaches searched, but no sign of the prisoner was found. At various points crowds are collected waiting for the news of the capture of the prisoner by a mob, and it is certain that if he should be taken he would be burned alive. It is thought the officers, having heard of the stationing of the mobs at the depots, have taken the prisoner off the train at some small village, and [illegible].

Royal Baking Powder

Imparts Healthfulness to the Food

Royal Baking Powder possesses peculiar qualities not found in other leavening agents, which arise from the superior fitness, purity and healthfulness of its ingredients.

Royal Baking Powder leavens the food perfectly by its own inherent power without changing or impairing any of the elements of the flour.

Thus the hot-breads, hot-rolls and muffins, and the delicious hot griddle-cakes raised by the Royal Baking Powder are wholesome and digestible, and may be eaten without distress, even by persons of delicate digestion.

Alum baking powders are low priced, as alum costs but two cents a pound; but alum is a corrosive poison and it renders the baking powder dangerous to use in food.

CANADIANS IN ENGLAND

The returned Canadians certainly cannot complain of their reception in England. Nothing, apparently, has been too good for them; and from the Sovereign to her most humble subject, all have united to do them honor. From the time of their landing at Southampton, their stay has been a triumphal progress. They have been received by the Queen and the Prince of Wales, entertained at Windsor, and received at the Guild Hall. They have attended service at Westminster Abbey, and listened to a sermon appropriate to the occasion. They have seen the sights of London, and numberless places of amusement in the World's Metropolis have been thrown open to them. In addition to all this, private citizens have vied with one another in extending them hospitality. The scene which more than all others impressed them, was, no doubt the review by their aged Empress-Queen and the despatch of a day or so ago puts it:

"Sitting in her carriage, the Queen watched intently the men as they marched by within a few feet of her, and she commenced her speech in brave tones. It was only a few words. But before it was finished, tears rolled down Her Majesty's face, and her voice broke, and at the end it was almost a sob. It is not astonishing, therefore, that when Col. Otter replied, it was in trembling tones, and not one of the men whom he led into nearly fifty engagements felt ashamed of the grizzled Colonel, because his cheek was wet with tears."

It was, as the Canadians were heard to say, worth far more than all their hardships and dangers, to be thus received, and to know that Britain appreciated so sincerely their efforts in the Empire's cause. The War, terrible as it has been, has not been without its measure of good. More than anything else, it has bound the Empire together, and taught the men from Greater Britain that the heart of the old Mother Land beats with them still.

THE HON. THOS. GREENWAY.

The retirement of the Hon. Thomas Greenway from public life is semi-officially announced. He has had a varied and checkered career. When he first ran for parliament in the seventies he was nominally a Tory, but upon reaching Ottawa allied himself with the Mackenzie government, and was promptly charged with having made a deal with the Grits to support them is returned. By this means he secured the votes of both sides. This was Mr. Greenway's unauspicious start in public life. Soon after, meeting with disaster in business, he moved to Manitoba and went farming. Elected to the local legislature, he became the leader of the Liberal opposition upon Mr. Killam's elevation to the bench. Mr. Norquay, the half-blood premier, truckled too much to the Conservative government at Ottawa and lost the confidence of the people of Manitoba in 1888. The success of the Liberal party was due to the folly and internal troubles of the Conservative party and not to any special confidence felt by the country in the Greenway party. The first act of the new government was to enter into a corrupt compact with the N.P. railway for funds in exchange for valuable concessions. This would have beaten the government at the next appeal to the people, but for the Manitoba school bill, which was sprung upon the country by the attorney-general, Joe Martin. This served for compaign purposes during two elections. When it was settled by Sir Wilfrid Laurier's sunny ways, and the Conservative party became re-united under the son of its great Chieftan, Hugh John Macdonald, the Greenway government went down with a dull, sickening thud.

Mr. Greenway in opposition was a valuable man and a keen critic of the annual budgets, but in power he had not the moral backbone to resist the evil influences and temptations which beset him. His record is not one to be proud of, nor one to which Canadians can point with pride as they can to the career of Ontario's grand old man, Sir Oliver Mowat.

Mr. Greenway was a fighter, this his worst enemy must admit. When beaten in December, 1899, he refused the offer of a senatorship made him by the Laurier party, preferring to stay by an apparently hopeless cause. The bye-elections since the last general election, and the result of the vote in Lisgar at the Dominion election, where he threw his weight against R. L. Richardson and lost, seem to have at last convinced him of the fact, that as a leader, his days are numbered. His career, but makes plain the fact that while tricks and corruption may secure a momentary success there is no enduring triumph, which is not based on the eternal and changeless laws of honor and rectitude. His retirement is made necessary for the good of the Liberal party.

LOCAL NEWS LETTERS.

GORE'S LANDING.

Mrs. W. S. Bonbright has been in Cobourg for some days.

Rev. Dr. Eagan of Baltimore, conducted the services at the Methodist church last Sunday evening.

Much sympathy is felt for the family of Mr. Richard Clapperton, of Harwood, who on Wednesday last succumbed to an attack of typhoid fever. During his three years as driver of the daily stage, Mr. Clapperton won the kindly feelings of all on the road by cheerful disposition and obliging manner. Added to this, he was a well-known figure at local entertainments, his amusing rendering of comic songs making him a great favorite. Mr. Clapperton leaves a wife and nine children.

Last Friday the death occurred of Mrs. John Mamicom at the age of 74 years. Mrs. Mamicom suffered from inflamation of the lungs, which added to a generel debility and weakness of the heart, caused her demise. Her presence will be greatly missed in the village, where she has resided for over fifty years.

The annual missionary service of St. George's Church was held on Sunday last when Mr. Lawrence Baldwin of Toronto, gave an address on behalf of the Diocesan Mission Fund. Mr. Baldwin delivered similar addresses at Harwood in the morning, and at Cobourg in the evening.

He's "All Right" Now

And a living proof of what Dr. Pierce's Golden Medical Discovery will do for weak lungs. It makes new blood, and blood is life to the lungs, as well as to every other organ.

"Golden Medical Discovery" contains neither alcohol nor narcotics. It is not a stimulant but a strengthening medicine.

"After using about five bottles of Dr. Pierce's Golden Medical Discovery my boy seems to be all right," writes Mr. J. W. Price, of Ozark, Monroe Co., Ohio. "He was very bad when I commenced to give him the 'Golden Medical Discovery.' The doctor claimed he had consumption, and we doctored with him until he was past walking. It has been ten months since he stopped taking your medicine and he is still in good health. We are very thankful to you for saving our son."

Children appreciate Dr. Pierce's Pleasant Pellets. They're easy to take and do not gripe.

Read the following letter received by the Principal of the

CANADA BUSINESS COLLEGE
Chatham, Ont.

and learn how highly the graduates of this school are thought of by the business public.

"Oct. 16, 1900.

Gentlemen,—We have openings now for two or three good male stenographers who had had experiance, and it occurred to us that a large number of stenographers and other office men, who have graduated from your school from time to time and are now holding positions, might desire to better themselves. If you can put us in communication with some of your old graduates, who have had two or three years' experience, we should be under obligation to you."

We might mention that the concern represented in the above letter has a Capital Stock of Five Million Dollars.

When you read such evidence as the above, need you be surprised that during the period of thirteen and a half months ending in October, 348 positions were filled by our pupils.

It pays to attend CANADA'S GREATEST SCHOOL OF BUSINESS OR SHORTHAND, if you wish to thoroughly qualify yourself for office work and be assisted to a position when graduated.

Dear Sirs,—In accordance with your wishes I have had both the red and white wines and the champagne tested by several connoisseurs, French and English. All of these expressed surprise that an article of such merit was produced in Canada, and even manufacturers admit that the brand "L'Empereur" is of excellent quality.

This opinion from critics who are by no means easy to please should be very satisfactory to you, and it gives me pleasure to congratulate you upon it. Yours faithfully,

Varicocele and Stricture.

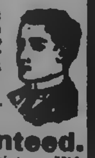
VARICOCELE:—If you are tired of being experimented upon, you will find our Latest Method Treatment is a guaranteed cure for varicocele without use of knife or loss of time, it absorbs the wormy condition, restores the parts, thereby bringing back lost power; if you take our treatment, you pay when cured.

STRICTURE:—Thousands of you have stricture and do not know it: if you have been indiscreet, or improperly treated, or notice a smarting sensation, unnatural discharge, weak organs, or back, nervous debility, or if you are not the man you should be, it may be the cause of stricture. If you are in doubt, call and see us, as we will examine you free of charge; our Latest Method Treatment absorbs the stricture, thereby making cutting or stretching unnecessary, and you pay when cured.

Kidneys and Bladder.

Don't neglect these important organs, as you will regret it: Have you a dull feeling or pain in the back, frequent desire to urinate, deposits in urine? Our Latest Method Treatment is a guaranteed cure for such conditions.

The original sworn affidavits or testimonials can be seen at our offices, $500.00 reward for any we cannot show: at request of patients we publish only the initials.



Your Latest Method Treatment acted the way you said it would; my strictures are cured, and the varicocele entirely disappeared, and I feel stronger than ever; my bladder and kidneys do not trouble me any, I can stoop all day, do a hard day's work without my kidneys troubling me as before I took your Latest Method Treatment: it has cured me after others have failed; if I had consulted you sooner, I would have saved a great deal of money which I wasted on other doctors: I am your grateful patient, F. L.

Boer-British WAR PICTURES!

The end of the war is now in sight. Everybody will now want pictures illustrating the various battles fought in South Africa. We have at great expense published nine large and beautiful pictures, on heavy, superfine calendered paper.

Battle of Belmont, Charging the Boer Guns at Elandslaagte, Attack of Royal Canadians at Paardeberg, Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These pictures are 16x24 in. Sample and terms 5 cts each; all four for 20 cts; $1.45 per doz.; $6 per 50; $11 per 100.

Battle of Tugela River, Battle of Spion Kop, Gordon Highlanders at Battle of Belmont, Battle of Magersfontein, Surrender of Gen. Cronje at Paardeberg. These pictures are 22x28 in. Sample and terms 10 cts each; all five for $1 40; $3 per dozen, $12 per 50, $24 per 100. Very handsome; printed in 8 to 14 colors.

AGENTS coin money. Big profit. Enormous success. The pictures are RED HOT SELLERS. Veritable mortgage raisers. One agent sold 68 in one day. We will send a complete outfit consisting of all the nine different pictures for only $2. This sum you may deduct when you have ordered for $20 worth. Absolutely no pictures sent free. Don't waste time and postage in writing for lower prices. We pay all charges. We take back all unsold pictures and refund your money. Cut this out and send to-day and begin to make money. Address, HOME NOVELTY MFG. CO. (Dept. 29 A) P. O. Box 518, Chicago.

FOOLED THE SOLDIER BOY.

Not Used to Feminine Ways That Are Dark and Tricky.

One of the soldier boys swung along in the parade with a heart far heavier than his gun, and as he passed a balcony on the avenue and saw a pretty girl and a repulsively well-dressed man there, he scowled fiercely. Last fall it was far otherwise. He smiled whenever he saw the girl, and the repulsively well-dressed man hadn't dawned yet. Last spring the soldier sacrificed two buttons from his blouse and had them made into hatpins for that girl. Two weeks ago he sat near her at the theatre, and when she removed her hat he saw that it had been pinned on with a turquoise fleur de lis and an enameled violet. The military buttons were not there. The girl had promised to wear them forever and ever.

The soldier boy went home and wrote her the witheringest note you can imagine. He told her that as she no longer cared for him she could no longer value the button hatpins, and that he'd like them back again. Of course, he put in a number of other remarks, some of them general, referring to the sex, and others specific and referring to her and to her conduct. She's a nice girl and an amiable girl, but that note was too much for her to endure. She sent a man servant with her answer:

"My Dear Mr. Skaggs: I would be very glad to return the hatpins you ask for, but I cannot tell which ones they are. They are all so alike that I am not at all sure which ones you gave me, but I send you what I have, and you can pick out yours. Very sincerely. FRANCES."

And that's why the soldier boy scowled. Being a mere man, he didn't even dream that six of the hatpins were borrowed.—Washington Post.

AN EXPIRIMENT IN LOVE.

It Cost the Bachelor a Wedding Present, but He Was Satisfied.

Tremoirs lifted his chin from his chest and his eyes from the toe of his shoe and sighed dolefully.

"I don't believe she'll have me," he said for the some dozenth time.

I smoked on.

"Why should she?" he asked, argumentatively.

"Why?" I asked, reflectively.

Tremoirs glanced at me. "What can she see in me?" he demanded.

"True," I replied; "what?"

Tremoirs regarded me doubtfully. "It's crass presumption in me to dare to love her," he asserted.

I nodded an enthusiastic assent.

Tremoirs glared at me for a full minute. "She is so lovely and pure and—and beautiful, that for a rough, crabbed, worldly fellow like me to marry her seems like an insult," he said.

"It is," I agreed.

"Confound you!" cried Tremoirs, hotly. "I'm as good as you are."

"Undoubtedly," I observed, in as sarcastic a tone as I could manage.

"And I'll propose to her this very night, if you do think I'm too big a scoundrel to" Tremoirs announced, bitterly, as he hastily departed.

Well, I suppose I'm out a wedding present, but I've proved my theory, which is that the self-abnegation lovers indulge in is simply unconscious hypocrisy.—Puck.

Renewed the Grudge.

Even an old sore will give its owner a twinge if it is roughly handled, says the Youth's Companion. Two elderly men met at a reception one evening, and after they had been introduced to each other, one of them said:

"I beg pardon, Mr. Yarty, but are you related to the family of that name who lived in Plattston about fifty years ago?"

"I am a member of the identical family," replied the other. "I resided there myself fifty years ago."

"Then you are Columbus Yarty?"

"Yes."

"I am delighted to meet you again. Do you remember Wesley Weston, with whom you played when a little boy?"

"Surely! Are you he?"

"I am."

They shook hands again, and after a little pause Mr. Weston said:

"You remember we had a quarrel about something or other the last time we met, and you pushed me over into a tan-vat and ruined a suit of clothes for me?"

"Yes, I remember it very well. Ha! ha!"

"Ha! ha! We can afford to laugh at it now, but it was a serious matter to me then. I have thought of it many times since and made up my mind long ago that if we ever met again I would tell you freely and fully forgive you for the mean little trick."

"But as I remember it, you were entirely to blame in the matter."

"Not at all. I hadn't done anything to you. However, as I said before, I don't hold any spite over it now. I forgive you——"

"But I don't want your forgiveness, sir! I won't have it! I told you——"

"Sir!"

"Sir! Good evening, sir!"

"Good evening!"

And the grudge of fifty years ago resumed business, so to speak, at the old stand.

A WONDERFUL

KIDNEY and Bladder CURE

I. A. HOPKINS.

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

BRIGHT'S DISEASE, GRAVEL, DROPSY, And Rheumatism Mastered at Last.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind that I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 56 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours,
I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 408 Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 2, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

PRICES AND TERMS

PRESENT PRICES—We are now selling our fully paid and non-assessable TREASURY SHARES at 5 cents per share, in blocks of 100 shares and more; 100 shares, $5; 1,000 shares, $50; 5,000 shares, $250; or 10,000 shares or more at the same rate. Send your order right NOW, before the next advance, as you will soon pay a higher price. Investors are rapidly investing with us.

The company fully prepays all government revenue, postage, etc. Send also for our handsomely illustrated prospectus, which contains much valuable information. It is free for the asking.

All communications of every nature concerning this company should be plainly addressed to

The Colorado Copper Mining Company,
Mining Exchange Building, Denver, Colorado.

THE WONDERLY GOLD MINING COMPANY, Limited

CAPITAL $1,000,000, Divided into Shares of $1.00 each.

Incorporated under Ontario Laws. Non-assessable.

This Company was formed for the purpose of purchasing and working seven gold claims on the Saskatchewan river, near Edmonton.

These claims have been worked some, and in the summer of 1900 D. F. Loveland, the former owner and president of the Company, had a dredge at work, and although only able to handle 200 yards of earth per day, there was from $30.00 to $50.00 of gold taken from that amount of earth daily, and thus demonstrating beyond doubt the great value of these claims.

The Company proposes to purchase one of the Risdon dredges, with a capacity of 2.500 cubic yds. a day.

The expense of running such dredge will be about $175.00 per week, and even if the dredge handles only 1.000 cubic yards a day, in six days, there will be taken out $1,500.00 worth of gold, with a profit of $1,325.00 in one week.

Sufficient stock will be sold at 25 cents per share to raise money to purchase the necessary dredge, after which the books will be closed and no more stock will be offered for sale.

There is no gold proposition on the market to-day equal to this one.

Application for stock can be made to any of the Directors, or to the Secretary, or to W. T. McNeil, broker, St. Catharines.

OFFICERS:

PRESIDENT—D. F. Loveland, capitalist, Galena, Illinois.
VICE-PRESIDENT—Arthur P. Forster, mechanical engineer, Welland.
TREASURER—Dr. T. G. Wonderly, Galena, Illinois.
SECRETARY—L. Clarke Raymond, barrister, Welland, Ont.
BANKERS—The Imperial Bank of Canada, Welland, Ont.

THE DIRECTORS are: The President, Vice-President, Treasurer, S. H. Glasgow, physician, Welland, and W. T. McNeil broker, St. Catharines, Ontario.

Subscriptions payable 25 per cent, on application, 25 per cent, on allotment and 50 per cent. in two months.

Brokers desiring to handle stock in this company will please communicate with W. T. McNeil, official broker, St. Catharines, Ont.

SOLICITORS—MESSRS. RAYMOND & CONOR, WELLAND, ONTARIO.

Prospectus free on application.

HEAD OFFICE, - WELLAND, ONTARIO.

A GOOD THING. PUSH IT ALONG.

IS WHAT WE SAY OF THE DEVELOPMENT OF THE PROPERTIES OF THE

IRON MOUNTAIN GOLD MINING CO.

They have three full claims in Republic, Wash., with $2500 worth of work done.

General Office, 327 Rookery Building, Spokane Washington.

THE PRESIDENT is Gen. A. P. Curry, formerly Municipal Judge of the City of Spokane and Brig.-Gen. of the Nat. Guard of Washington.

VICE PRESIDENT—Mr. Geo. A. Barnes, a pioneer of this city, and engaged in mines and mining

TREASURER—Mr. W. D. Vincent cashier of the Old Nat. Bank, and who has held this position for the last ten years.

SECT'Y & ATTR'Y—Mr. Willis H. Merriam, a prominent attorney of Spokane, and nephew of General Merriam of the U. S. Army.

All of whom bear the highest reputation as being honest and conservative business men.

Mr. McLaughlin, of the "WINNIPEG," congratulates us on the fine showing in our shaft. He says:—"You have four feet of the finest quartz I have seen in the camp."

A British syndicate are working five men on an extension of our property on the east called the "Sylvanite," and have agreed to sink 100 feet.

Our stock is non-assessable, and we are offering a limited amount at 2½ per share. No certificate issued for less than 100 shares. $5.00 will buy that amount.

For prospectus, maps and other information address the Secretary,

327 Rookery Building, SPOKANE, WASH.

Morning Times

PETERBOROUGH, DECEMBER 7 1900

TOWN AND COUNTY NEWS

A Turkey Shoot.

Yesterday a "turkey shoot" took place at Chemong Park, which was attended by a number of local sports.

A Hint.

Don't forget there are school trustees to elect as well as "worthy" aldermen. Too little attention is given to this important part of our civic economy, with the result that if anything the average school trustee is not fitted for the position, which is one calling for special academic as well as business qualifications. And it is very desirable that there should be women on the board.

A White Goods Man.

The bonus hunter is after Lindsay. A Mr. Sawyer, of Detroit, wishes to start a white goods factory there and has written to the council that he would put in $10,000 capital and employ at first 50 to 75 hands and later 150 to 250 at wages from $5 to $9 a week. He asks exemption from taxes, a cash bonus and a sale of company stock to local men of say $7,000. After discussing the matter the council decided to offer him exemption from taxes for 10 years. Evidently Lindsay does not care for that kind of manufacturer.

The Morgan House.

Mr. R. J. Munroe, the new proprietor of the Morgan House, has got nicely settled in his new home. His many friends throughout the country will henceforth make the Morgan House their headquarters. Mr. Munroe has the reputation of being one of the best hotel men in the country. His long and successful management of the Queen's Hotel, Lakefield is ample evidence of this. The Morgan House, which has always been well managed, will be better than ever, and will flourish as it never flourished before. No one who once partakes of Bob Munroe's hospitality will fail to become a steady patron.

Overrun With Boys.

Mr. R. H. Jackson, the genial proprietor of the Crown Hotel, wanted a boy a few days ago, and inserted a little ad. in the want column of this great family journal. After it had run a couple of days, Mr. Jackson rang us up and said: "Stop my ad. at once; am overrun with boys." We do not like to refer to personal matters; but feel that it is due to remark that this g.f.j. is a first-class advertising medium. We think we mentioned on a previous occasion that everybody reads the Times, a fact which is amply demonstrated to those who use its advertising columns.

South African Medals.

The Royal Mint has been busily engaged for some weeks in preparing South African medals. At least 250,000 medals will be struck, and already some have been delivered to the military authorities. The medal will be exactly the same as has been awarded for other campaigns, except that the design will differ. There will be no gold center with the Queen's head on, but merely the ordinary silver medal. The ribbon, however, will be distinctive by the khaki stripe in the middle of the red, white and blue, and a large number of bars will be distributed. A number of these medals will, of course come to Peterborough, for the South African soldiers here.

FOR AULD LANG SYNE.

Ladies of Canada:

"Should old acquaintance be forgot?" The answer comes mechanically from every Britisher. Nor should new acquaintance be forgot. Remember that on the bloody fields of South Africa your brave soldier boys were on the firing line, flanked by loyal British subjects from Ceylon and India. In the midst of danger, lasting friendships were formed, and you ladies of Canada, have it in your power to cement these bonds. The Green teas of Ceylon and India appeal to you from sentiment. By using them you not only aid your brother colonists, but you get absolutely the best tea. Those of you who drink Green Japan teas have a revelation in store if you make the change. Blue Ribbon, Salada and Monsoon packets may be had from your grocer.—Colonist.

JOTTINGS ABOUT TOWN

—How doth the crafty little child
  Write letters now because
He knows that pa will swallow them,
  And pa is Santa Claus.

—Everybody reads the Times.

—The statutory meeting of the Council takes place on December 13th.

—The Curlers' social at the rink last night was a success.

—The rate of taxation next year will likely be the highest ever imposed in Peterborough.

Scrofula in the blood shows itself sooner or later in swellings, sores, eruptions. But Hood's Sarsaparilla completely cures it.

—It has been learned that in twenty-five townships in Ontario a vote will be taken on the 1st of January, to abolish statute labor. This comes as a result of the year's agitating throughout the Province in favor of good roads.

- Mr. Walter English, the genial Market Clerk, lost a bunch of keys the other day that he would like to recover. The finder will confer a favor on him by leaving them at the market clerk's office or the Times Bookstore.

—Dr. Adam Wright, of Campbellford, has been at the point of death for many days with blood poisoning from the effects of a slight injury to his finger while operating. His friends will be glad to learn that he is now recovering.

—People's Popular Course.—Plan at Sallsbury's at 9 o'clock Friday morning for season Ticket Holders.

—The Ontario Legislature should at the ensuing season, legislate in the direction of limiting the cost of litigation. The business to be done at the courts should be known some time before the session, so that, when unnecessary, the large number of jurymen should not be summoned. In other ways, also, the cost of litigation should be curtailed.

—It is approaching the time known among men as "the holiday season" when a large percentage of people make slaves of themselves trying to do something they never do at any other time of the year. A holiday season truly it is for school children and teachers; but for business people and others it is a misnomer.

—Does farming pay is a question often asked. Well, we should say so with the persevering, industrious, stay-at home man. One farmer in Seymour last year drew $1,000 from the cheese factory alone, and this year his income from the same source will exceed that amount. Another farmer has just drawn more than $700, and quite a number could be named who will be paid cheques for $500 and $600. Dairying certainly pays—and pays handsomely.

Miss Richardson, Canada's greatest Cellist, will appear at the Malpany Testimonial Concert at Bradburn's Opera House, Friday, December 14th.

Mr. T. Conley, of Madoc, is suing Dr. David Archer, of Port Perry, for $10,000 damages for alienating the affections of the former's wife, Minnie Conley. Dr. Archer's counsel applied to the master-in chambers at Toronto, for an order directing the plaintiff to furnish further particulars of his claim. The master, Mr. Winchester, granted the order, but reserved judgement as to the time within which the particulars are to be delivered. The parties are well known in Peterborough.

There is a movement on foot in Oshawa to have the hours of school shortened half an hour in the morning and the same length of time in the afternoon. This is not really needed as the hours are not too long, and it is certain that the holidays are not too few. But what is needed is a change in the amount of lessons given to the children, which crowd upon them to such an extent that to do justice to their studies they have no time left for anything else. There is too much home work assigned them, and too many subjects. Home work to a large extent should be abolished, and only one half the subjects assigned in the same length of time now allowed for their preparation. Is it any wonder that children complain of failing eyesight and headache when they are required to study five or six subjects in one evening, and go to school to recite them the next day? The school is the place for study, and teachers should be reminded in this age that their duty is to teach the children. There is need of a great reformation in the school system of to-day.

Miss Alexandrina Ramsay, the great elocutionist, will appear at the Malpany Testimonial Concert at Bradburn's Opera House, Friday, December 14th.

Little Braves.—Old time a quarter-a-box "Purgers" are quitting the field in whole battalions. Dr. Agnew's Little Pills at 10 cents a vial are driving them out at all points. Because they act gently, more effectively, never pain, and are easy to take. Sick Headache succumbs to one dose.—69 Sold by Ormond & Walsh.

SOCIAL AND PERSONAL

—Mr. Geo. Dixon, of Winnipeg, is in town for a few days.

—Mr. R. Gough, of Toronto, is in town for a short time.

—Miss Alice Traynor, of Lindsay, is visiting in town, the guest of Mrs. Jas. Fredenburg, Murray street, west.

—Mr. and Mrs. Jack Hall have taken a house on Sherbourne street, Toronto. They intend spending the Christmas holidays at Mrs. Hall's mother's, in Chicago

Last Lecture

The last of the series of Home Economic Lectures was given in the lecture room of the George street church last night, by Mrs. Richards, upon "The Hygiene of Domestic Life." There was a fair attendance, and the lecture was very interesting and instructive.

Endorse Industrial Growth

On Wednesday evening, after service, the following resolution was passed at the Church of Christ, Scientists, Aylmer street.—

Resolved,—That the members of Church of Christ, Scientist, Aylmer street, desire to express our approval and appreciation of the efforts on the part of our leaders in our city and others, including Honorable Senator George A. Cox, in the matter of securing for Peterborough the Cereal Manufacturing Co. The action is laudable and worthy of praise. Further, that all movements having for their object the betterment of the city and its inhabitants have our hearty support.

A TEMPERANCE MAYOR.

Editor Morning Times

Sir,—I understand that a certain lady connected with the W.C.T.U., at a meeting of that society, held recently, suggested that the women take an active part in the municipal campaign now on. The lady referred to went on to remark that an effort was likely to be made to bring the Chief on the carpet for his action in prosecuting hotel keepers for violation of the law.

Presuming that the Mayoralty candidates will be Messrs. McWilliams, Denne and Dawson, it might be interesting to know who the party is that this blow is aimed at. Mr. McWilliams it cannot be, for he is a temperance man all the way through, and believes, I understand, in rigidly enforcing the law in respect to Sunday selling, and selling during prohibited hours. Mr. Dawson is also a strong advocate of enforcing the liquor laws. If it is a slap at Mr. Denne, then, all I have to say is, that he is also prepared, if elected, to use his influence to have the laws enforced. Mr. Denne is a man who, on every possible occasion, during his eight years in the Council, voted to have the police do their duty in respect to hotels, and I think the action, or proposed action, of the ladies of the W.C.T.U., exceedingly ill-advised.

LOCAL NEWS LETTERS.

OTONABEE.

The school concert held at Coldsprings, Otonabee, on Friday, Nov. 30th, was a decided success. The school room was full to overflowing and the receipts, which are to be used in buying prizes, etc., for the pupils, were over twelve dollars. The children acquitted themselves especially well and did credit to their training. The flag drill given by eight pretty little girls was very graceful indeed. The leading feature of the evening, however, was the songs of Mr. Swain of Havelock. The applause with which the audience received him on each reappearance testified to their appreciation. As a personator in humorous selections Mr. Swain is almost perfect. Miss Kindred and Miss A. Duff were accompanists for the evening.

The following was the programme:—

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 68 in one day. Sample and terms 25 cts (none free); four for 80 cts; $1.75 per dozen; 25 for $3.25; 50 for $6.00; 100 for $11.00. Write to day for a dozen and make money. SWITZERLAND MAY HELP THE FALLEN REPUBLICS

Paris Paper Asserts the Swiss Federal Council Will Mediate for the Boers.

Paris, Dec. 7—The Aurore states under reserve that Swiss Federal Council is disposed to offer to mediate between Great Britain and the South African Republic.

AT COLOGNE CATHEDRAL.

Cologne, Dec. 7—Mr. Kruger walked today in the rain from his hotel to the cathedral. He was cheered enthusiastically by an assemblage of people who had long waited to see him. Mr. Kruger repeatedly raised his hat in acknowledgment of the cheering. He departs at 10 a. m. to-morrow on a special train connecting with the Dutch express at Zevonaar.

LORD SALISBURY'S SPEECH.

London, Dec. 7—The speech of Lord Salisbury stating that not a vestige of autonomy would be accorded the fallen republics, has had a good effect. It will put a stop to any further "dickering" on the part of Mr. Kruger, who must realize the hopelessness of his task.

ARTHUR PEARSON CONFESSES CRIME

He Revokes Former Statement and Tells True Story of Murder.

Hamilton, Ont., Dec. 7.—At 7.53 this morning George Arthur Pearson, the young man who shot and killed Miss Annie Griffin on the night of September 23rd, was executed for the crime. He died game, and did not appear to be nearly as much affected as some of the spectators. Radcliffe, the hangman, did the business, and he did it satisfactorily, the victim's neck being broken at once. Pearson was accompanied to the scaffold, which was in the jail storehouse, by three ministers—Revs. W. F. Wilson, Dr. Lyle and Mr MacWilliams. The first-named read the service as the bolt was drawn. Dr. Chamberlain, inspector of Prisons, was present. The body was buried in the jail yard.

Pearson made a final confession to Rev. Mr. Wilson on Nov. 30th, and it was given to the press for the first time this morning. In it Pearson said his previous confession was untrue, and his statement in the witness box at the trial was not according to facts. It was not true that he and Annie Griffin had agreed to die together. He made an improper proposal to her and she had resented it, saying she did not think he was that kind of a fellow, and he was so ashamed he shot her, intending to kill himself afterwards. When the first shot did not finish her he shot her the second time. Pearson warned young men not to smoke cigarettes nor carry pistols.

THE APSLEY RAILWAY

A Charter now Being Secured for a Road From Norwood

Norwood Register:—Elsewhere in this issue notice is given that application will be made at the ensuing session of the Ontario Legislature for an Act to incorporate "The Norwood and Apsley Railway Company," with power to construct, lay out and build a railway from a point on the line of the Canadian Pacific Railway at Norwood and from thence in a northerly direction to Apsley. We are pleased to learn from Mr. J. B. Pearce, who has devoted a great deal of time to the matter that the prospects for the road are most favorable. The preliminary agreements are complete. The provisional company has been formed, and is composed of the leading men of the several municipalities interested. Our parliamentary representatives, Messrs. John Lang, M. P., and Thomas Blezard, M. P. P., have promised to secure the usual subsidies, and have already obtained assurances from the Provincial and Dominion Governments that the same will be forthcoming when required. Our scribe interviewed several of the Directors this week and all of them are confident that the road will be built next season.

Badly Managed

The Lindsay Post, in referring to the meeting of the ratepayers in Peterborough, held on Tuesday evening, says: According to the remarks at a public meeting of citizens, held Tuesday evening, the affairs of the neighboring town of Peterborough have been sadly mismanaged by the present council, and the leading men of the town are going to see if an improvement cannot be effected. It would seem, however, that while the workingmen who compose a majority of the council have made mistakes, the same fault was found with the business man's council of two years ago, which makes the problem to be solved somewhat difficult.

Death of Mrs Wm Kerr

The death yesterday morning of Mrs Wm. Kerr removes a familiar figure to all who travel the locks bridge or go down the river in summer. The deceased was the wife of the bridge tender at the locks, and lived with her husband in a small house at this end of the bridge. They had resided there for twenty years. Previous to that they resided in other parts of North Monaghan. The deceased whose maiden name was Ellen Montgomery, was 94 years of age. She had been twice married, and had resided in North Monaghan for about half a century. Her husband, who is also very aged, survives her, but is in feeble health.

PETERBOROUGH'S NEW INDUSTRY

What the Toronto Star Has to say Regarding the Matter.

The Toronto Star, in speaking of Peterborough's new industry, says. Owing largely to the efforts of Senator Cox, the American Cereal Company, one of the largest concerns of its kind in the United States, will establish a branch at Peterborough, Ontario, at which six to eight hundred hands will be employed.

The company, which has large mills at Akron, Ohio, Cedar Rapids, Iowa and a big elevator system in Chicago, has had under consideration for some time the extension of their business in Canada. The business of the company in New York and Chicago is handled by the Bank of Commerce, and through this Senator Cox became acquainted with the chief officers, who have followed his advice as to the selection of a locality for their Canadian branch.

The company now has an option on the Dickson Company water power here, including the lands on the side of the river, exclusive of that portion occupied by dwellings, and asks that the present assessment on that property be not increased for a term of forty-two years. In return the company undertake to expend $100,000 in acquiring and improving the property, and $250,000 on building equipment within six months.

The Town Council of Peterborough and the Council of Ashburnham village, which is also concerned, have passed by-laws granting the exemptions asked, and these will be laid before the Provincial Legislature at the coming session. Senator Cox and Mr. Arthur White, district general freight agent of the Grand Trunk Railway, in laying the matter before the Council at a recent meeting, said that the district could supply the necessary quantity of coarse grains for the new industry, and that the railway company would heartily co-operate in the undertaking.

The water power referred to is more than sufficient for the needs of the Cereal Company, and it is expected that the surplus power, when properly developed as the company intends it shall be, will induce other manufacturing concerns to locate in Peterboro. The officials of the American Cereal Company are of the opinion that the establishment of a branch in Canada will enable them to export their goods to England under more favorable conditions than those now existing in the United States.

Big shipment to England

Messrs. J. J. Turner & Sons, Peterborough's enterprising firm of sail, tent and awning makers, are shipping to England to-day a large consignment of goods, comprising one thousand feet of ash tent poles, together with several crates of folding beds and folding tables for Oliver & Edgeton, Duke street, London, and also a large quantity of folding beds and folding tables for John Unit, Edgware Road, London, and Wm. Whitely, Bayswater, in the same city. The tables and beds are made of ash and butternut, beautifully turned and of natural finish; they are excellent samples of Canada's capability in this direction, and should be the means of developing a large trade between the Empire's first colony and Great Britain. Messrs. Turner & Sons have steadily persevered in catering to the English markets, until of late their trade across the Atlantic is assuming creditable proportions, not only to their own advantage, but to that of the town. Wm. Whitely is a large dealer in camping materials, etc., in London, employing over a thousand hands, and it is very satisfactory to know that a Peterborough concern is able to lay down at his doors the right goods at the right prices. Every one of the crates to be shipped to-day are very prominently marked "Canada," so that no mistake can be made as to whence they come.

"Ratepayer" writes: I enclose a bundle of ballots for McWilliams for Mayor. It is time we had a Mayor who would lend a voice in putting an end to the present reign of incompetence.

Mr. J. H. Burnham writes: "I decline to stand for Alderman or anything else, so you might withdraw my name from the fatal list." [Fatal mistake.—Ed. Times.]

"Citizen" says: How would Harry LeBrun do for Mayor? I am of opinion that he would make a splendid civic head for Peterborough. He is a combination of good nature, large heartedness, brains, business ability and music. Under Mayor LeBrun's civic government the town would be sure to prosper. I hope the ratepayers will vote for Harry.

"A Reader" writes: The Times is always to the fore in good works. The Municipal Campaign is a feature that is a credit to the g.f.j., for it will undoubtedly bring good men to the front for Municipal office. But what about the editor himself? He would make a Mayor worthy of our great and growing town—a man of brains, business pluck and possessing a full grasp of the situation? I believe if he were to accept nomination he would be elected, hands down.

[My Dear Son: This great family journal feels flattered, but we are not in the field. Our business is rather to watch the fellows who are entrusted with the management of the town's affairs. Besides we are not fond of office. There is glory enough in running this f.f.j. for any ordinary man. And again, we made a vow at the death-bed of a venerable ancestor not to touch the Council with a ten foot pole. We therefore retire in favor of Mr. McHarrie or some equally worthy citizen.]

ALL CAN VOTE.

Our readers are again reminded that they can vote as often as they like. All that is necessary is to cut out the coupon which is printed every day in the Times, fill it in with the names of the citizens you think should sit around the Council board, sign and send it to the Times office.

The ballot is a perfectly secret one. Everybody can vote—from the youngest to the oldest, men, women and children.

A New Game

The Lindsay Post says that "a new game for the winter evenings is called an "Onion sociable." Six young ladies take an onion into a room, and after one has taken a bite out of it a young man is admitted. If after kissing them all, he fails to tell which of them bit the onion, all the girls are obliged to kiss him. The girls are said to like the game so well that they do not bite." The editor of this great family journal would be pleased to be a party to inaugurating the game in Peterborough.

A Social Evening

The social evening for men in All Saint church on Thursday evening was a decided success. There was a large attendance, and a most enjoyable evening was spent. Games of different kinds were engaged in, and Mr. E. B. Stone, Mr. John Belcher, Mr. R. M. Roy, Mr. Jos. Legg, Mr. W. A. Brundrette, Mr. W. Hooper and Mr. Westbroo furnished a program which was very entertaining. Two gramophones afforded considerable amusement as operated by Mr. Herb Conway and M. Douglas. Refreshments were served at the close.

A Gift to Give

It is often difficult to decide what to get your friends for holiday gifts. Here is a suggestion:

"Good morning, Jennie, I have brought you a nice present," said Gertrude, as she handed her friend a neatly wrapped package.

The pale, weary looking girl, who was slowly recovering from severe illness, opened the bundle and held up a large bottle of clear, rich medicine.

"Hood's Sarsaparilla!" she exclaimed "I have been reading about it to-day and wanted I had a bottle."

On New Year's Day Jennie was able to be out on the street, and to her friends who remarked how well she was looking she simply said, "Hood's Sarsaparilla," and every one of them knew it was this

BUCKHORN

The annual tea and concert under the auspices of St Matthew's church will be held in the L. T. B. Hall, Buckhorn, on the evening of Thursday, Dec. 20th, a good programme, consisting of vocal and instrumental music, readings, recitation, etc., is being prepared for the occasion. Tea will be served from 4 to 7 o'clock, Concert to commence at 8 o'clock. Tickets 25c, children 15c.

OMEMEE.

Typhoid cases, we are pleased to say, have all recovered under the skil-ful treatment of Dr. J. N. Thompson.

Holiday entertainments are now being actively engaged in by the Methodist, Episcopalians and Presbyterians. The latter have engaged Owen Smiley, Toronto for Jan. 1st.

Our markets are lively, and the farmers are rejoicing over such a good outlet in the English market for turkeys and other poultry besides pork, cheese, etc., causing considerable approval by many on the quiet for the advantages of present Government.

Messrs. Kennedy and Nicholls have dissolved partnership. Mr. Nicholls takes the saw mill and Mr. Kennedy takes charge of planing, sash and door factory.

The outbuildings and their contents including a valuable horse, of Samuel Stinson, a farmer two miles north of the village, were consumed by fire lately, whilst he and the family were attending a salvation army banquet. There was a small amount of insurance on the buildings and contents, held by the London Mutual Co.

LIVELY LAKEFIELD.

Miss Annie Montgomery, Dolly Montgomery, Annie Smith and R. Watson spent Sunday at Buckhorn.

Mrs. Foster of Norwood, spent a few days in the village.

Mr. and Miss Andrews of Norwood, have been here visiting friends.

Mr. Aylesworth, Organiser of the I. O. F., was in the village last week.

R. Graham & Son are selling three pounds raisins for 25c and 2 pounds currants for 25c. New Xmas fruit.

CONSCRIPTION ORDERED IN SOUTH AFRICA

All Able-Bodied British Subjects May be Called on--DeWet Releases Prisoners.

Johannesburg, Dec. 7—In pursuance of the reconcentrado the authorities here are preparing accommodation on the race course for four thousand people from farms in the vicinity of the Rand. The burghers will be herded in a laager and will be strictly watched. A notification appears in the Gazette to the effect that all able-bodied British subjects are liable to be conscripted for service in the Rand Rifles.

DIFFICULTIES ADMITTED.

The Hague, Dec. 7—While it is not denied that the Minister of the Netherlands at Lisbon and the Minister of Portugal here are temporarily leaving their posts, it is semi-officially declared that there is no question of the Ministers being recalled. It is explained that Count De Soir, the Portuguese Minister, is proceeding to Lisbon on a few days' visit to explain verbally the difficulties which have arisen in connection with the Netherlands Consul, Herr Pott, at Lorenzo Marquez.

DEWET HAS ELUDED KNOX.

London, Dec. 7—General Kitchener cables the War Office that General Dewet crossed the Caledon, December 5, at arrepont drift, making for Odendal, Gen. Knox was following him, the drift being held by a detachment of the Guards and the river flooded.

The military authorities at Aliwal North, however, are sufficiently apprehensive of attack to summon the loyalist inhabitants of the town and the neighborhood to take up arms to defend the place. Seventy immediately responded, and many more of all classes have since enrolled themselves. All of them have been served with rifles and ammunition. Besides these there is a town guard of 100 men.

According to the Pretoria correspondent of the Standard, the refugee burghers there are firmly convinced that the Cape Colony is on the verge of rebellion. They say there are still 20,000 Boers in the field, and that a large proportion of them are sharing in a concerted movement southward. One of the Bothas, with General Viljoen, is engaging the British forces north for the purpose of keeping as many troops as possible from being sent south, while the Cape Colony is being invaded.

It is regarded as proof of the seriousness of the situation that General Kitchener has been at Bloemfontein for the last few days.

MAXIMS AWE BOER SYMPATHIZERS.

Cape Town, Dec. 7—Owing to the attempts of sympathizers to communicate with the Boer prisoners at Green Point Camp, Maxim guns have been placed in position on the surrounding heights in readiness for a disturbance.

DEWET RELEASES PRISONERS.

Aliwal North, Dec. 7—Last night a British patrol came into contact with Dewet's outpost, close to the place where his main force was laagered. They took one prisoner, who stated that Dewet was suffering from continual trekking, and had abandoned a Krupp gun near the south bank of the Caledon river. The prisoner also asserted that all British prisoners captured at Dewetsdorp had been liberated with the exception of the officers.

SERIOUS RESULT OF THE WAR

Portugal and Holland are Now at Loggerheads.

London, Dec. 7.—It begins to look as if one outcome of the Transvaal war would be a dispute between the two small kingdoms of Holland and Portugal. The Portugese Government recently refused permission to Mr. Potts, the Dutch Consul at Lorenzo Marquez, in the territory of Delagoa Bay, to act in his official capacity on the ground that during the war he used his position to assist the Boers, thus exposing Portugal to the danger of a rupture with Great Britain, who very properly objected to neutral territory being used as a base from which aid and information might be given to the enemy. The result of this step has been important if not serious. A despatch from Lisbon states that the Dutch Consul to Portugal has left his post and that his example has been followed by the Portuguese Consul at The Hague. The two nations have therefore broken off diplomatic relations and may soon be involved in a diplomatic war which may quite easily lead to one of physical force. Holland, of course, objects to the expulsion of her representative from Delagoa Bay, and has removed her Minister from Lisbon as a reply, whereupon Portugal has retaliated in kind by severing diplomatic relations with The Hague. Here is a splendid case for the Peace Tribunal, and it will be interesting to note if Holland is sincere in her protestations so often made in connection with that body.

BRITISH TO BLAME.

Madrid, Dec. 7.—The Imparcial says it considers the rupture of relations between Holland and Portugal to be very serious. It adds that it was due to the intrigues of Great Britain, further asserting that Portugal is now under the tutelage of Lord Salisbury.

ENTHUSIASM FOR KRUGER.

The Hague, Dec. 7.—The Presidents of both Chambers have sent notes to Mr. Kruger welcoming him in the name of the States General.

Mr Kruger is receiving various officials, and the enthusiasm of the crowds outside compels frequent appearances on the balcony.

An official request has been transmitted to Queen Wilhelmina for an audience.

AN AGREEMENT REACHED

A High official of the German Foreign office says Agreement has Been Reached.

Berlin, Dec. 7—With reference to the news communicated from London that an agreement has been reached at Pekin a high official of the German foreign office, who is empowered to speak in the name of Count Von Buelow, Imperial Chancellor, said this evening the report is correct that there are still some minor points unsettled. It was clear from the first that the note formulated by the foreign envoys in Pekin would not be accepted now that the envoys are agreed and the note is acceptable to the United States there should not be exultation as if the other powers had bowed to the will of one nation. All were free to take whatever course they chose, and they chose in the interest of peace and harmony. They all tried to make the note meet the views of the United States. It is to be hoped that the fact that Germany has gone so far in complying with the wishes of the United States will meet with recognition in America.

Berlin, Dec. 7.—The Pekin correspondent of the Deutch Zeitung writes that several German marine officers discovered Sir Claude Macdonald, former British Minister at Pekin, and Lady Macdonald personally superintending coolies who were carrying off treasures form the Chinese Imperial Palace to the British Legation buildings.

Appalled

A Times representative, while passing through one of the leading local dry goods stores the other day, was struck with the novelties in women's apparel. He was told by the affable proprietor, who keeps thoroughly posted in such matters, that belts, gloves and neckties of rattlesnakes skin will be worn by women this season. We know the poor rattlesnake would have to come to it sooner or later. It was about the only varmint left that women didn't wear. Think of a woman being arrayed in a silk-worm waist, a sheep wool skirt, a sealskin sacque, ostrich feather hat, goat-skin shoes, whalebone stays, kid-skin gloves horse-hide belt, tortoise shell comb, fish sacle trimming, stuffed canary birds, clam shell buttons, Spitz-dog muff, mink tail collarette, alligator-hide purse, and now a rattlesnake,—

The editor of this g. f. j. is appalled at the thought that every time he happens to put his arm around the waist of a pretty girl, he may be hugging the external portion of a rattlesnake.

ARRESTED AT HUSBANDS GRAVE

A Woman Charged with Murder While at Husbands Funeral

Des Moines, Ia., Dec. 8.—While attending her husband's funeral at New Virginia this afternoon Mrs. John Hossack was arrested, charged with his murder last Saturday night.

Hossack, who was a well-to-do farmer, was killed with a blow on the head from a sharp instrument while sleeping beside his wife on Saturday night. Mrs. Hossack claimed to have been awakened by a noise and found her husband dead.

Testimony at the Coroner's inquest tending to show that Mr. and Mrs. Hossack had quareled regarding one of their children and the absence of other clews to the murder turned suspicion toward the wife.

FIVE MEN INJURED BY ENGINE EXPLOSION

Serious Accident on the Delaware Lackawanna & Western, 30 Miles from Buffalo.

Buffalo, N. Y., Dec. 7.—Early this morning engine No. 715 on the Delaware, Lackawanna and Western Railroad, exploded at Ray, between Darien and Alexander, anout 30 miles from this city.

Five men, all residents of Elmira, were seriously injured, one of whom will probably die, and another of whom may be blind for life.

The men were brought to this city and placed i nthe Fitch Hospital, where they now are. Their names and injuries are as follows.

Jacob Morgan, engineer, left leg fractured and both eyes badly burned; will lose sight. J Auerbach, fireman, skull fractured, and left arm broken; can hardly recover. Charles Miller, both arms and body badly scalded by escaping steam, in bad condition. M. J. Cannon, conductor, scalded about the face. L. Willys, brakeman "not brought to Buffalo," extent of injuries unknown.

The engine was running east as an extra freight, and was on its way to Linwood to bring west a train load of coal.

"Few details were given in the telegrams to the local officials of the road.

THE GUERRILLA WAR IN AFRICA

The British people are growing extremely weary of the protracted warfare in South Africa. Some are urging stern repressive measures, such as General Kitchener has been using, while others are calling for concessions to the Boers. The Statist of London wants the government to offer Botha and De Wet seats in the Territorial Council if they will lay down their arms. In the meantime the Boer General and burghers are fighting on with a stubborn bravery that bears witness to their Dutch blood. It is little more than a guerilla warfare they are waging now, but the occasional appearance of bands of 2,000 Boers, and their recent capture of 400 British soldiers, are not encouraging features for those who would like to see the war ended.

Neither General Kitchener's repressive measures nor the Statist's plans of conciliation are likely to accomplish much in the way of inducing the Boers to give up the fight. So long as the Afrikanders have horses and ammunition they will probably continue to struggle. The ending of the warfare may be chiefly a matter of horses. When the burghers' limited supply of horses is exhausted they will have to give up. Without efficient mounts for moving rapidly from place they would be helpless. War used up horses with frightful rapidity. The burghers' supply of animals is steadily dwindling, and they have no way of supplying the place of those that are killed wounded, or worn out. On the other hand, while the British are also sacrificing horses by the thousands, they have the supply of the world to draw upon. From the United States alone they took over 15,000 horses into Africa during the ten months ending with October, and most of the 42,000 mules exported from that country in those months also went to the battlefields of South Africa.

In October the British were still taking horses from America at the rate of 1,000 a month. The Boers are probably not losing their animals quite so rapidly, but their losses in this line are not less steady and inevitable. When they finally come to the point where they can no longer attack the enemy and then leap into the saddle and escape pursuit they will have to follow the example of Cronje and surrender. The most determined Boer would not advocate continuing the war on foot. Until the Transvaal horses are exterminated the British people will have to possess their souls in such patience as they can muster. It is a good deal harder on the horses than it is on the British ratepayer.

EDITORIAL NOTES

Now that the month is December you can see an alderman's right hand extended to greet you half way up the block.

* * *

The past has pretty well established the fact that an alderman once elected does not drop the position until the electors drop him.

* * *

Human nature always puts its best foot forward about this season because it wears the Christmas stocking.

* * *

If you favor civic economy, vote for men who can be depended upon to secure it.

* * *

While various questions may be asked of the local gang, nobody has ever asked if the axes they grind are intended to cut down city expenditure.

The Yankee press is so busy laughing at the British for not catching De Wet that it hasn't time to tell it's own Generals how to catch Aguinaldo.

THE LIGHT OF THE WORLD
or
OUR SAVIOUR IN ART.

Cost nearly $100,000 to produce. Contains nearly 100 full-page engravings of our Saviour and His Mother by the world's greatest painters. True copies of the greatest Masterpieces in the art galleries of Europe. Every picture is as beautiful as a sunrise over the hilltops. Contains description of the paintings, biography of the painters, the names and locations of the galleries in Europe where the original may be seen. Also contains a Child's Department, including a Child's Story of Christ and His Mother, beautifully written, to fit each picture. This wonderful book, matchless in its purity and beauty, appeals to every mother's heart, and in every Christian home where there are children the book sells itself. Christian men and women are making money rapidly taking orders. A christian man or woman can in this community soon make $1,000 taking orders for Christmas presents. Mrs. Waite, our agent in Massachusetts, has sold over $2,000 worth of the books in a very short time. Mrs. Sackett, our agent in New York, has sold over $1,500 worth of the books in a very short time. The book is printed on velvet-finished paper, beautifully bound in Cardinal Red and gold, and adorned with Golden Roses and Lilies. It is, without doubt, the most beautiful book of this century. Write for terms quickly and get the management of that territory. You can work on salary or commission, and when you prove your success we will promote you to the position of Manager and correspondent, at a permanent salary, to devote your time to attending to agents and the correspondence. THE KISSING PLANT.

A Short Chapter on the Famous Mistletoe.

The mistletoe belongs to the parasitic plants. It is rather an unworthy vegetable, but it has been reverenced by heathen nations time out of mind It was used by the Romans in temple decoration, and the Druids, the priests of ancient Britain, held the mistletoe of the oak in the utmost veneration They gathered it at Yuletide with great solemnity. The chief Druid clothed in a white robe, climbed the oak, and with a golden sickle cut loose the clinging tuft of the plant. It was reverently received on a white cloth by another white-robed Druid, standing on the ground, and afterward distributed among the people who carefully preserved it.

The Druids supposed the mistletoe to be endued with great curative powers but modern science has proved it to have no therapeutic value. The custom of kissing under the mistletoe has descended from feudal times, but its origin is unknown, although it probably descended from religious or mystical ceremony. As the mistletoe is a thief among plants, drawing its juices from the barks of other trees, it may be considered naturally symbolical of stolen kisses. According to English tradition, the maid who was not kissed under the mistletoe at Christmas would not be married during the following year. Efforts have been made at times to exclude the mistletoe from among Christmas decorations, but it has always found favor among the young people of every period. According to the ancient custom, a maid caught standing under the mistletoe was entitled to have as many kisses bestowed upon her as there were berries on the mistletoe branch, but the ceremony was not duly performed unless a berry was picked off with each kiss, the maiden preserving the berries for good luck.

The name mistletoe is derived from the Anglo-Saxon "mistl," different and "tan," twig. It means a twig different from the tree on which it grows. There are some 400 species of mistletoe, most of them natives of the tropics. One species grows in the United States, and is abundant south of the Ohio river. The native plant bears a profusion of thin yellowish-green leaves and white berries. The English plant has only a few pairs of grayish-green leaves, and is thickly studded with semi-transparent whitish fruit. These are filled with an exceedingly sticky jelly, and this vegetable glue causes it to stick to the tree to which it has become attached. When the berry begins to sprout, the tiny root always turns toward the branch with a kind of instinct. If the seed sprouts on the lower side of the limb the root reaches up; if it germinates on the upper side, it extends down. The root pierces the bark, and then the mistletoe begins to draw the nourishment from the tree.

A Fine Baby

Makes any mother proud. There are a great many proud mothers whose children have been puny and sickly until they began the use of Dr. Pierce's Favorite Prescription. That medicine which "makes weak women strong" has given them the strength to bear hearty, and healthy children for the first time.

"Six years ago after the birth of one of my children I was left in a weak run down condition," says Maria O. Haysel, writing from Brookland, D. C. "My health seemed utterly gone. I suffered from nervousness, female weakness and rheumatism. Life was a burden. I doctored with three different physicians and got no relief. I tried several patent medicines, all with the same result. I began to get worse and to add to the complications I suffered terribly from constipation. I chanced to see one of your advertisements and I commenced to take Dr. Pierce's Favorite Prescription and 'Pleasant Pellets' and began to improve right away, and continued improving and gaining in strength. I cannot express the relief, it was so great. Seven months later my little daughter was born without much trouble. I feel that I would never have been able to endure my confinement only by the help due solely to Dr. Pierce's medicines. She was a fine healthy child and the only one I have ever been able to nurse. She is now two years old and I have never had to take any medicine since, so I feel that your medicine has made a lasting cure with me."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to defray expense of customs and mailing *only*. Send 31 one-cent stamps for the book in paper binding, or 50 stamps for cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

Read the following letter received by the Principal of the
CANADA BUSINESS COLLEGE
Chatham, Ont.
and learn how highly the graduates of this school are thought of by the business public.

"Oct. 16, 1900.
Gentlemen,—We have openings now for two or three good male stenographers who had had experience, and it occurred to us that a large number of stenographers and other office men, who have graduated from your school from time to time and are now holding positions, might desire to better themselves. If you can put us in communication with some of your old graduates, who have had two or three years' experience, we should be under obligation to you."

We might mention that the concern represented in the above letter has a Capital Stock of Five Million Dollars.

When you read such evidence as the above, need you be surprised that during the period of thirteen and a half months ending in October, 345 positions were filled by our pupils.

It pays to attend CANADA'S GREATEST SCHOOL OF BUSINESS OR SHORTHAND, if you wish to thoroughly qualify yourself for office work and be assisted to a position when graduated.

BLOOD POISON.

If you have this awful disease you are in danger until completely cured; the various symptoms you notice should be a warning to take immediate treatment. Don't put it off until too late, as it continually gets worse. If you have sore throat, patches on tongue or mouth, swollen glands, hair falling out, blotches on body, itching skin, or other signs of this awful disease, call on us. We give you a written guarantee to cure you by our LATEST METHOD TREATMENT without Mercury or Potassium, and You Pay When Cured. Each time you call you see Dr. Goldberg personally, who has 18 Diplomas, certificates and licenses received from the various colleges, hospitals and States which testify to his standing and abilities.

The original testimonials can be seen at our office; $500.00 reward for any we cannot show; at request of patients we publish only the initials.

I am improving every day. I notice if I cut or scratch myself the sore will heal up. I hope you will not stop treating me as long as there is a sign of that terrible disease. I am more afraid of it than death. I believe you have the right medicine for the disease. I feel so thankful to you for the good you have done me; I was a perfect wreck when I came to you, and was on the verge of suicide. To make a sure thing I would like to continue a while longer, so that it will not return. Very respectfully yours, Mrs. L. S.

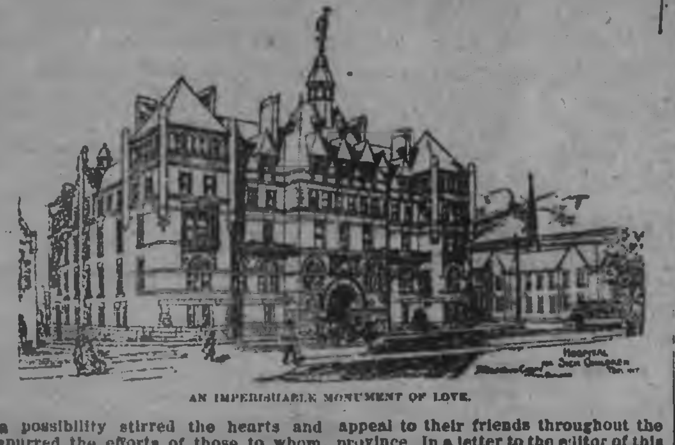
BUILT BY LOVING HEARTS

AND MAINTAINED BY CHARITY.

After a Brave Struggle with an Overwhelming Debt the Hospital for Sick Children is Within Sight of Freedom — Only $19,000 Required to Free It.

Eight years ago the Hospital for Sick Children, Toronto, was in a most precarious financial position. Only a few sanguine friends believed that the huge debt of over $106,000 would ever be lifted from it. A prominent Montreal financier, when asked to loan money and hold as security on mortgage the hospital, enquired as to the suitability of the building for "factory purposes." Perhaps it was his remarks as much as anything else that helped the brave ones who stood by the hospital. The very idea of such a possibility stirred the hearts and spurred the efforts of those to whom the Hospital work had become dear.



AN IMPERISHABLE MONUMENT OF LOVE.

Taking the responsibility of the load upon their own shoulders the trustees of the Sick Children's Hospital appealed to the generous hearts of a rich province—Ontario.

Here is a Hospital—they told it through the newspapers—which throws open its doors in answer to the cry of any sick child, a Hospital that has nursed and cured thousands of helpless and crippled children; a Hospital equipped as is no other institution of its kind in the world. Shall a charity so sweet and deserving be forced to close its doors by a mortgagee who thinks it might do for a mill?

That was eight years ago. Not before nor since has a single sick child been refused admission to the Hospital. A staff of doctors and a corps of trained nurses are there during the day and the long watches of the night—tenderly and skilfully caring for the little ones given into their care by fond, anxious parents. Little children are brought to the Hospital from the farthest points of the province. Every town and township has been represented during the past quarter century. The fame of its great healing power has been told in many a humble home—for during twenty-five years 40,000 sick children have been taken care of. Some of the little ones treated in those early days are strong, healthy men and women to day.

Last year the Hospital roll numbered 5,776 patients. Some spent days and weeks in the cots at the Hospital. Others came for a few days, while many were brought to the doors of the Hospital in the arms of their mothers and received such medicine and advice as to speedily effect a cure in their own homes.

More than one third of the little children admitted to the Hospital wards came from places outside the city. The people in the province have helped the Hospital in a generous manner. Many splendid gifts are received from friends outside Toronto.

It costs over $30,000 each year to maintain the Hospital. About $100 a day is needed to buy food, medicine, surgical appliances and nursing for this army of little ones—146 patients being in the cots at the end of this fiscal year.

An appeal is being made by the Hospital Trustees this year for $19,000—the sum required to entirely free the Hospital of its debt. They issue the appeal to their friends throughout the province. In a letter to the editor of this paper Mr. J. Ross Robertson says that the Hospital has many well-wishers among our readers who have given practical voice to their sympathy in past years. He believes that they will respond cheerily and generously this year to the call for help. They want to end the century free of debt—That on the morning of the first day of the Twentieth Century there shall stand free, a monument to man's generosity to countless sick children—an imperishable gift of love from the men and women of the Nineteenth Century to little ones specially confided to our care.

THREE GIRL PATIENTS—(From a Photo.)

More than 10,000 donors contributed to the maintenance and reduction of the Hospital debt last year.

Nearly half of these donations were single dollars. Mr Robertson says the trustees like to have the greater number of individual friends—that they would prefer ten five-dollar bills to one fifty dollar gift.

Mr J. Ross Robertson chairman of the Hospital Trust, Toronto, publishes a list of the donations received during the Christmas month in his paper, The Evening Telegram, and copies of the paper are sent to all donors.

Donations may be sent to Mr. Robertson, or to Douglas Davidson, Secretary-Treasurer, Hospital for Sick Children, Toronto.

A WONDERFUL
KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

BRIGHT'S DISEASE,
GRAVEL, DROPSY,
And Rheumatism Mastered at Last.

I. A. HOPKINS.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary trouble which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right, I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 58 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 508 Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the section. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims—the Salida Extension, the Salida Extension No. 2, which property adjoins the great Salida mine, which has been a big producer for upwards of [illegible] years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

THE WONDERLY GOLD MINING COMPANY, limited

CAPITAL $1,000,000, Divided into Shares of $1.00 each.

Incorporated under Ontario Laws. Non-assessable.

his Company was formed for the purpose of purchasing and working seven gold claims on the Saskatchewan river, near Edmonton.

These claims have been worked some, and in the summer of 1900 D. F. Loveland, the former owner and president of the Company, had a dredge at work, and although only able to handle 200 yards of earth per day, there was from $30.00 to $50.00 of gold taken from that amount of earth daily, and thus demonstrating beyond doubt the great value of these claims.

The Company proposes to purchase one of the Risdon dredges, with a capacity of 2,500 cubic yds. a day.

The expense of running such dredge will be about $175.00 per week, and even if the dredge handles only 1,000 cubic yards a day, in six days, there will be taken out $1,500.00 worth of gold, with a profit of $1,325.00 in one week.

Sufficient stock will be sold at 25 cents per share to raise money to purchase the necessary dredge, after which the books will be closed and no more stock will be offered for sale.

There is no gold proposition on the market to-day equal to this one.

Application for stock can be made to any of the Directors, or to the Secretary, or to W. T. McNeil, broker, St. Catharines.

OFFICERS:

PRESIDENT—D. F. Loveland, capitalist, Galena, Illinois.

Mr Symonds Lecture

Rev. Herbert Symonds delivered a very interesting and instructive lecture in the lecture room of St. Paul's church last night, to a large audience. At the conclusion of the lecture a hearty vote of thanks was tendered the reverend gentleman.

The Band Concert

The band of the 57th Regiment gave another of their delightful concerts last night in the market hall, to a crowded house. In fact the trouble is to find room for the crowds that patronize these entertainments. The band furnished a superb programme of music.

A Little Hard

One of our little local evening contemporaries remarks that the "secret" meeting to discuss public matters struck people very unfavorably. What the little fellow probably means is that it struck some of the "gang" a little hard.

The Citys Transformation

Under the superintendence of Shipbuilder Hickey, the work of transforming the steamer City of Peterborough into a modern vessel is progressing favorably. The old boiler and machinery has been taken from the boat, and the work of putting in new power is proceeding. The steamer will, when completed, be the finest boat on the inland waters.

Northern Italy

A large number of people were present at the second of a fortnightly series of entertainments arranged by the St. Peter's T. A. S., on Wednesday evening, when Rev. Dr. O'Brien gave a capital lecture on Italy. Instrumental duets were given by Masters Jamieson and Robertson and the Misses Hurley. Miss May Callahan rendered a solo admirably, and Mr. Jas. Moher, with his phonograph, was very entertaining.

Will Give Prizes

The W.C.T.U. have arranged to give prizes to those in the public school, who took the highest marks in Physiology and Hygiene on this occasion. They will hold a public meeting in the Sunday school room of the Murray street Baptist church, on Thursday evening, Dec. 13th, which has been kindly offered to them for this purpose. Rev. Mr. Wilson of George St. Methodist church, Rev. J. Bastow of the Murraystreet Baptist and Mr. Walker, Public School Inspector, have kindly consented to give short addresses. A musical programme will also be provided.

Railway Notes

During the past four weeks four cows have been killed on the track between Lindsay and Omemee. The Belleville way-freight ran into a bunch of twelve one evening on a crossing this side of Reaboro, but all escaped save one. The animal went under, and came near causing a run-off.

The Canadian Pacific Railway has discovered a new use for some of the old engines, usually sent to the scrap heap. They will be used for the generation of steam for heating purposes in buildings under construction in the cold weather. The arrangement is simple, consisting of a pit about three feet deep, into which a track has been laid. The engine, from which the drivers have been removed, is run in and anchored, after which some of the superfluous gearing is stripped off, and the water and steam attachments are made. The smokestack is connected with an overhead pipe, about 120 feet in length, which connects with the air shaft, thus obviating the presence of smoke and poisonous gases.

JOTTINGS ABOUT TOWN

—Cooler weather to-day.

—Farmers are waxing jubilant over the increase in the price of hogs.

—Mr. Fife, of Ohio, yesterday shipped a carload of turkeys to the northwest.

—Work on the Riverside Park skating rink is progressing.

—There will be special music by the George street Methodist church choir to-morrow evening.

—Do not pledge your support to any aldermanic candidate till you know who will offer.

—The clock on the post office building is not on duty, although it cannot be said to be on a "strike."

—Mr. H. P. Kennedy, our enterprising stock merchant, yesterday shipped 227 head of cattle to Ohio.

—Citizens are justly indignant over the bad work on our streets, as evidenced just now at the old post office corner.

Dyspepsia is difficult digestion, due to the absence of natural digestive fluids. Hood's Sarsaparilla restores the digestive powers.

—The police are after the boys who make a habit of coasting on the streets of the town. Five boys have been summoned for coasting on Smith street.

—Major Millar is conducting a school of equitation, at the drill shed, in which officers of the 57th are learning to ride and mount according to modern methods.

—Adjt. Babbington, of the Peterborough district, will conduct a special meeting in the Salvation Army barracks at Campbellford on Monday next.

—The eighteenth anniversary of the resuscitation of Otonabee Lodge No. 13, I. O.O.F., will take place on Monday evening. A splendid program is being arranged.

—A blazing chimney in the house at the corner of King and Park streets, and occupied by Mr. George Comstock, gave the fire brigade a run yesterday at about 3 o'clock. No damage was done.

—Mr. J. H. Glass was on Thursday evening presented by the members of his bible class with a handsome clock, accompanied by an address. About 30 members of the class were present, and spent a very enjoyable evening.

—Next spring some thousands of shantymen will leave the lumber camps of Northern Ontario with pockets full of money. They are receiving from $25 to $30 per month this season and their board, as compared with $14 and $16 two years ago.

—It is only when the telephone man plants a tall pole near his front door or on his lawn that the leading citizen realizes how weak is his influence with our city fathers. That's because no one was sharp enough to insert safeguards in the contract.

Miss Alexandrina Ramsay, the great elocutionist, will appear at the Halpany Testimonial Concert at Bradburn's Opera House, Friday, December 14th.

Have you Eczema?—Have you any skin disease or eruptions? Are you subject to chafing or scalding? Dr. Agnew's Ointment prevents and cures any and all of these, and cures Itching, Bleeding and Blind Piles besides. One application brings relief in ten minutes, and cases cured in three to six nights. 35 cents.—71

Sold by Ormond & Walsh.

SOCIAL AND PERSONAL

—Mr. R. R. Hall, barrister, was in Toronto on Thursday.

—Mrs. J. R. Stratton is staying in Toronto this week.

—The Times had a pleasant visit yesterday from Mr. Geo. McBoon, Superintendent of Agencies for the London Life Insurance Co., who is in town inspecting the local branch.

Brantford Expositor—Hon. J. R. Stratton, Provincial Secretary, pair his first official visit to the institution for the blind yesterday, and was accompanied by Inspector Chamberlain and T. H. Preston, M. P. P.

Keep Yourself Strong.

And you will ward off colds, pneumonia, fevers and other diseases. You need to have pure, rich blood and good digestion. Hood's Sarsaparilla makes the blood rich and pure as no other medicine can do. It tones the stomach, creates an appetite and invigorates the whole system. You will be wise to begin taking it now, for it will keep you strong and well.

Hood's Pills are non-irritating. Price 25 cents.

Married in Norwood

A very pretty wedding took place on Wednesday evening, at the residence of Mr. George Livingstone, Norwood, when his daughter, Miss Catharine, and Mr. Thos. Sabin, of Peterborough, were married by the Rev. Robt. Phillips, Methodist pastor. The bride was attired in a becoming gown of white organdie, with lace and ribbon trimmings. Her sister, Miss Bertha Livingstone, was bridesmaid, and wore a pretty gown of cream cashmere. Mr. Harry Doolan, of Hastings, acted as groomsman. The wedding was attended by a large number of the friends of the bride and groom, and after the ceremony an excellent wedding supper was partaken of. Mr and Mrs. Sabin will take up residence here. The Times joins in hearty congratulations.

DID NOT CURE.

But Greatly Helped by Change of Food.

A lady in Harrisburg, O., is frank enough to say that while she has been helped, she was not entirely cured in the change of food and taking up Grape-Nuts food. She says she began eating rich and highly seasoned food when she was young and followed it until she set up a bad stomach trouble, with severe attacks of nervous sick headache.

Finally rheumatism of the joints set in, and now some of her joints are dislocated by the heavy deposits forming about them and pushing them out of place, so that she is almost helpless. Her nervous system was wrecked and the optic nerve affected so that she could not read without bringing on nervous prostration and insomnia that would last two or three nights.

"Last fall I heard of and commenced the use of, Grape-Nuts as a food. It has since been both food and medicine to me, for I have taken very little medicine since I began to use it. After 10 months I find a great improvement in my brain and nerve power, am no longer troubled with sleeplessness, I suffered very much less with my rheumatism, and can read several hours a day, one day after the other and sleep well all night.

"I am by no means entirely cured of rheumatism, but I have been made so much better by the use of Grape-Nuts food that I am sincerely thankful for it." This name will be furnished by the Postum Cereal Co., Ltd., Battle Creek, Mich.

THE SNOW BY-LAWS.

Editor Morning Times

Sir,—I see the Council have put forth a supreme effort and passed a snow by-law. Now, Sir, I would just say here that this by-law is the most audacious piece of legislation ever attempted, and cannot possibly be enforced.

How is a man to keep ice off the pavement in front of his house? If he uses a cold chisel or an axe (the only way to get it off), he will be "pulled" for destroying the sidewalk.

Then, again, what are the snow plows for? Is this precious by-law in the interests of the snow plow men? One would think so. If it is enforced there is no use for snow plows at all.

It is assumed by the advocates of the by-law that the parties benefited by the clearing of the sidewalks are the property owners. Let us see how far this is the case. My friend, Mr. X is a comfortable bachelor, who boards with a widow, on Water street North. It is his custom every morning in winter to walk down Water street to his office, and return by the same route in the evening. Mr. X is very particular about the sidewalks, and thinks some better method than the snow-plow should be adopted to clear them for him. In fact, he is a chronic grumbler at the town's present method, and spends much of his time in the evening concocting epistles to the papers casting ridicule on the idea of an up-to-date town like Peterborough adhering to such antiquated methods. But would he be willing to bear any of the burden himself, you ask? Oh, dear, no! Let the widow with whom he boards and her little family, whom she is struggling to support decently, get up at six in the morning after a snow storm, and shovel the snow off the sidewalks that pass her premises. She owns a corner lot with a frontage of a hundred feet in one street and the same on another, the whole being heavily mortgaged, and let property owners all the way down this street do likewise, and Mr. X will be satisfied.

A moment's thought will make it apparent that Mr. X, who pays nothing, and expects to pay nothing under the by-law, desires more benefit from the improvement in the condition of the footway than any house-holder on the street. That being the case, is it equitable that he should escape scot-free? Mr. X's case is that of hundreds of others in the town. The truth is that the endeavor to throw this burden on the property owners and tenants alone is absurdly unjust.

The cleaning of snow from the sidewalk is not a local improvement. It adds nothing to the value of the property. It is not even the property-owner who is chiefly benefited by it. Those who think otherwise apparently proceed on the assumption that property owners make a practice of walking up and down on the sidewalk in front of their lots admiring their property, or possibly congratulating themselves that it belongs to them.

It is very poor policy, on the part of any town, to add unnecessarily or unfairly to the burdens of property owners. They are a desirable class of citizens, and should be encouraged rather than penalized. If any scheme of reform is to be introduced, let it be of such a nature that the burden falls equally on every citizen who benefits by the improvement, quite irrespective of whether he is or is not a property owner.

60 Specialists on the Case.—In the ordinary run of medical practice a greater number than this have treated cases of chronic dyspepsia and have failed to cure—but Dr. Von Stan's Pineapple Tablets (60 in a box at 35 cents cost) have made the cure, giving relief in one day. These little "specialists" have proven their real merit.—72

Let the mechanics and laboring men commence the new century by placing one of their number in the Chief Magistrate's seat. Mr. Dawson is well qualified for the position. He is a representative working man, and as Peterborough is a town of mechanics, it should have one for Mayor.

A GERM CATECHISM

The Manner in which Powley's Liquified Ozone Kills the Germ of Disease

Q. What is disease?

A. Disease is an unnatural condition of the body or organs of the body.

Q. What causes disease?

A. Germs cause disease.

Q. How are germs formed?

A. Germs are caused from decaying vegetable or animal matter.

Q. In what way do germs cause disease?

A. The germs enter the body (and form a chemical combination with the animal cells. A chemical combination is peculiar to each disease. Thus a certain germ forms cholera, another consumption, another typhoid fever, another kidney disease, another indigestion and so on.

Q. How can we cure disease?

A. What is required is an antiseptic, something that will kill the germs and restore the diseased portion of the body to health.

Q. What will do that?

A. Powley's Liquified Ozone is the only preparation which will accomplish this.

Q. What is Powley's Liquified Ozone?

A. It is liquified oxygen; nature's cure for disease. It treats disease under a new system. It is simply infallible in its treatment. It has been demonstrated that no germ can live in oxygen or ozone. Powley's Liquified Ozone kills microbes instantly, and in this way cures such terrible diseases as consumption, impure blood, eczema, typhoid fever, tumors, Bright's disease of the kidneys, liver troubles, female weaknesses, etc.

Stop old-fashioned medicine methods. Powley's Liquified Ozone is liquified Oxygen. It kills germs of every description. Testimonials prove this. Send for pamphlet on general troubles and female diseases. Powley's Liquified Ozone is sold in two sizes. Large size $1.00, small size 50c., at all druggists, or by mail from the Ozone Co., of Toronto, Limited. 48 Colborne street, Toronto.

"Love and a Cough Cannot be Hid."

It is this fact that makes the lover and his sweetheart happy, and sends the sufferer from a cough to his doctor. But there are hidden ills lurking in impure blood. "The liver is wrong," it is thought, "or the kidneys." Did it ever occur to you that the trouble is in your blood?

Purify this river of life with Hood's Sarsaparilla. Then illness will be banished, and strong, vigorous health will result. Hood's Sarsaparilla is the best known, best endorsed and most natural of all blood purifiers.

Eczema—"I was run down with complaints peculiar to my sex. Large sores broke out on my body, head and limbs. I could not do any work on account of the itching. My trouble was termed eczema and I doctored for it for a long time. I then tried Hood's Sarsaparilla and several bottles effected a cure." MRS. J. G. BROWN, Brantford, Ont.

Organs Affected—"I was run down in health and had spells of coughing which left me prostrate. My lungs, heart and kidneys were affected. Took Hood's Sarsaparilla upon advice and soon felt better. I continued the treatment and now feel like a new woman." MRS. SUMMERVILLE, 217 Ossington Avenue, Toronto, Ont.

OTHER BUSINESS.

On motion of Mr. Goselin, seconded by Mr. Sheehy, the secretary was instructed to make the necessary arrangements for the election of the trustees for 1901, as provided by law.

Before adjoining Dr. Moher submitted the following resolution, which was seconded by Mr. Goselin and adopted:—

"That this Board desire to record its appreciation of the valuable services rendered by Mr. John Corkery, our present secretary-treasurer, since his appointment twenty-five years ago. During this long time he has performed the duties of his position in such a manner as to merit the approval, not only of this Board, but of the different Boards which have been entrusted with the management of the Separate schools during the past quarter of a century. His unfailing courtesy and his extensive knowledge of matters pertaining to the management of our schools has enabled him to render valuable services to the members of the Board, and his honesty, accuracy and attention to details has rendered his work all that could be desired."

The secretary suitably acknowledged his thanks.

The Board then adjourned.

Miss Richardson, Canada's greatest Cellist will appear at the Halpany Testimonial Concert at Bradburn's Opera House, Friday, December 14th.

A Progressive Firm

A store that is brimful of interest to clothing buyers, as well as brimful of elegant new clothing, is H. LeBrun & Co., of Montreal, the makers of the attraction is in the astonishing low prices and the abundance of reliable wearing apparel. The firm recently placed an order with Messrs. H. Shorey & Co., of Montreal, the markers of the highest grade of clothing in Canada, which amounted to about $4,000. Messrs. Ald. Shorey and Ross, the representatives of Shorey & Co., were making their semi-annual visit to H. LeBrun & Co., for the purpose of clearing out their winter stock before starting to manufacture for the spring. Shorey's clothing has always appealed to men and young men of good taste, and when it is known that Messrs. LeBrun & Co's purchase was made at prices actually less than the cost of manufacture, the public can expect honest bargains, bordering on the remarkable. This great clothing surprise for Peterborough consists of the finest of overcoats, ulsters, reefers and suits for men, young men and boys, and are as good as money can buy. The prices will actually amaze you and the clothing delight you. You can depend on every garment, and you can't match the prices. With Christmas on the wing, chances like this will compel you to look up H. LeBrun & Co., sure. Cash discounts in trading stamps, etc., as well.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 22x28, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer rifleman. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Elandslaagte and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 65 in one day. Sample and terms 25 cts (none free); four for 60 cts; $1.25 per dozen; 25 for $2.25; 50 for $4.00; 100 for $11.00. Write to day for a dozen and make money. SIR ALFRED MILNER FOR GOVERNOR

Of the Orange and Vaal River Colonies--Never So Much Humanity Shown in Any Previous War.

London, Dec. 8—In the House of Commons yesterday in pursuance of an agreement reached by the Liberals owing to the unsatisfactory nature of the Government's explanations, Mr. A. Emmott, Liberal, moved an amendment to the effect that it would conduce to the pacification and future good relations of the races of South Africa if measures securing liberty and property of those who surrender, and providing for the future settlement of the territories be announced at the earliest moment possible. Mr. Chamberlain said the Government hoped—it was hope and not prophecy—that very shortly, indeed, before the House met again, something in the nature of a civil administration might be established in both the Orange River and the Transvaal colonies. Sir Alfred Milner, he added, would be appointed Governor of both.

Here Mr. V. Duncan Pirie, Liberal member for North Aberdeen, a former captain of the Aberdeenshire military, who recently returned home from South Africa, whither he went to look after the remount department when the war broke out, interrupted Mr. Chamberlain, saying: "You will lose South Africa."

STEELING TOWN LUMBER

Quantity of Plank Taken From Town Lumber Pile

The town's street affairs have been managed so loosely in the past, that lumber has been stolen right and left whenever opportunity offered. When the new walks were being laid, thousands of feet of good plank is said to have mysteriously disappeared. This plank had been taken up to make room for the new walks, and were, as a rule, piled up along the streets, apparently for the purpose of affording opportunity to those who coveted the lumber, to help themselves.

Some time ago the Town Engineer ordered the plank for the new sidewalk on the corner of George and Brock streets. This lumber was piled in the street for days before it was required. We do not know that there was an object in this, but at all events it began to disappear, and the authorities came to the conclusion that the expensive pine planks were being purloined. Consequently a man was placed at night to guard the pile of lumber, and the thieving seemed to stop, the police had been keeping an eye on the pile, but the planks slipped away most mysteriously. Finally the police commenced to search all the back yards in the vicinity. This had the desired effect. Matters were getting too hot for the thieves, and growing apprehensive they carted the lumber to the corporation yards sometime during the night. There were in all about 3,000 feet.

A BOER COLONY

A Colony of Boers to be Established on Long Island

New York, Dec. 8—Eleven hundred acres of land in Nassau County, L.I., has recently been purchased by the Boer Refugee Aid Committee, on which to establish a Boer colony. The land lies between Hicksville and Syosset and is well suited for farming purposes. Seventy families of Boers, averaging about five persons each, and representing the best class of South African farmers, will come, three-fourths of them from the Transvaal and the balance from the Orange Free State.

The Boer Refugee Aid company comprises many representative men of this country, and all are working to provide a home for refugee Boers who care to come here to live. The organization has branches both in England and on the continent.

When the colonists arrive they will be supplied with money sufficient to buy farming materials and agricultural implements, building materials, horses, cows, chickens, etc.

TOWN SABBATH SCHOOLS

Two Successful Rallies Have Been Held by the Association

Since the town S. S. Association was reorganized, two very successful and helpful rallies have been held.

Arrangements have also been made to have a union meeting every Friday evening at 8 o'clock, in the Y. M. C. A. building. The lesson of the following Sabbath is taken up every Friday evening, and on the first and third Fridays of each month Normal work also is taken up by Rev. Mr. Symonds. He is using Prof. Hamill's "Legion of Honor" text book, and is taking the Bible lessons in the order given in the index.

The plan is to have a certain school responsible for the whole meeting each week. The leader sent to represent the school is to conduct the meeting, select hymns, secure a pianist, take up the lesson, etc. As each school has promised to take part in rotation, there need be no disappointments.

Representatives of Park street, St. Luke's and St. Paul's have already taken part. The balance of the plan to the end of April is as follows:—

Nov. 30—All Saints', Normal.
Dec. 7—Riverdale.
Dec. 14—Murray street, Normal, (special).
Dec. 21—Charlotte street, Normal.
Dec. 28—St. Andrew's.
Jan. 4—George street, Normal.
Jan. 11—Bethany Mission.
Jan. 18—Auburn, Normal.
Jan. 25—St. John's.
Feb. 1—Grace, Normal.
Feb. 8—Mark street.
Feb. 15—Park street, Normal.
Feb. 22—St. Luke's.
March 1—St. Paul's, Normal.
March 8—All Saints'.
March 15—Riverdale, Normal.
March 22—Murray street.
March 29—Charlotte street.
April 5—St. Andrew's, Normal.
April 12—George street.
April 19—Bethany Mission, Normal.
April 26—Auburn.

The meetings are being well attended. Everyone is welcome, whether a Sabbath school worker or not. Be on hand sharp at 8, and bring your Bible. The meetings close at 9, except when Normal work is taken, then a little less time is given to the lesson, so as to allow about 25 minutes for Normal work. On these evenings the meeting closes at 9.30.

King Leopold's 36th Year.

Brussels, Dec. 10.—King Leopold II, of Belgium, began the 36th year of his reign to-day. He is now 65 years of age, and is reported to be heartily sick of the king business, as he is continually overworked and meets with perpetual opposition to his plan of a compulsory, personal military service. Rumors of abdication are again rife.

NICARAGUA DEMANDS PAY?

Rumor that She Asks $20,000,000 for Canal Concession

Washington, Dec 9.—The Panama Canal Company does not appear to have given up the idea of attracting the attention and capital of the United States to the completion of the French route across the isthmus. To the Panama opposition to the Nicaragua route is attributed the report heard here to-day that Nicaragua demands $20,000,000 as the price of the concession sought by the United States from that nation. While no member of the inter-oceanic Canal Committee can be quoted on this matter, it is learned from a member that the committee does not understand that any demand has been made for such an amount.

The suggestion has been made that $5,000,000 should be paid for it, but as intimated by the President, nothing has been done in that direction, except to make overtures to Nicaragua for an agreement to be entered into after the Clayton-Bulwer treaty has been set aside and the Hay-Pauncefote treaty ratified. That remains to be settled.

The suggestion of demands for large sums of money is calculated to add to the difficulties already great that stand in the way of the Canal bill. The opposition will base its resistance to the bill in a large measure, on the ground that it is not commercially necessary, and that it will never attract enough commerce to make it self-supporting. The suggestion that military necessity demands its construction will provide the anti-imperialists with new matter for discussion.

A high officer of the Government, who is opposed to the passage of the bill before the Hay-Pauncefote treaty is ratified, expressed the opinion to-day that the Canal bill will get through even if the treaty fails.

Nansen Fund Closed

Christiania, Dec. 8—The Nansen Fund, which was started after the return of Dr. Nansen from the Arctic, to promote scientific explorations, now amounts to 1,000,000 kroner, and no further collections will be made.

Kaisers Joke on Von Buelow

Berlin, Dec. 8—Emperor William, adopting the role of a practical joker, has just sent Count Von Buelow a large package containing a hundred pounds of soap with which to clean the Chancellor's palace, the Count having complained that the Countess was afraid of a grand cleaning.

Anti Trust Bill in Germany

Berlin, Dec. 8—In the Reichstag today Baron Von Heyl and other leaders of the National Liberals, moved the introduction of the anti-trust bill, providing for the establishment of a practical system of supervision by the imperial authorities over combinations and syndicates whose business can be proved to be a monopoly.

Rich Strike in West Alaska

Tacoma, Wash, Dec.8—A gold discovery of sensational richness has been made on Yellow River, on the upper tributary of the Kuskokwim river, western Alaska.

Twelve Swedes, who went there last July, found diggings which they claim to be as rich as El Dorado and Bonanza Creeks of the Klondike. For three miles the Yellow River is streaked with gold. John Abenson and partners took $34,000 from a single hole, sixteen feet square, finding bedrock at a depth of two feet.

They hired Indians to pack their gold to Yukon, reaching St. Michael's with it early last month. Robt. Morrissey, who brings the news, leaves at once for Skaguay, and will start from there on the 2,100-mile trip over ice to the new diggings.

TIMES MUNICIPAL VOTING CONTEST.

State of the Poll in the Great Municipal Campaign.

It will thus be seen that Ald. Dawson has the distinction of leading in both the mayoralty and aldermanic contests. This cannot be otherwise than gratifying to Ald. Dawson, showing, as it does, the esteem in which he is held by hundreds of the working men of the town, three out of four of whom mark their ballots for "Honest Adam Dawson."

A subscriber writes.—It is about time that the men who propose to offer themselves for election to the office of Mayor and Council should publish their addresses. I think I speak for hundreds of my fellow ratepayers when I say that the man who fails to state his policy in regard to public matters, especially as to the engineering department of the town, will not be elected. Hundreds of my fellow ratepayers will vote for the candidate who will boldly favor dispensing with a high-priced engineer, and employ an experienced, practical man, to look after our roads. Let us be honest with ourselves in this matter.

De captin den she's trow de hank,
But still dat scow she drift,
For de crew he can't pass on dat shore
Because he lose dat skiff.

De night was dark, like one black cat,
De wave was run high an' fas
When de capin take poor Rose
And he lash her to de mas'.

Den de captin put on de life preserve,
An' he's jump into de lac,
An' he's say, "Good-bye, me Rose dear,
I go down for your sac."

Nex' morning very hearly,
'Bout haf' pass two, tree, four,
De capin, cook, and wood scow,
Lay corpse upon dat shore.

For de win' she's blo' like hurrican',
Bimeby she's blo' some more,
For de skow buss up on Lac' St. Clar',
One haf' mile from de shore.

Moral.

Now all good wood scow sailor mans
Take warning by dat storm,
An' go an' marry one nice French gal,
An' live on one good farm.
Den wind she's may blo' like hurrican'
An' 'spose she blo' some more?
You can't buss up on Lac' St. Clar'
So long you live on shore.

VAN HORNE'S BIG CUBAN SCHEME

The Construction Machinery Worth Half a Million Bought

Havana, Dec. 8—Sir William Van Horne, who is here, says that the Cuban company is building its railroad in Santa Clara and Santiago provinces as rapidly as possible. Construction machinery worth $500,000 has been ordered, and gangs of a thousand men each have been distributed along the line, and it is expected that trains will be running in eighteen months.

The railroad is only a preliminary step to what the company expects to do in the development of a part of the island rich in natural resources. Sir William says that many millions of capital are to be invested. To get around the Foraker Act the company has purchased a strip of land in Santa Clara Province and Santiago Province, so as to operate on its own property without a concession. Senor Villalon, Secretary of Public Works, has investigated thoroughly the enterprise, and says the Cuban Company is within the bounds of the law.

Sir Williams denies that the Cuban Company is getting franchises from towns for street car lines, electric power, or anything of such a nature. It is not dealing in small enterprises.

FIGHT FOR LIFE IN BOWELS OF EARTH

Miners Imprisoned by Cave-in One Thousand Feet Beneath the Surface.

Scranton, Dec. 8.—Thirty-six miners and laborers had a narrow escape from death today in the Nay Aug mine workings at Dunmore. They were entombed for about four hours, and only managed to escape by digging a roadway through the mass of rock and earth that had fallen.

Mine Workman John Gibbons, who was one of the men, said that the party was working about 1,000 feet in from the mouth of the slope in the Dunmore, or top, vein. About 9 o'clock they felt a sudden rush of air, which blew out their lamps, and five minutes later they felt the earth tremble from the effects of the cave-in. The men at once made for the mouth of the slope, and only went about 300 feet before they encountered the fall, the gangway being completely filled up. All hands retreated to the far end of the mine and waited a half an hour for developments.

Feeling no more falling, they started to make their way out by means of an abandoned roadway. When near the entrance they again struck the fall, but Foreman Gibbons believed that it could be gone through, and they started to dig. At 1 o'clock this afternoon the men stalked out into the open air.

The scenes around the mouth of the slope were heartrending, women and children crowding to hear the latest from inside.

The cave-in covered about five acres, many of the fissures in the earth being two feet wide.

MADE AMERICAN CITIZENS

First Papers Issued to Former Soldiers in the Boer Army.

New York, December 8.—The first two Afrikanders to apply for naturalization in the United States District Court here got their first papers this afternoon. They were also the first two applicants who were participants with the Boers in their war with England.

The applicants are Hercules David Viljoen, 41 years old, and Andreas Jacobus Delenberg, 55 years of age. Both were former residents of Cape Colony, South Africa. They arrived here November 2. After the papers were made out the two men went before United States Commissioner Shields and foreswore allegiance to the Queen of England.

Mr. Viljoen speaks English fluently, but his elder companions has some difficulty with the language. Both are men of considerable education and seem to be very prosperous. They admitted having been with the Boers in their way and said frankly that they had had enough of exciting times.

PEACE OF WORLD BEFORE KRUGER

Reasons of German Emperor for Giving Cold Shoulder to Paul.

Berlin, Dec. 8—In the Reichstag yesterday, answering Herr Rossicke's interpellation regretting that Mr. Kruger had not been received, but had been turned away from the gates out of regard for another power, contrary to the feeling of the nation, the Minister for the Interior replied that it was comparatively easy for irresponsible deputies to give expression to certain popular currents of opinion, but a man occupying the responsible post of Chancellor of the German Empire, who was answerable not only for the peace of Germany, but also, under certain circumstances, for the peace of the whole world, could not allow himself to be influenced by such popular and continental waves of opinion. For him there was but one course — to preserve the peace, safety, welfare and interests of the Fatherland.

Genuine Patriotism

Ladies of Canada:

While statesmen and politicians argue the Zollverein and differential trade within the Empire (which they will do while law displaces common sense), settle this matter for yourselves.

Your brother colonists of Ceylon and India are growers of pure teas, Black and Green. Canadian and United States importers supply you with 11,000,000 pounds annually of Japan teas, yet they know Japans are artificially colored and adulterated. Let the knowledge of these facts and the sentiment of patriotic sisterhood move you to help the British planter.

British-grown Black Teas hold the Canadian market. Drinkers of Japan tea should try the Greens now coming on the market, and your dainty palates will approve them. Yes, we hear your grocer's excuses; but insist. Ladies can always get what they want. Remember how you ran your husband to—well, do they still think it Paradise? They certainly will if you give them Ceylon and India green tea. Blue Ribbon, Monsoon and Salada packets are now obtainable.

Salada.

DeWET REATEN BACK FROM BORDER BY KNOX

He Failed to Carry Bridge and was Forced to Abandon Five Hundred Horses and Many Carts

London, Dec. 8.—Cape Colony breathes once more. The threatened invasion by General De Wet has been averted and the redoubtable guerilla, after meeting defeat at the hands of the British, is again heading to the north, having abandoned five hundred horses and many carts, a fact which speaks volumes for the serious plight in which he is now placed. The Boer leader met his check at the Commassie Bridge, or drift, which is on the Caledon River midway between Smithfield and Rouxville, in the south-easterly corner of the Orange River Colony. De Wet and his men were evidently marching from Smithfield, intending to cross the river, proceed to Rouxville, whence the road leads to Aliwal North, where there is a second bridge into Cape Colony over the Orange River. The point of the encounter is fourty miles from the border of Cape Colony, and it is satisfactory to note that the vigilant guard placed by Kitchener upon all the bridges and drifts has done it work so thoroughly as to keep De Wet so far from the colony, his incursion into which would have undoubtedly created serious trouble, if not a revolt. De Wet is now retreating upon the valley of the Caledon, which runs northeasterly, and there is every prospect of his capture.

DE WET FAILS IN HIS ATTEMPT.

London, Dec. 8.—The War Office has received the following despatch from Gen. Kitchener, dated Dec. 8.

"Just received news from Knox, at Rouxville, that Dewet's force, having failed to force Commassie bridge, which we held, has trekked northeast, abandoning five hundred horses and many carts. His attempt on Cape Colony, therefore, has failed. He is being pressed on all sides.

HOPEFUL OF CAPTURE DE WET.

Aliwal North, Cape Colony, Friday, Dec. 7.—Gen. Dewet appears to be in a most dangerous position and to need all his strategy to extricate his force. With strong British columns on three sides and two swollen rivers barring his front, the British commanders begin to be hopeful that the great chase of four columns, which has been one of the most exciting operations of the war, will result in the capture of Dewet. Definite news of his whereabouts was first received Dec. 2.

The next morning Gen. Knox started in hot pursuit. Pilcher's and Herbert's columns were detached to make a turning movement. After three hours' march, Gen. Knox learned that during the night Dewet had doubled back past the British right, necessitating a complete change of plans.

During the night of Dec. 3 Gen Knox encamped on the Carmel farm, the site of the Boer laager, which had evidently recently and hurriedly moved. Gen. Knox started again at daylight, hoping to corner Dewet, while crossing Karroopoort drift, but he arrived too late. The British experienced very great difficulty in following Dewet owing to the rise in the river, but they succeeded in crossing without the loss of a man or beast. From this time the pursuit of the Boers was taken up without baggage, the troops being supplied by foragers, enabling to make more rapid movements, by which the British were able to keep in touch with the republicans.

ROBERTS REACHES CAPE TOWN

Cape Town, Dec 8.—Lord Roberts arrived here to-day from Port Elizabeth. He was accorded a splendid reception. The mayor, councillors, the citizens' committee and thousands of sightseers met him at the docks and escorted the Field Marshal to Government House.

DE WET SUPPORTED BY CAPE.

London Dec. 8.—The War Office officials are greatly disturbed by the successful guerilla tactics of General De Wet, but they cherish the idea that he must soon cease to be dangerous, owing to the inability to secure new horses. Efforts are being made to keep De Wet away from the Cape Colony frontier, for the War Office believes he is getting the bulk of his supplies from Cape Colony and to prevent him from securing food, men, and horses, orders have been issued that the Boer farmers be only allowed to buy small quantities of provisions sufficient for their own immediate needs.

WHY KRUGER WAS TURNED AWAY

Berlin, Dec. 8.—In the Reichstag yesterday, answering Herr Rossicke's interpellation regretting that Mr. Kruger had not been received, but had been turned away from the gates of Germany out of regard for another power, contrary to the feeling of the nation, the Minister for the Interior replied that it was comparatively easy for irresponsible deputies to give expression to certain popular currents of opinion. For him there was but one course—to preserve the peace, safety, welfare and interests of the Fatherland.

KRUGER WILL TELL THE TRUTH

London, Dec. 8.A despatch to The Daily News from The Hague says that ex-President Kruger and Dr. Leyds intend to show the world that the invasion of Natal by the Boers was not a foolhardy adventure, and will declare what encouragement they received from European Governments. The despatch quotes Mr. Kruger as saying: "The truth must be known. It will be seen that I did not go rashly to war."

CAVALRY FROM CANADA.

London, Dec. 8.—The suggestion has been made that a permanent body of cavalry reserves can be recruited in Canada and Australia. This force would not be called upon to preform work in the colonies, but would receive pay as reserves from the Imperial Government during a time of peace and be liable for service in war time for the defence of the Empire at the highest raits paid for local military service in Canada and Australia. Advocates of this plan assert that 10,000 cavalry reserves could be enrolled in Canada and the same number in Australia.

CANADIANS AT THE WAR OFFICE.

London, Dec. 8. —Colonel Burchan, eight officers and 100 Canadian soldiers were guests of the War Office at Woolwich to-day, adn were shown through the war factories. The gun carriage factory was handsomely decorated with flags and maple leaves carved in wood, and mottoes such as "Welcome, Canadian Cousins." The Canadians were entained at luncheon at the Royal Artillery Barracks, and espicially honored on their march through the decorated streets by the presence of the band of the 10th Hussars. To-day marks the close of their entertainment. The Canadians will sail on Tuesday from Liverpool for Canada on the Lake Champlain.

MILITA ORDERS ISSUED

Ottawa, Dec. 8.—Militia orders issued yesterday contain the following extracts from army orders published in South Africa: Lieut.-Col. W. D. Gordon, Royal Canadian Regiment, is attached to the staff of the base commandant Cape Town, from July 1, 1900, and is graded as a D.A.A.G. for pay and allowances.

Major R. MacDougall, Royal Canadian Regiment, from railway transport officer, to be D.A.A.G. for entraining at Cape Town, vice Lieut.-Col. J. K. Wyndham, army service corps vacated that appointment on promotion.

Lieut.-Col. F. L. Biggar, 15th Batt, Canadian militia, is graded as a D. A. A. G. for pay and allowances while attached to the staff of the base commandant, Cape Town.

Trooper W. H. Peebles, 2nd Canadian Mounted Rifles, is attached to the army service corps, and to have the rank of Second Lieutenant while so employed.

GENERAL DE WET HARD PRESSED.

London, Dec. 8.— A despatch from General Kitchener, dated [illegible], Dec. 7. confirming the [illegible] Aliwal North that General De Wet's main force was hard pressed, that Gen. Knox captured the Krupp gun which De Wet abandoned near the Caledon River and continued in pursuit of De Wet. The despatch says that while the British were handing over women at the request of the Boers under a flag of truce at Belfast Wednesday, Dec. 5, a force of 100 Boers unsuccessfully attacked a neighboring infantry post.

NO PRESENT FOR KRUGER.

New York, Dec. 8.—Mr. Kruger will receive no present from Vienna, says a Herald despatch from the Austrian capital. This is not, however, because he has lost the sympathies of the non-political section of the Vienna population.

The man who organised this homage to Mr. Kruger, Demeter Kaplanski, has been found, it is alleged, to be a swindler. He has been arrested, and the present, consisting of two valuable shields, two fine water colors and a box weighing a thousand kilos, containing five hundred thousand signatures, has been seized in the interest of his alleged victims.

SECENTEEN THOUSAND SHEEP

Johannesburg, Dec. 8.—The Boers captured 17,000 sheep from a small detachment of English troops in the vicinity of Krugersdorp.

ON A BRITISH BATTLESHIP

Lisbon, Dec. 8.—King Carlos I., Queen Marie Amelie and Prince Royal Louis Philippe, accompanied by the members of the Cabinet and other dignitaries, were entertained at luncheon on board the British battleship Majestic by Vice Admiral Sir Harry Rawson to-day. The Portuguese hymn was sung and Admiral Rawson proposed a toast to the royal family. The King replied in English, thanking Admiral Rawson for the sentiments expressed. The royal visitors remained aboard the battleship three hours, and later assisted at an entertainment at the British Legation.

MAJOR SENDERS DISCHARGED.

London, Dec. 7.—It is announced by the War Office that Major Sanders, of the Canadian Mounted Rifles, who was wounded near Reitfontein when Major Chalmers was killed, has been discharged from hospital on Nov. 25th, and has returned to duty with his battalion.

BOERS SUFFERED HEAVILY.

Pretoria, Dec. 8.—It is stated that the Boers suffered heavily in the attack on the British convoy that was proceeding from Pretoria to Rustenburg. Their casualties are estimated at 100. They were also frustrated in their attempt to obtain supplies.

ROBERTS AT PORT ELIZABETH.

Port Elizabeth, Cape Colony, Dec. 7—Lord Roberts arrived here this morning on board the Canada and was accorded a splendid reception. The field marshal drove around the town, received a number of addresses and then re-embarked on the Canada.

CIVIC CORRUPTION

A strong side light on municipal government radiates from Scranton, Pa. Its civic servants had become so corrupt that resort was finally had to the organization of a municipal league, which relentlessly pursued the offenders regardless of all personal and party influence until the councilmen stood before the world as guilty of the heinous crime of bribery. This done, the league has surprised the public by compounding the offence. "It is true," says the Philadelphia Record, "that the punishment to be inflicted on the guilty men is such as to make of them constant reminders to the people that vigilance is the price of honest government; but the fact that they have been allowed a preference instead of having been forced into court has an appearance of consideration to which scoundrels of this type have no claim. It is a shock to the sense of public morality."

It is a necessity of municipal government that we shall have these frequent lapses from the paths of honesty? Unfortunately the men chosen to sit in the municipal councils are often any but our best citizens. Then the temptations that assail these men together with an absence of a direct oversight by the taxpayers prove too strong for them and they falter and fall. These facts, while they explain, do not excuse the guilt of public servants. Nor can one wholly acquit the public of the charge of being guilty of contributory negligence. If the citizens will have honest civic government they must choose honest men and then encourage them to maintain their honesty.

THE ASSESSMENT ACT

The Ontario assessment law is fearfully and wonderfully made. Its action is splendidly erratic as the Hamilton Herald points out. It says: "Another example of the mystery of our beautiful assessment law: Mr. Moodie sells his Cataract Power company stock and clears $100,000 profit on the transaction. He promptly invests the money in other stocks. Judge Snider decides that this $100,000 which he cleared is not assessable as income, but only the income derived from the stock which he invested in. If Mr. Moodie, instead of investing his money in stocks, had put it into the bank, he would have had to pay the city $2,000 income tax on that $100,000. The effect of Judge Snider's decision is that if a man makes a big income from speculation, he can evade the payment of an income tax on it by promptly re-investing his income."

ENGAGEMENT BROKEN

There Was No Longer Anything in It to Make It Interesting.

"So your engagement is broken?" said the girl in gray.

"Yes it is," replied the girl in brown, frowning at the recollection.

"What was the matter?"

"He basely deceived me," answered the girl in brown. "You see, it was this way. I asked him one day to promise me that he never again would smoke cigarettes, and he promised. Then I asked him to refrain from the use of tobacco in any form, and he promised to do that. Later I told him I had a horror of any one who touched liquor, and he agreed never to touch it. After that I told him I thought clubs had a bad influence on young men, and I should expect him to give them up, and he said he would. I also took up the subject of gambling, and made him promise he would stop playing cards and betting on the races."

"Well, you didn't demand a great deal of him, did you?" said the girl in gray. "I suppose he deceived you in the matter?"

"He did."

"Broke his promise, did he?"

"Oh, no! I could have forgiven that. But just when I was congratulating myself that I at least had reformed one young man, I found that he didn't require any reforming. He wasn't addicted to a single one of the habits I made him promise to break. It was a terrible shock, and I broke the engagement at once. There was no longer anything in it to make it interesting."—Pearson's Weekly.

Second Hand Tea.

Do you drink second hand tea? Of course you don't if you know it, but the trouble is that it is on the market, and you can't tell it from the fresh article by looking at it.

"Collecting tea leaves that have been used is getting to be quite an industry," said a well-known hotel man. "After the tea leaves have been drawn we have no further use for them, and in many restaurant and hotel kitchens by paying the cook a small amount the leaves will be saved. Once a week a man calls for them. He has a big bag into which they are hastily dumped.

"These leaves are then dried and put on the market. This second hand tea sells at a lower price than fresh tea, and finds many buyers."

Katie at the Phone.

Katie is just over, and she is employed as a domestic in a big house surrounded by shade trees on the Case farm. She is as willing as a hungry mosquito, but there are things she has not yet learned.

Katie is having a hard time at mastering the telephone. She has had many lessons and long, but there is a mystery about the whole thing that inflames her superstition.

"Any one call or ask for me by telephone while I was out, Katie?" asked the mistress.

"Indade they did, mum. The box jingled, and a lady wid a voice like a coffee mill says 'Hello,' and I says 'Hello yerself,' and she says, 'Who is this?' and I says, 'None of yer business.' And she says, 'Is Aunt Mary there?' And I told her she'd betther ask a policeman, and she foired somethin' in my ear, and I dared her to show the ugly mug of her back of our barn, and she said nüthin'. I'll talk in that machine no more, mum.—Detroit Free Press.

He Means Business.

Now, here is a poet who is practical enough. He hails from Dooly county, and it will be seen from his letter that he means business. He writes:

"I have wrote a poem about one hundred yards long—as nigh as I kin guess. It took me six months and two hours to write it. I ain't no judge o' these things, an' what I want to know is where I kin hire a good man to read it for me an' tell me what it is? To sich a man I will pay one dollar a day till he gets through; only he mustn't take too long!"—Atlanta Constitution.

Origin of the Christmas Tree.

The pleasant and poetical idea of the Christmas tree comes from Germany, and not from England. Coleridge, writing from Ratzeburg, in 1799, spoke of the custom as something novel to him, and thus describes it:

"On the evening before Christmas Day one of the parlors is lighted up by the children, into which the presents must go. A great yew bough is fastened on the table at a little distance from the wall, a multitude of little tapers are fastened in the bough, but so as not to catch it till they are nearly burnt out, and colored paper hangs and flutters from the twigs. Under this bough the children lay out in great order the presents they mean for their parents, still concealing in their pockets what they intend for each other. Then the parents are introduced and each presents his little gift, and then bring out the rest one by one from their pockets and present them with kisses and embraces. Where I witnessed this scene there were eight or nine children, and the eldest daughter and the mother wept aloud for joy and tenderness, and the tears ran down the face of the father, and he clasped all his children so tight to his heart it seemed as though he did it to stifle the sob that was arising within him. I was very much affected."

A Fine Baby

Makes any mother proud. There are a great many proud mothers whose children have been puny and sickly until they began the use of Dr. Pierce's Favorite Prescription. That medicine which "makes weak women strong" has given them the strength to bear hearty, and healthy children for the first time.

"Six years ago after the birth of one of my children I was left in a weak run down condition," says Maria O. Haysel, writing from Brookland, D. C. "My health seemed utterly gone. I suffered from nervousness, female weakness and rheumatism. Life was a burden. I doctored with three different physicians and got no relief. I tried several patent medicines, all with the same result. I began to get worse and to add to the complications I suffered terribly from constipation. I chanced to see one of your advertisements and I commenced to take Dr. Pierce's Favorite Prescription and 'Pleasant Pellets' and began to improve right away, and continued improving and gaining in strength. I cannot express the relief, it was so great. Seven months later my little daughter was born without much trouble. I feel that I would never have been able to endure my confinement only by the help due solely to Dr. Pierce's medicines. She was a fine healthy child and the only one I have ever been able to nurse. She is now two years old and I have never had to take any medicine since, so I feel that your medicine has made a lasting cure with me."

Read the following letter received by the Principal of the
CANADA BUSINESS COLLEGE
Chatham, Ont.
and learn how highly the graduates of this school are thought of by the business public.

"Oct. 15, 1900.
Gentlemen,—We have openings now for two or three good male stenographers who had had experience, and it occurred to us that a large number of stenographers and other office men, who have graduated from your school from time to time and are now holding positions, might desire to better themselves. If you can put us in communication with some of your old graduates, who have had two or three years' experience, we should be under obligation to you."

We might mention that the concern represented in the above letter has a Capital Stock of Five Million Dollars.

When you read such evidence as the above, need you be surprised that during the period of thirteen and a half months ending in October, 348 positions were filled by our pupils.

It pays to attend CANADA'S GREATEST SCHOOL OF BUSINESS OR SHORTHAND, if you wish to thoroughly qualify yourself for office work and be assisted to a position when graduated.

The Latest Method Treatment

No medical discovery for years has proved as successful as Dr. Goldberg's Latest Method Treatment. It is the outcome of years of experience; it vitalizes the system, equalizes circulation, removes all obstructions, consequently is the only method recognized as a speedy and permanent cure for Varicocele and Stricture, without use of knife or loss of time; it absorbs the wormy condition, also the stricture, stops the smarting sensation, unnatural discharge, thereby strengthening the parts as well as the back, and restores lost powers.

Blood Poison readily yields to its influence; it thoroughly eradicates the poison from the system; if you have sore throat, patches on tongue or mouth, swollen glands, hair falling out, blotches on body, itching skin, or other signs of this awful disease, you will find the Latest Method Treatment will cure you without Mercury or Potassium.

SLAVER GORDON

Hung on Bedloe's Island in the Year 1862 —End of the Slave Trade.

On Bedloe's Island is still pointed out the spot where Gordon, the slaver, was hanged in 1862. His execution did more than any other one thing to put an end to the slave trade. John R. Spears, in an article in Scribner's, says:

"The slave ship Erie, which was captured off the Congo on August 8, 1860, was brought to trial.

"The master of the Erie was Captain Nathaniel Gordon, a slaver of experience. On the afternoon of August 7, 1860, he took on board 890 (one account says 897) slaves, of whom 172 were men and 162 grown women. Gordon was one of those infamous characters who preferred to carry children because they could not rise up to avenge his cruelties. He was captured fifty miles off shore and sent to New York. Here he was brought to trial as a private under the statue of 1820. The first trial resulted in a disagreement of the jury. On November 6, 1861, he was put on trial again, and on November 8 the case went to the jury. Two hours later a verdict of 'Guilty' was returned. On November 30 he was sentenced to die.

"Up to that moment no great interest had been taken in the trial. The slave-ship owners of New York, owing to the state of public opinion regarding the war then in progress, had allowed Gordon to face his trial without showing any activity in his behalf. But now they used every endeavor to obtain a pardon and then a commutation of the sentence. But the time had come when a slaver pirate, duly convicted, must suffer the penalty provided by law for his crime. He must suffer in spite of petitions and in spite of threats of rescue by a mob of slaver sympathizers. A battalion of marines would even be sent from the Navy Yard to protect the officers of the law in enforcing the sentence.

"At noon on February 21, 1862, Gordon was taken from his cell to the gallows. His bravado forsook him then, and with lolling head he shambled to the rope, supported by two deputies. There the noose was quickly adjusted, an ax blow released the weight, and his body was jerked into midair.

"The stroke of that ax on the cord was the hardest blow the slave trade had ever received. There were, indeed, slavers afloat thereafter. While the market existed and such enormous profits were to be made even the severest measures could perhaps, but repress. By a treaty with Great Britain, made on February 17, 1863, the limits of the territory wherein the mutual right of search existed were greatly extended. Even as late as 1870 Great Britain and the United States had to strengthen still further their agreement for the suppression of the trade, because a few slavers were yet afloat, and it was not until 1886 that the Spaniards in Cuba ceased to import unfortunate Africans. Nevertheless, when it became known that the American people would hang a slaver as a pirate the end was at hand. As the rope creaked to the weight of Gordon's dishonored body it sounded the death knell of the slave trade."

The Chinese Aversion to Cold Water.

The healthiness of Chinese cities has been ingeniously attributed by some people to the universal habit of fanning, a practice which is said to keep the atmosphere in constant circulation. How far this explanation can be deemed to suffice we must leave experts to decide, but, so far as a contaminated water supply is concerned, we believe that the real secret of immunity from its evil effects lies in the universal custom of boiling all water intended for drinking.

As a matter of fact, the Chinese never drink cold water. The national beverage, which, in a true sense, may be said to cheer but not inebriate, is tea, and this is always "on tap," even in the houses of the very poor. The native aversion to cold water is undoubtedly carried to extremes, and certainly induces diseases which might easily be avoided if a judicious system of outward application.

In the matter of ablution it must, however, be admitted that the Chinese enjoy facilities which, however little they are taken advantage of, are far in advance of anything within the reach of the poorer classes of our own favored land. Every little hamlet in China has a shop where hot water can be bought for a trifling sum at any hour of the day or night.

The World is Growing Smaller.

In 1850 England was thirty-two days from India. Now it is but seventeen; a ship as fast as the Deutschland could make it in ten.

In 1850 New York was from three to six months from China by clipper ship. Now it is seventeen days by rail to Vancouver and by ship to Shanghai.

In 1820 immigrants came to this country usually in about forty days. Often they ran into storms and helped man the pumps. Now they come in a week in comfort.

In 1845 the postage on a letter from New York to Wisconsin was 25 cents. People wrote long letters in those days in a fine copperplate hand on thin paper—to get the worth of their money—but they wrote seldom.

The Suez Canal halved the time it took heavy freight to go from the Atlantic Ocean to the Indian. The Nicaragua Canal will perform a like service for the Western World.

Seventy years ago it took a day and a half to go from New York to Philadelphia.

Fifty years ago news from Europe reached America in two weeks. Now it comes in two minutes.

The War of the Rebellion cost the United States $6,189,929,900. The number of federal troops was 2,859,132.

Powley's Liquified Ozone

New System of Treating Disease

CURES THOS. ALISON OF BRIGHT'S DISEASE OF THE KIDNEYS.

To tell of the great good done him by Powley's Liquified Ozone, is the motive which compelled Thos. Alison, Esq., the well known woolen importer of 11 Colborne St., Toronto, to give his testimonial for that preparation. Mr. Alison is rated in any commercial agency at hundreds of thousands of dollars; he had the very best treatment and yet he only obtained relief from the awful torture of Bright's Disease of the Kidney through Powley's Liquified Ozone. He says: Some years ago I was taken with a bad attack of Kidney Disease. I used to suffer a great deal from pain in my back, and for a time I fancied I had a touch of sciatica. The pain would be especially bad in the morning, and I tell you it was an agony to get to bed. It seemed as though a hundred sharp knives were stabbing me. This sort of thing went on for some time, and I tried the best physicians in the city. In the spring of this year, a friend of mine recommended me to take Ozone. I hadn't much faith in it, but resolved to give it a trial. It took three bottles to cure me. The relief was remarkable in a short time, and I have not been troubled since. Have recommended it to a number of my friends, who have also had good results. Ozone is a fine remedy for stomach or kidney disease. It never fails to produce good results.

Signed, THOS. ALISON,
11 Colborne St., Toronto.

Powley's Liquified Ozone is $1.00 a large bottle, 50c. small size. All druggists, or from the laboratories of the Ozone Co., of Toronto, Limited, 48 Colborne St., Toronto. Also by W. Madill.

THE LIGHT OF THE WORLD
or
OUR SAVIOUR IN ART.

Cost nearly $100,000 to produce. Contains nearly 100 full-page engravings of our Saviour and His Mother by the world's greatest painters. True copies of the greatest Masterpieces in the art galleries of Europe. Every picture is as beautiful as a sunrise over the hilltops. Contains description of the paintings, biography of the painters, the names and locations of the galleries in Europe where the original may be seen. Also contains a Child's Department, including a Child's Story of Christ and His Mother, beautifully written, to fit each picture. This wonderful book, matchless in its purity and beauty, appeals to every mother's heart, and in every Christian home where there are children the book sells itself. Christian men and women are making money rapidly taking orders. A christian man or woman can in this community soon make $1,000 taking orders for Christmas presents. Mrs. Waite, our agent in Massachusetts, has sold over $2,000 worth of the books in a very short time. Mrs. Sackett, our agent in New York, has sold over $1,500 worth of the books in a very short time. The book is printed on velvet-finished paper, beautifully bound in Cardinal Red and gold, and adorned with Golden Roses and Lilies. It is, without doubt, the most beautiful book of this century. Write for terms quickly and get the management of that territory. You can work on salary or commission, and when you prove your success we will promote you to the position of Manager and correspondent, at a permanent salary, to devote your time to attending to agents and the correspondence. Wanted also a State Manager to have charge of office in Leading City of the State and manage all the business of the State. Send for terms. Address—

THE NEW METHOD TREATMENT, original with Drs. K. & K., will positively cure forever any form of Blood or Sexual disease. It is the result of 30 years' experience in the treatment of these diseases.

WE CURE SYPHILIS

This terrible Blood Poison, the terror of mankind, yields readily to our NEW TREATMENT. Beware of Mercury, Potash, etc. They may ruin your system. If you have sores in the mouth or tongue, pains in the joints, sore throat, hair or eyebrows falling out, pimples or blotches, stomach derangement, sore eyes, headaches, etc., you have the secondary stage of this Blood Poison. We solicit the most obstinate cases, and challenge the world for a case we accept for treatment and cannot cure. By our treatment the ulcers heal, the hair grows again, pains disappear, the skin becomes healthy, and marriage is possible and safe.

A WONDERFUL

KIDNEY and Bladder CURE

The Honorable Chairman of the Board of County Commissioners, Ellsworth, Kansas, tells how ALKAVIS cured him after Doctors and all other Remedies had Failed.

BRIGHT'S DISEASE, GRAVEL, DROPSY,

And Rheumatism Mastered at Last.

I. A. HOPKINS.

One of the most remarkable medical discoveries of the century is the Kava-Kava Shrub, found on the Ganges River, East India, which has a wonderful action on the kidneys and bladder. Since its introduction into this country its fame has quickly spread, because of its seemingly impossible cures. Prominent men and women have testified to its great curative powers, and hospital tests prove its infallibility even in advanced stages of Bright's Disease. Among the more recent recoveries is that of Hon. I. A. Hopkins, Chairman Board of County Commissioners, Ellsworth, Kansas, who says:

GENTLEMEN:—I will say that I believe and know that I owe my life to Alkavis. I had been troubled with Kidney and Bladder Trouble for years. Two years ago I was sick for six weeks with Malarial Fever which left me in a bad condition. My limbs were swollen with Rheumatism so that I could hardly walk; I was troubled with Indigestion from taking Medicine for my Urinary troubles which had become very much worse. I had to get up every hour of the night to urinate. I passed great quantities of blood on account of hemorrhage of the Kidneys and Bladder. I tried and had been trying everything in the shape of Medicine for Kidney Trouble that I could think of or that the Doctors recommended, but nothing helped me for I kept getting worse. I suffered great pain continually in my Kidneys. I made up my mind unless I could get relief that I only had a short time to live. About this time my attention was called to an advertisement of Alkavis. As a drowning man will grasp at a straw, I was ready to try anything for relief. I sent to you for three bottles. I began to take it, and before I had taken it one week I began to feel the good effects of Alkavis. My Kidney Trouble and Rheumatism were soon gone, my digestion became all right. I found myself in better health than for ten years and I am in good health now. I know that Alkavis saved my life. What more can anyone say for a medicine? Unlike most medicines it is good for indigestion. It gives the person taking it a good appetite. I have recommended Alkavis to a great many people and all have been benefited by its use. I am 53 years of age, and am very grateful for what Alkavis has done for me.

Respectfully yours, I. A. HOPKINS.

Rev. W. B. Moore, D. D., Washington, D. C., Editor *Religious World*, writes that after trying all known medicines for kidney and rheumatic diseases he was permanently cured by Alkavis. Mrs. Wm. H. Hardy, East Rush, Pa., writes that Alkavis cured her after six doctors failed. Rev. J. W. Hickman, Collyer, Trego Co., Kansas, cured of liver, kidney and bladder trouble, of many years' standing, from which he could only get temporary relief and had given up all hope of a cure. Thus the grand work goes on. A new book, entitled "A Thousand Living Witnesses," sent with the free case of medicine, tells of the wonderful cures performed in every state.

Not only does this great discovery—Alkavis (the Kava-Kava Compound)—cure all forms of kidney and bladder diseases, but by expelling from the blood all poisonous deposits, excess of lime, uric acid, urates and lithiates, it banishes gravel, torpid liver, rheumatism, pains in back, difficult and too frequent urination, etc. The cure is complete. No phase is neglected, and the stomach, heart and nerves are toned and invigorated. No other medicine in the world will perform the work of Alkavis. To enable sufferers to get well and spread the glad tidings we have arranged to send a Large Case of Alkavis FREE by mail to all who write us. The case goes entirely FREE.

If you are a sufferer, write to-day and secure at once a Free Case of Alkavis and Book of "A Thousand Living Witnesses." Address The Church Kidney Cure Co., No. 500 Fourth Ave., New York. Please mention this paper.

THE COLORADO COPPER MINING COMPANY

LOCATION OF OUR MINES

THE COLORADO COPPER MINING COMPANY is fortunate in being the possessor of five splendid showing properties in the great Salida copper belt, the principal copper producing region of this portion of the rockies. All of our claims have been more or less developed and it is our purpose to put the same on a paying basis at once.

Our Company owns, clear of incumbrances the following claims,—The Sedalia Extension, the Sedalia Extension No. 1, which property adjoins the great Sedalia mine, which has been a big producer for upwards of seventeen years; the Copper King of Colorado, which immediately adjoins the above; the Copper Queen of Salida, a very promising property, only a few steps from the depot in Salida. This claim occupies an imposing position on a mountain just north of the city; and last, but by no means least, the Sunshine, located two miles east of Salida at Cleora station, on the main Trunk line of the great Denver and Rio Grande Railroad, also on the Arkansas river, which in length is one of America's greatest streams.

Send your order right NOW, before the next advance, as you will soon pay a higher price. Investors are rapidly investing with us.

The company fully prepays all government revenue, postage, etc. Send also for our handsomely illustrated prospectus, which contains much valuable information. It is free for the asking.

All communications of every nature concerning this company should be plainly addressed to

The Colorado Copper Mining Company,
Mining Exchange Building, Denver, Colorado.

THE WONDERLY GOLD MINING COMPANY, limited

CAPITAL $1,000,000, Divided into Shares of $1.00 each.

Incorporated under Ontario Laws. Non-assessable.

This Company was formed for the purpose of purchasing and working seven gold claims on the Saskatchewan river, near Edmonton.

These claims have been worked some, and in the summer of 1900 D. F. Loveland, the former owner and president of the Company, had a dredge at work, and although only able to handle 200 yards of earth per day, there was from $30.00 to $50.00 of gold taken from that amount of earth daily, and thus demonstrating beyond doubt the great value of these claims.

The Company proposes to purchase one of the Risdon dredges, with a capacity of 2,500 cubic yds. a day.

The expense of running such dredge will be about $175.00 per week, and even if the dredge handles only 1,000 cubic yards a day, in six days, there will be taken out $1,500.00 worth of gold, with a profit of $1,325.00 in one week.

Sufficient stock will be sold at 25 cents per share to raise money to purchase the necessary dredge, after which the books will be closed and no more stock will be offered for sale.

There is no gold proposition on the market to-day equal to this one.

Application for stock can be made to any of the Directors, or to the Secretary, or to W. T. McNeil, broker, St. Catharines.

OFFICERS:

PRESIDENT—D. F. Loveland, capitalist, Galena, Illinois.
VICE-PRESIDENT—Arthur P. Forster, mechanical engineer, Welland.
TREASURER—Dr. T. G. Wonderly, Galena, Illinois.
SECRETARY—L. Clarke Raymond, barrister, Welland, Ont.
BANKERS—The Imperial Bank of Canada, Welland, Ont.

THE DIRECTORS are: The President, Vice-President, Treasurer, S. H. Glasgow, physician, Welland, and W. T. McNeil broker, St. Catharines, Ontario.

Subscriptions payable 25 per cent, on application, 25 per cent. on allotment and 50 per cent. in two months.

Brokers desiring to handle stock in this company will please communicate with W. T. McNeil, official broker, St. Catharines, Ont.

SOLICITORS—MESSRS. RAYMOND & COHOE, WELLAND, ONTARIO.

Prospectus free on application.

HEAD OFFICE, - WELLAND, ONTARIO.

A GOOD THING. PUSH IT ALONG.

IS WHAT WE SAY OF THE DEVELOPMENT OF THE PROPERTIES OF THE

IRON MOUNTAIN GOLD MINING CO.

They have three full claims in Republic, Wash., with $2500 worth of work done.

General Office, 327 Rookery Building, Spokane Washington.

THE PRESIDENT is Gen. A. P. Curry, formerly Municipal Judge of the City of Spokane and Brig. Gen. of the Nat. Guard of Washington.

VICE PRESIDENT—Mr. Geo. A. Barnes, a pioneer of this city, and engaged in mines and mining

TREASURER—Mr. W. D. Vincent cashier of the Old Nat. Bank, and who has held this position for the last ten years.

SECT'Y & ATTR'Y—Mr. Willis H. Merriam, a prominent attorney of Spokane, and nephew of General Merriam of the U. S. Army.

All of whom bear the highest reputation as being honest and conservative business men.

Mr. McLaughlin, of the "WINNIPEG," congratulates us on the fine showing in our shaft. He says:—"You have four feet of the finest quartz I have seen in the camp."

A British syndicate are working five men on an extension of our property to the east called the "Sylvanite," and have agreed to sink 100 feet

Our stock is non-assessable, and we are offering a limited amount at 2½ per share. No certificate issued for less than 100 shares. $5.00 will buy that amount.

For prospectus, maps and other information address the Secretary,

TOWN AND COUNTY NEWS

The Engineering Club

At the next meeting of the Engineering Club to be held in the Y.M.C.A. to-morrow evening at 8 o'clock Mr. J. B. McWilliams will read a paper on "Forestry." There should be a large attendance, as this is a subject of great interest, and will be ably handled by the speaker, who is perhaps the best authority in Canada on this subject.

The Clunan House.

Mr. Clunan has sold his interest in the hotel that bears his name, on the corner of Charlotte and Aylmer streets, to Mr. M. Tooley, who comes from South Ontario. Mr. Tooley is an experienced and successful hotel man, and intends to make things hum in the old Clunan stand. The hotel is to be entirely overhauled and greatly improved, which will make it one of the best houses in town.

8 Pieces of New Music for 10c.

To anyone sending us 10 cents we will send 8 pieces of New, Full Size, Copyrighted Music, the publisher's price of which is $4.00 Besides this we will send 24 pages of bright, interesting, illustrated stories and up-to-date articles. This is a fair and square offer or it would not appear in these columns. Address W. E. ANNIS, 1123 Broadway, N. Y.

The Citizens Band

What has been known for some time past as the S.O.E. band was reorganized Friday evening under the name of the Citizens' Band. The following officers were elected:—Mr. Joseph Crandfield, President; Mr. H. T. Everett, secretary-treasurer, and Mr. F. W. Miller, bandmaster. Committee of Management—Messrs. R. E. Austin, H. T. Everett, F. W. Miller and Joseph Crandfield. The band is now an independent organization, so far as affiliation with any other body is concerned.

Stony Lake Salmon

The Times was asked the other day how salmon came to be in Stony lake. For the benefit of those interested we might explain that 250,000 salmon fry was put in the lake by the government in 1875. It was mainly through the efforts of Mr. C. A. Post, who was at that time Secretory of the Peterborough Fish and Game Protective society, that the spawn was introduced to Stony Lake waters. It was a mistake, however, we think, as the salmon no doubt devour the fry of the natural fish of the water—bass and maskinonge.

Mr. Crane's Concert.

One of the most enjoyable annual events in musical circles is the entertainment given by the choir of St. Paul's Church. This year the concert will take place some time during the latter part of January, and will be looked forward to with interest and anticipations of pleasure. Mr. Crane has been preparing his choruses for some weeks, the excellent choir being assisted by representatives from every denomination in town, and will consist of about 65 voices. Outside talent of a very high order will be secured. Further particulars will be announced in due course.

Her Skull was Fractured.

Woodville Advocate: As a result of the tremendous wind storm of last Thursday, Miss Flora McIntyre, of townline Mariposa and Eldon, is now lying in a critical condition with a very serious fracture of the skull. It appears that during the gale Miss McIntyre went to the barn to close the door, she did so and put a stick against it to keep it close. Just as she was leaving Mr. Ken-Ure entered the barn by the door on the opposite side when the rush of wind forced open the door against which Miss McIntyre was standing with such force that she was hurled fully twenty feet and dashed with such force against a stone wall. When taken to the house and medical aid was summoned it was found that the skull was seriously fractured. The unfortunate lady lay in a state of utter unconsciousness until Saturday, and even at the time of going to press consciousness is not fully restored.

JOTTINGS ABOUT TOWN

—If a body meet a body
Who has got the dimes,
It's ten to one that both will say,
"Have you seen the Times?"

—The Poultry Association did not clear expenses in connection with their late exhibition.

—If the youngsters had to elect the Mayor, there'd be nobody in it with Santa Claus.

—How about school trustees. Let us not forget that the School Board requires the attention of the electors.

—The Ashburnham Reading Circle will meet to-morrow at Miss Scott's, Ashburnham, at 7.30 o'clock.

—Huron County Council proposes to meet in different towns, on the idea that it is a body that should learn what it can of the country it legislates for.

Rich, warm, healthy blood is given by Hood's Sarsaparilla and thus coughs, colds and pneumonia are prevented. Take it now.

—St. Peter's Court, C.O.F., will hold an At Home in their hall on Hunter street on Friday evening, Dec. 28th. Invitations will be issued shortly.

—Messrs. Kernegan & Gordon, who have conducted a grocery in the old post office building, will remove to the store further down street, next to the Peterborough Music Store.

—Mr. R. J. Munroe, who has now become a citizen of Peterborough, has been elected an honorary member of the Lakefield Curling Club, in which he was always an active spirit when residing in Lakefield.

Owing to ice in the river getting into the drive wheel at the power house yesterday there was no electric light nor power during Sunday night and early this morning. As a result the Times has been delayed in publication and much news omitted. The services in many of the churches last night had to be conducted by lamp light.

The regular monthly song service was held in the Charlotte st. Methodist church last night. The subject was: "Let there be light." The electric light was put in recently and was to have been used for the first time Sunday evening. The subject was also chosen to suit the occasion, and although there was no electric light. The singing was were substituded. The singing was good, and Rev. Mr. Crossley preached a very interesting sermon.

20 Years of Vile Catarrh.—Chas. O. Brown, journalist, of Duluth, Minn., writes: "I have been a sufferer from Throat and Nasal Catarrh for over 20 years, during which time my head has been stopped up and my condition truly miserable. Within 15 minutes after using Dr. Agnew's Catarrhal Powder I obtained relief. Three bottles have almost, if not entirely, cured me." 50c.—73
Sold by Ormond & Walsh.

Miss Alexandrina Ramsay, the great elocutionist, will appear at the Halpany Testimonial Concert at Bradburn's Opera House, Friday, December 14th.

One of the Good Things this Year

The new monthly, The Ladies' Magazine—the Canadian's woman's newspaper—is in its second issue with the Christmas number, and already its promised growth in strength and brightness is very apparent. The December number appears in a handsomely tinted cover, and its contents are of real interest to family readers, admirably printed and profusely illustrated. There is a beautiful full page frontispiece; three bright stories; an illustrated article on the work of the Victorian Nurses; a sketch, "Christmas with the College Girls"; two pages of fashion notes; the Month's Weddings, with portraits—one of the popular features of the Magazine; "The Table on Christmas Day," with illustrated receipts; "The Knack of Happy Gift-Making," and other holiday suggestions; Answers to Correspondents; and a page of news from Canadian women's societies. The whole number is bright—one of the best, and in price the cheapest, Christmas publications of the year—and a credit to Canadian journalism. Ten cents a copy.—The Hugh C. MacLean Company, Toronto.

SOCIAL AND PERSONAL

—Miss Alice Traynor, of South Ops, is visiting friends in town.

—Mr. J. B. Larocque, of the Montreal House, was in Lindsay on business on Friday.

—Mrs. F. Stiner and son, Herby, of Uxbridge, are the guests of Mrs. M. O'Neil, Reid street.

—Mr. Rufus Stevenson returned on Thursday last from Sault Ste. Marie, where he spent the summer.

Orillia Packet—Mr. F. T. Ross was in town last week engaging a number of men, to go out to work on his timber limits, in Peterborough county.

—Mrs. C. B McAllister and Miss Grace Barnet have returned from Toronto. Mr. and Mrs. Barnet, of Renfrew, are at present visiting at "The Pines."

CHILDREN SHOWED IT.

Effect of Their Warm Drink in the Morning

"A year ago I was a wreck from coffee drinking and was on the point of giving up my position in the school room because of my excessive nervousness.

"I was telling a friend about it and she said, 'we drink nothing at meal time but Postum Food Coffee, and it is such a comfort to have something we can enjoy drinking with the children.'

"I was astonished that she would allow the children to drink any kind of coffee, but she said Postum was the most healthful drink in the world for children as well as for older ones, and that the condition of both the children and adults showed that to be a fact.

"Just a little thought convinced me that one should not take a stimulant such as coffee, but really should have the best food to nourish the brain and nerves, and that nourishment was found in Postum.

"My first trial was a failure. The cook boiled it four or five minutes and it tasted so flat that I was in despair but determined to give it one more trial. This time we followed the directions and boiled it fifteen minutes after the boiling began. It was a decided success and I was completely won by its rich, delicious flavor. In a short time I noticed a decided improvement in my condition and kept growing better and better month after month, until now I am perfectly healthy, and do my work in the school room with ease and pleasure. I would not return to the nerve-destroying regular coffee for any money."—F. Scott, Warrensburg, Mo.

SECOND HAND COFFINS

They May Be Bought or Rented in New York City.

One of the queerest places in Greater New York is a little undertaker shop in Mulberry Bend, where second-hand coffins are kept. Its owner does a thriving business among the poor Italians of that section, and the same coffin often does duty on many occasions. One can either buy or rent a coffin from the obliging gentleman in charge.

To renters the price depends not only upon the original price of the casket selected but upon the length of time it is kept. From $5 to $10 is usually the price.

Here coffins may be hired by the day or month like dress suits. Poor people find this a convenience, since many of them are unable to buy a decent casket outright. The Mulberry Bend undertaker solves this difficulty as well as adds a ludicrous feature to a gruesome occupation by merely renting a coffin for a funeral.

When the corpse is lowered into the grave and the mourners have left, it is slipped into a heavy pine box and the coffin comes back in the hearse.

In the rear of this unique establishment is an altar fitted up for services, and when the home is small the funeral is held here. Some of the coffins are now in a most dilapidated condition. For years they have been in frequent use.

How Not to Get Sick.

Never lean with back upon anything that is cold.

Never take warm drinks and then immediately go out into the cold.

Keep the back, especially between the shoulder blades, well covered; also the chest well protected. In sleeping in a cold room establish the habit of breathing through the nose, and never with the mouth open.

Never go to bed with cold or damp feet.

These are the sensible suggestions of a writer in Table Talk, who then goes on with the following hygenic advice:

Never omit regular bathing, for unless the skin is in active condition the cold will close the pores and favor congestion or other diseases.

After exercise of any kind never ride in an open carriage or near the window of a train for a moment; it is dangerous to health and life.

When hoarse, speak as little as possible until the hoarseness is recovered from, else the voice may be permanently lost or difficulties of the throat be produced.

Merely warm the back by the fire, and never continue keeping the back exposed to heat after it has become comfortably warm. To do otherwise is debilitating.

When going from a warm atmosphere into a cooler one, keep the mouth closed, so that the air may be warmed by its passage through the nose ere it reaches the lungs.

An Overwhelming Thought.

Our sun is a third-rate sun, situated in the milky way, one of myriads of stars, and the milky way is itself one of myriads of sectional star accumulations, for these seem to be countless, and to be spread over infinity. At some period of their existence each of these suns had planets circling around it, which, after untold ages, are fit for some sort of human beings to inhabit them for a comparatively brief period, after which they still continue for years to circle around without atmosphere, vegetation or inhabitants, as the moon does around our planet. There is nothing so calculated to take the conceit out of an individual who thinks himself an important unit in the universe as astronomy. It teaches that we are less, compared with the universe, than a colony of ants is to us, and that the difference between men is less than that between one ant and another.—London Truth.

Greater Than Royalty.

When Robert T. Stewart was governor of Missouri it was in the days when everybody drank whiskey, and the governor was no exception to the rule. Years ago, when the Prince of Wales was on a visit to this country, they gave a grand ball in his honor in St. Louis. Governor Stewart came down from Jefferson City to honor the event with his presence. In the course of the evening the enthusiastic governor drank rather too much. He became exceedingly happy, as well as proud and enthusiastic. He and the prince were seated on the platform, while the beauty and aristocracy of St. Louis swept past them in gorgeous review. Stewart's feelings and bosom swelled. Eventually, in a mighty impulse of glow and glory, he administered a tremendous slap upon the prince's back, exclaiming with intense animation:

"Say, prince, don't you wish you were governor of Missouri?"

England's heir took it all in good part, and laughed, and paid no further attention to the governor's familiarity, otherwise his dignity might have sustained a severe shock.—Harry Norman in the St. Louis Republican.

Sucked the Poison From 15 Wounded Men

One of the stories of history which is always of interest to the young is that of Queen Eleanor sucking the poison from King Henry's wound after that monarch had been stabbed with a poisoned dagger. The Queen's devotion saved the life of the King, according to the story which the more austere historians look upon as apocryphal. But here is a modern instance which proves that the story is probably true:

In the recent fighting around Limu, in Nigeria, in West Africa, a detachment of British were ambushed by a force of natives, who poured in a showed of poisoned arrows upon them. Colonel Lowry-Cole and Captains Abadie and Bryan, three officers out of the four commanding the detachment, were hit by arrows. The poison which the natives use for their arrows has been known to prove fatal in a few minutes.

Dr. Thompson, the surgeon of the expedition, as soon as the officers were hit, sucked the blood from the wounds and with it the poison. As soon as he had attended to the officers he looked after the men; and found that fifteen had been hit. He gave the same treatment to them. All recovered. The doctor experienced no ill effects from his action.

"I see that Russia talks of dividing the year into thirteen months of twenty-eight days each, and every month to begin on Monday."

"Whew, think of the hard luck it would be to be born on the thirteenth day of the thirteenth month of the thirteenth year of the new style, at thirteen minutes after thirteen o'clock!"—Cleveland Plain Dealer.

If the sun were hollow like an air ball it would take 1,331,000 globes the size of the earth to fill it.

"A Good Paymaster Starts Not at Assurances."

There is one good paymaster who is around on time, gives full value, and never fails in his duty. It is your privilege to select him, and his name is pure, wholesome blood. This paymaster makes the rounds of the body, visits brain, stomach, kidneys, liver, heart and head alike. Hood's Sarsaparilla acts as a guarantor that this paymaster will do his duty.

If the blood is impure, it cannot do its duty, and you are the sufferer,—but you need not be. Hood's Sarsaparilla purifies, vitalizes and enriches the blood. *It never disappoints.*

A Progressive Firm

A store that is brimful of interest to clothing buyers, as well as brimful of elegant new clothing, is H. LeBrun & Co., of Montreal, the makers of the attraction is in the astonishing low prices and the abundance of reliable wearing apparel. The firm recently placed an order with Messrs. H. Shorey & Co., of Montreal, the markers of the highest grade of clothing in Canada, which amounted to about $4,000. Messrs. Ald. Shorey and Ross, the representatives of Shorey & Co., were making their semi-annual visit to H LeBrun & Co., for the purpose of clearing out their winter stock before starting to manufacture for the spring. Shorey's clothing has always appealed to men and young men of good taste, and when it is known that Messrs. LeBrun & Co's purchase was made at prices actually les sthan the cost of manufacture, the public can expect honest bargains, bordering on the remarkable. This great clothing surprise for Peterborough consists of the finest of overcoats, ulsters, reefers and, suits for men, young men and boys, and are as good as money canbuy. The prices will actually amaze you and the clothing delight you. You can depend on every garment, and you can't matcht he prices. With Christmas on the wing, chances like this will compel you to look up H. LeBrun & Co., sure. Cash discounts in trading stamps, etc., as well.

Miss Richardson, Canada's greatest Cellist will appear at the Halpany Testimonial Concert at Bradburn's Opera House, Friday, December 14th.

DOES IT NOT PAY TO

GO TO The Best.

Read the following letter received by the Principal of the

CANADA BUSINESS COLLEGE
Chatham, Ont.

and learn how highly the graduates of this school are thought of by the business public.

"Oct. 16, 1900.

Gentlemen,—We have openings now for two or three good male stenographers who had had experience, and it occurred to us that a large number of stenographers and other office men, who have graduated from your school from time to time and are now holding positions, might desire to better themselves. If you can put us in communication with some of your old graduates, who have had two or three years' experience, we should be under obligation to you."

We might mention that the concern represented in the above letter has a Capital Stock of Five Million Dollars.

When you read such evidence as the above, need you be surprised that during the period of thirteen and a half months ending in October, 348 positions were filled by our pupils.

It pays to attend CANADA'S GREATEST SCHOOL OF BUSINESS OR SHORTHAND, if you wish to thoroughly qualify yourself for office work and be assisted to a position when graduated.

ATTACK of ROYAL CANADIANS at Paardeberg

The present is a time when war pictures are in greater demand than ever. The conduct of the British soldiers on the battlefield has won the plaudits of admiring nations. We have at great expense published four large, beautiful pictures size 20x24, on heavy, superfine calendered paper. A picture that will commend itself and send a thrill to the heart of every true Canadian is the one called Attack of Royal Canadians at Paardeberg, there are literally hundreds of figures on this picture, the mountains or kopjes stretching out into the distance are swarming with men, while here and there a prostrate figure speaks only too well of the Boer riflemen. It was on this battlefield the gallant Major Arnold met death unflinchingly. Indeed, it is only too true that many of those gallant hearts that beat so high when the cheering thousands bade them Godspeed as they sailed from Canada's shores now lie still forever in lonely graves on the other side of the world under African skies. To every Canadian heart, to every Canadian home, the deeds of their brave soldier boys speak with an irresistible thrill of patriotism and pride. Gordon Highlanders at the Battle of Belmont, Charging the Boer Guns at Magersfontein and the Charge of Gen. French's Cavalry on the Retreating Gen. Cronje's Army. These are all stirring pictures and cannot fail to commend themselves to anyone who will examine them. They are RED HOT SELLERS! Agents coin money. Big profits. Enormous success. One agent sold 60 in one day. Sample and terms 25 cts (none free); four for 50 cts; $1.25 per dozen; 25 for $2.25; 50 for $6.00; 100 for $11.00. Write to-day for a dozen and make money. WEST PETERBOROUGH TO BE PROTESTED

The Times Has Been so Informed by a Prominent Local Liberal.

THE LEGAL PAPERS ARE ALL READY TO SERVE

It is Said that There will be Little Difficulty in Voiding the Election—An Opening for Foster.

It is altogether likely that a protest will be entered in West Peterborough. The riding, as everybody knows, is notoriously corrupt, and it is said that there is evidence of a corrupt nature amply sufficient in connection with the late election to unseat Mr. Kendrey. Be that as it may, yesterday a prominent Liberal told the Times that the legal papers in connection with the matter were all prepared and ready to serve. On Monday next, at 12 o'clock, the time for fyling a protest expires, so that things cannot be much longer delayed.

The parties who are mainly instrumental in bringing on the protest are considering what effect the unseating of Mr. Kendrey will have on the political situation. If a vacancy occurs, the Hon. Mr. Foster will, it is said, take Mr. Kendrey's place as a candidate, and it is just here that the shoe pinches. The Liberals would prefer to let things remain as they are rather than to create an opening for Mr. Foster. They, however, believe that West Peterborough can be redeemed, now that the Liberals are firmly in the saddle for another parliamentary term, with Mr. Kendrey as a candidate, but with Mr. Foster it might be different. Mr. Kendrey is as popular as ever, but the fact remains that a large percentage of the voters are out for cold cash or its equivalent, and they believe that it would come in process of time were Mr. Foster to adopt West Peterborough.

NOT BRITISH ENOUGH

Rev. Adam Murrman Left Montreal Church for that Reason.

Chicago, Dec. 10.—The Rev. Adam Murrman, who was compelled to resign from the pastorate of the Zion Congregational church in Montreal because he would not pray for the Queen enough and would not pray for the success of the British arms in South Africa at all, arrived yesterday at the Moody Bible institute, of which he is an alumnus, and at which he will remain a few days.

Mr. Murrman, who is a medium-sized man with blonde hair and whiskers, and is probably 40 years old, gave a short account of his history and of his trouble in Montreal.

"I was born in Germany," he said, "but came to this country when only 4 years old. I married the daughter of George Moody of Northfield, Mass., the brother of D. L. Moody. I received my theological training at the Moody Bible institute, and went from the Congregational church at Grand Junction, Colo., to the Zion Congregational church at Montreal a year ago last April, only a few months before the outbreak of the war in the Transvaal. The Zion church is the largest and wealthiest Congregational church in Montreal.

OPPOSED TO WAR.

"I have always been opposed on principle to war and the profession of arms, and am something of a Quaker in that regard. As to the Transvaal war, I always thought it was wrong, but always believed that it was best for the interests of civilization that the British should win. So that while I never paid any attention to it, I might be called a British sympathizer. Under this mixed condition of affairs I used to pray in the pulpit for the soldiers of the British army, without praying for their success, and once a month or so I used to pray for the Queen. I heard no complaint about it until last spring, when a communication appeared in a Toronto paper saying that an immense row was on in my church because I would not pray for the British arms, and making many more untrue statements on the subject.

"From that time I began to receive complaints from every direction, including Ottawa and other cities, and at last the leading officers of my church joined the hue and cry. In the meanwhile all sorts of lies were circulated about me, such as that I was born in the Transvaal, and that my wife at a church entertainment refused to play "God Save the Queen." At last I could not stand it, and I handed in my resignation last June, reviewing the circumstances and giving my reasons for not complying with the requirements of the officers of the church

CHURCH SUPPORTS HIM.

"The result was that the church stood by me, and drove out of it four of its most prominent officers, including a man named Moodie, who held five offices, and had two-thirds of the money in the society. But these exiles kept up the war on me, and it grew hotter all the time, and the misrepresentations became more numerous and more serious. In the meanwhile the new complaint was started that I refused to pray.

SEVERE TERMS ARE IMPOSED.

Scranton Councilmen Must Resign, Confess Their Guilt and Abandon Politics.

Scranton, Dec. 10.—Nine of the indicted Councilmen have consented to accept the terms offered by the Municipal League and negotiations are now hanging fire pending the action of the others.

The conditions imposed by the prosecutors are much more severe than those given out yesterday. Instead of two conditions, there are four. Councilmen must resign and agree never to seek public office again. They must also make up a fund of $2,000 to be divided among four charitable institutions of the city, and must sign a paper confessing their guilt. This last condition is the one that is causing the delay, the other six Councilmen kicking against the confession.

At a subsequent meeting the crooked Councilmen resigned.

MANAGER REEVES IS NOW VICE-PRESIDENT

Important Change in Management of Grand Trunk Railway

Montreal, Que., Dec. 10—The Grand Trunk Railway has taken a new departure, and henceforth will have a vice-president resident in Canada. Mr. Geo. B. Reeve, the new general manager, has been appointed second vice-president and general manager of the whole system with headquarters in this city.

Mr. Joseph Price, the present vice-president, will assume the title of first vice-president. The change was decided upon while Sir Charles Rivers-Wilson and Mr. Price were here, but it was decided not to announce it until it had been formally ratified by the Board of Directors in London, which has now been done.

50 CASES OF SMALL POX NOW IN NEW YORK

New York, Dec. 10.—Two cases of small pox were reported to-night. They were Mary Cafray, 32 years old and Annie Clemens 34, both in West 48th street, both patients were sent to North Brother Island. This makes a total of 50 cases since the out break.

VICTORY FOR THE U.S.

Secretary Hay has Won a Diplomatic Victory Over Germany

Berlin, Dec. 10—It is now dawning upon the German press and public that Mr. Hay, the American Secretary of State, has secured an out and out diplomatic victory in obliging the powers, Germany included, to yield to his arguments in favor of more modern terms in the preliminary note to the Chinese peace plenipotentiaries. This clearly defined defeat is especially bitter here because Emperor William had set his heart on imposing the most humiliating conditions upon the Chinese and thus emphasizing Germany's power in their eyes.

KITCHENER'S PLANS

Mobile Force will be Appointed to Each District.

NO RUTHLESS DESTRUCTION

Military Men Say that Only in Case of Outrage is Property Destroyed,

London, Dec. 10 — The London Daily Mail, in speaking of attacks in England upon Kitchener, says: "The hysterical malignity which the basest journals of France displayed in days gone by is resourcelessness itself compared with the rich vocabulary of vituperation at the command of our pro-Boers. We noted some days back the infamous suggestion made by Mr. Williams that Dewet would be justified in flogging and pistolling Lord Kitchener, and that thereat the British army would rejoice. But this person has now returned to the charge with exacerbated fury, and makes respectful apologies to Satan for venturing to mention him in the same breath as Lieutenant-General Lord Kitchener. Never before in the annals of British journalism have such ravings seen the light in the pages even of newspapers which notoriously champion the cause of Britain's enemies. Still, they represent a serious and organized attempt to hamper and thwart one of our greatest soldiers in his work of pacification, and as this is made at the instigation of interested persons, we should be wrong to dismiss it with the indignant contempt which it deserves.

"There are certain laws and precedents governing the treatment of guerillas, and if these laws and precedents are followed by Lord Kitchener, no one has any right to complain. Severity in these cases is ultimate humanity. Moreover, Lord Roberts, whose very name spells clemency, has seen himself driven by stubborn facts from gentleness to firmness, and Lord Ketchener will only be treading in his steps. No sane and honorable Britain believes that our soldiers take any more pleasure in measures of retaliation than a judge when he has to sentence a criminal to death. In each case punishment is enforced in the interests of civilization. The laws of war are merciless to any enemy who poses now as a combatant and now as a noncombatant, because of the misery which such an attitude brings to women and children. A little logic would benefit our pro-Boers."

KITCHENER'S MOVEMENTS.

London, Dec. 9—The Daily Mail publishes the following from its own correspondent at Pietermaritzburg: I understand that Lord Kitchener's sweeping movement now being organized will be most thorough. The new colonies will be divided into circumscribed areas, a mobile force will be apportioned to each, and the infantry will be kept to the lines of communication. Ox wagons will be dispensed with and light Cape carts employed to carry ammunition. All Boers captured, and also neutrals, will be sent to the coast and kept there until the refugees are back and the country cleared. This is likely to occupy some time, especially in the Northern Transvaal, which, in the opinion of competent authorities, will not be cleared of armed Boers for months, and perhaps years. Of the irregular corps, the recruiting for which is very satisfactory, one corps, the Natal Squadron, and Lord Roberts' bodyguard, are already filled.

NO RUTHLESS DESTRUCTION.

London, Dec. 10 — Military men resent the idea that there has been ruthless destruction of property by the British army in South Africa. They assert that Lord Roberts' and General Buller's orders were stringent on this subject, and that discipline has been maintained under heavy penalties. General Pole-Carew was the first general to order the burning of a farm-house, and this was done in consequence of Boer treachery and a flagrant white-flag outrage. This precedent was sanctioned by Lord Roberts, and the destruction of farms has been restricted to instances of similar treachery. Private property has been scrupulously respected whenever there has been no justification for punitive acts. An illustration is cited of a penalty exacted from British officers under General Rundle's command. They had entered a deserted farm house in the Orange River Colony, and not finding wood with which to kindle a fire by which to cook their dinner, had torn down and split up a door, and had replenished the fire with the wooden fixture of a sewing machine. Gen. Rundle, when complaint was made, investigated the case and assessed the damages at £40, which the officers were forced to pay.

HOW HE FOOLED THE BOERS.

London, Dec. 10— — An old resident in the Eastern Transvaal has told his friends in Kensington how he passed through the enemy's country with £200 in gold, which the Boers never succeeded in detecting. After spending some months on his mine, cut off from the world, he determined to say good-bye to the Boers. So he beat £200 worth of gold into clasps and clamps and nailed them to his box. He daubed the whole with thick paint, and set out on his journey. Although his box was frequently searched the Boer officials never suspected the metal clasps, and the adventurer at length landed with his treasure on safe ground.

TO PUNISH THE WAZIRIS

Britain Takes Steps to Punish Tribe for Outrages.

LONG CHRISTMAS HOLIDAYS

London Employers Decide to Give Employes a Good Rest.

Simla, Dec. 10.—A blockade of Waziristan began on December 1. The Waziri chiefs were summoned to give up the outlaws demanded by Government and pay outstanding fines for outrages, including the recent murder of Lieutenant Hennessy and an attack on a police outpost in British territory, but did not comply with the terms. Troops have now been moved to the frontier, and all preparations have been made for a blockade of the country on three sides. The only side uncovered is Afghanistan, and the ameer has his own grudges against the tribe. The stopping of the passes and the cutting off of all trade between Waziristan and India will, it is believed bring the Waziris to submission within a few months.

TO TRAIN THE SCHOOLBOYS.

London, Dec. 10.—The effective increase of the defensive forces of the country was discussed at the Royal United Service Institute recently, when the Rev. C. G. Gill, captain-commandant 4th London Volunteer Rifles, and headmaster of the Grocers' Company's Schools, read a paper on "Military Training in Secondary Schools." The lecturer said all thinking Englishmen agreed that it was necessary to adopt some system by which the forces of the Empire might, as occasion required, be rapidly and effectively increased. Military drill and the use of arms should be, and ought to be, taught to boys. The nation demanded it; many school authorities were eager to realize it; the present enthusiasm had sufficient force, if utilized at once, to make the idea of training every boy in school an accomplished fact. The War Office had been asked to encourage schools to take their part in a system of national defence, and the Government would be asked to supply efficient instructors at reasonable charges. The object was not to make soldiers, but to give all boys a military training of such a character as to enable them to take their place in the ranks in after years with but short preparation. Shooting was important, and the Government might be expected to provide both weapons and ammunition on a scale sufficient to ensure real proficiency in all boys of fifteen. Lord Roberts had declared that the training given to boys would make them as efficient for service in after life as was the average reserveman when he rejoined the colors. A little hearty encouragement and organization on the part of the War Office were all that was needed to give the nation a great accession of strength.

LACE-WORKERS TAKE A REST.

London, Dec. 10.—All the lace factories at Calais and St. Pierre were closed yesterday as a consequence of the recent labor troubles, and 14,000 workpeople are thrown out of employment. Stringent regulations regarding gatherings in the streets, backed up by the display of armed force, have prevented outbreaks of violence.

LONG CHRISTMAS HOLIDAYS.

London, Dec. 10.—Thousands of employes connected with the city wholesale dry good houses rejoice to learn that in the great majority of instances employes have decided to suspend business from the ordinary closing hour on Saturday, December 22, until Thursday morning, while in some houses the holiday will last from the Friday night until the following Friday morning.

AMERICANS ON TOP AGAIN.

London, Dec. 10.—The Daily Mail says that the port commissioners at Calcutta recently invited tenders for locomotives. The lowest English tender quoted, £1,544 for each locomotive, and wanted nine months to complete the order. The lowest American tender, £1,280, and asked for six months. The latter was accepted, subject to the approval of the Government."

NELSON RELICS STOLEN.

London, Dec. 10.—The Telegraph says that a thief entered the great painted hall of Greenwich Hospital, which is used as a naval museum and stole a quantity of Nelson relics, including the admiral's watch, several of his medals, and gold ornaments from his sword sheath. The loss probably is irreparable. The object of the thief apparently was merely to obtain the metal. There is no suggestion that he is hoarding the treasures for various intrinsically valueless relics being untouched.

MUCH CHAMPAGNE WENT WRONG.

London, Dec. 10.—Pommery and Greno have called in the whole of the vintage of 1895. It was only discovered last month that in opening some of the bottles a white sediment was to be observed. Rather than risk offending some of their customers they would withdraw the whole of the vintage.

This course was no light matter for the firm, for their loss will run into many thousands of pounds. At present only a small percentage of the wine bottled in 1895 shows any deterioration.

MODEL PUBLIC HOUSES.

London, Dec. 10.—It is intended to give practical effect to the plan of temperance reform recently outlined by the Bishop of Chester, by the incorporation of public-house trust companies for London and the provinces.

The objects of these companies will be to acquire new licenses the licensing authorities may think it desirable to create. In the houses managed by the company only the best drink that can be obtained in the open market will be sold. It will not be the interest of the manager to push the sale of intoxicants. He will be paid a fixed salary with a bonus on good management and will receive no commission on the sale of alcoholic liquors. The public houses will be refreshment houses, and not merely drinking bars. The surplus profits, after allowing a sufficient sum for depreciation, reserve, and interest not exceeding 5 per cent. on invested capital, will be administered by carefully selected trustees for the benefit of the community.

Big Interest Paid

New York, Dec. 11.—The payments of dividends and interest this month will be very large. It is estimated that during the month of December approximately $42,000,000 will be paid out in interest on railroad, industrial and miscellaneous bonds and dividends on stocks. The total amount received by holders of this class of securities during the year 1900 is placed at about $615,000,000. The largest disbursements were made in January, when they exceeded $100,000,000. Next to January comes July, with an amount exceeding $99,000,000.

Terrible Crime

Lille, Dec. 11.—A great sensation has been caused in Armentieres, nine miles northwest of Lille, by a crime committed by a child of eight upon another two years of age.

Valentine Dilly, the daughter of poverty-stricken parents saw a baby girl in the street, holding a cake. She endeavored to take it from the infant and, when the latter resisted, dragged her into the house, forced her into a trunk, stabbed her in the arms and legs a dozen times and inflicted terrible wounds in the stomach with a shoemaker's knife. The infant is not expected to recover. Valentine Dilly at first accused a brother of the crime but finally confessed.

BOERS WANTED THE WAR.

Revelation in Letter from Burgher Leader in Blue Book.

London, Dec. 11.—A Blue Book of the South African despatches from Jan 3 to Oct. 24 was issued yesterday.

Sir Alfred Milner, the British High Commissioner, wiring to Mr. Chamberlain quotes from a letter dated Kroonstad Sept. 25, 1899, and written by Mr. Blignaut, brother of P. J. Blignaut, State Secretary of the Orange Free State, as follows:

"The only thing we are afraid of is that Chamberlain, with his admitted fulness of temper will cheat us out of a war and consequently out of an opportunity to annex Natal and Cape Colony and to form a Republican United States of South Africa."

The Blue Book deals largely with the Cape Colony rebels and martial law. The conclusion to be drawn from the mass of documents is the eagerness of the Cape Dutch to take up arms, and especially the willingness of the border Dutch to join the invaders without compulsion

Sir Alfred Milner, wiring to Mr. Chamberlain on Sept. 5, cites a statement by Mr. Wessels, a member of the Cape House of Assembly and of the Afrikander Bund, that 65 per cent. of his constituents joined the Boers of their own accord. Reinforcing this, he said:

"Not only border Dutch but Dutchmen all over the Colony one by one made their way to the Boer lines."

THE CANADIANS START FOR HOME

Colonel Otter and His Men Left London for Liverpool—Scenes are Enthusiastic.

London, Dec. 10 — The detachment of the Royal Canadian Regiment, consisting of companies A, F, and I, which reached England about a fortnight ago on its return home from South Africa, left London this morning for Liverpool. The Scots Guards band accompanied the men to the railroad station, where Lord Strathcona and Mount Royal, High Commissioner for Canada, and other prominent personages bade them farewell.

To what extent the Canadians had won the hearts of Londoners was evident from the curious mixture of men, women and girls, who, hanging upon the arms of the soldiers, marched with them to the station, crying, cheering, and waving their hats.

The Canadians will sail on the Steamer Lake Champlain to-morrow. From Col. Otter down they expressed intense appreciation of the warm reception accorded them in London.

ROYAL RECEPTION AT LIVERPOOL.

Liverpool, Dec. 10 — A pro-Boer meeting at which Miss Maud Gonne was to preside to-night, has been prohibited by the police.

The returning members of the Royal Canadian Regiment, which left London this morning, arrived here during the day. They received ovations from large crowds, and were entertained at luncheon by the Lord Mayor and the corporation of Liverpool.

CANADIANS IN LONDON.

London, Dec. 10—The reception of the Canadian Contingent at the Imperial Institute on Saturday evening was a notable affair. Over a thousand invitations had been issued and the great hall and adjoining galleries were thronged with Canadian residents of London, who had longed for an opportunity to welcome and honor the heroes of Paardeberg. Lord and Lady Strathcona received their guests at the head of the great staircase, and the Canadian soldiers had a foretaste among their own people of the welcome which awaits them across the Atlantic. Among the visitors were Lady Aberdeen and Mr. and Mrs. Gilbert Parker. A circle was formed before the close of the reception, and a series of hearty speeches were delivered.

Lord Strathcona undertook to express the satisfaction and pride felt by Canadians in England over the gallantry of Colonel Otter's men during the campaign and the wonderful reception which had been tendered to them since their arrival in London. Lord Aberdeen followed him with sentences ringing with appreciation of the good work done by the Queen's royal and devoted Canadian soldiers, and singled out Lord Strathcona's conduct in equipping at his own expense a large body of mounted men as one of the notable events of the war. Colonel Otter made a manly and soldierly reply on behalf of the Canadian Regiment, and Lord Strathcona, after reading a despatch of God-speed from Mr. Chamberlain, who had been detained by a Cabinet meeting, proposed three cheers for the regiment. These were given heartily, but Col. Otter at once proved what discipline could do by calling up his men to cheer for Lord Strathcona and Canada. Cheers followed like volleys of musketry with a "tiger" like a lyddite shell at the end.

GREETED BY ABERDEEN.

The contingent attended service yesterday at St. Paul's cathedral, returning thence to Kensington Barracks, where Col. Otter had arranged that they should have an opportunity to meet the Earl of Aberdeen, formerly Governor-General of Canada, and the Countess. Lord Aberdeen, in a warm address of farewell, said they had nobly fulfilled their mission, and he was sure they would be glad to get back to their own country again. He asked them to convey the greetings of Lady Aberdeen and himself to mutual friends in the Dominion.

The Chelsea Hospital was visted during the afternoon, and there were last words with Canadian friends during the evening. The regiment took a special train for Liverpool this morning and will have an official reception there, with glimpses of the docks and the town shown. The Canadians will sleep on the steamship and will sail for home early on Tuesday. The reception of the heroes of Paardeberg, has not been marred by a single unpleasant episode, and the appearance and bearing of the officers and men have been greatly admired. The good feeling existing between them and the British regulars is noticeable. They have fought side by side with the best regiments of the British army, and a spirit of good-fellowship has been created which will be a new bond in the Queen's dominions.

SIR ROBERT HART'S VIEWS

In his Opinion the Future Boxer Will be a Yellow Peril Indeed.

London, Nov. 11.—Sir Robert Hart of the Chinese Imperial Maritime Customs, writing in the Fortnightly Review, gives a graphic description of the occurrences in Pekin during the siege of the legations, and makes a prophecy as to the results likely to follow the great Boxer rebellion. Sir Robert says that the siege was evidently not undertaken by the Chinese authorities with a determination to wipe out the legations and destroy the foreigners.

He says: "Somebody, probably a wise man who knew what the destruction of the legations would cost empire and dynasty, intervened between the issue of the order for our destruction and the execution of it and so kept the soldiery playing with us as cats do with mice, the continued and seemingly heavy firing the palace how fiercely we were attacked and how stubbornly we defended ourselves while its curiously half hearted character not only gave us the chance to live through it, but also gave any relief forces time to come and extricate us."

A most interesting account is given of the daily life in the garrison and the disposition of the forces, accompanied by plans of the buildings and streets; and of the fighting from June 20, when the legations were shut off from the outside world, to August 14, when the siege was raised.

Sir Robert says concerning the character of the Boxer movement: "It is, doubtless the product of official inspiration, but it has taken hold of the popular imagination and will spread like wild fire all over the country; it is in short a purely patriotic volunteer movement and its object is to strengthen China and for a Chinese programme.

"The movement is bound to grow. Swords and spears will be replaced by Mauser rifles and Krupp guns; the Boxer patriot of the future will possess the best weapon money can buy, and then the Yellow Peril will be beyond ignoring. Wen Hsiang the celebrated Prime Minister of China, in the early sixties, said: 'You are all to anxious to awake us and start us on a new road and you will do it; but you will all regret it, once awaking and started, we shall go fast and far; farther than you think, much farther than you want.'"

The only means of avoiding the Yellow Peril, in Sir Robert's opinion, are "partition, a difficult and unlikely international settlement, or a miraculous spread of Christianity in its best form. A not impossible, but scarcely to be hoped for religious triumph will avert this result."

To Buy Fish.

A well known hotel man gives the Times this simple rule for fish buyers to follow, if they would secure fish that is palatable and certainly free of the ptomaines of which so many fish lovers stand in dread: See that the flesh is so firm that it will not be dented on pressure by the fingers, that the eyes are full, the scales bright, the fins stiff, and the gills are of the brightest, neither pale nor a dark liver color. Then, if there is no odor to the fish, it may be eaten not finally with safety, but with relish—if your cook knows how to properly prepare and serve it.

KRUGER REBUKES THOSE WHO CHEER

Says They Have no Right to Desecrate the Sabbath Day.

London, Dec. 10—Mr. Kruger received a message from the Czar Friday night, says the correspondent of The Times at The Hague. "It was couched in very friendly terms, but the fact that its existence has been kept a close secret is sufficient to indicate its author's intention to abstain from any active steps friendly to intervention. The Czar naturally pleads his illness as a sufficient excuse for not interfering.

"Mr. Kruger, when cheered by the crowd on his return from the cathedral yesterday, turned and roundly rebuked those near him for such a desecration of the Sabbath."

KRUGER THROWS UP THE SPONGE.

London, Dec. 10—Mr. Kruger has abandoned all the proposed journeys to other capitals, says the Brussels correspondent of the Standard, and all further diplomatic efforts to secure arbitration, and will await at The Hague the development of events at the seat of war.

The Hague, Dec. 10 — Queen Wilhelmina received Mr. Kruger in audience on Saturday. The visit was not attended by the ceremony usually paid to a chief of State. A court official proceeded to his hotel, and accompanied Mr. Kruger to the royal palace in a State carriage. Mr. Kruger wore a broad sash of the Transvaal colors and the Grand Cross of the Netherlands Lion. The visit lasted a quarter of an hour. The Queen, the Queen mother and Mr. Kruger alone were present. Mr. Kruger thanked the Queen for placing the cruiser Gelderland at his disposal. The crowds in the streets warmly cheered the former Boer President.

THE ANCHOR ICE

Caused Considerable Loss and very Much Annoyance

Anchor ice interfered with the light to such an extent yesterday morning that The Times was unable to work its type-setting machines, and electric power for running off the paper was not available until quite late.

It is bad enough to have the city in darkness, but the darkness that follows the non-appearance of this g.f.j. is so black and dense that people are liable to be seriously alarmed.

Yesterday morning the anchor ice gradually disappeared, and in time the electric light and electric power wheels received as usual.
